THE MOST FUN FOR

The ADX-10's formula for success: keeping it simple and streamlined.

Because every vehicle in the ARRMA lineup shares so many key features, you come out a winner, no matter which model you choose! Only the finest quality materials are used, with a "modular" chassis featuring lots of metal so your ride can take whatever you can put it through — and it's backed by an iron-clad 2-year warranty. Plus, 47% parts compatibility not only keeps aftermarket support simple, it also helps keep costs down!

ARAC2111 ADX-10 1/10 2WD EP Racing Buggy 2.4GHz RTR-Blue
 ARAC2121 ADX-10 1/10 2WD EP Racing Buggy 2.4GHz RTR-Red
 ARAC2131 ADX-10 1/10 2WD EP Racing Buggy 2.4GHz RTR-Green
Length: 15.75 in (400 mm)
Width: 9.7 in (246 mm)
Front Track: 8.66 in (220 mm)
Rear Track: 8.0 in (202 mm)
Height: 6.1 in (155 mm)
Wheelbase: 11.0 in (280 mm)
Ride Height: 1.2 in (30 mm)
Tires: dBoots MultiRib fronts and TerraByte rears

Standard on all ARRMA vehicles

ARRMA

CONTROL

YOUR MONEY!

All ARRMA vehicles share these quality features:

- Aluminum TVP chassis rails and chassis components
- Oil-filled gear diff and performance springs
- All metal gears
- Brushless-ready metal transmission
- Adjustable, precision slipper clutch
- Oil-filled metal gear diff
- Tough steel driveline and turnbuckles
- Splashproof, dustproof receiver box
- Easy-access underside battery bay
- Waterproof Mega ESC and 15T brushed motor
- ATX300 2.4GHz radio transmitter and receiver
- Hex hardware throughout
- Strong, stylish polycarbonate body

www.arrma-rc.com

Only ARRMA offers the ATX300 adaptable radio!

Just press a button, and you can switch the transmitter from left-handed to right-handed and back again. Anyone can hold the radio in the way that feels most comfortable — and ARRMA is the only R/C manufacturer that has it!

Design Patent No. 29/384,679

A SUPER VALUE IN A

Style and strength make the Mojave the real deal!

ARRMA's aggressive approach to R&D has proven that great-looking, durable models can be made affordably, and without cutting corners. Using a "modular" chassis design made from top-notch materials, all ARRMA vehicles share many innovative features — along with 47% parts compatibility and a commitment to superior customer support. ARRMA cars and trucks are built tough — and that durability is backed by an iron-clad 2-year warranty.

NEW PRODUCT

GET READY FOR ALL-DAY, ALL-TERRAIN

Apache Flux 1/8 Scale 4WD Brushless 2.4GHz RTRs

- Both are ready to win right out of the box, with Flux brushless power and the HB D8's World Championship-winning suspension
- When equipped with dual twin 2S LiPo batteries, the Q-Base ESC and Alphastar 2350kV brushless motor pack up to 14.8V of power for lightning-quick acceleration, all-out top speeds, huge rooster tails and "big air" jumps
- A rugged shaft 4WD drive train with monocoque suspension arms and Big Bore shocks can handle whatever you and the track can throw at it
- Yokohama Geolander all-terrain tires deliver exceptional gripping power
- Both are fitted with the TF-40 2.4GHz radio system for responsive, interference-free control

Modeled after the full-size "Class 1" Baja 1000 long-distance desert racing buggies!

**HPID7028 1/8 Scale Apache C1 Flux 4WD
Brushless 2.4GHz Buggy RTR**
Overall Length: 22.8 in (580 mm)
Width: 11.8 in (300 mm)
Wheelbase: 14.7 in (375 mm)

Apache C1 Flux 4WD
Brushless 2.4GHz
Buggy RTR

ACTION WITH APACHE FLUX VEHICLES

Apache SC Flux 4WD
Brushless 2.4GHz
Short Course Truck RTR

A spot-on replica of the trucks that compete in spirited fender-to-fender short course competition!

**HPID7024 1/8 Scale Apache SC Flux 4WD
Brushless 2.4GHz Truck RTR**
Overall Length: 24.4 in (620 mm)
Width: 11.8 in (300 mm)
Wheelbase: 14.7 in (375 mm)

Both are topped off with detailed, painted bodies. The Apache Flux Buggy features a cage-style body complete with spare tire and driver and co-driver figures.

Long story short...

The Apache Flux SC Truck and Buggy are no-compromise, bash-proof terrors!

NEW PRODUCT

THE TRAIL-PROVEN TRUGGY FOR

SCX10™ Trail Honcho™ 1/10 Scale 4WD Electric RTR

www.gpdealer.com

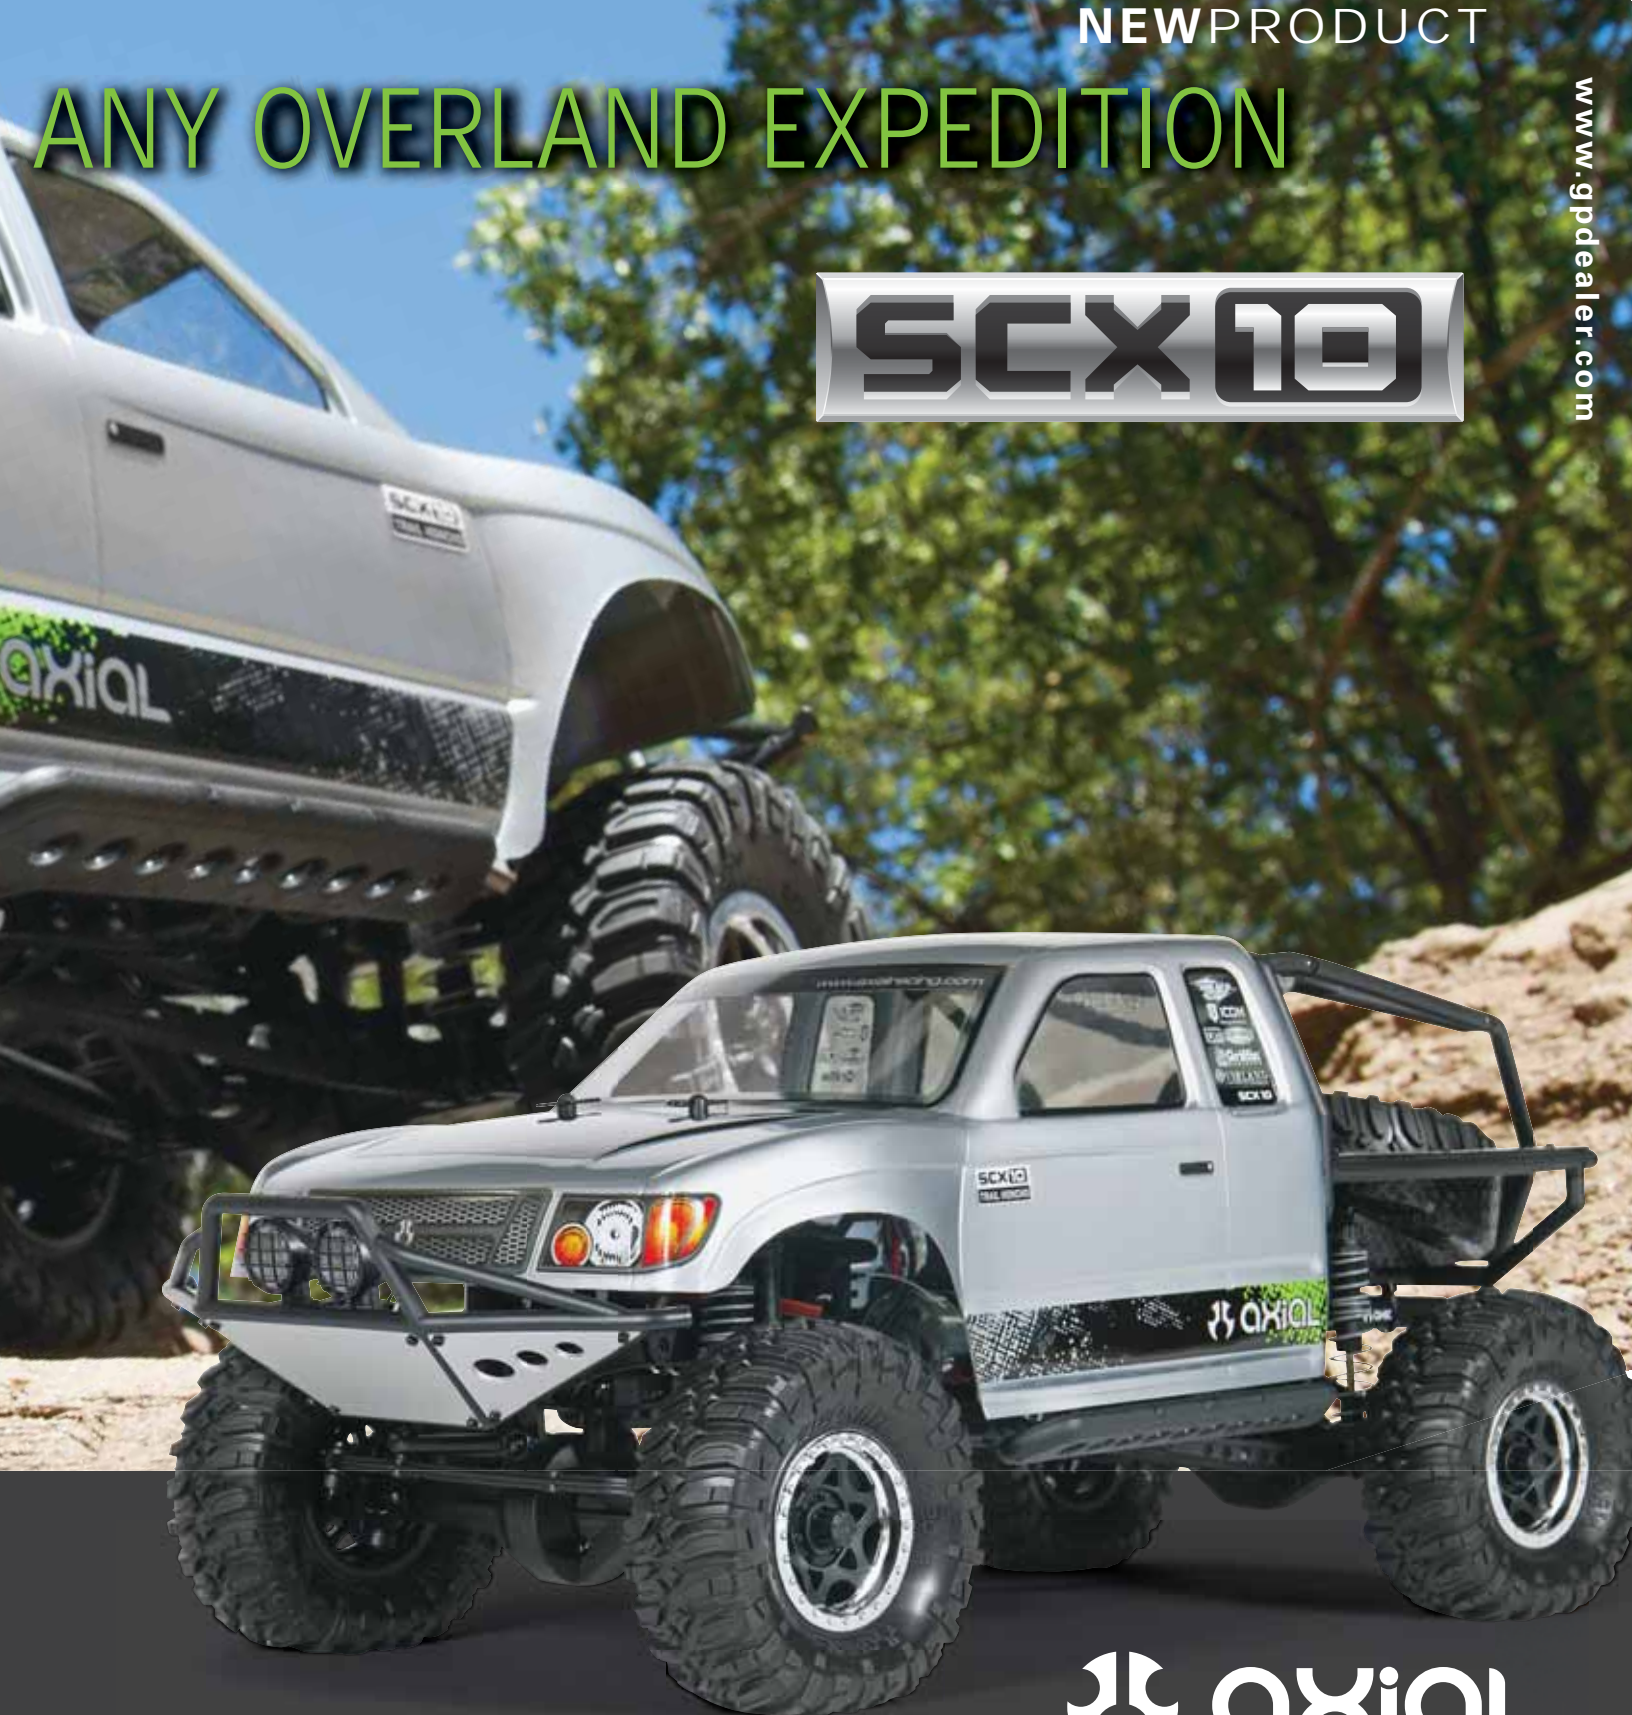

- The 27T motor supplies plenty of power, and an included slipper clutch lets the motor work more efficiently and enhances drivetrain durability
- The AE-2 ESC features LiPo cutoff and a Tamiya style connector, along with drag brake for tough crawling situations
- WB8 Wild Boar™ driveshafts are a constant velocity joint (CVJ) design that allows for efficient, friction-free movement, with full metal-to-metal construction
- The 4-link suspension geometry is optimized to reduce axle steer and torque twist; it also helps with steep off-camber climbs with the proper amount of anti-squat and roll characteristics
- The diff locker is a simple one-piece design made from strong sintered metal to add weight where needed in the axle
- The 1.9 Ripsaw™ tires offer a realistic and aggressive tread design, and are mounted and glued onto officially licensed Walker Evans Racing wheels

The Trail Honcho uses the same ultra-durable transmission and axles as the AX10 Scorpion, but is built around a more scale frame.

OFFICIALLY LICENSED WITH:
Overland Journal, Fuel Safe, Walker
Evans Racing, ICON, PIAA, TJM, Griffin

ANY OVERLAND EXPEDITION

AXID9022 SCX10 Trail Honcho 1/10 Scale 4WD Electric RTR

Length: 18 in (457 mm)

Width: 9 in (227 mm)

Height: 5.4 in (137 mm)

Wheelbase: 12.3 in (313 mm)

Ground Clearance: 2.7 in (68 mm)

Weight: 4 lb (1814 g)

Long story short...

If you're looking for unstoppable off-road adventure, the Trail Honcho is the vehicle that will take you there!

NEW PRODUCT

THE WORLD'S FASTEST READY-TO-RACE SUPERCAR

www.gpdealer.com

XO-1

XO-1 1/7 Scale 2.4GHz Ready-To-Race Supercar

- Massive acceleration and true supercar performance are provided by the largest Big Block brushless motor ever offered in a Ready-To-Race model
- The Castle™ Creations Mamba Monster Extreme ESC, with its integrated capacitor bank, is the ultimate in big-volt power transfer
- Brutal brushless power is delivered to all 4 tires via a shaft-driven All Wheel Drive system equipped with patent-pending Cush Drive™
- An air-management system featuring a front splitter, channeled chassis extensions, functional diffuser and aggressive rear wing presses the XO-1 to the track with incredible downforce
- Comes with two 3-cell 5000mAh Power Cell LiPo battery packs
- Includes advanced TQi transmitter with Docking Base, ready to integrate an iOS device (see details on next page)

100+MPH

TRAXXAS

TRAD45** XO-1 1/7 Scale 2.4GHz Ready-To-Race Supercar

Length: 27 in (686 mm)
 Front Track: 11.6 in (295 mm)
 Rear Track: 11.8 (300 mm)
 Height: 5.0 in (127.5 mm)
 Wheelbase: 15.9 in (404 mm)
 Weight (w/batteries): 10.3 lb (4.67 kg)

Long story short...

Only Traxxas could engineer a Supercar such as this. The XO-1 is the culmination of state-of-the-art technology, cutting edge design and a total focus on quality and precision.

THE WORLD'S MOST ADVANCED READY-TO-RACE RADIO SYSTEM

TRAXXAS

- The TQi features all the performance, range, and absolute reliability you expect from a Traxxas transmitter in a sleek new design.
- Internal antenna eliminates lost or broken antennas.
- 13ms frame rate and near zero latency delivers responsive control.
- Full control over throttle and steering sensitivity, percentage, and end points.
- Steering trim and programmable multi-function knob are built in.
- High Definition, full-color graphics
- Control all transmitter settings through the Traxxas Link App
- Intuitive Apple iOS interface. No manual required
- Expandable real time telemetry monitors speed, RPM, battery voltage, transmitter battery level, and temperature
- Customizable dashboard with analog or digital readout gauges
- Up to nine gauges can be displayed at one time
- Traxxas Link model memory automatically recognizes previously bound models and applies last used settings
- Visually manage an unlimited number of models with Traxxas Link
- Edit, save, and share drive profiles
- Instantly set training mode and adjust the speed
- Record and output data and dashboard videos for fun and analysis
- Optional Traxxas Link telemetry sensors are auto detected for plug-and-play simplicity.

Telemetry dashboard, model selection and settings, model profiles and more are all easily accessed and adjusted via the Traxxas Link app

Available on the
App Store

Traxxas TQi Docking Base (#6510) included with some Traxxas models. TQi Docking Base also sold separately. Apple iPhone and iPod touch sold separately. iPhone and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries.

TRAJ6507 TQiTx 4ch W/5ch RX Docking Base

Long story short...

TQi is a game changer with its pro-level adjustability; iOS integration; expandable telemetry; editable profiles; and intuitive, easy-to-use graphical interface.

NEW PRODUCT

FLY INDOOR MISSIONS WITH EASE!

www.gpdealer.com

Bravo III CX

Open the box and it's all there: a factory-built Bravo III CX heli, 2.4GHz radio with dual rates and a built-in charger, flight battery and a screwdriver.

- Mission-ready fast: comes ready-to-fly and equipped with everything you need
- Twin, counter-rotating main blades make the Bravo III CX extremely stable, and easy to fly as well as hover
- Two LEDs provide realistic lights — one points ahead while the other points down to illuminate the landing zone
- The compact 2.4GHz radio provides interference-free control, with dual rates, built-in battery charger and 4 "AA" batteries
- The included 3.7V 110mAh LiPo battery is the latest in lightweight power; it recharges on the radio for up to 10 minutes of flying time
- Finished in a military-style camo trim scheme

NEAE0005 Bravo III CX Nano EP Heli
Rotor Diameter: 7-3/8 in (188 mm)
Overall Length: 8-5/8 in (219 mm)
Weight: 1.1 oz (31 g)
Power System: (2) main drive motors

Nine Eagles®

From the Experts:

If you're going to fly an indoor R/C heli, you might as well fly one that's as cool-looking as it is easy. A camo trim scheme and working LED lights give the Bravo III military looks; counter-rotating twin blades and a 2.4GHz radio provide right-out-of-the-box stability and confident control. And everything you need is included, so there's nothing left to buy!

Long story short...

The Bravo III CX heli brings FUN to indoor heli flying!

SOPHISTICATED LOOKS — AND SIMPLE, STABLE CONTROL!

Bravo SX

Nine Eagles FP (Fixed Pitch) helis are equipped with a 45° flybar, which increases stability and makes the Bravo SX even easier to fly.

- Pre-assembled and test-flown, with everything you need included — just charge the battery and take off!
- The main blades and tail rotor are driven by different motors, so you control them independently
- Dual rates on the compact 2.4GHz radio give pilots more response time while they're learning, and faster response as flying skills improve
- Two LEDs provide realistic lights — one points ahead while the other points down to illuminate the landing zone
- The included 3.7V 110mAh LiPo battery recharges on the radio for up to 10 minutes of flying time

NEAE0025 Bravo SX FP Nano EP Heli

Rotor Diameter: 7-1/2 in (190 mm)

Overall Length: 9 in (229 mm)

Weight: 1.15 oz (33 g)

Power System: main & tail motors

Nine Eagles®

From the Experts:

The Bravo SX looks like the sleek corporate and commuter helis seen in big city skies. But it's actually designed for small field, in-home flight and first-time heli pilots. It's stable and easy to operate, and dual rates on the 2.4GHz benefit both beginners and experienced modelers. And because it's assembled and complete, you can be flight-ready almost immediately!

Long story short...

The Bravo SX looks sharp...and flies like a dream

NEW PRODUCT

AN EVEN MORE PILOT-FRIENDLY RAPTOR® 30 ARF

Raptor 30 V2 Pro Receiver-Ready ARF Heli

www.gpdealer.com

Receiver-Ready means that this Raptor is already equipped with a gyro, servos and engine — just install your receiver and take flight!

Still features all of the Raptor 30 V2 Pro's performance perks, including:

- Heavy-duty collective pitch arm
- Enlarged radial and thrust bearings for more precise blade pitch control
- Tail rotor grips the same size as the Raptor 60, to allow for a larger diameter tail rotor and more solid control
- A swashplate re-designed for more durability and less free play
- A larger fuel tank (340 cc) positioned to reduce CG shift
- Enlarged engine starting shaft
- Strengthened side frames for better crash resistance and less engine vibration
- Metal alloy spring steel clutch that's larger in diameter

TTRE0047 Raptor 30 V2 Pro Receiver-Ready ARF Heli

Main Rotor Diameter: 49 in (1245 mm)

Tail Rotor Diameter: 9.3 in (236 mm)

Overall Fuselage Length: 45.25 in (1150 mm)

Fuselage Width: 5.5 in (140 mm)

Fuselage Height: 15.75 in (400 mm)

Flying Weight: 6.5 lb (3000 g)

From the Experts:

This newest Raptor 30 V2 Pro ARF Heli complements the world-renowned Shigetada Taya design with even more convenience! All of the performance features that have made the Raptor one of the most popular machines in R/C are still here — and being Receiver-Ready means the servos, gyro, and engine are already in place. Just mount your receiver, and you're set!

Long story short...

If you've ever dreamed of flying a Raptor 30, Thunder Tiger just made it easier than ever to do so with this Receiver-Ready ARF version!

EVADERTM BRUSHLESS

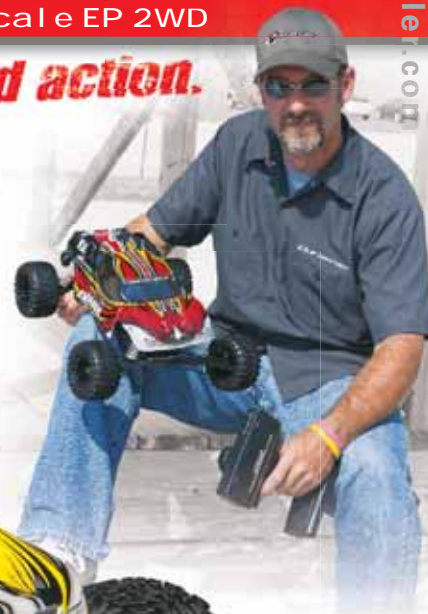

Ready-to-Run 1/10 Scale EP 2WD

Brushless powered, for non-stop, high-speed action.

The radio is a 2.4GHz system made by Futaba®, and the receiver is compatible with Futaba FHSS surface systems. The power system boasts a brushless ESC and 3930kV motor, for blistering speeds and hotter action than ever before.

And those are just a few of the highlights, because this Evader also includes waterproof electronics, full ball bearings and a factory-installed wheelie bar. It's ready for action right out of the box, but it's also compatible with virtually all Evader upgrades!

2.4GHz
radio system

- Duratrax 2.4GHz FHSS radio system by Futaba®
- 3930kV sensorless brushless motor
- 100A waterproof brushless ESC
- Painted, finished polycarbonate body
- Compatible with 2S LiPo packs
- MagnaFlex™ plastic components

Battery not included.

DTXD37** Evader Brushless 1/10 2WD EP 2.4GHz RTR
 DTXD37BB Evader Brushless 1/10 2WD EP 2.4GHz RTR-Blue
 DTXD37LL Evader Brushless 1/10 2WD EP 2.4GHz RTR-Black
 DTXD37RR Evader Brushless 1/10 2WD EP 2.4GHz RTR-Red
 DTXD37YY Evader Brushless 1/10 2WD EP 2.4GHz RTR-Yellow

Length: 18.5 in (470 mm)
 Width: 12.8 in (325 mm)
 Height: 6.1 in (155 mm)
 Weight: 3.6 lb (1633 g)

THE NEXT STEP IN TOURING CAR DESIGN AND DOMINANCE

RC10TC6.1 1/10 4WD Electric Competition Touring Car Kit

TC6.1 FACTORY **Team**

Here are just some of the many refinements that make the TC6.1 another Team Associated champion by design:

- Updated suspension arms increase stiffness and strength, with the bonus of finer shock adjustments
- Integrated inserts on the caster blocks and rear hubs let you adjust angles without changing the entire assemblies, for quicker, easier fine tuning to track conditions
- Built on a solid aluminum center member that rolls on a bearing surface, the H.D.R.C. (High Definition Roll Control) system takes anti-roll bar technology to the next level
- The lightweight rear gear diff delivers maximum performance with low maintenance
- Comes equipped with the Factory Team VCS3 shock package featuring hard-anodized threaded shock bodies with bottom-loaded seals
- A multi-position steering system with additional Ackermann options gives the TC6.1 more consistent handling

ASCC3007 RC10TC6.1 1/10 4WD
Electric Competition Touring Car Kit
Length: 15 in (380 mm)
Width: 7.5 in (190 mm)
Wheelbase: 10 in (255 mm)
Weight: 3.03 lb (1375 g)

Long story short...

Building on the proven TC6, Area 51 engineers added even more features to create the TC6.1, a touring car kit that's even easier to tune and drive!

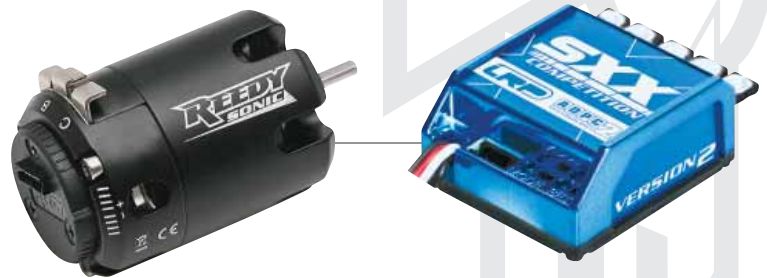

SONIC MOTORS MAKE THESE COMBOS SUPER!

Sonic motors are back...this time packing BRUSHLESS power! With lightweight, vented cases and dual bearing-supported sintered rotors, these motors deliver maximum RPM and reliability — and they meet ROAR, EFRA and IFMAR specs. We've paired them with advanced SXX electronic speed controls to create winning combos for all kinds of racing applications!

Sonic Motors with SXX Competition V2 ESCs

Ideal for 2WD on-road and off-road applications, or in vehicles where ESC size is an issue

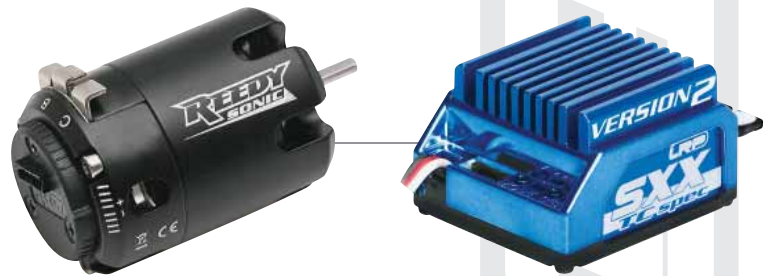

ASCC9225 Sonic 9.5T Motor/SXX Comp. V2 ESC Combo
 ASCC9226 Sonic 8.5T Motor/SXX Comp. V2 ESC Combo
 ASCC9227 Sonic 7.5T Motor/SXX Comp. V2 ESC Combo
 ASCC9228 Sonic 6.5T Motor/SXX Comp. V2 ESC Combo
 ASCC9229 Sonic 5.5T Motor/SXX Comp. V2 ESC Combo
 ASCC9230 Sonic 5.0T Motor/SXX Comp. V2 ESC Combo
 ASCC9231 Sonic 4.5T Motor/SXX Comp. V2 ESC Combo

Sonic Motors with SXX TC-Spec V2 ESCs

Perfect for high-current draw applications like 4WD buggies, short course trucks and touring cars

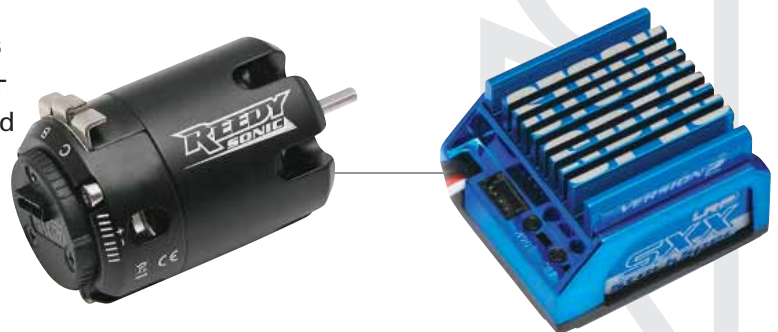

ASCC9238 Sonic 9.5T Motor/SXX TC-Spec V2 ESC Combo
 ASCC9239 Sonic 8.5T Motor/SXX TC-Spec V2 ESC Combo
 ASCC9240 Sonic 7.5T Motor/SXX TC-Spec V2 ESC Combo
 ASCC9241 Sonic 6.5T Motor/SXX TC-Spec V2 ESC Combo
 ASCC9243 Sonic 5.0T Motor/SXX TC-Spec V2 ESC Combo
 ASCC9244 Sonic 4.5T Motor/SXX TC-Spec V2 ESC Combo
 ASCC9245 Sonic 4.0T Motor/SXX TC-Spec V2 ESC Combo
 ASCC9246 Sonic 3.5T Motor/SXX TC-Spec V2 ESC Combo

Sonic Motors with SXX Stock Spec V2 ESCs

Designed for spec racing (10.5T, 13.5T, 17.5T and 21.5T classes), and can also be used in all 1/10 scale on-road and off-road vehicles

ASCC9247 Sonic 21.5T Motor/SXX SS V2 ESC Combo
 ASCC9248 Sonic 17.5T Motor/SXX SS V2 ESC Combo
 ASCC9249 Sonic 13.5T Motor/SXX SS V2 ESC Combo
 ASCC9233 Sonic 10.5T Motor/SXX SS V2 ESC Combo

Long story short...

Sonic motors make a triumphant return to R/C racing as brushless complements to proven SXX speed controls in unbeatable combos!

MORE REEDY BATTERIES FOR RULING THE RACETRACK

Utilizing the latest technologies, Reedy continues to produce cutting-edge batteries with the power and run-times that serious drivers depend on for getting into the winner's circle!

Reedy LiPo/LiFe Receiver Batteries

- Ideal for nitro-powered cars, buggies and trucks that require a stick configuration
- The standard plug fits directly into your receiver or switch harness, while a JST-XH balance connector allows for simple balance charging
- A choice of LiPo or LiFe chemistries, both with ample capacities for long mains

ASCC0304 Reedy 7.2V 1600mAh LiPo Rx/Tx Battery
 ASCC0305 Reedy 6.6V 1300mAh LiFe Rx/Tx Battery

ASCC0304

ASCC0305

Reedy 7.4V 4000mAh 60C Shorty LiPo Battery

- High capacity and a powerful rating in a lightweight, compact package
- Allows on-road and off-road drivers to optimize their setups by fine-tuning their vehicle's weight distribution
- A durable hard case protects against damage

ASCC0306 Reedy 7.4V 4000mAh 60C Shorty LiPo Battery

ASCC0306

Reedy 3.7V 6500mAh 65C Competition LiPo Battery

- Produces power and capacity that is second to none for 1/12 scale and World GT racers

ASCC0601 Reedy 3.7V 6500mAh 65C Competition LiPo Battery

ASCC0601

Long story short...

With 28 World Championships (and counting), Reedy has the expertise to deliver competition-quality batteries for racers of all levels!

GIVE YOUR RIDE A BRUSHLESS BOOST OF REEDY MOTOR POWER

With their sensorless design, these 540-SL and 550-SL brushless motors operate powerfully and efficiently without complicated sensor harnesses. 540-SL motors are ideal for use in 1/10 scale buggies and trucks, while 550-SL motors are excellent choices for 4WD short course trucks.

ASCC0920 Reedy 540-SL 3300kV Sensorless Brushless Motor
 ASCC0921 Reedy 540-SL 3900kV Sensorless Brushless Motor
 ASCC0922 Reedy 540-SL 4900kV Sensorless Brushless Motor
 ASCC0923 Reedy 540-SL 6100kV Sensorless Brushless Motor
 ASCC0924 Reedy 550-SL 3500kV Sensorless Brushless Motor
 ASCC0925 Reedy 550-SL 4000kV Sensorless Brushless Motor
 ASCC0926 Reedy 550-SL 4400kV Sensorless Brushless Motor

These motors feature:

- Oversized precision ball bearings
- High-strength 2-pole rotor (540-SL)
- High-torque 4-pole rotor (550-SL)
- Hardened 1/8" steel shaft (540-SL)
- Hardened 5mm steel shaft (550-SL)
- Triple-insulated windings
- Sensorless operation
- 3.5mm connectors
- Completely serviceable

Long story short...

Upgrading to Reedy sensorless brushless motors is the easy way to increase your RTR vehicle's power and reliability!

FUTABA® R204GF-E 2.4GHz S-FHSS 4-CHANNEL HV MICRO RECEIVER

A versatile receiver for surface applications!

- Compact dimensions and an internal antenna make this receiver ideal for 1/10 and 1/12 scale touring chassis
- S-FHSS offers affordable, interference-free operation, along with High Voltage compatibility
- For 1/8 scale buggy racers currently stuffing their antennas inside the receiver box, the R204GF-E is a welcome option

FUTL7604 R204GF-E 2.4GHz S-FHSS 4-Channel HV Micro Receiver
 Dimensions: 1.37 x 0.9 x 0.33 in (33 x 23 x 8.5 mm)

Long story short...

Ideally sized for 1/10 and 1/12 vehicles, the R204GF-E can also benefit larger scale models as well.

FUTABA® R6202SBW 2.4GHz FASST™ HV S.BUS MICRO RECEIVER

A new concept in an S.Bus micro receiver!

- Features dual S.Bus ports and dual standard conventional ports
- Dual S.Bus ports allow you to split the model in half, or split the number of servos between the ports
- Connect up to 18 servos

FUTL7667 R6202SBW 2.4GHz FASST
 HV S.Bus Micro Receiver
 Dimensions: 0.88 x 1.47 x 0.36 in (22.5 x 37.4 x 9.3 mm)
 Weight: 0.25 oz (7.2 g)

Long story short...

The R6202SBW represents a new way to equip your scale plane's servos or, outfit smaller helis!

BUY A GREAT RADIO... GET A FREE CUSTOM CASE!

Through February 29, 2012 receive a **FREE** branded metal radio case with the purchase of select Futaba radio systems

When you're talking about the 8FG, the 10CG and the 12FG, you're talking about top-of-the-line systems with the features that serious pilots want — and without the exorbitant price tag. Radios this advanced deserve special treatment — and for a limited time when you purchase an 8FG, 10CG or 12FG system you'll receive a **FREE** custom Single Radio Case worth \$59.99!

NO MATTER WHAT HOBBY YOU

January is National Hobby Month — and we've made it easy and affordable to get into the radio control hobby that most interests you!

Imagine you're in the cockpit of a smooth-flying sport plane or gravity-defying helicopter. Or at the helm of a streamlined off-shore racing boat. Or behind the wheel of an unstoppable off-road stadium truck. With radio control you can go from imagining to experiencing what it would be like...and it's all as close as your local hobby dealer. The products featured on these pages are all designed to get into R/C with virtually no effort and very little cost — and once you've seen how much fun you can have, you'll be hooked! Check out these and many other great R/C models and hobby products — there's no better time than now to enjoy all that radio control has to offer!

REALFLIGHT⁶ R/C FLIGHT SIMULATOR

Prepare to be blown away by RealFlight 6!

- Far and away the most realistic flight sim ever created!
- Incredible true-to-life physics, right down to the smallest detail
- Lots of great features that add ease and convenience

- The intuitive InterLink[®] Elite controller replicates an R/C transmitter
- An exceptional tool for learning to fly, and for perfecting maneuvers
- Comes with 85 aircraft models in the RealFlight 6 software, plus your choice of an included Free Airplane Mega Pack with 36 more airplanes or Heli Mega Pack with 47 additional helis!

GPMZ4460 RealFlight 6 w/Airplane Mega Pack Mode 2
GPMZ4462 RealFlight 6 w/Heli Mega Pack Mode 2

This Ready-To-Run racing boat is LOADED!
Minimono Brushless 2.4GHz RTR

- A brushless motor and ESC power the 18" long Minimono effortlessly across a pond or lake!
- A Tactic[™] 2.4GHz radio delivers interference-free control, no-crystal convenience and Secure Link Technology[™]
- Designed for 3S LiPo batteries, for optimum speeds

ROCKETS

Skill Level 1

Requires moderate gluing, painting and sanding.

ESTT1980 Designer's Special™
Over 100 parts to build up to 8 small rockets – or combine them to create one huge custom rocket!
Max. Altitude: Various
Height: Various

ESTT2448 Mini Comanche 3™
Awesome 3-stage rocket is powered by mini engines!
Max. Altitude: 900 feet (274 m)
Height: 31.1 in (79 cm)

Skill Level 2

First tier of more advanced kits; requires additional gluing, painting and sanding. Assembly can take up to a day.

ESTT3226 Hi-Flier® XL
A bigger, better version of the best-selling Hi-Flier!
Max. Altitude: 1,325 feet (404 m)
Height: 31 in (78.7 cm)

TOOLS & ACCESSORIES

ESTT2228 Ultimate Tube Marking Guide
Reusable guide makes marking straight lines on rocket bodies a breeze, without the need for rulers or door frames.

ESTT2261 Pro Series II™ 24" Nylon Parachute
High-quality nylon parachute brings your Pro Series II rockets safely back down to Earth.

YEAR WITH A BLAST!

All include balsa fins and either tumble recovery or recovery parachutes. All require engines, a launch system, recovery wadding, igniters and igniter plugs.

Recommended for ages 10 and up. Adult supervision is recommended for rocketeers under 12.

Skill Level 3

Second tier of more advanced kits; most feature complex designs which require greater building experience. Assembly may take up to a few days.

ESTT3222
Tercel Glider™
 Roam the skies for a minute or more with this two-stage standout!
Max. Altitude: 700 feet (213 m)
Height: 16.5 in (41.9 cm)

Skill Level 5

The most advanced, challenging kit level. Designed for experienced modelers, construction is extremely complex. Finishing is detail-oriented and may involve highly elaborate paint schemes. Building and finishing can take up to a week or more.

ESTT3224
Asteroid Hunter™
 Realistic scale details, futuristic thrills!
Max. Altitude: 400 feet (137 m)
Height: 16.2 in (41.1 cm)

ESTT2315
Tube Cutters

Handy, reusable tool quickly and easily cuts body tubes to any length. Includes guides for BT5, 20, 50, 55 and 60 size body tubes.

ESTT9750
Pro Series II 29 mm Motor Retainer Set

Load and remove your 29 mm motors with ease. Set includes two permanent-mount retainers.

SNAPTITE® STAR WARS® X-34 LANDSPEEDER™

Travel the deserts of Tatooine.

"Star Wars" took the world by storm when it was released in 1977. Over 30 years later, this landmark sci-fi flick continues to fascinate filmgoers. Star Wars' lasting popularity is a testament to its memorable characters, exciting storytelling and stirring special effects. This easy-to-assemble SnapTite **kit features** painted, multi-colored parts, Luke Skywalker® and C-3PO® figures and a multi-position display stand.

RMXS1874 Total parts: 41 Skill level 1 Length: 9.6 in (243 mm)

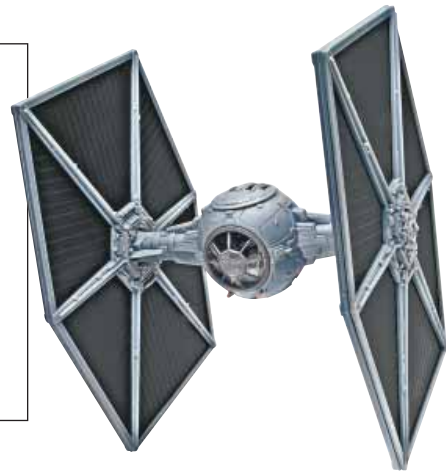

SNAPTITE® STAR WARS® TIE FIGHTER™

Raid the Rebel Alliance!

Fans of the original "Star Wars" trilogy will no doubt recognize the Galactic Empire's tenacious TIE fighters. The "TIE" designation comes from the spacecraft's Twin Ion Engine system, which is powered by solar panels on each wing. While TIE fighters lack shields or hyperdrive capabilities, they have been known to outrun and outmaneuver Rebel Alliance spacecraft on more than one occasion. This easy-to-assemble **kit features** multi-colored, painted plastic parts, an opening hatch, a detailed cockpit, an Imperial pilot figure and a movable display stand.

RMXS1875 Total parts: 30 Skill level 1 Length: 6.2 in (157 mm)
Wingspan: 5.9 in (149 mm)

1/25 SCALE 2010 CHEVY® CAMARO® SS® 2 'N 1 V-8 powered fury.

Announced on July 21, 2008, the 2010 Camaro's signature styling was inspired by the classic '69 Camaro. The SS version with automatic transmission features a 400 hp L99 V-8 engine which propels it from 0-60 mph in 4.6 seconds – and a full quarter-mile in 13.1 seconds. **Kit features** an opening hood with full engine detail, a factory aero package with side skirts and a front spoiler, a choice of SS package or custom wheels, soft black tires, chrome-plated parts and decals with stock markings and two optional accent trim packages.

RMXS4239 Total parts: 125 Skill level 2 Length: 7.6 in (194 mm)

1/25 SCALE AUDI® R8 SPYDER®

Engineered without compromise.

The open-air Audi R8 Spyder avoids the pitfalls associated with other open-air vehicles, namely excess weight and a weak chassis. The end result is a no-compromise performer, thanks to a V-10 engine that goes from 0-60 mph in 3.7 seconds, with a top speed of 195 mph. **Kit features** a lift-up rear deck with a fully detailed V-10 engine, a highly detailed suspension, realistic transaxle detail, the option of having the top "up" or "down," movable front wheels, soft black tires, chrome-plated parts and decals with graphics and vent screens.

RMXS4940 Total parts: 125 Skill level 2 Length: 7.3 in (186 mm)

1/24 SCALE STEVE KINSER® #11 BASS PRO SHOPS® SPRINT CAR

Sprint car racing's biggest star.

American sprint car racing ranks among the world's fastest auto competitions. The most popular version of this sport uses winged cars for increased downforce and improved control. Sprint cars can reach speeds exceeding 140 mph (230 km/h), which is why roll cages, helmets and other safety features have been deemed mandatory by most divisions.

Kit features a detailed V-8 racing engine, modern sprint car bodywork with a hood scoop and side panels, soft black tires, satin chrome-plated parts, a seated driver figure and decals with authentic 2011 Steve Kinser graphics.

RMXS4942 Total parts: 97 Skill level 3 Length: 6.3 in (159 mm)

1/48 SCALE F6F-5 HELLCAT

The Zero's airborne archenemy.

Designed to replace the subpar Wildcat, the F6F Hellcat is most famous as the Mitsubishi® Zero's most formidable foe. **Kit features** folding wings, retracting landing gear, a complete load of bombs and rockets, a seated pilot figure, an outside crew figure and decals for two versions: 1. F6F-5 Hellcat, White 115 "Death 'n Destruction"/BuNo 72534 of Ensigns Donald McPherson, Bill Kingston, Jr. and Lyttleton Ward, VF-83, U.S.S. Essex, May 1945 and 2. F6F-5 Hellcat, '7' Paper Doll, Ensign Bob Burnell and Lt. Carl Brown, Jr., VF-27, U.S.S. Princeton, October 1944.

RMXS5262 Total parts: 55 Skill level 2 Length: 8.3 in (210 mm)

1/32 SCALE JUNKERS JU 88A-1 BOMBER

The Luftwaffe's target-seeking titan.

Powered by 1,200 hp (895 kW) Jumo 211B-1 engines, the Junkers Ju 88A-1 was intimidating on the ground and in the air. Employed as a bomber or fighter, the Ju 88 was sure to hit its targets. **Kit features** surface details with recessed panel lines; separate ailerons and flaps; a super-detailed cockpit with side walls, a bomb sight, wireless equipment and instrument panels; rotating props with detailed engine cowls and decals for two versions: 1. 7./Kampfgeschwader 54 France, September 1940, Battle of Britain and 2. Geschwaderstab KG 30, Westerland/Sylt, 1939.

RMXS5986 Total parts: 281 Skill level 3 Length: 17.9 in (454 mm)
Wingspan: 22.5 in (571.5 mm)

REVELL OF GERMANY NEW PRODUCTS

1/32 SCALE WESTLAND SEA LYNX MK.88/HAS.3

Europe's specialized, ship-borne heli.

Thanks to its versatility and dependable performance, the Sea Lynx is a favorite of armed forces all over the world. Germany's Mk.88 is most famous for protecting Somalia's coast from pirates. The United Kingdom's Royal Navy has employed the HAS.3 variant for service in the Persian Gulf, as well as aboard the Antarctic-stationed ice patrol ship H.M.S. Endurance. **Kit features** a choice of building the Royal Navy's HAS.3 or the German Navy's Mk.88, a detailed cockpit, a detailed interior, optional machine gun equipment, torpedo racks and decal markings.

RVLS4652 Total parts: 130 Skill level 5 Length: 15.7 in (399 mm)
Rotor Diameter: 18.7 in (474 mm)

1/72 SCALE HANDLEY PAGE HALIFAX MK.I/II

WWII's tried-and-true British bomber.

When the Handley Page Halifax was introduced in 1940, it revolutionized the aircraft industry. At the time, bombers were usually powered by two engines. The Handley Page Halifax was equipped with four. It entered service with the RAF Bomber Command in 1941, flying throughout Europe and the Middle East. The RAF Coastal Command and Transport Command also benefitted from the Halifax's added horse- and firepower while stationed in the Far East. **Kit features** new tooling, a highly detailed interior, bomb bays with loads, separate ailerons, landing flaps and decal markings.

RVLS4670 Total parts: 155 Skill level 5 Length: 12.4 in (314 mm)
Wingspan: 16.4 in (417 mm)

1/72 SCALE AIRBUS® A400M GRIZZLY

The admirable, adaptable "Atlas."

The Airbus A400M represents the next generation of long-range military transport aircraft. Development began in 1982, when the Future International Military Airlifter group was assigned to produce a replacement for the Transall C-160 and C-130 Hercules. The A400M's first flight occurred on December 11, 2009, in Seville, Spain. Eight countries – including the U.K. and Germany – have ordered a total of 174 A400Ms. Deliveries are expected to occur by early 2013. **Kit features** a detailed cargo compartment, a cockpit with a movable loading ramp, extensive interior/exterior details, decals and much more.

RVLS4800 Total parts: 210 Skill level 5 Length: 24.6 in (626 mm)
Wingspan: 23.1 in (588 mm)

1/400 SCALE AIDA CRUISES®

AIDADIVA/AIDABELLA/AIDALUNA

Luxurious first-class cruising.

AIDA Cruises offer all the amenities of a first-class hotel – including a health spa and fine dining – at sea! **Kit features** the choice to build the AIDADiva, AIDABella or AIDALuna; a two-piece hull, an imitation bow and stern jet vane, two foldable side stabilizers, six tenders, ten lifeboats, two speedboats, filigree railings, a glazed theatre with atrium, detailed sun decks with swimming pools and parasols, a detailed funnel, a wellness suite with adjustable glass dome, an optional LED screen, a detailed signal mast, a display stand and extensive decals.

RVLS5200 Total parts: 376 Skill level 5 Length: 25 in (634 mm)

1/150 SCALE SAILING SHIP WASA (1628)

Sweden's celebrated 64-gun warship.

Commissioned by King Adolphus to reflect Sweden's stature as a major power, the *Wasa* was constructed from 1626-1628. Her maiden voyage proved tragic, as the top-heavy *Wasa* was barely a nautical mile into her travels when a gust of wind made her keel over. Soon, the *Wasa* sunk into the depths of Stockholm Harbor. Initial attempts to raise her proved to be unsuccessful. However, she was finally raised in 1961. Today, the *Wasa* can be seen at Stockholm's Vasa Museum, where she has attracted over 29 million visitors.

RVLS5414 Total parts: 330 Skill level 5 Length: 17.9 in (455 mm)
Height: 13.6 in (345 mm)

1/72 SCALE F-16AM/BM FIGHTING FALCON® "RNOAF TIGER MEET 2010" COMBO

A spectacular set of upgraded "Vipers."

In the early '90s, initial F-16s used by the European Partner Air Forces were upgraded with the F-16 Mid-Life Update (MLU) package. These aircraft were given up-to-date avionics, as well as the ability to carry radar-guided air-to-air missiles. This limited edition **kit combo features** two kits with new vertical tail wing base parts and one marking option per kit. The F-16AM kit includes "Royal Norwegian A.F. 338th Skv, Code: 671" markings, while the F-16BM kit includes "Royal Norwegian A.F. 338th Skv, Code: 692" markings.

1/72 SCALE UH-60J (SP) RESCUE HAWK

To the rescue, with Mitsubishi®-made materials.

The UH-60J was chosen as a replacement for the Japan Air Self-Defense Force's Sikorsky® S-62s and KV-107s in 1988. T700-IHI-701A engines provide plentiful power. Many UH-60Js feature fuel tanks which can be attached to pylons. Refueling probes were added in 2006. The J.A.S.D.F. now operates 31 UH-60Js in all. This limited edition **kit features** new radome, sensor and side window parts; photo-etched antenna parts and three marking options: 1. J.A.S.D.F. Air Rescue Wing, Code: 582; 2. J.A.S.D.F. Air Rescue Wing, Code: 587 and 3. J.A.S.D.F. Air Rescue Wing, Code: 585.

1/72 SCALE FOCKE-WULF FW 190D-9 "JABO"

The Luftwaffe's distinguished "Dora."

The Focke-Wulf Fw 190D-9 entered Luftwaffe service in September of 1944. This specialized fighter-bomber boasted improved climbing, diving and turning over the A-series, as well as faster horizontal speeds. The famed Jagdgeschwader 26 (JG 26) unit flew the Fw 190D-9 in air raids against the R.A.F. Schlachtgeschwader 10 (SG 10) used the "Dora" for close air support while it was stationed in Russia and Eastern Europe. This limited edition **kit features** new bomb parts and two marking options: 1. Luftwaffe II./JG 26, Yellow-2 and 2. Luftwaffe II./SG 10, Black-6.

01967 HSGS1967 (Limited Edition) Total parts: 48 Skill level 3

1/24 SCALE BMW® MINI COOPER® COUNTRYMAN® Carry on in a compact crossover.

Famous as the first crossover SUV to sport the BMW/Mini moniker, the Countryman was launched at 2010's Geneva Motor Show. Drivers can choose from six-speed manual or automatic transmissions, as well as 1.6L gasoline or 2.0L diesel engines. Some models also offer an optional all-wheel-drive mode. Most impressively, the European New Car Assessment Program (Euro NCAP) gave the Countryman a 5-star crash rating, making it one of the safest SUVs around. **Kit features** new tooling, a choice of left-side or right-side handle parts and two different wheel options.

24121 HSGS2412 Total parts: 104 Skill level 3

1/12 SCALE SCHOOL DESK & CHAIR SET Great for reading, writing and arithmetic.

The School Desk and Chair set is the ideal accessory for 1/12 scale figures, as well as dollhouses, dioramas and miniatures. **Kit features** three sets of snap-together school desks and chairs, molded in brown and grey plastic. Glue and paint are not required.

62001 HSGS6201 Total parts: 39 Desk width: 2 in (50 mm); height: 2.5 in (63 mm)
Chair width: 1.4 in (35 mm); height: 2.7 in (67.8 mm)

1/20 SCALE HUMANOID UNMANNED INTERCEPTOR "GROSSER HUND" A highly collectible cult classic.

The sci-fi series "Maschinen Krieger ZbV 3000" was created by artist Kow Yokoyama in the early 1980s. It appeared in the popular magazine "Hobby Japan," until the end of the decade. The series' "industrial" design was inspired by armor and aircraft from both World Wars, as well as films like "Blade Runner" and "The Road Warrior." "Maschinen Krieger" continues to have a devoted cult following, returning to "Hobby Japan" magazine in 2009. **Kit features** new tooling, select movable joints and 3-4 marking options for the Strahl Defence Force.

64005 HSGS6405 Total parts: 196 Skill level 3

BAMBOO TWEEZERS

Ideal for demanding, delicate projects.

When plastic's too flimsy and metal just won't do, genuine Japanese Bamboo Tweezers are just the right tool to get the job done. These anti-static, anti-magnetic tweezers hold delicate mini-sized objects precisely in place. Shaped, rounded ends simplify surface finishing. Ideal for applying decals, installing small batteries and more!

71539 HSGS7539

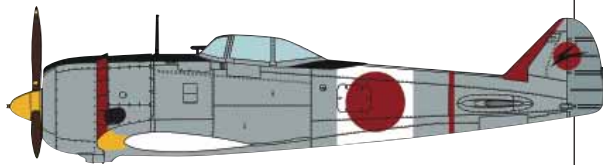

FINISHING FOIL (LIMITED EDITION)

Fine finishing touches.

Adhesive-backed Finishing Foils add eye-catching detail to your favorite kits. Lightweight, tough Finishing Foil stays intact, even on curved surfaces. Hand-processed **Leaf Finish** foils add bright, metallic accents to your model spaceships, satellites, figures and more. **Pearl Finish** foils are made from crushed mica, adding lifelike luster to any surface. Uses range from model aircraft walkways to carbon brake pads for motorcycle models. Each sheet measures 8 in. x 3.5 in. (200 mm x 90 mm).

1/32 SCALE NAKAJIMA KI-44 II HEI SHOKI (TOJO) "246TH FLIGHT REGIMENT"

An I.J.A.A.F favorite brought to vivid life.

The Nakajima Ki-44 II was powered by a 1,440 hp (1,074 kW) Ha-109 engine, which could deliver top speeds of 378 mph (604 km/h). During WWII, as many as twelve Sentais (or Air Regiments) were equipped with Ki-44s. One of the most celebrated Sentais was the 246th Air Regiment, who took full advantage of the Ki-44's spectacular speeds and awesome firepower. This limited edition **kit features** two marking options: 1. I.J.A.A.F. 246th F.R. 3rd Sq., Code: 321, Taisho A.B., 1944 and 2. I.J.A.A.F. 246th F.R. 3rd Sq., Code: 338, Philippines, late 1944.

1/48 SCALE EA-18G GROWLER "LOW VISIBILITY" "Ready on arrival," for airborne electronic attacks.

The U.S. Navy's Electronic Attack Squadron 141 (VAQ-141) is based at Naval Air Station Whidbey Island. The squadron is perhaps most famous for its participation in Operations Enduring Freedom and Iraqi Freedom. In February of 2010, the "Shadowhawks" became the second operating squadron to transition to the EA-18 Growler. By July 2011, VAQ-141 was deployed to the Middle East on board the U.S.S. George H.W. Bush. This limited edition **kit features** one decal marking option: 1. U.S. Navy U.S.S. George H.W. Bush, VAQ-141 "Shadowhawks" CO, Code: AJ501.

1/48 SCALE FOCKE-WULF FW 190A-6 "STURMSTAFFEL 1"

The Luftwaffe's legendary volunteer unit.

Formed by Major Hans- Günther von Kornatzki, Sturmstaffel 1 was comprised of volunteer pilots eager to attack enemy bombers. These fearless flyers used their specially armored Fw 190As to engage bombers from the rear at close range. This limited edition **kit features** additional armor-plated fuselage parts, bulletproof canopy parts and three marking options: 1. Luftwaffe Sturmstaffel 1, Major Erwin Bacsila, white-7, Germany, January 1944; 2. Luftwaffe Sturmstaffel 1, Staffelkapitän Major Hans-Günther von Kornatzki, white-20, Germany, March 1944 and 3. Luftwaffe Sturmstaffel 1, white-2, Germany, February 1944.

-------	----------------------------	-----------------	---------------

1/48 SCALE P-40E/K WARHAWK "FLYING TIGERS"

Armed to the teeth, for Allied air support.

Perhaps more famous as the "Flying Tigers," the 23rd Fighter Group flew P-40 Warhawks adorned with distinctive "Shark Teeth" nose art. Colonel Robert L. Scott earned ten "kills" as a Flying Tiger, noted in his 1943 autobiography, "God is My Co-Pilot." This limited edition **kit features** new short tail parts, new exhaust pipe parts and two marking options: 1. P-40E: U.S.A.A.F. 23rd F.G. CO Col. Robert L. Scott, Code: 7, China, September 1942 and 2. P-40K: U.S.A.A.F. 23rd F.G. 76th F.S. CO Maj. "Grant" Mahony, Code: 111, China, Spring 1943.

09966 HSGS9966 (Limited Edition) Total parts: 109 Skill level 3

1/48 SCALE HURRICANE MK.IIC

"KING'S CUP AIR RACE"

Ready to capture the King's Cup.

First held on September 8, 1922, the 810-mile King's Cup Race started at the Croydon Aerodrome, progressing to Glasgow, Scotland and back. The race was put on hiatus during World War II. Ironically enough, many World War II aircraft were modified into racing planes. The Hawker Hurricane Mk. IIC was no exception, participating in many King's Cup Races after resuming in 1949. This limited edition **kit features** new metal exhaust pipe parts and two marking options: 1. King's Cup Air Race, 99: G-AMAU, 1951 and 2. King's Cup Air Race, 41: G-AMAU, 1950.

Plastic Models

AMT® 1/25 Scale 1976 AMC® Gremlin X

Direct from the AMT archives.

The '76 Gremlin X was one of the hippest hatchbacks of the 1970s, offering a stretched hexagonal grille and finned front fenders. The "X" version added striped interior trim and a spare tire cover. This Original Art™ Series **kit features** a choice of a stock or drag versions; all the original parts; all-new pad-printed rubber slicks; assorted clear, smoke-tint and chrome parts; an expanded decal sheet with multiple stripe colors; a deluxe box featuring original packaging artwork and a bonus 11" x 14" (279 mm x 356 mm) art print.

AMT690 AMTS0690 Skill level 2

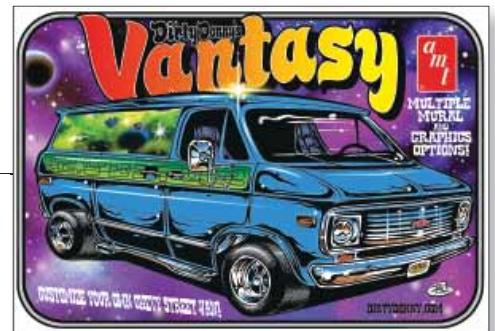

AMT® 1/25 Scale "Dirty Donny" Vantasy Chevy® Van

Groovy fun for the Kustom Culture crowd.

Born on March 4, 1974, "Dirty Donny" Gillies is one of today's most talented pin-striping and Kustom Culture artists. His funky style made him a legend in the skateboarding and music worlds. Gillies' artwork can be seen on hot rods, album covers – even toys and pinball machines! **Kit features** an extensive array of custom clear and chrome parts, five different mural decal options designed by Gillies, multiple graphics options, packaging artwork designed by Gillies and a bonus reprinted "Car Kulture Deluxe" magazine article spotlighting "Dirty Donny."

AMT691 AMTS0691 Skill level 2

AMT® 1/650 Scale Star Trek® Klingon® Battle Cruiser

A can't-miss collectible for true Trekkies!

The Klingon Battle Cruiser is one of the most iconic ships ever created for Star Trek. The Klingon D7 made its debut in episode #68, "Elaan of Troyius." Designed by Matt Jeffries, the Klingon battle cruiser's distinctive appearance was inspired by manta rays. Today, the original model can be seen at the Smithsonian's National Air and Space Museum in Washington D.C. **Kit features** plastic parts molded in green and chrome, newly revised kit parts for added accuracy, an expanded decal sheet with window decals and a ball-jointed, dome-shaped display base.

AMT720 AMTS0720

Skill level 2

Dragon® 1/144 Scale North American X-15 Twin Pack

Supersonic speeds. Stratospheric adventure.

Introduced in 1959, the X-15 still holds the record as the fastest manned rocket-powered aircraft, delivering speeds of Mach 6.32 (7,274 km/h)! This **kit combo features** two kits with newly tooled one-piece cylindrical fuselages and faux metal skins, XLR11 rocket engines, undercarriages for taxiing configurations, adjustable dorsal wedge-fin stabilizers, instrument panels with airspeed heads, lower fins which can be "folded" or "extended," transparent canopies, landing skids with the choice of "folded" or "extended" positions, detailed nose-wheel carriages with a choice of "flying" or "landing" modes and U.S. Air Force markings.

4631 DMLS4631 (Includes 2 kits)

Dragon® 1/72 Scale Hummel Late Production (Armor Pro Series)

The Nazis' self-propelled "Bumble Bee."

The Hummel was developed in 1942 to satisfy Germany's need for a self-propelled gun platform. Later versions were modified with hatches to seat the driver and radio operator. **Kit features** a newly tooled front superstructure, posable hatches, a detailed 15 cm Howitzer, an elevating 15 cm gun can traverse, a gun travel lock with "travel" and "combat" modes, a new sprocket wheel, new one-piece return rollers, a choice of photo-etched or newly-tooled plastic hull-side air intake louver covers, separate road wheel hubs, one-piece tracks and six decal marking options.

7301 DMLS7301

Minicraft® Models 1/72 Scale PV-1 Ventura™ (Lend-Lease Export)

The Allies' patrol-bombing behemoth.

Built for the Allies by the Vega Aircraft Company, production for the PV-1 Ventura began in 1940. The U.S. Navy received its first shipment of this highly effective, long-range maritime patrol bomber two years later. It became a pilot favorite within months. Soon, British Commonwealth units – including Canada and South Africa – were receiving their own PV-1s via the Lend-Lease Act. The PV-1's increased fuel capacity and ASD-1 search radar contributed to the aircraft's overall success during WWII. **Kit features** markings for Royal Air Force and Royal Canadian Air Force versions.

11661 MMIS1661

Minicraft® Models 1/144 Scale B-52H U.S.A.F. (Modernized)

The bomber with turbofan-powered precision.

Introduced in 1961, the B-52H boasts extensive enhancements over previous versions. B-52Hs are equipped with Pratt & Whitney® TF33-P-3 turbofan engines, which deliver improved performance and fuel economy. B-52Hs can also carry up to four GAM-87 Skybolt ballistic missiles. Today, 94 B-52Hs are still in use with the U.S. Air Force, who plans to continue using them until 2045. **Kit features** the modernized B-52H with electronic countermeasures, low-light vision enhancements, additional antennae, posable flaps, posable landing gear (up or down) and new decals representing two different B-52s currently in production.

14641 MMIS4641

Minicraft® Models 1/144 Scale Hawker® Sea Harrier

The subsonic star of the Falklands War.

When the Sea Harrier was introduced in 1978, it marked a leap forward in the evolution of the innovative Hawker Siddeley Harrier. This V/STOL jet was developed especially for use with the Royal Navy's then-new Invincible-class aircraft carriers. By 1982, it was the primary form of air defense in the Falklands War. Sea Harriers shot down twenty Argentine aircraft in the conflict, with no air-to-air losses. **Kit features** positionable landing gear and two decal marking options for Royal Navy and RAF aircraft used during the Falklands War with Argentina.

14647 MMIS4647

Minicraft® Models 1/144 Scale Nakajima Ki-44 Shoki (Dragon), Code Name "Tojo"

Intercept Allied advances.

The Nakajima Ki-44 contributed to countless Imperial Japanese Army victories during WWII. With its exceptional climbing and diving abilities, the Ki-44 was a highly effective interceptor. A 370 mph (600 km/h) top speed helped it stand up against larger aircraft like the B-29 Superfortress. **Kit features** posable landing gear, which allows you to pose the model on the ground or "in flight," plus two marking options, including an Imperial Japanese Army fighter-interceptor and a "special operations" Ki-44 used as a kamikaze weapon used against warships in the Sea of Japan.

14656 MMIS4656

Minicraft® Models 1/144 Scale F-14A Tomcat®

Heavily armed, for tactile tactical recon.

The F-14 Tomcat has served many roles over its nearly 40-year run as the world's premier variable sweep wing fighter. One of the F-14's most significant uses was as a tactical reconnaissance aircraft. 65 F-14As were equipped with the Tactical Airborne Reconnaissance Pod System. Although the U.S. Navy retired the F-14 in 2006, it is still used by the Iranian Air Force. **Kit features** posable variable-sweep wings, movable landing gear (which can be positioned "up" or "down") and markings for one U.S. Navy aircraft and one Iranian Air Force F-14A.

14657 MMIS4657

Minicraft® Models 1/144 Scale Eastern Airlines L-188 Electra

Filled with turboprop-powered potential.

The L-188 Electra made its debut in 1958 as the U.S.' first large turboprop airliner designed for commercial travel. Eastern Airlines was among the first major airlines to add the L-188 to their fleet, and it entered service the following year. While its career as a front-line airliner was cut short by the introduction of turbojet airliners, the L-188's fuselage design served as the basis for the Lockheed® P-3 Orion. **Kit features** positionable landing gear and markings representing Eastern Airlines' distinguished "Hockey Stick" livery.

14661 MMIS4661

Minicraft® Models 1/144 Scale PB4Y-1 Liberator

Terminate targets with all-out precision.

The PB4Y-1 was a specially modified version of WWII's celebrated Consolidated B-24 Liberator, designed for long-range anti-submarine patrols. Many early models were equipped with an ERCO (Engineering and Research Company) turret, while later models featured a bow turret. In all, the U.S. Navy operated approximately 1,000 PB4Y-1s during WWII. Many remained in use following WWII's end. **Kit features** new tooling representing an early WWII Liberator, as well as U.S. Navy and RAF decal markings.

14664 MMIS4664

Moebius® Models 1/32 Scale Battlestar Galactica® Cylon Raider

Crush Commander Adama's crew!

Featured in the 2003-2009 reboot of "Battlestar Galactica," the Cylon Raider isn't just an enemy attack fighter. It's a living creature that's capable of regeneration if it crashes or gets destroyed in combat. Cylon Raiders are also equipped with "Faster-Than-Light" (FTL) propulsion drives for instant intergalactic travel. Raiders can protect themselves from enemy attacks with kinetic energy weapons and nuclear missiles. **Kit features** a 1/32 scale size (to match the Moebius 1/32 Viper kits), grey plastic molding, a clear Cylon eye and a display base.

926 MOES0926 Total parts: 21

MPC® 1/12 Scale Strange Change™ Mummy

Changes from "dead" to "living dead" with a flip of the lid.

Mummies have fascinated fans of the mysterious and macabre for centuries. When most people think of mummies, they usually think of King Tut, or remember the classic creature feature starring Boris Karloff and a roll of bandages. Ask an expert, however, and you'll soon realize mummies are something much more important... a priceless peek into the past. This limited-run **kit features** finely molded details, beige plastic molding and scary "Strange Change" action – open the sarcophagus to see the mummy at rest; open it again, and you'll see that the mummy has come to life!

MPC755/12 MPCS0755 (Limited Edition) Skill level 2

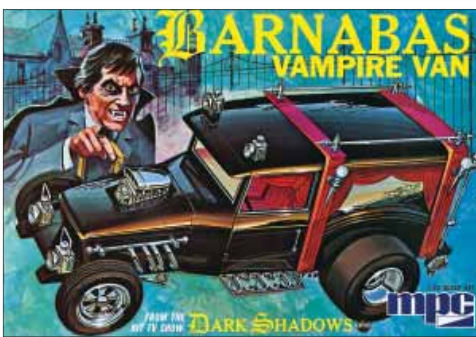

MPC® 1/12 Scale Strange Change™ Vampire

Do the Transylvania Twist!

They've been feared for centuries, but vampires are now more popular than ever. Since "Dracula" was published in 1897, there have been countless novels, plays and films featuring vampires, ranging from the Universal® horror films of the '30s and '40s to today's teen sensation "Twilight." It seems that people just can't quench their thirst for these terrifying blood-suckers! This limited-run **kit features** finely molded details, beige plastic molding and scary "Strange Change" action – open the coffin to find a skeleton; open it again, and you'll find a vampire that's come back to life!

MPC756/12 MPCS0756 (Limited Edition) Skill level 2

MPC® 1/25 Scale Dark Shadows Barnabas Vampire Van

Molded with mounds of macabre detail.

"Dark Shadows," which aired from 1966-1971, starred Jonathan Frid as the lovesick vampire Barnabas Collins. The show's popularity endures today, thanks to reruns and DVDs. DVD sales have proved so popular that a 2012 film version is being produced. Tim Burton's revamp will star Johnny Depp as Barnabas. **Kit features** a coffin-styled engine compartment with chrome handles, an ornate roof rack, side torch lights, curtained windows, a coffin trailer, huge M & H drag slicks with pad-printed lettering, a 1/25 scale Barnabas figure and collectible packaging with original box art.

MPC763 MPCS0763 Skill level 3

MPC® 1/16 Scale Street Charger

Big. Bold. Beautiful.

The early '70s spawned a slew of muscle cars. Few were as fun to drive as the Dodge® Charger®. Third-generation models were distinguished by a rounded body and a split grille. Available options included a rear spoiler, a "Ramcharger" hood with air scoop and hidden headlights. This limited-production **kit features** a fully blown and injected engine with ignition, fuel lines and oil lines; a racing-inspired suspension; a removable hood; posable front steering; a detailed interior; hollow vinyl tires; chrome slotted mag wheels and custom stripe decals.

MPC768 MPCS0768 (Limited Edition) Skill level 3

Trumpeter® 1/48 Scale Messerschmitt Me 509

An unrealized piece of WWII history.

Based on the Messerschmitt 309, the 509 placed its engine behind the cockpit, much like the P-39 Airacobra. A 1,455 hp Daimler-Benz DB 605B engine – the same power plant used on the Bf 109, Bf 110 and Me 210C – propelled the Me 509 to 470 mph (760 km/h) speeds. Weapons consisted of twin 13 mm MG 131 machine guns and twin 20 mm MG 151/20 cannons. **Kit features** new tooling, a detailed fuselage and wing with finely engraved panel lines, clear parts, photo-etched parts and decal markings.

Length: 8.1 in (206 mm)
Wingspan: 9.3 in (235 mm)

Unimax® Forces of Valor® 1/72 Scale U.S. M4A1 Sherman

Advance with Allied authority.

Although production of the M4 Sherman began in 1941, its tough, tenacious chassis influenced subsequent armored vehicles such as self-propelled artillery, tank destroyers and tank retrievers. Over 50,000 were produced, and it continued to be used in combat and training exercises throughout the Korean War, the Arab-Israeli Wars, the Indo-Pakistani Wars and beyond, well into the late 20th century. **Kit features** extensive, authentic details. Requires modeling glue and paint.
