

GIANT SCALE SPITFIRE

Almost Ready-to-Fly 55 cc Gas Warbird

Pilot figure shown is not included.

BRITAIN'S FINEST FIGHTER.

It would be no overstatement to say that Britain owes its continued existence to Spitfires and their brave pilots. In the darkest days of the Blitz, Spitfires clawed a path through Luftwaffe fighter screens to reach the bombers raining death on London. Once they broke the Blitz, Spitfires were deployed to every front of the war. This impressive model perfectly represents the majesty of the original fighters with scale parts and a matte-finish trim scheme. Its handling on the ground and in the air is smooth and responsive. In fact, the only thing sweeter than flying this scale Spitfire would be flying the real thing.

- Built-up and sheeted airframe components come finished in flat MonoKote film.
- Prehinged control surfaces and painted fiberglass parts reduce assembly time.
- Designed for Robart® retractable landing gear.
- Extras include an aluminum spinner, removable cannons and antenna.
- Matte-finish decals let you customize your craft to look exactly like the real thing.

TOPA0708

Wingspan: 86.5 in (2,195 mm)

Wing Area: 1,325 in² (85.5 dm²)

Weight: 22-24 lb (9.98-10.88 kg)

Wing Loading: 38-42 oz/ft² (116-128 g/dm²)

Length: 72 in (1,830 mm)

Requires: Radio system with a minimum of 6 channels (8-channel or greater recommended), 10-11 servos, 50-55 cc gasoline engine and Robart® retracts. See side panel for recommended products.
