THE FINEST QUAD SYSTEM EVER FOR AERIAL PHOTOGRAPHERS

Multi-rotor aircraft: they're making news everywhere, and now you can fly one of the most advanced camera-equipped platforms ever developed. The X4 Pro is loaded with features that video and photography enthusiasts will love, and it's available with a dual frequency band (2.4GHz/5.8GHz) transceiver with a 7" touchscreen Android[™] device that's light years ahead of the competition.

- Shoot quality videos with a high-definition 1080p video camera
- Shoot photos with a 12.2 megapixel still camera*
- Get First Person View (FPV) images in real time on the transceiver's large 7" screen*
- Generous signal range for flight control and FPV
- Holds position and altitude for easy framing
- Video transmission downlink is on 5.8GHz, for additional range and picture reliability
- Waypoints System lets you program complex flight patterns using Google Maps™

- Focal Point function lets you take 360° video and photos around a stationary object*
- **Actual Direction option prevents disorientation by** moving the X4 Pro in the same direction as the
- Multiple fail-safe systems automatically bring the X4 Pro home and land it safely
- Flies up to 30 minutes on the included 7000mAh high energy density LiPo pack

You get all this:

- Fully assembled and Ready-To-Fly X4 Pro
- High-definition 1080p camera with a 3-axis or 1-axis gimbal

10-channel, Wi-Fi capable transceiver with internal 7" touchscreen Android device*

Programmable Waypoints Flight System*

3S 11.1V 7000mAh 25C and 2S 5400mAh 1C LiPo* batteries

- 1-3S AC LiPo charger
- Extra set of blades
- Set of blade guards
- Neck strap*
- Sunshield

*Available only on X4 Pro Deluxe version.

Camera/gimbal

The 1080p video/12.2 megapixel still camera downlink on 5.8GHz, for additional range and picture reliability.

HBNE0010

X4 Pro Deluxe w/Touch Screen Tx 1080P Camera & 3-Axis Gimbal

HBNE0020

X4 Pro FPV w/1080P Camera & 1-Axis Gimbal

From the Experts:

The X4 Pro makes it easy to become a first-rate aerial photographer. It comes out of the box assembled with a 1080p HD camera, and you control the action with a handheld, touch screen transceiver for an FPV (First Person View) of your flight in real time. You can frame scenes to perfection by adjusting the camera gimbal, or program the X4 Pro to maneuver and fly by itself. It offers a generous signal range, and by just flipping a switch the "Return to Home" feature brings the X4 Pro back to you using GPS data.

Long story short...

With the X4 Pro you can go anywhere your imagination leads you — and show everyone where you've been!

Diameter (diagonal distance between motor centers): 14.6 in (370 mm) RTFWeight w/no accessories: 2.3 lb (1.06 kg)

Dual slipper clutch

Aluminum machined lower links

Icon Vehicle Dynamics aluminum shocks

4-link suspension - optimized to reduce axle steer & torque twist

From the Experts:

The Axial Wraith™ Spawn is packed with performance features. This full bodied version Wraith retains many of the components that made this vehicle famous. The virtually bulletproof OCP60 axles are ready to take the Spawn through its paces whether blasting through the wide open desert or hammering its way through the toughest rock trails. The 2.2 Maxxis Trepador tires are a proven true grip standard, wrapped around industry proven Method Race wheels. Whether you are rock racing or backyard bashing, the Wraith™ Spawn is ready for action.

Long story short...

The latest version of the Wraith™ is sure to turn heads. The Spawn body shell and interior offer a completely different look for the vehicle while maintaining its traditional unreal off road abilities.

FLY THIS ZERO WITH YOUR FAVORITE RADIO!

16M2 ZERO

- Rx-R flexibility lets you equip this WWII standout with your choice of receiver, battery and charger
- Electric retractable landing gear, replica engine, pilot figure and LED lights
- Assembled, factory-finished AeroCell airframe
- Bomb drop
- Working flaps
- Powerful brushless motor and ESC

FLZA4324 Select Scale Zero Rx-R Wingspan: 45 in (1145 mm) Length: 37 in (940 mm) Weight: 2.25-2.5 lb (1020-1130 g) Requires: 4+ channel radio & receiver, 11.1V 1800mAh LiPo battery, compatible charger

From the Experts:

Flyzone has recreated the iconic Zero with the looks, performance and unique features that made the full-size Japanese fighter one of the most feared warbirds of the South Pacific. The brushless motor delivers plentiful power, and retractable electric landing gear and replica bomb drop add to the model's realism. And because it's Receiver-Ready you have more radio component options!

Long story short...

This Select Scale model of the Zero is ready to fly combat missions after you install your receiver and battery!

POWER AND SPEED WITH CLASSIC BMW STYLE

RS4 CS PORTS

Ready-To-Run 1/10 Scale 4WD EP w/BMW M3 E30 Body

- Fully enclosed 4WD shaft drive
- Sealed metal gear diffs capable of handling brushless power
- Double wishbone suspension
- Powered by an HPI Firebolt 15T motor and waterproof SC-3SWP2 speed control
- Encased pinion and spur gear
- Adjustable battery position for extra traction or more responsive steering
- Fifteen52 Turbomac vintage-style wheels mounted on grippy HPI street tires
- Enclosed receiver box
- Composite oil-filled threaded shock absorbers

HPID4343 RS4 Sport 3 4WD EP RTR w/BMW M3 E30 Body

Length: 16.9 in (430 mm) **Width:** 7.4 in (190 mm) **Wheelbase:** 10 in (255 mm)

- Complete set of ball bearings
- Battery box fits standard LiPos and up to 7-cell NiMH batteries
- Officially licensed, pre-painted and detailed BMW M3 E30 body
- HPI 2.4GHz radio system
- Factory assembled and Ready-To-Run
- Battery pack and charger included
- A full line of option parts is available

From the Experts:

From a performance standpoint, the RS4 Sport 3 is the pinnacle in a touring car chassis! It starts with the highly efficient, fully contained shaft drivetrain — which means no gears, belts or other components are exposed to the elements, rocks or dirt. It's display-worthy, with a licensed replica BMW M3 E30 body and wheels and realistic-looking tires. Plus, it's a complete, all-in-one package with nothing left to purchase.

Long story short...

With its superior speed and handling and licensed scale body, the RS4 Sport 3 will appeal to R/Cers and motorsport enthusiasts alike!

ONE MEAN STREET MACHINE

RSAGE FILLY

Ready-To-Run 1/10 Scale 4WD EP w/Falken Tire Porsche 911 GT3R Body

- HPI Flux MMH-4000kV brushless motor
- Waterproof EMH-3S brushless ESC that's 3S LiPoready
- Fully enclosed 4WD shaft drive
- Sealed metal gear diffs capable of handling brushless power
- Double wishbone suspension
- Encased pinion and spur gear
- Adjustable battery position for extra traction or more responsive steering
- Extra-wide replica BBS racing wheels and slick racing tires

- Enclosed receiver box
- Composite oil-filled threaded shock absorbers
- Complete set of ball bearings
- Battery box fits standard LiPos and up to 7-cell NiMH batteries
- Officially licensed, pre-painted and detailed Porsche 911 GT3 RSR body
- HPI 2.4GHz radio system
- Factory assembled and Ready-To-Run
- A full line of option parts is available

HPID4350 RS4 Sport 3 Flux 4WD EP RTR w/Falken Tire Porsche 911 GT3R Body

Length: 17 in (431 mm) **Width:** 7.5 in (190) **Wheelbase:** 10 in (255 mm)

From the Experts: With its 'urban camo' shark

With its 'urban camo' shark mouth trim scheme, this RS4 Sport 3 on-roader will strike fear into fellow competitors — and then back it up with awesome Flux brushless power that can produce speeds of over 70 mph! The 4WD shaft drivetrain is fully contained to protect against extreme conditions, and threaded shocks and a double wishbone suspension make for smooth handling.

Long story short...

Turn heads while taking the checkered flag with HPI's RS4 Sport 3 Flux racer!

THE BEST WAY TO GET SIDEWAYS

RS4 F DRIFT

Ready-To-Run 1/10 Scale 4WD EP w/Subaru BRZ Body

WATER**PROOF!**

- Powered by an HPI Firebolt 15T motor and waterproof SC-3SWP2 speed control
- Licensed Yoshihara Champion wheels with Falken Azenis drift tires
- Fully enclosed 4WD shaft drive
- Composite oil-filled threaded shock absorbers
- Sealed metal gear diffs capable of handling brushless power
- Double wishbone suspension
- Encased pinion and spur gear
- Adjustable battery position for extra traction or more responsive steering
- Enclosed receiver box

HPID4356 RS4 Sport 3 Drift 4WD EP RTR w/Subaru BRZ Body Length: 16 9 in (430 mm)

Length: 16.9 in (430 mm) **Width:** 7.4 in (190 mm) **Wheelbase:** 10 in (255 mm)

- Complete set of ball bearings

- Officially licensed, pre-painted and detailed Subaru BRZ body
- HPI 2.4GHz radio system
- Factory assembled and Ready-To-Run
- Battery pack and charger included
- A full line of option parts is available

From the Experts:

Sliding into the turns is exciting stuff — and even more so with the RS4 Sport 3 drift racer! Hard compound tires make it easy to get sideways, and they're mounted on licensed silver-colored Yoshihara wheels that complement the sleek Subaru BRZ body. The enclosed 4WD shaft drivetrain and waterproof electronics let you drive with confidence; all-in-one package convenience means there's nothing left to buy.

Long story short...

Experience drifting at its finest with the cuttingedge technology of RS4 Sport engineering!

DESIGNED TO HANDLE, BUILT TO WIN

1/8 Scale 4WD Nitro Buggy Kit

In the hyper-competitive world of 1/8 scale off-roading, it's either evolve and adapt or get left in the dust. Area 51 engineers chose the former, and the result is the RC8B3Team Kit. It's designed from the ground up for optimum weight distribution, ground clearance and overall handling, with a state-of-the-art suspension package that translates into consistent, race-winning performance.

RC8B3 Team Kit shown equipped with items NOT included in kit: engine, exhaust system, receiver battery, Reedy servos, wheels and tires. Body comes clear. Assembly and painting required.

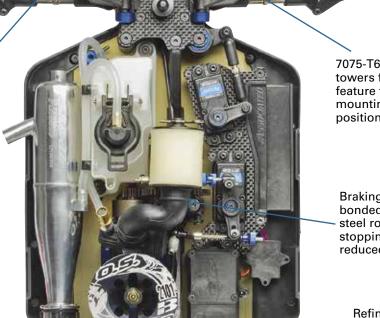

- Lightweight ring gears and optimized precision ball bearing sizing reduces drivetrain rotational mass for improved acceleration and fuel economy
- Gearboxes feature a 3.38:1 internal gear ratio with fast access diffs for quick removal, tuning and maintenance
- Lightweight one-piece wing mounts feature height and forward positioning adjustment for more precise handling
- Carbon fiber radio tray with sealed receiver box keeps dirt and debris from receiver
- Large capacity fuel tank with floating clunk filter and optimized internal baffles keep fuel flowing in the most extreme conditions
- Pro-Line RC8B3 clear body and Team Associated molded wing included

Tech Support 217-398-8970

Front suspension features pillow ball uprights for increased adjustability and improved durability.

> 7075-T6 aluminum 16mm "Big Bore" threaded shocks with TiN-coated 3.5mm shafts and larger diameter precision springs.

Six universal drive shafts for efficient drivetrain power delivery and ease of maintenance.

7075-T6 aluminum shock towers front and rear feature finely tuned shock mounting upper arm positions.

Braking system features bonded pads and machined steel rotors for maximum stopping power and reduced fade.

Refined suspension geometry with lower hinge pin inserts for quick and easy roll center adjustments.

ASCD0914 RC8B3 1/8 Scale 4WD Nitro **BuggyTeam Kit**

Length: 19.2 in (488 mm)

Weight: *

Wheelbase: 12.8-13.0 in (325-330 mm) *Final width and weight will vary with the engine.

Long story short...

The RC8B3 was designed BY 1/8 scale racers FOR 1/8 scale racers, and delivers high performance that will help put you on the podium.

NEWPRODUCT

STERS WITH SERIOU Whether you choose the ghostly flames of Skully or the menacing

stare of Craniac, you'll have a hard-charging monster truck that's ready right out of the box to deliver pure bashing fun! Both are based on the iconic Traxxas Stampede platform that is known for its performance, durability and value.

TRAD03** 36064-1 1/10 Scale **EP Monster Truck RTR Length:** 16.25 in (413 mm) Width: 12.75 in (324 mm)

- Fully assembled and Ready-To-Drive®
- Includes 3000 mAh 7-Cell NiMH Traxxas battery with iD
- Long-range Traxxas TQ™ radio
- 4-amp fast charger included
- Powerful Titan® 550 motor
- Smooth and dependable XL-5® electronic speed control
- Proven durable, brushless ready driveline
- **Fully independent suspension**
- Smooth oil-filled Ultra Shocks
- Hi-torque steering servo
- **Ball-bearing transmission**
- **Revo®-Spec Torque Control™ slipper** clutch
- **Fully waterproof**

Long story short...

Go head-to-head with your friends in monster truck battles pitting Skully against Craniac!

FEEL — AND HEAR — THE DIFFERENCE!

Introducing new features that boost performance and ramp up the realism for Traxxas models! TSM (Traxxas Stability Management) is an electronic handling system that uses sensors to act as a co-pilot, constantly making corrections before the vehicle gets out of control. It provides arrow-straight acceleration, faster corner speeds, harder braking, and more control. TSM can be adjusted from the TQi transmitter's Multi-Function knob from off to maximum stability or any level in between.

Sampled from Traxxas team trucks, On-Board Audio supercharges your driving fun with loud, high-power sound! You control the volume of the engine revving and gears shifting, adding another dimension to your Traxxas R/C experience!

- Prevents fishtailing and spinouts on slippery surfaces, even with full-throttle acceleration
- Faster cornering with more control
- Does not intrude on the driver's control
- Adjusts from 0% to 100% from the transmitter

- Real 900+ HP engine sound
- Authentic gear shifting
- Engine Revving Mode
- Volume control
- Rugged and waterproof

Long story short...

Stability Management and On-Board Audio are fun features that enhance the fun factor of driving Traxxas vehicles!

PICK YOUR POWER FROM NOVAK'S **NEWEST PAIRINGS**

NOVC1848

M2 Dig 3S/Dual Terra Claw 55T **Brushed Combo**

- Unique combo for dual brushed motor and dig control for rock crawling and other precise movement application
- Four throttle profiles: Dig, **Proportional** Dig, Single Output, and **Dual Independent**

NOVC3184

Activ8 V2/4PHD 4-Pole 4x4 SCT Brushless System 5200kV

- Extreme-duty 5A BEC to handle the demands of today's high powered servos
- **On-board** programming for easy customization including electronic motor timing; Pit Wizard Plus compatible

NOVC3128

GTB3/Ballistic Boss VTA Race Combo

- **Premium VTA racing system** that pairs Novak's race-ready GTB 3 ESC with the Ballistic Boss 25.5T VTA motor
- Eleven on-board adjustments maximize on-track performance - no external programming device needed

Crusher Rock Crawler Brushless System 13.5T (2S)

- Rugged sensor-based combo for 2S rock racing, rock crawling, scale, trail hauling, & non-racing 'go-fast" setups
- Complete onboard programming nothing extra needed

NOVC3183

Activ8 V2/Vented Ballistic 550 4x4 SCT Pro System 4.5T

- Activ8 V2 features a dual-level shock absorption system and silicone sealed case to handle the rough terrain
- Compatible with Pit Wizard Plus; motor is ROAR approved for 4x4

NOVC3511

4PHD 4-Pole 4x4 SCT **Pro Brushless Motor** 5200kV

- 4-pole, 12-slot high-torque sensor-based motor (66.5L x 35.9D mm) ideal for pro 4X4 short-course truck racing
- High-temperature 4-pole, precision-balanced Neodymium rotor, Kevlar wound for ultimate ruggedness

Long story short...

From crawling to racing to off-roading, Novak has the high-performance motor/ESC system that will help you get the most out of your model!

THE GASOLINE ADVANTAGE FOR .40-SIZE AIRCRAFT

GGT10 10cc Gasoline Engine

- Easy, glow-driver starting eliminates the added cost and extra weight of ignition modules and batteries
- Runs on available and affordable regular unleaded gasoline
- Included PD-08 regulating pump ensures consistent fuel flow and top performance regardless of tank position, attitude or altitude
- PowerBoost Pipe improves performance at idle, full-throttle and all points in-between
- Includes muffler mounting hardware, drive hub, prop nut and washer
- Forged steel conrod features needle bearings at the bottom
- Same mount size as the 46AX and 55AX for easy retrofits

Long story short...

Starting ease, consistent performance and gasoline convenience and economy make the GGT10 an ideal choice for .40-size planes.

Just Released

Heavy-duty ball cups and ball studs allow for maximum suspension travel while reducing binding and friction

New 3-gear transmission for lower rotating mass and extra acceleration, with a lightweight V2 aluminum top shaft included

Aluminum rear clamping drive hexes with laser etching

By shedding over 75 grams, the RC10B5M Factory Lite comes in at a fighting weight that's sure to make it a winner!

SHARE THE FUN! 9

Bring your friends into the excitement of racing and bashing with ARRMA vehicles!

Once you've experienced the thrill of tearing across rugged terrain, going all-out on any surface and catching big air off of a jump, you'll want everyone you know to get in on the action! ARRMA makes vehicles that make it happen, because they're engineered for maximum durability, performance...and fun! Nothing beats the adrenalin rush of bashing and thrashing in your favorite venue, or trying to "out-do" your friends in offroad adventures, so check out the entire line of quality-built ARRMA vehicles, and spread the word. Remember what your mother told you: it's always better to share!

You get all this — and much more — with every ARRMA model:

- Factory-assembled and Ready-To-Run... just install your battery and go!
- Dual-threat vehicles that are bash-ready and racing-capable
- Equipped with powerful ARRMA brushless motors and ESCs
- Fully waterproof electronics

26

- Premium lightweight anodized aluminum
- Super-tough steel and composite components
- 2.4GHz radio transmitter and receiver

Products for everyone!

There's an ARRMA vehicle for every R/C driver!

GO WITH THE RIDES THAT RULE!

No matter which Team Durango kit you choose, you know it's been race-tested and driver approved!

"This truck absolutely flies great; it's well balanced with no mods needed for weight distribution. When it lands it settles immediately, so you can get right on it and gain time. I'm able to push the envelope and not worry about it. It is very, VERY robust."

Mike Lopes

The results are in: Team Durango's newest kits are a smashing success! Under grueling conditions against top competition, the DEX8, DEX8T, DNX8 and DESC10 proved that they have what it takes to own the podium. Cutting-edge features such as the patent-pending sliding gear mesh deliver the performance and handling racers need to drive with confidence. And legendary Team Durango durability means these models can take whatever is thrown at them, and dish it out as well. When veteran drivers are this excited about a line of R/C vehicles, it pays to take notice!

"These models feel so much more planted and handle rough conditions way better than the old cars."

Stuart Lewis

"Let's just start with this... I LOVE THIS BUGGY! I really like having a car that does what I tell it, and does it RIGHT NOW! I also like NOT having to dig through parts trees to find every little part for every step!

- Brian Malone

Classic conveyance

Designed to take passengers from the train to their destination, the station wagon quickly evolved into the family transport of choice for millions of Americans. The '57 Ford offered both 4-door and 2-door wagons. They featured Ford's new bow-shaped frame, along with a revised suspension for an improved ride. Today, the SUV has largely replaced the station wagon, but you can get your Rio right here! Kit features two optional Rio wagon builds: Police package with roof light, screen, and radio; or standard. Both include detailed 312c.i. Thunderbird V-8, separate frame, and soft black tires.

RMXS4193 85-4193 Total Parts: 156 Skill Level: 3 Length: 8 in (203 mm)

1/24 '55 FORD PANEL TRUCK

Early excellence

Ford Panel Trucks emerged in the mid-fifties as the second generation of the F-100 series. They featured significant improvements to the engine, the chassis, and the overall styling of the model. In addition, they offered increased hauling performance and improved reliability. The panel truck variant made its way into shipping companies and small business all across the country and, eventually, across the world. After only eight years in production, Ford moved on to even bigger and better things. **Kit features** custom interior, bucket seats, low profile tires and styled wheels.

1/32 UH-1D HUEY® GUNSHIP

Icon of an era

The UH-1 Iroquois entered service with the US military in 1952 and very quickly became the lynchpin of a whole new way of waging war. Hueys with different loads and configurations could transport in troops and supplies, pull out the wounded and dead, and provide close air support. They enabled US forces to operate in hotspots across Vietnam. This **kit features** choice of outboard mini guns or rockets, two flight crew figures, separate doors, extensive detail, and two sets of decals.

85-5536 RMXS5536 Total Parts: 139 Skill Level: 2 Length: 15.75 in (400 mm)

1/24 JINX EXPRESS

Golden goer.

The Jinx Express is a rollin' "Fort Knox" from the mind of Tom Daniel and the model makers at Monogram. It has all those "go" details you've come to expect from Tom: zoomie pipes, tinted hood scoop and a big bad engine. But this truck is really a bank. Drop the coins in the top slot and open the combination door at the rear to make a withdrawal. **Kit features** working combination rear door lock, huge rear slicks, roof mounted rear wing, and soft black tires. Molded in silver and green with chrome plated parts.

1/35 ATF DINGO 2 GE A3.3 PATSI

Top dog of the Afghan desert

The total protection, mobility, and speed of the ATF Dingo 2 make it a favorite of its 6-man crews. They are used in Afghanistan where their V-shaped hull mine deflector is constantly tested by ever more damaging types of IED. Though it is principally a transport, the Dingo is armed with a FLW 200 weapon platform which allows an operator to use either a .50 cal machine gun or 40 mm grenade launcher without exposing himself to fire. Kit features open/closed doors, detailed interior, detailed weapons choices, hard-top cargo cover, and three sets of decals.

1/144 AIRBUS A320 ETIHAD

First to Fly by Wire

Though there are tons of outstanding features of the Airbus A320, it's most innovative characteristic is the use of fly-by-wire controls. This control type uses electrical signals rather than metal wires or hydraulics, cutting the weight and increasing the efficiency of aircraft. Though fly-by-wire had been used on fighter jets for years, the Airbus A320 was the first commercial jet liner to embrace it. Etihad Airways, based out of Abu Dhabi, flies the highly efficient and versatile Airbus A320 on many of its most popular routes.

1/144 MIG-31 FOXHOUND

Perceptive Interceptor

Of all the features that make the MiG-31 Foxhound stand out, its Passively Electronically Scanned Array Radar is perhaps the most game-changing. This array allows the MiG-31 to scan a huge swath of sky, simultaneously engage multiple targets, and guide onboard long-range missiles in to the target. Despite being nearly thirty years old, this airframe is still one of the most lethal aircraft in the world and a world record setter as well. Kit features undercarriage for ground display, external stores pylons, guided missiles, and decals for a Russian Air Force Foxhound.

1/72 C-54 SKYMASTER

Berlin's bread and butter

Though the history of the C-54 was long and varied, it was the Skymaster's service during the Berlin Airlift that was the most pivotal. At 10 tons a flight, the Skymaster and accompanying aircraft were able to deliver nearly two-and-a-half million tons of supplies in just under a year. The reliability, lift capacity, and speed of the four-engine Skymaster, coupled with the determination of air crews, ground crews, and civilians, enabled the US and Britain to pull off the single greatest feat in aviation history.

1/142 NORTH SEA FISHING TRAWLER

Fish beware!

From Newfoundland to Norway the European fishing fleet operates daily, battling against the elements of the pitiless sea. On a three week trip, the trawler will only fish for about one week. The other two weeks will be spent travelling to and from the fishing grounds. This trawler is equipped with electronic navigation aids, echo sonar and a system which shows the density of an incoming shoal of fish. **Kit features** inflatable life raft containers, radar masts, life boat, double cable winch, two figures, and decals.

1/72 KAWASAKI® KI10-IITYPE 95 FIGHTER COMBO

The IJAAF's final fighter bipe

Designed by engineer Takeo Doi, the Ki-10 was the last fighter biplane used by the Imperial Japanese Army Air Force. It boasted fabric-covered, all-metal construction, along with twin 7.7 mm (.303 in) Type 89 machine guns which were synchronized to fire through the three-bladed prop. 280 Ki-10-II aircraft in all were built by Kawasaki between June 1937 and December 1938. This limited edition **kit features** two Kawasaki Ki-10-II Type 95 Fighter kits, along with two marking options: 1. IJAAF 2nd Air Battalion, Code: Ha and 2. IJAAF 77th Flight Regiment.

NEW RELEASES

1/12 HONDA® NSR500 "HB HONDA" 1989 WGP500

More muscle per mile

The Honda NSR500 was already a champion by the time it was revamped for the 1989 season. Top speed exceeded 190 mph (310 km/h); horsepower was rated at 165 hp (123 kW) at 12,000 rpm. With so much muscle per mile at his disposal, it's no wonder the Honda NSR500 carried Pierfrancesco Chili to a sixth-place finish that season! This limited edition **kit features** new wheel parts, plus one marking option: 1. Team "HB Honda," 1989 WGP500, 6th place rider: Pierfrancesco Chili.

21714 (Limited Edition) HSGS1714 Total Parts: 179 Skill Level: 3

1/72 F-14A/B TOMCAT "VF-74 BE-DEVILERS ADVERSARY"

Testing out the "Toms"

VF-74 Be-Devilers were the first US Navy Squadron to fly the Phantom II and the first to fly the F-14 Tomcat. They flew these astounding aircraft in many high-profile missions during Operations Desert Shield and Desert Storm. Towards the end of the unit's service, they flew their F-14 Tomcats in the adversary role to help keep other units sharp. After fifty years in service, VF-74 was inactivated in 1994. This limited edition **kit features** two sets of Be-Devilers decals.

02152 (Limited Edition) HSGS2152 Total Parts: 211 Skill Level: 3

1/72 P-51B/C MUSTANG "AIR RACER"

Breaking barriers, one flight at a time

To say Jacqueline Cochran made aviation history is an understatement. Not only did she set multiple speed and altitude records, but she also won five Harmon Trophies for her outstanding piloting skills over the course of her career. This two-kit combo recreates two airshow P-51 Mustangs once flown by the legendary "Speed Queen." This limited edition kit combo features new resin dorsal fin and fuselage bulge parts, plus two marking options: 1. P-51C: Jacqueline Cochran, Code: 90, THUNDERBIRD and 2. P-51B: Jacqueline Cochran, Code: 13.

02155 (Limited Edition) HSGS2155 (2 kits) Total Parts: P-51B 52, P-51C 53 Skill Level: 3

1/72 MITSUBISHI G3M3 TYPE 96 ATTACK BOMBER

Further and faster

Designed to bring strategic bombing support to the armies and navies of Imperial Japan wherever they conquered, the G3M3 was ahead of its time. It eschewed armor and defensive armament in favor of speed and multi-mission flexibility. Although this was its greatest innovation, it was also the type's greatest downfall. Without self-sealing fuel tanks and with light defensive armament, the type could be brought down by relatively slight damage. It was considered antiquated by WWII, but fought on nonetheless. This limited edition **kit features** two sets of decals.

02156 (Limited Edition) HSGS2156 Total Parts: 122 Skill Level: 3

NEW'RELEASES

1/72 F-4EJ KAI PHANTOM "302SQ 40TH ANNIVERSARY"

Four decades of domination

Phantom II aircraft were the last aircraft to be flown by aces in the twentieth century—carrying numerous pilots to the five kill mark and beyond. They set sixteen world speed and altitude records that stayed in place for decades. They were America's most commonly produced supersonic aircraft. Though they have been phased out of use by the American military, nearly one hundred of these exceptional craft still provide air reconnaissance for the JASDF. This limited edition **kit features** decals for 302nd SQ JASDF 40th anniversary.

02161 (Limited Edition) HSGS2161 Total Parts: 117 Skill Level: 3

1/72 TBF/TBM AVENGER & F6F HELLCAT

Conquest through confusion and calamity

The Philippine Island Chain was essential to Imperial Japanese war plans. It sat astride the shipping lanes that kept Japan supplied with oil. U.S. forces were sent to capture the islands and the IJN was determined to stop them. The resulting "Battle of Leyte Gulf" was one of the most confusing surface actions ever fought, but one thing was clear—American airpower enabled our forces to find, strike, and destroy the IJN in detail. This limited edition kit combo features two aircraft with three sets of decals for each.

02162 (Limited Edition) HSGS2162 (2 kits) Total Parts: 46 + 38 Skill Level: 3

1/72 P2V-7 NEPTUNE "VSA"

Favored by the 51st

The original P-2 Neptune was first developed for the US Navy to serve as a land-based anti-submarine patrol aircraft early in the Cold War. However, it wasn't exclusively flown by the US 51st Squadron pilots from the Japan Maritime Self-Defense Force (JMSDF) were specially trained to test and evaluate P2V-7 Neptune aircraft from spring 1963 through fall 1981. This limited edition **kit features** new resin vertical fin and metal sensor parts, plus one marking option: 1. JMSDF 51st Sq., Code: 4655, Shimohusa AB.

02150 (Limited Edition) HSGS4016 Total Parts: 123 Skill Level: 3

1/48 "SHIDENKAI NO MAKI" NAKAJIMA KI44-II SHOKI (TOJO)

Fun with firepower

Shidenkai No Maki, a Japanese manga which features aerial combats to the death between high school girls, will really flip your lid. It's the newest dish to be dreamed up by Takeshi Nogami and we're serving up plastic models to go with it! If you're not into anime, you can still enjoy this cool model of one of the most sophisticated late-war Japanese fighters. These birds were heavily armed and capable of engaging the hitherto untouchable B-29. This limited edition **kit features** decals for two high school pilots.

1/48 LAVOCHKIN LAGG-3 "FINNISH AIR FORCE"

Fight to the Finnish

The Lavochkin LaGG-3 was distinguished by wood-laminate construction, which added durability, plus two 12.7 mm Berezin UBS machine guns that delivered more burst mass than any other Soviet fighters of its era. The Finnish Air Force captured three LaGG-3s during the war, where they were primarily used as a bomber interceptor. Over 6,500 LaGG-3s were produced from 1941 until 1944. This limited edition **kit features** two marking options: 1. LaGG-3 early type, Finnish AF, LeLv 32, Code: LG-1 and 2. LaGG-3 late type, Finnish AF, LeLv 32, Code: LG-3.

07400 (Limited Edition) HSGS7400 Total Parts: 67 Skill Level: 3

1/48 NAKAJIMA B6N2 CARRIER ATTACK BOMBER **TYPE 12**

The IJN's tough torpedo-bomber

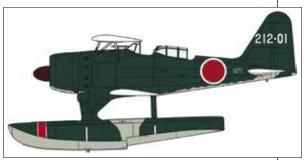

Nicknamed "Jill" by the Allies, the Nakajima B6N2 carrier-based torpedo bomber was distinguished by its swept-forward tail fin and rudder. Nine B6N2s were among the extensive fleet of aircraft found on the Japanese aircraft carrier Amagi. However, the majority of B6N2 launches were made from land, not sea. This limited edition kit features torpedo and bomb parts, plus two marking options: 1. IJN 601st NFG, Code: 601-312, Carrier Amagi, Jan. 1945 and 2. IJN 601st NFG, Code: 601-76, 601-35, Katori AB. March 1945.

NEW/RELEASES

1/48 MITSUBISHI F1M2 ZERO OBSERVATION SEA

Eyes in the air

Useful for spotting the enemy, spotting the fall of heavy artillery and redirecting shots, and shooing off enemy aircraft, the seaplane was considered an essential part of naval strategy before the perfection of long-range radar. As floatplanes went, the F1M2 was a fairly good aircraft. It had a 230mph top speed, three machine guns, and long range. However, the F1M2 was simply outnumbered by the hundreds of aircraft directed at the battleship Musashi during the Battle of Leyte Gulf. This limited edition **kit features** an F1M2 with four sets of decals.

07408 (Limited Edition) HSGS7408 Total Parts: 124 Skill Level: 3

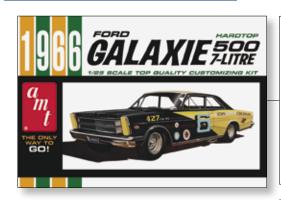

1/48 F6F-3 HELLCAT "USS ESSEX"

Giving them Hell

For its actions during WWII, the USS Essex received 13 Battle Stars. The Essex and her air wings participated in some of the most costly and critical engagements of the entire war—at Wake, Tarawa, the Marshall Islands, Saipan, Guam, Tinian, Peleliu, and more. Along the way the fast, lethal Hellcat proved its value by shielding the home carrier from virtually every attack while smashing the opposition. Their combination of superior speed, superior armor, and superior pilot training made them the absolute masters of the air by 1944. **Kit features** two sets of decals.

AMT® 1/25 1966 Ford Galaxie

Can't spell, but it can speed

The head of the full-size Ford lineup in the halcyon days of the space race, Ford Galaxies were still going strong into the mid-seventies. They featured many styling and engine options throughout their production span but the improved engines and suspension of the '66 model led many to become racing cars. Now you can build this AMT Galaxie in stock, custom, or racing format. This Retro Deluxe **kit features** chrome parts, full decals, vintage artwork, and a bonus mini box.

AMT904 AMTS0904 Total Parts: Skill Level: 2

AMT® 1/25 1941 Ford Woody

Wooden wonder

The all-wood bodied Ford station wagon is an iconic symbol of 40's era American culture. On the coasts they became part of the developing surfer culture, and in America's bustling heartland they served in their traditional role—conveying passengers from train stops to their destinations. Within a decade the impressive all-wood bodies of the "Woody" would be replaced by metal frames with imitation wood grain, but for now they maintained the elegance of real wood. **Kit features** separate frame, full interior, wood grain decals, and a bonus surfboard.

AMT 1/25 Tee Vee Dune Buggy

Swift on the sands

Dune buggies deliver high speed and high grip on shifting beach or desert sand. They are built in a wide variety of styles, often chopped down from full-size vehicles or even built from scrap, but they all have one thing in common—fun. There's nothing quite so thrilling as zipping down the beach in an open-air vehicle, so build your mini masterpiece today!

AMT907 AMTS0907

Dragon Models® 1/35 M1A2 SEP

Making the best better

The Abrams main battle tank is one of the most incredible machines ever deployed by any army. Upgrade packages like SEP (System Enhancement Package), as well as the upgrade to M1A2 standard, keep it on the cutting edge of military technology. Improved maps and communications systems allow the SEP versions of the Abrams to be more aware of the flow of battle around them. The M1A2 itself had already been upgraded with independent commander's thermal sights and other improvements. **Kit features** extensive details and full decals.

3536 DMLS3536 Total Parts: 152 Skill Level: 3 Length: 9 in (228.6 mm)

Lindberg® 1/35 USSR T-55 Tank

Driven to destroy

The frenetic development of tanks during WWII produced the T-54, but the subsequent peace and then Cold War gave the USSR the time necessary to build a truly outstanding machine. T-55 tanks were an evolution of the T-54, with better NBC protection, improved engines, improved range, improved ammunition, and more. The vehicle was so revolutionary that it is still seen on the front lines of conflicts today, sixty years after its introduction.

HL415/12 LNDS0415

Lindberg Models 1/1200 Table Top Navy US Warships (2 Kits)

Big bad boats of WWII

USS North Carolina, a battleship launched in 1940 and USS Intrepid, a carrier launched in 1943, both made sterling contributions to the war effort. North Carolina served in most major campaigns of the Pacific War, bombarding enemy strong points and providing anti-aircraft fire. Intrepid launched aircraft in support of the Island Hopping campaign and was instrumental in winning some of the most significant battles of the war. **Kit features** two warships with full hull or waterline hull options.

HL419/12 LNDS0419

Maisto® 1/24 AL 2015 Ford Mustang

Stylish speed

The Mustang was designed to be the vehicle that anyone in America could afford. It became the vehicle that everyone in America wanted. Mustangs have called Americans out onto the open road for generations. Now you can build this model of the latest and arguably greatest of all Mustangs, the 2015. **Kit features** metal body with plastic parts. No glue or paint required.
