

# SPEED T1202 TOURING ENGINE

**Tops in  
touring car  
performance.**

Exciting news for on-road enthusiasts: O.S. Engine has made significant upgrades to the original T1201 engine! Now new and improved, the Speed T1202 meets the demands of even the most hardcore touring car drivers, with performance extras that will have you taking the checkered flag. O.S. Engine is continuing to find ways to make great engines even better, and the Speed T1202 is a shining example.

- Thicker cylinder flange effectively transfers heat created in the combustion chamber to the cooling head.
- More powerful low-to-middle range torque.
- Greater fuel efficiency, so you stay in the action longer.
- Lower center of gravity, for better handling.
- Low-profile carb restrictor enables quicker throttle response from low to high.
- Lighter weight piston performs better over the rpm range without hesitation.
- Race-proven Speed innovations such as a tungsten weighted crankshaft with diamond-like coating and silicon potting and ceramic rear bearings.

## **OSMG1996**

**Displacement:** 0.128 cu in (2.1 cc)

**Bore:** 0.538 in (13.67 mm)

**Stroke:** 0.563 in (14.3 mm)

**RPM Range:** 5,000-45,000

**Output:** 1.75 ps/1.73 hp @ 35,000 rpm

**Weight:** 7.58 oz (215 g)

**Includes:** T-RP6 Plug, Exhaust Seal Ring, 5.5 mm Carb Restrictor, Dust Caps
