SEE YOUR WORLD FROM A DIFFERENT ANGLE

DRONEVIEW

FPV Wi-Fi Mini Camera

Shown actual size

All you get

TACZ1000 DroneView FPV Wi-Fi Mini Camera

Dimensions: 30 x 65 x 12mm
(1.18 x 2.56 x .47 in)

Photo megapixels: 1

Video resolution: 720p HD

Run time: 45-60 minutes

- Can be mounted on a drone, bicycle, skateboard or any R/C aircraft, or vehicle
- Shoots clear 720p HD videos and still images
- 4GB Micro SD Card included (works with up to 32GB)
- Powered by on-board battery—includes charge cord
- Download or stream images/video with the free DroneView App

From the Experts:

It's the mini-sized camera for any and all R/Cers, hobbyists or action video enthusiasts! The DroneView is small and lightweight, so you can attach it to your bike, board or any R/C model — and it's FPV capable with the free DroneView app. Enjoy exciting videos and still shots, all at an affordable price!

Long story short...

Get a unique perspective on your world with the DroneView Mini Camera — wherever you are!

TACTIC™

THE ULTIMATE BEGINNER FRIENDLY DRONE!

protoZTM
READY-TO-FLY MICRO-SIZED DRONE

ESTE4611 Proto-Z Micro Drone RTF
Diagonal: 100 mm (3.9 in)
Weight: 17 g (0.59 oz)
Requires: (2) "AAA" batteries

- › Great for indoor use — flies up to 5 minutes on a fully charged pack!
- › Includes four LEDs for easy orientation by day and easier tracking at night
- › Moves up and down, forward and backward and flips with the touch of a button
- › Simplifies flying with True Direction mode that makes the Proto-Z move the same way you move the control sticks
- › The PERFECT beginner drone—Ages 8+

4 bright LED lights!

Ideal for indoor flying!

Fly with friends!

Exciting flips with the push of a button!

Fast charging gets you back in the air quicker!

True Direction mode makes flying easy for beginners!

In addition to the assembled Proto-Z drone with multi-colored LEDs and built-in 110mAh LiPo flight battery, you also get a 2.4GHz controller, USB charge cord and 4 extra propeller blades.

ONE-BUTTON FLIP!

The included controller lets you fly the Proto-Z in normal flight mode or True Direction™ mode. Auto-Flip buttons offer instant aerobatics.

From the Experts:

There's no doubt about it: the Proto-Z is the fastest, easiest and most economical way to start enjoying drone flying. The controller lets you control the Proto-Z in normal flight mode or True Direction mode – whichever is easiest for you. The flight battery is built-in; connect it to a USB port and it will be fully charged in just minutes.

Long story short...

The Proto-Z is a blast of micro-sized fun!

Have fun responsibly.

THE DRONE ANYONE CAN FLY

GHOST™

FLY INTO THE FUTURE

It's here: a drone that can safely be piloted with a smartphone or tablet. In less than a minute the GHOST can be airborne, with no previous experience required, and it flies intuitively with 1-click commands. It's the most user-friendly aircraft ever designed, and everyone is going to want one!

Control any of these functions with just one tap of the screen:

Unlock

Takeoff

Return

Land

Auto Follow

Hover

Camera not included

Plot a course with one click

Navigation is a breeze with the GHOST. Just touch a spot on your device's onscreen map and the GHOST will automatically fly there.

Taking the selfie to new heights...literally

Imagine walking, running or bicycling and having your GHOST automatically follow you wherever you go. You can, and the camera will always be focused on you.

Micro Control Mode

Adjust the GHOST's position in any direction over shorter distances.

Drone Control

Moving the vertical bar controls altitude, while moving the horizontal bar rotates the platform.

Camera Control

Another set of bars allows you to tilt the camera up and down, or pan left and right.

Constant, real-time flight data

The G-Box connects wirelessly with your phone/tablet, offering strong, interference-free operation with an impressive range of up to 1,000 meters.

App Store is a service mark of Apple Inc. Android and Google Play are trademarks of Google Inc. GoPro is a registered trademark of GoPro, Inc. IOS is a trademark or registered trademark of Cisco in the U.S. and other countries.

From the Experts:

For many the thought of piloting a drone seemed out of reach...until now. Now virtually everyone can fly one, because you control the GHOST through an app on your mobile device — using one-click commands to navigate it while shooting video footage!

Long story short...

The GHOST is revolutionizing the fun of flying, letting anyone with a smartphone or tablet pilot a drone!

AN INCREDIBLE VALUE IN 6-CHANNEL CONTROL

T6K

6-Channel Computer System w/R3006SB Receiver

Program navigation is easy and intuitive with the jog dial, +/- pads and end pad.

The antenna is inside the transmitter case for safety and handling convenience.

This variable rate dial can be programmed to perform different functions; a speaker allows for telemetry voice feedback and audio alarms.

Four assignable switches (three 3-position and one 2-position) offer maximum flexibility.

- S-FHSS/T-FHSS selectable
- Telemetry system (T-FHSS) sensors provide pertinent data on receiver battery voltage, external voltage, temperature, RPM, altitude and variometer
- S.Bus/S.Bus2 servo setting functions programmable through the transmitter
- 30 model memory
- Model naming up to 8 characters
- Programmable mixing for airplanes, helicopters, glider and multi-rotors
- Digital trims with variable step settings
- Switch/VR position change and AUX channel function change
- Throttle position warning
- Software is updateable through the CIU-2
- 128x64 DOT backlit LCD screen with adjustable display contrast
- Alarms can be preset to vibration mode
- Conveniently located Earphone/Trainer/S.Bus jacks
- Adjustable stick length and tension
- The R3006SB receiver can use S.Bus as the main link/communication to the servos or a combination of S.Bus and the conventional outputs together

FUTK6100 6K 2.4GHz Computer System w/R3006SB Rx-Air
FUTK6110 6K 2.4GHz Computer System w/R3006SB Rx-Heli

From the Experts:

You'll be hard pressed to find another 6-channel system with as many functions as the 6K at a comparable price. Telemetry sensors keep you up-to-date on critical flight data, and S.Bus servos can be programmed through the transmitter. Controls are positioned to be within easy reach, and the menu is a breeze to navigate!

Long story short...

With its exceptional versatility, the 6K meets the control needs of a wide range of R/C pilots.

Futaba

THE RADIO FOR UP-AND -COMING PILOTS

T18SZ

18-Channel Computer Radio System

- Select between FASST, FASSTest, S-FHSS and T-FHSS (Telemetry)
- Telemetry sensors provide in-flight data on temperature, RPM, altitude, voltage, GPS and more
- 4.3 inch full color LCD touch screen
- Faster processing due to touch inputs on the screen
- 8 full transmitter conditions
- Telemetry voice message
- 30-model internal memory, expandable with a memory card
- 15-character model/user naming
- Updateable software
- 2 side levers/6 digital trims/8 toggle switches
- 10 Programmable Mixes
- Data editor for S.Bus programming
- Battery fail safe
- Earphone jack
- Up/down timer (2), system timer and model timer
- 13 airplane wing types, 8 heli swash types and 13 glider wing types

FUTK9510 18SZA 2.4GHz Computer System w/R7008SB Telemetry-Air
FUTK9511 18SZH 2.4GHz Computer System w/R7008SB Telemetry-Heli

The 2100 mAh LiFe battery delivers 7 to 8 hours of flight time.

Left and right sliders offer analog input.

Quad bearing gimbal sticks for incredibly smooth operation.

View all of the 18SZ's telemetry functions on the 4.3" wide full-color LCD screen.

The Home/Exit and User Menu buttons are strategically located for quick and easy access.

Jacks for S.Bus servo programming and trainer system are located on the back panel for convenience and protection.

From the Experts:

When you step up to the 18SZ, you're getting an elite system designed to take you to the next level of R/C flight. It boasts telemetry, a feature requested by more and more modelers, so you'll have valuable data at your fingertips while you're flying. Plus, it has a full-color LCD screen, super-quick programming — and is selectable between three protocols!

Long story short...

The 18SZ delivers the functions flyers demand — along with real value!

Futaba

THE DURABLE DRONE THAT'S FLAT-OUT FUN!

DROMIDA

VISTA™ UAV

251 mm Intense Performance Drone

All batteries included!

Ready to Fly, nothing to buy.

Execute flips by pushing the Auto Flip button.

Reliable 2.4GHz control eliminates signal interference.

Gyro stabilization makes every flight smooth and level.

Tough construction makes the Vista extremely durable.

DIDE03** Vista UAV Drone RTF
Diagonal: 251 mm (9.8 in)
Weight: 122 g (4.3 oz)
Requires: nothing!

- ▶ Customize flights to your experience level with Easy, Normal, Advanced and Expert flight modes
- ▶ Advanced stabilization, with a three-axis gyro and three accelerometers
- ▶ Long flight times – spend more time in the air instead of charging
- ▶ Bright LEDs for easy tracking, day or night
- ▶ An ergonomic radio with Secure Link Technology, digital trims, selectable flight modes, auto-flip, dual rates and more

Add First Person View to your Vista UAV with this Conversion Kit featuring the Tactic DroneView camera and free app!

Mount the small, lightweight onboard Tactic DroneView Wi-Fi® HD camera on your Vista UAV drone, and begin gathering aerial intel! Shoots HD 720p HD videos in real time, as well as 1MP photos. Kit comes with ISO anti-vibration mount, micro memory card for downloading via the free DroneView app, and smartphone holder.

DIDE1199
Vista FPV Conversion Kit
w/Tactic DroneView Camera & Free App

You get all this with the Vista UAV:

- ▶ Fully assembled Vista UAV drone
- ▶ "AAA" batteries
- ▶ Extra set of blades
- ▶ 2.4GHz SLT radio system
- ▶ Screwdriver
- ▶ Rechargeable LiPo battery and USB charger

"AAA" batteries for the transmitter are included. The lightweight LiPo pack delivers up to 15 minutes of flight time per charge – and recharging for the next flight is fast and easy. Just plug the battery into the high-output charger, and plug the charger into a handy USB port. The A/C USB charger adapter is available separately (DIDP1125).

From the Experts:

The Vista UAV's four flight modes let you choose your comfort level, and it's as durable as it is easy to fly. The Auto-Flip button adds instant aerobatics, and everything you need is included for fun-filled flying from the minute you take it out of the box!

Long story short...

The Vista UAV is the durable drone for flat-out fun!

Wheelbase: 11.2-11.37 in (285-289 mm)
*Final width and weight will vary based on the
actual electronics and tires used to complete the kit.

- Advanced mid-motor design developed and applied to the race-winning RC10T truck platform
- Narrow, hard-anodized aluminum chassis with centralized mass and mid-motor position for improved handling on high-grip off-road tracks
- Four-gear transmission with lighter aluminum top shaft, stronger gears, precision ball bearings and a 14-carbide ball differential for longer life and increased torque capacity
- Chassis accepts ROAR-approved 2S saddle packs and 2S short packs using the optional foam insert
- Adjustable front suspension mount angle (kick-up) options of 25° and 30°
- One-piece front axle/hex adapter and larger front wheel bearing for added durability
- Full bearing steering system with horizontal ball studs for finer Ackermann adjustments
- Heavy-duty ball cups and ball studs allow for maximum suspension travel while reducing binding and friction

Updated steering system with updated ball stud mounts for finer Ackermann adjustments

Hard anodized aluminum chassis with centralized mass and mid-motor position

Steering and caster block insert system allows for easy caster and trailing axle adjustment

Clear Pro-Line T5M body included

Rear hubs feature larger bearings and insert system to adjust camber link and toe-in

Updated 4-gear tranny with aluminum top shaft, stronger gears and carbide ball bearings

Factory Team V2 12mm Big Bore threaded alum. shocks with 3mm shafts

Aluminum rear ball stud mount for added strength

Estes continues to impress, with premium rockets that will send modelers into the stratosphere!

Long story short...

Whether you like uniqueness or scale detail, Estes has the rockets you need to fill up on fall fun!

1/25 BRE DATSUN 240Z

Delightfully different Datsun

In 1965, working with a select group of car manufacturers, Pete Brock started Brock Racing Enterprises. In 1969, BRE, working exclusively with Datsun, began a string of championship winning years. For two years, the BRE Datsun 240Z driven by John Morton won the intensely competitive C Production class. **Kit features** a detailed 6-cylinder racing engine, vinyl oil lines, front and rear spoilers and soft black tires.

85-1422 RMXS1422 Total Parts: 105 Skill Level: 3 Length: 6.6 in (168 mm)

1/25 STARKY AND HUTCH™ FORD TORINO

Bad guys better beat it

Released for four seasons in the seventies, the Starsky and Hutch series took the cop drama genre and ran with it. The show featured drug use, shoot outs, and lots and lots of car chases featuring the signature bright red "striped tomato" Ford Torino owned by Starsky. Any criminal would know from a mile away who was driving up in the bright red Torino, but a 351 c.i. engine with dual carbs let the partners catch up. **Kit features** police radio, dome light, detailed chassis and engine, plus slotted mag wheels.

85-4023 RMXS4023 Total Parts: 88 Skill Level: 2 Length: 8.6 in (217 mm)

1/25 2014 CORVETTE® STINGRAY™

Stingray means style

The all-new 2014 Corvette® Stingray™ is the seventh generation of America's sports car. The first Corvette in 1953 was a groundbreaking vehicle, and the 2014 Corvette continues this tradition. The "cutting edge" design of the C7 Corvette® makes use of the most advanced materials available today. These include aluminum, carbon fiber and Aerogel, to name a few. The performance results are just as impressive, with a 0 to 60 mph time of only 3.8 seconds. **Kit features** a detailed LT-1 V-8 engine, multi-piece chassis, and metal axles.

85-4350 RMXS4350 Total Parts: 56 Skill Level: 3 Length: 6.9 in (176 mm)

1/25 PORSCHE 914/6 2N1

Standout sixties six-cylinder

In collaboration with Volkswagen, Porsche developed the 914 to expand their lineup in the late sixties. It was a sporty mid-engine car that was exceptionally low slung and came with a Targa top. The standard 914 came with a 4-cylinder engine while the 914/6 was powered by an exceptionally robust 6-cylinder. The 6-cylinder version won topped its class in the 1970 24 Hours of Le Mans and placed 6th overall. Either version was sophisticated, sporty, and stylish. This **kit features** factory stock and road race versions, detailed 6-cylinder engine, removable Targa top and engine cover.

85-4378 RMXS4378 Total Parts: 97 Skill Level: 3 Length: 6.25 in (159 mm)

1/25 "FAST AND FURIOUS" BRIAN'S MITSUBISHI ECLIPSE

The "Fast" in "Fast and Furious"

At the beginning of "The Fast and Furious" film franchise, Detective Brian O'Conner is sent to investigate a band of high-speed thieves and underground road racers lead by Dominic Toretto. To fit in with the illegal racing crew, Brian needs a solid racing car—his custom-built Eclipse. With it, he is able to work his way deeper into the trust of the Toretto team. **Kit features** a detailed DOHC 16-valve 2-liter turbo engine, choice of wheels, interior detailing, nitrous bottle, and soft black tires.

85-4384 RMXS4384 Total Parts: 91 Skill Level: 2 Length: 6.88 in (175 mm)

1/16 KENWORTH® W-900 AERODYNE CONVENTIONAL

Quality that's far from conventional

When buying a Kenworth Aerodyne, you chose from a long list of options to customize your ride into something that really reflected your personal style. In all cases, the final result was a quality truck backed by an 80 year history of Kenworth/PACCAR craftsmanship. The W-900 truck model was powered by an epic, 450 horsepower, 1099 ci engine that delivered the power you needed for long hauls across America. **Kit features** detailed turbo-diesel engine, air bag suspension, dual exhaust stacks, air cleaners, hinged front hood, and soft black tires.

85-2508 MONS2508 Total Parts: 278 Skill Level: 3 Length: 20 in (508 mm)

REVELL OF GERMANY®

1/72 GTK BOXER FÜFZ A1

Multi-mission military masterpiece

Everyone knows that the Germans make outstanding vehicles, and they have proven it once again with the GTK Boxer. This impressively modern vehicle can be equipped with multiple mission modules to support a wide variety of tasks on the battlefield. It excels as an armored personnel carrier, infantry fighting vehicle, gun and mortar carrier, and more. The FüFz version is primarily a command unit, equipped with communications gear and sophisticated situational awareness equipment. **Kit features** modular construction, weapons station, driver compartment, moveable hatch, and decals for two versions.

03209 RVLS3209 Total Parts: 120 Skill Level: 4 Length: 4.37 in (111 mm)

1/35 T-34/76 (MODEL 1943)

Roll over the Reich

In the midst of Operation Barbarossa, German forces came up against the T-34 for the first time. It was a shock, to say the least. Its combination of firepower, mobility, and armor made it practically invulnerable to virtually every form of Axis anti-tank weapon. Short of an air strike or a good shot with an 88, the T-34 was uncontested. It held up the German onslaught for crucial months and, with over 30,000 sent to the field, rolled the Germans all the way back to Berlin. **Kit features** rotating turret, adjustable gun elevation, vinyl tracks and two sets of decals.

03244 RVLS3244 Total Parts: 183 Skill Level: 5 Length: 7.48 in (190 mm)

1/144 F-16 MLU TIGERMEET

Tuning up a tiger

The F-16 is one of the most successful combat aircraft in the world. It stays cutting edge with updates like the MLU (Mid-Life Update) which added night vision goggle compatibility and a helmet mounted cueing system as well as higher speed and memory for the type's fire control radar. For the NATO TigerMeet 2014 in Schleswig/Jagel the 31st Tiger Squadron of the Belgian Air Force presented an F-16 MLU in a striking tiger livery. **Kit features** detailed surfaces, AIM 120 guided missiles, detailed cockpit and undercarriage, center and wing fuel tanks, and decals.

03971 RVLS3971 Total Parts: 68 Skill Level: 3 Length: 4.13 in (105 mm)

1/72 BAE HAWK T.1 RED ARROWS

Performance perfect

The RAF Red Arrows display team flies the BAe Hawk in air shows all across the globe. In every demonstration, the pilots withstand incredible g-forces while maintaining formation through seemingly impossibly complex maneuvers. Through it all, the pilots rely on skill, training, and the exceptional qualities of their machines to survive and put on an unforgettable show. Only nine pilots in the whole world get to be a part of the Red Arrows, but you can be part of the action when you build one of their signature BAe Hawk Trainers.

04921 RVLS4921 Total Parts: 100 Skill Level: 5 Length: 6.3 in (160 mm)
Wingspan: 5.2 in (132 mm)

1/72 EC135 NEDERLANDSE TRAUMA HELICOPTER

Ride of your life

The EC135 is one of the most modern light utility helicopters in the world. The spacious interior makes it possible to carry a wide variety of rescue equipment and still transport personnel. Thanks to a "Fenestron" shrouded tail rotor, this helicopter can fly where other helis can't. ANWB Medical Air Assistance uses several EC135s as emergency rescue helicopters. They carry on-board emergency doctors to greatly increase the chances of patient's survival. **Kit features** cockpit with instrument panel, detailed interior, rotating rotors, and decals.

04939 RVLS4939 Total Parts: 65 Skill Level: 3 Length: 5.6 in (143 mm)

1/24 PORSCHE 918 SPYDER

And YOU can't have it

It is one of the fastest production cars in the world, with a top speed of 211 mph and a 0-60 of just under three seconds. It is also incredibly fuel efficient—getting roughly 85 mpg from its combination of V8 engine and front and rear electric motors. Stylistically, it is a thing of incredible beauty. Want one? It started at over \$800,000, sold out, and price has only increased on the used car market. Nope, you can't have it. However, you can have a cool model of one in 1/24 scale for way less than 1/24 of the price.

07026 RVLS7026 Total Parts: 137 Skill Level: 5 Length: 7.5 in (191 mm)

1/24 PORSCHE 918 SPYDER WEISSACH SPORT VERSION

For even more performance...

If the 'base' model's top speed of 211 mph and 0-60 of just under three seconds simply wasn't enough for you, Porsche offers a Weissach Sport Package. That variant of the 918 shaves 77 pounds off the weight of the car while adding on a carbon-fiber roof, side mirrors, and your choice of two sport racing liveries—all for the low additional cost of just \$84,000. If that, plus the base price of over \$800,000 dollars, sounds a tad high, please consider one of our fine 1/24 scale versions.

07027 RVL57027 Total Parts: 137 Skill Level: 5 Length: 7.5 in (191 mm)

1/72 KAWANISHI H6K5 TYPE 97 FLYING BOAT WITH TORPEDO

Destruction at a distance

This four-engine float plane had one of the longest endurance times of any aircraft of the day. It was capable of staying aloft for full 24 hour periods, flying at 138 mph and covering a max range of over 4,000 miles. With its range and payload of torpedoes or bombs, it made an ideal patrol aircraft for the long hauls over the Pacific Ocean. The K5 variants had improved engines for even greater performance. **Kit features** new pylon and torpedo parts plus decals for IJN Toukou NFG Code: O-13.

02163 (Limited Edition) HSGS2163 Total Parts: 159 Skill Level: 3 Length: 14.1 in (358 mm)
Wingspan: 21.8 in (553 mm)

1/72 E-2C HAWKEYE 2000 "VAW-115 LIBERTY BELLS"

First in forward deployment

Still on the hunt for enemy aircraft, the E-2C first appeared in 1973, offering improved APS-139 radar systems and T-56-A-427 turboprops. Further upgrades included new navigational systems and improved situational displays. Today, E-2Cs are still the aircraft of choice for Carrier Airborne Early Warning Squadron 115 (VAW-115), stationed aboard the USS George Washington, the US's first forward-deployed, nuclear-powered aircraft carrier. This limited edition **kit features** one marking option: 1. US Navy USS George Washington, VAW-115 "Liberty Bells," CVW-5, CAG, Code: NF600 (166505), May 2015.

02164 (Limited Edition) HSGS2164 Total Parts: 174 Skill Level: 3 Length: 9.7 in (245 mm)
Wingspan: 13.4 in (341 mm)

1/72 F/A-18F SUPER HORNET "VFA 60TH ANNIVERSARY"

The Diamondback's durable destroyers

For sixty years VFA-102 "Diamondbacks" have flown America's aircraft in defense of American interests. They have been deployed to the Atlantic, Mediterranean, and currently home base in the Pacific. Though designed in 1995, the F/A-18F Super Hornets Diamondbacks are still some of the most reliable and effective aircraft in the US arsenal. They incorporate a 20mm cannon and hardpoints for several air-to-air and air-to-ground munitions. **Kit features** special decals for USN USS George Washington VFA-102 "Diamondbacks" 60th Anniversary special marking Code: NF102, Atsugi AB, 2015.

02165 (Limited Edition) HSGS2165 Total Parts: 121 Skill Level: 3 Length: 10 in (255 mm)
Wingspan: 7.2 in (184 mm)

1/72 SU-27 FLANKER "UKRAINIAN AIR FORCE DIGITAL CAMOUFLAGE"

Still superior

Easily one of the most maneuverable fighter aircraft to ever take to the skies, the Sukhoi Su-27 was the Soviet Union's answer to American fourth-generation fighter designs. It is one of the few aircraft in the world capable of performing "Pugachev's Cobra"—a demanding stunt in which the nose of the aircraft rears up and back to vertical before lunging forward like a striking snake. Coupled with speeds above Mach 2 and impressive armament, this maneuverability makes the Su-27 a master of the sky. **Kit features** a unique Ukrainian Air Force Camouflage pattern.

02166 (Limited Edition) HSGS2166 Total Parts: 142 Skill Level: 3 Length: 12.8 in (326 mm)
Wingspan: 8.2 in (209 mm)

1/24 VOLKSWAGEN® TYPE 2 DELIVERY VAN "GIRLS OF SUMMER"

Take a peach to the beach!

There are only a few things hotter than a Volkswagen Type 2 Delivery Van—one is the hot summer weather, the other is the sizzling paint scheme you can apply to your van with this special decal set! The Egg plane girls are taking a break from the sky to get some sand and sun! And the best way to get down to the beach is in a VW Van. **Kit features** a full wraparound decal of three eggplane girls.

52133 (Limited Edition) HSGS5233 Total Parts: 70 Skill Level: 3 Length: 7.1 in (180 mm)

1/450 IJN BATTLESHIP YAMATO 70TH ANNIVERSARY SPECIAL EDITION

Biggest of the battleships

Yamato was the largest and most powerfully armed battleship of WWII, and probably of all time. She displaced more than seventy thousand tons at full load and stretched over 800 feet from stem to stern. Her 46cm (18.1 in) guns, the largest ever made, could lob shells weighing over 3,000 lb up to twenty-six miles. Despite the undeniable power of the vessel, the Yamato only fired its guns once in combat before being struck from the naval register in August 1945. **Kit features** poster of box illustration, cross section drawing, and commemorative medal.

05234 (Limited Edition) HSGS5234 Total Parts: 282 Skill Level: 3 Length: 23 in (585 mm)

1/48 F-15E STRIKE EAGLE USAF

All weather attacker

First appearing on the scene in the late 1980s to carry out high-speed air strikes, the F-15E Strike Eagle is flown by military squadrons all around the world. Fighter Squadron 336 "Rocketeers" were the first unit equipped with the Strike Eagle and they used it well. In Operation Desert Storm and Operation Allied Force, the Strike Eagle defended against combat air patrols and provided close air support to troops. **Kit features** decal marking options for two aircraft: USAF 405th TTW Code: LA405 or the USAF 4th Fighter Wing "Rocketeers" Code: SJ336.

07248 (Limited Edition) HSGS7248 Total Parts: 320 Skill Level: 3 Length: 16 in (406 mm)
Wingspan: 10.7 in (272 mm)

1/48 S35E DRAKEN "NATURAL METAL"

Northern watch

Designed to defend Swedish airspace from bombers and fighters in the Cold War Era, the S35 Draken's E variant was stripped of armament and equipped with cameras for reconnaissance duties. Despite effectively having its teeth pulled, these aircraft were still highly effective thanks to the maneuverability delivered by their double delta wings and Mach 2.2 speed. All versions of the Draken (Dragon) have been retired from service but you can keep them soaring with this kit! **Kit features** new canopy and camera window parts plus decals for two Swedish Air Force aircraft.

07407 (Limited Edition) HSGS7407 Total Parts: 117 Skill Level: 3 Length: 12.8 in (324 mm)
Wingspan: 7.8 in (198 mm)

1/48 HENSCHEL HS129B-1/2 & JUNKERS JU87G

Perfectly paired for ground attacks

Henschel Hs 129s did not enjoy as much flight time as the Junkers Ju 87. However, 30 mm cannons (MK 101s in the B-1; MK 103s in the B-2) made them equally effective tank busters. This limited edition **kit combo** features one Hs 129B kit with two marking options: 1. Hs 129B-1: Luftwaffe 5./(Pz) Sch.G1 "Yellow-G," Eastern Front, May 1942; 2. Hs 129B-2: Luftwaffe 10./(Pz) SG9 "Red-L," Eastern Front, July 1943 and one Ju 87G kit with one marking option: Ju 87G-2: Luftwaffe 10./(Pz) SG3, Code: S7+BU, Lithuania, Autumn 1944.

07409 (Limited Edition) HSGS7409 (2 Kits) Total Parts: (per kit): 120 & 113
Skill Level: 3 Length: 8 in & 9.1 in (203 mm & 232 mm)
Wingspan: 11.7 in & 12.3 in (296 mm & 313 mm)

1/48 AICHI B7A2 ATTACK BOMBER RYUSEI KAI (GRACE)

A prototype of unproven potential

The B7A2 wasn't just incredibly fast and agile; it could also carry a single 800 kg bomb, two 250 kg bombs or six 60 kg bombs at once. Unfortunately for the IJN, the carriers that could launch the B7A were sunk in combat before it realized its full potential. This limited edition **kit features** optional torpedo and 250 kg bomb parts, plus two marking options: 1. IJN – produced by Aichi Aircraft Company – Code: 10 and 2. IJN – produced by Aichi Aircraft Company – Code: 44.

07410 (Limited Edition) HSGS7410 Total Parts: 130 Skill Level: 3 Length: 9.4 in (240 mm)
Wingspan: 11.8 in (300 mm)

1/48 MITSUBISHI A6M2B ZERO TYPE 21 381ST GROUP

To slay a "dragon"

Though it was one of the most powerful fighter aircraft of WWII, the Japanese Zero had significant troubles when attempting to down American heavy bombers. The differences in performance between the Zero and the Superfortress at altitude gave the Zero little time to engage the bomber before falling behind. In order to maximize damage dealt in a narrow window of time, the Zero was occasionally equipped with air to air bombs for dropping on the bombers. **Kit features** bomb racks and air bombs plus decals for the 381st NFG.

07411 (Limited Edition) HSGS7411 Total Parts: 87 Skill Level: 3 Length: 7.4 in (187 mm)
Wingspan: 9.8 in (250 mm)

1/48 F-16IQ IRAQI AIR FORCE FIGHTING FALCON

Destined for desert flight

Orders for the F-16IQ Fighting Falcon were initiated by the Defense Security Cooperation Agency for Iraqi Air Force use in 2010. Thirty-six were requested in all; eight were delivered in summer 2014. Delivery was intended to be finished by 2018. However, current ISIS engagements in the Middle East have made it impossible to do so. As a result, Iraqi Air Force pilots are completing their F-16IQ training in the U.S. This limited edition **kit features** new parts for the dorsal spine, plus one marking option: 1. Iraqi AF, Code: 1602.

07412 (Limited Edition) HSGS7412 Total Parts: 140 Skill Level: 3 Length: 12 in (304 mm)
Wingspan: 7.8 in (198 mm)

1/48 F-8E CRUSADER

Last of the gunfighters

In many ways the Crusader was unique—it had a high wing design, could fly with its wings folded and more—but its most memorable feature was that it was the final primarily cannon-armed aircraft in the USAF. This made it one of the few aircraft in the US inventory capable of dogfighting with the nimble MiG-17 and MiG-21 in the skies over Vietnam. There Crusader pilots racked up the highest kill ratio of the air war: 19:3. **Kit features** a detailed F-8E Crusader.

07225 HSGS8225 Skill Level: 3 Length: 13.7 in (348 mm)
Wingspan: 8.9 in (226 mm)

1/72 BELL® 412 LAFD

Raining retardant

Thanks to its external load capacity of over 6,000 lb, the Bell 412 is used by the fire departments of several major American cities to carry fire retardant to hard to reach areas quickly. LAFD—the Los Angeles Fire department—keeps two Bell 412 helicopters in service to combat hot spots all over the city and provide aeromedical evacuation where necessary. Other users of this impressive utility helicopter include military, police, private, and commercial fliers. **Kit features** model with paint, brush, and glue.

70391 ITAS0391 Total Parts: 118 Skill Level: 3 Length: 7.2 in (183 mm)

1/72 FOCKE WULF FW 190 A-8/F-8

The Hun's heavy hitter

Heavy weaponry, incredible maneuverability, and exceptional top speed all combined to make the Fw 190 one of the most effective aircraft of WWII. At its introduction in 1941 it was thoroughly superior to anything the Allies could put in the air and in remained an extremely dangerous low to mid altitude opponent through the end of the war. F-variant aircraft could be armed with multiple bombs for low-level ground attack. **Kit features** model with paint, brush and glue.

70392 ITAS0392 Total Parts: 46 Skill Level: 2 Length: 7.2 in (183 mm)

1/72 WWII ANTI-TANK TEAMS

Where there's a will, there's a way

Against steel behemoths, bristling with weaponry and snorting exhaust, a lone infantryman looks rather small and helpless. But, as the saying goes, where there's a will, there's a way—and all the armies of WWII were very interested in finding ways their infantry could stop attacking tanks. A wide variety of rockets, mortars, rifles, grenades, and mines were developed and issued. Though casualties were high, anti-tank teams attacking from ambush or in urban environments were highly effective at knocking out enemy tanks. **Kit features** sixteen figures.

6131S ITAS6131 Total Parts: 38 Skill Level: 1

1/24 JEEP ARMA DEI CARABINIERI

Willys in Italy

The Willys Jeep was the most produced vehicle of World War II. American automotive plants churned out hundreds of thousands of these all-terrain vehicles for use as transports, ambulances, cargo carriers, and reconnaissance vehicles. After the end of the war, many were parceled out to European countries devastated by the war. This set represents a Jeep in service with the Italian Carabinieri in the days just after the end of the war. **Kit features** decals for an Italian Carabinieri service Jeep.

6355S ITAS6355 Total Parts: 134 Skill Level: 2 Length: 5.4 in (138 mm)

1/9 WLA 750 US MILITARY MOTORCYCLES

Waging war the WLA way

Made for the Military Police, reconnaissance forces, and couriers, the nimble and reliable WLA 750 was designed for quick runs across broken, hostile terrain. Thousands of these cycles made it across to American forces in the European Theater. Many more also made their way via lend lease to Russia. After service in the war many Americans came home and looked for cycles like the ones they had ridden across the fields of Europe, sparking a boom in motorcycle culture. **Kit features** decals for US versions.

7401S ITAS7401 Total Parts: 248 Skill Level: 4 Length: 10.9 in (277 mm)

1/72 AUTO CANNON 3RO WITH 90/53 AA GUN

One big gun for everyone

High caliber, high rate of fire, and the ability to fire in an anti-aircraft, indirect anti-infantry, or direct anti-armor mode made the Autocannone 90/53 the most effective Italian artillery piece of World War II. Plus, a lack of proper mountings for the cannons resulted in trucks like the Lancia 3Ro being forced into service as artillery platforms. Although far less than ideal for survivability, this did make the piece and crew highly mobile. **Kit features** a fast assembly model and eight figures with full decals.

7508S ITAS7507 Total Parts: 37 Skill Level: 1 Length: 3.7 in (95 mm)

1/72 M3 75MM HALF TRACK 2 KIT COMBO

Raining rounds

The Nazi blitz through Poland, the Low Countries and France induced a frenzy of development in the remaining allied countries. They desperately searched for weapons that would excel in the new, highly-mechanized, highly-mobile form warfare had adopted. One answer was to mount a 75mm gun in the bed of a standard M3 half track. The resulting tank destroyer was effective as a stopgap measure against Nazi tanks and proved adept at providing fire support to infantry. **Kit features** two kits with decals for US and British versions.

7510S ITAS7510 Total Parts: 15 each Skill Level: 1 Length: 3.39 in (86 mm)

Plastic Models

AMT® 1/25 1923 Ford Model T Delivery

Delivering America

The Model T revolutionized the car industry and changed America. Everything moved faster. Where before shipping supplies, mail, and material required either a train or a wagon, now you could ship just about anything by truck. The 20 horsepower engine of the Model T allowed remarkable speed of 40 mph—a far cry from the plodding pace of the family plow horse. **Kit features** vintage retro packaging, detailed four-cylinder motor and expanded decal sheet with optional markings from four of Nestle's most recognized historical products.

AMT860/12 AMTS0860 Total Parts: 78 Skill Level: 2 Length: 6 in (152 mm)

AMT® 1/25 Shell® Tanker Trailer

It's a gas

Every single day hundreds of thousands of gallons of gasoline are transported down the nation's highways from remote oil refineries to the corner gas stations that dot the landscape. The tankers are marvels of technological sophistication—massive capacity, frequently pressurized, remarkably safe. The Shell Corporation—a division of Royal Dutch Shell—is one of the largest businesses in the world. It runs over forty thousand service stations worldwide—supplying nearly all of them with its fleet of tankers.

AMT918/06 AMTS0918 Skill Level: 2

AMT® 1/25 Curly's Gasser 1940 Willys Coupe

America's car, the Americar

Designed in the leadup to World War II, the late thirties and early forties Willys passenger cars were dubbed the "Americar" when patriotism overwhelmed the nation in 1940 and 1941. These vehicles, especially the coupe versions, rapidly became the focus of hot rod enthusiasts everywhere thanks to the ease with which they could be modified and low weight. **Kit features** pad printed tires, tinted windows, and a decal sheet with goofy graphics and zany phrases.

AMT939/12 AMTS0939 Skill Level: 2

AMT® 1/32 Joker Monster Truck

Know where I got these tires?

One of if not the single most iconic villains in the world, the only consistent feature of the Joker through the decades is chaos. He is the enigmatic, psychotic arch-foil for Batman. This monster truck is, for him, just one more fun toy with which to spread his own special brand of mayhem. Join the Joker, build a monster! This **kit features** vinyl monster tires that roll, full color JOKER™ inspired sticker sheet and with low parts count and easy assembly it's perfect for the younger audience.

AMT941/12 AMTS0941 Skill Level: 2 Length: 5 in (127 mm)

Bandai® 1/144 RG MBF-P02 Gundam Astray Red Frame

Go Astray

Recreated for the Real Grade line, this katana-wielding Gundam from Gundam Seed Astray features a new, advanced MS Joint system that recreates its sophisticated internal structure. This allows for a highly articulated model. The Gerbera straight katana, the signature weapon of Astray, has been electroplated with a chrome finish for an incredible sheen and this **kit features** a beam rifle, beam sabers, shield, pilot figure, realistic decals, and full instructions.

200634 BANS0634 Length: 6 in (152.4 mm)

Bandai® 1/144 HG Gundam Self Equipped with Perfect Pack

Equipped for interstellar conflicts!

Straight out of the famous Reconnuista in G Gundam Series, this G-Self is fully loaded out and comes with numerous translucent parts that give off a cool glow effect in UV light. Plus, this model's Perfect Pack can be configured for space or atmospheric modes, just like in the anime! **Kit features** a beam rifle, two beam sabers, a display stand, foil stickers, and full instructions.

200636 BANS0636 Length: 7.5 in (190.5 mm)

Ready for war

Used by the Meijin in the Gundam Build Fighters Try animated TV series, the Gundam Amazing Red Warrior is now available with a huge array of top quality gear. Movable missile hatches in the chest and front skirts unleash blistering barrages of explosives. Plus, a bazooka, hand gun, two beam rifles, a Gatling gun, and a gun blade are all included so you can customize your load out to the conflict. **Kit features** runners, stickers, snap fit assembly, and full instructions.

Bandai® 1/144 HGCE Freedom Gundam

Freedom to bring the fight

The Freedom Gundam is back in the HG line, now with new proportions and increased movement range so it can execute every pose seen in the Gundam Seed TV series. **Kit features** a beam rifle, beam shield, beam sabers, unfolding rail guns, over-shoulder beam cannons, 12 runners, foil stickers, and full instructions.

Lindberg 1/25 Dodge L700 with Shell Tanker

One shell of a ride

Powerful enough to haul the massive weight of gasoline trailers, the Dodge L700 makes the perfect vehicle for short trips from refineries to stations. Shell is one of the largest companies in the world, with holdings, reserves, wells, stations, and refineries all over the globe. All that oil needs transportation if Shell is going to turn it into money, and tankers like this one provide a relatively safe, economical means of shipping gasoline. **Kit features** Shell Oil decals and rubber tires.

MPC® 1/25 The General Locomotive

The most daring raid ever made

Hijacked by Union Raiders in 1862, The General became the focal point for one of the most daring chases in US history. In the Civil War equivalent of a high-speed chase that crossed states, the train was fought over by the small band of Union saboteurs and pursuing units of Confederate soldiers, engineers, and irregulars. Now you can remember the action with your own General! **Kit features** full color molded parts, authentic decal sheet and a full length display stand with rails and ties.

MPC® 1/25 Cosmic Charger Carl Casper

One wacky wagon

The MPC design team has reinvented the classic Cosmic Charger. They teamed up with Carl Casper to add all new and undeniably awesome parts to the vintage model. A few of the updates include a complete 10 piece front blower, a cool motor cover, and enclosed front wheel fairings. Plus, with the accurate all new decal sheet, you can build a model that perfectly replicates America's most beautiful dragster. **Kit features** new tooling with fifteen new parts, pad-printed drag slicks, full color decals, Full Retro Deluxe™ vintage MPC packaging, and a bonus mini display box with full color collector's info card.

MPC826/12 MPC50826 Total Parts: 100 Skill Level: 2 Length: 12 in (305 mm)

MPC® 1/8 Honda® Trail 70 Mini Bike

Offroad and open road

Designed for outdoor fun runs, the Honda Trail 70 is a diminutive echo of larger motorcycles—easily transportable in most trucks and even some trunks. Its small diameter tires allow it to traverse nearly any terrain but also limit its top speed considerably. As both a novelty item and a fun way to spend a few hours outdoors, the Trail 70 has made a niche for itself in Canada and the US. The **kit features** metal springs for rear shocks, chrome plated parts, vinyl tubing for the motor, and retro deluxe packaging.
