NEW PRODUCT

EXTRA LIGHT AND EASY FOR UNLIMITED 3D PERFORMANCE!

- Engineered to be ultra-light, with tough Pro-Formance™ foam, carbon-fiber spars and specially designed hardware
- Even the smallest ElectriFly brushless out-runner motor — the RimFire™ 250 — delivers plenty of power for spirited 3D performance
- Alignment jigs are included that simplify assembly and minimize bench time

GPMA1129 Extra 330SC EP Foam Aerobat ARF
Wingspan: 32.5 in (825 mm)
Weight: 6.2-6.8 oz (175-195 g)

ElectriFly™
by Great Planes®

EXTRA_{330SC}

PRO-FORMANCE FOAM™

All control surfaces are prehinged for maximum deflection with 3M® Blendederm® tape for convenience.

3M® and Blendederm® are registered trademarks of the Minnesota Mining and Manufacturing Company.

From the Experts:

The Extra 330SC performs 3D the same way it assembles: effortlessly, and with impressive results! Simplicity and factory – installed extras push assembly time to the minimum, and with a weight of around 6 ounces — pushes performance to the limit.

Long story short...

Just in time for the indoor flying season, the Extra 330SC is designed to deliver maximum 3D thrills after very little assembly.

O.S. QUALITY AND INNOVATION IN A GASOLINE ENGINE!

- O.S. introduces the GT55, a 55 cc powerhouse for giant-scale aircraft
- The Capacitive Discharge Ignition system uses a microcomputer programmed for superior spark advance, and accepts a wide range of input voltages
- A front-induction, rotary-valve crankshaft ensures that the valve is opened and closed for optimum timing
- No oil seal is required, so no rpm is lost due to friction
- Massive front and rear bearings increase power and extend engine life

O.S. ENGINE
GT55

The front-mounted Walbro® carb provides:

1. Better cooling, for more consistent performance
2. Shorter standoffs required, for more secure mounting and less vibration
3. Very simple and direct installation of throttle and choke linkages
4. Cleaner air circulation

OSMG1555 GT55 Gasoline Engine
Displacement: 3.35 cu in (54.93 cc)
Bore: 1.618 in (41.2 mm)
Stroke: 1.618 in (41.2 mm)
Practical rpm: 1,500-8,000

From the Experts:

It's a first for O.S., and exciting news for large-scale airplane modelers! A front-mounted carburetor and electronic ignition system are just two of the cutting-edge features that set the GT55 gasoline engine apart from the competition.

Long story short...

The GT55 utilizes the technology of the world's #1 model engine manufacturer, resulting in a gasoline power plant that is unequalled in performance.

THE LATEST AND GREATEST FROM TEAM ASSOCIATED

SC18 RTR 2.4GHz Racing Truck

www.gpdealer.com

World-class Team Associated performance with true scale authenticity in a 1/18 scale electric truck!

- The fully enclosed, 2-belt drive train handles the extreme amount of power that today's brushless motors and LiPo batteries can dish out
- Fully assembled with a painted, decaled short course race truck body, AMT™ forged style wheels and aggressive tread multi-terrain tires
- Controlled by an all-new XP3-SS 3-channel 2.4GHz radio system
- Composite shocks with adjustable pre-load
- Full set of shielded ball bearings

ASCD12** 20120 SC18 RTR 2.4GHz

RC10T4.1 & RC10B4.1 RTR 2.4GHz Vehicles

Ready-To-Run 2wd electric Truck and Buggy

The Ready-to-Run Brushless RC10T4.1 and RC10B4.1 vehicles feature many of the components of the original RC10B4 and RC10T4 team kits while incorporating:

- An all new XP3-SS 3-channel radio w/ SHV1504 MG metal gear servo
- XP SC450-BL Brushless electronic speed control with LiPo cutoff, forward and reverse with reverse lock out.
- Reedy 3300kV brushless motor
- A sealed gear diff improves reliability and allows for fine tuning to meet different track conditions.

ASCD37** 7037 RC10T4.1 RTR 2.4GHz Brushless
ASCD39** 9039 RC10B4.1 RTR 2.4GHz Brushless

The RC10T4.1 and RC10B4.1 are also available in brushed versions and include:

- An all new XP3-SS 3-channel radio w/ SHV1504 MG metal gear servo
- XP SC200 electronic speed control with LiPo cutoff, forward and reverse with reverse lock out
- Reedy 17Turn Motor
- A sealed gear diff improves reliability and allows for fine tuning to meet different track conditions.

THE LATEST NEW MULTIPLEX MODELS

Fun-to-fly airplanes made from durable, lightweight Elapor foam!

Great for beginners, with a familiar Cub profile

- Receiver-Ready: servos with linkages already Installed
- Includes Brushless Motor, ESC, Prop & Spinner

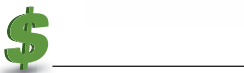

MPUA2642 Easy Cub RR ARF
Wingspan: 55 in (1397 mm)

An ideal second model, featuring a classic design

- Receiver Ready version slashes final assembly time to just a few hours
- Servos with linkages already installed
- Includes Brushless Motor, ESC, Prop & Spinner

MPUA2628 Mentor RR ARF
Wingspan: 64 in (1650 mm)

One of the best-built flying wings on the market!

- Easy to assemble
- A wide performance range
- Folds in half for easy transport

MPUA2139 Xeno ARF
Wingspan: 49 in (1245 mm)

Tuning Power Set-Xeno

- A complete system for powering the Xeno flying wing!
- Includes brushless motor, 30A ESC, shroud, prop, hub and spinner

MPUG3255 Tuning Power Set-Xeno

Axial® BTA Steering Set AX10

Better performance for your Scorpion crawler!

- BTA (Behind The Axle) Steering Set moves the steering linkage behind the front axle for improved approach and departure angles
- Made of durable 6061 aluminum, with a machined steering tie rod for less weight
- Includes high-clearance knuckles and all hardware

AXIC0533
BTA Steering
Set AX10

CSEM6300
Field Link Portable ESC
Programmer - Car

Castle™ Creations Field Link Portable ESC Programmers

Simplify access to popular ESC features!

- Handy Field Link programming cards let you change ESC control settings quickly without a computer...great for the field box or workbench!
- One-button operation — click to move through the settings and hold/click to change the values
- Can also be used as a USB adapter to connect Castle Link-compatible controllers to a Windows® PC to access all available programming options
- Car Field Link works with all Sidewinder, Mamba and Monster controllers
- Air Field Link is compatible with nearly all Phoenix, Phoenix HV, ICE, ICE HV and Thunderbird controllers, as well as CC BEC and CC BEC PRO BECs

CSEM6301
Field Link Portable ESC
Programmer - Air

Castle™ Creations Mamba Max Pro One Cell ESC

The Mamba Max Pro ESC designed for one cell class carpet racing!

- Retains the features that have made Mamba Max Pro ESCs the choice of more and more drivers
- Advanced Smart Sense™ and CHEAT mode settings give you the edge
- Good to 6S max, and factory-built to operate on the input of 1-6 LiPo cells
- Removing the cooling fans makes this ESC easier to install in tight spaces

CSEM6699
Mamba Max Pro One Cell ESC

Ofna 1/10 Jammin' SCRT-10 4WD SC Race Truck Kit

80% assembled, 100% competitive!

- All of the quality and performance you expect from Jammin' Products!
- Packed with goodies such as three oil-filled diffs, adjustable oil-filled shocks, sealed ball bearings and much more
- High-traction tires grip the track, and are complemented by bead lock wheels
- Topped off with a realistic-looking short course racing truck body

OFNC4617
1/10 Jammin' SCRT-10
4WD SC Race Truck Kit

Novak M2 Dig ESC/Dual Terra Claw Brushed Motor Combo

A complete, high-performance crawler package!

- The M2 Dig Brushed ESC features dual-motor compatibility, three fully programmable throttle profiles, five adjustable parameters and a 6V/5A BEC
- Easy to install, compatible with any Super Crawler dual-system rig, and can be fine-tuned using Novalink™ PC interface
- Twin 55T Terra Claw brushed motors delivers massive torque and long run times with extremely low maintenance

ESC also available separately:

NOVM1846 M2 Dig Dual Brushed ESC

NOVC1845
M2 Dig ESC/Dual Terra Claw
Brushed Motor Combo

Pro-Line® Split Six Bead-Loc Wheels

Give your Baja 5t some pizzazz!

- Made from high-strength, super-durable Dupont nylon material
- Two-sided bead-loc design means no glue is needed
- Ultra-bright chrome wheels with satin black finish bead-locs offer sharp looks

Also available for rear wheels!

PROC2186 Split Six Bead-Loc Wheels Rear (2)

PROC2184
Split Six Bead-Loc Wheels Front (2)

Tamiya 1/10 Sand Scorcher 2010 Off-Road Kit

Celebrating the Sand Scorcher's 30th anniversary with an upgraded re-release!

- More fine-tuned parts than before, for improved performance
- A reinforced main frame adds strength and durability
- The die-cast suspension arms, front axle and hubs are newly designed
- Still features the original's ribbed front tires and paddle rear tires

TAMC1052
1/10 Sand Scorcher 2010 Off-Road Kit

GET A GREAT HELI... AND \$10 OFF YOUR NEXT HELI-MAX™ PURCHASE!

Buy a Novus CX, FP, CP or AH-1J SeaCobra by March 31, 2010 and you'll not only enjoy Fly It Now!™ simplicity and amazing performance — you'll also qualify to receive a certificate good for \$10 off Heli-Max merchandise...and it's easy!

DON'T DELAY...
THIS OFFER ENDS
MARCH 31, 2010!

NOVUS
AH-1J SEACOBRA™

Bell, AH-1J SeaCobra, emblems, logos, and body designs are trademarks of Textron Innovations Inc. and are used under license by Hobbico®, Inc.

Here's all you do:

- When you purchase your Novus heli, ask your hobby dealer for a Merchandise Certificate Request Form, or download one by logging onto helimax-rc.com
- Fill it out and send it in to Great Planes®, along with a cash register receipt or invoice and proof-of-purchase*
- Receive your Merchandise Certificate by mail and use it towards the purchase of ANY Heli-Max product: conversion kits, replacement parts...even another Heli-Max model!

*Items sent in must be postmarked by April 30, 2010.

RUN O'DONNELL RACING FUEL IN YOUR RIDE...
...AND SHARE IN UP TO **\$120,000** IN CASH PRIZES!

Race. Win. Cash In.TM

www.gpdealer.com

O'DONNELL[®]
RACING FUEL

R/C RACER REWARDS

1 year...50 races...and over 600
chances to win cash!

Compete at designated races across the country, throughout the
year...and score some of the most generous cash prizes ever seen.

There are LOTS of ways to win!

- Finish in the top 6 in the A-Mains at select national and regional races
- Take 1st place in RC Pro Series A-Mains
- Earn a bonus for being Top Qualifier
- Win a ROAR or RC Pro Series national championship

The racing season is starting now and ends in December, 2010.
Get your model ready, and fill 'er up with O'Donnell racing
fuel — once you've seen the difference O'Donnell engineering
makes, you won't use any other brand!

Get all the program details, rules and regulations,
as well as the race schedule and payout schedule,
by visiting odonnellracing.com.

O'DONNELLTM
RACING

Cash Prize Potential was calculated by assuming that there will be a winner for all available prizes, and that all prizes will be won by drivers in the "Non-Sponsored" division. Program participation limited to residents of U.S.A. and Canada. O'Donnell reserves the right to modify, suspend or cancel this program at any time without prior notice. Some terms, conditions and restrictions apply.

FRONT-LINE REALISM

No other R/C flight simulator's graphics come close to RealFlight's!

Thanks to exclusive Real Rendering™ graphics, even the most minute details of the Sopwith Pup shown in this actual screen image are captured — right down to the stitches and wrinkles in the fabric. You'll find the same scale realism in all 75+ aircraft, and that authenticity carries over to more than thirty 3D and PhotoField™ flying sites. Plus, G5's RealPhysics™ technology ensures that every model performs as accurately as it looks.

It's just one of the many advantages that RealFlight G5 has over the competition. Ask your hobby dealer to see it today!

GPMZ4440 RealFlight G5 Mode 2
GPMZ4441 RealFlight G5 Mode 1

Already own RealFlight G3, G3.5, G4 or G4.5?

Upgrade them to enjoy all the new features of G5, using your existing controller!

GPMZ4448 RealFlight G5 Upgrade

REALFLIGHT®
R/C FLIGHT SIMULATOR
BASIC

For the budget-minded modeler

- RealFlight quality — scaled down to the basics
- A variety of aircraft and PhotoField™ flying sites
- Hobby-quality controller included
- Easy-to-use menus

THE BEST GEAR FOR ASPIRING

If you want to fly like a pro, you've got to have the right equipment! Here are the favorite tools and accessories of top R/C pilots and experts...put them in your field box and make your flying more fun!

HOBBIKO®

Marc Brooks
HC&M Hobbies, Reno, NV

"This Combo is a great way to bring everything you need to the flying field. The Ultra-Tote is roomy, convenient and organized, and the tools and accessories that come with it make this an incredible value!"

Ultra-Tote™ Field Box Complete Combo
HCAP5105

Greg Poppel
Announcer at many world class events

"Not only is the TorqMaster 90 solidly built, it's also affordably priced. You'll get years of quick engine starts — even for power plants up to .90 cubic inches."

TorqMaster™ 90 Deluxe 12V Field Battery
HCAP3200

Sean McMurtry
AMA National Champion & TOC competitor

"Install the TorqMaster LC in your field box and you'll fly worry-free! It's sealed, spill-resistant and requires no maintenance — just charge and fly!"

TorqMaster LC™ 12V 7A Field Battery
HCAP0800

Andrew Jesky
F3A Pattern National Champion

"CG is critical in setting up a plane, and the C.G. Machine makes this important step easy. The base is adjustable, and the built-in rulers are easy to see, so you know your model will be right where it needs to be. This is a must-have tool in your workshop to insure a successful first flight!"

C.G. Machine™
GPMR2400

Don Hamilton
IMAC President and competition pilot

"Equalizing cells is how you get the most out of your LiPo packs, and the Equinox does it best. It balances the voltage of 2-5 LiPo cells to very tight tolerances during charging, for more power and longer pack life."

Equinox™ LiPo Cell Balancer
GPMM3160

Matt Chapman
Full-scale Aerobatic Champion

"Not all glow igniters are the same... that's why I use the Super Hot Shot 2! The twist-and-lock head ensures easy starting with all glow engines, and 5000mAhs means plenty of power for a full day of running."

Super Hot-Shot™ 2 Glo-Starter
HCAP2528

Dave Johnson
Team Futaba® Designer Scale Champion

"In the heat of competition, I need a charger that can handle it all. The Accu-Cycle Elite lets me charge my receiver pack and ignition batteries simultaneously, so I have more time to focus on my performance without worrying about my batteries."

Accu-Cycle™ Elite
HCAP0280

RJ Gritter
TOC competitor & demo pilot

"The last thing you want is your receiver battery giving up while you're in a high alpha maneuver. LiFeSource packs have the power you need to keep your plane flying high and performing like a champ!"

LiFeSource™ Receiver Packs

- | | |
|------------------|------------------|
| HCAM6415 1100mAh | HCAM6435 2100mAh |
| HCAM6425 1800mAh | HCAM6445 3200mAh |

Triton™ EQ Charger
GPMM3155

Jason Danhaki
Team Futaba pilot

"Today's digital and brushless servos require a lot from my batteries, but keeping them up to the challenge is no problem with the TritonEQ. Not only can I charge receiver and ignition batteries, I can also maintain them at optimum levels at all times."

Matt Botos
Veteran heli pilot and XFC competitor

"This charger is the best! Not only does it charge and discharge 1-24 NiCd and NiMH cells and 1-6 LiPos and Lilons, it also has 10 battery memories, which makes it easy to store your favorite packs and have them ready for your next day at the field."

Triton2™ EQ Charger
GPMM3156

SHOWCASE YOUR ENTER THE 40TH ANNIVERSARY MONOKOTE COVERING CONTEST — YOU COULD WIN UP TO \$1000 IN R/C MERCHANDISE!

Dare to compare your MonoKote masterpiece against the competition!

For 40 years now MonoKote has been the overwhelming choice for covering model aircraft, and to celebrate this milestone Top Flite is inviting you to submit pictures of your pride-and-joy plane. Who knows? It just might be your ticket to a shopping spree at your local hobby shop!

PRIZES FOR THE
BEST-COVERED KITS...
AND THE BEST
RE-COVERED ARFS!

No purchase necessary. Contest begins April 9, 2010 and ends with a post date of September 15, 2010. Sponsored by Hobbico®, Inc., 2904 Research Road, Champaign, Illinois 61826. Void where prohibited. All federal, state and local laws apply. Open to individuals 18 or older who are legal residents of the 50 United States and the District of Columbia. Sponsor's employees, affiliates, subsidiaries, distributors and promotional, advertising and fulfillment agencies assisting with this Promotion, their employees, and the immediate families of each are ineligible. To enter, submit an entry through Hobbico between April 9, 2010 and midnight, September 15, 2010. Grand Prize is a \$1000 shopping spree at a Great Planes retailer of winner's choice. See complete rules at top-flite.com.

COVERING SKILLS!

40th MONOKOTE[®] ANNIVERSARY

It's easy!

- Two classes to be judged: ARFs and kits
- Models can be any category, any scale, from any manufacturer, with nitro, gas or electric power
- Trim schemes must be created using MonoKote coverings and accessories
- Submit up to 5 different photographs of your entry by mail or via the internet
- Entries will be judged on originality, use of color, and craftsmanship

\$3,500 in prizes will be awarded!

- 1st Place for each class is a \$1000 shopping spree at a participating Great Planes dealer of the winner's choice
- 2nd Place for each class is a \$500 shopping spree
- 3rd Place for each class is a \$250 shopping spree

Get your model, order your MonoKote,
heat up your iron and get started!

- The contest will be kicked off at the Weak Signals R/C Expo at Toledo, Ohio in April, 2010
- Entries must be received by midnight, September 15, 2010
- Winners will be announced at the 2010 iHobby Expo in Chicago in October, 2010

REVOLUTIONARY GYRO TECHNOLOGY

Futaba®

If you want to take your heli's performance to the next level, you need a gyro that's designed to do just that. GY Series gyros are packed with high-tech advantages over conventional piezo engineering, such as AVCS™ (Angular Velocity Control System), the most positive form of tail control available, and the cutting-edge MEMS™ (Micro ElectroMechanical System) sensor design. Flying with a GY Series gyro is more stable and reliable than ever before!

GY520

- The smallest, lightest and most advanced gyro in the world!
- Incredibly compact, and weighs just 6.9 grams
- Installs easily, and can control the smallest electric micro up to .91 size glow-powered monsters
- Programmable with a single button and LED, or through a PC using the Futaba CIU-2 USB Interface
- Superior performance with analog servos — even better with digitals!
- F3C and 3D mode selectable

GY SERIES

FUTABA ADVANCED SPREAD SPECTRUM TECHNOLOGY

EXPERIENCE THE FASST DIFFERENCE

2.4GHz systems utilizing spread spectrum technology are all the rage in R/C — and no one does it better than Futaba! All FASST receivers feature innovations that no other company can claim:

By shifting every 2 milliseconds, FASST receivers eliminate signal conflicts or interruptions — as well as the need for a frequency pin.

Incoming data is scanned and error correction is applied — resulting in a solid, impenetrable connection with your model.

2.4GHz FASST systems seamlessly select the best reception between two receiver antennas, so there's no loss of signal.*
*Not offered on the R616FFM, R6004FF, R6106HF and R6106HFC.

A simple push of a button links the receiver to the transmitter with a unique and permanent ID code.

With over a half-dozen 2.4GHz FASST air receivers, there's one that's ideal for your modeling needs!

1/24 1955 FORD® F-100 PICKUP STREET ROD

The classic pickup – one incredible street rod!

Ford's mid-1950s pick-ups have attained classic status – that is, as far as street rodders are concerned! Little did the designers and engineers of these enduring workhorses know that their trucks would be customized and painted in every way imaginable nearly 60 years after their original release. Kit features a detailed 5.0-liter V-8 engine with fuel injection, a contemporarily styled interior, soft black tires, chrome-plated accessories and decals with colorful custom graphics.

MONS0880 Total parts: 96 Skill level 2 Length: 7.9 (200.7 mm)

1/24 '56 CHEVY® BEL AIR®

A favorite of collectors – a classic in every respect!

Today, the 1956 Chevy Bel Air sport coupe is widely recognized as a Chevy classic and remains popular with collectors around the world. For this model, many modifications were made to the Chevy V-8 engine, turning it into one of the most popular high-performance engines ever made. Kit features a replica Corvette V-8 engine with dual four-barrel carbs and an optional supercharger, soft black tires, chrome-plated accessories, bucket seats, roll bar, alloy wheels and decals with colorful custom graphics.

MONS0881 Total parts: 99 Skill level 2 Length: 8.5 in (215.9 mm)

1/24 BUICK™ GRAND NATIONAL™

The turbo-charged '80s luxury car!

Back in 1987, the Buick Grand National was the fastest U.S. production car on the market. Its turbo-charged V-6 engine was originally designed for high-speed racing. The Grand National was painted in all black, turning a personal luxury car into a high-performance thoroughbred! Kit features a highly detailed V-6 engine and chassis with dual exhaust, an authentic stock interior, engine detailing decals, soft black tires, chrome-plated accessories, unique Grand National stock accessories and more.

MONS4265 Total parts: 96 Skill level 2 Length: 8.4 in (213.4 mm)

1/8 CREATURE FROM THE BLACK LAGOON

Universal's Gill-Man returns – in true 3D form!

In 1954, Creature from the Black Lagoon was first released upon an unsuspecting public. Filmed in 3-D, the now-classic creature feature was directed by Jack Arnold (who also directed The Incredible Shrinking Man and It Came from Outer Space) and starred Richard Carlson, Julia Adams and Richard Denning. The film was so successful that it spawned two sequels, 1955's Revenge of the Creature and 1956's The Creature Walks Among Us. Kit features a finely sculpted head, hands and feet, a coastline display base with rocks, water, a snake and lizard.

RMXS6524 Total parts: 29 Skill level 3 Length: 8.4 in (213.4 mm)

1/25 '37 FORD PICKUP STREET ROD – 2 'N 1
Distinctively styled – undeniably Ford!

With the 1937 Ford Pickup, the company started to give their trucks their own styling different from their popular car line. A completely redesigned cab, a new grille and a split windshield helped Ford outperform their competition. Kit features a choice of stock flathead V-8 or custom manifold with dual carbs and high-compression heads, a choice of vintage truck wheels and tires or steel wheels with dog dish hub caps, plus optional headlights, a lowered suspension, decals and more.

RMXS7208 Total parts: 163 Skill level 2 Length: 7.3 in (185.4 mm)

1/25 '60 CHEVY® IMPALA™ HARDTOP
One of Chevy's most striking best-sellers!

Chevrolet decided to tone down the outrageous styling which marked their 1959 Impala for 1960's model, creating another classic in the process. It quickly became a favorite of custom builders and street racers alike – this Impala's still popular 50 years since its original release! Kit features a detailed engine, an opening hood and trunk, a detailed interior, custom headlights, an optional stock suspension and wheels, a lowered suspension with custom wheels, soft black tires, chrome-plated accessories and decals with a choice of stock factory and colorful custom graphics.

RMXS4248 Total parts: 169 Skill level 2 Length: 8.5 in (216 mm)

Revell of Germany Slot Cars

1/32 '82 OPEL ASCONA 400 RALLYE MONTE CARLO
Walter Rohrl's World Rally Champion-winning racer!

Introduced in 1970, the non-rally version of the Opel Ascona (the Ascona A) was released in two- and four-door sedan models by General Motors. The second-generation Ascona B inspired the famous Ascona 400 rally car. It included a 2.4-liter engine, which was capable of delivering a staggering 230 hp. In 1982, driver Walter Rohrl took the Ascona 400 to a stunning victory. It was the last rear wheel drive rally car to win the World Rally Championship. Features super-fine details, an authentically printed design and an individually painted driver figure.

RVLW8330

1/32 AUDI QUATTRO SPORT S1 – RACE OF CHAMPIONS, 1988
Driven by Finnish champion Juha Kankkunen!

Since public safety during rally championships was no longer guaranteed, Audi withdrew from the Rally World Championships in 1986. With its unique fins and striking design, the Audi quattro Sport S1 was still being driven for other races. It made a noteworthy return to the spotlight in 1988, when Finnish driver Juha Kankkunen won the first Race of Champions. Revell Germany's special edition slot car features super-fine details, including an authentically painted trim scheme, an individually painted driver figure and compatibility with virtually every commercial slot car system.

RVLW8336

Plastic Models

Academy Models 1/48 Messerschmitt Bf 109E-3 "Heinz Bär"

A favorite of WWII's legendary Luftwaffe ace!

The redesigned Bf 109E-3 boasted plenty of new performance pluses not available on previous variants. Two MG 17s were mounted directly above the engine, and each wing included a MG FF cannon. A Daimler-Benz DB 601A engine provided 1,085 hp – 300 hp more than previous models. 1,276 Bf 109E-3s were built in all. It was most famously flown by the legendary Heinrich "Heinz" Bär, who earned 220 "kills" during his career as a fighter pilot. Academy Models' high-quality, limited edition kit includes premium Cartograf® decals.

12216 ACYS1226

Academy 1/72 F/A-18D Hornet "U.S. Marine Corps"

The U.S. Marine Corps' favorite fighter jet!

Designed to attack ground and aerial targets, the two-seat F/A-18D Hornet can be used as an all-weather strike craft or as a trainer. Modifications over previous variants include upgraded radar, a thermal navigation pod, a targeting pod and the ability to carry air-to-air or air-to-surface missiles. Kit features fully engraved panel lines and rivet details, a highly detailed cockpit and landing gear, plus three sets of Cartograf decal marking options.

12422 ACYS2422 Skill level 2

Academy Models 1/35 M4A3E8 Sherman "Easy Eight"

The U.S.' most-produced tank of WWII!

The M4 Sherman is one of the most famous tanks to ever appear on the battlefield. Over 50,000 units were produced during WWII, and its chassis was the basis for many subsequent tank destroyers, tank retrievers and artillery. M4A3E8 upgrades included a wide-track Horizontal Volute Spring Suspension (HVSS) and a 76 mm M1 gun. Kit features a replica HVSS suspension system, six-piece drive sprockets, separately molded periscopes, a super-detailed .50-caliber machine gun, a commander's cupola, vinyl tracks, a bonus set of four detailed soldier figures and three decal marking options.

13221 ACYS3221 Skill level 3

Academy Models 1/350 Admiral Graf Spee

A "Premium Edition" WWII battleship!

First launched in 1934, the Admiral Graf Spee featured eight 9-cylinder diesel engines, which reduced weight and allowed the cruiser to carry heavier, larger-caliber main guns. She was the first Kriegsmarine ship equipped with Seetakt radar. Other highlights included eight torpedo tubes, two Arado 196 seaplanes and one catapult. The Graf Spee was scuttled in December 1939, after sustaining heavy damage in the Battle of the River Plate. Kit features a detailed wooden deck, machine guns, brass barrels, brass chains, exceptional photo-etched parts and a nameplate.

14104 ACYS4104

Dragon® 1/144 F/A-18E VFA-27 "Royal Maces" & F/A-18F VFA-41 "Black Aces"

Two Super Hornets – one affordable package!

The F/A-18E/F Super Hornet is more advanced and twenty percent larger than its predecessors, the F/A-18C/D Hornet. It is most famously used by the U.S. Navy, aboard its fleet of aircraft carriers. Presently, around 370 aircraft are in service, participating in Operations Iraqi Freedom and Enduring Freedom. Set includes a transparent, two-seat canopy, crisply detailed lower fuselage sections, a choice of flying or folded wings, Sidewinder and HARM missiles, a rear cockpit instrument panel, an engine exhaust nozzle with internal detail, fuel tank and Cartograf decals with several marking options.

4618 DMLS4618

Dragon® 1/35 Pz. Kpfw. IV Ausf. J – Mid-Production

The most-deployed German tank of WWII!

The Ausf. J – the final variant of the Panzer IV family – began production in June, 1944. Distinguishing differences from past models included an extra fuel tank and the absence of Zimmerit anti-mine coating. Approximately 3,125 were manufactured before the end of WWII. Kit features a one-piece, two-sided upper hull with a newly designed engine deck, a multi-part suspension, an MG34 with gun mount, a three-directional turret, a finely detailed 7.5 cm Kw.K. 40 L/48 gun, a commander's cupola, 40 cm MagicTracks, an extendable jack and multiple photo-etched metal components.

6556 DMLS6556

Encore Models 1/72 Pfalz D.III "Blue Max"

Germany's famed WWI fighter/trainer!

While not as popular as the Albatros or the Fokker, the Pfalz D.III was used by specialized German fighter squadrons (known as Jastas) from the fall of 1917 through the summer of 1918. The D.III was also used as a trainer aircraft for the rest of WWI. Approximately 1,010 were built altogether. No surviving aircraft with original fuselages exist. However, plenty of flying replicas have been produced. Kit features a detailed exterior, a replica Mercedes engine, a full cockpit interior and decal markings for a single fictitious, lozenge-covered aircraft.

EC72004 ENCS7204

Hasegawa® 1/48 Seaking AEW. Mk. 2A

Limited edition!

Modern British Early Warning Helicopter

Estimated number of parts: 199

Includes: New plastic search water radar, radome, tail rotor with six blades, tail beam, float parts, antenna parts and more.

Markings: 1. Royal Navy 849 SQ. Code: 180, 1988.

2. Royal Navy Code: 88, 1982.

HSGS9863

Italeri 1/72 SM.81 Pipistrello

The Regia Aeronautica's three-engine bomber!

Introduced in 1935, the SM.81 Pipistrello was an updated version of the SM.73 airliner, redesigned for the military. Distinguishing features included three engines, cantilever wings and a wide fuselage, which led to its later use as a transport aircraft. 534 were built before the aircraft was officially retired in 1950. Kit features a choice of Alfa-Romeo 125 or Piaggio P.X engines, a detailed cockpit and fuselage interior with bomb bays and bombs, machine guns, retractable turrets, a semi-retractable bomber's gondola, weighted tires and decal marking options for six different aircraft.

551283 ITAS1283

Italeri 1/48 F-16 DG/DJ "Fighting Falcon"

The widely used Western fighter!

It's hard to believe that the versatile F-16 Fighting Falcon first entered service over 30 years ago! This two-seat fighter remains as useful and vital as ever, thanks to sophisticated night vision systems and electronics which allow pilots to use satellite- and laser-guided weapons. Also known as the "Viper", the F-16 has been widely employed by the U.S. Air Force in the Iraq and Afghanistan campaigns. Kit features four sets of decal marking options – 2 U.S.A.F. versions, 1 U.S.A.F.E. and 1 Greek A.F. version.

552683 ITAS2683 Total parts (approx.): 400

Italeri 1/24 DAF XF 105 Space Cab

2007's International Truck of the Year!

Produced by Dutch company DAF Trucks, the XF 105 Space Cab offers outstanding power and performance in a wide range of weather conditions. Remarkably, the Space Cab also manages to be environmentally friendly as well. Thanks to its first-rate combination of form and function, the XF 105 won the prestigious honor of International Truck of the Year in 2007. Kit features an authentically reproduced engine, a detailed chassis and cabin interior, rubber tires and a super decal sheet.

553855 ITAS3855 Skill level 2 Length: 9.6 in (245 mm)

Italeri 1/72 WWII German Aircraft Weapons Set II

Arm your 1/72 Ju 88s, Messerschmitts and more!

Kit features very detailed resin reproductions of the SC 500, the 900 Ltr. Kraftstoff Behälter, the ER 4, the AB 70, the SC 250, the SD 1700, the AB 500, the SC1000 "Hermann", the PC 500 RS and the WB 81.

5526102 ITAS5526 Total parts: 24 Skill level 3

Italeri 1/35 Kfz. 385 Tank Wagen

Keeps your 1/35 planes flying!

Derived from the versatile, multi-purpose Kfz. 305, the Kfz. 385 was the standard means for keeping German airplanes flying throughout WWII. Thanks to its exceptional off-road characteristics, the vehicle was able to operate on emergency landing fields in Africa and Russia. Modifications from previous versions included a cabin with fabric roof and a muffler with a repositioned exhaust system for safe, easy refueling. Kit features decal markings.

556467 ITAS6467 Total parts: 137 Skill level 2

Italeri 1/35 Staghound Mk.II

The classic converted armored car!

First produced in 1942, the vehicle known as the Staghound answered Allied requests for a highly mobile, armor-plated reconnaissance vehicle. While the U.S. decided to adopt the lighter M8 Greyhound, British troops favored the well-armed, dual-engine Staghound. The Mk.II variant differed from its predecessor in that it featured a 3-inch Howitzer in place of a 37 mm M6 anti-tank gun in the turret. Kit features a metal gun, a photo-etched fret, clear accessories and two sets of marking options for a Canadian or a British vehicle.

556478 ITAS6478 Total parts: 184

Italeri 1/72 Sd. Kfz. 138 Panzerjager Marder III Ausf. H

Germany's most agile armored vehicle!

In 1942, this self-propelled tank destroyer emerged on the scene as a way to combat Russia's fiercest tanks, like the KV-1 and the T-34. Using the same body as the Pz. 38 (t), the Sd. Kfz. 138 Panzerjager Marder III featured a fixed superstructure with a 75 mm Pak 40 gun and enough room for two crewmen and 38 rounds of ammo. The hull also boasted a 7.92 mm machine gun for extra firepower. Kit features decal marking options for two different versions.

557060 ITAS7060 Skill level 2

Maisto® 1/24 Shelby Series 1

Shelby's "from-the-ground-up" modern roadster!

Designed from Carroll Shelby from the ground up, the Shelby Series 1 was a limited-production, high-performance roadster made from 1998-2005. Powered by a 4-liter V-8 engine, its top speed is 170 mph – almost 15 mph faster than the 427 Shelby Cobra! Kit features a painted and decorated diecast metal body with plastic details, opening doors, steerable front wheels, an opening hood, a bonus set of custom wheels and a screwdriver.

39277 MAIS9277 Skill level 2

Maisto® 1/24 1955 Buick Century

Police the streets in style!

Specially made for the California Highway Patrol, the 1955 Buick Century two-door sedan was unavailable to the general public. Its unique design combined the Special's two-door body shell with the powertrain and trim of the standard Century. A powerful V-8 engine provided the cops with the horsepower they needed to catch criminals. Kit features a painted and decorated diecast metal body with plastic details, steerable front wheels, an opening hood, bonus custom wheels, opening doors and a screwdriver. No paint or glue required.

39295 MAIS9295 Skill level 2

Maisto® 1/24 Mercedes-Benz CL63 AMG

Loaded with creature comforts!

No grand tourer combines elegant styling and tremendous power as well as the CL63 AMG. A 507 hp V-12 engine and paddle-shift transmission powers this luxury coupe from 0-60 mph in only 4.5 seconds. Kit features a painted and decorated diecast metal body with plastic details, steerable front wheels, opening doors, bonus custom wheels, an opening hood and a screwdriver. No paint or glue required.

39297 MAIS9297 Skill level 2

Maisto® 1/24 '70 Ford Boss 302 Mustang

Built for "total performance!"

Designed by former GM employee Larry Shinoda, the Boss 302 Mustang featured distinctive "hockey" stripes which started along the top of the hood and ran down to each side. Other changes over the standard Mustang included the powerful Boss 302 engine, a front spoiler, rear deck wing and optional black horizontal rear window shades. Kit features a painted and decorated diecast metal body with plastic details, an opening hood, steerable front wheels, opening doors, bonus custom wheels and a screwdriver. No paint or glue required.

39943 MAIS9943 Skill level 2

Maisto® 1/26 1950 Chevy® 3100 Pickup

Yesterday's workhorse – today's collector's item!

Part of the post-WWII Advance Design series, the Chevy 3100 pickup was famous for its ultra-sleek, ultra-tough looks and construction. Changes that year included telescopic shock absorbers and a flat steel handle for the driver's side cowl vent. These modifications – and more – helped Chevrolet® trucks become #1 in sales from 1947 through 1955. Kit features a painted and decorated diecast body with plastic details, an opening tailgate, steerable front wheels, opening doors, bonus custom wheels and a screwdriver.

39952 MAIS9952 Skill level 2

Plastic Models

MRC™ 1/72 T-54 Iraq, 1991

The most-produced battle tank in history!

The first T-54 prototype appeared just before the end of WWII in March, 1945. Once full production began in 1947, it quickly became the primary battle tank for the Soviet Union and all Warsaw Pact countries. T-54s with upgraded mortars and weapons were used by Iraqi troops during the 1991 Gulf War. Many experts estimate that approximately 100,000 T-54s have been produced around the world. This fully assembled plastic model features exquisite surface details, a rotating turret, an elevated gun barrel, realistic vinyl tracks and a separate nameplate.

35022 MRC5022

MRC™ 1/72 M2A2 Bradley Operation Desert Storm

The upgraded Infantry Fighting Vehicle!

Designed to keep pace with the M1 Abrams battle tank, the Bradley first appeared in 1981. Powered by an eight-cylinder diesel engine, the Bradley can hold three crew members and up to six fully equipped soldiers at once. Weaknesses which were exposed during Operation Desert Storm led to such upgrades as a tactical navigation system, an eye-safe laser rangefinder and digital compass systems. This fully assembled plastic model features exquisite surface details, realistic vinyl tracks and a separate nameplate.

35054 MRC5054

MRC™ 1/72 Char B1 May, 1940, French CO3

France's famous heavy tank!

The Char B1 was originally conceived in the 1920s as a self-propelled gun with a hull-mounted 75 mm Howitzer. A turret-mounted 47 mm gun was later added, allowing the Char B1 to function as an all-out heavy battle tank for French infantrymen. By the time WWII broke out, however, the Char B1's slow speed and high fuel consumption rendered them virtually obsolete. This fully assembled plastic model features a detailed exterior and French CO3 markings.

36159 MRC6159

MRC™ 1/72 Char B1 2002 Saumur Museum

France's fiercest battle tank!

Following Germany's invasion of France in WWII, 161 Char B1s were captured and modified for use as training vehicles, flamethrower platforms and self-propelled artillery. Today, three surviving models are housed in a tank museum in Saumur, France. One is on permanent display, one is in perfect running condition and the last (a mine roller tank) is safely locked in storage. This fully assembled plastic model features a detailed, finished exterior and high-quality decal markings.

36160 MRC6160

MRC™ 1/72 Me 262A-1a WNR501232 Yellow 5

The first-ever twin-turbojet fighter plane!

You may already know the Me 262 for being the first jet-powered fighter plane when it was introduced around the end of WWII. What you may not know is that was already being planned before WWII had started. Top Me 262 speeds could exceed well over 500 mph, and it could still fly up to 310 mph with one engine. This fully assembled plastic model features a fixed undercarriage, authentic "Yellow 5" markings and an optional display stand.

36368 MRC6368

MRC™ 1/72 F-16C USAF91-0401-MO

The fabulous "Fighting Falcon!"

Although the F-16 was originally designed as a daytime-only fighter, upgrades and variations over the years have turned it into a versatile, multi-role dogfighter. "C" variant upgrades included improved cockpit avionics, improved radar, advanced weapons systems and much, much more. This fully assembled plastic model features a fixed undercarriage, drop tanks and realistic decal markings.

37125 MRC57125

MRC™ 1/72 F-16C MLU BAF Tiger Meet

The Mid-Life Update "Falcon!"

The F-16C Falcon is one of the most versatile fighters around. Innovations such as a frameless bubble canopy for improved visibility, a side-mounted control stick for high g-force flight and the ability to climb and accelerate vertically are just a few reasons why the F-16 has become a fighter pilot favorite since its first appearance in the late 1970s. This fully assembled plastic model features a fixed undercarriage, drop tanks and realistic decal markings.

37127 MRC57127

Testors® 1/48 Nieuport 17C.1

France's superior sesquiplane!

There were many colorful airplanes developed during WWI, but none were as distinctive as the Nieuport 17C.1. Its sesquiplane design meant that it had a lower wing which was about half the wing area of the upper wing. The Nieuport could outmaneuver and out-climb enemy aircraft with ease, and its 110 hp Le Rhone engine made it one of the fastest Allied planes around. Kit features one-piece upper and lower wings, a .30-caliber Lewis machine gun, a .30-caliber Vickers machine gun, a movable prop, pilot figure and waterslide decal markings.

Testors® 1/48 Travel Air Mystery Ship

Travel Air's secret...revealed!

Dubbed the "Mystery Ship" by the press because its design and construction were done in total secrecy, this legendary wire-braced aircraft was the first to bring low-wing monoplane engineering to air racing. In 1929, Travel Air became the first recipient of the now-legendary Thompson Trophy, beating the best aircraft offered by the U.S. Army and U.S. Navy. Kit assembles in an hour or less and includes flying wires, a pilot and waterslide decals. Requires paint and glue.

Skill level: Inte/Adv

Length: 5 in (127 mm)

Wingspan: 7.25 in (184 mm)

Testors® 1/48 SPAD XIII C.1

France's fiercest fighter biplane!

The SPAD XIII C.1 is famous for being one of the most capable fighter biplanes of WWI, and with good reason. Its powerful Hispano-Suiza 8B engine made it faster than the Fokker D.VII and the Sopwith Camel, while two 0.030 Vickers machine guns gave the SPAD XIII C.1 more firepower, too. Famous SPAD pilots included America's Eddie Rickenbacker, Italy's Francesco Baracca and France's Georges Guynemer. Kit assembles in an hour or less and includes markings for the 17th Pursuit Squadron. Requires paint and glue.

Plastic Models

Testors® 1/48 Messerschmitt ME-163 Komet

Germany's revolutionary rocket-powered fighter!

Designed by Alexander Martin Lippisch in the early 1940s, the ME-163 Komet remains the only rocket-powered aircraft to ever become fully operational. During a 1944 flight, test pilot Rudy Opitz reached an astonishing 698 mph. However, the aircraft's brief seven-and-a-half minute flight times made it an ineffective fighter. An estimated 370 Komets were produced before WWII's end in 1945. Kit assembles in two hours and paints in two hours. Glue and paint required.

7625N TESS1625 Total parts (approx.): 50-100 Skill level: Int/Adv Length: 7.6 in (193 mm)
Wingspan: 8.7 in (221 mm)

Testors® 1/72 North American SNJ Texan

The U.S. Navy's WWII famed fighter/trainer!

The T-6/SNJ's genealogy can be traced all the way back to 1934, when the North American NA-16 prototype took its maiden flight. While primarily used as a trainer, the Texan did operate in more aggressive combat roles throughout WWII and beyond. Later models in the T-6/SNJ series featured retracted landing gear, an all-metal fuselage and reshaped wing tips. With its reshaped rudder, the SNJ-3 finally gave the Texan its now-familiar outline. Kit assembles in an hour or less. Glue and paint required.

663N TESS1663 Total parts (approx.): 15-30 Skill level: Int/Adv Length: 4 in (101.6 mm)
Wingspan: 7 in (177.8 mm)

Testors® 1/72 Spirit of St. Louis

"Lucky Lindy's" popular transatlantic flyer!

On May 22, 1919, hotel owner Raymond Orteig offered \$25,000 to any pilot who could cross the Atlantic from New York City to Paris (or vice-versa) non-stop. Nearly a decade had passed by when aviator Charles Lindberg successfully carried out Orteig's challenge in May, 1927 with his plane, The Spirit of St. Louis. After his history-making flight, which lasted 33 hours, 39 minutes and 29.8 seconds, Lindberg forever became a beloved American icon. Kit can be assembled in less than an hour. Includes a display stand. Requires paint and glue.

664N TESS1664 Skill level 2 Estimated number of parts: 15-30

Testors® 1/48 Curtiss Racer

Jimmy Doolittle's high-speed record-setter!

The Curtiss R3C was introduced by the Curtiss Aeroplane and Motor Company in 1925. The R3C-1 landplane won the Pulitzer Trophy Race on October 12, 1925 with a speed of 248.9 mph. The R3C-2 twin-float seaplane was built for the Schneider Trophy race and was piloted by Jimmy Doolittle, George Cuddihy and Ralph Ofsie. While Cuddihy and Ofsie never reached the finish line, Doolittle won the trophy and set a new world record with a speed of 245.7 mph. Kit assembles in an hour or less. Requires paint and glue.

912N TESS1912 Total parts (approx.): 19

Testors® 1/48 Ryan PT-20

The rare USAAC "Recruit!"

Produced by the Ryan Aeronautical Company, 30 PT-20s were delivered to the U.S. Army Air Corps in the late 1930s. Its two-seat tandem design made it a unique, efficient trainer aircraft, and a 125 hp Menasco L-365-1 inline engine provided more than enough power for aspiring pilots to become airborne. Later PT-20A variants were fitted with larger, more reliable Kinner R-440 radial engines. Kit assembles in 2 hours and paints in 2 hours. Glue and paint required.

7510N TESS7510 Total parts (approx.): 50-100 Length: 5.3 in (134.6 mm)
Wingspan: 7.5 in (190.5 mm)

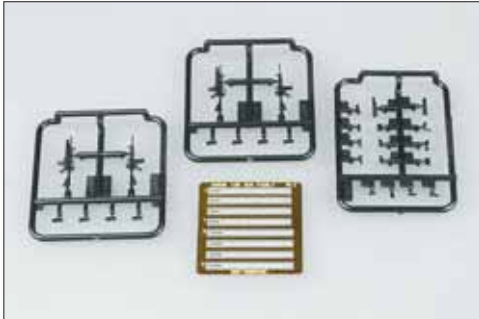

Trumpeter® 1/35 Modern German Figure Sets

Get a fighting chance!

Both of these newly tooled five-figure sets from Trumpeter include machine guns, helmets, duffle bags and more. Each figure also comes with its own unique, distinct pose.

TSMS0421 Modern German ISAF NATO Soldiers in Afghanistan (121 parts)
 TSMS0422 Modern German KSK Anti-Terrorism Commandoes (123 parts)

Trumpeter® 1/35 AR15/M16/M4 Family Machine Gun Sets

8 easy, exciting ways to stay armed!

Each newly tooled weapons sets feature 28-38 plastic parts and 8-24 photo-etched parts. *XM117* set includes parts for 6 guns; the rest include parts for 4 guns.

TSMS0505	XM117 Machine Gun	TSMS0509	SR16 Machine Gun
TSMS0506	M4 Machine Gun	TSMS0510	CQB Machine Gun
TSMS0507	M733 Machine Gun	TSMS0511	M16A4 Machine Gun
TSMS0508	M4RAS Machine Gun	TSMS0512	SR-25 Machine Gun

Trumpeter® 1/144 Messerschmitt Me262 A-1a

Germany's jet-powered fighter returns!

While historians debate the overall success of the Me262 A-1a, there is no doubt that it is one of the most influential fighter aircraft ever produced. If not for their late introduction (well into 1944) and a low rate of deployed, fully operational aircraft, it is safe to speculate that the highly advanced Me262 A-1a may have allowed the Luftwaffe to reclaim air superiority. Kit features a clear canopy and a detailed tractor.

1319 TSMS1319 Total parts: 32 Length: 2.9 in (73.4 mm)
 Wingspan: 3.4 in (86.9 mm)

Trumpeter® 1/35 WWII German Army BP42 "Geschutzwagen" Cannon Railcar

Features all-new tooling!

The cannon-armed car of the BP42 (Series 42) armored train was equipped with either a Russian M 02/30 (L/30 barrel) or a captured 10 cm Polish (Skoda) F.H. 14/19 (p). It was placed in an armored, rotating turret, while the other half of the railcar housed part of the infantry. The Geschutzwagen was placed on either side of the locomotive. The outer half connected to the command cars by a covered tunnel. Kit features detailed lower and upper hulls, five sections of track roadbed and a photo-etched turret accessory.

1509 TSMS1509 Total parts 193 Length (approx.): 11 in (279.4 mm)

Trumpeter® 1/35 LAV-A2 8x8 Wheeled Armored Vehicle

The new, improved Light Armored Vehicle!

First used by the U.S. Marine Corps in the 1980s, the LAV-A2 represents the latest version of the popular armored troop transport. It comes fully equipped with a modern target designation system, which features a laser range finder and a thermal imager. A \$189 million General Dynamics Land Systems contract supplied the U.S. Marines with 151 LAV-A2s by the end of 2008. Kit features detailed upper and lower hulls, a realistic turret, 8 rubber tires, a photo-etched engine deck mesh sheet and markings for the U.S. Marine Corps.

1521 TSMS1521 Total parts (approx.): 293 Length: 7.3 in (185.5 mm)

Trumpeter® 1/35 British Challenger II Main Battle Tank

The world's most reliable battle tank!

The Challenger II is currently in service with the United Kingdom and Oman. Extensively redesigned from the Challenger I, the II model resembles its predecessor only in its hull and most basic parts. It served in Kosovo as well as the 2003 invasion of Iraq without suffering a single loss due to enemy fire. Kit features anti-heat guards, a detailed turret and hulls, tracks, photo-etched fender parts and markings for Iraq, 2004.

1522 TSMS1522 Total parts: 521

Trumpeter® 1/32 Messerschmitt Bf109E-3 German Fighter

The magnificent German fighter returns!

First produced in 1938, the E-variant boasted a more powerful Daimler Benz engine, which yielded significantly more horsepower than previous versions. The E-3 added structural improvements, plus two MG17s above the engine and on MG FF in each wing. Kit features a fully detailed engine and cockpit, positionable flaps, 3 rubber tires, photo-etched detail parts and two sets of decal marking options.

2288 TSMS2288 Total parts: 277 Length (approx.): 11 in (279.4 mm)
Wingspan (approx.): 12 in (304.8 mm)

Trumpeter® 1/48 Sukhoi Su-24M Fencer-D

The superior Soviet attack aircraft!

Approved for service in 1983, the Su-24M boasted such upgrades as a retractable refueling probe, a new internal navigation system, a guided weapons system and reshaped attack radar. This variant also consumed less fuel than previous versions (over 22 gallons per flight). The last Su-24M rolled off the assembly line in 1993. Kit features a detailed cockpit, detailed radar, adjustable wind-swept wings, positionable flaps, countless external loads, metal landing gear struts, detailed fuselage halves, six rubber tires and markings for the Russian Air Force "Red 42."

2835 TSMS2835 Total parts: 697 Length (approx.): 20 in (508 mm)
Wingspan (approx.): 14 in (355.6 mm)

Trumpeter® 1/32 Fairey Swordfish Mk.II WWII Biplane

The terrific torpedo bomber!

Used by the Fleet Air Arm of the Royal Navy during the Second World War, the Fairey Swordfish managed to outlast many of its replacements. Intended as an anti-torpedo aircraft, the Swordfish also evolved into an anti-submarine and training craft over the course of the war. 1943's Mk.II variant featured metal lower wings, which allowed the mounting of rockets. Kit features foldable wings, torpedoes, bombs, rockets and flares, plus two-level landing gear, three rubber tires and a photo-etched bracing wire set.

03208 TSMS3208 Total parts: 337 Length (approx.): 13 in (330.2 mm)
Wingspan (approx.): 17 in (431.8 mm)

Trumpeter® 1/350 U.S.S. Momsen DDG-92

The amazing Arleigh Burke-class destroyer!

Launched in July, 2003, the U.S.S. Momsen DDG-92 is the 26th Arleigh Burke-class ship, and one of the newest. She is currently assigned to Squadron 9 in the Pacific Fleet of the U.S. Navy, which is based in Everett, VA. Kit features detailed lower and upper hulls, a waterline plate, main deck, photo-etched handrails, separate sonar, a detailed bridge, two SH-60 helis, display stand and nameplate.

4527 TSMS4527 Total parts: 530 Length (approx.): 17 in (431.8 mm)

Trumpeter® 1/700 U.S.S. Massachusetts BB-59 Battleship

Winner of 11 battle stars!

The U.S.S. Massachusetts BB-59 was the sixth ship to be named in this state's honor. Legend has it that not only did she fire off the first shells of WWII, but she also fired off the last shells as well. She was opened as a museum ship in 1965 and today she is one of eight surviving U.S. WWII battleships. Kit features 16" 45-caliber gun turrets, 5" 38-caliber gun turrets, upper/lower hulls, a detailed deck, waterline plate, two OS2U-1 seaplanes, display stand and nameplate.

5761 TSMS5761 Total parts: 378 Length (approx.): 12 in (304.8 mm)

Trumpeter® 1/700 H.M.S. Renown, 1942

The renowned British battle cruiser!

The H.M.S. Renown was a 26,500 ton battle cruiser which first appeared during the outbreak of WWI. She received a reconstructive makeover in the 1930s, which greatly changed her appearance and gave her an updated anti-aircraft gun battery, enhanced aircraft-handling facilities and updated gunfire controls. Kit features detailed upper and lower hulls, waterline plate, two Walrus Mk. I aircraft and a display stand.

5764 TSMS5764 Total parts: 288 Length (approx.): 13 in (330.2 mm)

Zvezda 1/35 L-4500R Maultier 4.5T Halftrack

Recreates the dependable "Mule!"

The Sd. Kfz. 4 Gleiskatten-Lastkraftwagen half-track was first developed by Germany following their 1941 invasion of the U.S.S.R. They were designed specifically to deal with the ice and mud, which typically bogged down the round-bound commercial vehicles used to supply German forces. The type L-4500R was equipped with the FuG Spr. G f radio and used Pz. Kpfw. II running gear. Kit features polystyrene track, two figures and two sets of decal marking options.

03603 ZVES3603 Total parts: 342 Length: 8.8 in (223.5 mm)

Zvezda 1/35 Soviet Tank Hunters

Man's best friend included!

Throughout WWII, anti-tank dogs were trained by the Soviet and Russian military to carry and deposit explosives near tanks, armored vehicles and other enemy targets. While the overall success of this program remains in question to this day, there are numerous documented instances where the dogs were able to infiltrate dozens of enemy targets at once. Kit features three Soviet tank hunter figures with three dogs, plus one Mosin rifle and one PPSH submachine gun.

03611 ZVES3611

Zvezda 1/72 Scythian Calvary VI-III B.C.

Prepare for ancient battle!

The Scythians, or Scythes, were an ancient Iranian people of horse-riding nomads who dominated the Pontic-Caspian steppe (then known as Scythia) throughout the classical era. Much of today's surviving information about the Scythians is found within the pages of Herodotus' Histories and from archaeological digs in the Ukraine and Southern Russia. Kit features 18 unpainted, unassembled cavalry figures in 8 different poses with weapons and horses.

Skydog Kites Barnstormer Bi-Plane

Rule the skies with this 3-D thriller!

- Easy to assemble, launch and fly
- Made of durable ripstop nylon with a fiberglass frame
- Comes with a plastic carrying case
- Dimensions: 39.5"W x 35"H

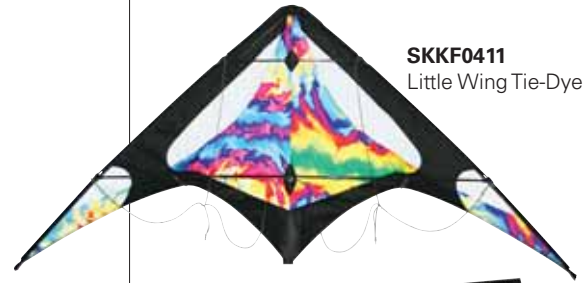

SKKF0002
Barnstormer Bi-Plane

Skydog Kites Little Wing Tie-Dye

From world renowned sport kite designer Dodd Gross!

- 2-line control allows for a wide array of aerobatics
- Can be flown in winds from 4-20 mph
- Features a ripstop nylon sail and fiberglass tube frame
- Dimensions: 59.5"W x 27.5"H

SKKF0411
Little Wing Tie-Dye

Skydog Kites 33" Shadow Best Flier

From Skydog's Best Flier line, the easiest kites ever!

- An excellent kite for the beginner
- Built to last, with durable ripstop nylon and a tough fiberglass frame
- Dimensions: 33"W x 76"H

SKKF1103
33" Shadow Best Flier

Skydog Kites 55" Black Rainbow Delta

Aerodynamically designed for easy launch and steady flight

- Eye-catching graphics make this delta stand out!
- Includes 300' of line on a flight ring with swivel clip and a nylon carrying case with handle
- Dimensions: 55"W x 29"H

SKKF1165

Delta

Skydog Kites 32" Tie-Dye Diamond

Quality upgrades for the traditional diamond style!

- Includes a nylon tail for stable flight and added beauty
- Made with rugged ripstop nylon and fiberglass
- Dimensions: 32"W x 31"H

SKKF2221
32" Tie-Dye Diamond

SKKF2501
First Foil

Skydog Kites First Foil

A traction stunt kite that offers a true power experience!

- Can be flown by a first-timer in winds of 6-25 mph
- Includes a nylon case and fly lines with flight bar
- Dimensions: 1.4 meters

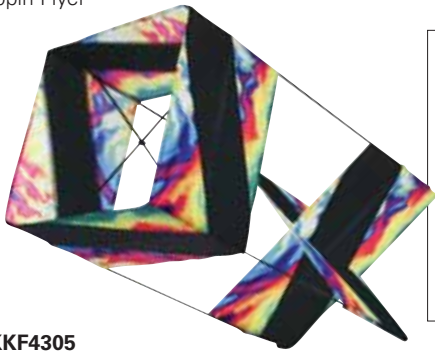

SKKF3251
Flippin Flyer

Skydog Kites Flippin Flyer

A soft kite you can take anywhere!

- Features an air-frame with no sticks to break and no adjustments to make
- Just take the parafoil from the bag, attach your line, and set sail!
- Ideal for bikers, hikers, boaters and anyone on the go
- Dimensions: 16"W x 16"H

SKKF4305
Tie-Dye X Box

Skydog Kites Tie-Dye X Box

The 3-D alternative to the basic kit platform

- Features more than one sail surface, to catch the wind and stay aloft
- A steady flier that can shift and adjust to changing winds
- Dimensions: 30"W x 20"H

SKKF9353
30 lb. Flight Ring

SKKF9382
6' Tie-Dye Tail

Skydog Kites 30 lb. Flight Ring & 6' Tie-Dye Tail

Quality accessories to enhance your kite-flying experience

- Add beauty and stability to any kite with the 6' ripstop nylon tail
- 30 lb. Flight Ring is easy to use, and comes with 300' of line and a swivel clip for quick flight prep

SKKF4061
Rainbow Pinwheel Spinner

Skydog Kites Rainbow Pinwheel Spinner

Add motion and color to any outdoor scene!

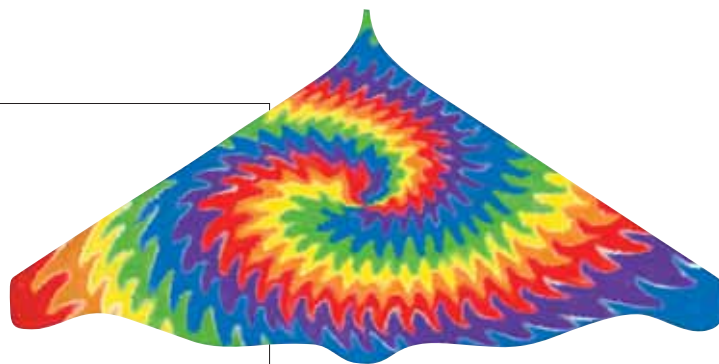

- Features 3 pinwheels, measuring 8", 11" and 14"
- Made of color-fast nylon and sturdy fiberglass
- Includes a ground stake

Just Released

Gayla® Kites StuntMaster™ Sky Dye

A high-performance kit with rad "retro" looks!

- Made of high quality ripstop nylon
- Measures 48"W x 31"H
- Includes 2 rolls of twine

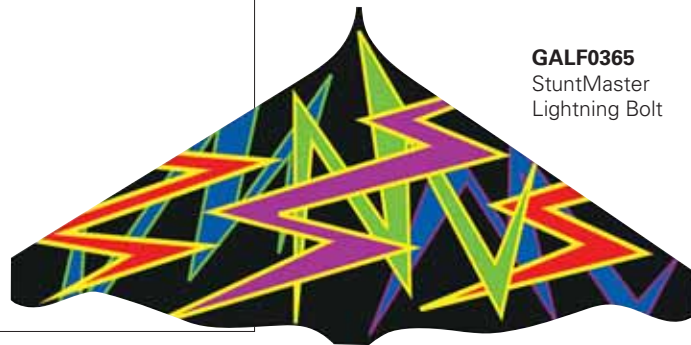

GALF0361
StuntMaster Sky Dye

Gayla® Kites StuntMaster™ Lightning Bolt

Light up the sky with this colorful kite!

- Lots of sport flying fun, with spirals and power dives
- Includes 2 rolls of twine
- Measures 48"W x 31"H
