EASY SPORT ACTION WITH

- Straightforward and fast “bolt together” assembly
- Two-piece balsa sheeted foam-core wing is lightweight and durable, also makes transportation and storage a breeze
- There’s plenty of warbird realism, from the trim scheme to the cockpit with instrument panel detail, headrest and installed pilot figure

A WARBIRD EDGE

SPORT SCALE MUSTANG

The Sport Scale Mustang flies equally well with a .46 glow engine such as the O.S.[®] 46AX or a brushless outrunner motor like ElectriFly[®]'s RimFire™ .55; mounting hardware is included for installing either power option.

GPMA1205 Sport Scale .46-.70/EP Mustang ARF
Wingspan: 56 in (1420 mm)
Length: 50 in (1270 mm)
Weight: 6.5-7.25 lb (2950-3290 g)

From the Experts:

"While true-scale warbirds can require a fine touch, this Sport Scale Mustang just wants to get out and fly. The famous fighter looks add even more excitement to your sport maneuvers."

Don Anderson,
 President and Founder
 Great Planes Model Manufacturing

Long story short...

The Sport Scale Mustang is an effortless way to experience the thrill of piloting a replica of the famous WWII fighter.

BIG-PLANE FEEL...

YAK-55M

ALMOST-READY-TO-FLY EP AEROBAT

E • PERFORMANCE • SERIES™

www.gpdealer.com

- **ElectriFly has captured the unique look of the aerobatic champion Yak-55M in a 51" wingspan electric ARF!**
- **Completely built up airframe uses strong, lightweight balsa plywood construction that allows for exciting aerobatics and pattern maneuvers**
- **Airframe components are preassembled and precovered in MonoKote® film, so you can be flying in just a few hours**

Pilot figure shown not included.

The two-piece wing speeds final assembly and also makes it easy to transport your Yak-55M to and from the field.

IN A 51" PACKAGE

GPMA1186 Yak-55M E-Performance Series ARF
 Wingspan: **51 in (1295 mm)**
 Length: **47 in (1195 mm)**
 Weight: **3.5-3.75 lb (1590-1700 g)**

ElectriFly[®]
 by Great Planes[®]

From the Experts:

You don't see many models based on the Yak-55M, so you'll stand out at the field when you show up with this E-Performance Series ARF. It's small enough that you can equip it with standard electronics and economical LiPo batteries — and it'll fit in most cars while assembled. But in the air, you'll find that you can fly your Yak-55M with confidence in winds that would affect smaller electric models.

Long story short...

With its small-scale convenience and large-scale performance, the Yak-55M E-Performance Series ARF is the ideal size!

A SUPER VALUE IN A 2.4GHZ SURFACE SYSTEM

4PL 2.4GHz S-FHSS Computer Radio

www.gpdealer.com

4PL

- Programmable mixing
- 4WS/Dual ESC/Boat/Brake mixing
- Backlit 128x64 LCD screen
- Adjustable trigger position
- Mechanical ATL
- ABS braking
- Throttle acceleration
- 40-model memory with 10-character naming
- Fail-safe on all channels
- MC Link function

Includes an R2104GF 2.4GHz High Voltage receiver (3.5-8.4V), which is also available separately.

FUTL7616 R2104GF 2.4GHz S-FHSS 4-Channel Receiver

FUTK1400 4PL 2.4GHz S-FHSS Computer Radio

From the Experts:

Weekend warriors now have a new weapon for claiming victory! The 4PL 2.4GHz S-FHSS has many of the advanced features that car, truck and boat racers desire — in particular frequency-hopping spread spectrum technology — while being priced to fit within any modeler's budget.

Long story short...

The 4PL offers 2.4GHz control that's versatile, dependable, interference-free — and affordable!

BACK BY POPULAR DEMAND!

You asked us to bring 'em back, and we listened! The Great Planes P-6E Hawk and JU-87 Stuka ARFs are being re-released — but only for a limited time, so get yours today!

Curtiss P-6E Hawk .60-.91 ARF

- A replica of one of the most beautiful biplanes ever built — and considered “the last of its breed” among biplane fighters
- The fabric-covered airframe is complemented by a fiberglass cowl, wheel pants and landing gear fairings painted to match
- Flight-ready in 15-20 hours
- IMAA-legal dimensions allow for lots of stunning detail

GPMA1219 Curtiss P-6E Hawk .60-.91 ARF
 Top Wingspan: 76 in (1930 mm)
 Bottom Wingspan: 63 in (1600 mm)
 Length: 60 in (1524 mm)

JU-87 Stuka .60 ARF

- Modeled after the foreboding German dive bomber that terrorized Allied troops during WWII
- All-wood construction and interlocking parts result in a final assembly time of 20-25 hours
- Lots of scale touches, including a fiberglass cowl and wheel pants, “underslung” flaps and ailerons on the gull wing, and a “greenhouse” canopy
- Large control surfaces and separate aileron servos add stability to your maneuvers

GPMA1340 JU-87 Stuka .60 ARF
 Wingspan: 70 in (1778 mm)
 Length: 55 in (1400 mm)

Long story short...

If you missed getting the P-6E Hawk or JU-87 Stuka ARFs before, now's your chance to buy and fly these extraordinary warbirds!

REALISTIC ARMORED COMBAT — IN 1/72 SCALE!

www.gpdealer.com

1/72 Scale Tank Sets

- Tanks feature rotating turrets with precise movement and lifelike sound effects
- You control the action with a digital infrared controller
- Three different sets to choose from, each with detailed U.S., German, Russian or Japanese tanks
- Up to 4 tanks can engage in military maneuvers at the same time
- Batteries are easily recharged right from the transmitter

VSK1001 1/72 Scale Tank Set-Japanese Type 97/U.S. M4 Sherman

VSK1002 1/72 Scale Tank Set-German Tiger I/Russian T-34

VSK1003 1/72 Scale Tank Set-German Tiger I/U.S. M4 Sherman

From the Experts:

Don't let the smaller dimensions of these 1/72 scale tanks fool you; they're ready for all-out wireless warfare! Each set includes everything you need — two detailed RTR tank models, two digital infrared controllers and more — so you can do battle with your friends to gain ground superiority.

Long story short...

With a 1/72 scale VS Tank Set you become commander of your own armored vehicle!

A MODELER'S DREAMBOAT

VELA[™] ONE METER

- From the box to the water is less than an hour
- A large, rigid keel allows the Vela to handle brisk winds of 15-20 mph without capsizing
- The large rudder makes for very responsive handling, able to turn almost inside the length of its hull
- Same-channel interference is virtually eliminated with the included Tactic[™] 2-channel 2.4GHz sailboat radio
- Wood formers add rigidity to the high-performance, one-meter long fiberglass hull

AQUB0200 Vela One Meter Sailboat RTR 2.4GHz

Length: 40 in (1016 mm)

Width: 6.5 in (165 mm)

Height: 79 in (2006 mm)

Weight: 6 lbs (2.72 kg)

AQUACRAFT[®]
Models

From the Experts:

While the Vela One Meter sailboat boasts cutting-edge materials and performance features that make it a worthy competitor, it's also easy enough for beginners. At over 6.5 feet (2 meters) tall, it commands attention on any lake or pond. And when not on the water, the Vela's impressive deck and mast detail make it equally worthy for display.

Long story short...

The Vela One Meter sailboat has the style and hull of a racing champion.

SMALL IN SIZE —
BIG IN FEATURES!

*Fly it now™ —
no experience needed!*

- Looks and flies like a real helicopter, and only 6" long
- Complete with radio, high-capacity LiPo battery that delivers up to 10 minutes of flight time and an AC LiPo wall charger
- The 4-channel 2.4GHz radio comes with digital servos and a heading hold gyro
- The main blades pivot in the blade grips — part of the durable design that makes the Axe CX Nano ideal for first-time pilots

HMXE13** Axe CX Nano 2.4GHz RTF Helicopter
 Rotor Diameter: 7.9 in (200 mm)
 Length: 6.3 in (160 mm)
 Weight: 1.37 oz (39 g)

Heli-MAX®

From the Experts:

With dual counter-rotating blades delivering smooth, stable flight the Axe CX Nano can be piloted in any room in your home or office. Everything you need to fly is included. And the Axe CX Nano is so easy to fly, anyone can do it — and so well-constructed, everyone will enjoy it!

Long story short...

Packed with features at a great price the Axe CX Nano is palm-sized heli flying at its best!

STRIKE FEAR INTO THE COMPETITION

Associated SC10 Brushless 2WD Truck RTR-No Fear

Associated's newest SC10 Short Course race truck boasts wildly popular No Fear graphics!

- Based on the platform of the 7-time R.O.A.R. National Champion RC10T4
- Powered by the XP/Reedy 3300kV brushless system
- An XP3-SS 2.4GHz 3-channel radio delivers worry-free control
- Tackles rugged off-road conditions with aggressive-tread multi-terrain tires
- Ready to run, with realistic short course truck styling

Only available through your Great Planes® dealer!

Long story short...

The exclusive No Fear trim scheme on your SC10 Brushless RTR Short Course truck announces to everyone that you take no prisoners!

ASCC7045 SC10 Brushless 2WD Truck RTR-No Fear
 Length: 21.6 in (550 mm)
 Width: 11.5 in (293 mm)

NEW PRODUCT

TRAXXAS® 1/16 SCALE RALLY VXL 4WD 2.4GHZ RTR

www.gpdealer.com

TRAXXAS Rally VXL BRUSHLESS

50+ mph

- This is asphalt racing, gymkhana style — blending speed, power and traction perfectly for powering down straights and carving through turns
- A Velineon® brushless power system (featuring a 380-size motor and VXL-3m™ ESC) gives the Rally VXL road-ripping muscle rivaling full-scale racers
- Officially licensed BFGoodrich® rally tires and a painted ProGraphix body kick the authenticity into overdrive
- The included TQ 2.4GHz High-Output 2-channel radio system features a 5-channel micro receiver with totally secure Traxxas link
- An included Power Cell Series 1 NiMH battery delivers 30+ mph top speeds — install a second pack and use the optional pinion for 50+ mph performance!*

*50+ mph operation requires second Traxxas Power Cell battery pack and series adapter (sold separately).

PHOENIX MODEL® JUPITER .46 ARF

A winning combination of great looks and superb performance!

- Ready for sport flying and aerobatics after just a few hours of final assembly
- Made with lightweight, laser-cut wood and covered with genuine Oracover®
- Complete with a durable, factory-painted fiberglass cowl and wheel pants
- The two-piece wing allows for easy transportation and storage
- A pilot figure is prepainted and preinstalled

PHOENIX MODEL®

PMMA0260 Jupiter .46 ARF
Wingspan: 55 in (1400 mm)
Length: 53.5 in (1360 mm)
Weight: 4.8-5.5 lb (2200-2500 g)

Long story short...

The Jupiter .46 ARF answers the call of pilots wanting a stylish aerobat that doesn't require a lot of building!

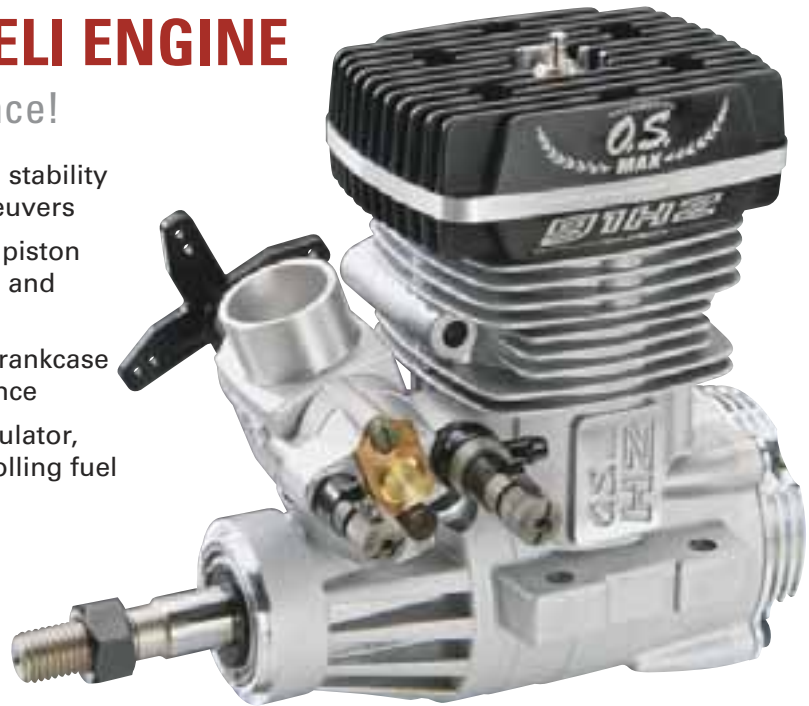

O.S.® 91HZ RINGED HELI ENGINE

Championship-caliber performance!

- Delivers the high-end power and hovering stability needed to execute competition-level maneuvers
- Five holes in the piston route gases to the piston ring from within, resulting in a tighter seal and minimum blow-by
- A heat sink machined into the end of the crankcase increases cooling and improves performance
- The 61-E carburetor features a thermal insulator, plus a needle valve control lever for controlling fuel mixture from your transmitter

O.S. ENGINE®

OSMG1974 91HZ Ringed Heli Engine
Displacement: 0.91 cu in (14.95 cc)
Bore: 1.09 in (27.7 mm)
Stroke: 0.98 in (24.8 mm)
Output: 3.4 hp @ 15,000 rpm
Practical RPM Range: 2,000-16,000
Weight (w/o muffler): 1.36 lb (618 g)

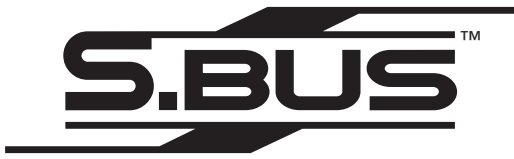

Long story short...

The 91HZ Ringed engine delivers power, performance and precision!

FUTABA® S9074SB & S9075SB DIGITAL S.BUS SERVOS

Programmable, high-performance servos!

- Designed for communication with Futaba's revolutionary S.Bus system
- Both servos can be programmed using the SBC-1 channel setting tool, S-Bus receivers or PC Link software
- Ideal for large-scale aircraft and vehicles
- Both feature dual bearings, metal gears, metal center case and water protection

GET YOUR THUNDER

Thunder Tiger®

For years Thunder Tiger has dominated the performance heli market, thanks to breakthrough designs such as the Raptor and Titan. It's now time for a change — a change for the better.

Great Planes is making Thunder Tiger helis available in more hobby shops, making it easier for you to get the

model you want. Equally important is the fact that vital parts support and repair service for your Thunder Tiger heli is going to be greatly improved, so you can spend more time in the air and less time grounded.

Check out the Thunder Tiger models on these pages... and buy and fly any of them with confidence!

Raptor 30

- It's the machine that revolutionized helis over a dozen years ago!
- Grows with you as your flying skills expand

TURN HERE FOR GENERAL HOBBY PRODUCTS

THRILLING RACING ACTION WITH NO

THE FASTER YOU SPIN,
THE QUICKER YOU WIN!

With SPIN DRIVE slot car sets YOU supply the power! By turning the crank on the controller you'll send your car flying around the track. It's slot car racing...with a twist!

- No power source required means you can race indoors, outdoors — anywhere there's a flat surface
- 1/43 scale SPIN DRIVE cars have lots of detail, and stay on the track better than electric-powered slot cars
- Track assembles in just minutes to create the layout on the box, or one of your own
- Sets include everything you need to race

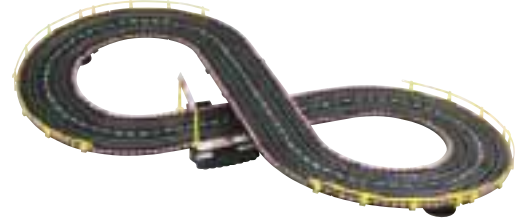

BATTERIES, AND NO ELECTRICAL OUTLET!

3 super sets to choose from!

Straight 8™ Race Set

Total Track Length: 7.7 feet (2.3 meters)
Cars: 1 Red/Silver, 1 Blue/White
Also Includes: two hand controllers, straight and curved track, squeeze track, guard rails, spare parts and control box
RMXW6111 Straight 8 Race Set

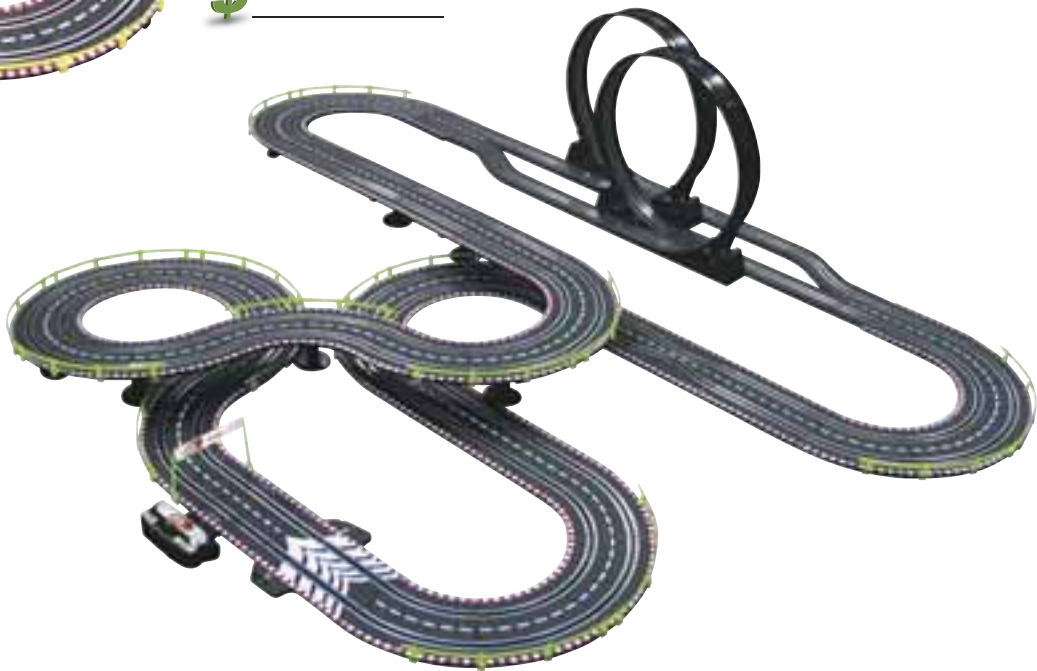

Quick Rally™ Race Set

Total Track Length: 17.1 feet (5.2 meters)
Cars: 1 Blue, 1 Orange
Also Includes: two hand controllers, straight and curved track, two squeeze tracks, lap counter track, track supports, guard rails, spare parts and control box
RMXW6112 Quick Rally Race Set

Zero-G Loop™ Race Set

Total Track Length: 28.5 feet (8.6 meters)
Cars: 1 Red, 1 Silver
Also Includes: two hand controllers, straight and curved track, squeeze track, lap counter track, track for creating two loops, loop supports, guard rails, spare parts and control box
RMXW6113 Zero-G Loop Race Set

Add to the excitement with SPIN DRIVE accessories!

RMXW6114 7" Straight Track (4)
 RMXW6115 5.4" Curve Track (4)
 RMXW6116 Loop Track Set (1)
 RMXW6117 7" Specialty Track (2 Squeeze/2 Cross) (1)
 RMXW6118 7" Power Track (1)
 RMXW6119 7" Lap Counter Track (1)
 RMXW6120 Orange Rally Car (1)
 RMXW6121 Blue Rally Car (1)
 RMXW6122 Spare Parts Pack (1)
 RMXW6123 Controller (1)

From the Experts:

With SPIN DRIVE slot cars the power is in YOUR hands! Turning the crank on the controller generates electricity for sending the cars around the track, making batteries and wall outlets obsolete. Everything you need is included — all you have to do is spin to win!

Long story short...

SPIN DRIVE slot cars let you enjoy endless racing excitement indoors, outdoors — virtually anywhere!

72146-3
HSGS7147
Total parts: 159 **\$** _____

CARRIER U.S.S. GAMBIER BAY (CVE-73)

The decorated hero of the "Battle of Leyte Gulf."

The U.S.S. Gambier Bay was one of fifty Casablanca-class escort carriers produced from November, 1942-July, 1944. In 1944's Battle of Leyte Gulf, she (as part of Taffy 3) confronted multiple Japanese ships, including the Chikuma. Although shrouded in smoke and fog, the Gambier Bay was struck numerous times. During the fight, the Chikuma landed a direct hit. She was the only U.S. carrier sunk by naval gunfire in WWII. In honor of her extraordinary heroism, the Gambier Bay was awarded four battle stars and shared Taffy 3's Presidential Unit Citation.

- Features new tooling.
- Parts for six Wildcat and three Avenger carrier planes are provided for added authenticity.
- Includes markings for the U.S. Navy Task Unit 774.3 (Taffy 3), Battle of Leyte Gulf, Oct. 25, 1944.
- Limited-time only – first production run also includes a bonus poster of the U.S.S. Gambier Bay.

40027-6
HSGS4025
Total parts: 458
Length: 17.6 in (447 mm)
Width: 3.7 in (94 mm)

1/350 Scale Wooden Deck

- Adhesive-backed and easy to apply, with a U.S. Navy deck blue color scheme
- Includes photo-etched parts for the arresting wire's base, elevator and catapult.
- Also features a lettering sheet with white deck lines and ship's number "73" decals.

72146-3
HSGS7146

From the Experts:

Offering extensive attention to detail and the superior craftsmanship for which Hasegawa is famous, the U.S.S. Gambier Bay is a must-have for every modeler.

Long story short...

The 1/350 U.S.S. Gambier Bay Kit recreates each feature of the celebrated escort carrier. Detailing sets and accessories allow you to create a thrilling scale masterpiece!

1/240 SCALE H.M.S. CAMPBELTOWN BRITISH DESTROYER

An integral part of 1942's St. Nazaire Raid.

Originally built in 1918 as the U.S.S. Buchanan, the H.M.S. Campbeltown was transferred to the Royal Navy in 1940 via the Destroyers for Bases Agreement. Today, she's most famous for her role in Operation Chariot, in which she successfully rammed the docks at Saint Nazaire and exploded (via depth charges), preventing Germany's Tirpitz from grasping a hold of the Atlantic coast. **Kit features** a detailed bridge and deck, four 4" guns, one 3" gun, twelve 21" torpedo tubes, life boats, depth charge racks and authentic World War II markings.

RMXS3016 Total parts: 128 Skill level 2 Length: 15.8 in (400 mm)

1/25 SCALE KURTIS KRAFT OFFENHAUSER MIDGET RACER & TRAILER

Kurtis-designed and "Offy"-equipped.

Founded in the late 1930s, Kurtis Kraft was one of the most premier producers of race cars during the sport's formative years. When the company partnered with Offenhauser engines, the pair produced multiple championship-winning racers over a course of 20 years, forever cementing each company's place in auto history. **Kit features** a removable hood with a detailed Offenhauser engine, a choice of carburetors or fuel injection, a two-wheel trailer with opening loading ramps, chrome-plated parts, black vinyl tires and decals with optional trim and numbers, plus graphics for two vehicles.

RMXS4267 Total parts: 112 Skill level 3 Length (car): 4.6 in (117 mm)
Length (trailer): 5.6 in (143 mm)

1/25 SCALE HAWAIIAN CHARGER NHRA® FUNNY CAR

Made famous by Roland Leong.

A standout of the Funny Car circuit, the Hawaiian Charger was rebuilt with a redesigned Mini Charger body, following the original's high-speed rollover. Once the rebuilding process was complete, the Hawaiian regularly ran in the low seven-second bracket at speeds exceeding 200 mph. **Kit features** a hinged Mini Dodge® Charger body with a Stage II chassis, a detailed supercharged 426 cu. in. Chrysler® Hemi® engine, soft black tires, chrome-plated parts and decals with authentic Hawaiian graphics.

RMXS4287 Total parts: 102 Skill level 3 Length: 8.2 in (208 mm)

NEW RELEASES

1/24 SCALE FORD® "BLACKWIDOW" MODEL "T" SSP

One of the most iconic vehicles of all time...redefined.

Highly distinctive and highly influential, the Ford "Black Widow" is an ideal example of a classic pickup. From its '27 Ford body, windshield and radiator inspired by the "T" to the moon wheel discs to make it stand out even more, this Monogram model is sure to be a hit with collectors. **Kit features** a detailed V-8 engine with triple carburetors and ribbed chrome rocker covers, an choice of "top up" or "top down" versions, optional fenders, soft black tires, chrome-plated parts and decals.

MONS0060 Total parts: 55 Skill level 2 Length: 5.8 in (147 mm)

1/48 SCALE AD-6 SKYRAIDER
Piston-powered and combat-tough.

The tough and versatile A-1 Skyraider was among the final piston-powered, prop-driven fighter aircraft produced just before the dawn of the "Jet Age." Distinguishing features of the "AD-6" variant included a low/high altitude bomb detector, a 14/30 inch bomb ejector and three dive brakes. **Kit features** a detailed cockpit, a choice between an open or closed canopy, under-wing ordnance, a detailed pilot and decal markings for AD-6 (A-1H), 1st Fighter Squadron, Vietnamese Air Force, Squadron Commander's aircraft and AD-4E, BUNO 132325, Naval Ordnance Test Station (NOTS), China Lake, California, 1956.

MONS5312 Total parts: 79 Skill level 2 Length: 9.6 in (244 mm)
Wingspan: 12.5 in (318 mm)

SLOT CAR

1/32 SCALE MCLAREN M6B – #48 DAN GURNEY
An exceptional recreation of a Can-Am favorite.

The McLaren M6B was one of the first cars produced by Dan Gurney's company, All American Racers Eagle. Designed to replace the M8A during the 1968 racing season, the M6B proved to be an excellent starting point for the company. Gurney drove the M6B for two seasons, continuously making modifications as he saw fit. It was nicknamed the "McLeagle" by Can-Am fans, combining McLaren's name with the "Eagle" from the name of Gurney's company. This limited edition slot car reproduction of the M6B comes packaged in a special edition box.

MONW4840 Length: 4.8 in (121 mm)

REVELL OF GERMANY

1/72 SCALE B-17G FLYING FORTRESS
The U.S.' signature strategic bomber.

Developed in the 1930s for the United States Army Air Corps, the four-engine B-17 Flying Fortress heavy bomber was often equipped with up to 13 .50-caliber machine guns at once. Distinguishing features of the "G" variant – the final version – included a Bendix remotely-operated chin turret and revised, remotely-operated tail gun turrets. An estimated 8,680 "G" aircraft were produced, and many were converted for other uses, including troop transports and recon aircraft. **Kit features** recessed panel lines, a super-detailed cockpit, an opening bomb bay, multiple moving parts and separate bombs.

RVLS4283 Total parts: 152 Skill level 3 Length: 12.4 in (316 mm)
Wingspan: 17.3 in (439 mm)

1/72 SCALE GLOSTER GLADIATOR MK.I
The RAF's final fighter biplane.

The Gloster Gladiator was widely used by the Royal Air Force and the Royal Navy from its introduction in the mid-1930s through WWII. During the war, the Gladiator served with an estimated 30 RAF squadrons. The aircraft impressively held its own when pitted against larger, more powerful Luftwaffe aircraft like He 111s and Messerschmitt Bf 110s. Over a third of the 747 Gladiators produced were exported to countries such as Finland, Norway, South Africa and Greece. **Kit features** a replica radial engine, a movable propeller, pilot figures and decals for one RAF aircraft.

RVLS4683 Total parts: 33 Skill level 3 Length: 4.6 in (116 mm)
Wingspan: 5.4 in (137 mm)

1/72 SCALE F-4F PHANTOM JG 71 – 50TH ANNIVERSARY

Still fighting after 50 years in the air.

The F-4 Phantom II was officially unveiled in December, 1960, quickly catching the attention of military units all around the world. Over 40 years after Germany first purchased them, a specially decorated Phantom was flown by Jagdgeschwader (Fighter Wing) 71 to celebrate the aircraft's 50th anniversary. **Kit features** a detailed cockpit with instrument panel, two auxiliary tanks, an ALQ 119 countermeasures pod, detailed pilot seats, detailed landing gear, four AIM 9 L Sidewinder guided missiles, four AIM 120 AMRAAM guided missiles and super decals with JG71 markings.

RVLS4685 Total parts: 103 Skill level 3 Length: 10.7 in (271 mm)
Wingspan: 6.4 in (162 mm)

1/48 SCALE A-10 THUNDERBOLT

The intimidating "Warthog" – in 1/48 scale.

Also known as the "Flying Cannon," the A-10 Thunderbolt was designed around the seven-barrel General Electric® GAU-8A Avenger Gatling gun. To say this cannon is highly powerful is an understatement; it can fire up to 3,900 armor-piercing rounds per minute! **Kit features** surface structures with filigree details, a detailed cockpit, 11 pylons for external loads, separate air brake flaps, an ECM pod, six Maverick guided missiles, auxiliary tanks, eight bombs, access steps, detailed landing gear, a pilot figure and decals for two U.S.A.F. versions.

RVLS4687 Total parts: 165 Skill level 5 Length: 13.3 in (338 mm)
Wingspan: 14.7 in (374 mm)

1/25 SCALE KENWORTH® W900 WRECKER

Built for round-the-clock service.

A common sight on today's roadways, the wrecker, or tow truck, has been helping stranded motorists since 1916. One such wrecker, the W900, was introduced in the mid-1980s and offers such features as a three-stage crane jib, functional rear stabilizers and rotatable winches. **Kit features** a multi-part frame, a three-axle chassis, a detailed in-line engine with turbocharger, a movable front axle, a cab with detailed dashboard, a multi-part crane superstructure with 3-stage extendable jib, rotating winches, an opening hood, functional tires on chrome wheels and decals with authentic graphics.

RVLS7402 Total parts: 369 Skill level 5 Length: 14 in (356 mm)

NEW RELEASES

Hasegawa

Hobby kits

1/200 SCALE SPACE SHUTTLE ORBITER & HUBBLE SPACE TELESCOPE

Meet the stars of today's most memorable NASA® missions.

The reusable Space Shuttle orbiter has carried astronauts and their payloads since 1981, when the Columbia successfully launched into space. Four other shuttles – the Challenger, the Discovery, the Atlantis and the Endeavor – soon followed. In April, 1990, the Discovery was used to launch the Hubble Space Telescope into Earth's orbit. Since its launch, the Hubble has given us some of the most detailed and memorable images of the universe the world has yet seen. **Kit features** a display stand, a new Hubble Space Telescope with equipment parts and waterslide decals.

HSGS0676 Total parts: 68

1/200 SCALE ANA BOEING® 737-200 MOHICAN/ TRITON COMBO

Two classic aircraft – one incredible combo.

The Boeing 737-200 was introduced to the ANA (All Nippon Airways) fleet in June, 1969. It helped the airline usher in the latest jet aircraft, replacing aging turboprop flyers like the Vickers Viscount and the Fokker F-27 Friendship. ANA stopped using the 737-200 in 1992, but other airlines still rely on it to land on rock-covered runways – something that no other jet in its class can do. This limited edition set features two marking sets: 1. ANA Mohican paint, Code: JA8413 and 2. ANA Triton blue paint, Code: JA8410.

HSGS0675 Total parts (x2): 27

1/72 SCALE FOCKE-WULF FW 190D-9 COMBO

The Luftwaffe's "Long-Nose Dora."

The Fw 190D-9 was designed to fulfill the Luftwaffe's need for a high-altitude heavy bomber that could hold its own against the Allies. While it did not get many opportunities to be used as a heavy bomber, the Fw 190D-9 proved successful in fighter-versus-fighter and ground attack missions for the final days of WWII. This limited edition kit combo features two sets of markings for: 1. Luftwaffe JG6 Kommodore Major Gerhard Barkhorn, Germany, February, 1945 (Late-type canopy) and 2. Luftwaffe Stab/JG4 Germany, March, 1945 (Early-type canopy).

HSGS1920 Total parts (x2): 41

1/72 SCALE E-2C HAWKEYE "WORLD HAWKEYE"

Still on the hunt for enemy aircraft.

The E-2C variant of the Hawkeye Airborne Early Warning aircraft emerged in 1973, offering improved APS-139 radar systems and T-56-A-427 turboprops. Further upgrades arrived a few years later, including APS-145 radar, computerized electronics, new navigational systems and improved situational displays. This limited edition **kit features** new eight-blade propeller parts and the following marking options: 1. French Navy Flottille 4F, Code: 1; 2. French Navy Flottille 4F, Code: 2 & 3 and 3. Singapore A.F. (R.S.A.F.), 111 Squadron, Code: 014, 011, 012 and 015.

HSGS1921 Total parts: 174

1/72 SCALE RF-4B PHANTOM II "VMCJ-2"

Gather vital intelligence for the U.S. Marines.

The RF-4B was the tactical reconnaissance version of the F-4B Phantom II used by the U.S. Marine Corps. Instead of having weapons, they were equipped with three movable, mounted cameras and an infrared reconnaissance system. By the time the RF-4B was officially retired in 1990, 46 were built in all. This limited edition **kit features** three decal marking options: 1. U.S. Marine VMCJ-2, Code: CY01 157344: Block 41; 2. U.S. Marine VMCJ-2, Code CY00 157342: Block 41 and 3. U.S. Marine VMCJ-2, Code: CY12 157344: Block 41.

HSGS1922 Total parts: 121

1/48 SCALE F-15J/DJ EAGLE J.A.S.D.F.

Built for air superiority or for combat training.

The F-15 Eagle first appeared in 1976, quickly becoming one of the most successful fighters in aviation history. Current stats list the F-15 has just over 100 "kills," with no combat losses on record. Two versions were created especially for the Japan Air Self-Defense Force (J.A.S.D.F.): the single-seat "J" variant for all-weather, air superiority, and the two-seat "DJ" variant for combat training. **Kit features** tandem seat parts and a tandem canopy (to build the F-15DJ variant) and two sets of decal markings: 1. F-15J: J.A.S.D.F. and 2. F-15DJ: J.A.S.D.F.

HSGS7251 Total parts: 291

1/32 SCALE NAKAJIMA KI-44 II SHOKI (TOJO) "SHINTEN SEIKUTAI"

A formidable foe for the B-29 Superfortress.

The Nakajima Ki-44 offered I.J.A.A.F. pilots incredible intercepting abilities, as well as upgraded armament. These features came in handy when taking on larger aircraft like the B-29 Superfortress. The "II" variant was also equipped with a prototype Ha-109 engine, which boosted horsepower to an impressive 1,520 hp. This limited edition **kit features** new under-wing panel parts and two marking options: 1. Type II Otsu: I.J.A.A.F. 47th F.R. Shinten Seikutai, Code: 32 Narimasu A.B. and 2. Type II Otsu or Hei: I.J.A.A.F. 47th F.R. Shinten Seikutai, Code: 36 Narimasu A.B.

HSGS8108 Total parts: 160

1/48 SCALE 21ST KOKUSHO A6M2-K ZERO FIGHTER TRAINER TYPE 11 "LATE VERSION"

As produced by the 21st Naval Air Arsenal.

Produced in small numbers, the A6M2-K Zero was an upgraded, two-seat trainer version of Mitsubishi's most famous aircraft. Twin Type 97 machine guns, 132-pound bombs and a 551-pound bomb helped make it useful for target towing and kamikaze missions. This limited edition **kit features** new resin under-wing air intake parts, new main wing parts of the Zero Fighter type 52 and two marking options: 1. I.J.N. Genzan N.F.G., Code: Gen-19, August, 1945 and 2. I.J.N. Genzan N.F.G., Code: Ke-428, April, 1945.

HSGS9929 Total parts: 117

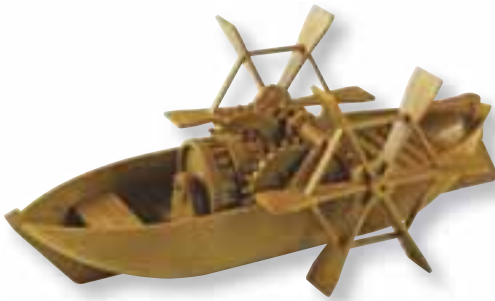

1/48 SCALE F/A-18A/C HORNET "BLUE ANGELS 2010"

Flying with the Blue Angels since 1986.

The F/A-18 Hornet was chosen by the Blue Angels as their primary aircraft in 1986, replacing their aging A-4 Skyhawks. The team initially used the "A" variant. Now, they are transitioning to the "C" variant, which offers missile-carrying capabilities. This limited edition **kit features** upgraded parts and three marking options: 1. Type C: U.S. Navy aerobatic team "Blue Angels," Code: 1; 2. Type A: U.S. Navy aerobatic team "Blue Angels," Code: 2 and 3. Type A: U.S. Navy aerobatic team "Blue Angels," Code: 3, 4, 5 and 6.

HSGS9930 Total parts: 226

Academy™ Models Da Vinci Armored Car

A fun, fascinating way to demonstrate Da Vinci's design.

Highly prolific and influential, Leonardo Da Vinci was a true "Renaissance Man" in every sense of the term. His extensive list of achievements range from such paintings as the Mona Lisa and The Last Supper to the original concepts for the helicopter and the armored car (or tank). While Da Vinci died over five centuries ago, there have been few others who have been able to equal his natural genius. This snap-together kit features a wind-up, spring-powered motor and realistic copper-clad and black plastic parts.

18136 ACYS8136 Skill level: Beginner

AMT® 1/25 Scale NASCAR® 2010 Chevrolet® Impala® Mark Martin #5

Honors one of NASCAR's most celebrated drivers.

A favorite of NASCAR fans since the early 1980s, Mark Martin has the distinction of having 48 wins in the Nationwide Series – the most wins of any driver in history. Currently, Martin has 420 top ten finishes in the Sprint Cup Series and 148 top tens in the Nationwide Series. In 1998, he had the incredible honor of being named one of NASCAR's 50 Greatest Drivers. This easy-to-assemble snap kit features a painted body with applied graphics, a detailed interior and chassis, black vinyl tires, rolling wheels and clear decals.

AWMK009 AMTS0009 Skill level 1

AMT® 1/25 Scale 1961 Ford® Styline

A custom builder's dream car.

When it was originally released in the early 1960s, the 1961 Ford Styline kit was aimed primarily at younger modelers. It was produced in a "curbside" format, which let builders put all their efforts into creating multiple styling combinations. Now, this classic kit has returned to allow a whole new generation of modelers to build their own custom Styline! Kit features an extensive array of customizing parts, black vinyl tires, waterslide decals and exciting, "New Retro" packaging.

AMT652 AMTS0652 Skill level 2

AMT® 1/350 Scale Star Trek® Klingon Bird of Prey

Prowl the final frontier for Federation starships.

Famous as the first Klingon vessel to be equipped with a cloaking device, Bird of Prey first menaced the Enterprise in 1984's Star Trek III: The Search for Spock. The ship has since appeared in five sequels and episodes of The Next Generation and Deep Space Nine. Kit features alternate parts to pose the ship in cruise mode, attack mode or a new landed pose. Also includes revised wing baffles, new landing gear parts based on Star Trek III, clear parts, a dome-style display base and marking decals.

AMT664 AMTS0664 Skill level 2

AMT® 1/650 Scale Star Trek® Romulan Bird of Prey

Available for the first time in 35 years.

Star Trek fans got their first glimpse of the Romulan Bird of Prey in the popular 1966 episode "Balance of Terror." In this fantastic first-season episode, rogue Romulans cross the Neutral Zone and destroy three Federation outposts. To prevent war from breaking out, Captain Kirk and his crew then play a deadly cat-and-mouse game against their new adversaries. This exciting re-release of a popular mid-1970s kit features an optional plasma weapon and nacelle caps, clear parts, vintage-style packaging and a decal sheet which includes the iconic "Bird of Prey" graphic.

AMT665 AMTS0665 Skill level 2

AMT® 1/32 Scale Snap USA-1 Monster Truck

Everett Jasmer's trademark truck is back!

Built and raced by Everett Jasmer in the late 1970s, the USA-1 was one of the first monster trucks ever created. In fact, the USA-1 competed against the mighty Bigfoot in the first-ever televised monster truck race in 1983! For the remainder of the 1980s, Steve Wilke and Rod Litzau sharing the driving duties. Its most famous win was the 1988 TNT Monster Truck Racing Series championship. Kit features snap-together assembly, a dual-color, factory-painted chassis, black vinyl monster truck tires, chrome parts, white wheels and colorful decals.

AMT672 AMTS0672

Skill level 1

AMT® 1/25 Scale 1962 Ford® Thunderbird

Classic "T-Bird" style – modern kit engineering.

The 1962 Thunderbird wasn't a total revamp like the 1961 model. However, there were plenty of new features and options for drivers to enjoy. One option was a convertible Sports Roadster model, which closely resembled a two-seat roadster. Another option was the upgraded 390 cu. in. V-8 "M-Code" engine with three dual-barrel Holley carbs and a 340 hp rating. Both are extremely rare today, making them highly popular with collectors. Kit features multiple building options, including custom chrome-plated parts, black vinyl tires and waterslide decals. Also includes collectible, retro-style packaging.

AMT682 AMTS0682

Skill level 2

AMT® 1/25 Scale Fruehauf® Texaco® Tanker

Makes any big rig kit a masterpiece.

The versatile tanker truck has long been an indispensable and essential part of modern society. Common items transported by tanker trucks include gasoline, diesel fuel, water, milk, orange juice, water, concrete and industrial chemicals. Smaller trucks usually have a capacity that's less than 3,000 gallons (11,000 L), while larger trucks can carry 5,500 to 9,000 gallons (21,000-34,000 L) per fill. Kit features a fully chrome tank, vinyl truck tires, hose tubes, super-detailed tanker axles, Texaco decals and vintage illustrated packaging. Truck tractor not included.

AMT684 AMTS0684

Skill level 2 Length (approx.): 18 in (457 mm)

AMT® 1/25 Scale 1969 Plymouth GTX

The gentleman's muscle car.

Introduced in 1967, the Plymouth GTX was originally called the Belvedere GTX when production began. Distinguishing features of the 1969 model included an optional Air Grabber hood with functional scoops and a choice between 440 V-8 and 426 Hemi engines. When the final GTX rolled off the assembly line in 1971, 44,178 vehicles had been produced. Today, the car remains as popular as ever with collectors and custom builders. Kit features modern tooling, a super-detailed chassis and suspension, an authentic "440" engine, chrome and clear parts and colorful decals.

AMT686 AMTS0686

Skill level 2

AMT® 1/25 Scale Kenworth® K-123 Cabover

Prized by collectors – lots of fun to build.

The rumors are true...one of the most sought-after "big rig" kits of all time is back! The original molds for this collectible Kenworth were believed to be lost forever. Fortunately, AMT has resurrected this highly detailed classic – it's sure to be on every modeler's wish list this holiday season! Kit features chrome-plated parts, black vinyl tires, a choice of stock and custom rear wheel hubs and an expanded decal sheet.

AMT687 AMTS0687 Total parts (approx.): 200

Skill level 3

AMT® 1/25 Scale 1966 Oldsmobile™ 442™

A model all muscle car collectors will crave.

The Oldsmobile began as an option package for the company's 1964 F-85 and Cutlass models. Key features of 1966 442s included optional L69 (with three two-barrel carbs) and W30 (with an outside air-induction system) engines, a revised instrument panel and optional bench seats. By 1968, the 442 became a separate model, which was produced until 1971. Kit features modern tooling, a super-detailed chassis and suspension, a realistic interior, chrome and clear parts, plus authentic 442 markings.

AMT689 AMTS0689

Skill level 2

AMT® 1/25 Scale 2010 Dodge Challenger SRT8s

Fully assembled, with showroom-quality looks.

The long tradition of tough, fast Dodge muscle cars continues with the 2010 Dodge Challenger SRT8. It's Hemi®-equipped for lightning-fast acceleration and impressive top end speeds. Creature comforts range from satellite radio to Brembo brakes and luxurious leather seats. Color choices include the best-selling B5 Blue, as well as the highly limited Furious Fuschia, which was produced for only one day. Both painted and assembled Showroom Replicas™ feature highly realistic exterior and interior details, plus collectible, full-color window box packaging.

AMTS0693 Furious Fuschia

AMTS0694 B5 Blue

AMT® 1/25 Scale 2010 Dodge® Challenger R/Ts

Stylishly designed – no assembly required.

The Dodge Challenger R/T manages to combine retro-inspired styling with some of today's most advanced features. R/Ts are equipped with the Intelligent Deceleration Fuel Shut-Off (iDFSO), which helps to boost fuel economy by an estimated 20 percent. Optional "Track Pak" features range from a Tremec manual transmission to a limited slip diff and self-leveling rear shock absorbers. Both fully assembled and painted Showroom Replica™ models offer highly realistic exterior and interior details, plus collectible, full-color window box packaging.

AMTS0696 Detonator Yellow

AMTS0697 Plum Crazy

Moebius® Models 1/13 Scale Monster Scenes® Pain Parlor™

Sure to scare the life out of you.

No Monster Scenes collection would be complete without the Pain Parlor! This horrific kit hasn't been produced since the 1970s. Modelers have been suffering in agonizing torture ever since, impatiently awaiting its return. This exciting reissue of the classic Aurora kit features easy snap-together assembly, a skeleton, a retractable operating table, movable parts and retro-inspired packaging. No glue or cement is required.

635

MOES0630

Moebius® Models 1/13 Scale Monster Scenes® Vampirella®

A frightfully fun re-release!

One of the most unique super-heroines to ever grace the comic book pages, Vampirella was created by horror aficionado Forrest J. Ackerman in 1969. The series became an instant cult classic, lasting until 1983. Vampirella was brought back from the undead in 1991, where she flourished until Harris Publications stopped producing the book in 2007. This easy-to-assemble snap kit reproduces every detail of the classic Aurora kit from the '70s. Loaded with ghoulish details, features include movable limbs, full-color reproduction box art and a display base. Paint is required.

638

MOES0638

MPC® 1/16 Scale Dukes of Hazzard™ "General Lee"™ Charger

Back by popular demand.

Famous for its appearance in the Dukes of Hazzard television show and subsequent film versions, the "General Lee" helped Bo, Luke and Daisy Duke outrun Boss Hogg and his sheriff, Roscoe P. Coltrane. The car itself is a highly modified 1969 Dodge charger outfitted to withstand chases and stunts. At least 256 Chargers were used throughout the show's six-season run; some estimate that an astounding 321 were featured. Kit features a removable hood, vinyl tubing for enhanced engine detail, steerable front wheels, hollow black vinyl tires and colorful waterslide decals.

MPC752 MPCS0752

Skill level 3

Polar Lights® 1/87 Scale Psycho™

Bates Mansion 50th Anniversary Tin

A house only Norman's mother could love!

Director Alfred Hitchcock, the famed "Master of Suspense," unleashed Psycho upon an unsuspecting public in 1960. The film was an instant success, terrifying audiences all around the world. The film starred Janet Leigh as Marion Crane, an embezzler whose life goes down the drain when she meets murderous motel owner Norman Bates (Anthony Perkins) and his overbearing mother. Kit features a light kit, clear window inserts, a bonus newspaper section with headlines, extras and fun info on the film, as well as spooky black-and-white tin packaging.

PLL854 PLLS0854

Skill level 2

Trumpeter® 1/200 Scale U.S.S. Arizona BB-39, 1941

The largest – and finest – Arizona kit of its class.

Trumpeter's U.S.S. Arizona kit is an incredibly detailed reproduction of the legendary WWII battleship. The model represents the Arizona as she was fitted in 1941 and is 100% new tooling. It is a one-time production run, so availability is limited.

The United States Navy launched the U.S.S. Arizona BB-39 in 1915, and she served stateside during World War I. On December 7, 1941, the Arizona was stationed at Pearl Harbor. She was struck by bombs during the Japanese attack and sank along with 1,177 of her crew. Although some parts from the Arizona were salvaged, the hull and many of the crew still lie at the bottom of Pearl Harbor. The Arizona is now a memorial to all those who died during the Pearl Harbor invasion.

- Kit features a superbly detailed one-piece full hull, three-piece deck, bridge and masts.
- Also includes a full range of lifeboats and transport boats, parts for two Vought Kingfisher floatplanes, twelve metal gun barrels and range finders, plus four sheets of photo-etched parts.
- Other details: positionable guns, main turrets and aircraft catapults.

03701 TSMS3701 Total parts: 1,048

Length: 36.5 in (927 mm)

AUTO WORLD® BATMAN® SLOT CAR SET

A must-have for fans of the Caped Crusader.

- Defeat the Joker, with dynamic lane-changing action!
- Track layout spans 49 feet (14.9 m), and provides racers with 5 challenging over-and-under layout options.
- Features two vehicles with 4-Gear™ chassis: the classic Batmobile® and the Joker's '59 Cadillac® goon car. Also comes with Batman and Robin figures.
- Includes two variable-range speed controllers, easy-connect terminal track, squeeze track and crash barriers.

RDZW0168

Long story short...

The Batman Slot Car set is great fun for those who loved the classic 1960s show, as well as those who enjoy today's Batman comics and films.
