

SPEED 21XZ-GT

Ready to
tear up
the track!

O.S. has developed the perfect power plant for dominating the GT touring class competition. The 21XZ-GT boasts many of the advances that Speed engines are famous for, with special modifications that make it ideal for on-road applications. For the max performance GT Touring drivers demand, the Speed 21XZ-GT is the obvious choice.

- Five scavenger ports and three exhaust ports improve power in the mid- to high range.
- The crankshaft has been engineered for GT touring, and is silicon-potted and DLC coated with tungsten weights pressed in.
- The outer head features a lower CG.
- Long stroke design provides more torque.
- The dual adjustable carb is ROAR-legal, and comes with a 7 mm restrictor.
- Ceramic rear bearing for longevity and better performance.
