

TTX650

6-CHANNEL SLT COMPUTER RADIO

Powerful.
Intuitive.
Evolved.

Engineered to appeal to intermediate-level sport modelers, the TTX650 has the features needed to fly almost any airplane or helicopter. Generous 20 model memory set this radio apart from comparable systems, and programming utilizes easy-to-use pushbuttons. The large LCD screen offers graphing capability, with adjustable contrast for easy viewing. With its advanced functionality and budget-friendly price, the TTX650 is a remarkable value — and the perfect radio for anyone entering the ever-expanding world of Transmitter-Ready (Tx-R™) aircraft!

Includes:

- 20 model memory
- Easy-to-use push-button programming
