

GGT10

10 cc Gasoline Engine

COMPACT POWER FOR .40-SIZE AIRCRAFT!

- Easy, glow-driver starting eliminates the added cost and extra weight of ignition modules and batteries.
- Offers the easy availability and welcome affordability of common unleaded gasoline.
- Included PD-08 regulating pump ensures consistent fuel flow and top performance regardless of tank position, attitude or altitude.
- Runs on an inexpensive 50:1 gasoline/oil blend.
- Tough Tygon® fuel line between pump and carb features an inline filter that removes impurities.
- PowerBoost Pipe improves performance at idle, full-throttle and all points in-between.
- Includes muffler mounting hardware, drive hub, prop nut and washer.
- Forged steel conrod features needle bearings at the bottom.
- Same mount size as the 46AX and 55AX for easy retrofits.
