NISSAN GT-R

1/10 SCALE NITRO 4WD READY-TO-RUN

A scale beauty — and performance beast.

The real Nissan GT-R tops 190 mph and goes from zero to 60 in just over three seconds — which explains the “super” in supercar. That’s also a good word for this officially licensed R/C version. Durable and ready-to-run, it’s a sweet on-road machine even for non-modelers. Check out the chassis and you’ll find the kind of equipment that gets hard-core racers excited, too — like an easy-to-adjust pillow ball front suspension and 2-speed transmission with adjustable shift point.

DTXD51RR Nissan GT-R 1/10 4WD Nitro 2.4GHz RTR-Solid Red

Length: 17.3 in (440 mm)
Width: 8.5 in (215 mm)
Height: 5.3 in (135 mm)
Weight: 4.1 lb (1.86 kg)

From the Experts:

Here’s an opportunity to satisfy your need for speed with officially licensed style! This Nissan GT-R on-road machine comes ready to run, complete with an ST18-S nitro engine with dual chamber tuned pipe and a 2.4GHz radio system. The strong, lightweight aluminum chassis is loaded with quality components for exhilarating performance. And the famous Stress-Tech Guarantee lets you drive with confidence!

Long story short...

The Nissan GT-R complements your driving skills with scale detail and awesome speed, acceleration and handling!

Welcome Screen

The Welcome Screen allows you to quickly and easily view or select aircraft, flying sites, recently viewed selections, training videos and a rotating Tip of the Day.

Other RealFlight 6.5 enhancements:

- Modify graphics settings using a slider and see the results immediately
- Smart binocular vision — activates when your aircraft reaches a set distance, and fades away when not needed

From the Experts:

Every year RealFlight is far and away R/C's best-selling flight simulator — and every year it just keeps getting better! RealFlight 6.5 has even more going for it, starting with the impact of TrueView lighting that adds sharpness and detail to every aircraft and flying site. A Welcome Screen eases you into your options after startup. And all of the extraordinary features and functions that have made RealFlight so popular are all still here!

Long story short...

RealFlight 6.5 takes flight sim realism to new heights!

UNIQUE, INNOVATIVE — AND THE ULTIMATE IN FUN!

- 4 independently controlled rotor blades make the 1SQ incredibly easy to fly
- TAGs Triple Axis Gyro stabilization — total control in all conditions
- Can be flown in any room, or outdoors in light winds
- Molded plastic parts and composite materials make the 1SQ very durable
- Available Transmitter-Ready as well as Ready-To-Fly

The 2.4GHz radio included with the RTF version features selectable beginner and expert modes that let you start flying at the level you're most comfortable with. Both versions come with a 1S 250mAh LiPo flight battery, USB-compatible charger and an extra set of blades.

HMXE0834 1SQ Quadcopter RTF
HMXE0835 1SQ Quadcopter Tx-R
Length: 5.7 in (145 mm)
Width: 5.7 in (145 mm)
Height: 1.37 in (35 mm)
Weight w/battery: 1.1 oz (31.2 g)
Blade Length: 2.16 in (55 mm)
Tx-R Requires: 6-channel heli transmitter with SLT or compatible with AnyLink

Taking quad rotor flight to a new dimension!
 The TAGs 3-axis gyro system stabilizes all three axes, so external forces will not adversely affect performance. When combined with the 1SQ's four independently controlled rotor blades you have a machine so stable anyone can fly it!

Fly this quadcopter with your favorite transmitter!

The AnyLink Radio Adapter (available separately) is compatible with virtually all transmitters, regardless of brand, band or modulation, and allows you to fly any Tx-R aircraft with the transmitter you like best — yours.

From the Experts:

The 1SQ's compact size is just one way in which this quadcopter stands out. 4 independently controlled rotor blades, combined with a 3-axis gyro system, make this machine so stable anyone can fly it. It's very durable, capable of outdoor flight in light winds, and both versions come with a LiPo flight battery, charger and extra blades.

Long story short...

The 1SQ Quadcopter may be palm-sized, but it promises big indoor fun!

THE MOST ADVANCED COMPACT HELIS EVER!

Heli-Max®

Axe 100 machines boast state-of-the-art technology far and above that of similar-sized helis. They're the first Heli-Max models that are SLT-compatible, which means you can fly the Transmitter-Ready (Tx-R) versions with your favorite radio and AnyLink! Or if you prefer, you can opt for the convenience of the Ready-To-Fly (RTF) helis with radio included.

The innovation found on these helis is amazing!

- Flybarless head
- Triple Axis Gyro Stabilization
- Rotary-drive micro servos

- A collective pitch rotor head for optimum 3D capability
- Fully aerobatic flight indoors or out

HMXE0820 Axe 100 CP Electric Flybarless Heli RTF
 HMXE0821 Axe 100 CP Electric Flybarless Heli Tx-R
 Rotor Diameter: 9.5 in (241 mm)

The RTF includes this 6-channel computer transmitter with SLT. It features programmable pitch, and throttle curves, dual rates, 10 model memory and more.

- More agility than a coaxial design = more fun
- Fixed pitch rotor head adds confidence-building stability

HMXE0815 Axe 100 FP Electric Flybarless Heli RTF
 HMXE0816 Axe 100 FP Electric Flybarless Heli Tx-R
 Rotor Diameter: 9.4 in (239 mm)

- Realistic heli looks with a full fuselage
- Stable flight with a fixed pitch rotor head
- The unique battery compartment allows for easy access and preserves the MD-530's scale appearance

HMXE0813 Axe 100 MD-530 FP Electric Flybarless Heli RTF
 HMXE0814 Axe 100 MD-530 FP Electric Flybarless Heli Tx-R
 Rotor Diameter: 9.4 in (239 mm)

The Axe 100 FP and MD-530 both include a 4-channel 2.4GHz system. A USB-compatible battery charger and flight battery are included with both Tx-R and RTF versions.

All of these Axe helis share amazing cutting-edge features

Heli-Max has already installed the ideal on-board equipment for the Axe 100Tx-R versions, including an SLT receiver compatible with AnyLink. Simply add your transmitter, the AnyLink adapter and you're good to go!

TAGS goes beyond a single-axis gyro, giving stability to the yaw, roll and pitch axes. Once you've experienced TAGS, you won't want to fly without it!

The flybarless head offers a wider flight envelope, with a low parts count that makes it more durable and more efficient than a flybar design.

Encased rotary drive servos offer unmatched precision, feel and durability.

China Patent Number 201010559370. Other worldwide patents pending.

STEP UP IN SIMPLICITY, STYLE AND SIZE!

- Offers "bigger-is-better" performance and easier-than-average assembly
- Simple 4-channel design makes radio setup a snap
- Wings and horizontal stabilizers feature pre-hinged surfaces and joiner tubes
- Hatch, painted pilot figure and canopy are already assembled for instant installation
- Features factory-applied MonoKote covering, aluminum gear and spinner

Revolver[™] 50cc

Almost-Ready-to-Fly Gas Sport Plane

Attachment and removal of the wings and stabs is streamlined by the joiner tubes and screws — a huge aid in transportation and storage.

GPMA1425 Revolver 50 cc Gas Sport Plane ARF
Wingspan: 90 in (2285 mm)
Wing Area: 1303 in² (84 dm²)
Weight: 19.5-20.5 lb (8.84-9.30 kg)
Wing Loading: 34-36 oz/ft² (104-110 g/dm²)
Length: 82.5 in (2095 mm)

From the Experts:

With its impressive dimensions and racy good looks, the Revolver 50 cc is a sure-fire standout — and it's also easy to get airborne. A simple 4-channel design, self-aligning wings and stabs, pre-hinged ailerons and elevators and pre-painted fiberglass parts are just some of the time-savers you'll find. And in the air, the Revolver 50 cc's "big-plane" presence enhances its aerobatic agility.

Long story short...

The Revolver 50 cc assembles and handles as easily as a .40- or .60-size ARF — and blows away smaller models with its appearance and 7-1/2' wingspan!

ENJOY EXCEPTIONAL PERFORMANCE RIGHT NOW!

RAPTOR[®] E550S

Almost-Ready-to-Fly Electric 3D Heli

- 2-piece carbon fiber airframe
- 1150kV brushless motor, 80A brushless ESC
- TG7200 heading lock gyro
- High-torque, metal-gear cyclic servos
- DS0606n digital tail servo
- Belt-driven tail rotor
- High-performance 550 mm carbon fiber main blades
- Lightweight tail boom supports
- Metal tail boom clamp
- Low-profile nylon landing gear

TTRE0030 Raptor E550S Electric 3D Heli ARF
Main Rotor Diameter: 49 in (1245 mm)
Tail Rotor Diameter: 9.33 in (2376 mm)
Gear Ratio: 1:8, 5:4.56
Length: 45.27 in (1150 mm)
Width: 5.5 in (140 mm)
Height: 15.35 in (390 mm)
RTF Weight: 5.8 lb (2.65 kg)
Battery: 5S-6S LiPo (3.7 – 5.0 Ah)

The 140° eCCPM rotor head delivers performance that is both precise and responsive.

From the Experts:

The E550S is designed for top-notch performance and amazing ease for the pilot. It's ease that goes beyond factory assembly; it also includes factory-installation of advanced electronics and a brushless power system, as well as testing and factory adjustment. Just add your radio and go!

Long story short...

Get off to a fast start in cutting-edge performance with the heli designed to deliver: the E550S!

A SHORT COURSE BUGGY WITH A WINNING PEDIGREE

1/10 SC10B RS 2WD Electric Buggy RTR

- Water-resistant XP brushless ESC with reverse and LiPo low-voltage cutoff
- XP 2.4GHz radio system with metal gear steering servo
- Powerful Reedy 3300kV brushless motor
- Heavy-duty sealed differential
- KMC® replica hex wheels with aggressive short-course racing tires
- Blue anodized aluminum V2 coil-over shocks
- Molded composite chassis with straps that accommodates NiMH or LiPo batteries
- Realistic front and rear bumpers

The SC10B RS comes factory finished with a pro buggy body and full roll cage with integral nerf bars. Window nets and a detailed driver figure add realism to the detailed cockpit.

ASCD92 1/10 SC10B RS 2WD Electric Buggy RTR**
Length: 18.9 in (479 mm)
Width: 11.5 in (293 mm)
Weight: 4 lb (1818 g)
Wheelbase: 12.7 in (324 mm)

Long story short...

Based on the National Champion SC10 truck chassis, the Ready-To-Run SC10B Race Spec EP Buggy adds a new dimension to short course racing.

THE NEW LEADER OF THE TRACK

1/10 B44.2 Factory Team 4WD Competition Buggy Kit

B44.2 FACTORY Team

- Factory Team 12 mm Big Bore hard-anodized aluminum threaded shocks
- 2.5 mm carbon-fiber chassis optimized for LiPo saddle packs
- VTS slipper clutch with high-rate spring
- Composite battery tray that allows for multiple battery positions with integrated spacers and quick-change straps
- Updated 3.5 mm front shock tower and 3.0 mm rear shock tower
- Factory Team 12 mm aluminum rear clamping hexes and rear hex wheels
- Front suspension arm updated for increased durability
- More rigid front top deck with locking antenna mount
- Blue aluminum cam-type motor mount for easier and more secure gear mesh adjustments
- JConcepts Finisher +8 mm body (clear)

One of the B44.2's biggest upgrades is the 12 mm Big Bore hard-anodized shocks. They feature threaded collars, machined aluminum shock caps with bleed screws, and TiN "Gold" 3 mm shock shafts. The end result is a plush ride that keeps the buggy's tires planted on the ground.

The updated 2.5 mm carbon-fiber chassis is 8 mm longer and 3 mm narrower, improving overall stability and handling. It also accommodates the new LiPo quick-change battery mounting system and VTS multi-plate slipper assembly.

ASCD9062 1/10 B44.2 Factory Team 4WD Competition Buggy Kit

Length: 14.9 in (378 mm)

Width: 9.9 in (250 mm)

Weight: 3.8* lb (1715* g)

Wheelbase: 11.2 in (284 mm)

*Final weight will vary with the electronics and tires used.

ae
TEAM ASSOCIATED

Long story short...

The B44.2 proves that Area 51 engineers have once again evolved this World- and National 4WD champion platform to keep it a winner!

MOVE UP TO THE NEXT LEVEL IN SPORT FLYING FUN

AVISTAR™
elite
Almost-Ready-To-Fly .46 GP/EP Advanced Trainer

**Ready for
glow or electric
power!**

- The patented EasyAlign system guides tail sections into place automatically. Just tighten the thumb screws by hand — no glue required!
- Built-up wood sections arrive expertly finished with MonoKote film
- High-wing design increases flight forgiveness, while the semi-symmetrical airfoil lets you perform aerobatics that flat-bottom airfoil trainers can't
- The flight battery or fuel tank fits easily into a large compartment with magnetic hatch
- Control hinges are pre-hinged, and this plane can be equipped with optional flaps
- Hardware is included to equip your Avistar Elite for glow or electric power

U.S. Patents #6,938,856 and #6,986,695

GPMA1005 Avistar Elite .46 GP/EP ARF

Wingspan: 62.5 in (1590 mm)

Length: 55 in (1395 mm)

Weight: 6.5 lb (2950 g)

From the Experts:

If you've learned basic flight skills, then the Avistar Elite .46 GP/EP ARF is the ideal next model for expanding into aerobatics. It's still very stable, yet capable of smooth sport maneuvers as well. And this ARF can be easily adapted to fly with a glow engine or with brushless electric power.

Long story short...

Glow/electric versatility and a wide performance envelope make the Avistar Elite .46 GP/EP ARF your best choice for expanding into aerobatics.

THE REINCARNATION OF A SHORT COURSE CHAMPION

DESC410Rv2

Vehicle shown with body — not included

A long list of significant upgrades:

- Molded composite shock towers, pre-load adjusters, wheel hexes, upper shock mounts and shock seal caps
- Center diff parts are now included
- 29 mm stroke front shocks replacing the 23 mm stroke versions
- Stylish white wheels
- Both small AND large bumpers are included
- Heavy-duty suspension arms
- Updated rear bulkheads and rear gear inserts

TDRC0131 DESC410Rv2 1/10 Scale 4WD EP
Short Course Truck Kit
Length: 21.7 in (550 mm)

From the Experts:

A new version of the 2011 RC Pro Series Champion and Top Qualifier at the 2011 ROAR Nationals, the DESC410Rv2 is lighter, more durable and easier to handle!

Long story short...

When you add the DESC410Rv2's upgrades to the original's performance package you have the premier short course competitor!

O.S.'S BIGGEST GAS POWER PLANT YET

GT60 Gas Engine

- Liner-less cylinder head contributes to better cooling and lighter weight
- Rear-mounted reed valve carb and custom-designed Walbro carb
- The IG-02 electronic ignition system can handle 4-6 cell NiCd/NiMH or 2-cell LiPo batteries
- Angled spark plug
- OSMG1561 comes with a Pitts-style E-6020 muffler with reinforced mounting bolt holes and webbing at high-stress points

OSMG1560 GT60 Gas Engine w/o Muffler
OSMG1561 GT60 Gas Engine w/E-6020 Muffler
Displacement: 3.656 cu in (59.91 cc)
Bore: 1.732 in (44.0 mm)
Stroke: 1.551 in (39.4 mm)
RPM Range: 1,600-8,000
Output: 6.00 hp/6.08 ps @ 8,000 rpm

From the Experts:

It's not only the biggest gas engine O.S. has ever offered, it's also the most advanced. The GT60 is O.S.'s first with liner-less construction, and the IG-02 electronics ignition delivers effortless starts with NiCd/NiMH or LiPo batteries. It's an immediate performance boost for your giant-scale aircraft!

Long story short...

Equip your large-scale plane with the powerful and efficient GT60 gas engine, and you'll move through maneuvers with ease!

O.S. ENGINE
UNEQUALLED QUALITY PRECISION & PERFORMANCE

THE NEXT GENERATION OF DIGGER DOMINATION HAS ARRIVED!

Son-uva Digger 2WD RTR

- New, officially-licensed body and graphics with blue bumper, skidplate, and spring accents bring the latest Monster Jam star to life!
- High-torque Titan 550 motor delivers wheelie-popping performance!
- Waterproof electronics for all-weather driving excitement in water, mud and snow
- New Monster Jam tires with realistic tread design and deep-dish wheels with beadlock detail
- A monstrous 4" of ground clearance keeps the Son-uva Digger going where other trucks can't
- Other performance features include a brushless-ready Magnum 272 transmission, Revo®-Spec Torque-Control™ slipper clutch, telescoping universal joint driveshafts and oil-filled Ultra Shocks™

30+ mph

*with included 7-cell battery and included optional 23-tooth pinion gear

New Race Replica styling, proven performance, and Traxxas-Tough durability make this the best Bandit yet!

THE NEXT GENERATION IN SENSORED BRUSHLESS POWER!

Redline Gen2 Sensored Brushless Motors

- CNC machined T-6061 billet aluminum heatsink can
- Neodymium sintered magnet
- High-purity copper windings for maximum conductivity
- Low-resistance, high-power solder tabs
- Dual-plug sensor wire harness
- Anodized endbell plates
- High-RPM precision bearings
- Rebuildable and adjustable

Visit www.GPDealer.com to see the complete listing of Redline Gen2 motors, rotors and motor parts

Long story short...

On-road or off, Redline Gen2 motors incorporate the latest technology to deliver the torque and RPMs that racers demand!

FEEL THE "PULSE" OF POWER WITH NOVAK'S NEWEST ESC/MOTOR COMBO

Novak Pulse ESC/Ballistic Motor Brushless Systems

- Features the sensor-based brushless Pulse ESC, designed to accommodate the demands of heavy-duty 2S LiPo racing applications
- Super-Tuner™ interface allows for easy, accurate on-board programming, with 5 customizable profiles
- X-Drive™ offers incredible smooth throttle response while maintaining connected and controlled feel
- Xtra-Timing™ advances electronic motor timing for warp speeds and unmatched power
- Systems include popular Ballistic sensored brushless motors with adjustable timing and interchangeable components

- NOVC3170 Pulse ESC/Vented Ballistic 550 4XSC Brushless System 4.5T
- NOVC3175 Pulse ESC/Ballistic 540 Racing Brushless System 6.5T
- NOVC3176 Pulse ESC/Ballistic 540 Racing Brushless System 10.5T
- NOVC3177 Pulse ESC/Ballistic 540 Racing Brushless System 17.5T
- NOVM1755 Pulse Racing Brushless ESC w/X-Drive

Long story short...

Teaming the rugged Pulse ESC with Ballistic motors is a sure-fire system for racing success!

DTXR1177
Wheel Nut Driver 17 mm

Duratrax® Wheel Nut Driver 17 mm

A valuable tool for every 1/8 racer's toolbox

- Hardened 17 mm socket fits most 1/8 scale wheel nuts
- Large ergonomic soft grip handle
- Easier to use than T-handle style wrenches
- Keep it in your pocket for quick access

TKPC8020
Vinyl Carb/Pipe Cover Assortment (8)

TrakPower Vinyl Carb/Pipe Cover Assortment (8)

Handy covers with a wide variety of uses

- Made of stretchable vinyl — assortment contains 2 each of 4 different sizes
- Great for carburetors, mufflers, pipes and tubes
- Helps prevent contaminants from getting inside the engine
- The smallest cap fits on TrakPower Pro and Duratrax Kwik-Pit fuel bottles

Get a bonus battery pack with this brushless beast!

The Brushless Evader 2.4GHz is everything a Ready-To-Run electric buggy should be: fast, durable, easy to maintain and fun to drive. And now you can also add "an even greater value" — because if you buy one by December 31, 2012, you'll also receive a FREE Duratrax NiMH battery!

Brushless Evader 2.4GHz EP Buggy RTR

Brushless power = blistering speeds
Secure control via the 2.4GHz radio system
Also features waterproof electronics, full ball bearings and much more!

AN UNPARALLELED SCALE SHORT COURSE RACER

1/8 Scale SC8.2e 4WD Race Truck RTR

Official R/C Car of the

When it comes to re-creating a short course experience, the SC8.2e is in a class of its own. It captures every detail of Robby Wood's Slick Mist truck that competes in the Lucas Oil Off-Road Racing Series — right down to the short course body with dirt shields, bumpers and mud flaps. And on the track, this truck delivers performance as real as its looks!

- Method® Race Wheels designed to fit most popular 1/10 scale short course racing tires
- Powerful Reedy 2000kV brushless motor and XP SC1300-BL brushless ESC with Deans® Ultra Plug®
- Updated RC8.2 racing suspension geometry
- Hard-anodized black 7075 aluminum chassis with keyed lower suspension plates
- Padded battery tray with 3 hook-and-loop straps that holds two 7.4V or one 14.8V battery pack
- Lightweight, durable 3.5 mm drivetrain
- 16 mm Big Bore molded composite shock bodies
- Low CG 3 mm thick 7075 aluminum shock towers
- Steel alloy turnbuckles

Give your SC8.2e the winning edge with a Reedy LiPo battery and charger!

Reedy 14.8V 5500mAh 60C LiPo Battery
Delivers high capacity for long run times, in a compact design with a molded hard case.

THE AX10 RIDGECREST: R/C'S CONSUMMATE CRAWLER

AX10 RIDGECREST™

Scale looks. Performance-driven components. The right mix of speed and crawling prowess. The AX10 Ridgecrest has it all, making it one of the most versatile trucks you'll ever drive. For exploring all of the various aspects of crawling, the Ready-To-Run AX10 Ridgecrest is a highly capable, affordable starting point.

- Tube-style chassis design
- WB8 Wild Boar™ splined driveshafts
- AR60 OCP-Axles™
- 4-link suspension
- High-performance shocks
- 2.2 Ripsaw™ tires mounted on 2.2 Raceline Renegade wheels

A 20T motor provides the power, and the AE-2 speed control is mounted vertically to help shield it from debris and water. The receiver for the AX-3 2.4GHz radio is protected inside a waterproof box. The battery tray adjusts to accept a number of configurations.

GET WITH THE WINNING TEAM: TEAM DURANGO!

Team Durango

How serious is Team Durango about winning? The proof is in the race results:

Serious About Racing

- Fine-tuning a vehicle is as critical to racing success as driving skill — and Team Durango vehicles are known for their high level of adjustability
- From shocks to motor positions, camber to caster, there are infinite ways to tweak TDR rides to match track conditions and maximize performance
- All TDR models are designed from the ground up to compete at the highest levels, with intense testing by top drivers and input from club racers around the world

“Team Durango has been selling extremely well to all level of drivers at our race shop. We are very excited to be featuring TDR vehicles and a top driver this month at our raceway.”

“I raced my DESC210 truck at the Wizard's Raceway event and took first place. After that I won on a carpet track with a DEX210 buggy straight out of the box. I just finished tuning a DESC410v2 kit and will be taking it out soon.”

— Caleb Hall
Fulton, NY

“TDR pretty much dominates the track at my shop. In the last two races I have beaten a top local driver — who just recently won the West Virginia state championship — twice with my Team Durango kit. Another friend who races Losi has been raving about how good the TDR vehicles are, and that they're now the ones to beat.”

— Ed Atkins
Ed's R/C

SNAPTITE® 1/25 SCALE HUMVEE

Snap together another Humvee for the U.S. Army today!

Highly mobile and extremely versatile, the Humvee is a powerful asset in the U.S. Army's arsenal. Originally, Humvees were designed to replace the Jeeps of WWII and Vietnam with a more reliable, purpose-built military vehicle. As the tactics of America's opponents have changed, so has the Humvee. Recently, many have been modified with armor and heavy weapons, such as the TOW missile launcher on this kit. This SnapTite **kit features** screw-on chassis, rolling wheels with metal axles and peel and stick decals with colorful graphics.

RMXS1970 85-1970 Total parts: 35 Skill level: 1 Length: 7.5 in (190 mm)

1/25 SCALE '57 FORD CUSTOM 2 'N 1 SPECIAL EDITION

Custom cruising in a classic car

Drag racers loved the '57 Ford Custom because it was a simple no-frills car that was easy to modify. Its long body and low-slung chassis made it perfect for short straight-course races. The exceptionally light 2-door model came with a 245 horsepower V-8 — more than enough power to boost the '57 to victory after victory. With racing slicks, the Custom could beat most cars of the day in straight drag. **Kit features** drag racing slicks and suspension plus separate frame member and bench style front seat.

RMXS4283 85-4283 Total parts: 129 Skill level: 3 Length: 8 in (203 mm)

1/25 SCALE SOX & MARTIN '67 PLYMOUTH GTX

Winner of five NHRA Championships

Ronnie Sox and Buddy Martin were two racers with some of the highest win totals in drag racing. They toured the country in their modified '67 Plymouth GTX winning races and visiting auto dealerships. In 1968 they won the Winter Nationals and the Spring Nationals while driving the car in this kit. Model is molded in white, transparent red and clear plastic with chrome details. **Kit features** detailed 426 CID Hemi with two four-barrel carburetors, separate hood scoop, Keystone mag wheels and decals with authentic racing graphics.

RMXS4916 85-4916 Total parts: 103 Skill level: 2 Length: 8 in (203 mm)

1/48 SCALE MIG-29 "FULCRUM"

Soviet Russia's answer to the F-15

Just before the collapse of the Soviet Union, Mikoyan produced the MiG-29—a light multi-purpose fighter intended to counter the American F-15. Dozens of other countries purchased this versatile fighter for their air forces. The aircraft can carry 7,720 lbs (3,500 kg) of munitions nearly 900 miles (1430 km). This **kit features** a detailed cockpit with pilot figure plus AA-10 and AA-8 missiles with separate launch rails. Decals are included for two versions: an early factory production Soviet Air Force MiG-29 and one for the Polish Air Force, 1st Squadron.

RMXS5865 85-5865 Total parts: 81 Skill level: 2 Length: 14.6 in (371 mm)

1/24 SCALE '93 MUSTANG® SVT COBRA®
High-Performance 3 door hatchback

Redefine performance with the 1/24 scale '93 Mustang SVT Cobra. The scale replica of the 240 horsepower 5.0 liter engine shows you the power that vaulted the Cobra from 0 to 60 mph (96.6 km/h) in six seconds. **Kit features** an authentic chassis molded from clear plastic, chrome plated parts and soft tires for a realistic look and feel. A separate instrument pod and driving lights let you custom-fit the Cobra's details to your own desires. Model also includes authentic factory stock detailing decals to spruce up your model.

MONS4013 85-4013 Total parts: 81 Skill level: 2 Length: 7.5 in (190 mm)

1/24 SCALE '92 FIREBIRD FORMULA ONE DREAM RIDE
A light and rocket-fast super car

To get the most speed out of every drop of gasoline, the engineers at GM designed a car with their most aerodynamic shape ever. The 225 horsepower engine powering this Formula One racer allowed it to burn through a quarter mile (0.4 km) in 15 seconds. It didn't take long for the classy '92 Firebird to become a true dream ride. **Kit features** a detailed engine with Tuned-Port injection system, full interior detail, separate rear spoiler, with chrome plated details and decals with factory stock and custom graphics.

MONS4012 85-4012 Total parts: 78 Skill level: 2 Length: 8 in (203 mm)

1/25 SCALE DODGE RAM VTS PICKUP
It ain't your gran' mamma's hay hauler

When Dodge introduced their first souped-up super truck in 1996, it blew people's hair back... literally. And of course, that's exactly what the designers expected when they lowered the frame, improved the suspension tuning and dropped in a V-10, 400 horsepower Viper engine. The result, although impractical, was impressive, with 0-60 mph (0-97 km/h) acceleration times of less than five seconds and a top speed of over 150 mph (241 km/h). **Kit features** a detailed 8.0 liter V-10 engine and drivetrain, folding tailgate, separate tonneau cover and authentic VTS decals.

MONS4017 85-4017 Total parts: 103 Skill level: 2 Length: 8 in (203 mm)

REVELL OF GERMANY® PLASTIC MODELS

1/35 SCALE SCHUTZENPANZER PUMA
The latest and greatest IFV of the German Army

When the Schützenpanzer Puma finishes military trials, it will be one of the most innovative infantry fighting vehicles in the world. The vehicle operates with a crew of three and has space for six passengers. Two interchangeable armor kits are meant to either shrug off projectiles or resist shaped charges. Combined with its versatile armament, this variable armor load makes the Puma perfect for performing a wide array of main-line battle and counter-insurgency missions. This **kit features** detailed surface structures, a rotating turret, smoke launchers, vinyl tracks, and decals.

RVLS3096 03096 Total parts: 177 Skill level: 4 Length: 8.5 in (215 mm)

1/72 SCALE BRUCKENLEGER PANZER BIBER/ATF DINGO

Providing the ultimate in combat mobility

The ATF Dingo is an all-terrain fighting vehicle designed for scouting and troop transport. The Biber carries a cantilevered bridge to ease obstacle crossings. Together they are the most highly mobile force in the German army. The Biber **kit features** movable hydraulic launching arms and injection-molded tracks. The Dingo 1 **kit features** drive line with mine deflector, gun mount with 3 weapons options and transparent window parts. Decal options include; Dingo 1: Einsatzvorbereitung ISAF and ISAF, Afghanistan 2006/2007, 2010/2011 Biber: Panzerpionierbataillon 803, 2. Kompanie, Havelberg, 390, Bad Salzungen and ISAF Afghanistan.

RVLS3192 03192 Total parts: 247 Skill level: 4 Length: 6.2 in (panzer)
3 in (dingo) (158/76 mm)

1/72 SCALE BAC CANBERRA PR.9

High and fast photo reconnaissance

This reconnaissance variant of the Canberra bomber was the Royal Air Force's first purpose-built recon aircraft. It was designed to keep an eye on developments in East Germany and the Soviet Union during the Cold War era. The plane was able to exceed the service ceiling of most interception craft of the day and speed away on dual jet engines. Many countries fielded the Canberra and it remained in service with the RAF until 2006.

Kit features structured surfaces, pilot figures and decal options for two RAF versions.

RVLS4281 04281 Total parts: 50 Skill level: 3 Wingspan: 11.3 in (286 mm)

1/48 SCALE DASSAULT RAFALE M FIGHTER

France's multi-role fighter of the future

After withdrawing from several international fighter production agreements, the French decided to design a fighter all their own, the Rafale. The Rafale's SPECTRA system sets the Rafale apart from other modern fighters by actively scanning for and negating threats to the aircraft. This **kit features** finely detailed surfaces, two-seat ejection seat, two pylons with six bombs, three external fuel tanks and decals to mark your fighter as M #15 Operation Harmattan Libya 2011, M #32 – first Rafale on Flottille 11F Feb. 2012, M #28 – DET CEPA July 2010.

RVLS4517 04517 Total parts: 204 Skill level: 5 Wingspan: 8.4 in (213 mm)

1/48 SCALE TA154 MISTEL AND FOCKE WULF FW 190

The original guided missile

Late in WWII, Nazi Germany developed a type of guided munitions known as the Mistel. The Nazis packed a bomber with high explosive, attached a fighter and flew the bomb to the target. Once over the target, the fighter would release the Mistel and pull away. Guidance systems had not yet been invented so, after release, the Mistel was extremely inaccurate. Because of inherent design flaws, only 200 Mistels were created before the surrender. **Kit features** parts to build a TA154 Mistel and Fw 190 with the "Beethoven" attaching system.

RVLS4824 04824 Total parts: 184 Skill level: 5 Wingspan: 8.6 in (219 mm)

1/144 SCALE AIRBUS A320 TURKISH AIRLINES

Travel in comfort and style

With a higher cruising speed than the Boeing 737, the A320 can get you from here to there faster. But that's not all. The A320 is also roomier, more fuel efficient and has lower emissions than the 737. Many airlines include the Airbus A320 in their fleets, including Turkish Airlines, which runs departure flights to 87 countries— more than any other single airline in the world. **Kit features** options for extended or retracted landing gear, highly detailed parts and authentic Turkish Airlines decals.

RVLS4861 04861 Total parts: 60 Skill level: 3 Wingspan: 10.3 in (261 mm)

1/700 SCALE HMS TIGER

Minotaur class light cruiser of the Cold War era

Originally designed as a light cruiser with semi-automatic 6 in (152 mm) guns, the Tiger was put on hold throughout World War II. In the 1960s, the ship was overhauled so it could combat submarine threats. The aft quarter of the ship was redesigned with a helicopter landing pad and hangars for 4 anti-submarine warfare helicopters. As part of this conversion, the ship was also upgraded to a command, control and communications vessel. This **kit features** a waterline hull, detailed structures, one helicopter, six lifeboats and authentic decals.

RVLS5116 05116 Total parts: 75 Skill level: 3 Length: 9.6 in (245 mm)

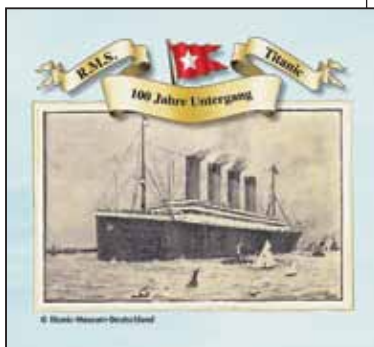

1/720 SCALE GERMAN HEAVY CRUISER ADMIRAL HIPPER

Named for the famous WWI Naval Commander

WWI was a disaster for the German Navy. Many ships were sunk, scuttled or became prize ships. By 1939, when the Admiral Hipper was commissioned, it was one of only three heavy cruisers in the German arsenal. The Hipper participated in several commerce raids against shipping in the North Sea, and the disastrous Battle of the Barents Sea. She was scuttled at her moorings in Kiel in 1945. This full-hull **kit features** a display stand, Arado 196 aircraft and two paint options: North Sea, 1940 or Atlantic Ocean, 1941.

RVLS5117 05117 Total parts: 74 Skill level: 3 Length: 11.6 in (295 mm)

1/700 SCALE RMS TITANIC

Never let go of the memories

When it was launched in 1911, the Titanic was the largest ship in the world. Three engines drove the 882 ft (269 m) luxury liner across the English Channel to Cherbourg, to Ireland and then across the Atlantic on her maiden voyage to New York. Near midnight on April 14, 1912, the ship struck an iceberg. Over the next two hours the ship sank, taking with it over 1,500 people. This hundredth anniversary **kit features** detailed hull and deck structures, lifeboats with hoists, display stand and decals.

RVLS5210 05210 Total parts: 132 Skill level: 3 Length: 15.2 in (385 mm)

1/288 SCALE BOEING 737-800 "EASY KIT"

Build the newest passenger plane from Boeing

Airlines the world over are switching to the Boeing 737-800 because it offers many improvements over the 737-400. Increased seating, 10% better fuel economy, 10% better air speed and 10% better range all combine to make it one of the best birds in the air. Most of the performance increases are due to the introduction of winglets— devices which lower drag on the wing tip. This easy to assemble **kit features** detailed structures and decals to mark your plane as part of the Air Berlin passenger liner service.

RVLS6647 06647 Total parts: 40 Skill level: 2 Wingspan: 4.8 in (123 mm)

1/24 SCALE BMW Z8

Classic styling with modern performance

Based on the classic style of the 1957 BMW 507, the BMW Z8 is the perfect blend of classic elegance, modern convenience and super-sport handling. This two-seater convertible is carried by a 4.9L V8 engine that powers the beast from 0-60 mph (0-100 km/h) in 4.7 seconds. The top speed of this Autobahn-ready car was so high that BMW engineers electronically limited its max speed to 155 MPH (250 km/h). **Kit features** a removable soft top, detailed interior and authentic decals.

RVLS7080 07080 Total parts: 69 Skill level: 3 Length: 7.2 in (184 mm)

1/24 SCALE FERRARI SA APERTA

The ultimate car for cruising around the Mediterranean

Eighty of these cars were produced to celebrate the 80th birthday of the designer, Pininfarina. This car was such a top performer that all 80 cars were sold before the launch date. Top speed on this sleek beast is 200 mph (325 km/h). This model reproduces, in faithful detail, the 670 horsepower engine, the leather interior and the exquisite body paneling. **Kit features** a detailed interior with dashboard and textured seats, movable hood, detailed 12 cylinder engine, movable wheels, steerable front axle and extensive decals with international markings.

RVLS7090 07090 Total parts: 128 Skill level: 3 Length: 7.7 in (196 mm)

1/24 SCALE MINI COOPER 998 MK. I

Small on the outside, roomy on the inside

In 1956, England began rationing gasoline in response to the Suez Crisis. In response, the British Motor Corporation introduced a small fuel-efficient car— the Mini—in 1959. At 10 feet (3 m) long and 4.6 feet (1.3 m) tall, the Mini was tiny. However, by inverting the engine set-up and angling the seats, the Mini was able to offer a full six foot (1.8 m) passenger cabin. **Kit features** fine surface details, separate movable hood, detailed 4-cylinder engine, separate exhaust assembly, detailed dashboard and authentic decals.

RVLS7092 07092 Total parts: 126 Skill level: 3 Length: 5 in (127 mm)

1/350 SCALE I.J.N. SUBMARINE DEPOT SHIP HEIAN MARU

From passenger liner to Pacific wreck.

The Heian Maru was originally built to be a passenger liner and cargo ship. Just before the outbreak of WWII, the ship was armed and became a submarine depot ship. For most of the war, the ship served as a transport and cargo ship. After being struck five times with explosive ordnance on February 17-18, the ship sank in Truk Lagoon. This limited edition **kit features** many new guns, boats and photo-etched accessories, plus decals to mark the ship as I.J.N. 1st/8th Submarine Fleet depot ship Heian Maru/Hie Maru 1942-1943.

HSGS0082 40082 Total parts: 360 Skill level: 3

1/72 SCALE EUROFIGHTER TYPHOON

Europe's collectively constructed fighter

Collaborative efforts between Germany, England and many other countries produced this fighter. Construction is split between all the partner nations to ensure that each craft is a true Eurofighter. One unique feature is a voice controlled system to reduce pilot workload. After decades of design, the Typhoon is quickly becoming a staple aircraft for many of the world's air forces. Now you can add this innovative plane to your air force! This limited edition **kit features** decal markings for R.A.F. No. 3(f) SQ. Code: QO-H; and German A.F. JG 74.

HSGS1570 01570 Total parts: 195 Skill level: 3

1/72 SCALE JAGUAR GR MK 2A BLACK COMBO

The only big cats capable of carrying a nuclear bomb 500 miles

Developed through collaboration between Britain and France, the Jaguar is a versatile weapons platform. Besides significant air-to-air and air-to-ground capability, the Jaguar can deploy a single tactical nuclear missile to any target within 560 miles (908 km). This capability has fortunately never been used. This kit lets you deploy two Jaguars for a realistic wingman-style layout. This limited edition **kit features** decal options for marking your Jaguar as: Jaguar GR Mk.1A: R.A.F. No.16 SQ. Code XX965 2010 or Jaguar T Mk.2A: R.A.F. No.6 SQ. Code: L:XX141 2009.

HSGS2008 02008 Total parts: 75/84 Skill level: 3

1/72 SCALE A6M2B/A6M5 ZERO FIGHTER COMBO

Flown by Japan's top ace, Tetsuzo Iwamoto

At the onset of WWII, the Zero was faster, more maneuverable and had a longer range than any other carrier-borne fighter craft. Aces like Tetsuzo Iwamoto flew these powerful aircraft to victories in China, New Britain and the Pacific. This limited edition **kit features** two zeroes with decal options for each including: I.J.N. 201st/253rd N.F.G. W.O. Codes: 1-102, 53-104 and 53-102; Rabaul Nov. 1943, Feb. 1944, and Jan-Feb. 1944. Also I.J.N. Carrier Zuikaku Nap 1/C Code: EI-102 Dec. 1941 and I.J.N. Oppama N.F.G. Nap 1/C Code: Ohi-101 Feb. 1943.

HSGS2009 02009 Total parts: 46/48 Skill level: 3

1/72 SCALE F/A-18F SUPER HORNET "VFA-32 SWORDSMEN"

"The Fighting 32"

The "Swordsmen" have participated in every major operation in the Gulf region since the Gulf of Sidra incident in 1989. The Super Hornets that they now fly are multi-purpose aircraft capable of filling escort, interception, ground attack and other roles formerly filled by half a dozen aircraft. A fully loaded Super Hornet can carry 17,750 lbs (8,050 kg) of ordnance over a combat radius of 450 miles (724 km). **Kit features** include decal options for U.S. Navy VFA-32 "Swordsmen" CAG Code: AC100 2010 or U.S. Navy VFA-32 "Swordsmen" CO Code: AC101.

HSGS2010 02010 Total parts: 121 Skill level: 3 Limited Edition Kit

1/72 SCALE F-14 TOMCAT "ACE COMBAT PUMPKIN FACE"

Easily the scariest Jack O' Lantern you will see this Halloween

With a total armament capacity of 14,500 lbs (6,600 kg) of ordnance, you might not want to get a candle too close to this Jack. The Tomcat has been a feature of many Ace Combat games because it is one of the most distinctive aircraft produced in the world since the '70s. In particular, the adjustable-position wings make it a unique aircraft. With this kit you can build an aircraft from the most recent "Ace" game. This limited edition **kit features** special decals for the Bandai-Namco game "Ace Combat 6."

HSGS5209 52109 Total parts: 176 Skill level: 3

SU-33 FLANKER-D EGG PLANE

Teach your grandmother about these Sukhoi egg fighters

Design your own Sukhoi Su-33 Flanker-D and decorate your potentially peeping pilot to perfection. Each egg-sceptionally awesome plane comes complete with everything you need to craft your own crate; just drop an egg in the cockpit! Why should you be scrambling to scramble a whole dozen of these fighters? Because the Sukhoi Su-33 was the most advanced Russian fighter ever built before the Soviet Union cracked. This **kit features** new tooling, decals and assembly instructions for crafting your plane.

HSGS6131 60131

MIKOYAN-15 EGG PLANE

The Soviet Union's embryonic jet design

Initial tests of the Mikoyan-15 were so successful that Stalin egged on the Soviet Aviation Minister to produce them in greater quantities. Soviet industry popped out a new airplane nearly every day, producing almost 18,000 units. In the skies above Korea, the swept-wing Mikoyan-15 was exceptionally good at poaching fixed-wing aircraft. Once the U.S. started to scramble advanced jet fighters of their own, however, the MiG-15 was suddenly toast. This **kit features** decals and instructions for assembling your very own MiG-15 egg plane.

HSGS6132 60132

HUGHES 500 EGG HELICOPTER

Egg-quipped with Grade "A" firepower

The Hughes 500 is a series of grade "A" helicopters used by multiple countries to keep opposing forces out of the hen house. The yolk is on anyone who thinks the small size of these helicopters makes them ineffective. More than one opponent has woken up and smelled the coffee when the TOW missiles on the Hughes 500 have buttered their bread. Given its incredible adaptable armament, it's no surprise so many militaries find that this helicopter suits their tastes. **Kit features** decals and assembly instructions.

HSGS6133 60133

HUGHES 300 EGG HELICOPTER

The best helicopter for picking up chicks

This feather-light two-seat helicopter is eggs-actly the kind of aircraft the military uses to train its hatching pilots. Its simple design and lack of eggs-terior armament make it easier to fly, so beginner pilots aren't as likely to crack under pressure. The design has been farmed out to dozens of users as a light utility helicopter. More advanced helis have caused the 300's production to go the way of the Dodo, but many air forces still have some of these roosting in storage. **Kit features** decals and assembly instructions.

HSGS6134 60134

1/48 SCALE KAWASAKI KI-45 "MANCHUKUO AIR CORPS"

Toryu "Dragon Slayers"

Twin engine fighters were designed to carry a heavy armament on long-range missions. They were clumsier than their single engine counterparts, but a 37 mm cannon made them highly effective against bombers. One of the air groups deployed by Japan shot down eight B-29s on its first mission. The Ki-45 took a heavy toll of bombers, ships and men before becoming obsolete as more single-engine fighters arrived with American carriers. This limited edition **kit features** decals for marking your craft as Manchoukuo Air Corps 3rd SQ. Kamikaze-Gou or Na-Gou.

HSGS7315 07315 Total parts: 162 Skill level: 3

1/48 SCALE MESSERSCHMITT BF 109E-4/7/B JABO

Flown by all Germany's most famous fighter pilots

When Germany revealed the first Bf 109 at the Berlin Olympics it was a symbol of the re-emerging power of the Reich. The aircraft used leading edge wing slats and numerous other never-before-seen techniques to develop the quickest, most maneuverable and toughest fighter around. These fighters were so superior to the Soviet planes that Jagdgeschwader (52) racked up 10,000 victories while flying the Bf 109. This limited edition **kit features** decal markings for Bf 109E-4/B: Luftwaffe Stab II./JG54 Code: <15+ Romania 1941, or Bf 109E-7/B: Luftwaffe 7/ZG1 Code: S9+DR Libya 1942.

HSGS7316 07316 Total parts: 68 Skill level: 3

1/48 SCALE JUNKER JU 87B STUKA DIVE BOMBER & SKID

Wailing death machines

Early Stukas mounted "Jericho Trumpet" sirens in front of the landing gear. As each Stuka went into its near-vertical attack dive, the sirens would shriek and add to the psychological effect of the dive bomber. Steep dive angles often caused pilots to black out, but innovative dive-brake technology pulled the planes out of the dive automatically. In occupied Norway, Stukas were often equipped with skids for ice and snow landings. This limited edition **kit features** new skids molded from resin. Included decals let you mark your craft as Ju 87B-2/U4.

HSGS7317 07317 Total parts: 94 Skill level: 3

Plastic Models

AMT® 1/25 Scale '69 Hurst Olds

Pinstriped for your pleasure

Hurst Performance parts were the 1960s' hottest aftermarket add-ons. It's no wonder Oldsmobile offered Hurst hop-ups in their most popular muscle cars. The 1969 Hurst Olds was the first to feature the classic Firefrost gold-on-white paint scheme. The 455 cu. in., 380 hp Rocket V-8 engine was housed in a functional "mailbox" fiberglass air scoop. Black pinstripes, applied by hand, complemented the Hurst Olds' signature design. **Kit features** a highly detailed chassis and engine, an authentic interior with Hurst shifter, optional engine parts, custom wheels and classic Hurst Olds markings.

AMT703 AMTS0703 Skill level: 2

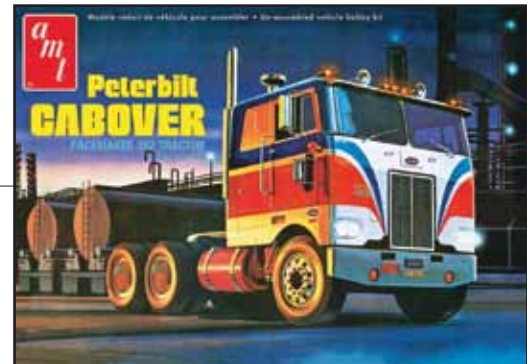

AMT® 1/25 Scale Peterbilt® Cabover Pacemaker 352 Tractor

Create your own convoy

Introduced in 1959, the Peterbilt 352 offered a tilting "Panoramic Saf-T-Cab" in place of the 351's non-tilting cabover. Ten years after its release, the 352 was nicknamed the "Pacemaker" by a Peterbilt employee. For his suggestion, the employee earned a new color TV – and bragging rights. **Kit features** a detailed heavy-duty chassis with dual-drive tandem rear axles, an authentic diesel engine, dual exhaust stacks, a tilting sleeper cab, ten hollow vinyl truck tires with plated forged disc wheels, chrome-plated accessories, original 1970s-era kit packaging and an expanded decal sheet.

AMT759 AMTS0759 Total parts: 250 Skill level: 2

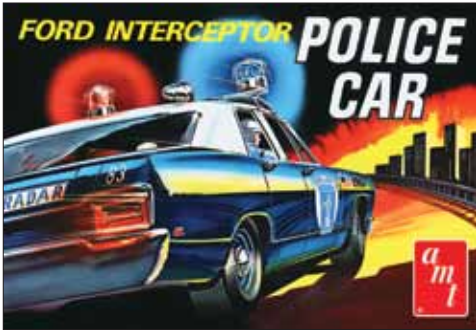

AMT® 1/48 Scale F/A-18A Hornet

Stun spectators with sorties

The F/A-18A Hornet was added to the U.S. Marine Corps' VMFA-323 "Death Rattlers" squadron in September of 1982. The squadron was deployed from the USS Coral Sea (CV-43) in October 1985. During the Gulf War, the Marine Corps deployed 84 Hornets; the U.S. Navy deployed 106. Today, the Marines have a fleet of 238 Hornets, while the Navy has 409. **Kit features** gray and clear plastic molding, assorted bombs and missiles, plus new decals with two marking options: 1. U.S. Marines "Death Rattlers" Squadron Commander and 2. U.S. Navy aircraft.

AMT779 AMTS0779 Total parts: 50 Skill level: 2

AMT® 1/25 Scale 1970 Ford® Galaxie Interceptor Police Car

Lay down the law in classic style

The first police cars were used in Akron, Ohio in 1899. It was an electric-powered wagon equipped with lights, a stretcher and gongs. While technology has changed over the past 113 years, the intent has stayed pretty much the same. Ford was the first brand to call their squad cars "Police Interceptors." One such example is the classic 1970 Ford Galaxie you see here. **Kit features** simplified assembly, a four-door police sedan body, police accessory parts, clear red and blue flashers, classic box artwork and decal markings.

AMT788

AMTS0788

Skill level: 2

AMT® 1/350 Scale Star Trek® U.S.S. Enterprise™ Registry Decals

Expand your options with markings for 14 ships

As "Star Trek" fans know, there were several other Constitution-Class starships besides the popular Starship Enterprise. Some of the more popular fan favorites include the U.S.S. Defiant (NCC-1764) from "The Tholian Web," the all-Vulcan U.S.S. Intrepid (NCC-1631) and the U.S.S. Lexington (NCC-1709) from the season two episode, "The Ultimate Computer." **Set includes** two 8" x 11.5" (203 mm x 292 mm) decal sheets with alternate registry names and numbers for fourteen different Constitution-Class ships, as well as "Mirror Universe" logos.

MKA010/12

AMTS9010

Airfix® 1/72 Scale RAF Red Arrows Gnat Starter Set

Ready for RAF action

The Red Arrows have been the Royal Air Force's premier aerobatics team since 1964. During the team's first fifteen years, the Folland Gnat was its aircraft of choice. The Gnat wasn't just cheaper than other fighters; it was the ideal trainer for pilots to perfect their flying skills. The aircraft was painted in a distinctive shade of red, as a way of honoring the RAF's popular Red Pelicans aerobatics display team. **Set features** an easy-to-build Folland Gnat plastic model kit, four acrylic paints, one paintbrush and model cement.

55105

ARXS5515

Skill level: 1

Airfix 1/72 Scale Red Arrows Hawk Medium Starter Set

Build a new Hawk for the RAF Aerobatic Display Team

Countries around the world have been astounded and entertained by the amazing aerobatics of the RAF Aerobatic Team. Their Hawk aircraft perform incredible stunts and maneuvers including their signature diamond nine formation. The Hawk has been the aircraft of the Red Arrows since they upgraded from the Gnat in 1979. This **kit features** everything you need to build the Red Arrows signature Hawk aircraft—even poly cement and you get six colors of acrylic paint and two brushes to make your plane just like theirs.

Airfix 1/72 Scale Vickers Valiant B.Mk1

Britain's first home grown strategic nuclear bomber

Powered by four jet engines, the Vickers Valiant was capable of carrying a massive load of conventional bombs or delivering strategic nuclear munitions out to a range of 4,500 miles (7,245 km). This made the Valiant an especially good nuclear deterrent because it could easily make the round trip from London to Moscow while carrying a 10,000 lb (4,500 kg) nuclear bomb. The Valiant became the first British bomber to deploy a nuclear weapon during a test drop in Australia in 1956. **Kit features** decals for a Vickers Valiant B.Mk1.

Moebius Mel's Drive-In HO Scale

Sink your teeth into some sixties nostalgia

Popular as places to hang out, eat and just generally have a good time, drive-ins are such a uniquely American experience that no vintage suburban layout is complete without it. Mel's Drive-In is the quintessential representation of America's infatuation with travel, cars and fast food. Many movies and television shows have scenes in or around one of Mel's many locations in California. This media presence and historical relevance make it one of the most culturally iconic buildings in America and a great addition to any suburban diorama.

MPC 1/25 Scale Monkeemobile

Monkey around with the Monkees

In 1967 The Monkees, a band from a TV show about kids trying to be like the Beatles, outsold the Beatles and the Rolling Stones. When the Monkees went out to rock, their souped-up Pontiac GTO rolled right along with them. This wheelie-popping, super-charged stretch muscle car toured with the band and appeared on the show for their first five years. **Kit features** a wild customized and stretched GTO body, blown engine, mag wheels, convertible top, mini display box, soft vinyl tires and decals with vintage art.

MPC 1/25 Scale Connie Kalitta's 1972 Mustang "Bounty Hunter"

Hunting down legendary race wins

With ten wins at NHRA national events, Conrad "Connie" Kalitta is rated as one of the top drivers in America by the National Hot Rod Association. He was inducted into the Motorsports Hall of Fame in 1992. His 1972 Mustang funny car, the "Bounty Hunter", is a fully blown, super-charged beast with racing slicks. Many of Kalitta's victories were won using this car in the mid '70s. **Kit features** vintage MPC tooling, detailed tubular chassis, fully blown engine and authentic "Bounty Hunter" water-release decals.

Tamiya 1/35 Scale Simca 5 Staff Car (German Army)

Fully detailed, with military mods

Designed by Fiat, the Simca 5 made its debut in March 1936. It was equipped with an independent front suspension and a four-speed transmission. During World War II, the German Army commandeered several Simca 5s during the occupation of France. Many were modified for use as military staff cars to transport personnel. Production ended shortly after WWII did; over 46,000 were built in all. **Kit features** a detailed front and rear suspension, a choice of "open" or "closed" doors, a German Army driver figure and three decal marking options.

Polar Lights® 1/350 Scale Star Trek® U.S.S. Enterprise™ NCC-1701

The most detailed Enterprise yet

It's hard to believe that the U.S.S. Enterprise has been taking its crew to strange new worlds since 1966! **Kit features** all-new tooling with details taken directly from the original filming miniature, extensive interior features (bridge detail, a hangar bay, Galileo shuttle and a domed display base with metal tube support), three window options (clear, milky white and dark tint), registry and marking decals, plus box art by illustrator Alex Ross. Sold separately, the **AMT Deluxe Accessory Set (AMTS9005)** adds a lighting kit, weathering decals and photo-etched parts for further customizing.
