HCAA2511 SkyFly Max EP RTF
 Wingspan: 47 in (1195 mm)

WANT IN A TRAINER!

A modern 4-channel RTF trainer with more capability, and designed with the aspiring pilot in mind

- A new Tactic™ 2.4GHz radio — precise 4-channel control, including ailerons
- Brushless motor and LiPo battery — more power and performance
- AeroCell™ foam construction — rugged, while easy to repair
- Comes complete with a charger and 4 "AA" batteries for the transmitter

From the Experts:

Not only does the SkyFly Max RTF have a fresher look, it also boasts the latest technology that pilots have come to expect: a 2.4GHz radio, brushless motor and LiPo battery. Durable, lightweight AeroCell foam construction lets beginners fly with confidence, while intermediates will appreciate the SkyFly Max's performance — especially the four-channel system that allows for true aileron control and a wider flight envelope.

Long story short...

The SkyFly Max is the most advanced Flyzone RTF ever, with features that set it apart from other Ready-To-Fly trainers.

AQUB41** Rio 51Z Gas RTR
Hull Length: 51.5 in (1300 mm)
Overall Length: 57 in (1450 mm)
Beam: 13.5 in (340 mm)

TACTIC™

2.4GHz

TTX240 2.4GHz Spread Spectrum Radio System
Enjoy precise, reliable, interference-free control — plus the convenience of no crystals.

BOLD AND GAS-POWERED!

- Dominate the water with AquaCraft's most aggressive offshore racer yet!
- Anodized aluminum and polished stainless steel GrimRacer™ hardware complements the Rio 51Z's premium performance with gleaming good looks
- An oil tank automatically lubricates the 1/4" flex cable drive system for maximum efficiency
- 20 minutes of run time per tank!

Zenoah G26 Marine Gas Engine
It's R/C's #1 marine gas engine! Use the pull start or the time-saving GrimRacer starting belt that's also included.

Zenoah is a registered trademark of HUSQVARNA ZENOAH CO. LTD. CORPORATION of Japan.

Also available separately.

ZENG0260

From the Experts:

No other boat model has everything that the Rio 51Z has going for it! With its awesome dimensions, the power, ease and fuel economy of a Zenoah gasoline engine, high-performance hardware and a state-of-the-art 2.4GHz radio system, this is the model that serious boaters have been waiting for!

Long story short...

The gasoline-powered Rio 51Z blows other boats right out of the water with its impressive size, sharp looks, speed and handling.

CUTTING-EDGE CONTROL FOR R/C'S PREMIER VEHICLES!

TQ™ 2.4GHz High-Output Programmable Radio System with Traxxas Link™

If you thought the Bandit VXL, Stampede VXL, Rustler VXL, Nitro Rustler, T-Maxx 3.3 and E-Revo VXL models were already extraordinary, wait'll you drive them with Traxxas TQ 2.4GHz radio system! Direct Sequence Spread Spectrum (DSSS) and patent-pending Traxxas Link automatic model recognition* means you can turn on your transmitter and drive worry-free — without crystals and frequency conflicts, and without having to juggle transmitters or scroll through complex menus.

Boxed radio system features:

- Includes Traxxas Link-enabled High Output 2.4GHz transmitter with 5-channel receiver
- Exclusive Traxxas Link automatic model recognition
- High Output signal for maximum range
- 2.4GHz Direct Sequence Spread Spectrum (DSSS) clarity and control
- Fully adjustable steering and throttle expo, endpoints and subtrim, plus steering and brake dual rates
- Programmable Multi-Function knob
- Integrated fail-safe security
- Ultra-fast 13ms frame rate and 4-17ms latency for instant response
- 4-channel system available

- Brushless-ready metal gear transmission
- Revo®-Spec Torque Control™ slipper clutch
- Adjustable steel turnbuckles with captured rod ends
- Licensed BF Goodrich® Mud-Terrain™ T/A® tires mounted on beadlock SCT wheels
- Fully assembled and Ready-To-Race®!

**Includes 7-cell battery
 and charger!**

TRAD19** (Includes standard TQ 2.4GHz transmitter
 that is not equipped with Traxxas link)

- The awesome off-roader that's virtually unstoppable!
- TQ™ 2.4GHz 4-channel transmitter with 5-channel receiver and EVX-2 ESC
- Innovative T-Lock™ transmitter operated remote locking diffs
- Transmitter-operated High-Low transmission
- 10-LED lighting system allows for nighttime driving
- ExoCage™ body adds realistic looks and functional protection
- 3.8" Geode™ wheels with aluminum 17 mm hex hubs, mounted on massive 7" Canyon AT™ extreme-terrain tires

**Includes 7-cell battery
 and charger!**

TRAD21** (Includes standard TQ 2.4GHz transmitter
 that is not equipped with Traxxas link)

THE EASY-FLYING FOAM MODEL WITH CLASSIC WARBIIRD STYLING

de Havilland

TIGER MOTH

- A replica of the 1930s RAF military trainer, a very popular design
- Assembles easily and flies smoothly, both indoors and outside in calm conditions
- Besides a realistic cowl, this Tiger Moth features a cockpit with pilot figures, instrument panels and pre-installed windshields

Most small foam models use taped hinges, but the ElectriFly Tiger Moth has live hinges on the elevator and rudder, and ribbing molded into the Pro-Formance™ foam.

GPMA1134 Tiger Moth EP ARF
Wingspan: 30 in (760 mm)

From the Experts:

Considering how easy and inexpensive it is to get flight-ready, this Tiger Moth boasts a very sport-scale appearance. Very few slow flyers have the amount of detail that this ARF has, and the Tiger Moth is widely recognized among pilots. Add to that its steady, predictable flight and indoor/outdoor versatility and you've got a foam model that really stands out!

Long story short...

ElectriFly's Tiger Moth EP ARF surpasses other indoor foam models in sport-scale realism – and is a joy to fly as well!

XOAR™ PROPS

The new standard in high-performance airplane propellers

NEW
VENDOR

- Quality props for sport pilots that are affordably priced!
- Precision balanced during every stage of production
- Leading edge pitch angle that's certified to conform to model airplane standards
- Processed from hub to tip to minimize air resistance and increase stability
- Only carefully selected highest-grade German beechwood is used

To see the complete selection of Xoar props, visit GPDealer.com

Long story short...

The engineers at Xoar have dedicated themselves to producing the finest propellers for R/C aircraft you can buy!

AXIAL® SCX10™ 4WD RTR w/TRAIL HONCHO™ BODY

A Trail Ready™ truggy for taking on the toughest terrain!

- Realistic features include a steel C-channel ladder frame, molded cage and front bumper with aluminum skid plates
- Electric power means easy, clean and quiet operation, both indoors and outdoors
- Performance is enhanced by a metal gear servo, coil-over shocks, slipper clutch and Pro-Line® Flat Iron tires with memory foam mounted on beadlock wheels
- Comes preassembled with 27T motor and durable ESC — just add batteries and start blazing trails!

AXID16**
SCX10 4WD RTR
w/Trail Honcho Body

Long story short...

The SCX10 combines the look of a truggy with the crawling capability of an AX10 Scorpion™ — topped off with a scale-looking Trail Honcho body!

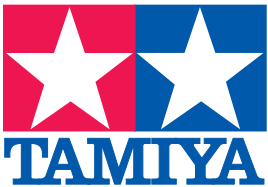

TAMIYA BMW M3 E30 SPORT EVO DRIFT SPEC TT-01E KIT

A classic Beemer, equipped with new on-road attitude!

- Based on the lightweight, user-friendly TT-01D Type-E chassis
- The bathtub chassis features 4-wheel independent double wishbone suspension and sealed front and rear diff gearboxes
- Drift-spec modifications include special suspension tuning, RS-540 sport-tuned motor, aluminum heat sink, CVA mini shock dampers and adjustable upper arms
- Super Driftech tires made with a special resin and rubber compound are mounted on BBS silver wheels

TAMC1051
BMW M3 E30 Sport Evo

Tire Front Dirt/
Oval DX450
DTXC4648
Tire Rear Dirt/
Oval DX450

DuraTrax® Tires for the DX450 Motorcycle

High-performance tires for DuraTrax's big, rugged 2-wheeler!

- Equip your DX450 with the right tires for different racing conditions
- Slicks work best for on-road surfaces such as asphalt, pavement and concrete
- Dirt/Oval tires with "chocolate" square-tread pattern provide exceptional traction for off-road "track" conditions

DTXC4645 Tire Front Slick DX450
DTXC4646 Tire Rear Slick DX450

DTXC4647 Tire Front Dirt/Oval DX450
DTXC4648 Tire Rear Dirt/Oval DX450

Futaba® Fleece Jackets

Show your Futaba loyalty with style — and comfort!

- Made of high-quality fleece material to provide warmth without weight
- Features a Futaba logo on the front left side and a FASST® logo on the back right shoulder
- Available in black and orange, in sizes from XS to 6XL — visit futaba-rc.com/store/index for the complete selection

Hitec HS-7980TH & HS-7990TH Titanium Gear High-Torque Servos

"Monster Torque" servos for models requiring mega-muscle!

- Hitec's strongest servos, with indestructible titanium gears
- Features high-resolution G2.5 12-bit generation programmable digital circuitry
- Also includes a 7.4V optimized coreless motor and integrated heat sink case
- Designed to operate on a 2-cell LiPo pack
- Ideal for giant scale aircraft, fast power boats, buggies, truggies and monster trucks — any model that can use 600+ ounces of torque per inch
- HS-7990TH also features an ultra-precise high resolution magnetic encoder

HS-7990TH Titanium
Gear High-Torque Servo

HRCM7980
HS-7980TH Titanium
Gear High-Torque Servo

JConcepts Illuzion Slash 4x4 Over Tray

Keeps dirt and debris from building up inside the Slash 4x4 chassis!

- Improves performance by preventing loam and top soil from adding unwanted excess weight
- Made of durable clear polycarbonate that can be painted or wrapped
- Fits snugly over the chassis' outside dimensions with screws in front and an easy-access body clip in the rear
- Plenty of clearance for various battery and electronics configurations

JCOC2058
Illuzion Slash 4x4
Over Tray

Ofna 1/8 Dirt Oval Electric

The first Ofna model designed specifically for dirt oval racing!

- Included 15 mm hubs allow you to offset the wheels to boost oval track performance
- Front and rear pivot ball suspension and 13 mm adjustable shocks deliver excellent handling
- 80% preassembled — in no time you'll be flingin' dirt and taking the checkered flag!

OFNC3434
1/8 Dirt Oval Electric

VNRL8181
VR3T 2.4GHz 3-Channel
Transmitter - World

Venom™ VR3T 2.4GHz Radio System

The popular VR3T — with the advantages of spread spectrum technology!

- Retains many of the VR3T's great features, while adding the stability and reliability of 2.4GHz
- Among its many amenities is programmable steering dual rate, 16 model memory, steering/throttle curve and end point adjustment
- Coupled with the VR3T 3-channel 2.4GHz receiver, this is the premier surface system!

VNRL8183
VR3T 2.4GHz
3-Channel Receiver

VNRL8184
2.4GHz 2-Channel
Transmitter

Venom™ 2.4GHz Digital Proportional System

An excellent beginner's radio with 2.4GHz!

- 2.4GHz security provides interference-free control that FM and AM radios can't match
- Features servo reversing for both channels, plus adjustable steering dual rate
- Includes a USB Link cable to download and play the Virtual RC racing simulator

VNRL8185
2.4GHz 3-Channel
Receiver

Venom™ 50C LiPo Packs

A real power boost for almost any R/C application!

- Thoroughly tested and rated at a continuous 50C, and capable of 10-second bursts at 100C
- VNRC5030-5032 come with Venom's patent pending Universal Plug System™, with hard cases that stand up to the rigors of on- and off-road racing
- VNRC5040-5048 packs range in capacity from 2500mAh to 5000mAh — ideal for airplanes, helis and boats

Visit GPDealer.com for the complete listing of Venom 50C LiPo packs.

Venom™ LiPo Packs

High-powered batteries for today's high-power systems!

- True C burst ratings mean these packs deliver the goods when you need it!
- A wide range of capacities to power everything from micro-size R/C cars to giant scale airplanes
- VNRC5027-5029 and 5086-5087 feature a durable hard case; VNRC5088-5089 are arranged in a saddle pack configuration

Visit GPDealer.com for the complete listing of Venom LiPo packs.

Venom™ King of Shaves® P1 35" Brushless RTR Boat

An officially licensed replica of the championship-winning P1 power boat!

- The scale stepped fiberglass composite deep vee hull cuts effortlessly through the water
- A Venom V500 brushless marine motor and 60A Pro Marine brushless speed control power a glass-filled prop through a CNC machined aluminum drive
- The top hatch secures with a pin and Neodymium magnets

VNRB1816
King of Shaves P1 35"
Brushless RTR Boat

Venom™ Miss Excite Hydroplane 24" Brushless RTR Boat

The fastest and easiest way to get into hydroplane boat racing!

- Designed for optimum performance, with a scale flat-bottom fiberglass composite pickle-fork hull
- The glass-filled nylon prop is turned by a Venom V500 brushless marine motor and 60A Pro Marine ESC through a CNC machined aluminum drive system
- An integrated aluminum turning vane keeps the Miss Excite planted during high-speed turns

VNBR1817
Miss Excite Hydroplane 24"
Brushless RTR Boat

Venom™ 1/4 Scale VMX 450 RTR Dirt Bike

Become a backyard Supercross hero with this impressive two-wheeler!

- A patent pending gyro in the rear wheel enables the VMX 450 to stay upright at slow speeds
- Full-function off-road motorcycle tires feature Venom's proprietary Beadlox and Griplox wheel and tire system
- Mechanical Traction Control System adjusts traction control to adapt to different surface conditions
- Controlled by a fully programmable VR3T 3-channel 2.4GHz radio system

VNRC0400
1/4 Scale VMX 450
RTR Dirt Bike

Venom™ SCX 2WD Short Course RTR Racing Truck

Designed from the ground up for superior short course performance!

- Revolutionary MORdrive™ system lets you adjust the rear tranny's CG from mid-motor to rear motor on the fly
- The VCD Captured Pin System replaces the micro set screw in the drive train with a CNC machined aluminum retainer, for smoother acceleration and braking
- Fully adjustable racing suspension geometry with multiple shock positions and adjustable camber, toe, ride height and weight bias
- Battery compartment accommodates 6-, 7- and 8-cell NiMH and 2-3 cell LiPo packs

VNRC8500

LET THE CONTEST BEGIN — MAY THE BEST MODELERS WIN!

We're kicking off the 40th Anniversary MonoKote Covering Contest at the Toledo Weak Signals R/C Expo this month. Enter your plane for a chance to win UP TO \$1000 IN R/C MERCHANDISE!

Besides entering the contest there are lots of other great reasons to attend the show:

- Get all the contest details
- See all of the latest innovations in R/C aircraft
- Talk R/C with knowledgeable representatives

40th
MONOKOTE
ANNIVERSARY

AS SEEN ON
VIDEO
top-flite.com

Visit top-flite.com and click on the "40th Anniversary" button to view the Bill and Bob video!

Basic rules:

- Two classes to be judged: ARFs and Kits
- Models can be any category, any scale, from any manufacturer, with nitro, gas or electric power
- Trim schemes must be created using MonoKote coverings and accessories
- Submit up to 5 different photographs of your entry by mail or via the internet
- Entries will be judged on originality, use of color, craftsmanship and ease of reproduction
- The contest will be kicked off at the Weak Signals R/C Expo at Toledo, Ohio in April, 2010
- Entries must be received by midnight, September 15, 2010
- Winners will be announced at the 2010 iHobby Expo in Chicago in October, 2010
- For complete contest rules visit top-flite.com

Remember: this contest is not just for kits...but for ARFs too!

SIX WAYS TO WIN — WITH \$3500 IN PRIZES TO BE AWARDED!

MINI BOAT RACING: WHERE THE ONLY THING THAT'S

Racing is always exhilarating...and mini-sized racing boats let a lot more modelers in on the excitement. With warmer weather just around the corner, why not get you and your friends together to compete with AquaCraft's lineup of quality-constructed mini racers? Because tooling around on the water is fun...but blazing across the water while racing other boats is the ultimate!

Cost

AquaCraft's mini racers are affordable on any modeler's budget. The fact that they come complete with everything you need in one box adds to the value and simplicity!

Assembly

Actually, there's virtually no assembly required with AquaCraft mini racers. Just charge your batteries, install them and start racing!

Space

With lengths ranging from 15.5" to 17.5", a small body of water such as a neighborhood or park pond is all you need to stage thrilling boat races.

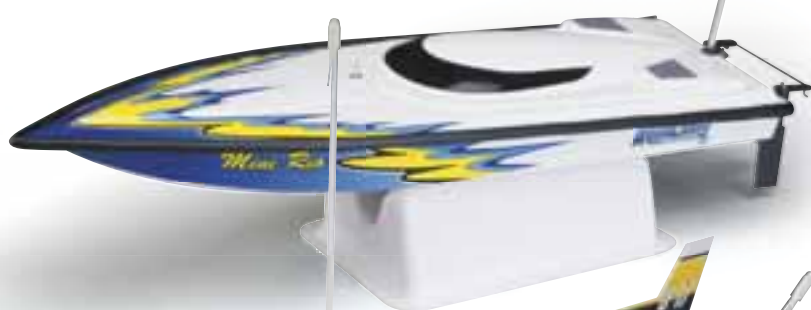

Course Setup

Creating a course can be as simple as attaching weights to floating objects to make buoys and establishing a start/finish line. The first to complete a set number of laps wins!

BIG IS THE FUN!

AquaCraft offers a range of styles for you and your friends to choose from, and quiet electric power means you can run them almost anywhere!

It's like getting **DOUBLE** the run time, at no extra cost!

An added bonus when you purchase a Mini Thunder or Mini Wildcat before April 30, 2010!

Get a FREE DuraTrax[®] 1600mAh NiMH battery pack in addition to the battery pack that's included with the boat — a \$20 retail value!

TURN HERE FOR GENERAL HOBBY PRODUCTS

1/24 SCALE 1937 FORD® SEDAN

Streamlined, stylish and stunning!

When it was first announced in 1937, the Ford Sedan was quite stunning in its day, thanks to its streamlined styling. Today, the '37 Ford dominates the street rod scene, and many classic car buffs think that it's the ultimate canvas for street rod artists to work their wonders. Kit features a detailed V-8 engine and custom interior, modern street rod wheels, soft black tires, chrome-plated parts, a choice of stock or smooth running boards, plus colorful custom graphics.

MONS0884 Total parts: 114 Skill level 2 Length: 7.3 in (184 mm)

1/24 SCALE 1982 CORVETTE

The classic "Cross-Fire" coupe!

By 1982, the super-sleek Corvette coupe had evolved from a boulevard brute into a well-mannered Grand Touring car. The '82 "Vette" is considered one of the best-handling vehicles of its time. For many, it's a thoroughbred-caliber classic in the world of high-performance automobiles. Kit features a replica 5.7-liter V-8 engine, an opening hood, a detailed interior and chassis, soft black tires, chrome-plated accessories and decals with stock and custom graphics.

MONS0885 Total parts: 34 Skill level 2 Length: 7.7 in (196 mm)

1/48 SCALE B-26 MARAUDER

The chief bombardment weapon on the Western Front!

Glenn L. Martin aircraft designers created the B-26 Marauder for the U.S. Army Air Corps. Not only did the rugged Marauder function as a strategic bomber, but it also performed countless other duties as well, such as a torpedo plane, as a long-range fighter and as a ground support aircraft. Kit features a revolving gun turret, a positionable tail gun, a choice of open or closed bomb bay doors, a detailed interior and bomb load, multiple marking options and three crew member figures.

MONS5529 Total parts: 109 Skill level 2 Length: 14.8 in (375 mm)
Wingspan: 17.8 in (452 mm)

1/8 SCALE THE RED KNIGHT OF VIENNA

Ready to joust!

The armor featured on the Red Knight is typical of the type used in the mid-15th century for the tilt or for jousting. Every line of this armor was built with function in mind. Each surface was shaped to deflect blows from opponent's weapons, protecting the wearer. At this time, a huge crest was sometimes attached to the helmet to identify knights and their native origin. Kit features light grey molding, a detailed head, a removable helmet and a display base with historical date.

MONS6522 Total parts: 49 Skill level 2 Height: 10.6 in (269.2 mm)

1/25 SCALE CHEVY® SS 396 HARDTOP
Striking looks – first-class performance!

The 1966 Impala Super Sport was the flagship of the Chevrolet product line, emphasizing performance as well as good looks. Today, large numbers of Chevy enthusiasts devote endless amounts of time, energy and money to the pursuit of restoring, customizing and collecting these milestone cars. Kit features a highly detailed Turbo-Jet 396 V-8 engine with a standard four-speed transmission, a detailed interior with front bucket seats and center console, full wheel covers with spinners, soft black tires, chrome-plated accessories and a choice of stock factory or custom graphics.

RMXS4250 Total parts: 122 Skill level 2 Length: 8.5 in (216 mm)

1/25 SCALE GMC SYCLONE
The can't-miss, high-performance pickup!

Feast your eyes on the GMC Syclone, one of the most outrageous vehicles to roar out of Detroit! Produced in 1991 for a limited time, the Syclone is a modified Sonoma with the ability to run the quarter-mile in 13 seconds – at 103 miles per hour! Kit features a replica turbocharged 4.3-liter V-6 engine, a detailed undercarriage, an opening hood, soft black tires, unique cast-aluminum wheels, ground effect styling pieces and tonneau cover, chrome-plated accessories and a choice of factory stock markings or custom graphics.

RMXS7213 Total parts: 132 Skill level 2 Length: 7.1 in (181 mm)

REVELL OF GERMANY

GERMANY 1/25 SCALE PETERBILT 353
Recreate the '70s-era big rig!

The Peterbilt 353, a specially modified version of the famous "King of the Highway," was designed for long-haul operations in the U.S. Its heavy-duty chassis is designed to withstand extreme load conditions, while the cab sports a corrosion-resistant aluminum skin. Kit features a detailed Cummins diesel engine, a detailed chassis, opening doors, an optional radiator cover, authentic front mudguards, a roof-mounted air conditioning unit, a detailed sleeping cabin, rubber tires, chrome-plated parts and multiple decals with U.S. markings.

RVLS7464 Total parts: 319 Skill level 5 Length: 13 in (329 mm)

GERMANY 1/72 SCALE RAF PILOTS/GROUND CREW FIGURES
Add lifelike detail to your 1/72 scale WWII fighters!

Make history come to life with this exciting WWII-themed RAF figure set! It contains seated pilots as well as standing ground crew figures to place alongside your favorite 1/72 scale aircraft. Pilots also come in various sizes in order to fit inside a wide variety of cockpits.

RVLS2401 Total parts: 101

Plastic Models

Academy Models™ 1/48 F-117A Nighthawk "Last Flight"

Limited edition!

Developed as a stealth attack aircraft, the F-117 Nighthawk became fully operational in 1983. The aircraft's existence was denied by the United States military until 1988, but it featured prominently in the 1991 Persian Gulf War. The U.S. Air Force retired the F-117 in 2008. Possible replacements include the upcoming F-35 Lightning II and the F-22 Raptor. Kit features a highly detailed cockpit interior, a realistic weapons bay, accurate landing gear, "GBU-27A Paveway III" laser-guided bombs and special edition Cartograf® decals, which recreate the Nighthawk's retirement ceremony.

12219 ACYS2219

Academy Models™ 1/35 U.S.M.C. M50A1 Ontos

The incredible anti-tank vehicle!

Most famous for its use as direct fire support against enemy infantry in the Vietnam War, the M50A1 Ontos weighed less than most tanks. Thus, it was easier to transport. Power was provided by a six-cylinder GMC truck engine. It was armed with six M40 recoilless rifles and one .30-caliber machine gun. 297 were produced in all from 1955-1957. Kit features an accurately reproduced design, photo-etched light guards and muffler mesh, plus two soldier figures with realistic replica shells.

13218 ACYS3218

AMT® 1/25 The Munsters™ Munster Koach/Dracula Collector's Tin

Two frightfully fun kits in one!

Although The Munsters aired for two seasons on CBS, the show continues to draw new fans nearly fifty years after it first premiered. Only 70 episodes of the series were produced, but the show's enduring popularity has spawned five movies and a less-successful series remake in the late 1980s. Both kits come molded in white with chrome accessories, black vinyl tires and water-release decals. Includes full-color collector tin packaging with retro-style artwork.

AMT619 AMTS0619

Skill level 2

AMT® 1/25 1925 Ford® Model "T"

Build a stock "T" – and a "T" chopped coupe!

A classic AMT favorite returns – with all the details you remember from the original 1960s-era model! Kit is molded in white and clear with chrome accessories, black vinyl tires and water-release decals. Other features include pad-printed "wide-white" stock tires, pad-printed whitewall M&H drag slicks, a red-tinted chopped window option, chrome custom reversed wheels, a tuck 'n roll roadster interior, a mini display box, original 1960s kit decals and a reproduction collector's card.

AMT626 AMTS0626

Over 140 parts

Skill level 2

AMT® 1/25 White Road Boss Truck

Rule the road with this imposing big rig!

From 1900 until 1981, White Motor Company was one of America's most versatile – and profitable – manufacturers. They're most famous for their best-selling cars and trucks, but they also made bicycles, sewing machines, roller skates and automatic lathes as well. One of their most popular vehicles was the Road Boss Truck, which has been faithfully recreated with the return of this classic kit from AMT! Kit is molded in white with chrome accessories, black vinyl tires and water-release decals.

AMT648 AMTS0648

Over 300 parts

Skill level 3

AMT® 1/25 Fruehauf Van

The superior semi-trailer!

Truck modeler builders are always on the hunt for full tractor and trailer combinations. This exceptional Fruehauf kit looks grand in 1/25 scale – either on its own or when you have your favorite AMT tractor kit haul it around! Kit features a fully detailed chassis, fully detailed body panels, black vinyl tires, chrome wheels and water-release decals.

AMT649 AMTS0649

Skill level 2

AMT® 1/25 Ford® Stake Truck

The classic tilt-cab truck!

Like many other C-Series trucks produced by Ford, the C-600 tilt cab-over truck was used for various applications, ranging from delivery trucks to fire trucks to stake trucks. Because of its wide-ranging versatility, the C-Series endured from 1957 until 1990. Kit features a fully detailed engine and chassis with a tilt-cab body, plus colorful cab door decals. It comes molded in white with black vinyl tires and chrome accessories.

AMT650 AMTS0650

Skill level 3

AMT® 1/2500 Star Trek® Cadet Series: Enterprise Set

Three generations of U.S.S. Enterprises!

These thrilling mini-sized kits allow you to display three in-scale versions of the starship Enterprise on one shelf! Set includes the original series Enterprise, the Enterprise refit from Star Trek: The Motion Picture and the Enterprise-B from Star Trek: Generations. All feature easy snap assembly and include exclusive Aztec decals.

AMT660 AMTS0660

Skill level 2

AMT® 1/2500 Star Trek® Cadet Series: Enterprise-C

Captain Garrett's Next Generation Enterprise!

Famous for its appearance in the popular Next Generation episode "Yesterday's Enterprise," the Enterprise-C is notable for being the first Enterprise to be commanded by a female captain. In the episode, Captain Picard and his crew encounter the Enterprise-C and Captain Rachel Garrett due to a rift in the space-time continuum. Kit features easy snap assembly, Aztec/marketing decals and the option to glue.

AMT661 AMTS0661

Skill level 2

AMT® 1/2500 Star Trek® Cadet Series: Enterprise-E

As seen in First Contact and beyond!

Because the Enterprise-D was destroyed in the climax of Star Trek: Generations, a new ship was designed and unveiled in the series' subsequent sequel, Star Trek: First Contact. It is the sixth Federation starship to feature the Enterprise name, and legend has it that engineer Montgomery Scott helped design the Sovereign-class vessel. Kit features easy snap assembly, Aztec/marketing decals and the option to glue.

AMT663 AMTS0663

Skill level 2

Airfix® 1/72 Scale MiG-15

The Soviet swept-wing jet fighter!

Introduced in 1947, the MiG-15 first gained fame for outclassing all enemy fighters in the Korean War. Over 12,000 licensed fighters were built, and up to 6,000 were built outside the U.S.S.R, making the MiG-15 one of the most widely produced jet fighters of all time. Many examples still survive, including a MiG-15 that's on display at the United States Air Force Museum in Dayton, Ohio. Kit features three detailed decal marking options.

2037 ARXS2037 Total parts: 53 Skill level 1 Length: 6.1 in (155 mm)

Airfix® 1/24 De Havilland Mosquito NFII/FBVI

Highly detailed and painstakingly designed!

Night fighter versions of the popular De Havilland Mosquito were first produced in 1942, with 466 aircraft entering service with the RAF's No. 157 Squadron. Many were armed with metric wavelength radar to sneak up on enemy aircraft. However, some had their radar equipment removed to install extra fuel tanks for use as night intruder aircraft. Kit features full interior detail, removable panels, a figure set and three aircraft marking options.

25001 ARXS5001 Total parts: 617 Skill level 4 Length: 21 in (522 mm)
Width: 27 in (688 mm)

Bronco Models 1/35 Scale Adler Kfz. 14 Radio Car

The combat-ready communications link!

The Adler Kfz. 14 Radio Car was designed with long-range radio equipment and a frame radial, which could be folded down when it wasn't in use. They could have up to a 3-person crew and they had a top speed of 44 mph. Kfz. 14s were often used for troop communications in the U.S.S.R., Poland and France. Kit features highly detailed plastic pieces molded in tan, realistically recreated radio equipment, bonus slide-molded tires, photo-etched accessories and detailed, high-quality decal markings.

35051 BOMS3551 Total parts: 242 Length: 4.7 in (120.5 mm)

Dragon® 1/144 SH-60F & HH-60H HS-6 "Indians"

Two superior search-and-rescue aircraft!

The twin-engine, multi-purpose SH-60F Oceanhawk is outfitted for anti-submarine warfare as well as search-and-rescue missions. The HH-60H "Rescue Hawk" is designed for combat search-and-rescue and naval special warfare missions. The two helis are often found operating side-by-side on U.S. Navy aircraft carriers. Both easy-to-assemble kits feature high-definition molding with astonishing detail, including full cabin interiors and colorful Cartograf® decals. The SH-60F also includes a new cabin door, while the HH-60H adds external auxiliary fuel tanks.

4619 DMLS4619

Maisto® 1/24 Mercedes-Benz CL63 AMG

Loaded with creature comforts!

No grand tourer combines elegant styling and tremendous power as well as the CL63 AMG. A 507 hp V-12 engine and paddle-shift transmission powers this luxury coupe from 0-60 mph in only 4.5 seconds. Kit features a painted and decorated diecast metal body with plastic details, opening doors, steerable front wheels, an opening hood, bonus custom wheels and a screwdriver. No paint or glue required.

39297 MAIS9297 Skill level 2

Minicraft Models 1/144 B-1A Bomber SAC

The supersonic strategic bomber!

Designed to replace the aging B-52, the B-1A was built to serve as a supersonic heavy bomber capable of delivering a nuclear payload. After a lengthy development period, the project was scrapped in 1977 due to rising costs and increased vulnerability to Soviet defense systems. A fleet of upgraded B-52s, ICBMs and SLBMs were produced in the B-1A's place. However, the aircraft continued to serve as a test bed for the B-1B throughout the Reagan administration. Kit features flight test-inspired markings for the B-1A circa 1981.

14595 MMIS4595

Moebius® 1/32 Scale Battlestar Galactica Colonial Viper Mk.II

Fend off Cylon forces!

Designed to operate in both outer space and atmospheric conditions, the Viper is the Colonial Fleet's primary Space Superiority Fighter/Attack craft. The Mk.II model was originally introduced shortly before the outbreak of the first Cylon War. It remained in service long after the end of the conflict, although it was superseded by newer models. Kit lets you choose between an in-flight version with base and a version with extended landing gear. Other features include a resin pilot figure and detailed decals.

912 MOES0912 Total parts: 54 Skill level 3

Moebius® 1/55 Scale Moon Bus

As seen in 2001: A Space Odyssey!

A rare Aurora kit classic returns with the release of the 1/55 scale Moon Bus from Moebius Models! Recreating every detail of the vehicle from the 1968 Stanley Kubrick film, 2001: A Space Odyssey, this magnificent model takes the original kit (which has been unavailable since 1969!) and retools it with 21st century improvements. Kit features detailed decal markings and five astronaut figures.

2001-1 MOES2001 Total parts: 142 Skill level 3

MPC® 1/100 Pilgrim Observer Space Station

The classic "what-if" kit is back!

As imagined in the 1970s, the Pilgrim Observer was a complete, self-sustaining space station community capable of making deep probes to far-reaching planets. It could also carry up to twelve passengers and all their supplies, while being able to maintain their health and safety for extended periods of time. The Observer also boasted full docking compatibility with Apollo modules and E.B.A. space taxis. This exciting MPC kit re-issue is molded in white plastic, with clear plastic parts. Requires glue and paint.

MPC713 MPCS0713 Skill level 3

MRC™ 1/72 Scale F-84G U.S.A.F. Thunderbirds Air Demo Team, 1955

The famed turbojet fighter-bomber!

The F-84 has the distinction of being the first full-service jet fighter introduced after WWII's end. The "G" variant also had the ability to carry the Mark 7 nuclear bomb, plus it was capable of in-flight refueling using a boom and drogue. It was also the first aircraft flown by the U.S. Air Force's Thunderbirds, which flew the F-84G from 1953 to 1955. This fully assembled and painted model features a fixed undercarriage, authentic preapplied markings and a display stand.

36801 MRCS6801

Plastic Models

MRC™ 1/72 Scale F-84G Thunderjet Italian Air Force

One of the best fighters of its time!

Thanks to its participation with NATO in 1949, the Italian Air Force was able to modernize its fleet of aging aircraft. American aid appeared by way of the Mutual Defense Assistance Program – and Italy benefited from some of the best aircraft of this time, including the F-84G Thunderjet. 1,936 F-84Gs were built for the MDAP, and a rejuvenated Italian Air Force carried on through the 1950s. This fully assembled and painted model features a fixed undercarriage, authentic preapplied markings and a display stand.

36803 MRCS6803

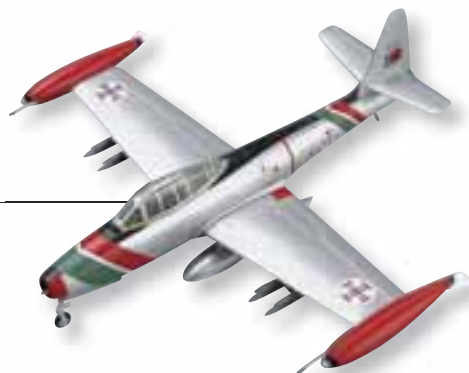

MRC™ 1/72 Scale F-84G Portugal Air Force

Wage war on enemy aircraft!

The F-84 has the honor of being the first fighter aircraft to utilize in-flight refueling, as well as being the U.S. Air Force's primary strike aircraft throughout the Korean War. 125 F-84Gs also featured prominently in the Portuguese Colonial War, which lasted from 1961-1974. This fully assembled and painted model features a fixed undercarriage, plus authentic preapplied markings and a display stand.

36804 MRCS6804

Polar Lights® 1/1000 U.S.S. Enterprise™ NCC-1701 Refit

The finest starship in the galaxy!

In 1979, the U.S.S. Enterprise NCC-1701 made a grand leap to the big screen with Star Trek®: The Motion Picture. Instead of using the version from the original TV show, creator Gene Roddenberry and director Robert Wise opted for an Enterprise "refit" that was sleeker and much more detailed than the show's original model. Kit features include easy snap-together assembly, plastic parts molded in white, clear plastic accessories, a display stand with moveable ball-and-socket joint, marking decals and full aztec decals.

POL820 PLLS0820 Over 35 parts Skill level 2 Length: 12.3 in (312 mm)

Polar Lights® 1/32 Batman™ Classic Batmobile™

Classic, campy fun!

Holy hot rod, Batman! The legendary model kit based on the Classic Batmobile has returned at last! Molded using the original tooling, this is the authentic, original, 1/32 scale kit version of one of the best-loved custom vehicles ever made! Kit features black plastic molding, chrome-colored and clear plastic accessories, easy-to-assemble Batman and Robin figures, vintage-style packaging and decal markings.

POL821 PLLS0821 Over 40 parts Skill level 2 Length: 6.5 in (165.1 mm)

Polar Lights® 1/32 Batman™ Classic Batmobile™ Collector's Tin

Tune in tomorrow. Same Bat-time. Same Bat-channel!

Anyone who's seen the classic Batman television from the 1960s remembers this famous catchphrase. And it's just as likely you remember the original Classic Batmobile kit, which was released at the same time. Out of print for decades, this 1/32 scale kit recreates the popular vehicle – using the original kit's tooling! Kit features black plastic molding, chrome-colored and clear plastic accessories, easy-to-assemble Batman and Robin figures, decal markings, plus an embossed collector's tin, a bonus art print and reproduced original packaging.

POL822 PLLS0822 Over 40 parts Skill level 2 Length: 6.5 in (165.1 mm)

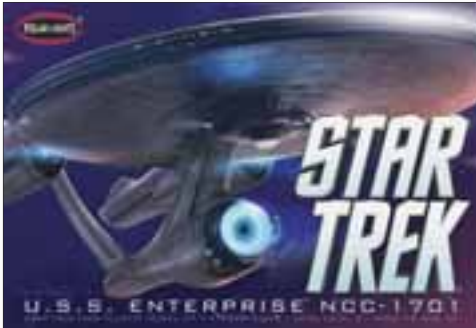

Polar Lights® 1/25 Batman™ 1966 Classic Batboat™

Holy inboard motor, Batman!

If you're a fan of the campy Batman television show from the late 1960s, you may already know that the Batboat made its first appearance in the full-length feature film from 1966. But what you probably don't know is that the Batboat was powered by a Chevy® V-6 engine and it took 31 days to build! Kit features the original 1966 kit's design, extra-fine details, Batman and Robin figures as well as expanded full-color decal markings.

POL823 PLLS0823 Skill level 2 Length: 8.5 in (216 mm)

Polar Lights® 1/2500 Star Trek® New Movie Enterprise™

As designed by Ryan Church!

The 2009 blockbuster Star Trek brought the original crew back together on the big screen, but with a twist. The film, as directed by J.J. Abrams (Lost), featured the Enterprise crew early in their careers, facing off against an evil Romulan. The film managed to do the impossible; it successfully reinvigorated the franchise, while managing to stay true to the spirit of the original series. Kit features white plastic molding, clear plastic accessories, marking decals, aztec decals and all-new packaging art from ship's designer Ryan Church. Requires glue and paint.

POL836 PLLS0836 Skill level 2 Length: 11.5 in (292.1 mm)

Polar Lights® The Three Stooges – Larry

Made for madcap slapstick!

Although The Three Stooges' first comedy shorts were produced in the early 1930s, the popular slapstick trio is still just as popular today. They are true comedy icons; their wacky style has had an everlasting effect on American pop culture. The Stooges' influence can still be seen in some of today's most popular comics. This hilarious kit is molded in two tones of grey and clear plastic, with an accurate likeness of the beloved Stooge. Includes an interconnecting display base. Requires glue and paint.

POL839 PLLS0839 Over 25 parts Skill level 2

Polar Lights® The Three Stooges – Moe

The chief Stooge!

The Three Stooges first formed as a vaudeville act in 1925 with comedian Ted Healy as the leader. Moe and Shemp Howard were members from the start, Larry joined the group soon after, and Curly served as a replacement for Shemp. Thanks to television airings and DVDs of the classic shorts, The Three Stooges continue to gain new fans – today, and always. Moe comes molded in two tones of grey and clear plastic, with an exact likeness of the Stooges' ringleader. Includes an interconnecting display base. Requires glue and paint.

POL840 PLLS0840 Over 25 parts Skill level 2

Polar Lights® The Three Stooges – Curly

Nyuk! Nyuk! Nyuk!

While Curly was the final "piece of the puzzle" in the creation of The Three Stooges, he was arguably the most popular member of the classic comedy troupe. His childlike demeanor and natural knack for slapstick was a vast contrast to ringleader Moe and foil Larry. However, the combination of their different personalities was what made the Stooges so special. Curly comes molded in two tones of grey and clear plastic, with an exact likeness of the Stooges' most manic member. Includes an interconnecting display base. Requires glue and paint.
