

# TTX850

8-CHANNEL SLT COMPUTER RADIO

Sophisticated.  
Versatile.  
Affordable.

Choose the TTX850 for its versatility, and you also enjoy performance and programming ease that's second to none. Included software and the SLT protocol make it perfect for virtually anything that flies, from multi-rotors to transmitter-ready helis and planes. Add in generous memory and a wealth of functions, and the TTX850 could easily be the only radio you'll ever need.

Here's only part of what the TTX850 has to offer!

- Airplane, helicopter and multi-rotor menus
- 30-model memory
- System Setup, Model Setup & Function menus
- Wireless & wired trainer systems with selectable channels
