# GET ON THE FAST TRACK TO DRONE FLYING SUCCESS!

## XIRO®

Xplorer RTF allows modelers to equip the drone with their choice of camera and gimbal

Xplorer G includes a 3-axis, video-stabilized gimbal with vibration absorbers that works well with GoPro Hero 3 or 4 cameras (sold separately)

Xplorer V comes complete with 3-axis gimbal and HD 1080p video/14.4 megapixel still digital camera

### XPLORER

### XPLORER G

### XPLORER V

#### All Product Features Include...

- Factory-installed brushless power system
- Wi-Fi® capable, 5.8GHz transceiver with holder for iOS or Android™ smartphone
- Pre-program your Xplorer to fly to and shoot video at up to 16 locations with the Waypoints system
- One button activates Takeoff/Landing and Return-to-Home
- GPS Auto-Pilot with Position and Altitude Hold & Hovering
- Three automatic fail-safes for additional peace of mind
- 3 skill settings — Beginner, Amateur and Professional — let you match the Xplorer's performance capabilities to your comfort level
- 3S, 5200mAh "Smart" LiPo battery — safer, more reliable and lasts longer
- Intelligent chargers for Smart Battery pack and controller
- Spare props and tools
- Xplorer G and Xplorer V also feature a Wi-Fi® range extender and "Follow me" and "Circle around me" flight modes for shooting 360° selfies

**XIRE0100 Xplorer RTF — Standard Edition**  
**XIRE0200 Xplorer G with Gimbal**  
**XIRE0300 Xplorer V with Camera and Gimbal**  
**Diagonal dimension: 13.7 in (350 mm)**  
**XIRE0100 requires:** camera, gimbal, app  
**XIRE0200 requires:** GoPro Hero 3 or 4 camera, app  
**XIRE0300 requires:** app

Bright LEDs aid in orientation.

The landing gear folds for easy transportation.

Use the smartphone holder to turn your transmitter into an FPV monitor.

# A NANO DRONE, COMPLETE WITH CAMERA!

proto<sup>TM</sup>X<sup>vid</sup>  
READY-TO-FLY NANO-SIZED DRONE W/CAMERA

PERFECT FOR  
INDOOR FUN!

EASY TO FLY!

Capture any moment on video!

Available in 2 colors

- Measures less than 2-1/2" across
- A 480p camera lets you record your flights on video
- Auto-Upright self-corrects flight for confident piloting
- LED lights for easy tracking, day or night
- 2.4GHz radio technology allows for several Proto-X Vid drones to fly at the same time

Bright LEDs provide orientation for tracking the Proto-X Vid, day or night.

The Proto-X Vid's compact size makes it perfect for indoor flying fun!

Comes with everything you see here: 4-channel controller, USB charge cord, 4 spare blades, memory card and card reader.

ESTE52\*\* Proto-XVid Nano-Sized  
RTF Drone w/Camera  
Diagonal dimension: 60 mm (2.36 in)  
Weight: 17 g (.6 oz)  
Requires: 2 "AAA" batteries

## From the Experts:

It's small enough to fly anywhere indoors, while also shooting amazing videos! The Proto-XVid has the same quality construction as the other drones in the Proto lineup, and is just as easy to fly. Know anyone besides yourself who would love a nano-size drone with a camera? The Proto-XVid would make a great holiday gift!

## Long story short...

With the Proto-X Vid you can do more than just fly indoors — you can capture the moment on video!

# THE COMPLETE PACKAGE IN FUN AND FUNCTION

## Cicada

Ready-To-Fly Brushless FPV Camera Drone

**A Great Planes exclusive!**

**EVWE1000 Cicada Brushless FPV Camera Drone RTF**  
**Diagonal dimension:** 170 mm (6.65 in)  
**Weight w/battery:** 235 g (8.3 oz)  
**Requires:** Elanview app, mini memory card and mobile device for iOS or Android

- A compact drone you can fly with your smartphone or tablet
- Pilot the Cicada using virtual sticks or buttons, an accelerometer, or by simply moving your device
- Fly indoors with ease, or outdoors with GPS guidance
- Take off or return to home with the slide of a button
- Fly at the speed you want — slow, medium or fast — for up to 15 minutes

- Lightweight ABS shell with 3-axis gyro, sensor and onboard barometer
- The HD digital 1080p video/16 MP still/10 MP burst photo camera is Wi-Fi enabled, and features EIS (Electronic Image Stabilizing)
- The camera rests in a foam-padded cradle with anti-vibration rubber grommets
- Onscreen displays alert you to status of battery voltage, GPS and Wi-Fi®

- 15° manually adjustable angle
- 1/2.3" SONY sensor
- 16 megapixel
- 169° fish eye lens F2.8

Two 7.4V 1000mAh rechargeable LiPo batteries provide plentiful power, along with the capability of up to 30 minutes of flight time.

Return to Home feature

15 minutes of flight time

elanview

The Cicada comes with fully assembled drone with lightweight ABS shell and 3-axis gyro, charger, batteries, four propellers and screwdriver.

A memory card port and Wi-Fi give you the option to store videos and photos onboard, or stream directly to the web\*.

\*Memory card sold separately.

### From the Experts:

The Cicada is a Great Planes exclusive, and it packs a lot of value into a compact drone. There are several different ways to pilot it using a device, and brushless motors deliver the power for smooth flying and stable hovering. It's just the right size to fly virtually anywhere indoors or out, and the built-in camera takes amazing videos and still photos!

### Long story short...

*The versatile Cicada adapts to the way you like to fly, and has the features you want most in a drone!*

NEWPRODUCT

# MASTER YOUR MULTI-ROTOR

## REALFLIGHT<sup>®</sup> **DRONE** Flight Simulator

GPS satellite "autopilot" technology is amazing, but not 100% infallible. You could play the percentages with your expensive drone and camera — or you could be ready to take the controls when necessary by learning how to fly with the help of RealFlight Drone.

Master the aerial camera

NEWPRODUCT

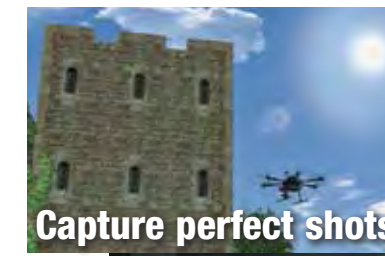

# ...ON REALFLIGHT!

Develop flight agility skills to be ready for all occasions.

Press the button to reset or rewind for a do-over.

Practice in a variety of conditions, such as day or night, and with winds at different speeds.

Find the best angle for each photo.

Make learning fun by adding a competitive edge!

Frame each scene from a "drone's eye view."

**GPMZ4800**  
RealFlight Drone Simulator w/InterLink MD2

True to Life

Includes the proven  
InterLink<sup>®</sup> Elite Controller

by **Futaba**<sup>®</sup>

U.S. Patent #7,010,628  
U.S. Patent #6,482,804

### From the Experts:

The same features that have made RealFlight an essential tool for R/C flight training are now available in an economical version that focuses only on drones. Practice and perfect your flying and aerial photography skills on your Windows<sup>®</sup> PC — and you'll be ready for anything when it's time to take up your "real" camera drone.

### Long story short...

It's the first "drones only" R/C flight simulator — and RealFlight recreates multi-rotor flight in every detail.

**AX90050 AXID9050 - Yeti™ Score® Trophy Truck**  
**Length:** 23" (583mm)  
**Width:** 12" (305mm)  
**Height:** 8.3" (210mm)  
**Wheelbase:** 14.2" (360mm)  
**Ground Clearance:** 1.7" (43mm)  
**Weight:** 6.65lbs (3kg)

For additional items see a complete list at [www.GPDealer.com](http://www.GPDealer.com)

**From the Experts:**

The Yeti™ SCORE® Trophy Truck® RTR is THE ONE that Axial has been working towards for a long time! We've always wanted to build a Trophy Truck, but we first had to build a successful platform. For authenticity, it had to be solid rear axle versus the commonly accepted independent suspension all the way around. Some would consider this "going backwards." But Axial didn't just accept what the establishment said was the only way, we wanted true scale looks with the functionality to match. When we delivered the Yeti™ Rock Racer with its IFS front end and solid rear axle, we knew then we had the key ingredients to deliver the vehicle of our dreams - our very own solid rear axle trophy truck! And to top it off we went straight to Roger Norman, CEO/President of SCORE International for his blessing and for official licensing.

**Long story short...**

*Everyone dreams of driving a trophy truck!  
We bring dreams to reality, just in scale form.*

# FLY THIS QUAD FOR ITS AWESOME VERSATILITY!

## FORM 500

Ready-To-Fly 500-Class Utility Drone

- 100% preassembled and ready to perform any task
- Fly confidently with the Tactic TTX810TS radio system
- The four propellers are self-tightening
- Comes with a camera mount
- Power is provided by a 3S 5000mAh flight battery; a Li-24 balancing charger gets you back on the job in a hurry

- Lots of built-in flight assistance and safety features, including:

- ✓ Intelligent orientation control
- ✓ Return-to-home
- ✓ Altitude hold
- ✓ GPS lock
- ✓ Low voltage return-to-home and auto-landing

The Form 500 has a substantial lifting capacity, enabling it to more than a kilogram of payload!

Remove a single screw from each arm to fold down for convenient transport and storage.

Camera not included.

Everything you see here is included with the FORM500 — and this utility drone is ready to fly just minutes after you take it out of the box.

HMXE0863 FORM500 500 Class Utility Drone RTF  
 Diagonal dimension: 500 mm (19.7 in)  
 RTF Weight (w/battery): 1774 g (62.6 oz)  
 Requires: Four "AA" batteries

## HELI MAX®

### From the Experts:

It's more than just a sport drone or aerial photography platform — MUCH more! The FORM500 adapts to what YOU want your drone to do, whether it's carrying a camera or some other payload or accessory. It exhibits stable flight characteristics and exceptional handling in a 500-class quad.

### Long story short...

*The FORM500 is a workhorse drone, designed for endless possibilities in transporting any number of accessory kits.*

# CRAWLER KING PERFORMANCE -

# IT'S TY TESSMANN'S R.O.A.R. CHAMPION D8T TE — 4 TIMES SMALLER!

**Q32 D8T TESSMANN**  
edition

Ready-To-Run Ty Tessmann Edition Mini Truggy

- A 1/32 scale racer with all-new D8T truggy body, rear wing, wing mount and internal roll cage
- Lightweight polycarbonate body features Ty Tessmann's trim scheme with HB-HPI Racing logos
- Sharp-looking dish wheels and low-profile racing tires
- Real proportional steering for authentic driving feel
- TF-60 transmitter with built-in charger

- Composite nylon chassis
- Rear-wheel 2WD direct drivetrain
- Independent front suspension with single spring rear suspension
- Comes with eight corner markers and folding jump ramp
- Join the Q-Club and get free downloadable stunt templates!

115124 HBSC5124 Q32 D8T  
Ty Tessmann Edition Mini Truggy RTR  
Length: 4.9 in (125 mm)  
Front Width: 2.9 in (76 mm)  
Height: 1.9 in (49 mm)  
Requires: (4) "AA" batteries

NEWPRODUCT

At less than 5" long and 3" wide, the Q32 D8T can run in the smallest of spaces, while still being fully proportional.

Shown actual size

- FACTORY ASSEMBLED
- 1/32 SCALE
- RTR Ready To Run!
- 2WD TWO WHEEL DRIVE
- ELECTRIC
- 2.4 GHz RADIO SYSTEM
- PAINTED & PRE-CUT
- REAL STEER PROPORTIONAL STEERING FOR PRECISE CONTROL

The Q32 D8T replicates Ty Tessmann's distinctive trim scheme, accentuated with HB-HPI Racing logos.

Charge the Q32 D8T anytime, anywhere! The charger is built into the transmitter — no need to carry any extra accessories.

## From the Experts:

No longer does a lack of space or inclement weather have to keep you from getting your R/C racing fix! The Q32 D8T is compact enough to run indoors, with accessories included for laying out your own course. And this truggy's performance perks will have you feeling like you're at the controls of Ty Tessmann's ride — in 1/32 scale!

## Long story short...

It may be small in size, but the Q32 D8T is BIG on fun!

# OFF-ROADERS WITH REAL FIREPOWER!

## DROMIDA

1/18 Scale Electric 4WD  
Buggy & Truck RTR

DIDC0060

DIDC0061

- Launch foam darts through a 3rd channel on the transmitter
- Big Bore oil shocks
- High-traction, pre-glued tires with foam inserts
- Independent steering servo with servo saver
- Four-wheel drive
- Waterproof electronics
- Gear differential
- 100-240V AC charger included
- 2.4GHz radio system
- Factory-painted body with pre-applied decals
- 90% parts compatibility with existing Dromida vehicles

All this comes with your Wasteland buggy or truck:

In addition to the fully assembled vehicle with finished body and foam dart launcher, you also get a 2.4GHz radio system, rechargeable NiMH battery, AC fast charger, "AA" batteries and (3) foam darts.

**DIDC0060** Wasteland 1/18 Scale Electric 4WD Buggy RTR  
Length: 10 in (254 mm)  
Width: 7 in (177 mm)  
Height: 5 in (127 mm)  
Weight w/battery: 1.49 lb (678 g)

**DIDC0061** Wasteland 1/18 Scale Electric 4WD Truck RTR  
Length: 11.6 in (292 mm)  
Width: 7 in (177 mm)  
Height: 5.7 in (127 mm)  
Weight w/battery: 1.64 lb (744 g)

### From the Experts:

Not only are Wasteland vehicles fully assembled and easy to drive, they're also equipped with launchers that fire foam darts up to 30 feet — an extra "fun" factor other off-landers don't offer! No terrain is off-limits for this buggy and truck — both of which sport "post-apocalyptic" looks that add to the excitement as you engage other Wasteland vehicles in spirited warfare!

### Long story short...

*Wasteland vehicles add a new dimension of "hit and run" to R/C!*

# A MULTI-ROTOR ADRENALIN RUSH!

## VOLTAGE<sup>™</sup> 500-3D

500-Class Reversing Motor 3D Drone Rx-R

- The first-ever 500-class reversing motor drone, as well as the largest 3D-capable multi-rotor platform
- High visibility, easy orientation canopy
- Stability mode for learning 3D safely
- Long flight times with 4S 4000mAh batteries
- Efficient 8.9" 3D props to provide lift for incredible aerobatics
- Hybrid Carbon Fiber, G10 and machined aluminum frame
- Compatible with a wide range of 3S and 4S LiPo batteries
- Flight controller compatible with Futaba SBus, JR Xbus, DSM2, DSMX, DSMJ, and conventional PWM receivers

**KNOWFLY**  
BEFORE YOU FLY  
Unmanned Flight Safety Guidance  
[www.knowbeforeyoufly.org](http://www.knowbeforeyoufly.org)

HMXE0864 Voltage 500 3D Drone Rx-R  
**Diagonal Dimensions:** 500 mm (19.7 in)  
**Width:** 380 mm (15 in)  
**Blade Length:** 226 mm (8.9 in)  
**Weight (w/o battery):** 907 g (2 lb)  
**Requires:** 5+ channel radio system, 3-4S 2200-4000mAh LiPo battery and balancing charger

## HELI MAX<sup>®</sup>

### You get all this:

- 100% preassembled 3D drone
- Pre-programmed and tuned 3-axis gyro and accelerometers
- (8) 226 mm (8.9 in) 3D propellers
- (4) 1400kV motors

The Voltage 500 does not include a low-voltage cutoff feature. Be sure to carefully monitor your flight time and give yourself plenty of time to land safely.

### From the Experts:

If you're looking to push the boundaries of multi-rotor flight, the Voltage 500 is the machine to take you there. Impressive size and reversible motors give this drone intense 3D capabilities — and stability mode makes breaking into aerobatics easier and safer. The Voltage 500 comes preassembled too, so experienced pilots can be out executing aggressive, electrifying aerobatics as soon as they install their radio and battery!

### Long story short...

*The Voltage 500 is not for the faint of heart, but it's the perfect quad platform for serious 3D maneuvers — including inverted flight!*

# THE FINEST QUAD SYSTEM EVER FOR AERIAL PHOTOGRAPHERS

**UBSAN**  
**X4 PRO**  
REAL TIME FPV  
**DELUXE**

- Shoot quality videos with a high-definition 1080p video camera
- Shoot photos with a 12.2 megapixel still camera
- Get First Person View (FPV) images in real time on the transceiver's large 7" screen
- Generous signal range for flight control and FPV
- Holds position and altitude for easy framing
- 32-Waypoint System lets you program complex flight patterns using Google Maps™
- Focal Point function lets you take 360° video and photos around a stationary object
- Actual Direction option prevents disorientation by moving the X4 Pro in the same direction as the sticks
- Multiple fail-safe systems automatically bring the X4 Pro home and land it safely
- Flies up to 30 minutes on the included 7000mAh high energy density LiPo pack

## Gimbal

The X4 Pro's 3-axis gimbal provides smooth, precise camera movement in flight, and is compatible with GoPro® and other cameras.

**HBNE0010** X4 Pro Deluxe w/Touch Screen Tx 1080P Camera & 3-Axis Gimbal

**Also Available:**  
**HBNE0020** X4 Pro FPV w/1080P Camera & 1-Axis Gimbal

Android and Google Maps are trademarks of Google Inc.

# THE WI-FI®-CAPABLE TRANSCEIVER IS A TECHNOLOGICAL MARVEL!

Video transmission downlink is on 5.8GHz, for additional range and picture reliability.

Flight control and telemetry for the X4 Pro platform are on secure, reliable 2.4GHz.

Primary flight data — including distance from the transmitter, altitude, battery status, etc. — is displayed on an OLED (Organic Light-Emitting Diode) telemetry screen.

Wi-Fi® capability allows the transceiver to access a wide range of internet functions, including downloading apps.

**ANDROID TOUCHSCREEN:** A built-in Android™ device makes the X4 Pro a snap to program.

Split Screen

## Drone specifications:

**Diameter** (diagonal distance between motor centers): 370 mm (14.6 in)  
**RTF Weight w/no accessories:** 1.06 kg (2.3 lb)  
**Max. Takeoff Weight:** 1.42 kg (3.13 lb)

## Deluxe transceiver specifications:

**Dimensions:** 315 x 172 x 44 mm (12.4 x 6.77 x 1.73 in)  
**Main Display Area:** 177.8 mm (7 in)  
**Main Display Resolution:** 1280x800p

## From the Experts:

The X4 Pro makes it easy to become a first-rate aerial photographer. It comes out of the box assembled with a 1080p HD camera, and you control the action with a handheld, touch screen transceiver for an FPV (First Person View) of your flight in real time. You can frame scenes to perfection by adjusting the camera gimbal, or program the X4 Pro to maneuver and fly by itself. It offers a generous signal range, and by just flipping a switch the "Return to Home" feature brings the X4 Pro back to you using GPS data.

## Long story short...

*With the X4 Pro you can go anywhere your imagination leads you — and show everyone where you've been!*

Wing Loading: 13.6-15.0 oz/ft² (42-46 g/dm²)

Length: 34.5 in (875 mm)

Requires: 4+ channel radio and receiver, 3S 11.1V 1800-2200mAh 30C LiPo battery and balancing LiPo charger

### From the Experts:

Flyzone's first truly 3D-capable model combines a brushless motor with a high power-to-weight ratio, resulting in an airplane that excels at everything from solid sport flying and precision aerobatics to impressive vertical performance and heart-pumping high alpha maneuvers.

### Long story short...

*If extreme 3D performance is what you're after, the Extra 300SX is the plane that will take you there!*

**Flyzone**  
how high will you soar

# MAKING FPV AS EASY AS CAN BE

FPV-RM1 7" 1024x600 HD Monitor & 5.8GHz Transmitters

- Pair a 25mW, 200mW\* or 600mW\* transmitter with the FPV-RM1 HD monitor for the optimum video setup\*\*
- The components work together seamlessly to allow modelers to view real-time FPV action on a 7" high-definition LCD color screen
- 5.8GHz offers a more powerful signal than Wi-Fi®, with better video quality
- Compatible with a wide range of R/C models, including racing drones

TACZ5150

- Features a 7" (178 mm) 1024x600 HD LCD screen, integrated twin 5.8GHz receivers and LiPo battery
- Twin receivers ensure a superior signal for clear FPV video reception
- Includes two SMA antennas, HDMI output, charge jack with cable and adapter, detachable sun shield and tripod mount

\*\*Camera not included; transmitters sold separately.

Wi-Fi® and Wi-Fi Alliance are registered trademarks of the Wi-Fi Alliance.

\*HAM license required for 200mW and 600mW transmitter use within the United States. See [tacticrc.com/fpv](http://tacticrc.com/fpv) for details.

**TACTIC**<sup>TM</sup>  
FIRST PERSON VIEW 5.8

Monitor tripod not included.

TACZ5150	FPV-RM1 7" 1024x600 Monitor/(2) 5.8GHz Div Rx/Battery/Accessories

## From the Experts:

If you have a model that you would like to equip for First Person Viewing, Tactic makes it easy! Simply install one of three powerful 5.8GHz video transmitters, connect it to the on-board camera of your choice, and sync them to the FPV-RM1 HD monitor. Then start enjoying an exciting new perspective on your modeling!

## Long story short...

*Tactic FPV equipment is the user-friendly way to experience First Person View with cutting-edge 5.8GHz technology!*

NEW PRODUCT

## COMMAND THE GP-1 WITH TACTIC PRECISION

GP-1 *ULTRA*

## AQUB1819 GP-1 Ultra Mini 3S Hydroplane

Hull Length: 16.4 in (416 mm)

Beam: 8.8 in (223 mm)

Weight: 14.4 oz (408 g)

The break-away rudder system swings back upon impact to prevent hull damage.

A powerful brushless motor and ESC provide plenty of torque for thrilling speeds; both are water-cooled for optimal performance.

AquaCraft's GP-1 Ultra has proven to be a big seller among hydroplane fans, and now it comes equipped with a high-performance TTX300 radio! Enjoy confident control courtesy of cutting-edge Tactic technology!

- Performance-engineered hull
- 2200kV inrunner brushless motor with water cooling jacket
- Water-cooled LiPo-compatible 30A brushless ESC
- Wire drive system and prop
- A mini hydro turn fin boosts straightaway and right-turn handling
- Features a water pick-up for optimal cooling

## Now with a Tactic TTX300 radio system!

**TACTIC**™  
PURE RELIABLE 2.4  
**TTX300**  
3-CHANNEL SLT RADIO

The TTX300 delivers reliable, interference-free control — along with great features such as steering and throttle reverse and trims, steering rates, two-button control of the 3rd channel, and a compact 3-channel receiver.

**AQUACRAFT**®  
Models

**From the Experts:**

Skimming across the water with a hydroplane is fun and exciting — especially when you're the skipper of the GP-1 Ultra. And now, in addition to its performance and convenience perks, this spirited offshore racer now boasts the added benefit of Tactic TTX300 radio control!

**Long story short...**

*Tactic's TTX300 radio is a perfect complement for AquaCraft's GP-1 Ultra hydroplane!*

## RAMPING UP AN ON-ROAD POWERHOUSE!

Speed R2102 1/8 Scale On-Road Engine

- Center of gravity is 3 mm lower, for better handling
- A second inner button head allows for finer tuning to meet track conditions
- New ceramic rear bearing reduces friction loss
- Sharp new laser graphics
- Retains Speed innovations such as DLC coating and tungsten weighted crank shaft

OSMG2048 Speed R2102 1/8 Scale On-Road Engine

Displacement: .213 cu in (3.49 cc)

Bore: .633 in (16.08 mm)

Stroke: .677 in (17.2 mm)

Practical RPM: 4,000-45,000

Power Output: 2.8 ps/2.76 hp @ 33,000 rpm

Weight: 11.99 oz (340 g)

### Long story short...

*O.S. is planning to dominate the upcoming World Championships with the Speed R2102!*

## BUILT TO BASH!

Monster Beetle® 2WD EP Kit

- Rugged ABS plastic space frame chassis
- 540 brushed motor
- CVA oil shocks
- Double wishbone front and trailing arm rear suspension set-ups
- Gear differentials
- Adjustable gear ratio and front toe-in
- 5.1" (130 mm) diameter tires with lug/pin spike tread, with one-piece gold wheels

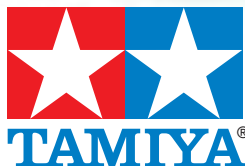

58618 TAMC8618 Monster Beetle 2015 2WD EP Kit

Length: 16.1 in (410 mm)

Width: 11.4 in (290 mm)

Height: 9.4 in (240 mm)

Requires: 2-channel radio, 6-cell NiMH battery, charger, and 8 "AA" batteries

### Long story short...

*The iconic Beetle is back, updated with 21st century tweaks and ready to take on all comers!*

# BIG, BOLD — AND BRED TO WIN!

They're the premier racing kits for dominating the 1/8 scale competition, leading the way with sizzling speeds, super toughness and confident handling. Whether you're drawn to the heart-pounding realism of the nitro-powered DNX8 Buggy, or the electric convenience and performance of the DEX8 Buggy and DEX8T Truggy, Team Durango 1/8 scale machines boast top-notch technology that make them the perfect platforms for reaching the podium!

## DNX8

### 1/8 Scale 4WD Nitro Buggy Kit

**Length:** 20.6 in (522 mm)

**Width:** 12.1 in (307 mm)

**Requires:** race spec nitro engine, 2-channel radio system, high-torque steering servo, high-torque throttle/brake servo, tires, wheels, pinion gear

**TD102040 TDRC0211**

## DEX8

### 1/8 Scale 4WD Electric Competition Buggy Kit

**Length:** 20.6 in (522 mm)

**Width:** 12.1 in (307 mm)

**Requires:** motor, ESC, 2-channel radio system, high-torque steering servo, (2) 2S 7.4V LiPo batteries, compatible charger, tires, wheels, pinion gear

**TD102038 TDRC0302**

These are just a few of the amazing innovations that these powerhouses share!

- Sliding gear mesh for rock-solid weight distribution and consistent braking
- Fully adjustable pivot ball suspension and hinge pin inserts for more front-end mod options
- Independent active caster inserts for super-efficient tuning
- 16mm Big Bore aluminum shocks that smooth out the bumpiest terrain
- Easy-access center diff
- 3mm thick 7075 T6 hard anodized aluminum chassis
- Durable steel universal joint drive shafts for smooth operation
- Strong, flexible nylon wing that resists damage during a rollover

## DEX8T

### 1/8 Scale 4WD Electric Competition Truggy Kit

**Length:** 23.3 in (585 mm)

**Width:** 16.2 in (408 mm)

**Requires:** motor, ESC, 2-channel radio system, high-torque steering servo, (2) 2S 7.4V LiPo batteries, compatible charger, tires, wheels, pinion gear

**TD102039 TDRC0402**

These SnapTite MAX kits let younger Star Wars® fans step up from SnapTite® Build & Play™ models – and give older fans a quick and easy building experience!

**Long story short...**

Revell continues to bridge the generation gap with their latest lineup of kits based on **Episode VII: The Force Awakens!**

NEWPRODUCT

THE FORCE IS STRONGER THAN EVER AT REVELL®

Revell is pleased to announce their exciting lineup of Star Wars™ SnapTite® Build & Play™ scale plastic model kits based on *Episode VII: The Force Awakens*, 2015's most-anticipated blockbuster!

Each of these plastic models were developed in conjunction with the prop studio that designed *The Force Awakens'* full-size vehicles. Revell had access to the CAD data used in the making of the film. The final results speak for themselves: authentic models that capture all the detail and nuance of the vehicles as they appear on the silver screen.

Look for Revell SnapTite Build & Play plastic models in stores this fall, and be sure to see *The Force Awakens*, coming to theaters all over the galaxy December 18, 2015.

RESISTANCE X-WING FIGHTER™

ACTION SOUNDS & LIGHTS!

## 1/72 GATO-CLASS SUBMARINE

Alone and far from home

Compared to other submarines of the time, Gato-Class submarines could almost be considered luxurious. They were air-conditioned, equipped with refrigerators, and even had a bunk for every crewman. Nevertheless, they were still claustrophobic, dangerous postings. Of 77 Gato-Class vessels launched, 20 were lost. Despite their casualties, the American Submarine Fleet devastated Japanese shipping and the IJN. Gato-Class vessels like Wahoo, Dartar, Dace and more are legends in the annals of naval history to this day. **Kit features** display stand, detailed 4-in gun, and detailed 20/40mm guns on the sail.

85-0394 RMXS0394 Total Parts: 273 Skill Level: 5 Length: 52 in (1320 mm)

## STAR WARS™ X-WING FIGHTER™

Saving the galaxy for the seventh time

The X-wing is the top Rebel Alliance fighter. The T-65 X-wing Fighter™ owes its name to the double wings, one above the other, that form an X in combat. In addition to four powerful laser cannons, the X-wing Fighter has proton torpedoes, deflector shields, hyperdrive and a navigation droid. Luke Skywalker prefers this maneuverable type of fighter. It was used by the young Jedi to destroy the first Death Star in the Battle of Yavin. SnapTite® **kit features** Luke, R2-D2, and display stand with landing gear in up or down position.

85-1894 RMXS1894 Total Parts: 93 Skill Level: 2 Length: 17 in (432 mm)

## 1/72 STAR WARS™ MILLENNIUM FALCON™

Rebels with a cause

The *MILLENNIUM FALCON*™ was made by the Corellian Engineering Corporation. It was constructed as a spec YT-1300 Light Freighter and modified by smugglers, becoming the Stellar Envoy. Then, after a few more owners and a crash, Han Solo won the Millennium Falcon from Lando Calrissian in a card game. For Solo and his Wookiee copilot, Chewbacca, it was the perfect ship for their smuggling exploits through the galaxy. However, it wasn't long before they got embroiled in the rebellion. **Kit features** display stand, landing gear up or down, and scale figures.

85-5093 RMXS5093 Total Parts: 904 Skill Level: 5 Length: 17.9 in (455 mm)

REVELL OF GERMANY®

## GERMAN SOLDIER FIGURE SETS

Infantry on the sea and in the air.

German paratroopers or "Fallschirmjäger" are some of the most effective special forces in the entire modern German Army. There is a single division of roughly 10,000 men in active service with the Bundeswehr today. Nearly the entire division is airdrop capable, with all personnel and equipment air transportable. German sailors in WWII were nearly always outnumbered and outgunned but they fought hard to break the blockade and sink Allied shipping. One **kit features** a set of Modern German Paratroopers while the other features German WWII "marines".

### 1/72 SD.KFZ. 7 AND 88CM FLAK 37

#### Destructive duo

The Sd.Kfz. 7 half track was the ultimate Prime mover of WWII. It was fully capable of hauling the vaunted 88cm Flak 37, its crew, and a whole lot of ammunition. Once in position, it took a veteran gun crew mere minutes to set up an 88 for firing. Their artillery piece was one of the most lethal weapons ever created—capable of taking out armor, infantry, aircraft... virtually anything. **Kit features** choice of gun shields and barrels, optional action or transport positions, specialized trailer, and two sets of decals.

03210 RVL3210 Total Parts: 270 Skill Level: 4 Length: 7.9 in (200 mm)

### 1/35 LEOPARD 1 (2.-4 PRODUCTION BATCH)

#### Destruction downrange

Designed in an era when it was believed that there was little that could be done to stop shaped charge explosives, the Leopard 1 was designed with a focus on mobility and firepower. Its armor could withstand direct hits from quick-firing 20mm cannons, but its main defense was in speed. Armament consisted of a 105mm rifled main gun and twin 7.62mm machine guns. Extensive upgrades throughout the production run lead to many variants with improved abilities.

03240 RVL3240 Total Parts: 260 Skill Level: 4 Length: 10.7 in (273 mm)

### 1/35 GTK BOXER sgSanKfz

#### Saving lives on the battlefield

One of the many variable mission modules that can be mounted on the GTK Boxer fighting vehicle is the sgSanKfz—essentially “armored ambulance”—module. Fully stocked for intensive care of one patient or lighter treatment of up to seven seated patients, this ambulance gives German forces a fighting chance of retrieving wounded under heavy fire—even from opponents who have no qualms shooting at regular ambulances. **Kit features** detailed chassis, faithfully reproduced modular construction, smoke dischargers, rubber tires, movable driver's hatch, and two decal sets.

03241 RVL3241 Total Parts: 224 Skill Level: 5 Length: 8.94 in (227 mm)

### 1/144 EMBRAER 195

#### Big Brazilian Bird

Newer, larger versions of the E-175s, Embraer 195s are designed to convey between 100 and 125 passengers on mid-range flights. They were designed by the Brazilian government-backed company Embraer and are sold all over the world—helping contribute to Embraer's status as one of the five largest aircraft manufacturers in the world. One popular user of the Embraer 195 is Air Dolomiti. This airliner operates ten Embraer 195s between Munich and Italy for carrying 120 passengers each for both business and vacation.

04884 RVL4884 Total Parts: 46 Skill Level: 3 Length: 9.7 in (247 mm)

## 1/35 TORNADO TIGER MEET 2014

Fly the tiger you prefer

Panavia® Tornados are variable-sweep, multi-role combat aircraft in use with the air forces of many nations. Tornados flown to the annual Tiger Meets are frequently among the best decorated aircraft in their squadrons. This aircraft follows that tradition of excellence with an amazing paint scheme you can duplicate with the included decals. Show the spirit of the wildcat and build yours today. **Kit features** missiles, fuel tanks, detailed cockpit, variable geometry wings, moving elevator, in-flight refueling probe and an exceptionally-detailed Tigermeet decal set.

04923      RVLS4923      Total Parts: 257      Skill Level: 5      Length: 21.7 in (551 mm)  
Wingspan: 17.3 in (440mm)

## 1/48 DORNIER DO 215 B-5 NIGHTFIGHTER

Stalking the shadows

Armed with a quartet of rifle caliber machine guns, a pair of 20mm cannons, and the most sophisticated radar Germany could deploy, the Dornier Do 215 B-5 was a formidable fighter in the darkness over Europe. It was primarily tasked with bringing down British night raiders—a task frequently frustrated by the British ability to jam German radar. Nevertheless, when bombers were found, the Do 215 was more than capable of bringing them down.

04925      RVLS4925      Total Parts: 218      Skill Level: 4      Length: 13.7 in (347 mm)

## 1/72 GERMAN SUBMARINE TYPE IX C/40 (U190)

War beneath the waves

Germany could not match the might of the British Navy above the waves, so they fought it from below. Their wolf packs devastated the shipping routes, sending millions of tons of shipping to the bottom. The IXC/40 had extended range and slightly increased surfaced speed, giving the wolfpacks the upper hand in 1940 and 41. Despite these advantages, by 1943 submarines were facing steep losses. **Kit features** moveable snorkel, detailed riveted hull, imitation vents and ports, moveable props and dive planes, decals for two versions.

05133      RVLS5133      Total Parts: 183      Skill Level: 4      Length: 41.85 in (1063mm)

## 1/16 VOLKSWAGEN TYPE 2 T1 SAMBA BUS

It's bus or bust!

Full, wrap-around windows and a retractable canvas sun roof were just a few of the features that drove the hippies of the sixties and seventies positively mad for the Samba. It also featured extensive seating, large doors, an easy-to-maintain boxer engine, and that cool, rounded foreign look that eluded American automobiles. Even though it was originally intended for taking tourists through the Alps, it became an icon for hippies, surfers, and more.

07009      RVLS7009      Total Parts: 223      Skill Level: 5      Length: 10.7 in (272 mm)

### 1/200 C-130R HERCULES JMSDF

#### Legendary lifter

One of the world's largest and longest-flying military aircraft, the C-130R was introduced in the mid-fifties and is still in service today. It is capable of carrying multiple armored vehicles, seven pallets, 64 paratroopers, or roughly anything that weighs less than 45,000 pounds and can be crammed into the cargo bay. Although a transport aircraft first, the Hercules is also the only aircraft able to deliver the two heaviest non-nuclear weapons in the world—the "Daisy Cutter" and "MOAB". **Kit features** new fuselage and antenna parts plus two sets of JMSDF decals.

Wingspan: 8 in (204 mm)

### 1/72 B-17G FLYING FORTRESS "D-DAY DOLL"

#### Freeing Fortress Europe

For its first recorded mission on June 7th, 1944, the day after D-Day, the crew of this 8th Air Force aircraft dubbed her D-Day Doll. Like most B-17s, this gal had a rather rough time of it. Most of the Luftwaffe had been destroyed or dispersed, but the remnant were some of the most experienced pilots ever to fly. Making matters worse, the Axis anti-aircraft batteries had lost none of their potency. Twice in a year D-Day Doll received damage sufficient for long grounding. Nevertheless, they won. **Kit features** two sets of decals.

02170 (Limited Edition)

HSGS2170

### 1/72 POLIKARPOV I-153 & I-16 "USSR AIR FORCE" (COMBO)

#### MANY STRAFING MUCH EXPLOSION BIG SUCCESS!

Designed by the Soviet Union in the lead up to WWII, the Polikarpov I-153 was one of the world's last successful biplane fighters. It combined the tremendous maneuverability of all biplanes with high speeds and four machine guns. Its counterpart monoplane, the I-16, was an incredibly advanced design—the first cantilever monoplane with a retractable undercarriage. Both served with success and distinction in the East, but were horrendously overmatched by the Bf 109 in WWII. Limited edition **kit combo** features two sets of decals for each aircraft.

### 1/72 F-16A ADF/MLU FIGHTING FALCON COMBO

#### Paired for international exploits

There's no doubt the F-16 has evolved over the years. The Air Defense Fighter (ADF) version upgraded the avionics and added a spotlight for nighttime flights. The later Mid-Life Update (MLU) package allowed the use of radar-guided air-to-air missiles. This limited edition **kit combo** features parts for the vertical tail wing, plus two marking options: 1. F-16A ADF: Italian AF, 5th Stormo, 23rd Gruppo, special marking, Code: MM7236, 2010 and 2. F-16A MLU: Royal Netherlands AF, 322nd Sq., 65 years anniversary special marking, Code: J-002, 2013.

Length: 7.9 in (202 mm)

Wingspan: 5.2 in (132 mm)

### 1/72 EUROFIGHTER TYPHOON "BATTLE OF BRITAIN 75TH ANNIVERSARY"

If only we had these in 1940

Either side would have loved to have the Eurofighter Typhoon in 1940. For the 75th anniversary of the Battle of Britain, the Royal Air Force 29th squadron decorated their Typhoon with a Spitfire camouflage scheme. The irony, of course, being that the Eurofighter is cooperatively constructed by Britain and Germany as well as Spain and Italy. Painting the Typhoon in the Spitfire's Battle of Britain colors is both an homage to history and a prime example of how far European cooperation has developed in the last 75 years. **Kit features** special markings.

Wingspan: 6 in (153.5 mm)

### 1/72 KAWASAKI® T-4 "BLUE IMPULSE 2015" COMBO

Wowing the crowds, one airshow at a time

Introduced in 1988, the Kawasaki T-4 is a subsonic trainer that replaced Japan's aging fleet of Lockheed® T-33s and Fuji® T-1s. Kawasaki produced over two-hundred T-4s for the Japan Air Self-Defense Force in all. The JASDF's Blue Impulse aerobatic demonstration team transitioned to the T-4 in 1995. Today, the squadron has eleven T-4s in its fleet. This limited edition kit combo features two 1/72 scale Kawasaki T-4 models with one marking option representing the Blue Impulse squadron: 1. JASDF 4th AW, 11th Sq., aerobatic team "Blue Impulse," 2015.

Length: 7.1 in (181 mm) Wingspan: 5.4 in (138 mm)

### 1/72 F/A-18E SUPER HORNET "VFA-115 EAGLES CAG"

Decades of domination

Active since 1942, Strike Fighter Squadron 115 (VFA-115) originated as Torpedo Squadron Eleven (VT-11) during WWII. Since then, the unit has participated in such historical events as the Korean conflict and the Vietnam conflict, ranging all the way to Operation Iraqi Freedom. This limited edition **kit features** new upper fuselage parts and decals for US Navy USS George Washington VFA-115 "Eagles" Carrier Air Group Code: NF300, 2015.

02175 (Limited Edition) HSGS2175 Total Parts: 118 Skill Level: 3 Length: 10 in (255 mm)  
Wingspan: 7.24 (184 mm)

### 1/24 JTCC TEAM SCHNITZER BMW 318i

Royal ride

The All Japan Touring Car Championship (JTCC) was a prestigious race of the eighties and nineties. In touring car races, vehicles are tested as much on endurance and handling as simple speed—making them some of the most demanding races in the world. It was primarily dominated by Japanese cars, but for one very special year the German BMW 318i came through as the winner. **Kit features** decals for the 1994 Team Schnitzer Racing Team, car number 10—Driver: Steve Soper/Car No. 73 Driver: Leopold Prinz von Bayern.

20270 HSGS2270 Total Parts: 70 Skill Level: 3 Length: 7.3 in (185 mm)

### EGG PLANE P-38 LIGHTNING

#### Set to strike

During the Pacific War, Charles MacDonald shot down 27 enemy fighters with his P-38, nicknamed "Putt-Putt Maru." These victories and his exceptional abilities as commander of the 475th Fighter Group made him one of the top Allied aces of World War II. P-38 Lightnings were the ideal aircraft for the Pacific; their long range, high speed and heavy armament let U.S. forces successfully engage Japanese planes at every turn. **Kit features** one marking option: USAAF 475th FG, Col. Charles H. MacDonald "100: Putt Putt Maru," March 1945.

60136 HSGS6036 Total Parts: 37 Skill Level: 1 Length: 5.16 in (131 mm)  
Wingspan: 6.7 in (170 mm)

### 1/48 KAWASAKI® KI-100-I KOH TYPE 5 FIGHTER "TONY"

#### A late-war wonder

Although the Ki-100-I arrived at the tail end of the war, it still left behind an impressive legacy. Using the Ki-61 as its foundation, the Ki-100-I was powered by the Mitsubishi® Ha 112-II radial engine, which delivered an impressive 1,500 hp at takeoff. The plane's power and maneuverability made it an immediate addition to several IJAAF Flight Regiments, including the celebrated 5th and 244th. This limited edition **kit features** two marking options: 1. IJAAF 5th Flight Regiment, Code: 88, 1945 and 2. IJAAF 244th Flight Regiment, Code: 32, 1945.

07414 (Limited Edition) HSGS7415 Total Parts: 61 Skill Level: 3 Length: 7.3 in (186 mm)  
Wingspan: 9.84 in (250 mm)

### 1/48 LEARJET® C-21A "AIR NATIONAL GUARD"

#### A modified must for military missions

When people think of Learjet, they think "luxury." However, the C-21A proved the brand has more to offer than first-class flying. This military variant of the 35A was added to US fleets in 1984. Thanks to its ability to carry up to 42 cubic feet (1.26 m<sup>3</sup>) of cargo and eight passengers, the C-21A has been a major Air National Guard asset for over three decades. This limited edition **kit features** two marking options: 1. USAF North Dakota ANG, Code: 40100 and 2. USAF Colorado ANG, Code: 60374.

07416 (Limited Edition) HSGS7416 Total Parts: 59 Skill Level: 3 Length: 12 in (306 mm)  
Wingspan: 9.8 in (249 mm)

### 1/32 MIRAGE IIIC

#### French fast mover

Designed with high-speed interceptions in mind, the Mirage IIIC was light, fast, and armed with twin 30mm cannons for shredding enemy bombers. It was capable of achieving Mach 2—an exceptional feat for early 60's aircraft. Many were exported worldwide and some remain in service to this day. **Kit features** decals for an astonishing six versions plus photo-etched parts.

2505 ITAS2505 Total Parts: 230 Skill Level: 5 Length: 18.34 in (466 mm)

## 1/24 TANK TRAILER "WE ARE FAMILY"

Milk it for all it's worth

It's somewhat difficult to imagine that gallon of milk in the fridge as one small component of the thousands of gallons of milk being transported down American roads in massive stainless steel cylinders, but that's exactly what it is. Equipped with advanced brake systems and safety features such as side impact barriers, this tanker trailer model kit replicates a 40,000 liter tanker and features a massive chromed decal depicting "the family".

3911 ITAS3911 Total Parts: 121 Skill Level: 4 Length: 17.32 in (440 mm)

## 1/72 D.A.K. INFANTRY SET

Dealing death in the desert

Under the leadership of Rommel, the German "Afrikakorps" was one of the most remarkable military formations ever to take the field. They consistently prevailed in a harsh environment against superior numbers and with extremely limited supplies. Though they fought long and hard for control of North Africa, the group was eventually surrounded and forced to surrender. This **kit features** forty-eight plastic figures molded to represent members of the renowned Deutsches Afrikakorps (D.A.K.).

6099 ITAS6099 Total Parts: 48 Figures Skill Level: 1

## 1/72 AMERICAN INFANTRY FIGURE SET

Our guys

Going into WWII, the American Army was the smallest and least prepared of any of the belligerent power's armed forces. A massive surge in recruitment, conscription, munitions production, and training beginning before America's official entry into the war and redoubling after Pearl Harbor led to the American Army becoming one of the largest and best supplied forces in the world. However, they were still the least experienced force as well. Bloody reversals at Kasserine Pass and the Battle of the Bulge taught fresh US soldiers valuable, painful lessons. **Kit features** 48 figures.

6120 ITAS6120 Total Parts: 67 Skill Level: 1

## 1/72 CHURCH

To fight for or over

As the largest and frequently the best-built buildings in many European country towns, churches and monasteries became inextricably embroiled in the fighting of WWII. They served as hospitals, barracks, store houses, and even fortifications. Wherever that great conflict seeped into urban areas, a church was soon to become a focal point of the fight. This kit makes a great centerpiece for your wargaming battlefield and is incredibly easy to construct. **Kit features** one model church.

6174 ITAS6174 Total Parts: 22 Skill Level: 3

## Academy Models 1/35 German Command Tank Pz.Kpfw.35(t)

### Orders from the top

Captured from Czechoslovakia in the lead up to World War II, the Panzer 35T wasn't what anyone would call revolutionary, but it did serve well in Germany's sack of France and Poland. Coordinating all units via radio allowed German commanders to move units with speed and superior strategy—the large antenna on the 35 made long-range communications possible. By mid war, however, the light armor and armament of the 35T had rendered it unsuitable for combat operations. **Kit features** antenna, photo-etched parts, and two crew figures.

## Bandai® Gundam HGBF 1/144 Kamiki Burning Gundam "Gundam Build Fighters"

### Light it up

What could possibly be more awesome than a stories-tall mechanical behemoth that can fly through space and crush tanks in its fists? How about that same mech backed by a giant ring of fire? **Kit features** various martial art poses thanks to a highly articulated design, plus a sword that can be mounted on the rear waist, and new flame effect parts along with eight runners and full instructions.

201304 BANS1304

## Bandai® Gundam HG The Origin 1/144 Zaku II Ortega Custom

### Axe dents do happen

Generally speaking, the Zaku II mobile suit is little more than cannon fodder to show off the truly impressive firepower of the main character's gundams. Ortega's custom Zaku II, however, gives the Zaku its shining moment in the sun when it hacks through the entire bridge of a space battleship with a heat hawk. **Kit features** special effect parts for the bridge cleaving, backpack and leg thrusters, machine gun, spare magazines, heat hawk, special black Tri-Star markings, thirteen runners, sticker, and full instruction manual.

BAN196697 BANS6697

## Cyber Hobby 1/700 USS Enterprise CVN-65 1969

### Big E

At over 1,000 feet in length, USS Enterprise (CVN-65) is the largest naval vessel ever constructed. She was also the world's first nuclear-powered aircraft carrier, with eight nuclear reactors aboard as opposed to two for most similar vessels. Over her 51 year history, Enterprise participated in Vietnam, the Gulf War, and the more recent wars in Iraq and Afghanistan. The process of decommissioning this historic vessel began in 2013 and is slated to finish in 2016. Honor this piece of history with an amazingly detailed model today. **Kit features** detailed hull, photo etched parts, and airplanes and vehicles to display on the carrier.

7130 CYHS7130

## Moebius Models® 4 Window Seaview 39" Revised

### Your Voyage begins here

Of all the campy classic sci-fi series of the sixties, Voyage to the Bottom of the Sea may be the most priceless gem of them all. It featured an extensive array of villains—from Communists to Nazis to sea monsters, aliens, werewolves, and ghosts, all deep beneath the surface of the ocean. The vessel for all four seasons was the Seaview, a missile-armed nuclear submarine of exceptional capabilities in terms of crush depth and speed. **Kit features** tooled in place windows, updated rear hull with missile door and missile.

707 MOES0707 Total Parts: 135+ Skill Level: 3 Length: 39 in (990.6 mm)

## Moebius Models® 1/32 Voyage to the Bottom of the Sea Flying Sub Revised

### Away mission

For quick jaunts away from the safety of the Seaview, the crew at the center of "Voyage to the Bottom of the Sea" used their flying sub from the second season on. This smaller vehicle was capable of getting the crew into hard to reach or dangerous areas where they couldn't risk the Seaview. **Kit features** new tooling plus figures of Captain Crane and Admiral Nelson.

817 MOES0817 Total Parts: 88 Skill Level: 3 Length: 14 in (355.6 mm)

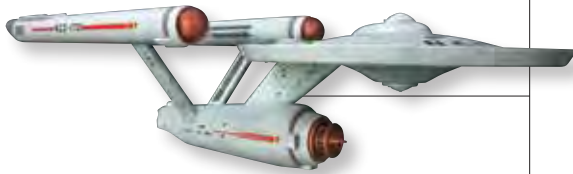

## Moebius Models® 1/24 Lost In Space Chariot Reissue

*Conveyance, conveyance, Will Robinson*

It's a long way to anywhere across the long dark void of space, but the severely off course Robinson family has fortunately discovered that they can get where they're going a little faster in the Chariot. This clear-sided conveyance uses tracks for locomotion on planet and can be disassembled and reassembled between planets. In the series it also has spotlights, a weapon rack, life support, and even curtains. **Kit features** a reissue model of the famous Lost In Space Chariot.

902 MOES0902 Total Parts: 181 Skill Level: 3 Length: 8.8 in (223.5 mm)

## Polar Lights® 1/1000 Star Trek TOS USS Enterprise Snap

*Boldly build, no need to glue anymore*

As any non-modeler what the most intimidating part of the model building process is, and they'll probably tell you that the messy glue and paint are the reasons they don't even try building a kit. Fortunately, that hurdle has been overcome with this snap-together kit! It requires no glue for assembly and is pre-colored to give you a nearly effortless, totally pristine model. Put it on display for all you friends, family, and colleagues to admire and envy. **Kit features** pre-decorated parts and easy snap-together assembly.

POL936/06 PLLS0936 Total Parts: 40 Skill Level: 1 Length: 11.5 in (292mm)

## Polar Lights® 1/1000 Star Trek TOS Klingon D7 Battle Cruiser

*Designed to devastate*

The Klingons would appreciate the militaristic expediency of being able to quickly assemble brand-new battle cruisers without so much as a tube of glue or the flick of a brush. This model requires no glue for assembly and is pre-colored to give you a nearly effortless, totally pristine model. Put it on display for all you friends, family, and colleagues to admire and envy. **Kit features** pre-decorated parts and easy snap-together assembly.

## Tamiya® 1/24 Jägermeister Alfa Romeo 155 TI

*On the hunt for a podium*

Special decals for sponsorship by the German liqueur "Jägermeister", this Alfa Romeo 155 TI is a powerful representation of the power of Italian engineering. It's a V6-powered 4-wheel drive touring car that dominated the International Touring Car Championship from 1993 to 1996. **Kit features** highly accurate Alfa Romeo 155 TI body, impressively detailed V6 engine, detailed suspension and exhaust, roll cage, bucket seats, fully detailed instrument panel, decals for the no. 27 Jägermeister car.

24148 TAMS4148

## Tamiya® 1/35 German Artillery Crew Set Africa Corps Luftwaffe

*For a few miles of sand*

The Afrika Korps (Africa Corps) fought the British and the Americans in North Africa for the control of the oil producing regions and the Red Sea. One of the most effective weapons of this conflict was the 88mm flak gun—a crew served artillery piece primarily intended for downing aircraft but equally effective at peeling open Allied tanks and driving back infantry. Unlike the anti-aircraft units of most armies—Germany's flak units were under the command of the Luftwaffe. **Kit features** eight figures in various poses with ammunition and gear.
