

21XR-B

Precision power for club competition.

When you're setting out to build your 1/8 scale buggy racing reputation, here's the perfect place to start — with the 21XR-B engine in your machine. Whether you're outfitting a new kit or retrofitting an RTR, the 21XR-B delivers enough hassle-free performance to do any weekend warrior proud. Its 22B carb offers simple adjustments. The aluminum cooling head ensures steady power even under harsh conditions.

You get the affordable power you need NOW for backyard bashing. And you have the perfect platform for later adding top-of-the-line 21XZ-B parts, in preparation for serious podium pursuits.

- Engineered to deliver maximum performance — with minimal effort.
- Easy-to-adjust 22B carburetor.
- Proven O.S. cooling technology for steady power under severe conditions.
- Upgrade easily for high-level action — accepts 21 XZ-B parts.
