

Mini CONTENDER™

Almost Ready-to-Fly Sport Plane *EP*

The compact classic.

The original Top Flite Contender made its debut over 40 years ago. Thousands of pilots have honed their skills flying this classic aerobat. An ultra-thick airfoil allows an ultra-wide flight envelope, so it's just as adept at slow and steady flight as it is wild, full-throttle aerobatics.

- All-wood construction, factory-covered in MonoKote film.
- One-piece wing minimizes assembly time.
- Performs well using economical electronics.

TOPA1025

Wingspan: 36 in (915 mm)

Wing Area: 329 in² (21.2 dm²)

Weight: 27-30 oz (765-850 g)

Wing Loading: 11.8-13.1 oz/ft² (36-40 g/dm²)

Length: 34.5 in (875 mm)

Requires: Radio system with a minimum of 4 channels and 4 micro servos; .10 size outrunner brushless motor; 25A brushless ESC; 11.1V (3S) 1800-2200mAh LiPo battery & 9x6 electric propeller. See right side.
