

# 21XZ-B VII

THE PERFECT BALANCE BETWEEN  
PRICE AND PERFORMANCE.

As competition-level buggy engines go, the 21XZ-B VII is a super value! By making it lighter, lower and cooling running, it exceeds the expectations of even pro off-road racers — delivering power comparable to the Speed Spec II at a lower price. 1/8 scale drivers looking for a performance advantage will find it with the 21XZ-B VII powerhouse!

- Performance that rivals that of the acclaimed Speed 21XZ-B Spec II
- Shares the same piston, liner and con rod as the Speed version
- Lightening holes in the cylinder head reduce overall weight
- Other enhancements include a lower CG and improved cooling
- A 22B2 single needle carb makes tuning a breeze
- Optimized power band
- Silicone filled crankshaft with tungsten counter weights
- Blue anodized head
- Incredible throttle response
- A 7mm carb reducer is included

#### OSMG2053

**Displacement:** .213 cu in (3.49 cc)

**Bore:** .641 in (16.27 mm)

**Stroke:** .661 in (16.8 mm)

**Practical RPM:** 3,000–41,500

**Power Output:** 2.7 hp @ 34,000 rpm

**Weight:** 12.77 oz (362 g)
