

ZERO

ALMOST READY-TO-FLY 50-60CC
GAS GIANT SCALE WARBIIRD

Pilot figure shown is not included.
Shown with optional 3-Blade spinner and drop tank

TERROR OF THE PACIFIC.

In 1940, the Zero was the most effective aircraft in production. Its long range and incredible performance made it virtually unmatched by anything in the sky.

This scale Top Flite model is a tribute to these legendary aircraft. A thick airfoil, large wing and wide stance landing gear make it easy to handle. Make no mistake, though, it's no trainer. It has maneuverability and power worthy of the original.

- Built-up and sheeted airframe components come finished in flat MonoKote film.
- Prehinged control surfaces and painted fiberglass parts reduce assembly time.
- Designed for Robart retractable landing gear.
- Optional drop tank.

TOPA0712
Wingspan: 86 in (2185 mm)
Wing Area: 1276 in² (82.3 dm²)
Weight: 25.5-27.5 lb (11.5-12.4 kg)
Wing Loading: 46-50 oz/ft² (140-153 g/dm²)
Length: 70.5 in (1790 mm)
Requires: Radio system with a minimum of 7 channels (8-channel or greater recommended), 8-12 servos, 50-60 cc gasoline engine and Robart retracts. See side panel for recommended products.
