# RIP-ROARING REALISM

## EVADER<sup>TM</sup> DT

PROTECTED BY  
**STRESS-TECH<sup>TM</sup>**  
**GUARANTEE** **1**  
YEAR

# AT A SWEET LOW PRICE!

- From the bumpers, skid plate, roll bar, light bars and mirrors to the truck bed with cooler and functional spare tire, this truck is loaded with realism
- Authentic-looking off-road tires and wheels fit neatly beneath the painted body with factory-applied graphics
- Oil-filled shocks with long-lasting, leak-resistant metal caps
- Molded MagnaFlex™ parts — flexible, durable and covered by the Stress-Tech™ 1-year guarantee
- Tactic™ 2-channel radio with TSX200 steering servo and 2-channel receiver
- The Photon Speed™ 2 motor delivers quick acceleration and impressive top-end speeds, and the Sprint™ 2 ESC features brake and reverse

DTXD31\*\* Evader DT 2WD Electric  
Desert Truck RTR  
Length: 18.5 in (470 mm)  
Width: 9.5 in (242 mm)  
Weight w/battery: 61.7 oz (1750 g)

### **From the Experts:**

The Evader DT continues the Evader tradition of rugged, exciting fun machines that anyone and everyone will enjoy! Not only is the desert truck styling accentuated with lots of scale touches, there are quality performance components everywhere you look. And all at an entry-level price that no one else can match!

### **Long story short...**

*With killer custom style, "pre-runner" performance and an affordable price, the Evader DT is one RTR rig that rocks!*

# PRECISION, PERFECTION AND

## SR22<sup>TURBO</sup>

Almost Ready-to-Fly Sport-Scale Electric

Pilot figure shown not included.

- Officially licensed – capturing the sleek, modern looks of the full-size, 4-seat aircraft described by its manufacturer as “an elite lifestyle”
- High-quality ARF construction for quick assembly
- Surprisingly lightweight for its 50” wingspan; performs well with smaller brushless motors
- The cockpit’s modern instrument panel decal and smoked windows attest to the model’s attention to detail

# PERFORMANCE

## ***From the Experts:***

Even though Cirrus is a relative newcomer to civilian aviation, the SR22 has already become a top seller — and ElectriFly's ARF model replicates its efficient design and scale flight performance down to the last detail. A fiberglass fuselage and wheel pants add scale realism without extra assembly time. With its 50" wingspan the Turbo Cirrus handles the wind well, but it's also very lightweight and flies admirably with low-cost brushless components.

**ElectriFly**<sup>™</sup>  
by Great Planes<sup>®</sup>

GPMA1166  
Turbo Cirrus GTS SR22 EP ARF  
Wingspan: 50.5 in (1285 mm)  
Weight: 2.5-3.0 lb (1130-1360 g)

## ***Long story short...***

***It's a scale or sport pilot's dream: an ARF version of the Turbo Cirrus SR22 with the same level of quality as the full-size civilian airplane!***

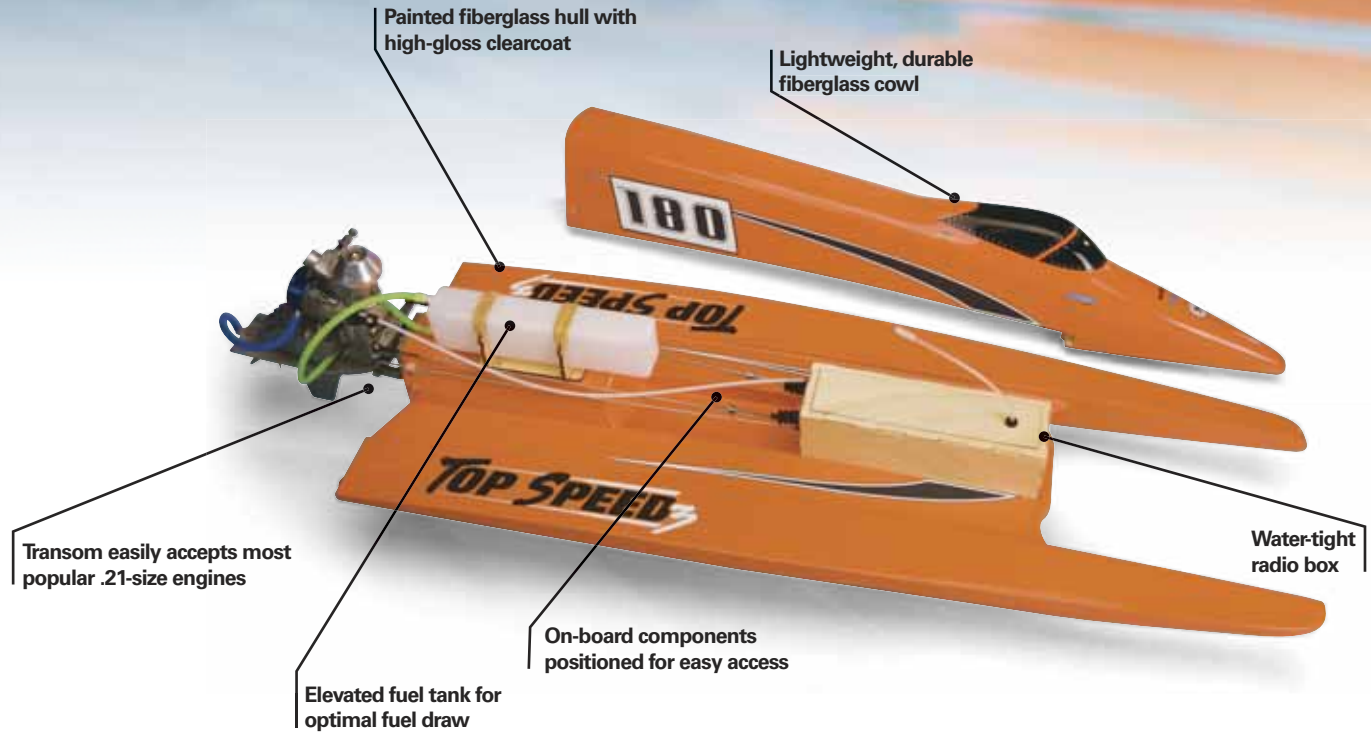

NEW PRODUCT

THE NEXT GENERATION IN PURE

# TOP SPEED<sup>3</sup>

www.gpdealer.com

Painted fiberglass hull with high-gloss clearcoat

Lightweight, durable fiberglass cowl

Transom easily accepts most popular .21-size engines

Elevated fuel tank for optimal fuel draw

On-board components positioned for easy access

Water-tight radio box

# PERFORMANCE

- Based on a proven World and National champion .21 tunnel hull design!
- Bred to be a serious competitor at any level
- Comes with a complete package of top-quality GrimRacer hardware

**AQUACRAFT**  
Models

AQUB0007 Top Speed 3 .21 Tunnel Hull ARR-Orange  
 AQUB0008 Top Speed 3 .21 Tunnel Hull ARR-Yellow  
 AQUB0009 Top Speed 3 .21 Tunnel Hull ARR-Red  
 AQUB0010 Top Speed 3 .21 Tunnel Hull ARR-White  
 Hull Length: 30 in (765 mm)  
 Width: 10.5 in (265 mm)  
 RTR Weight minus fuel: 5 lb (2.3 kg)

### ***From the Experts:***

Over the last 3 years AquaCraft designers have refined and tweaked the Top Speed 3 ARR. During that time it has racked up multiple World, National and regional wins — and now it's ready to make YOU a champion! The fiberglass hull and sponsons have been carefully engineered for high speeds and precise handling, and a complete package of GrimRacer™ hardware keeps the Top Speed 3 going strong all the way to victory!

### ***Long story short...***

***The Top Speed 3 starts with a World Championship-winning tunnel hull design and ends with you in the winner's circle!***

# RAZOR SHARP... IN BOTH LOOKS AND PERFORMANCE! KATANA EP & .60 ARFS

**Katana EP ARF**  
PMMA0355  
Wingspan: 50 in (1270 mm)  
Easy-access flight battery compartment

**Katana .60 ARF**  
PMMA0575  
Wingspan: 56 in (1420 mm)  
Pre-installed pilot figure

**Both Katanas feature:**

- Traditional built-up balsa/ply construction
- Painted fiberglass cowl and wheel pants
- Two-piece wing with aluminum joiner tube for easy transport
- Pre-hinged control surfaces
- Complete hardware package with spinner

**From the Experts:**

From superior sport flying to exceptional aerobatics, the Katana handles like a pro and stands out from the crowd! Final assembly is quick and easy, the construction is top-notch, and you have your choice of glow or electric power!

**Long story short...**

*The Katana looks as good as it flies – whether you're into smooth sailing or airshow-quality maneuvers.*

# SATISFY YOUR NEED FOR SPEED!

## F-20 *Tigershark*

*Sport-Scale Electric Ducted Fan ARF*

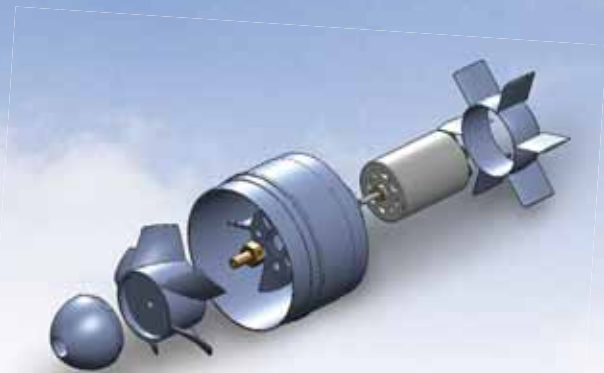

# 85+ MPH SPEEDS\*!

\*With recommended electronics at sea level.

- Factory-hinged aileron and elevator control surfaces cut final assembly time to 4-6 hours
- Optimized intake and exhaust areas maximize ducted fan performance for greater speeds
- Made of strong, lightweight AeroCell™ foam finished in high-vis colors
- Comes with display stand, decals and removable, magnetic wingtip missiles

**ElectriFly™**  
by Great Planes®

GPMA1875 F-20 Tigershark EDF ARF  
Wingspan: 22.5 in (570 mm)  
Length: 37 in (940 mm)  
RTFWeight: 26.8 oz (760 g)

A powerful Ammo™ inrunner brushless motor and proven HyperFlow™ ducted fan unit are both included, combining to produce impressive thrust and speed.

Shown with included missiles, for display use only.

### **From the Experts:**

With its sleek design and potential for blazing speeds, the F-20 Tigershark will take R/C jet pilots to the edge! The full-size fighter's experimental looks are captured with lots of scale detail, and the ducted fan unit with brushless motor is one highly efficient power system. Plus, in just 4-6 hours it can be ready for flight or display!

### **Long story short...**

**The F-20 Tigershark Electric Ducted Fan Jet can be summed up in three words... sleek, simple and super-fast!**

# THE ULTRA-MICRO SIZED WAY TO GET YOUR HOVER ON!

## PROTO<sup>TM</sup> max

**2.4GHz**  
READY-TO-FLY

- Heading hold gyro for smoother, easier control
- The rotor head features Bell-Hiller mixing for more maneuverability
- High-capacity LiPo battery offers big flight time in a tiny pack — and recharges right from the transmitter
- Totally assembled and completely equipped

**Radio features include: 2.4GHz, Dual Rates and LCD Display!**

### ***From the Experts:***

If you're going from a coaxial heli to a single-rotor model, there's no easier way to make the transition than with the Proto MAX. It's small enough to fly indoors while you're learning new flying skills, and everything is included — including the "AA" batteries!

### ***Long story short...***

***Revell's Proto MAX is the super-small electric heli that's designed for maximum fun!***

RMXE6091 Proto MAX 2.4GHz EP RTF Heli  
Main Rotor Diameter: 7.5 in (190 mm)  
Overall Length: 8.25 in (210 mm)  
RTFWeight: 1 oz (28 g)

# THIS CRAWLER MAKES NO COMPROMISES TO QUALITY

Axial® 1/10 XR10™ 4WD Competition Rock Crawler Kit

www.gpdealer.com

- Chassis has been newly designed from the ground up!
- Low profile front and rear axles mean extra ground clearance
- Behind The Axle (BTA) steering and oversized universals dramatically increase adjustability
- With dual motors the front and rear gear ratios can be fine-tuned independently
- Compact, lightweight gearboxes allow for "Motor-on-Axle" configuration
- Aluminum chassis plates with tapered molded nylon skid plate

Tires not included.

AXIC9017 1/10 XR10 4WD Competition Rock Crawler Kit

## Long story short...

*From Axial — the leaders in rock crawling engineering — comes the competition rock crawler enthusiasts have been waiting for: the XR10!*

# GATEKEEPER DESIGNS GC-3A COMPETITION CHASSIS KIT

Get the winning advantage for your Axial® AX-10!

- Designed by national rock crawling champion Austin "Gatekeeper" Dunn
- Boasts CNC-machined, T6 6061 aluminum chassis side plates, axle-mounted servo plate and rear axle link plate
- Other features include: anodized aluminum upper, lower links and chassis braces, low-friction skid plate, high-quality rod ends and adjustable body mount supports
- A complete hardware package is included

*Gatekeeper Designs*

DTXC0017 Gatekeeper GC-3A Competition Chassis Kit

Axial® is a registered trademark of Axial, Inc.

## Long story short...

*The Gatekeeper comes through again, with a complete kit for upgrading your Axial AX-10!*

# TACTIC™ TR624 6-CHANNEL 2.4GHZ RECEIVER

Performance and value in a spread spectrum receiver!

- Pushing a single button binds the TR624 to the transmitter's unique, coded signal
- This unbreakable link endures even if the receiver loses power
- Binding additional receivers is just as easy, allowing you to fly multiple aircraft with one transmitter
- No crystal required
- Compatible with TTX 404 and TTX 240 transmitters.

TACL0624 TR624 6-Channel 2.4GHz Receiver

## Long story short...

*The low cost of Tactic's TR624 6-channel receiver makes enjoying 2.4 affordable.*

## O.S.® FR7-420 SIRIUS 4-STROKE ENGINE

The brightest star in 4-stroke appearance and performance!

- The vintage 7-cylinder design is a scale airplane modeler's dream
- A V-shaped valve cover layout
- Individual valve covers for a very scale appearance makes this engine compatible with several airplane styles
- Main internal parts such as the crankshaft, cam holder and reduction gear are all plated to resist corrosion
- Air-fuel mixture is distributed equally to each cylinder to ensure high performance and superb idle

**OSMG1307 FR7-420 Sirius 4-Stroke Engine**  
**Displacement:** 0.6071 cu in x 7 (9.95 cc x 7)  
**Bore:** 0.944 in (24.0 mm)  
**Stroke:** 0.866 in (22.0 mm)  
**Practical RPM:** 1,500-7,000  
**Weight:** 111.7 oz (3.167 g)  
**Props:** 22x10-12, 23x8-12, 24x8-12, 26x8  
**OSMG5697 Collector Ring**

### Long story short...

*The "Golden Era" looks of the FR7-420 Sirius are only matched by its superb power output and rich, realistic sound.*

## ASSOCIATED SC10 2WD ELECTRIC FACTORY TEAM KIT

- Based on the 7-time champion RC10T4, with the full Factory Team treatment
- Setup has been optimized to make this the best-handling SC10 yet
- Competition features include: JConcepts Subcultures rear tires, Team V2 threaded shocks, V2 slipper clutch, ball diff with lightened outrives and much more

ASCC7034 SC10 2WD Electric Factory Team Kit

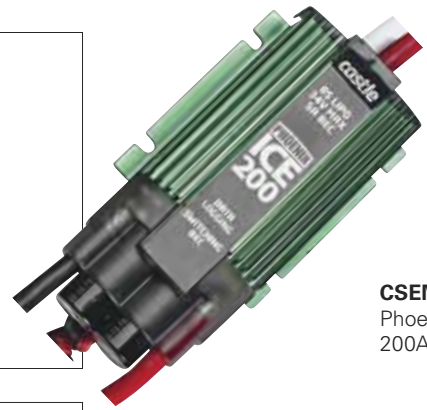

### Long story short...

*The SC10 Electric Factory Team Kit takes the R.O.A.R. Short Course National Champ to the next level!*

## Castle™ Creations Phoenix Ice 200 200A 33.6V

*The next generation in air speed control!*

- Offers the ability to run at input voltages of up to 8S (33.6)
- Use the built-in switching BEC to output up to 5 amps of servo power
- Extensive data logging capabilities stores 7 different data points
- Virtually no pre-programming required

**CSEM7200**  
Phoenix Ice 200  
200A 33.6V

## Tactic™ Adjustable Neck Strap Black

*The stylish, comfortable way to hold your transmitter!*

- 1" wide, for a comfortable feel
- Adjustable length
- Spring-loaded hook provides security

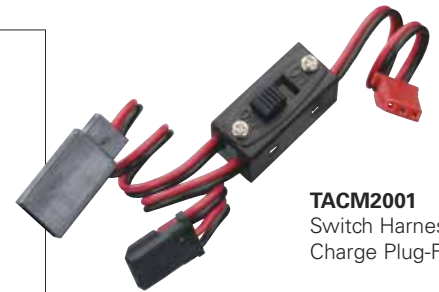

**TACM2100**  
Adjustable Neck  
Strap Black

## Tactic™ Switch Harness with Charge Plug-FutJ

*Inexpensive electronic convenience!*

- Charge lead is built in
- On/Off switch is embossed on the face plate for easy reading
- Mounts in just minutes

**TACM2001**  
Switch Harness with  
Charge Plug-FutJ

## Venom™ 1/4 VMX 450 Dirt Bike 2.4GHz RTR

*True-to-scale Supercross looks and exciting Motocross performance!*

- Full-function off-road motorcycle tires feature Venom's proprietary Beadlox™ and Griplox™ wheel and tire system
- A patent pending gyro in the rear wheel enables the bike to stay upright at slow speeds
- The Mechanical Traction Control System adjusts traction control to adapt to different surface conditions
- Comes with a fully programmable VR3T 3-channel 2.4GHz radio system
- Includes a 7-cell 3000mAh NiMH battery with wall charger

Also Available:  
**VNRC0399** 1/4 VMX 450 Dirt Bike 2.4GHz RTR Red

**VNRC0398**  
1/4 VMX 450 Dirt Bike  
2.4GHz RTR Blue

**VNRC8501**  
Gambler Short Course  
Truck RTR White

## Venom™ Gambler Short Course Truck RTR White

*A sure bet for fender-to-fender racing fun!*

- Revolutionary MORdrive™ system lets you adjust the rear tranny's CG from mid-motor to rear motor on the fly
- The VCD Captured Pin System replaces the micro set screw in the drive train with a CNC machined aluminum retainer, for smoother acceleration and braking
- Fully adjustable racing suspension geometry with multiple shock positions and adjustable camber, toe, ride height and weight bias
- 3-piece Beadlox™ wheel system with Griplox™ inserts
- Battery compartment accommodates 6-, 7- and 8-cell NiMH and 2-3 cell LiPo packs

**VNRC8419**  
Safari Creeper Rock  
Crawler RTR Blue

## Venom™ Safari Creeper Rock Crawler RTR-Blue

*Set out on rock crawling adventures with the Safari!*

- Attacks rugged terrain with a pre-installed DIG Unit powered by a 35T 550 brushed motor
- The Ridge Line™ 2.2" competition crawler tires are paired with Beadlox™ 2.2" wheels
- Over 40° of steering deflection and 70°+ of suspension articulation
- Realistic Safari polycarbonate body that's pre-painted

**NOVC3082**  
Havoc 3/Ballistic 17.5T  
Brushless System-  
Traxxas Plug

## Novak Havoc 3/Ballistic 17.5T Brushless System-Traxxas® Plug

*Satisfies the appetite of even the most power-hungry drivers!*

- One-Touch™ calibration makes the compact Havoc 3 ESC one of the easiest to operate
- Ballistic Spec motors are ROAR-approved, with a nickel-plated sintered Neodymium rotor for maximum acceleration and braking power
- The Traxxas-compatible battery connector means easy, race-ready installation with no soldering

**Also Available:**

- NOVC3080 Havoc 3/Ballistic 10.5T Brushless System Traxxas**
- NOVC3081 Havoc 3/Ballistic 13.5T Brushless System Traxxas**

# the really **big** ARF rebate

## OVER 90 ARFS, WITH REBATES OF UP TO \$50!

Kick off the flying season with a new ARF model, and get FREE MERCHANDISE to boot! There's something for everyone in the Really Big ARF Rebate event — park flyers, giant scale, sport models, aerobats, electrics, even warbirds — and they're all quality airplanes from Great Planes®, ElectriFly™ and Top Flite®.

It's easy — just send in the required items after you've bought your model and you'll get a Merchandise Certificate in the mail. Take it to the hobby shop where you purchased your ARF and use it towards your choice of quality hobby products from 30 top manufacturers!

Get all the details at [BestRC.com](http://BestRC.com)™!

To see the complete list of ARFs featured in this event go to [BestRC.com](http://BestRC.com) and click on the Really Big ARF Rebate banner. Then visit your local participating hobby retailer by August 31, 2010.

# NITRO EXCITEMENT AND MORE — AT NO EXTRA CHARGE!

## NITRO SUPERVEE 27™

SuperVee 27™ Nitro  
AQUB22\*\*

Experience the raw power and realism of nitro, and get \$15 that you can use towards AquaCraft parts and accessories! What better way to kick off the boating season than with an exciting new nitro boat — and FREE merchandise to boot? The SuperVee 27 Nitro is equipped with an .18-sized engine and top-of-the-line GrimRacer hardware. It comes Ready-To-Run — just add fuel and go — and for a limited time you can receive \$15 towards quality AquaCraft products with the purchase of this exciting offshore racer! Here's all you do:

1. Purchase a SuperVee 27 Nitro RTR by August 31, 2010
2. Pick up a Merchandise Certificate request form at the store, or download one by logging onto [aquacraftmodels.com](http://aquacraftmodels.com)
3. Fill it out and send it in to Great Planes®, along with a cash register receipt or invoice and proof-of-purchase\*

\*Items sent in must be postmarked by September 30, 2010.

### What AquaCraft merchandise could you use YOUR certificate for?

## “Charger of the Year”

**DuraTrax®**  
**Onyx™ 230 AC/DC Charger**  
presented by  
**R/C Car Action**

Thank you, readers and editors of Air Age Publications, for selecting RealFlight® G5 and Onyx™ 230 as outstanding R/C products for 2010

When you take pride in what you do, people notice. And in March 2010 the people at the RCX Show in Pomona, California saw what modelers have been talking about, bestowing prestigious honors upon two recent product releases!

Model Airplane News magazine recognized Great Planes' RealFlight G5 Flight Simulator with its "Innovation of the Year" award — reinforcing RealFlight's status as the world's #1 R/C simulator for the past 12 years. In the same ceremony, the Onyx 230 AC/DC Charger was presented with the

"Charger of the Year" trophy by *R/C Car Action* magazine — extending DuraTrax's string of winning this award to five consecutive years and counting.

Being commended by your peers justifies all the research, development and testing that is required to manufacture R/C's finest. But don't just take our word for it...find out for yourself why modelers the world over put their trust in quality products such as these!

# 1/144 SCALE J-AIR EMBRAER 170 MODERN JET AIRLINER

**THE YEAR'S MOST ANTICIPATED CIVILIAN AIRCRAFT KIT!**

The most compact of all the Embraer E-Jets, the Embraer 170 made its first public appearance in 2002. Today, 175 Embraer 170s currently serve major airlines all around the world, and it's fast becoming one of today's most-requested jet airliners. Newly tooled and loaded with detail, this 1/144 scale Hasegawa kit looks incredible inside and out – just like the full-size plane. It's sure to be among the most anticipated aircraft models of the year!

**Included waterslide decals let you reproduce an Embraer 170 flown by Japanese airliner J-Air.**

**HSGS1101 1/144 Scale J-Air Embraer 170 Kit**  
Parts Count: 50  
Skill level 3  
Decal options: 1) J-Air Code: JA211J, Feb., 2009

### ***From the Experts:***

Hasegawa has done it again with their superior, 1/144 scale recreation of the J-Air Embraer 170! It's a stunning reproduction of one of today's most "in-demand" airliners, from one of the world's most respected names in the hobby industry.

### ***Long story short...***

***The wait is finally over. Now's your chance to build your very own replica of the impressive, super-sleek Embraer 170!***

**1/249 SCALE U.S.S. BUCKLEY (DE-51)**  
**The U.S. Navy's commanding destroyer escort!**

The U.S.S. Buckley was assigned to the North Atlantic during WWII to protect vulnerable merchant vessel convoys from the ever-present threat of German submarines. She is most famous for ramming and destroying the German submarine U-66 after making contact with the enemy craft while surfaced. Kit features a detailed deck and superstructure, realistic hulls, deck-mounted torpedo tubes, depth charges, armaments, three 3" guns, eight 20 mm guns, one twin 40 mm gun, props, shafts, a display stand and decals with authentic markings.

RMXS3013      Total parts: 96      Skill level 2      Length: 14.8 in (375.9 mm)

**1/25 SCALE DODGE VIPER SRT10 ACR**  
**Street-legal – built for hardcore racing!**

The Dodge Viper SRT10 ACR (American Club Racer) is every hardcore racer's dream car. Although it's street-legal, it handles and drives just like a race car. The ACR comes equipped with a V-10 engine and a six-speed manual transmission, as well as an extensive aerodynamic package. Kit features a replica 600 hp V-10 engine, an opening hood, a front splitter, fixed front dive planes, an opening trunk, a detailed interior, soft black tires, chrome-plated parts, a rear wing, lightweight racing-style wheels and decals with factory graphics and carbon fiber panels.

RMXS4243      Total parts: 107      Skill level 2      Length: 7.1 in (180 mm)

**1/24 SCALE VOLKSWAGEN T1 SAMBA BUS**  
**The "minibus" favorite!**

In 1950, Volkswagen announced the release of a unique vehicle called the "Delivery Van." Produced in various incarnations during its lifetime, the Samba Bus was one of the most popular. A status symbol of the 1960s "hippie" counterculture, many micro-buses can still be found on the world's roads today. Kit features a detailed 1.2-liter air-cooled engine, an open or closed roof panel, a full interior with opening front/side doors, an opening rear hatch, soft black tires, a choice of U.S. or European bumpers, front signal lights and authentic factory markings.

RMXS4292      Total parts: 174      Skill level 3      Length: 6.9 in (175 mm)

**1/48 SCALE MIG-25 FOXBAT**  
**The high-supersonic interceptor!**

Designed as a high-supersonic interceptor and reconnaissance-bomber aircraft, the MiG-25 first flew as a prototype in 1964. When it entered service in 1970, the MiG-25's top speed of Mach 2.83+, powerful radar and ability to carry four air-to-air missiles at once worried Western observers. This concern resulted in the development of the F-15 Eagle in the late 1960s. Kit features a detailed cockpit with optional-position canopy, optional-position landing gear, four AA-6 Acrid missiles and decal markings for Indian Air Force and ORAP aircraft.

RMXS5860      Total parts: 80      Skill level 2      Length: 18.3 in (463 mm)

### 1/72 SCALE BRITISH PARATROOPERS, WWII

Hold your own against enemy forces!

British paratroopers carried out their most famous mission in September, 1944, when the British 1st Airborne Division parachuted behind enemy lines to take the bridge at Arnhem. Unfortunately, the troops became isolated from reinforcements near the Rhine and were unable to hold off German counterattacks. In nine days time, the 1st Airborne had lost nearly 75 percent of its power, never entering combat for the rest of the conflict. Kit features 50 unpainted, unassembled WWII-era British Paratrooper figures.

RVLS2509 Total parts: 52

### 1/72 SCALE SOVIET INFANTRY, WWII

Halt enemy advances!

Although the German Army inflicted huge losses upon the Red Army in 1941 and 1942, the Soviets started reforming their units in 1943. Armed with tenacity and equipped with only the bare essentials, the Soviets began to succeed in halting enemy advances back into Germany for the remaining days of WWII. Kit features parts for 48 unpainted, unassembled WWII-era Soviet Infantry figures.

RVLS2510 Total parts: 83

### 1/144 SCALE A-10 THUNDERBOLT II

The American close air support aircraft!

Even though it made its first public appearance in 1977, the A-10 Thunderbolt II remains one of the most successful combat aircraft for close air support/ground attack missions. It can carry up to 8 tons of armaments, including one of the most powerful American cannons around – the GAU-8A Avenger. Kit features finely detailed surfaces with recessed panel lines, two engines with reproduction fans, external stores such as drop tanks, bombs, Maverick guided missiles and ECM pods, plus detailed landing gear and decals for one U.S.A.F. version.

RVLS4054 Total parts: 61 Skill level 3 Length: 4.3 in (109 mm)  
Wingspan: 4.7 in (120 mm)

### 1/1200 SCALE M/S COLOR FANTASY

Making dreams come true – a cruise at a time!

First entering service in 2004, the M/S Color Fantasy is a luxury cruise ferry that's owned and operated by Color Line. She's the world's second-largest cruise ferry, and she takes up to 2,750 passengers on the Kiel-Oslo route every day. She's loaded with creature comforts, too, including 9 restaurants, a movie theater, a spa/fitness center, a putting green, 7 shops, a vehicle deck and a conference center.

RVLS5810 Total parts: 45 Skill level 3 Length: 7.3 in (187 mm)

**1/32 SCALE MACK® "R" CONVENTIONAL & FRUEHAUF TANKER**  
The heavy-duty big rig classic!

Beginning in 1966, the Mack "R" Conventional tractor, coupled with a rugged aluminum tank trailer, provided a safe, reliable way to transport petroleum products. The tractor's Maxidyne engine is well-suited for long-distance operation, and the attached Fruehauf trailer could carry 9,200 gallons of fuel per fill. This exciting, snap-assembly kit features a Fruehauf trailer, which can be uncoupled from the Mack tractor and assembled with drawbar support legs in either the raised or lowered position. Chrome-plated parts and colorful peel 'n stick decals also included.

MONS1961    Total parts: 102    Skill level 1    Length: 21.1 in (536 mm)

**1/24 SCALE 1966 SHELBY MUSTANG GT350**  
The beloved high-performance muscle car!

The modified 1966 Shelby Mustang GT350 is among the most sought-after muscle cars for contemporary collectors. Distinguishing features included quarter-panel windows, functional brake scoops on each side, optional Paxton superchargers as well as optional automatic transmissions. 1966 also heralded the introduction of an increased color palette, with choices including black, red, blue and green. Kit features a detailed 289 cu in. high-performance engine, an opening hood, soft black tires, chrome-plated parts, side brake scoops, front bucket seats, plus decals with factory color markings and optional color stripes.

MONS4293    Total parts: 89    Skill level 2    Length: 7.4 in (188 mm)

**SLOT CARS**

**1/32 SCALE MCLAREN M6A DENIS HULME SLOT CAR**  
The Formula 1 favorite comes to life!

New Zealander Denis "Denny" Hulme competed in the Can-Am Racing Series from 1966 until 1972. When the McLaren M6A made its debut in 1967 at Road America in Elkhart Lake, Wisconsin, Hulme was the first to win at the helm of this Formula 1 favorite. He finished the season in second place, while team owner Bruce McLaren won the Can-Am championship that year. This thrilling 1/32 scale slot car reproduction features realistic details, an authentically reproduced interior, a driver figure, a display stand and collector's box packaging.

MONW4838

**NEW RELEASES**

**1/72 SCALE F/A-18E SUPER HORNET**  
**"VFA-14 TOPHATTERS"**  
The terrifying twin-engine fighter!

Operating with the U.S. Navy since 1999, the F/A-18E Super Hornet is the larger, more advanced variant of the popular F/A-18C and F/A-18D Hornet. The VFA-14 attack squadron was among the units who used the Super Hornet to fly close air support, strike and escort missions during Operation Iraqi Freedom. This exciting limited edition kit features decals to celebrate the 90th anniversary of the VFA-14 attack squadron, with markings for the U.S. Navy, U.S.S. Nimitz version of the VFA-14 "Tophatters."

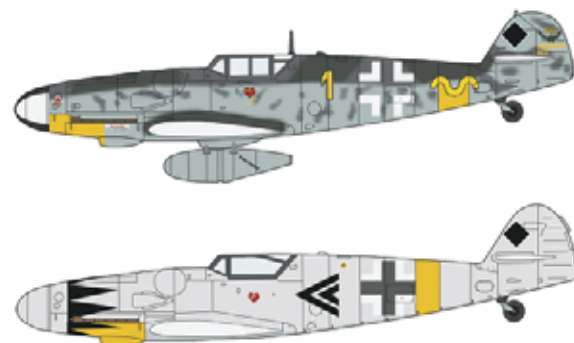

HSGS0999    Total parts: 117    Skill level 3

### 1/72 SCALE MESSERSCHMITT BF109 G-6/G-14 "HARTMANN"

The world-famous "Gustav!"

The Bf109 G series was introduced in 1942. It included a more powerful DB 605 engine, and odd-numbered variants boasted a pressurized cockpit as well as a GM-1 gas injection system. Even-numbered aircraft were non-pressurized to act as air superiority fighters and fighter bombers. Some aircraft were also modified for long-range recon missions as well. This limited edition kit set features two Bf109s and decal markings for four of Erich Hartmann's aircraft.

HSGS1901 Total parts: 48/45 Skill level 3

### 1/72 SCALE P-2H NEPTUNE JMSDF

The upgraded Lockheed Neptune!

The Lockheed P-2 Neptune was originally designed in 1945 as a Maritime Patrol aircraft to replace the aging PV-1 Ventura and PV-2 Harpoon. The P-2H variant boasted such impressive upgrades as a more powerful engine, APS-20 search radar, jet pods and improved wingtip tanks. This limited edition kit features decals to model one of two JMSDF Neptunes: markings for the 3rd Squadron, Code: 4660 & 4658 as well as markings for the 7th Squadron, Code: 4782 & 4783.

HSGS1902 Total parts: 117 Skill level 3

### 1/72 SCALE F/A-18C HORNET "GOLDEN DRAGONS CAG 2009"

A superior supersonic jet!

The single-seat F/A-18C Hornet boasts a bevy of upgraded features that makes it superior to either of its predecessors. The "C" variant includes upgraded avionics, upgraded radar, as well as the ability to carry AIM-120 AMRAAM air-to-air missiles and AGM-84 Harpoon air-to-surface missiles. Some "C" models also include improved night combat capabilities. This limited edition kit features decals for building the VFA-192 "Golden Dragons" CAG Code: NF300, December, 2009.

HSGS1903 Total parts: 82 Skill level 3

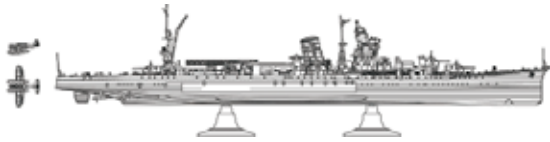

### 1/20 SCALE FERRARI® 312T "1976 BRAZIL GP WINNER"

The fantastic Formula One winner!

Introduced in 1975, the Ferrari 312T boasted an uncomplicated design that was easy to upgrade. In all, the 312T series won 27 races, four constructors' and three drivers' championships before being replaced by the turbocharged 126 C in 1981. This limited edition kit features a detailed cockpit, a front roll bar, a front and rear wing as well as the option to build one of two cars: 1976 Brazil GP Winner car #1, driver Niki Lauda or 1976 Brazil GP 7th place car #2, driver Clay Regazzoni.

HSGS2248 Total parts: 199 Skill level 3

## 1/350 SCALE IJN LIGHT CRUISER AGANO

Japan's leading WWII light cruiser!

Named after the Agano River, the Japanese Cruiser Agano was the leading ship in her class during WWII. Designed as an armored command vessel for submarine and destroyer squadrons, she was armed with six Type 41 guns, four 76 mm guns, 32 Type 96 anti-aircraft guns, eight torpedo tubes and sixteen depth charges. Tragically, she was sunk in February, 1944 by the U.S.S. Skate, north of Truk. This limited edition kit features detailed bridge parts, a realistic carrier deck, a catapult, display base and decals for the I.J.N. 3rd Fleet, 10th Squadron, 1943.

HSGS4079      Total parts: 407      Skill level 3

## 1/48 SCALE F-15E STRIKE EAGLE

Attack with brute force in all weather!

First appearing on the scene in the late 1980s to carry out high-speed air strikes, the F-15E Strike Eagle is flown by military squadrons all around the world. The aircraft's reputation grew during Operation Desert Storm and Operation Allied Force, where they defended against combat air patrols and provided close air support to troops. Kit features decal marking options for two aircraft: U.S.A.F. 405th TTW Code: LA405 or the U.S.A.F. 4th TFS "Rocketters" Code: SJ336.

HSGS7248      Total parts: 320      Skill level 3

## 1/32 SCALE NAKAJIMA KI-44 SHOKI (TOJO)

"47TH INDEPENDENT FLIGHT CO."  
The impressive IJAAF interceptor!

Nicknamed the "Tojo" by the Allies (after General Hideki Tojo) Ki-44 Shoki entered service with the Imperial Japanese Army Air Force in 1942. While pilots found it to be less maneuverable than its predecessor (the Ki-43), the Ki-44 excelled at intercepting enemy fighters. Another benefit of the Ki-44 was its four .50 in. Ho-103 machine guns, with two mounted in the cowl and the other two mounted in each wing. Kit features decal marking options for three different 47th Independent Flight Company aircraft from January, 1942.

HSGS8205      Total parts: 157      Skill level 3

## 1/48 SCALE BLUE IMPULSE F-86/T-2/T-4

Japan's amazing aerial demonstration team!

Founded in 1960, the Blue Impulse is the aerial demonstration team of the Japan Air Self-Defense Force. When they first appeared, the team flew F-86 Sabre aircraft. However, as time progressed, so did the aircraft. Following the F-86 was the T-2, followed most recently by the T-4. This limited edition kit set features all three aircraft flown by the Blue Impulse Aerial Demonstration Team – and all include decal markings to customize to your liking.

HSGS9912      Total parts (per kit): 79/164/118      Skill level 3

## Academy™ Models 1/32 Scale F-16I Sufa

*Israel's striking fighter!*

The F-16I Sufa is based on the Block 52 Plus, a popular two-seat variant of the F-16 Fighting Falcon. Distinguishing features of the Sufa include an Israeli Aerial Towed Decoy, a helmet-mounted sight, removable conformal fuel tanks and Python 5 air-to-air missiles. Kit features a positionable canopy, all-glass cockpits, a choice of Pratt or GE afterburner sections, positionable speed brakes, positionable trailing edge flaps, detailed radar with positionable radome, advanced IFF antennas, optional crew figures, an optional boarding ladder, multiple weapons system options, photo-etched metal parts and Cartograf® waterslide decals.

12105 ACYS0105

## Academy™ Models Leonardo Da Vinci Self-Propelling Cart

*The first robot-cart in history!*

The self-propelling cart is among a long list of innovations invented by the famed "Renaissance Man" Leonardo Da Vinci. He is often credited for creating such concepts as helicopters, tanks, calculators, a paddle boat and concentrated solar power. Many theorists believe Da Vinci's self-propelling cart was designed to bring self-moving characters onto the stage during theatrical productions. Kit features a spring-powered design and illustrated instructions. No paint or glue required.

18129 ACYS8129

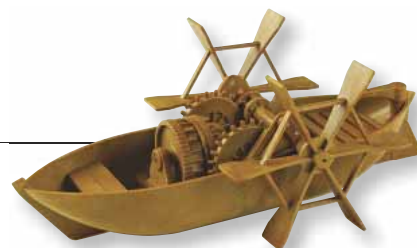

## Academy™ Models Leonardo Da Vinci Paddleboat

*An ingenious design from a legendary genius!*

Born in April, 1452, the highly skilled, tremendously talented Leonardo Da Vinci was a true "Renaissance Man" in every sense of the term. His artistic, scientific and engineering innovations – ranging from the Mona Lisa to the Vitruvian Man to conceptual drawings of helicopters and tanks – continue to inspire and captivate curious minds to this day. This unique, ingenious Academy Models kit is directly inspired by Da Vinci's original design and features paddle wheels operated by a mechanical spring.

18130 ACYS8130

## Cyber Hobby 1/35 Scale StuG. III Ausf. C/D

*WWII's fiercest armored assault weapon!*

Built upon the combat-proven Panzer III, the StuG. III was initially developed as an infantry support weapon. By WWII's end however, the StuG. III proved to be a highly effective tank destroyer. Distinguishing "C" variant features included a gunner's periscope opening at the top of the superstructure and a redesigned idler wheel. "D" variant models added an on-board intercom system. Kit features a 7.5 cm StuK 40 L/48 main armament, detailed MagicTracks and a bonus set of four Panzergrenadier figures.

9119 CYHS9119

## Dragon® Models 1/144 Scale RAF Tornado F.3 "No. 111 Squadron, 90th Anniversary" Set

*Two incredible interceptor kits – one affordable package!*

The Panavia Tornado ADF took its maiden flight in 1979, and entered into service with the RAF in 1986. The F3 version boasts twin Turbo-Union RB.199-34R Mk. 104 engines optimized for high-altitude flight, as well as upgraded avionics and increased AIM-9 Sidewinder capacity. Kits feature wings that can swing forward or back, pylons with dual sidewinder rails, 2,250-liter drop tanks, Skyflash and AIM-9L Sidewinder missiles and two Cartograf® waterslide decal options commemorating the 90th anniversary of the RAF's No. 111 Squadron.

4614 DMLS4614 Over 100 parts

## Minicraft Models 1/144 Scale PBJ USN USMC

*On the hunt for enemy subs!*

The twin-engine PBJ was a medium bomber used by the United States Navy and the United States Marine Corps throughout WWII. It was a modified B-25 Mitchell that was often fitted with airborne search radar and anti-submarine capabilities. Other differences between the PBJ and other B-25s included improved radio equipment and single .50 machine guns in the tail turret. Kit features include two newly tooled types of radar units as well as two marking options representing aircraft from U.S. Navy and U.S. Marine Corps service.

14625 MMIS4625

## Minicraft Models 1/144 Scale Messerschmitt Bf 110 C

*The victorious heavy fighter!*

The twin-engine Messerschmitt Bf 110 C was introduced in 1937 as a formidable heavy fighter for the Luftwaffe's use. Its lack of agility led to considerable losses during the Battle of Britain. However, the Bf 110 soldiered on for the rest of WWII as an air superiority aircraft and a night fighter. In fact, many German flying aces – such as Major Heinz-Wolfgang Schnauffer – claimed numerous victories while at the helm of the Bf 110. Kit features new markings representing aircraft from two different Luftwaffe units.

14626 MMIS4626

## Minicraft Models 1/144 Scale F-15A U.S.A.F.

*The toughest twin-engine tactical fighter!*

Ever since it first entered service in 1976, the F-15 Eagle was designed to excel in aerial combat. The F-15 is currently in use by the United States Air Force, where it will serve until 2025. The initial version, the F-15A, is a single-seat, all-weather, air superiority aircraft with two Pratt & Whitney F100 turbofan engines, a spine-mounted air brake and retractable tricycle landing gear. 384 "A" models were built in all between 1972 and 1979. Kit features new markings representing two United States Air Force fighters.

14630 MMIS4630

## Minicraft Models 1/144 Scale Ju-88C

*The legendary Luftwaffe night fighter!*

The addition of fixed, forward-firing guns and a solid metal nose to the versatile Ju-88 helped create the heavy fighter/night fighter version, the Ju-88C. It was based primarily on "A" series bombers, but it eliminated the ventral gondola located under the crew compartment. Kit features new tooling representing the early solid-nose Ju-88C with a forward-firing gun armament and new markings representing the defense of the Reich.

14632 MMIS4632

## Moebius® Models 1/4105 Scale Battlestar Galactica™

*Fight off the Cylons!*

As seen on the 2004 remake of the 1970s classic, the Battlestar Galactica represents the Colonial citizens of the planet Caprica. She is armed with nuclear weapons, primary KEWs and point defense KEWs to protect her crew against Cylon attacks. Also aiding against enemy attacks are plenty of Colonial Vipers, which help the Battlestar Galactica soldier on in her voyage to find the planet Earth. Kit features 61 grey plastic parts, 5 clear plastic parts, movable hangar bays and a decal sheet with ship name, crests and landing bay floors.

915 MOES0915 Total parts: 66 Skill level 3 Length: 14.5 in (368.3 mm)

# Plastic Models

## MRC™ 1/700 Scale PLAN 039G Song-Class Submarine

*The dutiful diesel-electric submarine!*

Beginning service in 1999, the Type 039 submarine is among the first class of submarines to be fully developed in China. Another distinction of the 039 is that it's also the first to use the contemporary teardrop hull shape. On board are medium-frequency sonar systems, as well as an integrated electronic support measures/radio direction finder/radar warning receiver system, which is fully automatic and can be used to track down enemy targets. This fully assembled and painted model features a detailed full hull and superstructure, as well as a display stand.

37326 MRC57326

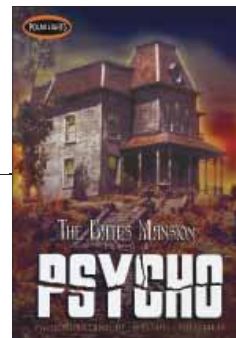

## Polar Lights® 1/87 Scale Psycho™ The Bates Mansion

*Guests may enter. Some may not come back alive!*

Celebrated director Alfred Hitchcock unleashed Psycho upon an unsuspecting public in 1960, terrifying audiences all around the world. The film starred Janet Leigh as Marion Crane, who crosses paths with the nefarious Norman Bates (played by Anthony Perkins) when she makes a fateful stop at the Bates Motel. Kit features finely engraved surface details, an option to build a hilltop version, a light kit to illuminate the mansion's windows and a menacing "Mother" figure to place in the second-story window. Hill not included. Glue and paint required.

PLL834 PLLS0834 Skill level 2 Height: 8.5 in (215.9 mm)

## Tamiya® 1/24 Scale Aston Martin DBS

*Speed and style redefined!*

Appearing in the James Bond films Casino Royale and Quantum of Solace, the Aston Martin DBS made its official debut at the Pebble Beach Concourse d'Elegance in 2007. Its powerful V-12 engine delivers an astounding 517 hp and a top speed of 191 mph (307 km/h)! Kit features a replica V-12 engine, synthetic rubber tires, an opening hood, metal-plated parts for the wheels, front grille and exhaust end, F-1 paddle shift gear controls, nylon mesh, masking stickers, metal transfer mirror surfaces and upper engine markings, plus waterslide decals.

## Testors® 1/32 Scale Classic M4A3 Sherman Tank

*One of the most-admired tanks of WWII!*

Used by the U.S. Army as well as the U.K. during WWII, the M4A3 Sherman's power came from a Ford® GAAA V-8 engine and three sizes of guns: 75 mm, 76 mm and 105 mm. The Sherman was the first American medium tank to have its main gun mounted on a fully traversing turret. The M4A3's versatile design eventually became the inspiration for subsequent tank destroyers, tank retrievers and self-propelled artillery. This easy-to-assemble kit builds quickly, thanks to snap-and-screw construction and color-molded parts. No paint or glue required.

650022 TESS1535 Skill level 1

## Testors® 1/32 Scale 2008 Audi R8

*One of today's best-handling cars!*

Introduced in 2006, the Audi R8 sports car features a longitudinally-mounted, mid-engine layout and the popular quattro four-wheel-drive system. Early models were outfitted with an all-aluminum 4.2L V-8 engine that produced 414 hp. Later versions are also available with a 5.2-L V-10, which delivers an impressive 518 hp rating. Strict quality control standards assure that every hand-built model is accurate to 0.1 mm of the original design plans. This easy-to-assemble kit builds quickly, thanks to snap-and-screw construction and color-molded parts. No paint or glue required.

650005 TESS2545 Skill level 1

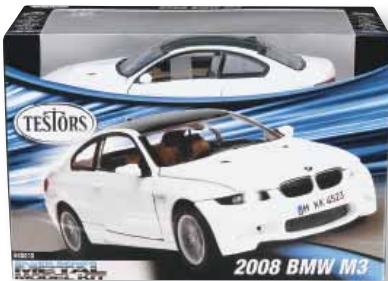

## Testors® 1/24 Scale 2004 Ford® Mustang GT Concept Car

*An American legend!*

One of the most aggressive muscle cars of all time, the Mustang GT concept car was built to celebrate Ford's centennial year. Power is supplied by a supercharged 5.4L V-8 engine, which delivers 550 hp and a top speed of 205 mph. Armed with a 6-speed manual transmission, the Ford GT can go from 0 to 60 mph in 3.3 seconds. Only 4,038 were produced, making the GT popular with collectors. Kit features a painted diecast metal body, a detailed engine compartment, a realistic interior, opening doors and authentic tires.

640020 TESS3297 Over 30 parts Skill level 2

## Testors® 1/24 Scale 2008 BMW® M3

*The high-performance "Beemer!"*

A step up from the popular BMW 3 Series, the most current M3 has been derived from the E90/E92/E93 3 series. Upgrades found in M3 models range from more powerful engines to more aggressive aerodynamics and improved handling. A 4L V-8 engine delivers 414 hp (a 22% overall power increase from the E46 M3), making for quite an exhilarating driving experience. Kit features a painted diecast metal body, a detailed engine compartment, a realistic interior, opening doors and authentic tires.

640010 TESS3347 Over 30 parts Skill level 2

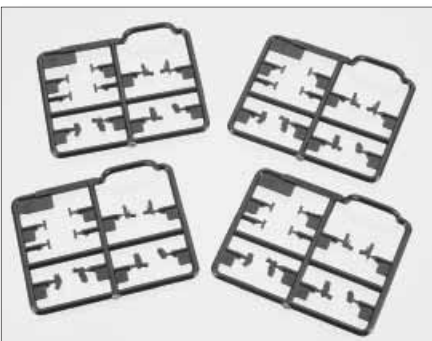

## Testors® 1/24 Scale 2005 Corvette® C6™

*The superior sixth-gen 'Vette!*

Introduced for the 2005 production year, the Corvette C6 boasts overhauled suspension geometry, new bodywork, exposed headlamps and an increased wheelbase. Its large 6L LS2 V-8 engine produces 400 hp at 6000 rpm, with a top speed of 186 mph. It can go from 0 to 60 in just over four seconds, and drivers also have the choice between a Tremec 6-speed manual and an upgraded 4-speed automatic transmission. Kit features a painted diecast metal body, a detailed engine compartment, a realistic interior, opening doors and authentic tires.

640019 TESS4019 Over 30 parts Skill level 2

## Trumpeter® 1/35 Scale P226 World Pistol Series

*Superior service firepower!*

Produced by SIG Sauer, the P226 is used by countless military and law enforcement units all around the world. The P226 was designed to replace the popular M1911A1 for the U.S. Armed Forces in 1984. It has a higher capacity than its predecessor – the P220 – allowing the use of staggered-column magazines instead of single-column mags. Bullets compatible with the P226 include the .357 SIG, the .40 S&W and the 9x19 mm Parabellum. This 1/35 scale pistol set is newly tooled and is compatible with any 1/35 scale diorama or figure.

## Zvezda 1/48 Scale Messerschmitt Bf 109 F-2

*The multi-use Messerschmitt!*

Introduced in 1937, the Messerschmitt Bf 109's many roles throughout WWII included interceptor, fighter bomber, all-weather fighter and reconnaissance aircraft. The F-2 variant, which first appeared in October, 1940, included a 200-round Mauser MG 151 cannon, two synchronized MG 17 machine guns and a maximum speed of 382 mph (615 km/h). Kit features two canopy options, two cockpit panel options, clear parts and decals for four different German Luftwaffe units.
