From the Experts:
 The Jeep® Wrangler Unlimited Rubicon is one of those vehicles that are rarely left stock once in the hands of its owner. We understand this and have come to the table with our next offering. Our partnership with Jeep® continues with a kit version that allows you to build your Jeep®, from the ground up. If you're looking to build your ultimate dream Jeep®, this is the kit that will allow you to do it!

Long story short...

Trail running with the SCX10 Jeep® Wrangler Unlimited Rubicon is just about the most fun you can have off-roading!

EVADER EXT 2.4 FAST, TOUGH — AND 100% COMPLETE

The invincible Evader EXT racing truck platform now comes so complete, it requires nothing except your skills at the wheel. A 2.4GHz radio system is included and installed. It's fully waterproof, with a waterproof receiver box, SX401WP servo and Sprint WP electronic speed control. Charge the supplied 1500mAh Onyx NiMH battery and you're ready to power down the track to a first-place finish!

Ready to Run, 1/10 Scale Electric 2WD

All-terrain tires on stylish 6-spoke wheels.

Oil filled shocks with metal caps.

Waterproof receiver box and steering servo.

Compatible with 6-7 cell NiCd/NiMH and 2S hard case LiPo batteries.

Waterproof ESC with brake, reverse and battery cut-off.

Photon Speed 2 motor for impressive acceleration and top end.

Includes a 1500mAh battery, wall charger and 8 AA batteries

PROTECTED BY STRESS-TECH GUARANTEE 1 YEAR

Duratrax is so confident in the Evader EXT2.4's durability that we will cover all Stress-Tech parts with a 1-year FREE Replacement Guarantee!

WATERPROOF

Molded MAGNAFLEX™ Parts

DTXD33** 1/10 Scale Evader EXT2.4 RTR

- Length: 16.1 in (409 mm)
- Width: 12.8 in (325 mm)
- Height: 6.6 in (168 mm)
- Ground Clearance: 1.4 in (36 mm)
- Weight: 3.6 lb (1.63 kg)

The Evader EXT2.4 is fully assembled and ready to go, with the same legendary toughness that the Evader line is known for. The evolution of the Evader EXT2 to the EXT2.4 offers beginners and sport racers a "one-box solution" — that is, a model that comes with everything, right down to the batteries and charger.

Long story short...

The Evader EXT2.4 leads the way in value, convenience and all-out fun!

THE NEXT GENERATION IN OFFSHORE PERFORMANCE

Desperado^{JR.} OBL

Equipped with the Ace Cougar GP3 2.4GHz radio, the latest in spread spectrum technology!

- Factory-assembled and pre-painted, with a one-piece blow-molded ABS hull
- Powered by a pre-installed water-cooled outrunner brushless motor and ESC
- The efficient layout features a waterproof box for the receiver
- A magnetic hatch makes for quick and easy access to on-board gear
- The rudder flexes upon impact to limit damage

TTRB5026 Desperado Jr. OBL 2.4GHz Catamaran RTR-Green
TTRB5027 Desperado Jr. OBL 2.4GHz Catamaran RTR-Blue

Length: 27.2 in (690 mm)

Beam: 7.3 in (185 mm)

Height: 6.1 in (155 mm)

Weight: 2.7 lb (1210 g)

From the Experts:

Thanks to the advanced Ace Cougar GP3 2.4GHz radio system the Desperado Jr. OBL is ready to deliver high-powered catamaran thrills with precise, worry-free control. This sleek catamaran can go right from the box to the water, because all the building and painting is done for you. Plus, the brushless power system is water-cooled for even greater performance.

Long story short...

The Desperado Jr. OBL is one fast, fun cat!

THUNDER TIGER®

AN EVEN MORE VERSATILE SWITCH!

mini switch™

www.gpdealer.com

- Easy final assembly with no glue
- Factory-installed brushless motor, ESC and electronics
- A breeze to transport to and from the field
- AeroCell foam airframe with pre-applied trim
- Quick-release battery hatch lets you spend less time switching batteries and more time flying
- Available as a convenient RTF complete with 2.4GHz radio, as well as a Tx-R Prime version that you can fly with your radio and battery

FLZA3320 Mini Switch RTF
 FLZA3322 Mini Switch Tx-R Prime
 High Wingspan: 34 in (865 mm)
 Low Wingspan: 31 in (785 mm)
 Length: 32.5 in (825 mm)
 Weight: 20.4-21.2 oz (580-600 g)

Flyzone
 how high will you soar

From the Experts:

The compact Mini Switch fits inside most vehicles without disassembly — and still lets you go from a low-wing to a high-wing model in just a few minutes. The brushless power system and electronics are pre-installed, so you're just minutes away from the flight line. Go with the all-inclusive RTF with 2.4GHz radio included, or equip the Tx-R Prime with your radio gear and battery!

Long story short...

The Mini Switch delivers big-time flying fun in a smaller size!

FLY THE DISTINCTIVE TIGER MOTH

tiger moth

- Lightweight foam construction
- Flight-ready in just minutes
- Lots of molded-in details
- Authentic trim scheme and 2 pilot figures* add to the realistic appearance
- Rechargeable 140mAh LiPo flight battery included
- RTF includes a Tactic 2.4GHz radio system; Tx-R comes with an SLT receiver compatible with AnyLink or any transmitter with SLT

Painting and installation required

FLZA2060 Micro Tiger Moth RTF
 FLZA2062 Micro Tiger Moth Tx-R
 Wingspan: 15.1 in (385 mm)
 Length: 12.9 in (327 mm)
 RTF Weight: 1.1 oz (33 g)

Flyzone[™]
 how high will you soar

From the Experts:

The Tiger Moth's foam airframe is feather-light, yet durable enough for flying in your backyard or at the park. The model's scale touches are a bonus, and you can choose from two versions: the convenient RTF with 2.4GHz radio or the Tx-R that you can control with your favorite transmitter.

Long story short...

The Tiger Moth is a worthy addition to the Flyzone hangar of vintage micro-size planes!

THE "RIGHT STUFF" FOR YOUR RIDE!

DE Racing Products

Treat your car, buggy or truck to the best in aftermarket accessories! From wheels to chassis parts and much more, DE Racing Products are engineered to have your model looking sharp and running strong — and all are proudly made in the U.S.A.!

Borrego Wheels

- Realistic scale appearance of a beadlock wheel with a mud cover
- Available for most popular 1/10 and 1/8 Buggies, as well as Stadium and Short Course Trucks
- Customizable with optional DE Racing Sticker Disks

DEEC2000-DEEC2052

Trinidad Wheels

- Pure eye candy for a wide variety of short course and stadium trucks
- Advanced ribbing design for extra durability
- Available for front and rear, in ROAR-legal widths and 2.2/3.0 diameters

DEEC3001-DEEC3054

Mud Guards

- Protect rear suspension and drive components from rocks, dirt and mud
- Easy to install — no body trimming needed

DEEC0001-DEEC0009

BumpSkids

- A hybrid front skid plate/front bumper for stylish chassis protection

DEEC1000-DEEC1008

Rear Skid Plates

- Ultra-thin plates that save wear on chassis and screws
- Wears like aluminum, at a fraction of the cost and weight

DEEC1300-DEEC1314

Buggy Tire Spikes

- The quick and easy tool to organize and ID your tires

DEEC7600-DEEC7604

Hub Nutz

- Nylon over-molded steel wheel nuts combine strength and style

DEEC8000-DEEC8005

Tank Pull Kit

- A sleek, simple, universal fueling solution for nitro-powered vehicles

DEEP1000-DEEP1006

Visit gpdealer.com for a complete listing of DE Racing products!

Long story short...

Get the most out of your model — equip it with quality parts and accessories from DE Racing Products!

POWERFUL 550-650 SIZE HELI BRUSHLESS MOTORS FROM O.S.

Massive muscle in a miniature mount

- Both produce incredible power
- Two choices: the 1260 delivers 1260 RPM/V while the 560 delivers 560 RPM/V
- Precision engineered for high performance helicopters
- Designed for maximum efficiency and heat dissipation
- Intended for use with six – twelve cell battery packs

OSMG9450 Brushless 650 Heli Motor 4535-560
OSMG9460 Brushless 600 Heli Motor 4535-1260

Long story short...

O.S. delivers the best choices in helicopter flight with this pair of brushless motors. If you're looking for peak performance at the perfect price, look no further.

4-STROKE POWER, SCALE SOUND AND GASOLINE ECONOMY

GF40 4-Cycle Gasoline Engine

- Easily installs in the same mounting pattern as the GT33
- Positive Crankcase Ventilation (PCV) system helps keep your model and the environment cleaner without blow-by gas and oil waste
- Choke rod guide is integrated with the backplate for convenience
- Includes a special Walbro carb and a compact, lightweight ignition module

OSMG0800 GF40 4-Cycle Gasoline Engine

Displacement: 2.438 cu in (39.96 cc)

Bore: 1.57 in (40 mm)

Stroke: 1.251 in (31.8 mm)

Practical RPM Range: 1,800-9,000

Weight:

Engine: 42.3 oz (1200 g)

Muffler: 4.0 oz (113 g)

Ignition Module: 3.4 oz (95 g)

Includes: silencer, Walbro carb, ignition module

Recommended Props: 18 x 6W, 18 x 10, 18 x 12, 20 x 8W

Long story short...

Aerobatic and sport models will benefit from the gasoline-sipping GF40's impressive torque; realistic sound makes it ideal for scale aircraft too!

NEW PACKS WITH RACER-REQUESTED FEATURES!

LiPo Hard Case Batteries

- Now available with higher discharge ratings of up to 80C
- Packs with 4mm bullet connectors offer more versatility in battery installation, with cleaner wiring setups
- Some packs feature popular, low-resistance Deans® Ultra Plug® connectors
- Hard cases help protect packs from the elements and crash damage

Deans® and Ultra Plug® are registered trademarks of W.S. Deans Co. U.S. Patent No. 5,533,915.

- TKPC0395 LiPo 2S 7.4V 5600mAh 60C Hard Case 4mm
- TKPC0505 LiPo 2S 7.4V 4600mAh 80C Hard Case 4mm
- TKPC0510 LiPo 2S 7.4V 6000mAh 80C Hard Case Deans
- TKPC0515 LiPo 2S 7.4V 6000mAh 80C Hard Case 4mm
- TKPC0520 LiPo 2S 7.4V 7200mAh 80C Hard Case Deans
- TKPC0525 LiPo 2S 7.4V 7200mAh 80C Hard Case 4mm
- TKPC0530 LiPo 2S 7.4V 6000mAh 80C Hard Case Saddle Pack
- TKPC0535 LiPo 4S 14.14V 6800mAh 80C Hard Case Deans

Long story short...

These packs deliver more of what drivers are looking for in high-performance LiPo technology!

NEW THUNDER TIGER® PRO .46 2-STROKE AIRPLANE ENGINE

Premium Pro performance

- Based on the highly popular original Pro .46
- Weighs only one pound (464 g), but still delivers 1.6 horsepower at 16,000 RPM
- New head design dissipates heat more efficiently
- Includes a high-performance, streamlined muffler
- Cylinder includes a new, durable composite coating

TTRG1147 Pro .46 2-stroke Aircraft Engine

Long story short...

The updated Pro .46 delivers even greater performance than the original in an engine that is easier to maintain and more efficient. Add immense power to your airplane with the lightweight Pro .46.

EVERYTHING YOU NEED, ALL IN ONE PLACE

19-in-1 tool kit for Traxxas® vehicles

- Engineered to make maintaining Traxxas vehicles a snap
- Contains 19 different tool functions in a convenient zippered carrying case
- Nut drivers, hex drivers, screwdrivers and wrenches are all included in multiple sizes
- These are all the tools you need for routine maintenance on over a dozen of the most popular Traxxas vehicles

DTXR0410 19-in-1 Tool Kit for Traxxas vehicles

Long story short...

For quick tune ups or complex overhauls—there's no kit that gives you more of the essential tools you need than this one.

Just Released

Hitec® Minima 6L Lite 2.4GHz AFHSS 6-Channel Micro Receiver

Ideal for small indoor aircraft

- Ultra-light Lexan® case keeps weight to a minimum
- Low current consumption – requires only 4.8-8.4V input
- Features dual antennas and a fail-safe/hold function
- Dimensions: 1.2" x 0.8" x 0.3" (31 x 19.5 x 8.5 mm)
- Weight: 0.14 oz (4 g)

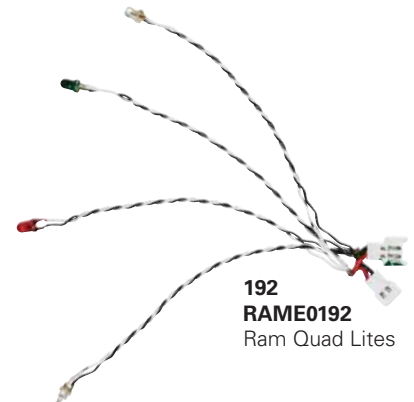

26614 HRCL2014
Hitec® Minima 6L Lite 2.4GHz AFHSS 6-Channel Micro Receiver

Ram Quad Lites

Designed for the Traxxas® QR-1!

- Easy-to-install LEDs for the Traxxas quad-rotor heli!
- Set includes two white headlights; flashing red and green tail lights provide easy orientation
- A lightweight, energy-efficient way to brighten your flights

192 RAME0192
Ram Quad Lites

FUEL YOUR SUCCESSFUL RACING SEASON WITH O'DONNELL!

STOP - when you see an endcap like this at your local hobby shop!

O'Donnell Racing Fuels are known the world over as the standard by which all other fuels are measured. The way to prove it to yourself is to try it, so tell your hobby retailer what kind of R/C cars and conditions you favor, and let him recommend the O'Donnell Racing Fuel that's right for the way you roll. You'll see why O'Donnell Racing Fuel is called the "game-changer"!

Racing is always more fun when you win!

30% Speed Blend

Superior ingredients and an advanced oil package deliver extreme rpm and long run times

ODOP4430 Gallon

Putting FUN first and foremost!

Team Associated's Qualifier Series of sport-level vehicles is the perfect way to get into R/C racing. They're pre-assembled, durable and easy to drive — and priced to fit within any modeler's budget. Factor in legendary Team Associated engineering and performance, and you've got a winning lineup!

ASCD0112 Apex Touring Qualifier Series 1/10 Brushless 4WD Touring Car RTR
 Length: 16.7 in (425 mm)
 Width: 7.5 in (190 mm)
 Weight: 3.9 lb (1760 g)
 Wheelbase: 10.2 in (259 mm)

DON'T JUST BEAT THE COMPETITION — BLITZ THE COMPETITION!

Go gonzo with R/C's sharpest short course truck... the other guys won't know what hit 'em!

BLITZ

Powered by a Firebolt 15T motor and 7.2V Plazma NiMH battery, with Maxxis Trepador off-road tires with MK.10 satin chrome wheels.

BLITZ FLUX

55+
mph

Seriously souped up with a Flux Shot 4300kV brushless motor, Flux Reload V2 ESC and 8.4V Plazma NiMH pack, and sporting Megabite tread tires with MK.8 V2 matte finish wheels.

With rad style, super durability and extreme speed and power, the 2WD Blitz is taking the short course arena by storm! There's race-winning technology everywhere you look, and because the Blitz is Ready-To-Run, you're just minutes away from hitting the track. Go with the original Blitz based on the E-Firestorm platform, or up the ante with the added firepower of the brushless Blitz Flux!

HPID0325 Blitz Flux Brushless 2WD Short Course Truck RTR
 HPID66** Blitz 2WD Short Course Truck RTR
 Length: 21.6 in (548 mm)
 Width: 11.6 in (296 mm)
 Wheelbase (adjustable): 12.9 in (329 mm)

Both versions come with all of these performance features:

- Molded composite chassis with pivoting skid plates
- Waterproof electronics
- Bulletproof, all-metal gear transmission
- High-performance shocks with threaded bodies
- Interference-free 2.4GHz radio system
- 12mm hex hubs
- Full ball bearings
- "AA" batteries and 110V wall charger included
- Painted Skorpion body with bold graphics

Equip your Blitz to grip any surface with HB Short Course tires!

HB Short Course tires offer a wide selection of tread patterns, and are available in the unrivaled "Pink" compound that gives you a huge traction advantage and superior tire life.

- HPIC1742 #61742 HB Megabite SC Tire (Pink/Short Course Truck/2 pcs)

GROUND BREAKING, RACE WINNING SHORT COURSE TRUCK TECHNOLOGY

1/10 Scale 2WD Electric Short Course Truck Kit

There has never been a short course truck kit like the DESC210R. It has many of the features introduced on the hugely successful DEX210 buggy, including the patented hybrid gearbox design that gives you more motor/gear options than any other racing truck. It's the most tuneable, user-friendly electric short course truck kit you'll find anywhere!

Set up the DESC210R to meet any track conditions you can throw at it!

1. Rear motor with 3 gears for low traction/dirt
2. Mid motor with 4 gears for high traction
3. Rear motor with 4 gears for very low traction/dirt
4. Mid motor with 3 gears for very high traction

You can even position the motor on the left or right side, using the same gearbox unit and without changing the suspension geometry. No other 2WD short course truck can say that! Other high-performance features include:

- Injection molded composite chassis
- Adjustable battery position for optimum weight distribution
- Aluminum, oil-filled Big Bore shocks
- Caster and rear-toe inserts
- Captured CVDs

With innovations such as these, the DESC210R is changing the landscape for 2WD electric short course trucks!

TDRC0030 DESC210R 1/10 Scale 2WD EP Short Course Truck Kit
Length: 21.4 in (544 mm)
Width: 11.4 in (290 mm)
Wheelbase (adjustable): 12.6-13.0 in (321-329 mm)
Gear Ratio: 2.6:1
Weight*: 70.5 oz (2000 g)
Requires: 2-channel radio with high-torque steering servo, 540-size motor, 2S LiPo battery pack, 1/10 scale short course tires
 *approximate race-ready weight

DESC210R

EQUIP YOUR DESC210R WITH TOP-OF-THE-LINE ACCESSORIES!

Stacey David asks, "What are YOU workin' on?"

When he's not building a full-size vehicle on the set of his hit SPEED Channel series, GearZ host and executive producer Stacey David can be found working on a model car. It's a way to relax while maintaining his creative edge. Stacey has been a hobbyist as long or longer than he's been fixing and modifying real cars. Starting his 7th season of GearZ in 2012, David previously hosted and produced another popular automotive series on Spike TV for eight years.

Now, Stacey David is teaming up with Revell for this year's Model Car Championship! Stacey, along with a full panel of expert judges will evaluate each entry base on its creativity, use of the kit, adherence to the theme, fit/finish and use of color. The entry with the most points in each category will win.

Get complete contest details at revell.com

1/25 SCALE JEEP® RUBICON

Crossing all boundaries

The Jeep Wrangler® Rubicon is one of the most impressive all-terrain vehicles on the market. It is four-wheel-drive, has powerful Dana 44 axles and comes with a choice of exceptional four and six cylinder engines. Even the name Rubicon evokes thoughts of tough obstacles conquered. These Jeeps are modeled off the WWII workhorse; they have kept the same aggressive all-terrain capability, good handling and titanic towing capacity as their predecessors. This **kit features** a roll over bar with detail lights, working spring suspension and large off-road tires.

RMXS4053 Total Parts: 31 Skill Level: 2 Length: 6.8 in (172.7 mm)

1/25 SCALE '65 CHEVELLE® SS® 396 Z-16

Legendary muscle

Only 201 Z-16s were built, but they became one of the highest-performing cars of the era. Because of their short production run, classy looks and pristine performance, Chevelle SS 396 Z-16s are avidly sought after by collectors. This model may not roar past 100 at 6,000 RPM, but build this model and you build a piece of automotive history. This **kit features** a detailed 396ci. Big Block V8 with four speed transmission, choice of stock SS wheels with large diameter rims and separate chrome door handles and side trim.

RMXS4055 Total Parts: 129 Skill Level: 2 Length: 7.8 in (200 mm)

1/25 SCALE 2005 DODGE® MAGNUM® SRT8

The world's most high-performance station wagon

Blending carrying capacity with sporty looks and muscle car performance isn't easy, but Dodge pulled it off. The Magnum SRT8 has 143 cubic feet (4 cubic m) of cabin capacity and is still capable of speeding from 0-60 mph (0-100 km/h) in five seconds. The secret behind this sporty performance is a 425 horsepower Hemi® V8—enough power to launch an elephant. The SRT8 is undoubtedly the fastest station wagon ever. **Kit features** a detailed engine, suspension, hinged rear tailgate and choice of two wheel styles.

RMXS4059 Total Parts: 110 Skill Level: 2 Length: 7.8 in (197 mm)

1/24 SCALE '86 MIAMI VICE FERRARI TESTAROSSA

If you're in a "Red Head," get ready for a wild ride

At the beginning of Miami Vice's third season the Daytona Spyder Sonny Crockett had been driving went out with a bang. Shortly thereafter, the Ferrari Testarossa (Red Head) became Crockett's sports car of choice. Powered by 12-cylinder 390 horsepower engines, Testarossas are more than fast enough power to hunt down the criminals of Miami. And with the car's sleek styling, you can look good doing it too. This **kit features** a detailed 12-cylinder engine, separate side louvers, detailed suspension with dual rear shocks, lifting rear hatch and decals.

RMXS4264 Total Parts: 96 Skill Level: 2 Length: 7.3 in (185.4 mm)

1/48 SCALE MESSERSCHMITT ME 262 A-1A

Far more fast, far too few

The Me 262 was one of the world's first effective jet aircraft. Its airspeed far exceeded that of its piston-powered contemporaries, allowing it to attack and withdraw with relative impunity. When flown by experienced pilots, these aircraft were very effective, frequently achieving four-to-one kill to loss ratios. But it was too late to accomplish much against the gargantuan bomber flights pouring out of England. This **kit features** an access panel with four 30mm guns, a detailed engine, two bombs and standing pilot and ground crew figures.

RMXS5322 Total Parts: 78 Skill Level: 2 Length: 8.5 in (216 mm)

1/32 SCALE NIKE GUIDED MISSILE BATTERY

America's first surface launched anti-aircraft missile

Nike missiles were the American military's answer to high-speed, high-altitude enemy aircraft. Bell® Laboratories designed the Nike Ajax, a radar-guided missile that carried three fragmentation warheads, to defend against strategic bombers. Batteries of the missiles were sited in underground magazines strategically clustered around major cities. Most of these defensive installations have been removed since the end of the Cold War, but some remnants can still be seen. This **kit features** a complete launch framework and rail system with a two stage Nike missile and three crew figures.

RMXS7815 Total Parts: 80 Skill Level: 2 Length: 10 in (254 mm)

REVELL OF GERMANY® PLASTIC MODELS

1/100 SCALE SNAPTITE® F-16® FIGHTING FALCON®

General Dynamics® most lethal weapons

Whether you call them by their official "Fighting Falcon" name or the more popular "Viper" nickname, the F-16 is an undeniably lethal warbird. Even though it was designed in the seventies, the F-16 is still in production and in service with many air forces around the world. Nearly five thousand have been delivered to over twenty countries, making it one of the most widely distributed aircraft of all time. Don't miss this opportunity to extend your air force today! This **kit features** easy snap together construction of pre-painted parts.

RVLS0600 Total Parts: 19 Skill Level: 1 Length: 5.75 in (146 mm)

1/100 SCALE F-18 HORNET

Hurry your Hornet out of the hangar

The F-18C Hornet carries some of the latest missiles and bombs in the U.S. arsenal, including Sidewinders and Mark 83 LDGP bombs. It carries all of those weapons on a fast, agile and robust airframe capable of reaching Mach 1.8. Now, the war-winning power of the Hornet is available in a snap kit! All parts are molded in appropriate colors, so there is no need to paint. All pieces go together easily without glue. This **kit features** an attractive finish, transparent canopy, painted figures and a moveable undercarriage.

RVLS0601 Total Parts: 25 Skill Level: 1 Wingspan: 7.9 in (200 mm)

1/72 SCALE WWII AUSTRALIAN INFANTRY

Heroes of the Second Australian Imperial Force

At the start of the Second World War, the Australian Army found itself in an awkward position. They were stuck between calls for help from England and the imminent threat of Japanese expansion. Their army was undermanned, under-equipped and under-trained. Additionally, no soldiers could be sent overseas unless they volunteered. Despite these problems, thousands of Australian Army soldiers participated in campaigns in Europe, North Africa, China and the Pacific Theater. This set of 49 soldiers commemorates the great contributions that Australia made to the Allied victory in WWII.

RVLS2501 Total Parts: 49 figures 52 parts Skill Level: 3

1/35 SCALE LEOPARD 2A4/A4NL

Death from Deutschland

The Leopard in all its variants is one of the world's most powerful main line battle tanks. With a 120 mm smoothbore cannon, a low profile and armor protection that is sufficient to stop most forms of direct attacks, the Leopard 2 is every tank commander's dream. These tanks have proven so potent that they have been exported to over a dozen countries. This **kit features** a newly tooled Leopard 2 you can build in one of two variants with authentic decals for seven tanks.

RVLS3193 Total Parts: 212 Skill Level: 5 Length: 10.9 in (276 mm)

1/72 SCALE STRIDSVAGN LEOPARD 2

Sweden's "Combat Car"

The Leopard 2 is one of the world's most powerful main line battle tanks. With a 120 mm smoothbore cannon, a low profile and heavy armor protection, the Leopard 2 is every tank commander's dream. These tanks have proven so potent that they have been exported to Sweden and a dozen countries including Sweden. The Swedish tanks are upgraded with digital tactical maps and improved mine protection. This **kit features** a fully detailed Leopard 2 in one of two variants with four decal options and many movable parts.

RVLS3199 Total Parts: 68 Skill Level: 4 Length: 5.3 in (134 mm)

1/48 SCALE SUPERMARINE SEAFIRE MK. XV

Powered by Great Britain Griffins

Instead of the Rolls-Royce® Merlin engine of the original Seafires, the Mk XV carried a more powerful Griffon engine. These massive engines powered the heavily armed Seafire to a top speed of 387 mph (623 km/h). Most arrived in the Pacific Theatre too late to participate in WWII and were sold to France, Canada and Burma, where their presence made an impact on future wars. This **kit features** detailed parts, a separate radiator and access hatch, auxiliary fuel tank and decals for 2 Royal Navy fighters.

RVLS4835 Total Parts: 123 Skill Level: 4 Wingspan: 9.2 in (234 mm)

1/32 SCALE HEINKEL HE-111 H-6

Nazi Germany's most versatile bomber

Originally designed as "passenger air liners" to get around the Treaty of Versailles, He-111s quickly became medium bombers in the Spanish Civil War. By World War II, these bombers were already in need of upgrades. Many variants were made, including the H variants. They flew fast, flew far and carried torpedoes, bombs, incendiaries and even mines. The Luftwaffe kept building them until the end of the war. Now, you can build one too! This **kit features** many detailed parts, two bombs, two torpedoes and decals for two versions.

RVLS4836 Total Parts: 435 Skill Level: 5 Wingspan: 27.9 in (709 mm)

1/32 SCALE WESTLAND LYNX HAS.3

Fast attack choppers

Westland Lynx helicopters hold the world record for "fastest helicopter", but they are more than fast. There are numerous varieties of Lynx with differing engines, armament and roles. One of the most effective uses of the Lynx has been in anti-shiping and anti-submarine roles. Sea Skua missiles, aerial torpedoes and advanced detection equipment make the Lynx deadly to anything on or beneath the waves. This **kit features** a special livery for the 702nd Training Squadron and its sister unit, the 815th NAS, plus detailed parts, two torpedoes and two missiles.

RVLS4837 Total Parts: 280 Skill Level: 5 Length: 16.2 in (412 mm)

1/72 SCALE HUDSON MK I/II PATROL BOMBER

First to the fight

Lockheed® Hudsons were some of the first aircraft available to the Allies. They were unsuited to strategic bombing because of their light bomb load, but their long range made them perfect for coastal patrols. Any German submarine operating within 1,000 miles (1,600 km) of the coast was in danger. Hudsons could spot subs before they dove and their bombs and depth charges made short work of the foe. This **kit features** many detailed parts and decals for 2 RAF versions: 206th Squadron, Bircham Newton or 224th Squadron Leuchars, Scotland, 1940.

RVLS4838 Total Parts: 161 Skill Level: 5 Wingspan: 10.8 in (274 mm)

1/72 SCALE MIL MI-24V HIND E

Flying "tanks"

Mil Mi-24V helicopters, Hinds, are truly one of a kind. They are the only helicopters in the world that are simultaneously attack helicopters and troop transports. Their versatility, weapons load and armor are all second to none. This total battlefield mastery has been displayed in wars from Sri Lanka to Nicaragua by the militaries of more than thirty countries. Now you can experience this ground-breaking aircraft in a **detailed kit that features** pilot and gunner figures, lots of building options, four rocket pods and decals for two versions.

RVLS4839 Total Parts: 284 Skill Level: 5 Wingspan: 10.2 in (258 mm)

1/144 SCALE JUNKERS JU 52/3M

Good ol' Auntie Ju

With its corrugated aluminum skin and distinctive three-prop design, Ju 52s are some of the most unique aircraft ever produced. Though it was designed by Germany, over 30 countries have operated the robust and versatile Ju 52. A Ju 52 could take on nearly any role: bombing, combat transport, medical evac, VIP transport, cargo transport—it did it all and came back for more. This **kit features** detailed surfaces, cockpit and undercarriage, plus radial engines and movable propeller. Decals are included for two Luftwaffe versions.

RVLS4843 Total Parts: 56 Skill Level: 3 Wingspan: 8 in (202 mm)

1/72 SCALE F-16C FIGHTING FALCON®

Turkish delight

Turkey is just one of dozens of countries that have taken advantage of the F-16 Fighting Falcon's astounding power. This particular Turkish Air Force variant is tasked with suppressing enemy air defenses. A sophisticated targeting system guides the Falcons to range, the weapons do the rest. Cannons, rockets, missiles and bombs can all be fielded from the Falcon with a precision and in such profusion that target destruction is virtually assured. Plus, they just look spiffy. This **kit features** a fully-loaded F-16C in a detailed livery known as Solo Türk.

RVLS4844 Total Parts: 126 Skill Level: 3 Length: 8.4 in (213 mm)

1/72 SCALE SEARCH AND RESCUE VESSEL "BERLIN"

Deutsche Gessellschaft zur Rettung Schiffbrüchiger

By any name the "German Maritime Search and Rescue Service" are life savers. Their vessels operate in the frigid waters of the North and Baltic Seas, pulling sailors off of stricken ships. The entire organization, comprising 61 vessels and nearly 1,000 staff and volunteers, is financed by charitable donations. For 25 years, Revell has contributed to those donations by sending money from sales of DGzRS model ships back to the parent organization. This **kit features** many detailed parts including two water cannon fire extinguishers and two sets of decals.

RVLS5211 Total Parts: 208 Skill Level: 5 Length: 15 in (382 mm)

1/1200 SCALE AIRCRAFT CARRIER SHINANO

Imperial Japan's last hope

After four carriers were sunk at Midway, the Japanese converted Shinano from a battleship into a carrier. In secret, Japanese crews built the ship with steel scoured from across Japan. With repair and storage facilities for nearly 200 aircraft, she was the largest carrier ever built. Her crew complement was 2,400 men. Shortly after launch, she set sail for Kure to pick up aircraft. She never made it. The U.S. submarine Archer Fish sent the Shinano to the bottom with four torpedoes. This **kit features** a waterline-hull Shinano model.

RVLS5816 Total Parts: 24 Skill Level: 2 Length: 8.6 in (219 mm)

1/24 SCALE MERCEDES-BENZ® 300 SL-24 COUPE

A German car with Italian flair

Both the German and Italian automotive industries are renowned for the quality of their cars. In general, however, the vehicles they build are desired for very different reasons. German cars are reliable, efficient and safe while Italian cars are fast, elegant and sporty. In the SL-24 Coupe, the best qualities of both industries were blended through cooperation between Mercedes-Benz and Italian designer Bruno Sacco. This **kit features** the beautiful SL-24 complete with moveable hood, 6-cylinder engine, realistic interior and decals for several international versions.

Hobby kits

1/200 SCALE AIR DO AIRLINES BOEING® 737-700

Flying frequent ferry flights from Hokkaido to Tokyo

Shortly after the deregulation of Japan's commercial aviation industry, Air Do was founded by a handful of investors from Hokkaido, Japan in order to provide low-cost flights to Tokyo. This small airline has a fleet of a dozen aircraft, one of which is the powerful Boeing 737-700. This plane carries 144 passengers on flights from Japan's northern island, Hokkaido, to Tokyo and other large urban destinations. This **kit features** two decal markings Air Do Code: JA01AN Oct. 28, 2012 and Air Do Code: JA11AN Feb., 2013.

42 HSGS0742 Total Parts: 47 Skill Level: 3

1/72 SCALE EUROFIGHTER TYPHOON (ITALIAN/SPANISH AIR FORCE)

Field Europe's finest fighter

After thirty years in development, the Eurofighter Typhoon is making its way into Europe's air forces. It's well worth the wait. State-of-the-art pilot voice interaction systems make the Typhoon easier to control than the average fighter while the plane's agility and top speed exceeds that of many fighter jets. Once the Meteor missile's development is finished, the Typhoon will be able to engage any aircraft from beyond visual range. This limited edition **kit features** decals for Italian A.F. 36th Stormo 10th Gruppo Code: 36-10 and for the Spanish Air Force.

02031 (Limited Edition) HSGS2031 Total Parts: 195 Skill Level: 3

1/72 SCALE THUNDERBOLT MK II RAF TWO KIT COMBO

Command the thunder, call the lightning.

Thunderbolts in service during WWII gained the nickname "Jugs" because of their close resemblance to period milk bottles. Fortunately for the Allies, the "Jugs" were no milksops. Their eight .50 caliber machine guns were adept at taking down the Luftwaffe's juggernauts and their heavy armor protection let them shatter ground targets with relative impunity. In RAF service, the Thunderbolt brought its guns to bear from Burma to Berlin. This limited edition **kit features** two RAF Thunderbolts with decals for Codes: KJ348, AW-F and GO-B.

02033 (Limited Edition) HSGS2033 Total Parts: 2 x 36 Skill Level: 3

1/72 SCALE MANNED RESEARCH SUBMERSIBLE SHINKAI 6500

Studying the world four miles beneath the waves

Less is known about the ocean floor than about the surface of the moon, the Shinkai 6500 is trying to change that. This exceptional submersible can take three passengers down to a depth of slightly over 21,000 feet (6500 meters). Once it is at the bottom, powerful lights, cameras and robotic manipulator allow researchers to observe and interact with a piece of the world few will ever see. This **kit features** a new motor and horizontal stabilizer parts to match updates made to the research vessel made in 2012.

54003 HSGS5403 Total Parts: 62 Skill Level: 3

1/12 SCALE CAPSULE TOY MACHINE

All the gum balls and gewgaws you can grab

Your 1/12 scale figure's lives are incomplete. Where are their gumballs, their temporary tattoos, their cheap plastic toys and their shiny faux-gold bling with high-quality imitation diamonds? In this Capsule Toy Machine, that's where. Put this set in your scene and your figures will never lack for pulp-paper trading cards, bouncy balls or stretchy aliens. This **kit features** two snap-fit capsule toy machines molded in blue, white and clear. No painting is required, just snap the pieces together and install them in the scene.

62005 HSGS6205 Total Parts: 44 Skill Level: 3

1/48 SCALE MESSERSCHMITT BF 109G-2 "FINNISH AIR FORCE"

Fighting over the frozen fields of Finland

The Winter War of 1939-1940 put Finland firmly on the side of Germany against Russia during WWII. German-built Messerschmitt Bf 109s gave outnumbered Finnish Air Forces a fighting chance against the numerically-superior Soviets. Finnish force's air victories numbered eight times their losses in punishing combats in the skies over the Eastern Front. These victories helped the Finns maintain their independence when much of Eastern Europe was absorbed by the Soviets after WWII. This limited edition **kit features** decals for three F.A.F. fighters codes: MT-222, MT-213 and MT-225.

07329 (Limited Edition) HSGS7329 Total Parts: 80 Skill Level: 3

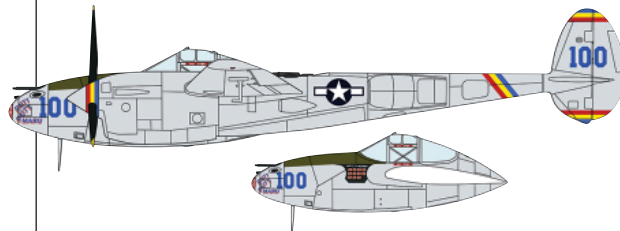

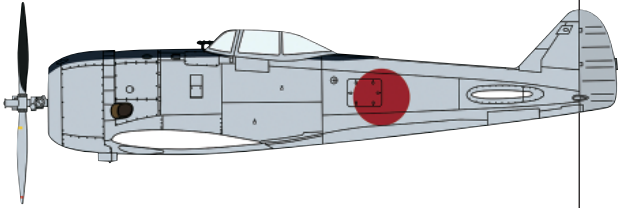

1/48 SCALE P-38J/L LIGHTNING "PUTT-PUTT MARU"

Putting down the I.J.N.A.S.

Charles MacDonal flew "Putt-Putt Maru" for much of WWII. In the intense aerial battles of the Pacific War, he shot down 27 enemy fighters with his P-38. These victories and his exceptional abilities as commander of the 475th Fighter Group made him one of the top Allied aces of the war. P-38 Lightnings were the ideal aircraft for the Pacific, their long range, high speed and heavy armament let U.S. forces successfully engage Japanese planes wherever they might be. This limited edition **kit features** decals for two Putt-Putt Maru variants.

07330 (Limited Edition) HSGS7330 Total Parts: 152 Skill Level: 3

1/48 SCALE NAKAJIMA KI44-I TYPE 2 FIGHTER "Tojo" interceptors

Most of the Pacific Air War was fought between fighters and dive bombers, but the strategic bombers of the U.S. played a key role in destroying the industrial capacity of Japan. The Nakajima Ki44-I was developed to stop those bombers from reaching the home islands. A high rate of climb and service ceiling allowed the Ki44-I to quickly engage oncoming American bombers. Once in position, a considerable array of high-caliber weapons brought those bombers down. This limited edition **kit features** a Ki44-I with contra-rotating propellers and decals.

07331 (Limited Edition) HSGS7331 Total Parts: 79 Skill Level: 3

1/48 SCALE MITSUBISHI® A6M2B ZERO Flown from Junyo's decks

At the outset of WWII, the I.J.N Carrier Junyo's Zeros outclassed most aircraft that America could send against them. After the Battle of Guadalcanal, however, Junyo's fortunes took a turn for the worse. The carrier repeatedly suffered damage that necessitated long repair sessions. Her air crews fought hard, but were depleted again and again. When Japan surrendered, Junyo was little more than a floating hulk with irreparable damage and her air crews long gone. This limited edition **kit features** decals for three different Zeros from the Junyo Fighter Group.

07333 (Limited Edition) HSGS7333 Total Parts: 69 Skill Level: 3

Plastic Models

Academy Models 1/48 Scale F-4B Phantom II "VF-111 Sundowners"

From the Coral Sea to your collection

The VF-111 "Sundowners" first transitioned to the F-4B Phantom II in 1971. At the time, the squadron's aircraft were deployed from the USS Coral Sea. By 1978, the "Sundowners" switched to the F-14 Tomcat. The U.S. Navy retired its fleet of F-4 Phantom IIs from service in 1996. **Kit features** all-new tooling, multi-colored plastic parts, a one-piece fuselage, assorted air-to-air and air-to-ground weapons, one-piece main wings, narrow tires, three lifelike pilot figures and one Cartograf® decal marking option: 1. F-4B 15100 VF-111 NL/200 USS Coral Sea, 1975, CAG.

12232 ACYS2232

Academy Models 1/48 Scale AH-64A "Gray Camo 2003"

Attack with extreme aggression

The AH-64A Apache has been unleashing Hellfire missiles and brimstone upon its enemies since 1983. The AH-64's ability to withstand major battle damage made it an ideal choice for Operation Iraqi Freedom in 2003. In 2012, all U.S. Army AH-64As were converted to AH-64D Apache Longbows. Experts estimate that the Apache has logged over three million flight hours in its lifetime. This limited edition **kit features** an accurately reproduced AH-64A that was used in Operation Iraqi Freedom, plus sixteen enhanced Hellfire missiles, enhanced landing gear struts and premium-quality Cartograf® decals.

12239 Limited Edition ACYS2239

Academy Models 1/72 Scale F-14A VF-1 "Wolfpack"

Gatling-equipped for Gulf War greatness

The F-14 Tomcat entered service with the U.S. Navy's VF-1 "Wolfpack" squadron in 1974, to replace its aging fleet of F-4 Phantom IIs. The VF-24 "Fighting Renegades" received their F-14s a year later. In 1991, VF-1 scored the only F-14 kill against a Mil Mi-8 in Operation Desert Storm. This limited edition **kit features** fully engraved panel lines, a highly detailed cockpit interior and landing gear compartment, movable wings, assorted under-wing weaponry and Cartograf® decal markings for two versions: 1. VF-1 "Wolf Pack" and 2. VF-24 "Fighting Renegades."

12504 Limited Edition ACYS2504

AMT® 1/25 Scale M&H™ Racemaster Dragster Slicks

Slip on some sleek slicks

M&H Tires unveiled the racing slick to the dragster scene in 1957. The Racemaster made the company a hot commodity when driver Don Garlits won the first time he used them on his dragster. As competing manufacturers scrambled to create their own racing slicks, M&H continued to create innovative new tires and treads. It's been almost sixty years since the M&H Racemaster's introduction, but the brand remains popular with today's drivers. **Kit features** eight newly tooled 10.50-15 M&H Racemaster drag slicks with precision-printed lettering, soft PVC construction and retro packaging.

AMTPP004/24AMTS0004

AMT® 1/25 Scale Buick® Opel GTs

Fan favorites, fresh from the AMT archives!

The Buick Opel GT made its debut at 1965's Paris and Frankfurt Motor Shows. Initial prototypes emphasized form over function. Production models, however, let drivers choose a 1.1L OHV straight-4 engine or a 1.9L Cam-in-Head engine. One distinctive feature was pop-up headlights, which were manually activated by a lever placed near the center console. Both kits feature a choice of drag, custom or stock versions, multiple engine options, three hood options, multiple tire and wheel options, a newly expanded decal sheet and a collectible 9 x 12" print.

AMT® 1/2500 Scale Star Trek® Cadet Series Ship Set

Three time-tested "Trek" legends

Once "Star Trek" first splashed onto TV screens in 1966, there's been no shortage of spacecraft to spark the imagination. Of course, it began with the Enterprise NCC-1701. On the other hand, how would Captain Kirk spend his time if the Romulan Bird of Prey and Klingon D7 Battle Cruiser didn't exist? **Kit features** three snap-together kits: the Enterprise® NCC-1701, the Romulan® Bird of Prey and the Klingon® D7 Battle Cruiser. The Romulan and Klingon kits are both newly tooled; all three are made from injection-molded white and gray plastic.

AMT763/12 AMTS0763 Skill Level: 2

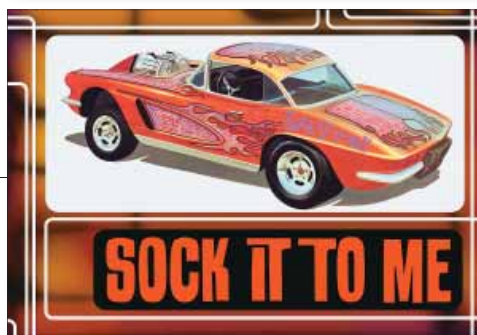

AMT® 1/25 Scale 1962 Corvette®

This sporty classic will sock it to ya!

This unique AMT custom creation – sporting a colorful design and 1960s-inspired "Sock It to Me" graphics – ranks as one of the brand's rarest, most celebrated kits. Now it's back, with updated parts and decals that are sure to send it flying off the shelves! **Kit features** white plastic molding, multiple engine and wheel options, lettered drag slicks, a reproduction "Sock It to Me" sticker and a wildly colorful decal sheet.

AMT803/12 AMTS0803 Skill Level: 2

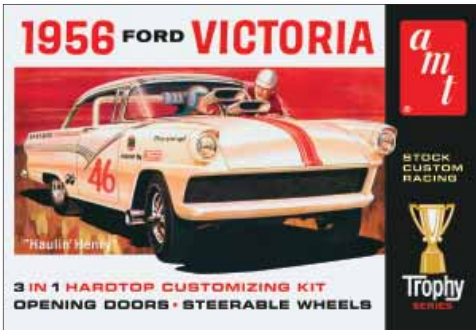

AMT® 1/32 Scale Bigfoot® 4x4 Ford® F-150®

King of the crushers

Bigfoot has been crushing cars and taking names for over thirty years! The world's most famous monster truck was born when Bob Chandler added four-wheel-steering to his 1974 Ford F-250 pickup truck. By 1979, Bigfoot was touring the car show and tractor pull circuit. Its 1981 appearance at a motorsports show in Columbia, Missouri marked the first public "car crush." After this event, Bigfoot's popularity exploded, creating a monster legend in the process. **Kit features** easy snap-together assembly, plastic parts painted in blue, black and white, plus authentic full-color decals.

AMT805/12 AMTS0805 Skill Level: 1

AMT® 1/25 Scale 1956 Ford® Victoria

The collectible coupe comes back.

The Ford Victoria debuted at dealerships during the 1951 model year. It was the first Ford hardtop coupe; its main competition was the Chevy® Bel Air®. Initial sales figures were neck and neck. 110,000 models were sold in the car's first year. The Victoria's V-8 engine contributed to its success; it remains popular with collectors today. **Kit features** white plastic molding, a choice of "stock," "custom" or "racing" versions, opening doors, steerable wheels, drag tires with realistic Firestone® logos, 1960s vintage first-issue box art and a deluxe original decal sheet.

AMT807/12 AMTS0807 Skill Level: 2

Airfix® 1/72 Scale de Havilland Vampire T.11

Sink your teeth into an RAF favorite

De Havilland developed the Vampire in response to Britain's first jet fighter, the Gloster Meteor. The T.11 was distinguished by its two-seat design, which made it an ideal RAF trainer. T.11 versions were equipped with a Goblin 35 turbojet engine that could deliver 3,500 lbf (15.6 kN). One surviving example is operated by England's Vampire Preservation Group. **Kit features** two decal marking options: 1. WZ507, Flown by the Vampire Preservation Group, North Weald, Essex, England, 2012 and 2. WZ590, No. 5 Flying Training School, RAF Oakington, Cambridgeshire, England, March 1962.

Wingspan: 6.3 in (161 mm)

Airfix® 1/350 Scale Type 45 Destroyer

The last word in Royal Navy defense

The launch of the HMS Daring in February 2006 signaled the start of a new era in air defense. This flagship Type 45 destroyer can take on more targets than five Type 42 destroyers put together. The HMS Daring and all subsequent Type 45 destroyers feature the Sea Viper Principal Anti-Air Missile System, which can control and coordinate multiple missiles simultaneously. **Kit features** decal markings for all six Type 45 destroyers: the HMS Daring, the HMS Dauntless, the HMS Diamond, the HMS Dragon, the HMS Defender and the HMS Duncan.

12203 ARXS2203 Total Parts: 203 Skill Level: 3 Length: 17.2 in (436 mm)

Airfix® 1/48 Scale Hawker Fury I

Fear this front-line fighter's wrath

Introduced in 1931, the Hawker Fury was one of the fastest fighter biplanes in the RAF's arsenal. The Fury was the first British fighter to fly past 200 mph (322 km/h) in level flight. Once World War II broke out, however, the aircraft was overshadowed by aircraft like the Gloster Gladiator, Hawker Hurricane and Supermarine Spitfire. One example survives today at England's Duxford Museum. **Kit features** two decal marking options: 1. K5674/G-CBZP, Historic Aircraft Collection Ltd., IWM Duxford, England, 2012 and 2. No. 1 Squadron, South African Air Force, 1941.

04103 ARXS4103 Total Parts: 48 Skill Level: 2 Length: 5.7 in (144 mm)
Wingspan: 7.5 in (190 mm)

Airfix® 1/48 Scale Supermarine Spitfire PR.XIX

Ready for photographic recon

The Spitfire PR.XIX boasted impressive speed and horsepower, thanks to a Griffon 61-series engine with a two-stage supercharger. Later models could hold up to 256 gallons of fuel – three-and-a-half times the original Spitfire’s capacity. These features helped make the PR.XIX particularly useful for RAF photo recon missions in Singapore and China following World War II. **Kit features** two decal marking options: 1. Supermarine Spitfire PR.XIX No. 81 Sq., RAF Seletar, Singapore, April 1, 1954 and 2. Supermarine Spitfire S.31 1st Division Flottilj, Flygvapnet, Nykoping, 1955.

Wingspan: 9.3 in (235 mm)

Moebius® Battle Star Galactica MKI Viper

The original Colonial fighter

There have been seven iterations of the Viper, but the MKI has the distinction of being the template for the entire line. Its distinctive tri-foiled tri-engine design is carried over in every subsequent model and even mandates several design features of the Colonial Battlestars. One radical departure from later designs is that the MKI carries laser weapons instead of the kinetic weapons and missiles of later Vipers. The ship’s onboard fusion reactors recharge the lasers allowing a near endless supply of ammunition at the expense of missile’s stopping power.

940 MOES0940

Moebius® 1/25 Scale International® ProStar® Semi Tractor

The star of international freight hauling

With all of its outstanding features it’s no surprise that the ProStar is one of the best-selling Class Eight trucks in North America. Some of its perks over other semis include reduced wind resistance, decreased cabin noise and increased storage capacity. Plus, its new MaxxForce® Advanced emissions system reduces harmful nitrous oxide emissions by rerouting cooled fumes back into the engine. Slide one of these precision-molded beauties together today! This **kit features** a super-detailed MaxxForce 15 engine, detailed chassis, detailed interior and precision tooled parts.

Moebius® Finished Battlestar Galactica Cylon Raider

The Cylon’s semi-sentient cybernetic soldiers

Whether they are simply vessels for centurions or self-aware cybernetic organisms varies, but one thing is always for sure. Raiders are deadly. They are capable of faster-than-light travel, carry a wealth of heavy armaments and are completely without fear. Fortunately for what remains of the human race, Cylon Raiders aren’t particularly intelligent. They have a set programming list of tactics and responses that they can’t add to until they are resurrected. This enables experienced Colonial pilots to dupe raiders into bad moves and gives humanity a much needed ace-in-the-hole.

Pegasus Hobbies® 23” Volante Chrome Rims with Tires

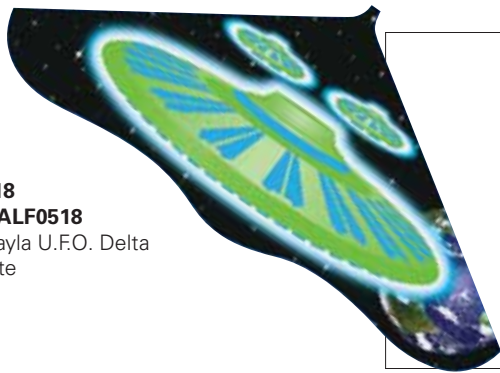

Aesthetically pleasing rims for your 1/24 scale vehicle

Many of the stock wheels that come standard on model kits are serviceable, but not particularly appealing. Pegasus Hobbies manufactures an extensive line of accessories that will help turn a bland kit into a work of modern art. These rims also have thin rubber tires around the outside, which increases your vehicle’s level of authenticity and makes the model look great! Add a little flair to your model with Pegasus Hobbies Rims kits! This **kit features** four chrome wheels with rubber tires.

CREATEFX

WEATHERING
TEXTURING
AGING AND PAINTING

PAINT WITH CreateFX BY TESTORS®

When bland isn't an option

Testors®, the paint you know and trust, is releasing a brand new line of CreateFX paints. What can you do with CreateFX? The real question is, what can't you do? The washes, stains, markers and textured paints of this new line are great for creating depth, adding realistic weathering, aging your subject, and for building texture into your project. In short, it makes whatever you are building look real.

Paints are no use unless you've got the right canvas, right? So what can you use CreateFX on? Well, for starters: school and science projects, military and automotive models, train layouts, dioramas, buildings... you can even use it for bird houses if you feel like it.

When you want to take your most recent project from lame to lifelike, look no further than CreateFX by Testors®.

See GPDealer.com for a complete list of products

Not available to ship into Canada.

Really need an "A" on that science project? CreateFX.

Tiger needing a touch up? CreateFX.

Furnishing a fully-functional fortification? You guessed it: CreateFX.

Long story short...

CreateFX by Testors® delivers truly pristine depth, dimension and realism for your project or passion.
