NEW PRODUCT

NOVUS INNOVATION TAKES ON

It is the smallest torque tube-driven electric heli ever designed — as well as the best-equipped sub-micro R/C has ever seen! The Novus 125 CP heli comes with high-tech features you wouldn't expect to find on a machine of this size, and it comes fully assembled too! With the fully aerobatic Novus 125 CP with collective-pitch, you'll enjoy amazing performance...in any room of your house or outside!

www.gpdealer.com

FLY IT NOW!TM

Indoors or out!

Dual Rates Switch

Dual rates on the Novus 125 CP heli radio lets you make the transition from coaxial to single rotor in two smaller steps, instead of one big leap.

The Novus 125 CP heli comes fully assembled, and complete with radio, battery, charger and extra blades.

NEW DIMENSIONS

Heli-Max™

 The logo features a large, stylized white 'N' with a red swoosh underneath it. To the right of the 'N', the words 'NOVUS™ CP' are written in a smaller, white, sans-serif font. Below this, the number '125' is written in a large, bold, red font.

NOVUS™ CP
125

With its collective-pitch rotor head and the swift, precise response of Bell-Hiller mixing, the Novus 125 CP is fully aerobatic and 3D capable.

HMXE0806 Novus 125 CP Sub-Micro EP Heli RTF
 Rotor Span: 12.0 in (305 mm)
 Weight: 3.2 oz (91 g)
 Radio: 6-channel programmable 2.4GHz computer radio with dual rates and backlit LCD

The Novus 125 sub-micro heli comes with all this!

- Brushless motor and ESC
- Torque tube-driven tail
- Heading-hold gyro
- Programmable 2.4GHz computer radio systems with dual rates and backlit LCD
- Digital servos
- 3.7V 600mAh LiPo battery
- AC wall charger

From the Experts:

The Novus 125 CP sub-micro heli is all about value and performance. The value is in the top-notch components: 2.4GHz radio, brushless motor and ESC, heading-hold gyro, digital servos and a LiPo battery and charger. No other heli of this size offers all that! Those quality components translate into amazing performance that you can enjoy indoors or out. On top of that, it comes complete and ready for action — simply charge your battery, and Fly It Now™!

Long story short...

This Novus 125 heli is the most advanced sub-micro machine you've ever seen!

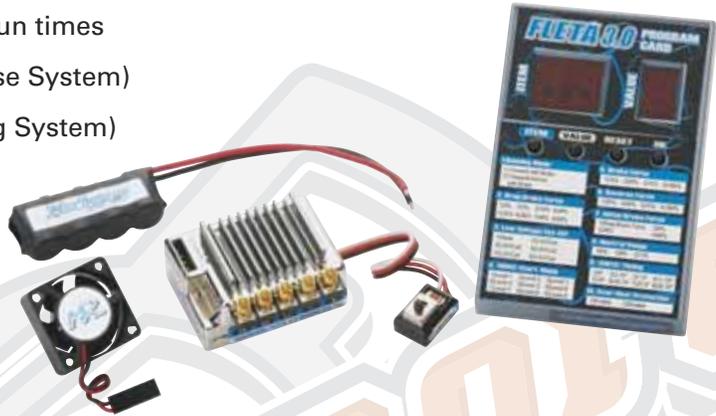

ELITE ELECTRONICS FOR THE SERIOUS RACER

www.gpdealer.com

FLETA 3.0 Brushless ESC

- 'Green Power' for longer, more consistent run times
- 9 modes of D.R.R.S. (Digital Racing Response System)
- 8 modes of A.M.T.S. (Advanced MultiTiming System)
- Smart ESC Program unit with 11 adjustable functions
- For both sensed and sensorless operation

MMRM1000

Cell Master Legend Charger

- 3 types of charge cutoff system and display — Peak Cut, Capacity Cut and Temperature Cut
- Customizable main menu with quick-set button and up/down scroll wheel
- 16A charging and 10A discharging for high-capacity LiPo and LiFe cells, as well as NiCd and NiMH batteries
- As part of Muchmore's creative docking system, this charger connects directly to the Power Master Legend Power Supply with no wires!*

*Comes equipped with a lead for use with other power supplies.
MMRP1006

Power Master Legend Dual Power Supply

- One compact, convenient unit for powering TWO chargers simultaneously with one control panel
- Auto-adjustable input voltage
- Dual adjustable output voltage
- Dual power monitor with black LCD display

MMRP1052

From the Experts:

These newest track accessories from Muchmore have the features that winning racers demand. From the versatile FLETA 3.0 Brushless ESC to the Cell Master Legend charger that works directly with the Power Master Legend Dual Power Supply, Muchmore products are designed to deliver maximum performance at the highest levels of competition.

Long story short...

Muchmore products go beyond superior design and manufacturing — they're also track-tested and enthusiastically endorsed by world champion drivers!

21VZ-B V-SPEC LIMITED EDITION

- Own a piece of history— Final production run
- The V-shaped aluminum head is gold anodized with special printing for standout looks
- Sixteen machined holes lighten overall weight and improve cooling
- SG-style crankshaft is made from hardened, machined steel — a chamfered fuel chamber exit point provides smooth fuel/air mixture
- The 21J slide-valve carb with 8 mm and 9 mm restrictors allow quick and easy tuning for specific race conditions

OSMG2066 21VZ-BV-Spec Limited Edition

Displacement: 0.211 cu in (3.46 cc)
Bore: 0.654 in (16.6 mm)
Stroke: 0.630 in (16.0 mm)
Practical rpm range: 3,000-40,000
Output: 2.48 ps @ 33,000 rpm
Weight w/o muffler: 12.7 oz (360 g)

Each engine
is numbered
from
001 to 300

Own a 21VZ-BV-Spec from the final production run!*

O.S. ENGINE

25XZ(P) ABC TRUGGY ENGINE

- Premium power for owning the winner's circle at 1/8 scale off-road events!
- More muscle than a .21 — better fuel economy than a .28
- Lower center of gravity aids in handling
- The 21JN carburetor offers four settings for a smooth transition throughout the power band

OSMG2080 25XZ(P) ABC Truggy Engine

Displacement: 0.25 cu in (4.09 cc)
Bore: 0.689 in (17.5 mm)
Stroke: 0.669 in (17.0 mm)
Practical rpm range: 4,000-39,000
Output: 3.1 ps @ 33,000 rpm
Weight: 13.05 oz (370 g)

Long story short...

The 25XZ(P) ABC is the best balance of power, performance, fuel efficiency, size and weight within ROAR regulations!

O.S. ENGINE

BIG, BOLD BAJA 1000 ACTION — RIGHT IN YOUR BACKYARD!

With gasoline engine convenience and 2.4GHz radio technology for worry-free control, HPI's hot new 1/5 scale Baja buggy and truck define rip-roaring off-road excitement!

Both models feature:

- 2.4GHz Spread Spectrum DSSS radio system that eliminates interference
- Built-in failsafe function to protect from low-voltage runaways
- Pull-start gasoline engines that are simpler to maintain and deliver up to a 1/2-hour of run time on a single tank
- High Flow muffler and 8000 rpm clutch to boost horsepower and provide more punch off the line
- Fully adjustable VVC/HD shocks for excellent damping

HCAM6402
LiFeSource 200mAh 6.6V
1C LiFe Receiver Pack

Hobbico® LiFeSource™ 200mAh 6.6V 1C LiFe Receiver Pack

New "LiFe" for 1/10 and 1/12 scale 1-cell racers!

- Small and lightweight, with one discharge lead, so it installs easily in tight spaces
- Nominal 6.6V voltage does away with the regulators required for LiPos
- Charges quickly, with high energy density
- Thermally stable, and also environmentally friendly

MPUE1301
Funcopter Kit

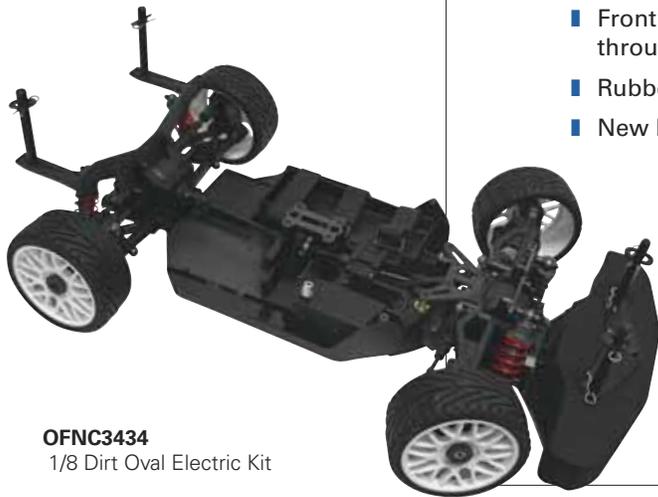

Multiplex® Funcopter Kit & RR

The electric machine that's simple, durable...and fun!

- Ideal for the first-time flier, or as a step up from coaxial designs or transition from fixed wing models
- The patented crash-resistant rotor head, sprung landing gear and direct drive system make the Funcopter virtually indestructible
- Completely assembled, with a fixed pitch rotor that requires no adjusting

Also available:

MPUE2631 Funcopter RR (Receiver Ready)

OFNC3434
1/8 Dirt Oval Electric Kit

Ofna 1/8 Dirt Oval Electric Kit

80% preassembled, 100% winner!

- Engineered from the ground up for oval racing, with adjustability and durability that's second to none
- A solid center spool delivers excellent traction and acceleration
- Front and rear pivot ball suspension and front CVAs improve handling through the turns
- Rubber racing tires grip the surface securely
- New body mounts allow for mounting late model oval bodies

TCPC3658
14.8V 5400mAh 4S
35C LiPo Racing Pack

Team Checkpoint® 14.8V 5400mAh 4S 35C LiPo Racing Pack

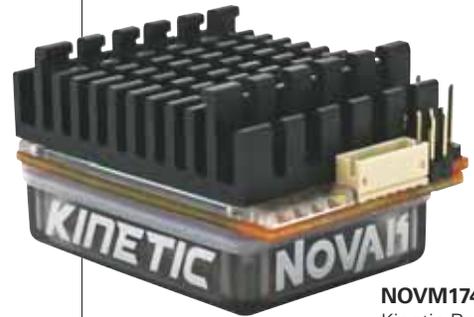

Dominate 1/8 scale buggy and truggy competition!

- Impressive C-rating for blazing speeds and plenty of torque
- Run longer and stronger with this pack's 5400mAh of capacity
- Hard case construction stands up to the rigors of racing
- Includes built-in genuine Deans® Ultra™ female connector

Novak Kinetic Racing Brushless ESC

The new flagship of Novak competition ESCs!

- DynamicTiming Advance™ increases motor rpm from signals throughout the ESC
- Electronic Power Control™ digitally adjusts the current limiter, fine-tuning power and response for more consistent throttle
- Brake and Throttle Curves allow drivers to gradually or aggressively customize stopping and acceleration using Novak's PC interface
- Adjustable Voltage Cut-Off improves vehicle performance while protecting the battery

NOVM1740
Kinetic Racing
Brushless ESC

Novak Kinetic/Ballistic Brushless ESC/Motor Racing Systems

Teaming up Kinetic precision and Ballistic power for the winning edge!

- Multiple adjustable parameters, both on-board and via the optional PC interface
- Each system is factory-wired and tuned and tested together for optimal performance
- User-friendly One-Touch programming interface features five colors of LEDs to help personalize ESC settings
- Sensor-based for excellent torque and low-speed drivability
- Compatible with all 540-sized Novak brushless motors and any ROAR-approved 540-sized sensored brushless motor

NOVC3140
Kinetic 3.5T/Ballistic
10,500kV

Available in 10 ESC/motor combinations:

PUT YOUR COVERING SKILLS TO YOU COULD WIN A SHOPPING

40th MONOKOTE[®] ANNIVERSARY

Enter your pride-and-joy plane in the
40th Anniversary MonoKote Covering Contest...
and see if you've got what it takes to win!

MonoKote is celebrating 40 years of being the #1 choice for covering R/C planes by inviting you to send in pictures of your model. There are separate categories for covering a kit and re-covering an ARF. If your entry is judged one of the best, you could earn FREE MERCHANDISE at your local hobby shop!

THIS CONTEST IS NOT JUST FOR KITS... BUT FOR ARFS TOO!

AS SEEN ON
VIDEO
top-flite.com

SIX WAYS TO WIN — WITH \$3500 IN PRIZES TO BE AWARDED!

Kit Division

1st Place, Kit Division = \$1000 shopping spree

2nd Place, Kit Division = \$500 shopping spree

3rd Place, Kit Division = \$250 shopping spree

Here are the basic rules:

- Two classes to be judged: ARFs and Kits
- Models can be any category, any scale, from any manufacturer, with nitro, gas or electric power
- Trim schemes must be created using MonoKote coverings and accessories
- Submit up to 5 different photographs of your entry by mail or via the internet
- Entries will be judged on originality, use of color and craftsmanship
- The contest will be kicked off at the Weak Signals R/C Expo at Toledo, Ohio in April, 2010
- Entries must be received by midnight, September 15, 2010
- Winners will be announced at the 2010 iHobby Expo in Chicago in October, 2010

For full details go to top-flite.com

ARF Division

1st Place, ARF Division = \$1000 shopping spree

2nd Place, ARF Division = \$500 shopping spree

3rd Place, ARF Division = \$250 shopping spree

THE TEST — SPREE WORTH UP TO \$1000!

TURN HERE FOR GENERAL HOBBY PRODUCTS

1/24 1932 FORD® STREET ROD

The first V-8-powered Ford!

The 1932 Ford roadster has long been an icon among faithful hot rod fans. The '32 "Deuce" was the first mass-produced vehicle to put V-8 power into drivers' hands – capturing the attention of hot-rodders ever since. It remains the most popular, most-desired hot rod today. Large aftermarket sales of fiberglass and steel reproduction bodies have ensured that the Deuce will never fade away! Kit features a highly detailed street rod and chassis, soft black tires, chrome steel wheels with Ford hub caps and colorful custom decals.

85-0882 MONS0882 Total parts: 75 Skill level 2 Length: 6.3 in (160.3 mm)

1/24 1957 CHEVY NOMAD

The vintage wagon returns!

Station wagons are "in," and there are plenty of car collectors who are just itching to get their hands on this vintage wagon. There's no doubt that the '57 Chevy Nomad is a classic – and this exciting 1/24 scale model combines old-school style with today's most-desired performance perks. Kit features a replica Chevy V-8 engine with a choice of twin carbs or fuel injection, a detailed chassis, an interior with roll bar and bucket seats, soft black tires, racing wheels, chrome-plated accessories and decals with colorful custom graphics.

85-0883 MONS0883 Total parts: 97 Skill level 2 Length: 8.4 in (213 mm)

1/25 1955 CHEVY BEL AIR HARDTOP 2 'N 1

The all-time Chevy classic!

The 1955 Chevy Bel Air is one of the most-recognized classic American cars of all time – and it's highly sought after by collectors today. Its distinctive style and design captured the imagination of the *Grease* generation more than any other vehicle. Kit features a highly detailed V-8 engine and chassis with the choice of a stock or lowered suspension, optional stock wheels and tires with white wall inserts or custom wheels with low-profile tires and a choice of authentic stock detailing decals or custom graphics.

85-4295 MONS4295 Total parts: 161 Skill level 3 Length: 7.9 in (200 mm)

1/24 FORD® F-250 SUPER DUTY PICKUP

King of the heavy-duty pickups!

The Ford F-250 Super Duty pickup is one of the toughest American trucks out on the road today. It rides on a heavy-duty ladder frame chassis with an impressive, 155-inch wheelbase. The F-250 is powered by a 7.5-liter V-8 engine and features an electronically-controlled automatic overdrive transmission. Kit features a detailed V-8 engine, an opening hood, a roll bar with off-road lights, an extended super-cab body, a style-side pickup bed, soft black tires, chrome-plated accessories and a choice of decals with stock or custom graphics.

85-7212 MONS7212 Total parts: 131 Skill level 2 Length: 9.6 in (244 mm)

1/72 SIKORSKY CH-54A SKYCRANE

The U.S. Army's huge heavy-lift heli!

With its 72-foot rotor span, the Sikorsky CH-54A is among the largest U.S. helis ever built. It's capable of lifting 10-ton loads, but its uses are not only limited to the battlefield. Besides hauling freight and passengers, the SkyCrane can set up power lines, lay oil pipelines, transport houses and bridges and fight fires. Kit features detailed engines, movable main and tail rotors, a detailed cockpit, a mobile pod with opening ramp, a field howitzer, optional loads, three figures and two decal marking options.

85-1258 RMXS1258 Total parts: 124 Skill level 2 Length: 11.8 in (298 mm)

1/40 CORPORAL MISSILE

The Cold War-era guided weapon!

The MGM-5 Corporal is a surface-to-surface missile that's capable of carrying a conventional or nuclear warhead. It can engage targets at a range of 75 nautical miles with incredible accuracy. A transporter carries the missile to the launch site before erecting it onto a launch platform. Kit features opening/closing transporter cab doors, an elevated rotary boom with working gears, hinge/swiveling leg pads, four movable support arms and braces, a radar scanner, a launch platform with optional traveling or launch position assemblies, six figures and authentic U.S. Army markings.

85-7852 RMXS7852 Total parts: 198 Skill level 3 Length: 14.6 in (371 mm)

REVELL OF GERMANY

1/32 EUROFIGHTER TYPHOON & FULL ENGINE

Engage in air-to-air combat!

Designed and built by a consortium of three separate partner companies – BAE Systems, EADS and Alenia Aeronautica – the Eurofighter Typhoon currently serves as a twin-engine, multi-role fighter with the Luftwaffe and the RAF. Kit features include a detailed EJ200 engine, separate ailerons, flaps and rudder, two drop tanks, pylons, countless missile options, movable canards, detailed ECM pods, an optionally extended or retracted refueling probe, an 11-piece ejector seat, decal markings and more.

04783 RVL54783 Total parts: 391 Skill level 5 Length: 19.6 in (498 mm)

The best-selling Opel returns – as a thrilling slot car!

- Loaded with superb details!
- Includes an authentic paint scheme, real rubber tires and an individually painted driver figure.
- Fully compatible with all commercial track systems.

08331 RVLW8331

Airfix® 1/76 Churchill Bridge Layer

The specially-modified, heavily-armed British tank!

The modified Churchill Bridge Layer was created by Royal Engineers during WWII. Instead of a turret, it carried a Small Box Girder bridge which measured nearly 30 feet (9.1 m) in length. While most other versions of the Churchill were no longer used by the mid-1950s, the Bridge Layer version remained in service with the British Army until the 1970s. Kit features scribed surface details and markings for the 31st Army Tank Brigade, Brigade Headquarters, Juno Beach, Normandy, France, 1944.

Width: 1.9 in (49 mm)

Airfix® 1/24 De Havilland Mosquito NFII/FBVI

Highly detailed and painstakingly designed!

Night fighter versions of the popular De Havilland Mosquito were first produced in 1942, with 466 aircraft entering service with the RAF's No. 157 Squadron. Many were armed with metric wavelength radar to sneak up on enemy aircraft. However, some had their radar equipment removed to install extra fuel tanks for use as night intruder aircraft. Kit features full interior detail, removable panels, a figure set and three aircraft marking options.

Bronco Models 1/35 A13 Cruiser Tank Mk.III Track Link Set

Highly detailed and painstakingly designed! A terrific hop up for your Bronco A13 kit!

Developed just before the beginning of the Second World War, the A13 Cruiser Tank was the first to feature the Christie suspension system. This innovation allowed the A13 to run at faster speeds with improved cross-country performance. It was powered by a 340 hp V-12 engine, which gave it a top speed of 30 mph. Kit features easy-to-assemble, easy-to-paint track links for Bronco's 1/35 A13 Cruiser Tank Mk.III kit. Includes 8 spare links.

3517 BOMS3517 Total parts: 496

Bronco Models 1/35 Canadian 40 mm Bofors Anti-Aircraft Gun

One of the most popular anti-aircraft weapons of WWII!

Designed by the Swedish firm Bofors, the 40 mm Anti-Aircraft gun was used by most of the Allied forces through WWII and beyond. Distinguishing features of this impressive weapon included a highly advanced sighting system, a movable carriage and folding legs. Kit features the option for travel or firing modes, two carriage frames, two carriage platform options, a detailed transport chassis, optional shields, one-piece tires, two 24-round ammo boxes, six 4-round ammo clips, a spare barrel box and three sets of decal marking options.

35028 BOMS3528 Total parts: 391

Bronco Models 1/35 German Adler Kfz. 13 Armored Car

Germany's heavy armed recon vehicle!

Also known as the Schwerer Panzerspahwagen, this armored vehicle was used for screening and reconnaissance missions against enemy forces. Power was supplied by an 8-cylinder, 155 hp gas engine, which gave it a top speed of 53 mph. Kit features a detailed exterior with undercarriage, a realistic interior, photo-etched brass parts, interior accessories (jerry cans, a fire extinguisher, flasks and more) as well as three sets of decal marking options.

35032 BOMS3532 Total parts: 171

Bronco Models 1/35 German 2.8 cm s.Pz.B.41 Anti-Tank Gun Set

Germany's amazing anti-tank rifle!

Designed in 1940, the S.Pz.B.41 featured a cone-shaped barrel, which resulted in extremely high muzzle velocity (4,593 feet/second). However, this squeeze-bore weapon had a very short range, and it tended to have a short shelf life (most stopped working after about 500 shots). Kit features a choice of three different versions, plus photo-etch metal detail parts and decals. Paint and glue required.

35034 BOMS3534 Skill level 3

Bronco Models 1/35 ZTZ 99A1

China's 3rd generation battle tank!

The latest version currently in service with the PLA, the Type 99A1 tank is loaded with distinguishing features. Highlights include a reshaped turret top, new front and side armor and extended ERA panels. Top speed is 50 mph, thanks to a 1,500 hp liquid-cooled diesel engine. The ZTZ 99A1 can also carry up to three troops at a time. Kit features a fully functional suspension, detailed tracks and exceptional decal markings.

35040 BOMS3540 Total parts: 991 Length: 12.6 in (320 mm)

Bronco Models 1/35 German Light Staff Car "Stabswagen" Model 1937 (Cabriolet)

Bring home the luxurious Opel Admiral!

Originally designed to compete against luxury cars from Mercedes-Benz, Maybach and Horch, there's no doubt that the '37 Opel Admiral was a full-size, four-door masterpiece. It was powered by a 3.6-liter straight-6 engine, which gave it a top speed of 82 mph. Production of the Admiral ceased in 1939, when Opel began making supplies for WWII. Kit features a detailed body and convertible top, separately molded doors with detailed panels, driving lights, tires, Jerry cans, machine gun, ammo pouch and three different decal marking options.

35047 BOMS3547 Skill level: advanced

Fujimi 1/32 Toyota Forklift 15 Jeneo

The power to haul it all!

Mainstays of modern industry, forklifts were first introduced in the 1920s as an easy, efficient way to haul and transport materials. Toyota Industries, who sold their first forklift in the U.S. in 1967, is today's #1 forklift manufacturer of forklifts. Kit features injection-molded parts embossed with realistic surface details, replica boxes and pallets, plus waterslide decals.

11684 FJMS1684

Fujimi 1/24 New Fiat 500

Retro looks – modern conveniences!

When launched in 2007, the entire production run (58,000 cars) of the new Fiat 500 was completely sold out within three weeks! This sporty three-door, four-seat hatchback offers drivers plenty of ways to customize. Customers can choose between gas or diesel engines, 15 interior trim schemes, 9 wheel options and 12 body colors. No wonder this Fiat has taken the world by storm! Kit features highly detailed white, black and clear plastic pieces, realistic chrome accessories and waterslide decal markings.

12362 FJMS2362

Plastic Models

Fujimi 1/24 Ferrari® Dino 206 Competizione

The groundbreaking Ferrari classic!

Designed as a more affordable alternative to V-12-powered Ferraris, the Dino 206 first appeared on the scene in 1968. It was powered by a 2-liter V-6 engine which gave it a top speed of 146 mph. Other distinguishing features included an electronic ignition system, a fully independent suspension, an aluminum body and all-round disc brakes. Kit features highly detailed plastic pieces molded in yellow and black, realistic chrome accessories and waterslide decal markings.

12363 FJMS2363

Fujimi 1/24 Chevrolet® Camaro® Z28

Chevy's mightiest muscle car!

The Chevrolet Camaro burst onto the car scene in 1966, directly competing against the popular Ford Mustang. First-generation models were available in 2-door, coupe, convertible or 2+2 versions, and customers could choose from six different sizes of V-8 power plants. Current fifth-generation models feature a retro design that's heavily influenced by first-gen Camaros. Kit features a white plastic body with a detailed black interior, injection-molded parts embossed with realistic surface details, a detailed chassis, waterslide decals and an illustrated assembly guide.

03787 FJMS3787

Fujimi 1/24 Nissan GT-R R35 SpecV

Nissan's sleek, special circuit racer!

The Nissan GT-R R35 SpecV was introduced in 2009 at the Tokyo Auto Salon. Distinguishing features include an Ultimate Black Opal paint scheme, a carbon fiber grille, rear spoiler and brake ducts, a titanium exhaust, carbon ceramic brakes and 20-inch (510 mm) NISMO wheels. Kit features a highly detailed chassis and black interior, a black plastic body, injection-molded parts embossed with realistic surface details, waterslide decals and an illustrated assembly guide.

03798 FJMS3798

Fujimi 1/24 Nissan GT-R R35 Sport Package

Nissan's high-performance sports car!

Since its release in 2007, the GT-R R35 has attracted the attention of countless car fans around the world. Its 3.8-liter V-6 engine gives it a top speed of 193 mph, and a customizable multifunction display comes integrated into the dash board. Drivers even have the option of a launch mode, which takes acceleration times to the max! Kit features a white plastic body with detailed black interior, a detailed chassis, injection-molded parts embossed with realistic surface details, waterslide decals and illustrated instructions.

03799 FJMS3799

Fujimi 1/700 Osaka Cargo Liners

Two famous WWII-era troop transports!

Both kits feature injection-molded parts embossed with realistic surface details, photo-etched accessories, waterslide decals and an illustrated assembly guide.

FJMS4082 Brazil-Maru, 1939

Fujimi 1/700 IJN Minelayer Ships

Two WWII-era IJN flagships

Kits feature injection-molded parts embossed with realistic surface details, photo-etch accessories and an illustrated assembly guide.

- FJMS4009 Tsugaru, 1941
- FJMS4090 Okinoshima

Fujimi 1/700 IJN Minelayer Ship "Tsugaru," Late 1944

The improved Japanese minelayer!

Built for the Imperial Japanese Navy by the Yokosuka Naval Arsenal, the Tsugaru minelayer ship was commissioned in October, 1941 – less than two months before the attack on Pearl Harbor. It was armed with four 127 mm/40 guns, two 25 mm guns and 600 mines. There was also enough room for a catapult and one seaplane for reconnaissance missions. Kit features injection-molded parts embossed with realistic surface details, photo-etch accessories and an illustrated assembly guide.

- 40092 FJMS4092

Fujimi 1/500 IJN Battleship Yamato

The flagship of the Japanese Combined Fleet!

One of the largest, heaviest battleships ever constructed, the Yamato displaced 72,800 tons at full load. She was armed with nine 46 cm (18 in) main guns – the largest caliber artillery ever included on any warship. She was struck by American torpedoes and sank on August 31, 1945. Kit features highly detailed grey, black and clear molded plastic pieces, plus illustrated instructions. Also available with a **Super Detail Set**, which includes a wooden deck and additional photo-etch accessories.

- FJMS6100 IJN Battleship Yamato
- FJMS6101 IJN Battleship Yamato with Super Detail Set

Fujimi 1/20 McLaren Honda MP4/6

The first V-12-powered McLaren!

The McLaren Honda MP4/6 was a Formula One racer designed by Neil Oatley for the 1991 season. Driver Ayrton Senna took the car to four impressive season wins in the U.S., Brazil, San Marino and Monaco before closing out the season with his third and final drivers' championship win. Overall, the MP4/6 won 8 Grand Prix races and 10 pole positions, scoring 148 points in its career. Kit features a detailed engine, injection-molded parts embossed with realistic surface details, chrome accessories, waterslide decals and illustrated instructions.

- 09044 FJMS9044

Fujimi 1/20 Ferrari 248 F1 Brazil GP, 2006

Michael Schumacher's famed Formula 1 racer!

Designed by Rory Byrne and Aldo Costa, the Ferrari 248 F1 is named after its powerful 2.4-liter V-8 engine. It was used by Ferrari in every 2006 race, giving them 9 race wins and 4 pole positions. It also finished second in the Drivers' and Constructors' World Championships that year. Kit features a red plastic body with black interior, injection-molded parts embossed with realistic surface details, waterslide decals and illustrated instructions.

- 09046 FJMS9046 Total parts: 150

Hobbycraft Canada 1/32 A-36A Axis-Busting Apache

The distinguished dive bomber!

The North American A-36 was the dive bomber/ground attack variant of the popular P-51 Mustang. Power came from a 1,325 hp, V-12 Allison engine while weaponry included 6 M2 Browning machine guns and up to 1,000 pounds of bombs mounted underwing. 500 were built in all, serving in such locations as North Africa and Italy. Kit features a detailed cockpit, recessed panel lines, an optional-position multi-part canopy, separately molded wheels and tires, external stores and marking options for five different aircraft.

HC1710 HCCS1710

Italeri 1/24 Truck Accessories – Set II

Trick out your truck!

A great way to customize your Italeri 1/24 scale DAF, Mercedes-Benz, MAN, Iveco, Volvo or Scania truck kits! Set features highly detailed yellow plastic pieces, a pivoting crane with decals, chromate mufflers, steps and platform, plus a super decal sheet.

553854 ITAS3854

Italeri 1/35 Autoblinda AB 40

The iconic Italian armored car!

Developed in the late 1930s for the Italian Royal Army, the Autoblinda AB 40 was quite innovative for its time. Not only was it four-wheel drive, but it also boasted separate suspensions and two different driving positions. Two 8 mm machine guns – one in the turret and the other at the rear of the hull – provided protection against enemy forces. Only 24 were built; many were later converted to the more sophisticated AB 41 with a 20 mm autocannon. Kit features realistic rubber tires and three waterslide decal marking options.

556482 ITAS6482 Length: 5.8 in (148 mm)

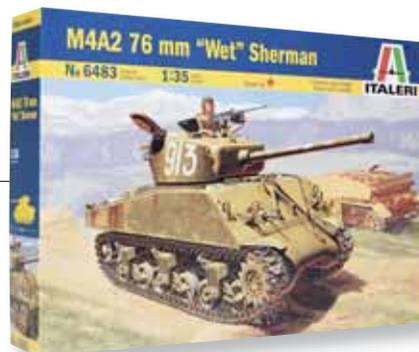

Italeri 1/35 M4A2 76 mm "Wet" Sherman

The famous Lend-Lease Sherman!

After entering WWII in June, 1941, the U.S.S.R. benefited from vehicles, airplanes and weapons provided by the United States' Lend-Lease program. The Sherman tank was heavily exported to the Soviets via this program. Powered by a GM diesel engine, this version was rejected by the U.S. Army because of an order declaring that no diesel-powered tanks could be used outside the continental U.S. Since the Soviet T-34 was also diesel-powered, this wasn't an issue for the Russians. Kit features realistic rubber tires, cotton thread "cable" and three waterslide decal options.

556483 ITAS6483 Length: 6.7 in (169 mm)

Italeri 1/72 M3 75 mm Half Track

Approved for Alzo Zero Wargames!

Standardized in 1940, the M3 75 mm HalfTrack was designed for the U.S. Army so they could easily move their troops while in battle. The M3 could haul up to 13 troops at a time, and each vehicle was armed with one M2 machine gun and two M1919A4 machine guns. Nearly 41,000 were built in all. Kit includes two fast-assembly models with curbside chassis, one-piece tracks/suspensions, 75 mm guns with complete breech and shield, molded-on jerry cans and decal options for two British Army and two U.S. Army vehicles.

557510 ITAS7510 Total parts: 30

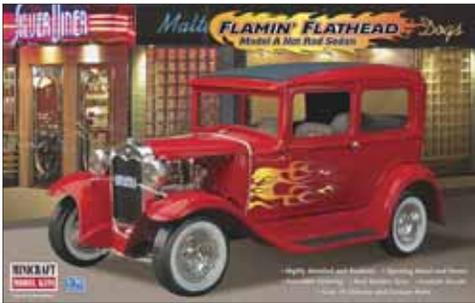

Italeri 1/72 M4A2 Sherman III

The perfect gift for Alzo Zero gamers!

Although production of the M4 Sherman began in 1941, its tough, tenacious chassis influenced subsequent armored vehicles such as self-propelled artillery, tank destroyers and tank retrievers. Over 50,000 were produced, and it continued to be used in combat and training exercises into the late 20th century. Kit features two fast-assembly models with highly detailed plastic pieces, plus four marking options for British, U.S., Polish and French combat units.

557511 ITAS7511 Total parts: 30 Length: 3.2 in (82 mm)

Minicraft Models 1/16 Flamin' Flathead Model A Hot Rod Sedan

A hip hot-rod classic!

First produced in late 1927, the Model A was the Ford Motor Company's second major success, following the Model T. Over 4 million Model As were produced until production ceased in 1931. Since it was one of the most popular vehicles of its time, examples can still be found today – many of them in the form of souped-up hot rods. Kit features highly detailed and realistic parts, including an opening hood, opening doors, posable steering, rubber tires and custom decals.

11232 MMIS1232 Over 75 chrome and custom parts.

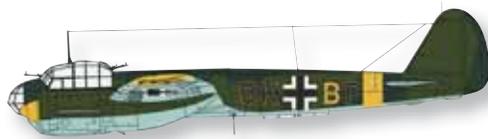

Minicraft Models 1/144 KC-97G Stratotanker

Fill 'er up!

The KC-97 evolved from the successful Boeing® B-377 airliner and the U.S. Air Force's C-97 transport. Beginning in the late 1940s, it was adapted for airborne refueling of U.S. Air Force aircraft. The KC-97 served well into the 1960s with Air National Guard units, until it was replaced with Boeing's KC-135. Kit features U.S. Air Force and Air National Guard decal markings.

14610 MMIS4610

Minicraft Models 1/144 Ju-88A Junkers

The Luftwaffe's versatile bomber/fighter!

Originally designed as a dive bomber for the German Luftwaffe, the versatile Ju-88A was sometimes called "The Maid of All Work," due to its ability to be used in various combat roles. It was often deployed as a medium bomber and, at times, as a night fighter right up through the end of WWII. Kit features markings for the German Luftwaffe, Romania and Hungary.

14618 MMIS4618

MRC™ 1/72 Russian T-54 Kosovo 1998

The most-produced battle tank in history!

The first T-54 prototype appeared just before the end of WWII in March, 1945. Once full production began in 1947, it quickly became the primary battle tank for the Soviet Union and all Warsaw Pact countries. T-54s with upgraded mortars and weapons were used by Iraqi troops during the 1991 Gulf War. Many experts estimate that approximately 100,000 T-54s have been produced around the world. This fully assembled plastic model features exquisite surface details, a rotating turret, an elevated gun barrel, realistic vinyl tracks and a separate nameplate.

35023 MRCS5023

Plastic Models

MRC™ 1/72 M2A2 Infantry Fighting Vehicle

The upgraded Infantry Fighting Vehicle!

Designed to keep pace with the M1 Abrams battle tank, the Bradley first appeared in 1981. Powered by an eight-cylinder diesel engine, the Bradley can hold three crew members and up to six fully equipped soldiers at once. Weaknesses which were exposed during Operation Desert Storm led to such upgrades as a tactical navigation system, an eye-safe laser rangefinder and digital compass systems. This fully assembled plastic model features exquisite surface details, realistic vinyl tracks and a separate nameplate.

35055 MRC5055

MRC™ 1/72 ME262A. KG44, Flown By Galland, Germany 1945

The first-ever twin-turbojet fighter plane!

You may already know the Me 262 for being the first jet-powered fighter plane when it was introduced around the end of WWII. What you may **not** know is that was already being planned **before** WWII had started. Top Me 262 speeds could exceed well over 500 mph, and it could still fly up to 310 mph with one engine. This fully assembled plastic model features a fixed undercarriage, authentic markings and an optional display stand.

36369 MRC6369

MRC™ 1/350 U.S.S. Wasp LHD-1

The only 1/350 scale kit of its kind!

The U.S. Navy's multipurpose amphibious assault ship, the U.S.S. Wasp LHD-1 is among the first ships to accommodate Landing Craft, Air Cushion (LCACs) and Harrier II V/STOL jets. Kit features a fully detailed well bay and hangar deck, an expansive vehicle storage area, two aircraft elevators, finely detailed railings, radar components and safety nettings; a dozen tow tractors and cranes, four CH-46E Sea Knight helis, four MV-22 Ospreys, two AH-1W Cobra gun ships, two M60 Patton tanks, two LAV 8-wheel personnel carriers and much, much more.

64001 MRC6400 Total parts (approx.): 1,000 Length (approx.): 30 in (762 mm)

MRC™ 1/72 F-16A J-004 NTAF Tiger Meet

The Mid-Life Update "Falcon!"

The F-16C Falcon is one of the most versatile fighters around. Innovations such as a frameless bubble canopy for improved visibility, a side-mounted control stick for high g-force flight and the ability to climb and accelerate vertically are just a few reasons why the F-16 has become a fighter pilot favorite since its first appearance in the late 1970s. This fully assembled plastic model features a fixed undercarriage, drop tanks and realistic decal markings.

37126 MRC57126

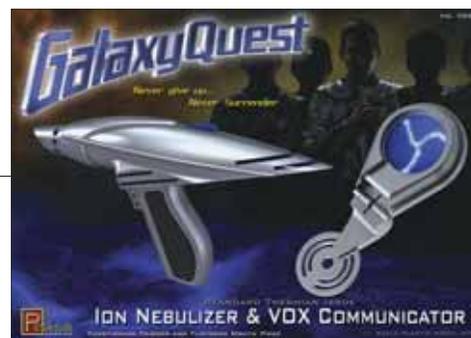

Pegasus Hobbies Galaxy Quest® Ion Nebulizer & Vox Communicator

Never give up...never surrender!

Since its original theatrical release in 1999, the clever sci-fi spoof *Galaxy Quest* has continued to gain new fans over the years. The film was a worldwide box-office hit, yet countless TV showings and multiple DVD editions are what turned the film into a true cult classic in the past decade. The nebulizer features clear parts for lighting and the communicator flips open. Set includes waterslide decals. Requires assembly and paint.

9003 PGHS9003

Pegasus Hobbies 1/1400 *Galaxy Quest*[®] NTE-3120 N.S.E.A. Protector

Great fun for sci-fi fans of all ages!

The popular sci-fi spoof *Galaxy Quest* was released to cinemas worldwide in 1999. It quickly became a box-office success, thanks to a witty screenplay which poked fun at the sci-fi genre. The film starred Tim Allen, Sigourney Weaver, Alan Rickman and Tony Shalhoub as the washed-up cast of a popular fantasy TV show who are recruited to save the universe by aliens who think their scripted adventures were real. Kit features detailed hull halves, transparent blue styrene engine lenses, decals and a pivoting display base.

9004 PGHS9004

SKKF9355 19355 Flight Ring 50# 300'

GALF8807

SKKF9353

ROCKETS: EASY, EXCITING...AND

Great group activity – exciting and educational

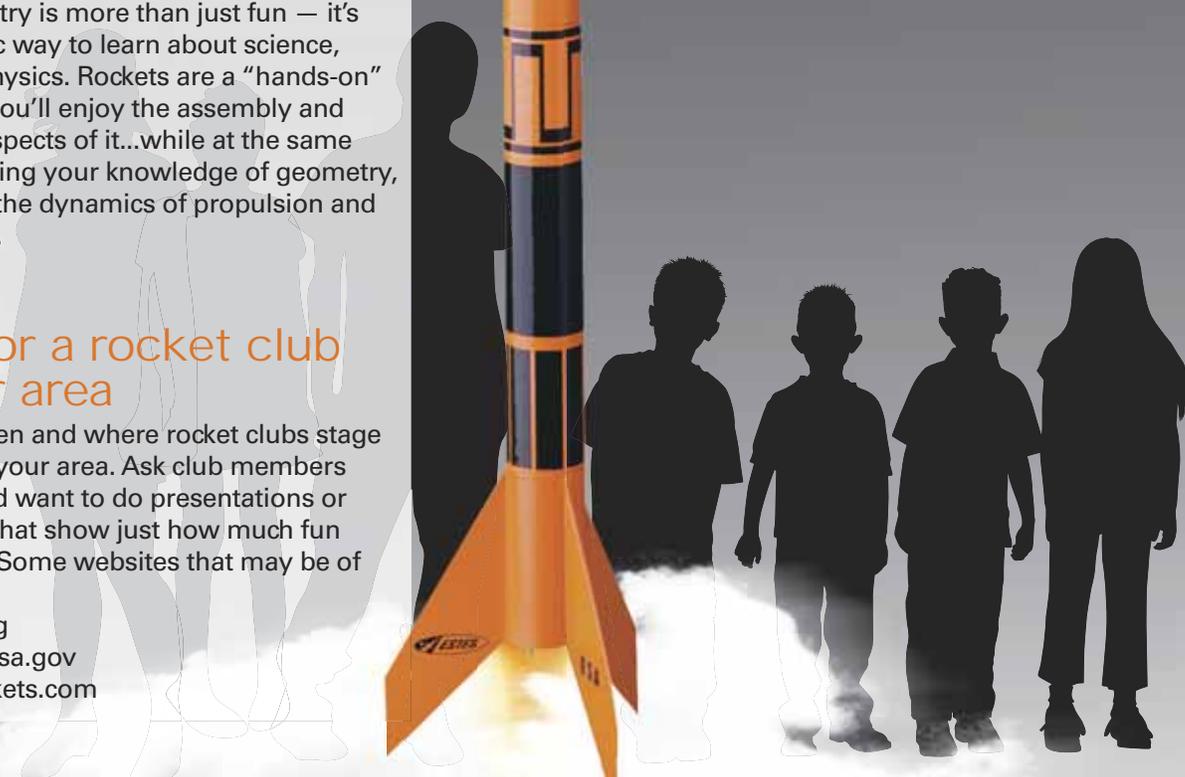

Your school's science classes are a great place to start, but there are other organizations to consider as well. 4-H clubs, Cub/Boy Scouts, Big Brothers/Big Sisters, Boys & Girls Clubs and church youth groups are all viable options for getting into model rocketry. This is a good way for hands-on learning – all while having fun!

Model rocketry is more than just fun – it's also a terrific way to learn about science, math and physics. Rockets are a "hands-on" activity, so you'll enjoy the assembly and launching aspects of it...while at the same time increasing your knowledge of geometry, gravity and the dynamics of propulsion and space travel.

Look for a rocket club in your area

Find out when and where rocket clubs stage launches in your area. Ask club members if they would want to do presentations or workshops that show just how much fun rockets are. Some websites that may be of help are:

- www.nar.org
- www.grc.nasa.gov
- www.flyrockets.com

Starter Sets

These are ideal for those wanting all-in-one package convenience. Everything (except "AA" batteries) is included!

Alpha III® E2X Starter Set

■ Based on a classic design, and one of Estes' top sellers

ESTT1477

EDUCATIONAL!

Ready to Fly Rockets

These models come fully assembled and ready for action. Launch equipment sold separately.

Athena RTF

■ **Maximum Altitude:**
1,100 ft.

ESTT2452

EX-200 Mini Engine RTF

■ **Maximum Altitude:**
425 ft.

ESTT2450

Loadstar RTF

■ **Maximum Altitude:**
700 ft.

ESTT2456

SkyTrax RTF

■ **Maximum Altitude:**
700 ft.

ESTT2454

Spin Control Starter Set

■ **Make the rocket spin**
from 0 to over 100 times
per flight, which is dis-
played on an LCD screen

ESTT1414

Speed Freak Starter Set

■ **Advanced Velocity**
Tracking Technology
shows you how fast
your rocket flew
