PROUD BIRD™

EF1 Sport Racer ARF

RACE COURSE READY!

100+ mph!

www.gpdealer.com

www.gpdealer.com

Jim Allen — Team Futaba member, avid R/C pilot for nearly 30 years and designer of the Proud Bird EF1 Sport Racer ARF.

- All-white finish allows for total trim scheme customization
- All-wood, built-up airframe with fiberglass cowl and wheel pants
- Low parts count for fast, easy assembly

"Approved for NMPRA EF1 Class Racing"

GPMA1260 Proud Bird EF1 Sport Racer ARF
Wingspan: 51.9 in (1319 mm)
Wing Area: 388 in² (25 dm²)
Weight: 3.0-3.5 lb (1360-1590 g)
Wing Loading: 18-21 oz/ft² (55-64 g/dm²)
Length: 40 in (1015 mm)

The Proud Bird requires advanced flying skills and is not suitable for beginning or intermediate pilots. It reaches speeds over 100 mph (160 km/h) when equipped with the recommended racing power system, and should only be flown at an approved AMA flying site. Because it can quickly disappear from sight, pilots should remain focused on the plane at all times.

Shown with custom trim scheme; pilot figure shown not included.

From the Experts:

Designed by pro pylon racer Jim Allen, the Proud Bird EF1 is both a competitive EF1 class race plane AND a great everyday sport plane. It has the look of a speed demon, and backs it up with 100+ mph speeds when equipped with the recommended racing power system. But the Proud Bird also handles exceptionally well and can perform sport aerobatics on command.

Long story short...

Whether set up for speed racing or sport maneuvers, the versatile Proud Bird EF1 will tear holes in the sky!

THE PERFECT UPGRADE FOR READY-TO-RUN POWER SYSTEMS!

1/10 Scale and 1/8 Scale Brushless Systems

For years racers and bashers alike have counted on Onyx products for performance, reliability and value — and you'll find all of those same advantages in Onyx 1/10 and 1/8 scale Brushless Power Systems.

- Waterproof to protect it from the elements
- Pre-installed bullet connectors for quick and easy installation
- No soldering required

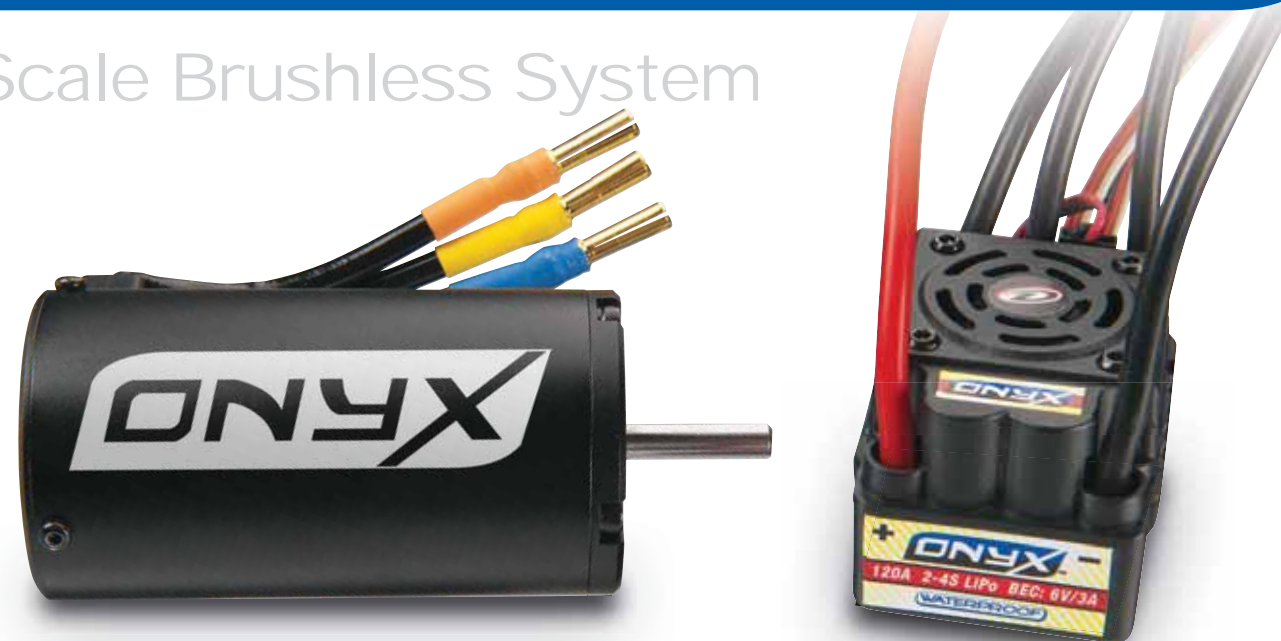

1/10 Scale Brushless System

Experience the many benefits of brushless!

- More power
- Exceptional speeds
- Greater efficiency
- Longer component life
- Less maintenance

1/8 Scale Brushless System

Onyx offers 1/10 scale systems in 5 different kV ratings, including two with 4-pole motors designed for short course trucks. Systems for 1/8 scale vehicles are available in two kV ratings.

DTXC3164 Onyx 1/10 Scale Brushless System 3930kV
 DTXC3165 Onyx 1/10 Scale Brushless System 4420kV
 DTXC3166 Onyx 1/10 Scale Brushless System 5900kV
 DTXC3172 Onyx 1/10 Scale Brushless SC System 3650kV
 DTXC3174 Onyx 1/10 Scale Brushless SC System 4550kV

DTXC3194 Onyx 1/8 Scale Brushless System 2200kV
 DTXC3195 Onyx 1/8 Scale Brushless System 2650kV

Using the optional Onyx Programming Card you can change settings for any of the Onyx Brushless Systems with just one button.

DTXM1352 Onyx ESC Programming Card

1 YEAR LIMITED WARRANTY
 U.S.A. and Canada only

From the Experts:

Whether you're upgrading an RTR brushless system or installing one in an electric kit, Onyx is the answer! Choose from many popular kV ratings of motors for 1/10 and 1/8 scale vehicles, including short course trucks. The ESC is fully programmable for easy tuning to specific driving styles, and it's also waterproof. The optional hand-held Programming Card simplifies programming and allows for quick parameter settings.

Long story short...

Brushless is the way to go — and Onyx is the way to go brushless!

READY-TO-RUN

2012 JEEP WRANGLER UNLIMITED RUBICON

1/10th SCALE ELECTRIC 4WD

Jeep

LICENSED PRODUCT

Jeep and related logos, vehicle model names and trade dresses are trademarks of Chrysler Group LLC and used under license by Axial R/C Inc. © Chrysler Group LLC 2012.

- 1/10 scale Jeep Wrangler Unlimited Rubicon body
- 4-link rear suspension, optimized to reduce axle steer and torque twist
- Officially licensed Poison Spyder Rock Brawler bumpers
- WB8 Wild Boar driveline system, as simple as it is durable
- Heavy-duty, one-piece diff locker made from sintered metal
- Powerful 27T motor

- Adjustable coil-over shocks, oil-filled with dual rate springs
- 2.4GHz radio with 3-channel receiver and digital metal-gear servo
- Electronics box protected from off-road dust and debris
- Compact, low-CG transmission allows for a wide range of gearing options

AXID9028 SCX10 Jeep Wrangler Unlimited Rubicon RTR
Length: 21.25 in (540 mm)
Width: 9 in (229 mm)
Height: 9 in (229 mm)
Weight: 4.65 lb (2.1 kg)
Wheelbase: 12.3 in (313 mm)
Ground Clearance: 2.7 in (68 mm)

From the Experts:
 Axial has joined forces with the most recognized name in off-roading - Jeep. The SCX10 Jeep Wrangler Unlimited Rubicon was designed to resemble its full sized "scale/1:1" counterpart. Axial really did their research with this vehicle by building a full scale version for testing, research and development. Axial wanted to make sure you'd get the best built SCX10, right out of the box.

Long story short...

Trail running with the SCX10 Jeep Wrangler Unlimited Rubicon is just about the most fun you can have off-roading!

S.E.5a

Micro WWI Park Flyer

RULE THE SKIES WITH THE LEGENDARY BRITISH S.E.5a!

www.gpdealer.com

www.gpdealer.com

Fly the Tx-R with your favorite transmitter!

TACJ2000 Tactic™ AnyLink™ 2.4GHz Adapter

The AnyLink Radio Adapter (available separately) is compatible with virtually all transmitters, regardless of brand, band or modulation. Before purchasing AnyLink, see the chart on Tx-ready.com to determine transmitter compatibility and requirements.

Tx-R™
TRANSMITTER-READY

Inside the box you'll find a preassembled S.E.5a Tx-R equipped with an SLT receiver, a LiPo flight battery, cordless DC charger and "AA" batteries.

- Start flying World War I missions in your backyard in just minutes!
- Scale details include a pilot figure*, replica Lewis machine gun, engine exhausts and authentic WWI trim
- A Tactic SLT receiver, servos and ESC are pre-installed
- Powered by a rechargeable 3.7V 140mAh LiPo flight battery
- A cordless DC LiPo charger and 5 "AA" batteries are included
- Also available in a RTF version with a 2.4GHz radio

*Requires installation and painting.

FLZA2050 Micro S.E.5a WWI RTF
 FLZA2052 Micro S.E.5a WWITx-R
 Wingspan: 14.3 in (363 mm)
 Length: 11.3 in (287 mm)
 Weight: 1.3 oz (37 g)
 RTF Requires: Nothing
 Tx-R Requires: AnyLink and compatible 3 - channel transmitter with SLT

From the Experts:

The S.E.5a played a vital role during the First World War, and the detail found on this micro-sized replica will have you feeling like you're defending European airspace — right in your own backyard! No assembly is required, so you'll be flying sorties in no time — with flight characteristics that are stable and predictable.

Long story short...

This S.E.5a is one of the most detailed WWI park flyers in the Flyzone hangar, and can be flown almost immediately, almost anywhere!

FLY A SPORT-SCALE REPLICA THE FAMOUS BENT-WING WARRIOR!

F4U CORSAIR

www.gpdealer.com

www.gpdealer.com

- LED navigation lights, rotating retracts, molded-in panel lines, a replica radial engine and a pilot figure add to the World War II realism
- Molded, factory-painted AeroCell foam sections assemble quickly without glue
- Available Ready-To-Fly or Transmitter-Ready, both versions including a brushless power system, five micro servos and an SLT receiver compatible with AnyLink

The F4U Corsair RTF comes with everything you need!

Inside the box you'll find a preassembled F4U Corsair RTF equipped with a 6-channel 2.4GHz Tactic transmitter, SLT receiver, LiPo flight battery, cordless DC charger and "AA" batteries.

Fly the F4U Corsair Tx-R with your favorite transmitter!

TACJ2000 Tactic™ AnyLink™ 2.4GHz Adapter

The AnyLink Radio Adapter (available separately) is compatible with virtually all transmitters, regardless of brand, band or modulation. Before purchasing AnyLink, see the chart on Tx-ready.com to determine transmitter compatibility and requirements.

FLZA4030 F4U Corsair Select Scale RTF
FLZA4032 F4U Corsair Select Scale Tx-R
Wingspan: 48.5 in (1230 mm)
Wing Area: 426 in² (27.5 dm²)
Weight: 48 oz (1360 g)
Wing Loading: 16 oz/ft² (49 g/dm²)
Length: 38.5 in (980 mm)
Tx-R Requires: AnyLink and compatible 5-channel transmitter, or a 6-channel Tactic 2.4GHz transmitter with SLT, 11.1V 2100mAh LiPo battery and compatible charger

From the Experts:

WWII's "Whistling Death" comes to life with this Select Scale model of the F4U Corsair! Working LED navigation lights and rotating retracts are just some of the details you'll find, and foam construction makes final assembly a breeze. Choose the RTF for all-in-one convenience, or use your favorite transmitter to pilot the Tx-R!

Long story short...

The Select Scale F4U Corsair is as authentic-looking as it is easy to fly, with scale touches that are add-on extras with other models!

TAKING THE NEXT STEP IN ON-ROAD RACING EXCELLENCE

RC10R5.1 Factory Team 1/10 Scale 2WD Electric Competition Kit

10R5.1 FACTORY Team

Shown with body not included.

- Dynamic front suspension features symmetric components with adjustable caster and track width
- Ultra-rigid 2.5mm thick carbon fiber chassis with integrated chassis-stiffening rails
- Centralized battery mounting position that fits ROAR-approved 3.7V and 7.4V LiPo battery packs
- Through-shaft center shock equalizes damping throughout the full stroke of the shock in both directions
- Wide 3-point upper pod plate, optimized for brushless motors
- Side damper tubes reduce friction for smoother rear pod movement
- Pivot-ball rear pod design with hard-anodized aluminum pivot balls

THE SURE-FIRE WAY TO MORE POWER AND GREATER SPEEDS!

12XZ Speed Spec III

- Weighs less than the Spec II, with a lower CG
- The head button's improved design means better performance and improved acceleration
- The cylinder liner's outer diameter is increased, resulting in redesigned port angles for better air/fuel flow
- The piston has been redesigned to work better with head button
- Delivers impressive speed and performance for competition-level nitro touring

OSMG1992 12XZ Speed Spec III

Displacement: 0.128 cu in (2.1 cc)

Bore: 0.543 in (13.8 mm)

Stroke: 0.55 in (14.0 mm)

Practical rpm: 5,000-44,000

Output: 1.73 hp @ 35,000 rpm

Weight: 7.9 oz (225 g)

Includes: 12F2(B) carb, RP6 glow plug, exhaust seal ring, dust cap set and 5.5mm red carb reducer

The engine that powered Takaaki Shimo to victory at the Japan Nats!

Long story short...

Equip your ride with the 12XZ Speed Spec III and get ready for faster lap times!

MORE MUSCLE FOR .46-SIZED AIRCRAFT!

55AX ABL 40K Carb E3071

- Fits the same mount and bolt pattern as the 46AX
- The angular head design adds good looks and significantly increases surface area for better cooling
- Straight and 90° muffler adapters are included — no expensive aftermarket mufflers required
- A diagonally placed needle eliminates the need for a remote needle valve

OSMG0557 55AX ABL 40K Carb E3071

Displacement: 0.545 cu in (8.93 cc)

Bore: 0.91 in (23 mm)

Stroke: 0.85 in (21.5 mm)

Practical RPM: 2,000 - 17,000rpm

Weight: 14.3 oz (404 g)

Includes: #8 glow plug, 40K carburetor, E-3071 muffler

Recommended Props: 11 x 6, 11 x 7, 12 x 6, 12 x 7, 13 x 6

Long story short...

Drop in a 55AX ABL and instantly boost your plane's performance!

SURE TO BECOME STAPLES IN YOUR WORKSHOP!

ePowerBox 30 30A AC Power Supply

- Ideal for aircraft and surface models alike
- Delivers the right amount of juice to Hitec H4, X4, X4 Eighty or any other DC charger
- Input voltage range of 100VAC to 240VAC, with adjustable output of 12-18VDC that provides up to 30 amps of current
- Backlit LCD screen displays both voltage and amperage output
- Dual 4mm output jacks

HRCP4174

X1 MF 80-Watt Multi-Function AC/DC Charger

- Very portable and economically priced
- Built-in motor RPM and servo tester
- Upgradeable firmware keeps you up to date as battery technologies evolve
- Rotary dial design for intuitive menu navigation and ease of operation
- Universal balancing board supports most batteries on the market

HRCP4176

H4 DC 4-Port Multicharger

- A compact, versatile charger that's a must-have for discerning modelers
- Works with all common battery types, including NiCd/NiMH, Lithium and lead acid chemistries
- Four 120-watt charging ports, each capable of delivering up to 8 amps of power
- Independent charging channels can be paired to provide two 240-watt charge ports, or two 120-watt ports with a single 240-watt charge port
- Enjoy PC-interface capability with the Hitec HPP-22 PC Interface (sold separately)

HRCP4186

Long story short...

Hitec is taking charge of all your hobby needs with quality electronics that deliver exceptional dependability and performance!

THE HOTTEST BUGGY YET FROM HB

1/8 Scale Nitro 4WD Competition Racing Buggy Kit

- Centralized chassis weight
- Mono-coque style suspension arms for added strength and rigidity
- Long stroke shocks
- Race-optimized steering
- Adjustable hinge pin heights, kick up, anti-squat angle and rear toe-in
- Aluminum axles, shock towers, front caster blocks and rear hub carriers
- Lightweight drivetrain gears
- Steel skid plate in chassis

HBSD9428 D812 1/8 Scale Nitro 4WD Competition Racing Buggy Kit
Length: 18.9 in (480 mm)
Width: 12.2 in (310 mm)
Weight: 7.4 lb (3350 g)
Wheelbase (adjustable): 12.9 in (327 mm)

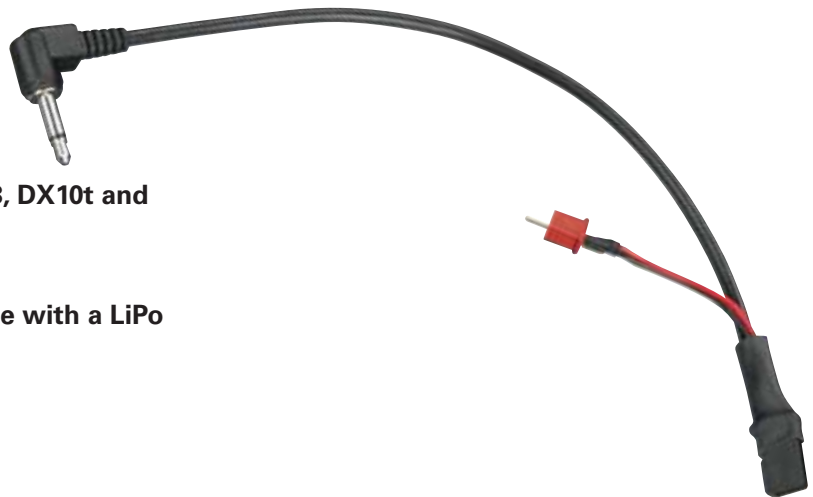

Long story short...

The D812 starts with the World Champion D8, and doesn't stop until you're in the winner's circle!

AN ANYLINK CABLE THAT EXPANDS YOUR OPTIONS

Team Durango Ready-To-Run vehicles go beyond what is expected of a RTR... way beyond. As in going up against kits — and winning. That's because the engineers who design them are also drivers who race them. They know what wins, and they put it all in every Team Durango RTR.

- Oil-filled gear diff — fast, strong and easy to tune
- Patented gearbox design — adjust weight distribution with four motor mount options, without changing the suspension
- Big Bore oil shocks — made of hard-anodized threaded aluminum
- Competition-quality electronics — including a 2.4GHz radio with compact 3-channel micro receiver and waterproof digital steering servo

Power is provided by a ROAR-legal 13.5 turn Speed Passion sensored brushless motor and blinky mode ESC.

IF ADVENTURE IS WHAT YOU SEEK...
...THE DHC-2 BEAVER WILL
TAKE YOU THERE.

DHC-2 Beaver

“The DHC-2 Beaver gets a perfect score for looks, ease of assembly and flight characteristics.”
— Geoff Barber, RC Universe

“Whether you’re looking for a Sunday flyer or a new plane for the local float fly, you won’t be disappointed with this scale beauty.”
— Jason Benson, Electric Flight Magazine

“I think this is their best Select Scale plane to date — and they’ve already supplied some very nice planes.”
— Michael Heer, RC Groups

The DHC-2 Beaver is a replica of the extraordinary bush plane that’s right at home flying over woods and water, with Select Scale detail that’s second to none. Take the controls of this versatile, realistic-looking sport model and go where other R/C aircraft dare not!

- Ailerons and flaps feature drop hinges and authentic corrugation
- A replica radial engine and working navigation/landing lights add realism
- Advanced AeroCell™ foam construction that’s crash-tough and feather-light
- Servo and receiver are already installed
- Fly the Tx-R with your transmitter, or choose the all-in-one convenience of the RTF

Lightweight floats with water rudders offer confident handling when landing on or taking off from a pond or small lake. Conventional landing gear with a steerable tailwheel is also included.

"After using your product for six months I went out to the field for the first time with a 60 size Cessna 182. The instructor assigned to me could not believe his eyes when without any assistance from him I took off, flew a few circuits and landed perfectly.... Thank you RealFlight. Your product is exactly like the real thing...."

- Nick Louskas

"RealFlight taught me to fly. If it hadn't been for that red reset button I'd been thousands of dollars in the hole."

- Freddie Shepperd

"I started flying RC 4 years ago and with the help of RealFlight I am now a top pilot in Europe. Thank you!"

- David Duval

"RealFlight is awesome. It teaches you everything you need to know in a comprehensible way."

- Kaylyn Muex

TAKE CHARGE WITH TEKIN'S NEWEST AND HOTTEST POWER PLANTS!

Gen2 Redline, Pro4 and T8 Motors and Crawler Motors and Systems

TEKC2412

Gen2 Redline Brushless Sensored Motors

- The latest technological advancements in brushless motor design!
- Lighter than before, with a higher overall RPM output
- Specifically designed for 1/12, 1S LiPo and stock racing
- 10.5T through 6.5T modified motors come standard with a 13 mm rotor; 5.5T through 2.5T modified motors are equipped with a 13 mm High Torque rotor

TEKC2500

Pro4 1/10 Scale 4x4 Short Course Brushless Sensored Motors

- Choose from kV ranges to complement 2S and 3S LiPo power systems
- Utilizes the proven design of the T8 1/8 scale motor to deliver the torque and power you need for 4x4 Short Course trucks

TEKC2101

T-Series 1/10 Scale Brushed Crawler Motors & Systems

- Heavy duty motors that get you where you want to go, with authority!
- Hand wound, pro tuned, and all completely rebuildable
- Also available in complete systems with the Fx-R speed control with flash-programmable microcontrollers, LiPo battery cutoff and more

TEKC2350

T8 1/8 Scale Competition Sensored Brushless Motors

- Go large with competition-level control and enormous power!
- Capable of both sensored and sensorless operation
- Features a T6 Billet aluminum ribbed heatsink can

TEKIN

FISHER-PRICE® THOMAS & FRIENDS® WOODEN RAILWAY® TRAIN SETS

Kid-friendly fun from Great Planes® newest vendor!

Fisher-Price®

www.gpdealer.com

FRPU4475

FRPU4090

FRPU4497

- **12-piece Oval Starter set** comes with Thomas, a caboose, 9 track pieces and a railroad crossing sign
- **20-piece 5-in-1 Up and Around set** lets conductors build up to 5 exciting layouts. Includes Thomas, a bridge, a tunnel and 17 track pieces
- **Coal Hopper Starter Figure 8** has a true figure 8 layout. Its coal load can be dropped into Thomas' cargo car by pressing down on the coal hopper.
- **Load pigs into Thomas' cargo car** with Farmhouse Pig Parade set, and ride on an over/under layout, complete with bridge! Includes a hand car with swinging handle
- **29-piece Tidmouth Timber Co.** features a magnetic, spinning crane that loads logs, so Thomas can take them to Misty Island and back
- **30-piece Mountaintop Supply Run** features loadable cargo, plus high mountaintop and low dock locations

FRPU4090 Y4090 Farmhouse Pig Parade
 FRPU4091 Y4091 Coal Hopper Starter Figure 8
 FRPU4418 Y4418 5-in-1 Up and Around
 FRPU4419 Y4419 Oval Starter
 FRPU4475 Y4478 Mountaintop Supply Run
 FRPU4497 Y4497 Tidmouth Timber Co.

Long story short...

Young conductors will love playing with these Thomas & Friends Wooden Railway sets. Fisher-Price quality means they will provide years of enjoyment!

1/25 SCALE GRAVE DIGGER® MONSTER TRUCK
 Burying the competition

Over thirty years after Dennis Anderson built the first Grave Digger, nine of these super-tough crowd-pleasing vehicles are being driven at Monster Jam® events around the country. An aggressive driving style, coupled with the intimidating appearance of Grave Digger made Anderson and his team instant hits in the monster truck circuit. This replica has all the show-stopping looks of the original in an easy-to-assemble SnapTite® kit. This **kit features** easy snap-together construction, 3 inch monster tires, full engine and drivetrain and colorful peel and stick decals.

RMXS1978 Total Parts: 35 Skill Level: 1 Length: 8.25 in (209.6 mm)

1/25 SCALE CHEVY® SSR™
 A sporty and sleek convertible pickup that will never let you down

The Chevy SSR is a unique vehicle that combines all the best elements of a muscle car, a convertible and a pickup into one seriously sweet ride. When the first model year came out it was a high-performance thrill with heavy-hauling capability, but GM didn't stop there. Throughout the line's three-year run, the SSR's V-8 engine, drivetrain and appearance were continuously improved. After three years, the floundering car market caused the cancellation of the line. This **kit features** a retractable roof, detailed V-8 engine and separate bed cover.

RMXS4052 Total Parts: 105 Skill Level: 2 Length: 7.75 in (197 mm)

1/24 SCALE '53 CORVETTE® ROADSTER
 The distinctive convertible cruiser of the '50s and '60s

Own a replica of the Corvette that started it all—the '53 Roadster! These sleek convertibles were an instant hit with the veterans of World War II. They were powered by "Blue Flame" straight six engines, giving them more power than any contemporary car. All that muscle turned the light two-seater into a rocket of a car. This **kit features** a detailed engine with choice of '53 or '54 intake system and a convertible top you can assemble in the up or down position.

RMXS4057 Total Parts: 92 Skill Level: 2 Length: 6.8 in (171 mm)

1/25 SCALE MICKEY THOMPSON'S CHALLENGER I
 Achieving new heights in speed

In September of 1960, Mickey Thompson became the first American to go faster than 400 mph (644 km/h) on land. His quad V-8 powered Challenger I topped out at 406.6 mph (653 km/h) at the Bonneville Salt Flats. Mickey designed racers, set trends, beat records and won competitions in everything from drag racing to the Indianapolis 500 for sixty years. **Kit features** parts molded in white plastic, four V-8 engines with transmissions, detailed tube chassis, removable body panels, rear parachute tube, soft black tires and Mickey Thompson figure.

RMXS4918 Total Parts: 186 Skill Level: 2 Length: 9.5 in (241 mm)

1/32 SCALE MILITARY WRECKER TRUCK

Bringing back a classic

Clearing vehicles off the road is a difficult task, even under the best conditions. Military wreckers clear damaged military equipment and free stuck vehicles under fire and on poor roads. For the complex and difficult tasks it is tasked with, these 5-ton trucks have six-wheel drive and cranes capable of lifting up to 20,000 lbs (9000 kg). This **kit features** a removable hood with complete engine detail, five crew figures, a rotating crane and cargo box and decals with U.S. Army graphics.

RMXS7816 Total Parts: 156 Skill Level: 2 Length: 12.3 in (312.4 mm)

MONOGRAM® PLASTIC MODELS

1/25 SCALE WILLYS STREET ROD

Authentic "Americar" hot rods

Because it was produced for less than five years and spare parts were scarce, Willys Americars became one of the most frequently modified cars in the U.S. Many hot rod enthusiasts began to improve upon the simple, light and cheap cars and soon Willys became the most popular hot rods around. The classic Willys street rod had a blown Hemi® engine and enlarged rear tires. This **kit features** a full street rod suspension and movable front wheel plus a detailed Hemi engine, modern interior and colorful hot rod decals.

MONS4909 Total Parts: 100 Skill Level: 2 Length: 6.5 in (165 mm)

REVELL OF GERMANY® PLASTIC MODELS

1/144 SCALE BOEING® 747-8 "LUFTHANSA®"

Because for Boeing bigger is better

In order to maximize the cargo and passenger capacity of their aircraft, Boeing extended the fuselage of their 747. The stretched 747-8 is 250 feet (76.4 m) long, making it the longest passenger aircraft in the world. Despite its gargantuan proportions, this new design is more fuel-efficient and has a longer range than earlier 747 variants. Lufthansa can transport 467 passengers over 9,000 miles (14,500 km) in one of these planes. **This kit** is faithful to every detail of the Boeing passenger liner.

RVLS4275 Total Parts: 165 Skill Level: 4 Length: 18.7 in (476 mm)

1/72 SCALE FLOWER CLASS CORVETTE

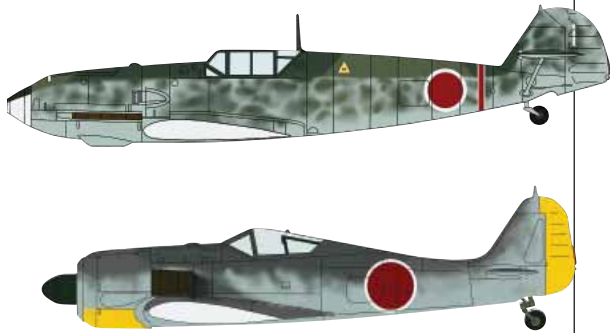

"PLATINUM EDITION"

Ships that saved Atlantic Convoys

Flower Class Corvettes were based on merchant ships, specifically the whaler Southern Pride. Designed and built by civilian shipyards, these ships were equipped with depth charges and other available weapons and sent into the teeth of the wolf packs. In the freezing waters of the North Atlantic, their half-trained crews faced down the hardened elite of the Kriegsmarine. They kept supplies flowing to England and kept the Allies alive. This **kit features** photo-etched parts, detailed, realistic pieces, a display stand and decals for two HMCS warships.

RVLS5112 Total Parts: 1215 Skill Level: 2 Length: 33.5 in (850 mm)

1/72 SCALE BF 109E-7 & FW 190A-5 JAPANESE ARMY COMBO

Sharing secrets of the best fighters of the war

German-built Focke-Wulf fighters were superior to most early Allied fighters, enabling them to rack up massive kill tallies. However, the three top scoring German aces of WWII all flew the Bf 109. These fighters were so successful that the Axis powers were willing to risk shipping them across hostile territory to Japan. The I.J.A.A.F. received five Bf 109s and one Fw 190 for testing and evaluation during the Second World War. This limited edition **kit features** parts for building both planes with decals for two I.J.A.A.F. experimental divisions.

HSGS2014 Total Parts: 36+33

Skill Level: 3

1/72 SCALE F-15C EAGLE 57TH FIGHTER INTERCEPTOR SQUADRON

Fly with the Black Knights

From 1954 until 1993, the 57th Fighter Interceptor Squadron maintained a 24-hour guard against aerial intrusions from the Soviet Union. Fighters from the squadron's base in Iceland were scrambled hundreds of times to intercept planes attempting to fly from Russia to Cuba. Most of the fighters the unit flew were outdated, but the F-15C Eagles they received in 1985 were the best the United States had to offer. This limited edition **kit features** conformal fuel tanks, pylon parts and decals for U.S.A.F. 57th FIS Code: IS57FIS Iceland 1992.

HSGS2015 Total Parts: 144

Skill Level: 3

1/72 SCALE JUNKERS JU 88S-1/3 KG66

Fly one of the pathfinders of Kampfgeschwader 66

The "S" variants of Ju 88s were equipped with nitrous oxide boosters on the engines. These boosters made them some of the fastest pre-jet engine aircraft ever produced. KG 66 used these fast birds to fly ahead of friendly bomber formations and mark ground targets with flares. Thousands of these planes served in fighter, interceptor, dive bomber, bomber and reconnaissance roles. This limited edition **kit features** new nose canopy and gun sight parts plus decals for Luftwaffe 1./KG 66 Code: Z6+LH France 1944 and LG 1 Code: white-H 1944.

HSGS2016 Total Parts: 171

Skill Level: 3

1/48 SCALE AICHI D3A1 TYPE 99 CARRIER DIVE-BOMBER (VAL)

Carrying the Empire of Japan's wrath to American soil

On December 7th, 1941 over 100 Aichi D3A1 dive bombers darkened the skies above Pearl Harbor. Their 550 lb (250 kg) bombs ripped through ships, destroyed aircraft and killed American servicemen in the worst surprise attack America had ever suffered. These aircraft were fast, agile, well-armed and lethal; the U.S. Navy felt their bite time and again throughout the war, losing more ships to this plane than any other warbird. This limited edition **kit features** new photo-etched wing hinge parts and decals for two Aichi D3A1s which attacked Pearl Harbor.

HSGS5142 Total Parts: 134

Skill Level: 3

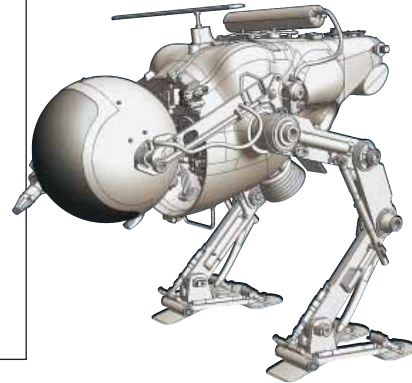

1/20 SCALE LUNA TACTICAL RECON LUM-168 CAMEL

Find the target. Mark the target. Eliminate the target.

World War IV burned most of Earth's population to ash and left the planet a barren wasteland, but war always finds a way. In the dark, futuristic world of Maschinen Krieger, the world is fought over once more by mercenary forces and the government soldiers that seek to control them. The Luna Tactical Reconnaissance Machine is one of many futuristic war machines deployed by the aggressor states in their never-ending war. This newly-tooled **kit features** multiple decal options for I.M.A. forces.

HSGS6406 Total Parts: 225

Skill Level: 3

1/72 SCALE LAST EXILE TATIANA'S VANSHIP AND FAM'S VESPA

Command the skies of a dark, futuristic Earth

Last Exile's ships are intriguing designs modeled off the technological developments of the early twentieth century. These air cars cruise the skies over a war-torn futuristic Earth in the newest installment, Last Exile: Fam The Silver Wing. Hasegawa has gone to great lengths to perfectly reproduce the unique ships of this animated series. This newly tooled **kit features** two vehicles a Vanship and the Vespa both include decal marking options and there are also four pilot figures: Tatiana, Alister, Fam and Giselle and display stands.

HSGS6507 Total Parts: 82+32

Skill Level: 3

1/48 SCALE FOCKE WULF FW 190A-5/U12

Bringing even more guns to the fight

Standard Fw 190 fighters carried two 7.92 mm machine guns and four 20 mm cannon. Though impressive, this armament was frequently ineffective against American heavy bombers like the B-17. Gun pods were added beneath the wings, which increased the armament to two 7.92 mm machine guns and six 20 mm cannon. With that much metal, the Focke Wulf Fw 190A-5/U12 could best anything in the air. This limited edition **kit features** new gun pack and metal gun barrel parts, plus decals for two Luftwaffe fighters.

HSGS7320 Total Parts: 81

Skill Level: 3

1/48 SCALE SPITFIRE MK VII/VIII

Taking the fight to new heights

As altitude increases the wing area needed to keep a fighter aloft also increases. Detachable pointed wing tips were added to Spitfire MkVII's and VIII's, increasing their wingspan by four feet (1.2 m) and allowing them to combat high-flying Luftwaffe aircraft. Pierre Henri Clostermann, a highly-decorated French ace, tallied well over a dozen aerial victories and innumerable ground target kills while flying the Spitfire Mk VII. This limited edition **kit features** new wingtip and canopy parts, plus decals for three R.A.F. planes including one flown by Clostermann.

HSGS7321 Total Parts: 103

Skill Level: 3

1/48 SCALE A-7E CORSAIR II "VA-113 STINGERS" 15,000 lbs of high-explosive makes quite the sting

An A-7E Corsair II has eight hardpoints that can transport 15,000 lbs of high-explosives or up to four nuclear missiles. Even with all those bombs lying around, VA-113 "Stingers" has a record of over 100,000 operational flight hours without accidents—more than any other air wing. Many pilots have critiqued the Corsair II's lack of speed. However, the ability to transport such a large amount of munitions over a wide range more than made up for low speed. This limited edition **kit features** decals for two U.S. Navy versions.

HSGS7322 Total Parts: 209

Skill Level: 3

1/48 SCALE NAKAJIMA B5N2 TYPE 97 CARRIER ATTACK BOMBER (KATE) Japan's deadliest bomber

A bomb from a B5N2 caused half the casualties at Pearl Harbor when it detonated the forward magazine of the battleship Arizona. As the war progressed, the bomber sank three American carriers and numerous other vessels. Near the end of the war, this three-seat bomber was used in kamikaze strikes against Allied shipping. Not a single B5N2 survived the war intact, but you can own this limited edition kit that **features** new photo-etched wing folds and decals for two planes involved in the attack on Pearl Harbor.

HSGS9553 Total Parts: 113

Skill Level: 3

1/48 SCALE KAI PHANTOM II 8SQ PANTHER An American design for Japanese air power

Phantom II aircraft were the last aircraft to be flown by aces in the twentieth century—carrying numerous pilots to the five kill mark and beyond. They set sixteen world speed and altitude records that stayed in place for decades. They were America's most commonly produced supersonic aircraft. Though they have been phased out of use by the American military, nearly one hundred of these exceptional craft still provide air reconnaissance for the J.A.S.D.F. This limited edition **kit features** decals for two Japan Air Self Defense Force fighter squadrons.

HSGS9556 Total Parts: 132

Skill Level: 3

Plastic Models

AMT® 1/25 Scale '49 Mercury® Club Coupe *The iconic post-war hot rod*

Also known as the Mercury Eight, the 1949 Mercury Club Coupe was the company's first post-WWII design. It was the first Mercury to have its own name, and it broke sales records upon release. Today, this V-8-powered coupe remains as popular as ever, thanks to hot rod builders who use it to create their craziest custom designs. **Kit features** a choice of stock, custom or competition builds; flathead Ford® and Buick® engine options, an opening trunk, pad-printed whitewall tires, steerable wheels, original decal artwork and vintage packaging.

AMT654 AMTS0654 Total Parts:

Skill Level: 2

AMT® 1/2500 Scale Star Trek® Cadet Series Motion Picture Era Set *Three fan favorites from Star Trek I and II*

Since "Star Trek" made its debut in 1966, several of the series' spacecraft have become fan favorites. The only problem is – after six separate series and eleven blockbuster films – it's hard to pick just one! **Kit features** three mini snap kits: the U.S.S. Enterprise® Refit, the U.S.S. Reliant and the Klingon™ K'tinga. The U.S.S. Reliant and the Klingon K'tinga have never been available in this scale before. Set includes thorough decal sheets for all three ships.

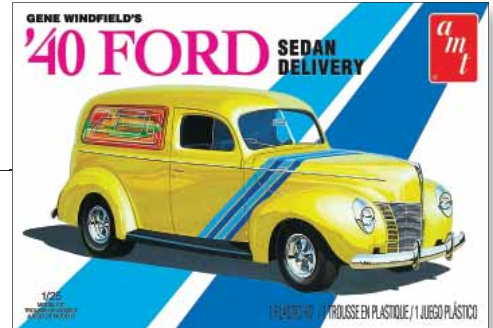

AMT762/12 AMTS0762 Skill Level: 2 Length: (K'tinga): 3.4 in (86 mm);
(Reliant): 3.9 in (99 mm);
(Enterprise): 4.8 in (122 mm)

AMT® 1/25 Scale Gene Winfield 1940 Ford® Sedan Delivery *Shipping your stuff from site to store*

The original "delivery" modified vehicles were made in the forties as manufacturers of delivery vans were producing vehicles for WWII. Car companies simply deleted the rear windows with sheet metal and removed seating to add cargo space. This trend has carried over into the present day; small businesses use these vehicles for bulk transport. Gene Winfield designed this radical Ford Sedan Delivery while he was working as a full scale vehicle designer for AMT. This **kit features** engine intake and wheel options, racing slicks and original decal artwork.

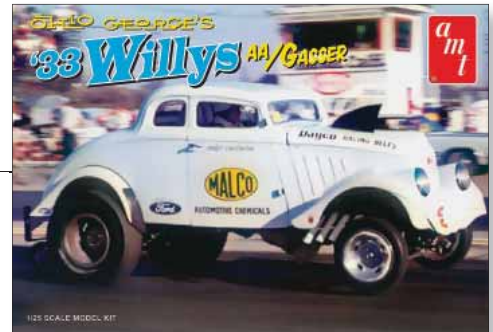

AMT769/12 AMTS0769 Skill Level: 2

AMT® 1/25 Scale "Ohio" George Montgomery's '33 Willys AA/Gasser *Straight from the AMT archives*

"Ohio" George Montgomery made his reputation racing AA/Gas supercharged coupes like this modified '33 Willys. He found it at a junkyard in Hillsboro, Ohio, where he bought it for \$100. Montgomery first raced it at the 1959 NHRA® Nationals in Detroit, where he scored a class win. He drove the '33 Willys until 1967. Montgomery scored yet another trophy at that year's Nationals. **Kit features** improved tooling, restored original parts, pad-printed hollow racing slicks, two rear wheel options and original decal artwork. Available for the first time since the 1960s!

AMT770/12 AMTS0770 Skill Level: 2

AMT® 1/25 Scale KISS® Destroyer Monster Truck *America's hardest-rocking band gets a monster makeover*

By 1976, KISS had four albums under its belt, including the landmark concert LP, "Alive." Nothing could prepare the group for the success of "Destroyer." Featuring such KISS classics as "Shout It Out Loud," "Beth" and "Detroit Rock City," "Destroyer" was the band's first platinum-seller. Thirty-six years later, music critics still consider it an essential piece of rock history. **Kit features** a blue molded plastic body, a highly detailed tubular racing chassis, huge vinyl monster truck tires, two textile parade flags for the pickup bed and a full-color decal sheet.

AMT787/12 AMTS0787 Skill Level: 2

AMT® 1/350 Scale Star Trek® U.S.S. Enterprise® Light Kit *Lighting the way to interstellar adventure*

Since 1966, "Star Trek" has boldly gone to where no man has gone before. Now, thanks to this detailed Light Kit, your Polar Lights® 1/350 U.S.S. Enterprise can do the same! **Kit features** 95 LEDs, AC/DC power, dual motors for the engine fans, a plug-in Printed Circuit Board (PCB) to control flashing lights, as well as clear and clear-colored plastic parts in amber, red, blue and green.

MKA007/06 AMTS9007 Skill Level: 3

AMT® 1/350 Scale Star Trek® U.S.S. Enterprise® Weathering Decals

Weather your Enterprise to Federation standards

Some "Star Trek" fans like their Enterprise to have a "fresh from space dock" look. Other Trekkies prefer to have their favorite Starship look like it's been around the galaxy a few times. This Weathering Decal set is a must-have for the second group. **Set features** nine 5.5" x 13" (140 mm x 330 mm) decal sheets, which add "space grime" surface weathering to your Polar Lights® 1/350 scale U.S.S. Enterprise without painting. Decals recreate the same subtle weathering pattern that was used on the show's original filming miniature!

MKA008/12 AMTS9008 Skill Level: 2

Airfix® 1/48 Scale British Armed Forces Land Rover® Patrol Gift Set

Patrol the sands of Afghanistan in Operation Herrick

British Armed Forces use Land Rovers as patrol transports in areas of difficult terrain. Though they are lightly armored, Land Rovers are extremely robust and are capable of carrying mounted weapons. They are also easier to maintain, have a longer range and are faster than most purpose-built military vehicles, which makes them perfect for counter-insurgency operations. Many of these vehicles were transferred to Northern Ireland after having additional armor installed. This **kit features** a "Snatch" Land Rover, eight British Army figures, eight acrylic paints, poly cement and two brushes.

50121 ARXS0121 Total Parts: 162 Skill Level: 3 Length: 4 in (100 mm)

Airfix® 1/76 Scale M3 Lee/Grant Medium Tank

First to the fight

At the beginning of World War II, England had a small, outdated tank force that was defeated by the advanced German tank corps. The British Armed Forces desperately needed tanks, they got the M3. It was the first tank that America could roll off assembly lines. Though they could not match up to German tanks in a one-on-one fight, the M3s provided necessary fire support to infantry units and helped stop the grinding advance of the Panzer corps. This **kit features** decals for a British and an American army version.

01317 ARXS1317 Total Parts: 64 Skill Level: 2 Length: 2.9 in (74 mm)

Airfix® 1/76 Scale Infantry Tank MkII Matilda

It can't waltz, but it sure can wallop

A maximum of 78 mm of armor made the Matilda the most heavily armored tank of early World War II. All that armor also made it painfully slow. As the tank crept along at 6 mph (9 km/h), German shells would ricochet off the armor. Through sheer indestructibility, Matildas often turned battles for the British in North Africa. Despite low speed and comparatively-light 40 mm armament, Matildas were the only British tanks to serve throughout the entire war. This **kit features** decals for 1 troop 'A' squadron, El Alamein, 1942.

01318 ARXS1318 Total Parts: 65 Skill Level: 2 Length: 3.2 in (82 mm)

Airfix® 1/72 Scale North American F-51D Mustang

Long range firepower

Time and again throughout World War II, the Mustang proved that it was more than a match for any fighter flying. When the Korean War began and jet aircraft were on the rise, the F-51D remained one of the Air Force's most powerful planes. It was equipped with bombs and rockets that enabled it to destroy ground targets. Unfortunately, a lack of armor made the Mustang vulnerable to ground fire. The fast and long-ranged Mustang maintained its niche in multiple air-forces well into the eighties.

02047 ARXS2047

Airfix® 1/72 Scale Messerschmitt Bf 109E-7/Trop

Designed for desert operations

Nazi pilots who flew the Bf 109 in North Africa had to deal with rapidly shifting environmental conditions. With salty sea air, high humidity, blowing sand and high temperatures, North Africa could bring down a plane before it reached the British. To combat the stresses imposed by the climate, engineers installed filters over the "tropical" Bf 109 variant's engine intakes. When these failed, there was also a desert survival kit that might save a pilot's life if he survived the crash. This **kit features** decals for two versions.

02062 ARXS2062 Total Parts: 60 Skill Level: 1 Length: 5.4 in (137 mm)

Airfix® 1/48 Scale Modern British Army Troops

Britain's Bravest

In the three centuries since its institution in 1707, the British Army has been regarded as one of the toughest and most advanced combat forces in the world. Operation Herrick is the British support of NATO intervention in Afghanistan. British forces are tasked with controlling Helmand Province and training local defense forces. The thousands of British soldiers in Afghanistan have a tough job, but their extensive training and exceptional equipment help them accomplish their mission. This **kit features** eight multi-part British army figures in combat poses with authentic equipment.

03701 ARXS3701 Total Parts: 61 Skill Level: 1

Airfix® 1/72 Scale Aircraft of the Aces Gift Set

The world's finest fighters

Although the rules have varied, in general, to become an "Ace" a pilot must shoot down at least five opposing aircraft. The top scoring ace of all time, German Erich Hartmann, tallied 352 victories in a Bf 109. James Johnson, the top British ace, scored 38 victories while flying Spitfires. With 26 victories, American pilot George Preddy was the top-scoring P-51 ace of the war. This **kit features** parts to build all three fighter aircraft, plus 12 paints, two brushes and poly cement.

A50143 ARXS5143

Airfix® 1/48 Scale Supacat® HMT 400 Jackal

Fire support for Britain's finest

Based on the HMT (High Mobility Truck) 4x4 chassis, the Jackal is an armored and highly-mobile weapons platform. With British troops in Helmand Province, Afghanistan, the Jackal is a fast reconnaissance vehicle that is resistant to improvised explosive devices. Because they are fast and all-terrain capable, Jackals allow their crews to avoid likely ambush sites and still accomplish their missions. These open-topped vehicles also tote multiple heavy weapons to provide fire support for advancing troops. This **kit features** decals for a British Army version deployed to Afghanistan.

A05301 ARXS5301

Airfix® 1/72 Scale Handley Page® O/400

Bombs for the Bosche

Handley Page O/400s were the pinnacle of World War I bomber development. These twin-engine crafts carried a crew of five and up to 2,000 lbs of bombs. Compared to contemporary craft, they were a massive leap forward in aircraft technology. Their top speed of nearly one hundred mph (157 km/h), coupled with a range of 700 miles (1,120 km) made them the most effective aircraft developed before World War II. This **kit features** a Handley Page O/400 with bomb parts and decals for two RAF versions.

A06007 ARXS6007 Total Parts: 167 Skill Level: 3 Length: 16.7 in (423 mm)

Dragon® 1/144 Scale Lockheed® TR-1A (U-2)

Ready for high-altitude recon

The TR-1A has the high aspect ratio wings you'd expect from a glider. Yet, this modified U-2 is built for high-altitude tactical recon. Side-looking radar, updated avionics and improved electronic countermeasures equipment make the TR-1A perfect for covert ops. **Kit features** a newly tooled design, a slide-molded cockpit canopy, cockpit interior details, optional side-looking radar, high aspect ratio wings with detailed surface panel lines, a fuselage with intricate cooling vents, a standard "super" pod, a detailed antenna, realistic rudders and landing gear with optional taxiing or flying positions.

4640 DMLS4640

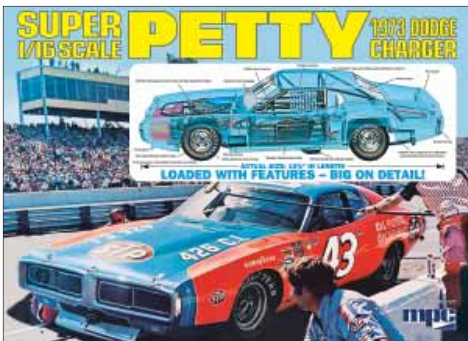

Minicraft Models® 1/48 Scale T-51 USAF (Cessna® 150)

The U.S.A.F. Academy's trainer of choice

There are several reasons why the United States Air Force Academy Flying Team uses the Cessna 150 as their primary trainer. First, it's super-stable, so even rookie pilots can easily fly it. Second, operation is relatively inexpensive. Third, the U.S.A.F.'s Cessna 150s (dubbed T-51s) are powered by 150 hp Lycoming® O-320-E2D engines, which boost overall performance at altitude. Factor in all these features, and you have the perfect plane for aspiring pilots. **Kit features** a detailed engine and interior, as well as unique U.S. Air Force markings.

11666 MMIS1666

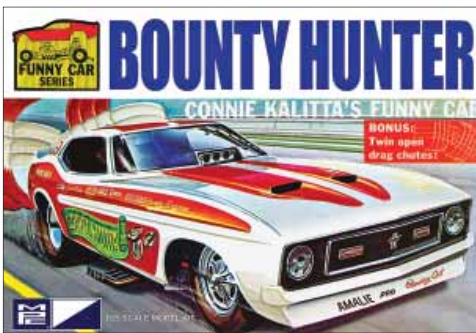

MPC® 1/16 Scale Richard Petty® '73 Dodge® Charger® Stock Car

Decked out with defining details

Richard Petty first drove this '73 Charger in the year's Daytona 500, defeating Buddy Baker to capture his fourth Daytona win. **Kit features** a clear chassis, a detailed 426 Hemi® engine with rocker arms and full head/cylinder detail, a header/exhaust system, a front suspension with functional torsion bars and shocks, a rear suspension with adjustable spring shackles and shocks, functional steering, a detailed roll cage, PVC fuel and oil lines, vinyl Goodyear® stock car tires, plated Clement® slotted wheels, a padded steering wheel, a detailed instrument panel and full-color decals.

MPC767 MPCS0767 Total Parts: Skill Level: 3 Length: 12.8 in (324 mm)

MPC 1/25 Scale Connie Kalitta's 1972 Mustang "Bounty Hunter"

Hunting down legendary race wins

With ten wins at NHRA national events, Conrad "Connie" Kalitta is rated as one of the top drivers in America by the National Hot Rod Association. He was inducted into the Motorsports Hall of Fame in 1992. His 1972 Mustang funny car, the "Bounty Hunter", is a fully blown, super-charged beast with racing slicks. Many of Kalitta's victories were won using this car in the mid '70s. **Kit features** vintage MPC tooling, detailed tubular chassis, fully blown engine and authentic "Bounty Hunter" water-release decals.

Polar Lights® 1/12 Scale Forbidden Planet™ Robby the Robot® Poster Edition

Recreate a classic sci-fi icon.

Look on the poster for the 1956 film "Forbidden Planet," and you'll notice it lists the film's stars as Walter Pidgeon, Anne Francis and Leslie Nielsen. For many fans, however, Robby the Robot is the film's true star. After "Forbidden Planet," Robby's acting career flourished in the 1960s, with appearances on classic shows like "The Twilight Zone," "Lost in Space" and "The Addams Family." **Kit features** a newly tooled design inspired by the film's famous movie poster (featuring Robby carrying Altaira), a stylized rock base and a retro-futuristic cardboard backdrop.

Get the inside track for choosing the right rockets for your program at EstesEducator.com!

- Free lesson plans, matched to National Learning Standards
- Automated system displays the items you need
- Links to grants and funding
- Extensive online resources, including videos, worksheets and more

Use the pull-down menus to:

- Choose a grade level (3-5, 6-8 or 9-12)
- Choose a subject (Science, Technology, Math, Social Studies or Language Arts)
- Choose the number of class sessions (1 day, 2 days or 3 days)

A perfectly matched lesson plan will be displayed. All you have to do is download and print!

Determining the items needed is easy, too!

Just:

- Type in the number of students
- Place a checkmark if you have launch equipment

Estes Educator.com automatically displays a list of required items – no guesswork!

Estes rockets are used by these outstanding youth programs:

- | | |
|-------------------------|---------------------------|
| Boy Scouts | 4-H Clubs |
| Girl Scouts | Christian Service Brigade |
| Awana Clubs | Boys and Girls Clubs |
| YMCA | After-school programs |
| Civil Air Patrol Cadets | Royal Rangers |

REVELL CRAFT WOOD

Premium quality wood for all your hobby needs.

Your project deserves the consistent quality, superior finish and enduring strength of Revell premium balsa and basswood. Revell wood is cut and polished on state-of-the-art equipment and hand-sorted to eliminate imperfections. Choose from your most-wanted sizes of sticks, blocks, and sheets.

Balsa Sticks, Blocks, Sheets and Project Bags

- Carefully dried in special kilns — producing a light wood with a high strength-to-weight ratio.
- Cuts easily to any length or shape using a hobby knife — unfinished and may be stained or painted for any project.

Sizes range from:

24" and 36" Balsa Sticks: 1/16 x 1/16 - 1/2x1/2 inch
 24" and 36" Balsa Sheets: 4 x 1/16 - 1/2 inch thickness
 24" and 36" Balsa: 3 x 1/16 - 1/2 inch thickness
 36" Balsa: 2 x 1/16, 3/32, 1/8, 1/4, 3/8 inch thickness
 36" Balsa: 1 x 1/16 - 1 inch
 12" Balsa Blocks: 1 x 1 - 2 x 4 inches

Balsa Project Bags come in a variety of styles; Balsa/Basswood Sticks, Sticks/Sheet and Mini Carving Block. All contain various shapes and sizes.

Basswood Sticks, Blocks, Sheets and Project Bags

- Kiln-dried to prevent "case hardening" that causes warping during stick production.
- Tight grain structure ideal for a wide variety of hobby, craft and miniature projects.
- Can be cut or sawed to any length — may be stained or painted for any project.

Sizes range from:

24" long Basswood Sticks: 1/16 x 1/16 - 1/2 x 1/2 inch
 24" long Basswood Sheet sizes range from 1/16 - 1/2 thicknesses x 3-4 inch widths
 24" long Basswood Sheet sizes: 1/16, 3/32, 1/18, 3/16, 1/4, 3/8 thickness x 1-2 inch widths
 12" Basswood Blocks: 1 x 3 - 2 x 6 inches

Basswood Project Bags come in a variety of styles; Basswood Sticks/Sheets, Balsa/Basswood Sticks, Mini Carving Blocks. All contain various shapes and sizes.

Look for a Revell Wood Display to find what you need.
