# XL SIZE. XL EXCITEMENT. 2 EXCELLENT OPTIONS.

**Ready-to-Fly 370 mm UAV Drone**

**DIDE05\*\* XL UAV Drone RTF**  
 Diagonal: 370 mm (14.6 in)  
 Weight: 450 g (15.9 oz)  
 Requires: nothing!

**Ready-to-Fly 370 mm FPV Camera Drone**

**DIDE06\*\* XL FPV Drone RTF**  
 Diagonal: 370 mm (14.6 in)  
 Weight: 525 g (18.5 oz)  
 Requires: Device for Android or Apple, DroneView app (download for free from Google Play Store or App Store)

**Both XL drones come with all this:**

- › Durable plastic airframe with blade guards and four extra blades
- › Factory-installed motors, ESCs and radio gear
- › 3-axis gyro and 3 accelerometers for smooth, stable flight
- › Auto Takeoff/Landing – ascend 2 meters or descend back with one button-push
- › Altitude Hold – easily hover in place
- › Auto-flip – for pro-style flips on demand
- › Intense LED lights – for easier tracking, day or night
- › MR101 radio with spring throttle, dual rates, digital trims and more
- › 2S LiPo battery for 10-12 minutes of flight time per charge
- › AC 2-3S balancing charger for easy, reliable charging
- › 4 “AAA” batteries for use with the included transmitter

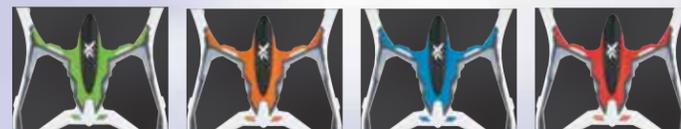

**Turn the page to see the XL FPV**

FPV camera and camera mount sold separately.

**KNOWFLY**  
 BEFORE YOU FLY  
 Unmanned Flight Safety Guidance  
[www.knowbeforeyoufly.org](http://www.knowbeforeyoufly.org)

**Available in four colors!**

Big, bold flying fun is here, with Dromida XL drones. The XL UAV offers Auto Takeoff/Landing, Altitude Hold and Auto Flip, for the ultimate in aerial adventure. The XL FPV boasts all of those same features — and adds a Wi-Fi enabled 1080p HD digital camera for taking thrilling First Person View videos and photos!

**From the Experts:**

No matter your skill level, there's an XL drone ready to deliver YOUR kind of fun! At over 14" across, both the UAV and FPV rule the airspace, with features like Auto Takeoff/Landing, Altitude Hold and Auto-Flip that bring ease and excitement to flying. And the FPV adds the thrill of shooting high-definition video and photos!

**Long story short...**

**Dromida XL drones are your one-way ticket to unlimited flying action!**

# DROMIDA

## TAKE EXCITING VIDEOS AND STUNNING STILL PHOTOS WITH THE XL FPV!

**DIDE06\*\* XL FPV Drone RTF**

**Diagonal:** 370 mm (14.6 in)

**Weight:** 525 g (18.5 oz)

**Requires:** Device for Android or Apple, DroneView app (download for free from Google Play Store or App Store)

# XL

Ready-to-Fly 370 mm FPV Camera Drone

**The FPV adds these exciting extras to the XL package:**

- Factory-installed Wi-Fi enabled 1080p HD digital camera
- 4GB micro memory card for storing or sharing data

**Download free app**

Device not included.

Link your mobile device to the Tactic DroneView 1080p camera and instantly view a live feed. Adjust important camera features right from the app, such as brightness and contrast. Plus, the camera feed can be seen and controlled by two devices simultaneously.

# THE BUGGY FOR BIG-TIME BLASTING

## RAIDER XL MEGA

1/8 2WD Electric Desert Buggy RTR

20% larger than  
the 1/10 scale  
RAIDER MEGA!

AR102642 ARAD85\*\* RAIDER XL MEGA  
1/8 Scale 2WD EP Desert Buggy RTR  
Length: 18.3 in (465 mm)  
Front Width: 11.4 in (290 mm)  
Rear Width: 11.8 in (300 mm)  
Height: 2.9 in (75 mm)  
Weight: 4.16 lb (1.89 kg)  
Wheelbase: 13.0 in (330 mm)

- It's the hugely popular RAIDER MEGA, now "XL" sized for an extremely stable platform and more exciting scale looks
- Proven metal gear diff for durability and reliability
- Aggressive tread dBoots™ tires mounted on multi-spoke nylon wheels for awesome traction on a wide variety of terrains
- Waterproof radio receiver box, steering servo and ESC, for running in all conditions
- Oil-filled adjustable shocks soak up bumps for a smoother ride
- Composite side bumpers for added protection
- The bottom-loading battery tray makes for fast and easy battery access
- Powered by a MEGA 15T brushed motor; a 2000mAh NiMH battery is included

Equipped with a  
top-of-the-line Tactic  
TTX300 radio system!

Enjoy dependable, interference-free control, along with:

- User programmable third channel
- 3-channel TR326 high voltage (7.4V) micro receiver with failsafe
- Steering and throttle trim and end point adjustments
- Steering rate adjustment
- Internal antenna
- 70/30 throttle setting

### From the Experts:

It's a bigger, badder RAIDER MEGA — and it's ready to take on anything you can throw at it! The RAIDER XL is super-tough, utilizing many of the components that have made MEGA vehicles the choice of more and more fans of dirt-blasting action. It's large and in charge!

### Long story short...

With its bold dimensions and powerful performance, the RAIDER XL MEGA dominates the competition!

**ARMA**  
DESIGNED FAST DESIGNED TOUGH

# THE MONSTER TRUCK

Like nothing you've ever driven before, the ARRMA NERO 6S is built to conquer the most extreme driving environments you can imagine. Armed with a powerful BLX brushless system, it's ready to hit 60+ mph speeds. The brand-new chassis is constructed with super-tough composites and lightweight anodized aluminum, providing the strength and performance to overcome any challenge you encounter. It's one of RC's biggest and baddest monsters, and the only one with the potential to do more.

ARAD71\*\* NERO 6S BLX 4WD  
Monster Truck with Diff Brain (Blue)

**SPECIFICATIONS**

- Length: 22.1 in (560 mm)
- Width (front): 18.1 in (460 mm)
- Width (rear): 18.1 in (460 mm)
- Height: 8.5 in (217 mm)
- Weight: 13.4 lb (6 kg)
- Wheelbase: 14.9 in (378 mm)
- Requires: (2) 2-3S 3000mAh 35C (or 4000mAh 35C) LiPo batteries with XT90 plugs, (4) "AA" batteries

**Change driving styles on the fly\***

With smart "Diff Brain" technology, you can easily lock and unlock all three gear diffs right from the transmitter. Whether running on dirt, asphalt, grass or rocks, the Diff Brain allows you to instantly switch between four available driving styles — blast, drift, wheelie or climb — to optimize performance and drive like a pro in any condition.

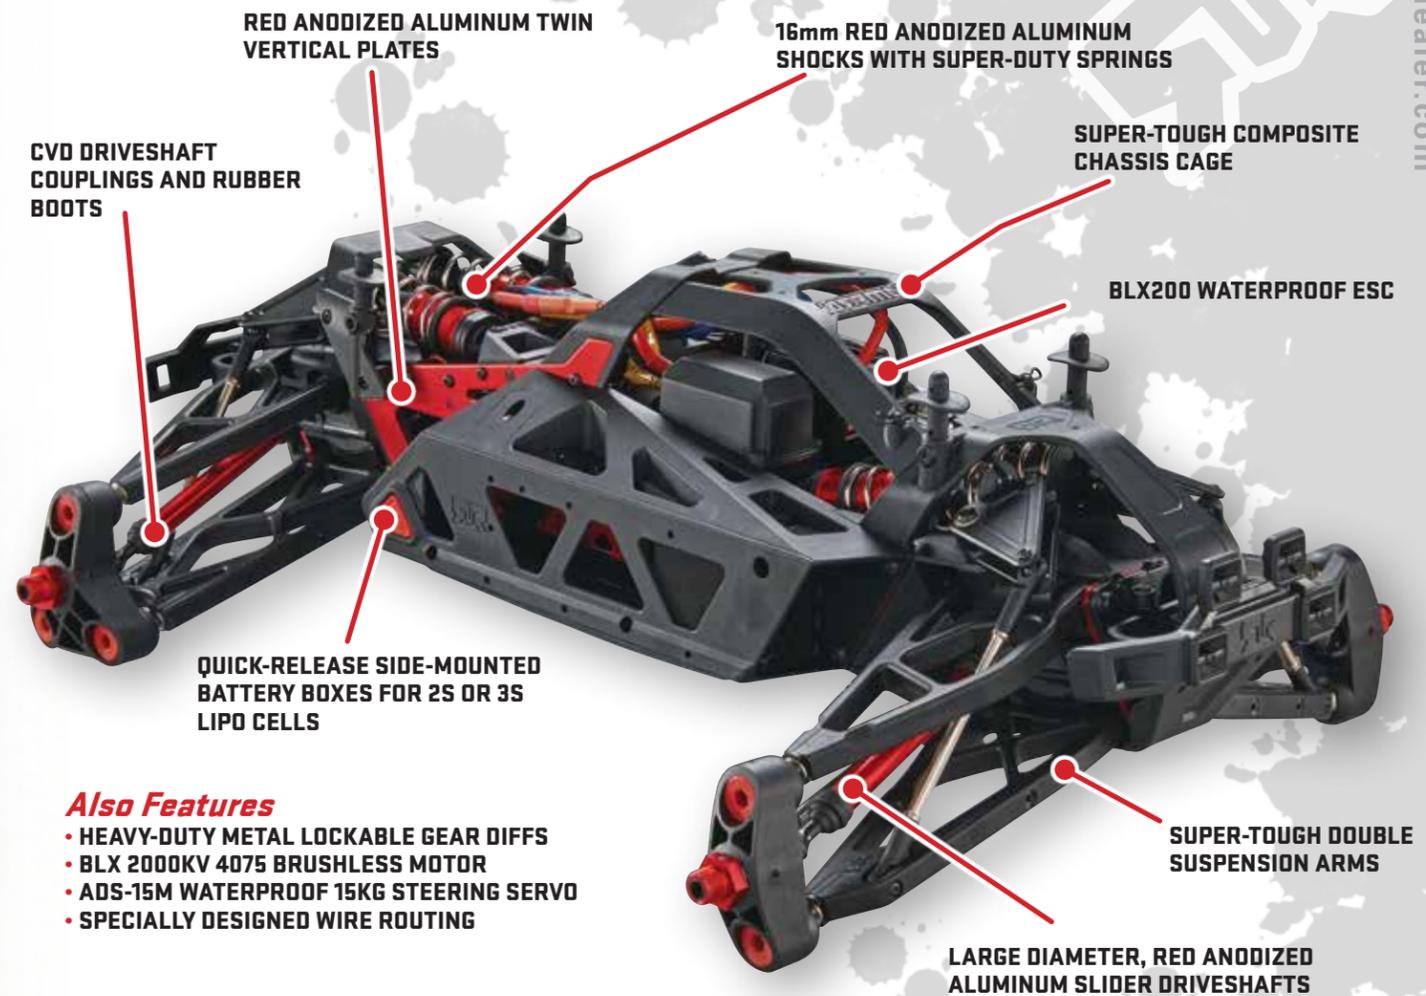

\*Diff Lock Control System activated only in Diff Brain version.

See teaser videos at [rcbrain.com](http://rcbrain.com)

# THAT DOES IT ALL

**Also Features**

- HEAVY-DUTY METAL LOCKABLE GEAR DIFFS
- BLX 2000KV 4075 BRUSHLESS MOTOR
- ADS-15M WATERPROOF 15KG STEERING SERVO
- SPECIALLY DESIGNED WIRE ROUTING

**Recommended Products**

- DTXC2004 Onyx 3S/11.1V 5400mAh 50C LiPo Battery with XT90 Plug
- DTXC2224 Charge Lead Banana Plugs to Male XT90
- DTXP4622 Li-24 2S-4S AC Balancing Charger with XT90 connector

**From the Experts:**

Like nothing you've ever driven before, the ARRMA NERO 6S is built to conquer the most extreme driving environments you can imagine. It's one of RC's biggest and baddest monsters, and the only one with the potential to help you drive like a pro in any condition.

**Long story short...**

Now there's no need to keep a fleet of vehicles for different kinds of driving excitement — the NERO has the capability to be 4 trucks in one!

**From the Experts:**

The RR10 Bomber build-it-yourself kit is loaded with features allowing you to customize it and add your own electronics for the ultimate rock racer! Building on the current, successful ready-to-run model, this kit version includes a wide variety of desirable option parts that deliver next level performance and durability. Hard anodized aluminum suspension links, hard anodized aluminum steering links, long travel rear sway bar, hardened steel universal axles allowing up to 50 degrees of steering, aluminum lower link plates, and King adjustable machined aluminum shocks, all riding on sticky BFGoodrich® Baja T/A® KR2 tires wrapped around 2.2 Walker Evans Racing beadlock wheels.

**Long story short...**

*The RR10 Bomber kit is loaded with option parts and it's ready for you to add your favorite electronics and build the ultimate rock racer!*

# CONQUER THE COMPETITION — AND THE CONDITIONS

1/10 Scale 2WD Electric Off-Road Competition Buggy Kits

In today's racing, traction dictates your setup, and Associated has it covered with two different configurations. The **B6** offers racers a platform developed for high to very-high traction surfaces, while the **B6D** excels when traction is low to high. Both versions boast the speed and durability you expect from world champion technology — just choose the one for your track conditions!

- Centralized motor mount for optimum side-to-side balance
- The hard-anodized aluminum pocketed chassis is beyond sturdy and allows for weight bias tuning
- Factory Team aluminum shock bushings provide stability for shock mounting
- A reverse bell-crank steering rack design allows more room for electronics
- V2 "Big Bore" threaded aluminum shocks with 3mm TiN coated shafts and low friction x-rings for improved smoothness
- Aluminum front axle and heavy-duty rear axle add the strength required for aggressive off-roading
- RC10B6 offers the option of mounting shocks on the front or the rear of the rear arms; both RC10B6 and RC10B6D have a 4-gear standup transmission available as an option

MAIN CONFIGURATION DIFFERENCES

TURF CARPET CLAY HARD DIRT LOOSE DIRT

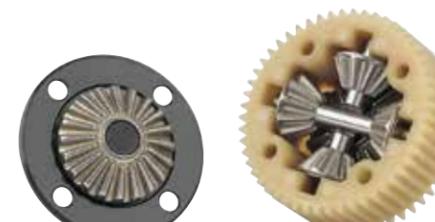

## TRACTION LEVEL

Laydown 3-gear transmission  
Lower CG and reduced polar moment

Standup 3-gear transmission  
More rearward weight for increased rear traction

Gear differential  
More corner speed and forward acceleration

Ball differential  
More rear traction and stability

## DIFFERENTIAL

Gull wing arms, wide front tower  
Lower CG and increased on-power steering

Flat arms, narrow front tower  
More responsive steering and quicker release out of corner

## FRONT END

90011 ASCD0011 RC10B6 1/10 2WD EP Buggy Team Kit  
90012 ASCD0012 RC10B6D 1/10 2WD EP Buggy Team Kit  
Length: \*  
Width: \*  
Weight: \*  
Wheelbase: 11.0-11.1 in (280-282 mm)  
Both require: radio system w/steering servo, motor, ESC, tires, wheels, pinion gear, battery  
\*Final length, width and weight will vary based on electronics, tire configuration, wing position and vehicle setup.

## Long story short...

Both the RC10B6 and RC10B6D are specialized rides for taming the types of tracks that you like to drive on!

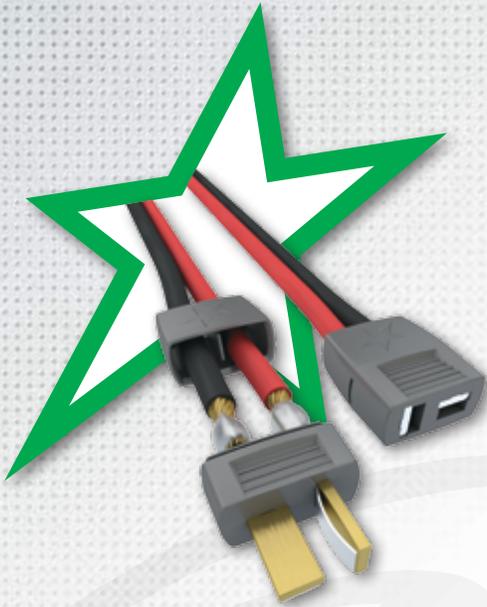

NEW PRODUCT

# POWERFUL, PROGRAMMABLE AND VERSATILE

## ONYX<sup>255</sup>

AC/DC Dual Charger w/Balancing

The included Star Plug connector is 100% compatible with the polarized power plug modelers use most! Plus, it's easy to grip, installed at the factory and designed to hold tight until you remove it.

U.S. Patent D749,046 and Patent Pending

- Each output charges single lithium cells, balance charges 2-6S lithium packs and peaks 1-15 NiCd/NiMH cells
- Convenient charge jack for receiver and radio packs
- Simple, push-button setup with confirming visual and audio cues
- Safety timer and solid-state reverse polarity and current overload protection
- Memory for storing up to 10 battery charging routines per output
- 110V AC power cable and DC power lead with alligator clips for easy connection to many 12V power sources
- Standard and Star® Plug adapters
- Built-in, 60W AC power supply for each output
- Charge rates of up to 6A for faster recharging

**DTXP4255**  
Onyx™ 255 AC/DC Dual  
Charger w/Balancing

### From the Experts:

Two independent outputs with identical features and functions make the Onyx 255 the logical choice for your next charger! It can peak charge a 15-cell NiCd at the same time it's balance charging a 6S LiPo – and do both anytime and anywhere there's AC or DC power. A high-vis LCD lets you easily view eight types of pack/cell data and safety alerts, even when lighting conditions are at their worst.

### Long story short...

*If you can own only one charger, make it the super-versatile Onyx 255!*

# TUNED FOR SPEED

# RXS270

Brushless Receiver-Ready™ Extreme Racing Drone

- Fully assembled and ready for extreme racing action
- Dare to fly at the edge: the 100% carbon fiber airframe is lightweight and super-strong
- Tuned for maximum performance with a CC3D flight controller, powerful 2206/2150kV brushless motors and a 4S-compatible ESC
- Pilot the Receiver-Ready RXS270 with your favorite radio system
- Vivid LEDs aid in piloting the RXS270 in low-light flight

RISE0270 RXS270 Brushless Extreme Racing Drone Rx-R

**Diagonal Size:** 270 mm (10.6 in)

**Weight:** 460 g (16.2 oz)

**Requires:** 5-channel radio system, 3-4S 1300-2200mAh 30C LiPo battery, LiPo balancing charger

www.knowbeforeyoufly.org

# R I S E™

## From the Experts:

If you've got the right stuff, the RXS270 is the racing drone that will have you first through the final gate. It comes prebuilt for instant flying success — just install your receiver and LiPo battery. In the air, the RXS270's powerful 2206/2150kV motors and 4S ESC deliver exceptional speeds, and the 100% carbon-fiber frame is lightweight and super-strong.

## Long story short...

*When the RXS270 claims to be an extreme racing drone, you can believe it!*

NEWPRODUCT

# AN EVEN SHARPER "EYE IN THE SKY"

## KODO™ HD

Ready-to-Fly 106 mm Camera Drone

DIDE0006 KODO HD 106 mm  
Camera Drone RTF  
Diagonal: 106 mm (4.17 in)  
Weight: 40 g (1.4 oz)  
Requires: nothing!

- ▶ **Enjoy videos and photos with unprecedented sharpness and clarity, thanks to the high definition of the 1080p digital camera**
- ▶ **Because it's nearly 25% lighter than the original KODO, the KODO HD can fly nearly 20% longer on a full charge**
- ▶ **Explore your aerobatic side: the KODO HD delivers maneuvers with extra snap**
- ▶ **Motor changes are as easy as unplugging the old motor and plugging in a new one**
- ▶ **Set the camera angle while on the ground, to get the shot you want as soon as you're in the air**

### From the Experts:

If you thought the original KODO was cool, you've got to check out the KODO HD! Its 1080p digital camera offers incredibly clear videos and photos, and that's not all. At just 40 grams, the KODO HD is more aerobatic, and can fly up to 5-1/2 minutes on a full charge. It comes complete and fully assembled, so you can be up in the air enjoying the view right away!

### Long story short...

Check out the KODO HD, and see the difference a 1080p camera — and significantly less weight — can make.

# POWER AND SPEED TO THE EXTREME

DCB™ M41™ Widebody™ TSM™ Brushless Catamaran RTR

- A licensed replica of the DCB M41 twin-hulled catamaran that can reach speeds in excess of 50+ mph!
- Built-in foam flotation makes this cat virtually unsinkable
- Powered by a Velineon 540XL high-output brushless motor with high-flow water cooling jacket and water-cooled, waterproof VXL-6s™ brushless ESC
- Traxxas Stability Management™ (TSM) makes it easy to go fast
- Control via a TQi 2-channel radio system with waterproof high-torque steering servo and 5-channel receiver

**50+mph**  
ALL-OUT

**57046-4 TRAB7046**  
**DCB M41 Widebody TSM Brushless Catamaran RTR**  
**Length:** 40.6 in (1031 mm)  
**Beam:** 10.5 in (267 mm)  
**Weight:** 5.42 lb (2.46 kg)  
**Requires:** (2) 2-3S LiPo batteries with Traxxas High-Current Connectors, compatible charger, (4) "AA" batteries

## Long story short...

Take on — and tame — the competition with the high-performance DCB M41 Widebody catamaran!

# A BIGGER, MEANER, MORE POWERFUL T-MAXX

- Traxxas Stability Management (TSM) lets you accelerate faster, corner sharper, brake harder and maintain better control on dusty asphalt, smooth concrete, and even ice and snow
- Revo®-Spec sealed diffs offer long-lasting performance and are designed to handle the T-Maxx 3.3's massive torque
- The included EZ-Start system is the easy, safe way to fire up the TRX3.3 racing engine
- The blue anodized 6061-T6 aluminum chassis is 4 mm thick, with heavy-duty braces to withstand the most extreme off-roading
- 6.3" tall all-terrain Maxx tires help create impressive ground clearance
- Wheelie bar features four snap-in adjustment positions

**T-MAXX**  
**3.3**

Ready-To-Run 1/10 Scale 4WD Nitro RTR Monster Truck w/TSM

**49077-3 TRAD49\*\***  
**T-Maxx 3.3 1/10 Scale 4WD Nitro Monster Truck RTR w/TSM**  
**Length:** 21 in (539 mm)  
**Front Track:** 16.4 in (417 mm)  
**Rear Track:** 16.5 in (417 mm)  
**Height:** 11 in (277 mm)  
**Center Ground Clearance:** 4 in (106 mm)  
**Wheelbase:** 13.2 in (335 mm)

## Long story short...

The T-Maxx 3.3 with TSM continues the evolution of the hugely popular monster truck into an off-road powerhouse that's faster and stronger than ever before!

## A "MUST-HAVE" FOR MODIFIED AND SPEC-CLASS RACING!

### Blackbox 1000Z+ Competition ESC

**27003 ASCM7003**  
Blackbox 1000Z+  
Competition ESC

- Features timing options for Modified class racers as well as a zero-timing "Blinky" mode for Spec-class
- Delivers excellent throttle and brake feel for a wide range of racing applications
- On-board single-button programming
- Lightweight, compact and firmware updateable

**Also Available:**  
27026 ASCM7026 Blackbox 1000Z+ Cooling Fan w/Screws

### Long story short...

## CONSTRUCTION KITS FOR YOUNGER KIDS

Revell Junior Kits are a brand new build and play concept that take construction kits to a whole new level of fun. Boys and girls ages 4+ will enjoy building these fun and unique models that are designed to bridge the gap between construction sets and model kits.

### HERE ARE JUST A FEW OF THE REASONS TO LOVE JUNIOR KITS!

- Robust design for long-lasting play value
- Opening doors, hoods, and compartments
- Large 1/20 scale models perfect for younger kids
- Easy to assemble and disassemble again and again
- Parts are appropriate for youngsters with small hands
- Self-adhesive decal stickers for mess-free decorating
- Accessories such as road cones included for added fun

**From the Experts:**

Combining the fun of a toy car and the sense of accomplishment that comes from building something of your own, these Revell Junior Kits make building fun easier than ever!

**Long story short...**

With two prestigious "Toy of the Year" awards already, it's clear that Revell Junior Kits are going to put smiles on a lot of faces for years to come.

NEW PRODUCT

# TAKE YOUR EXPEDITION TO OUTER SPACE

Make this summer out of this world!

Skill Level **4**

These kits require a high degree of modeling, building, and painting skill. Construction is complex and requires advanced wood and paper working techniques. Assembly may take a few days, but the result is a rocket with museum-like qualities and exceptional flight characteristics.

## Expedition™

*Expedite your excitement!*

**Length:** 25.6 in (65.1 cm)

**Diameter:** 2.2 in (56 cm)

**Weight:** 5 oz (142 g)

**Max. Altitude:** 1100 ft (335 m)

**Features:** Laser cut wood, waterslide decals, parachute recovery

**Recommended Engines:** C11-3, D12-3 (first flight), E12-6

**Requires:** Finishing supplies, launch system, engines, starters, and recovery wadding

ESTT7249

## From the Experts:

With Expedition you set out on a journey to fun, aesthetics, and performance. Send summer fun soaring today!

## Long story short...

*Expedition delivers the complexity and the altitude that experienced builders demand. Plus, it's an excellent way to get your summer off the ground!*

## THE BARON™ AND HIS FUNFDECKER FOKKER

A bone to pick with a beagle

Baron von Rot stood at attention. His commander, Air Marshal von Blitzkrieg, was there to award him the highest order of the Iron Cross – the Crossed Dog Bones! The baron had shown great bravery and mastery of the skies in his “Dog Fight” with the enemy ace code-named “K-9.” But in the back his mind – having seen his arch enemy parachute to safety – the baron knew he would have to face him again! **Kit features** five wings, moving prop, spoke wheels, chrome 426 V-8, Red Baron figure, WWI style decals, and more.

85-1735    RMXS1735    Total Parts: 50    Skill Level: 4    Length: 6.2 in (157 mm)

## 1/24 1981 DODGE® RAMCHARGER

Driven to be the best

The Ramcharger was an early SUV based on the Dodge D-Series pickup truck. It had a shortened wheelbase on the existing pickup truck chassis and optional extra seats. The first Ramcharger rolled off the line in 1974 and they stayed in production until 1994. The second generation, starting in 1981, had a rear top that was no longer removable. **Kit features** detailed interior with roll bar, back seat and CB radio plus V-8 engine, sunroof, boat hitch, and outside spare tire.

85-4372    RMXS4372    Total Parts: 96    Skill Level: 4    Length: 8.2 in (208 mm)

## 1/25 1957 FORD® GASSER

Pedal to the metal!

The term “Gasser” refers to a drag racing class developed in the 1950s and 60s. These stock looking drag cars thrilled the crowds with their performance. The engine was in the normal place, but the revised front axle raised the front end and shifted the weight to the back. One of the most spectacular of all gassers was the revised 1957 Ford. With the stylish redesign of the 1957 Sedans and their high engine power, gassers reached new heights of speed and popularity. **Kit features** front moon tank and dual carburetors, thru-fender headers, tube front axle with leaf springs, and more.

85-4396    RMXS4396    Total Parts: 184    Skill Level: 5    Length: 8 in (203 mm)

## 1/25 1969 CHEVY® NOVA™ YENKO™

Yenko special

In 1957, Don Yenko started selling aftermarket performance car parts at the dealership started by his father in Canonsburg, Pennsylvania. In the 60s, this was expanded to selling fully modified cars with the SYC (Yenko™ Super Car) name on the hood. In 1969, Yenko ordered COPO Novas with factory installed 427 cubic inch engines. Yenko then added other modifications to make it a SYC. **Kit features** opening hood, 427 ci engine, separate door handles and wipers, detailed suspension and exhaust system, and more.

85-4423    RMXS4423    Total Parts: 111    Skill Level: 5    Length: 7.5 in (190 mm)

# Revell

## New Releases!

### of Germany

www.revell.com

### 1/144 F-5E TIGER

#### Light, fast, legendary

Designed to be easy to buy, easy to fly, and easy to maintain in comparison with other fighters, the F-5E Tiger II has been a popular export aircraft for fifty years. It has served with distinction in the armed forces of over a dozen nations. Even today, the US Navy uses the F-5E for dissimilar combat training in Nevada, Arizona, and Florida. **Kit features** detailed cockpit and undercarriage plus auxiliary fuel tanks, Sidewinder guided missiles, and decals for the 64th Aggressor Squadron.

03947    RVLS3947    Total Parts: 50    Skill Level: 3    Length: 4.1 in (104 mm)  
Wingspan: 2.5 in (64 mm)

### 1/72 SAAB JAS-39D GRIPEN TWINSEATER

#### Tandem two-seater

The Gripen or "Griffon" is a canard-equipped, delta-winged fighter with fly-by-wire controls that was introduced in the late nineties. It was wholly developed by Sweden and has proven controversial in many respects, but entirely successful. With its Mach 2 maximum speed and multitude of weapons options, the Gripen is an aircraft to be reckoned with. **Kit features** detailed cockpit and undercarriage plus auxiliary fuel tanks, RB-15, Sidewinder, and AIM-120 guided missiles, and decals for a Swedish version.

03956    RVLS3956    Total Parts: 115    Skill Level: 3    Length: 8.5 in (215 mm)  
Wingspan: 5 in (127 mm)

### BOEING® 777-300ER

#### Non-stop through to anywhere

Boeing 777-300ER aircraft have stretched bodies which allow them to carry up to 550 passengers on Extended Range (ER) flights of up to nine thousand miles (14,690 km). This massive endurance and carrying capacity is accomplished despite the fact that the 777-300ER is only a twin-engine aircraft. Overall, the 777-300ER is safe, efficient and highly adaptable through its many variants – making it the perfect plane for long-range transportation. **Kit features** detailed engines with rotating intake fans, detailed undercarriage can be extended or retracted, and full decals.

04945    RVLS4945    Total Parts: 147    Skill Level: 4    Length: 20 in (510 mm)  
Wingspan: 17.7 in (450 mm)

### 1/144 BOEING 747-8F CARGOLUX CUTAWAY

#### Heavy haulage

The Boeing 747-8F is a freighter version of the latest generation of jumbo jets. To celebrate its 45th anniversary, the Luxembourg based Cargolux has given one of its 747-8F's a spectacular special livery. Designed by the Belgian cartoonist Philippe Cruyt, the livery is designed as a cutaway. In the typically cheerful style of the artist one can now see what could be located in the aircraft's cargo hold. **Kit features** a superbly detailed 747-8F model with a special decal based on the unique Cargolux livery.

04949    RVLS4949    Total Parts: 195    Skill Level: 5    Length: 20.7 in (525 mm)  
Wingspan: 18.7 in (476 mm)

## 1/144 FLOWER CLASS CORVETTE HMCS SNOWBERRY

Definitely not flower children

It's over 3,000 miles from New York to London, and, in 1942, vessels were in danger from Nazi wolfpacks virtually every inch of the way. Allied naval forces were stretched thin across the entire globe and millions of tons of supplies had to be moved. The Flower Class Corvette helped support the over-stretched destroyer forces, keeping a watchful eye on the waves. Snowberry herself served with the Canadian Navy, patrolling coastlines on both sides of the Atlantic. **Kit features** rotating prop, detailed deck, 10.2cm main gun, AA guns, radar tower, depth charges, display stand, and full decals.

05132 RVL5132 Total Parts: 501 Skill Level: 5 Length: 17.3 in (439 mm)

## 1/1200 RN ROMA

Just a year old

Commissioned in 1942, sunk in 1943. There's no question that the career of the Italian battleship Roma was short and dramatic. For much of the war, the Italian Navy was far too short of fuel to sail their capital ships. Roma stayed in port for most of her year of existence. After the armistice with the Allies, the Italian Navy sailed towards surrender but were attacked by their former friends. German planes blew up and sank Roma on September 9, 1943. **Kit features** structured deck, turrets, floatplane, waterline hull, and authentic paint scheme.

05821 RVL5821 Total Parts: 30 Skill Level: 4 Length: 7.9 in (200 mm)

## 1/200 KC-130 HERCULES "JASDF" COMBO

Fill 'er up!

Modified for aerial refueling, the KC-130H is the extended-range tanker variant of the tried-and-true C-130 Hercules. Currently, the JASDF has one KC-130 in its fleet for in-flight fill-ups. It boasts a 500-nautical-mile (930 km) operating radius for in-air use, but the KC-130 can also be used for rapid refills on the ground as well. This limited edition kit combo features two KC-130H Hercules kits, each with its own marking option: 1. JASDF, Code: 080 (85-1080) and 2. JASDF, Code: 083 (95-1083), as well as new fuel pod and radome parts.

10818 (Limited Edition) HSGS0818 (Includes Two Kits) Total Parts: (Per Kit): 66  
Skill Level: 3 Length: 6.6 in (168 mm) Wingspan: 8 in (204 mm)

## 1/72 B-26F/G MARAUDER

The winged weapon of WWII

After an extremely rocky start, the B-26 Marauder was modified into one of the most effective bombardment weapons in the Western Theater. In escorted, medium-level strikes the B-26 achieved spectacular successes. Its bombing was incredibly accurate for the time and its loss combat loss rate with fighter support and bombing from 10-15 thousand feet was far lower than the average for other aircraft. Additionally, its combat load of 4,000 lbs of bombs let it hit hard while 12 .50-cal machine guns made it a tough target. **Kit features** a re-issue of a popular limited edition kit!

01557 (Limited Edition) HSGS1557 Total Parts: 174 Skill Level: 3  
Length: 10 in (253 mm) Wingspan: 11.8 in (300 mm)

### 1/72 JUNKERS JU188 A/E

The high-performance Luftwaffe bomber!

Developed as the follow-up to the highly regarded Ju 88, the Ju 188 was intended to surpass its predecessor's performance and payload capabilities. It was produced in limited numbers, mostly due to the growing number of improvements made to the Ju 88, but also because of increasing German losses near the end of WWII. In fact, only 500 A and E variants were built before production ended in Summer, 1944. **Kit features** include clear parts and decal marking options for three Luftwaffe versions.

01563 (Limited Edition) HSGS1563 Total Parts: 157 Skill Level: 3  
Length: 8.7 in (220 mm) Wingspan: 12 in (305 mm)

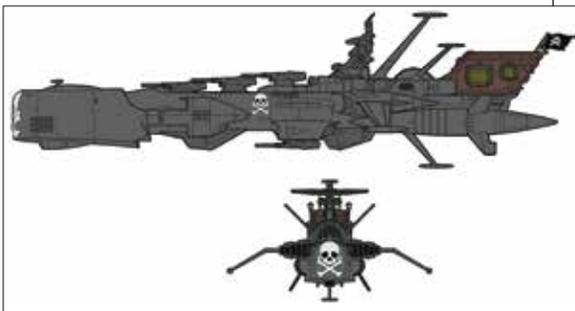

### 1/72 KAWANISHI H6K5 TYPE 97 FLYING BOAT WITH RADAR

The IJN's favored flying boat

The IJN's favored flying boat

The H6K was developed by Kawanishi in 1934 in response to the RAF's Short Rangoon biplane flying-boat. The first prototype took its maiden flight two years later. By 1938, the H6K was aiding the IJN in the Sino-Japanese War. An ability to endure 24-hour patrols made the H6K ideal for bombing and long-range recon missions during World War II. This limited edition **kit features** photo-etched radar parts, plus one marking option: 1. IJN 901st NFG, Code: KEA71, Saipan, January-February 1944.

02208 (Limited Edition) HSGS2208 Total Parts: 150 Skill Level: 3  
Length: 14.4 in (366 mm) Wingspan: 21.8 in (553 mm)

### 1/1500 "CAPTAIN HARLOCK SPACE PIRATE BATTLESHIP ARCADIA

One ship against the galaxy

One ship against the galaxy

Captain Harlock pilots the BattleShip Arcadia in fierce resistance to the encroachments of an alien race, the Mazone. His semi-sentient ship is one of the few hopes for survival humanity has left. Pulsar cannons bristle from the sleek green decks, prepared to turn warships into cosmic dust. Even without ever seeing the movies or mangas, this ship is a piece of lethal art deserving of a proud place in your display case. **Kit features** new bow skull mark, bridge antenna, and large engine nozzle parts to properly represent the third version of Arcadia.

64736 (Limited Edition) HSGS4736 Total Parts: 170 Skill Level: 3  
Length: 13.2 in (337 mm) Wingspan: 6.5 in (164 mm)

### 1/12 "BARI BARI LEGEND" YAMAHA YZR500 "RALPH ANDERSON"

Amazing anime authenticity

Amazing anime authenticity

Introduced in 1973, the YZR500 was a top contender in Motorcycle Grand Prix events all over the world for nearly three decades. It was just as popular off the motorcycle circuit, too, appearing in anime and manga series like BariBari Legend. Combined, the YZR500 and BariBari Legend helped bring motorcycle street racing out of a small, dedicated counterculture into mainstream acceptance. This limited edition **kit features** markings based on the popular anime and manga, "BariBari Legend:" 1. WGP 500 cc, no. 44, rider: Ralph Anderson.

SP339 (Limited Edition) HSGS5239 Total Parts: 171 Skill Level: 3  
Length: 6.6 in (167 mm)

## 1/72 J35J DRAKEN "ACE COMBAT ESPADA"

War in an electric sky

The "Ace Combat" franchise pits numerous squadrons, including "Espada", against each other in battles for total aerial dominance. In this endless warfare, the J35J Draken is a valuable asset. Its combination of maneuverability and Mach 2 speed make it hard to catch or outmaneuver and its Sidewinder missiles are perfect for blasting enemies out of the sky. **Kit features** decals for "Ace Combat Zero The Belkan War".

52140 (Limited Edition) HSGS5240 Total Parts: 63 Skill Level: 3  
Length: 8.4 in (213 mm) Wingspan: 5.1 in (130 mm)

## 1/72 F/A-18E/F SUPER HORNET "USS RONALD REAGAN" (2 KITS)

Air superiority since 1999

The F/A-18E/F Super Hornet has been an integral part of the US Navy since 1999, supporting America's interests wherever it flies. Super Hornets from VFA-102 and VFA-27 serve on the USS Ronald Reagan as part of Carrier Air Wing Five (CVW-5), forward deployed to Atsugi, Japan. CVW-5 has deployed for Operation Enduring Freedom, Iraqi Freedom, Desert Storm and more. This limited edition combo includes two complete kits. **Kit features** two decal options: VFA-102 "Diamondbacks," and VFA-27 "Royal Maces."

52141 (Limited Edition) HSGS5241 (2 Kits) Total Parts: (per kit): 121 (F) & 118 (E)  
Skill Level: 3

## 1/72 E-2C HAWKEYE 2000 "USS RONALD REAGAN CVW-5" CAG

Detection at a distance

Hundreds of miles of open ocean surround a carrier group on all sides. It's all quiet now, but somewhere far over the horizon the enemy might be lurking. E-2C Hawkeye aircraft extend the already formidable range of radar and provide long-range early warning back to the fleet. During Operations Enduring Freedom and Iraqi Freedom, Hawkeyes performed overland sorties and provided command and control services to aircraft in theater. **Kit features** decals for VA-115 "Liberty Bells" aboard the carrier USS Ronald Reagan.

52142 (Limited Edition) HSGS5242 Total Parts: 174 Skill Level: 3  
Length: 9.6 in (245 mm) Wingspan: 13.4 in (341 mm)

## 1/48 F-4EJ PHANTOM II "ADTW 60TH ANNIVERSARY"

Six decades of air superiority

For over half a century, the F-4EJ Phantom II has been serving with the JASDF. Today, it serves with the Air Development and Test Wing at Gifu Air Base, where its incredible speed and lift capacity are a great asset. Previously, as an air superiority fighter, that same speed was coupled with an incredible load of missiles and a broad range for protecting Japan's extensive territorial waters. This limited edition **kit features** one marking option: 1. JASDF ADTW 60th anniversary special marking, Code: 336 (47-8336), Gifu AB, October 2015.

07437 (Limited Edition) HSGS7437 Total Parts: 133 Skill Level: 3  
Length: 15.8 in (402 mm) Wingspan: 9.7 in (246 mm)

### 1/48 KAWASAKI T-4 "11TH SQ. BLUE IMPULSE 20TH ANNIVERSARY"

Two decades of amazing aerobatics

Introduced in 1988, the Kawasaki T-4 is a subsonic trainer that replaced Japan's aging fleet of Lockheed T-33s and Fuji T-1s. The JASDF's Blue Impulse aerobatic demonstration team transitioned to the T-4 in 1995. To celebrate twenty years of T-4 flight, the Blue Impulse team decorated their aircraft with a special trim scheme. This limited edition **kit features** one marking option: 1. JASDF 4th AW, 11th SQ., "Blue Impulse" 20th anniversary special marking, Code: 621 (96-5621), Matsushima AB, February 2016.

07438 (Limited Edition) HSGS7438 Total Parts: 117 Skill Level: 3  
Length: 10.2 in (258 mm) Wingspan: 8.1 in (207 mm)

### 1/32 MESSERSCHMITT BF109G-10

Aggressive air power

Designed by Messerschmitt and Lusser in 1934, the Bf 109 was one of the first truly modern aircraft of the era. Features such as a liquid-cooled V-12 engine, a closed canopy and retractable landing gear made the Bf 109 a huge improvement over WWI fighters. Powerful engines with superchargers and the option for extra guns, rockets, bombs or fuel tanks, made it a highly versatile fighter. Upgrades, variations, and field modifications kept the Bf 109 competitive through the end of the war. **Kit features** a special re-issue of a limited edition kit.

08072 (Limited Edition) HSGS8072 Total Parts: 120 Skill Level: 3  
Length: 12.2 in (310 mm) Wingspan: 11.1 in (283 mm)

### 1/32 JUNKERS Ju87D STUKA

Blitzkrieg bomber

Designed to deliver pinpoint devastation, the Stuka was one of the world's most sophisticated and successful dive bombers. It included a feature that could automatically pull the aircraft out of a dive if the pilot blacked out, allowing death-defying 90 degree dives out of the clouds. Early models also mounted "Jericho Trumpets" on the fixed undercarriage. These wailing sirens were detrimental to the flight qualities of the aircraft, but they unnerved Allied troops and became the sound of Blitzkrieg. **Kit features** a special re-issue of a limited edition kit.

08876 (Limited Edition) HSGS8876 Total Parts: 216 Skill Level: 3  
Length: 13.9 in (352 mm) Wingspan: 18.7 in (474 mm)

### 1/700 JAPANESE NAVY BATTLESHIP MIKASA (WATERLINE MODEL KIT)

Icon of an era

Few ships afloat are as storied as the legendary Mikasa. This pre-dreadnought battleship led the devastating rout of the Russian fleet by the Japanese in the Battle of Tsushima. This clash shocked the whole world and revealed Japan as the dominant naval force in the Pacific. Such is the reverence for this vessel in naval circles that it is still on display over 100 years after it was commissioned. It is the last pre-dreadnought battleship in the world, and now you can build a waterline-hull version of your own! **Kit features** two sets of decals.

49151 (Limited Edition) HSGS9151 Total Parts: 198 Skill Level: 3  
Length: 7.2 in (184 mm)

## 1/72 MIRAGE 2000C GULF WAR ANNIVERSARY

### Desert domination

French and UAE Air Force Mirage 2000s were deployed to Saudi Arabia for Gulf War operations twenty-five years ago. French forces secured the Northwestern flank of Coalition forces in "Opération Daguet" and also participated in the preliminary airstrikes into Iraq. In the East, near the border with Kuwait, UAE forces were amongst the liberators of Kuwait. In both areas the superlative multi-role capabilities of the Mirage 2000 maintained total air superiority throughout the conflict. **Kit features** three sets of decals for French and UAE aircraft involved in Desert Storm.

1381 ITAS1381 Total Parts: 99 Skill Level: 3 Length: 7.7 in (196 mm)  
Wingspan: 5 in (127 mm)

## 1/72 F-5F TWIN SEATER TRAINER

### Training top pilots

Designed to be lighter, cheaper, and easier to field than its contemporaries, the F-5 Tiger nevertheless had an arduous road to acceptance in the USAF. It was used operationally in Vietnam and as an "aggressor" training aircraft for multiple units. Overseas, however, it was far better received by countries like Switzerland, Singapore, Taiwan and more. There, its high mission availability and low cost count for far more than some of the dubious advantages of larger, more complicated craft. **Kit features** five decal versions.

1382 ITAS1382 Total Parts: 63 Skill Level: 2 Length: 7.7 in (196 mm)  
Wingspan: 4.5 in (113 mm)

## 1/48 AD-4W SKYRAIDER

### Enemy incoming

Incredible lift capacity gave early Skyraiders the ability to carry tons of bombs on precision strikes behind enemy lines. That capacity also allowed later Skyraiders like the AD-4W in this kit to carry incredibly heavy airborne radar sets. These sets gave commanders a clearer picture of the battlefield and were relatively easy to move wherever they were needed in the battle space. **Kit features** decals for four aircraft including two British and two American versions.

2757 ITAS2757 Total Parts: 94 Skill Level: 5 Length: 9.7 in (247 mm)  
Wingspan: 12.5 in (317 mm)

## 1/24 BERLIET/RENAULT LE CENTAURE

### Half semi, half luxury car, all muscle

The Berliet/Renault Le Centaure is one of the finest heavy haulers in Europe. Its combination of power and sophistication made it a star of the Berliet line. Despite its good reputation overseas, the Centaure has not made a large appearance in the US, making it one of the little-known modeling gems of the Italeri line. **Kit features** Berliet and Renault decal versions and soft rubber tires.

3913 ITAS3913 Total Parts: 287 Skill Level: 4 Length: 10.5 in (266mm)

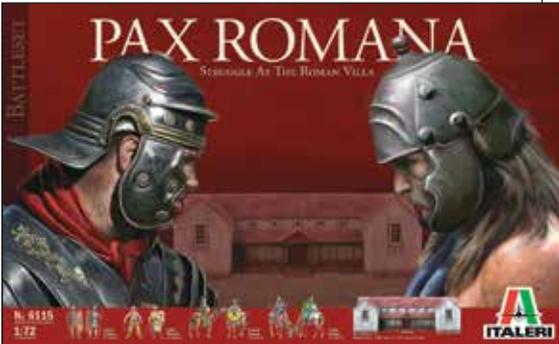

## 1/24 CURTAINSIDE TRAILER

Soft sides, long hauls

A waterproof tarp along the sides of a dry box trailer or stretched across support ribs makes a "Curtainside" trailer. This type of trailer has several advantages not the least of which is providing an easy way for companies to display their newest liveries. Additionally, trailers with cloth sides are lighter overall than their conventional counterparts. **Kit features** Schöni company graphics and soft rubber tires.

3918 ITAS3918 Total Parts: 126 Skill Level: 4 Length: 22.8 in (580 mm)

## 1/72 PAX ROMANA BATTLE SET

The Roman version of peace

After hundreds of years of war and expansion, the "Pax Romana", begun under Emperor Augustus, was a time of relative stability and little expansion. This peace, however, relied on the positioning of large forces in Roman border areas to tamp down unrest. **This set** allows you to duplicate the tense situation on the frontier with a Roman Villa, forty-two Celtic infantry and fifteen horsemen, thirty-six Roman infantry and sixteen horsemen, as well as a full painting guide.

6115 ITAS6115 Figures: 109 figures and 31 horses Total Parts: 299 Skill Level: 2

## 1/35 MODERN LIGHT WEAPON SET

Weaponry in all its shapes and sizes

The M60 is a crew-served fully automatic weapon that fires 500-650 7.62x51mm rounds a minute. Heckler and Koch G3 battle rifles use the same ammo as the M60, but the lighter and smaller G3 uses a 20 or 30-round detachable box magazine rather than linked cartridge belts. If accuracy isn't a particular concern, the Uzi and Sterling submachine guns can saturate an area in 9x19mm Parabellum in seconds. Or, simply evaporate the target with a TOW-guided missile with a 5 kg high explosive warhead. **Kit features** a selection of modern weaponry for your 1/35 scale battlefield.

6421 ITAS6421 Total Parts: 86 Skill Level: 2

## 1/35 M1120 HEMTT LOAD HANDLING SYSTEM

Transportation for any combat situation

With a ten ton rated hauling capacity, ability to equip armor kits, and roughly 300 mile operational range, the M1120 is one of the top tactical trucks in the US inventory. The type has been produced since 1982 and serves as a tanker, tractor, cargo hauler, missile launcher, water tender, and more. Its 8x8 drive system delivers supreme mobility over virtually any surface and allows a top speed of 62mph under ideal conditions. **Kit features** upgraded molds and rubber tires.

6525 ITAS6525 Total Parts: Skill Level: 4 Length: 11.4 in (290 mm)

## Academy™ 1/72 B-17E USAAF Pacific Theater

*Far above it all*

From 35,000 feet, tiny Pacific islands disappear in the vast blue ocean and the mightiest of ships are mere specs. From such a height and with maneuvering targets, even the incredibly accurate B-17 with its Norden bombsight was hard pressed to hit much of anything. Sink lower and the Zeros are all over you. All in all, the B-17 faced insurmountable challenges in the Pacific and after a year was re-routed to Europe. **Kit features** detailed cockpit and landing gear, full bomb bay, eight .50 cal machine guns, eight 500lb bombs and three sets of decals.

12533 ACYS2533 Skill Level: 4

## Academy™ 1/72 AH-64D British Army Afghanistan

*Conflict in Kabul*

The AH-64D is a lethal whirlwind of armaments. First, there's its M230 which spreads 30x113mm munitions at 625 rounds a minute. Then, there's the Hydra 70—a 2.75 inch, fin-stabilized rocket which delivers high explosive, flechette, or submunition warheads. Finally there's the biggest, boomiest weapons—the AGM-114 Hellfire missiles. These precise missiles are loaded with twenty pounds of high explosive, have a range of up to five miles, and are optimal for destroying light vehicles. **Kit features** detailed cockpit and engines, decals for British Army versions, and full armament.

12537 ACYS2537 Skill Level: 4

## AMT® 1/25 Tyrone Malone Kenworth® Super Boss Drag Truck

*King of the Kenworths*

Back from the AMT vault, it's Tyrone Malone's Super Boss Kenworth, the most unique drag truck ever to conquer the quarter mile! This truck delighted fans in the seventies and is back once more thanks to demands from dedicated fans. The excitement of retro diesel truck racing is alive and well with AMT's Retro Deluxe™ Super Boss kit. This **kit features** custom bodied Kenworth drag truck, "Bandag" pad-printed tires, expanded decal sheet, mini display box, and much more.

AMT930 AMTS0930 Skill Level: 3

## AMT 1/350 Star Trek® USS Enterprise Light Kit

*Illuminate, Deluminate*

Add light and interest to your 1/350 scale USS Enterprise model today with this light upgrade kit. This accessory pack makes any 1/350 kit even more stellar! Take your kit to the next level! Lights are timed to the on-screen appearance of the ship, plus the kit includes mini motors to spin the fans inside the nacelle caps. Everything you need to bring light to the darkest corners of the galaxy is included! **Kit features** LED light kit and nacelle fan motors.

## Bandai® Gundam HB IBO 1/144 #13 Gundam Gusion Rebase Orphans

*Back to battle!*

An on-field modification of the Gundam Gusion reborn for Tekkadan member Akihiro! Features 120mm rifle and shield that was the original Gusion's back plate that can be mounted on waist and arm. Also includes a hidden multi-arm feature in its backpack utilizing Graze arms and 2 different heads.

202304 BANS2304

## Bandai® Gundam HB IBO 1/144 Grimgerde Gundam Iron-Blooded Orphans

*Mystery and murder*

A mysterious mobile suit using the Valkyria frame, comes with rifle, 2 shields, and 2 swords. The nimble and fast Grimgerde mobile suit is used by McGillis Fareed in his alias as "Montag". Frame has been faithfully reproduced and allows removal and attachment of outer armor pieces.

202305      BANS2305

## Bandai® Gundam MG Dom Mobile Suit Gundam

*No Goufs here*

Upgraded far beyond the slower, weaker Gouf, the MG Dom is a mass produced mobile suit, the pride of the Zeon forces. High powered armament makes this a highly devastating weapon and its speed makes it a nimble combatant as well.

072576      BANS2576

## Bandai® Gundam HG IBO 1/144 Gundam Kimaris Trooper Gundam

*Ride to mega mecha battle!*

A form of the Gundam Kimaris with equipment for atmospheric use from "Gundam Iron-Blooded Orphans." Features a large lance, shield with hidden saber, and ability to transform into a highly mobile "Trooper Form." Stand included!

203223      BANS3223

## Bandai® Gundam HG IBO 1/144 Carta's Graze Ritter Gundam Orphans

*Honor before all*

A custom Graze unit used by the Outer Earth Orbit Regulatory Joint Fleet commander, Carta Issue. Features custom blade antennae on head, knight sword, and new shoulder and hip mounted armor. Original Graze equipment including rear booster, rifle, and battle axe included.

204179      BANS4179

## Bandai® Gundam MG Rick Dom Mobile Suit Gundam

*Heavy hitter*

It's not as fast or as powerful as many of the named Gundams, but the Rick Dom Mobile Suit makes up for what it lacks by carrying one massive bazooka. This massive, 370mm weapon fires an explosive shell capable of obliterating another mobile suit or severely damaging warships.

074440      BANS4440

## Bandai® Gundam HG IBO 1/144 Gundam Barbatos Form 6 Iron-Blood

### Made to mash

Gundam Barbatos with increased firepower and armor! In addition to new height from feet modification, model includes giant "Wrench Mace" weapon that can open to reveal a chainsaw, under-arm weapon mounts for mortars or auto-cannons, and Reactive Armor for chest. 4th form Barbatos armor parts and original feet are also included and can be switched out to recreate its ever evolving appearance! Combine with flight leg units from the HG Schwalbe Graze to make the 5th form Barbatos! Also includes alternate parts for HG #17 Graze Ritter.

205993

BANS5993

## Bandai® Gundam HG The Origin Waff Gundam The Origin

### Prototype punisher

A precursor to the iconic Zaku, the Waff is a development prototype in the original Gundam timeline. This model comes with a wide range of weapons including bazooka, heat hawk, and shield which can be attached to hard points on its armor for storage. The forearms can be interchanged with the prototype Gouf and and Mobile worker forearms for different weapon loads.

206308

BANS6308

## Bandai® Gundam RG 00 Quanta Gundam 00

### Double zero destroyer!

A new Real Grade from the Gundam 00 universe! The successor to the Exia and 00 Gundam, the 00 Quanta uses real world innovations for the fictional tech of the Gundam universe. A series of mechanical mounts and swinging joints have been used to recreate the GN Drive docking and the GN Shield's range of movement as seen in the Gundam 00 movie, "Awakening of the Trailblazer". Frame is specially modified so the sword can be held horizontally. All weapon gimmicks including conversion between sword and rifle forms have been faithfully recreated.

206312

BANS6312

## Bandai® Gundam HGUC Gyan (Revive) Mobile Suit Gundam

### Deadly duelist

The knight themed mobile suit from the original "Mobile Suit Gundam" TV series now in a modern HG form! Not only have its proportions been refined with modern aesthetic, but it features more poseability and articulation than ever before! Wrist can shift forward to recreate various fencing attacks and shield includes layers of color separation. Includes beam saber, and shield.

206317

BANS6317

## Bandai® Gundam BB400 SD Knight Superior Dragon

### Sink your teeth in Bandai's 400th release!

The 400th release in the SD Gundam line, the Knight Superior Dragon has been faithfully recreated in electroplated shiny gold plastic. Able to convert between knight and dragon forms, the release incorporates the advancements made into higher end SD releases. Wings are flexible through ball joints and parts of its body can be combined to recreate various weapons like a large bow. A clear yellow display stand is included. **Kit features** runners, stickers, and full instructions.

206318

BANS6318

## Bandai® Gundam IBO 1/100 Gundam Barbatos Form 6 "Gundam IBO"

*Large and in charge!*

Gundam Barbatos with increased firepower and armor! In addition to new height from feet modification, model includes giant "Wrench Mace" weapon that can open to reveal a chainsaw, under-arm weapon mounts for mortars or auto-cannons, and Reactive Armor for chest. Barbatos' original mace with pile driver feature is also included. Combine with flight units from the 1/100 Schwalbe Graze to make the 5th form Barbatos!

207323 BANS7323

## Bandai® Gundam HGTB Psycho Zaku Gundam Thunderbolt

*Guns to spare*

From "Gundam Thunderbolt" comes a heavily armed High Mobility Type Zaku! A large cache of weapons including a Zaku Machine Gun, 3 Zaku Bazookas, sturm fausts, giant bazooka, and heat hawk are included. A display stand is included to pose this massive Zaku. **Kit features** runners, stickers, and full instructions.

207588 BANS7588

## Bandai® Gundam HG IBO 1/144 Gundam Astaroth "Gundam Iron Blooded Orphans"

*Savage salvage*

A Gundam unit from the manga side story for "Gundam Iron-Blooded Orphans", Astaroth is a machine that has accumulated numerous on field repairs and no longer resembles its original form. Its asymmetric design features a strong suite of weapons including a massive folding sword, known as the "Demolition Knife", plus a rifle, and small knife. **Kit features** numerous hard point plugs for use with other HG IBO models. **Kit features** runners, stickers, and full instructions.

207591 BANS7591

## Bandai® Gundam Character Stand Plate Kudelia "Gundam Iron Blooded Orphans"

*Mars must be free!*

Kudelia Aina Bernstein is one of the most influential characters of the Gundam Iron Blooded Orphans segment. It is her passion for freedom that unifies the separatist factions on Mars and gives them the strength to stand up against oppressors from Earth. **Kit features** a graphic base plate.

207597 BANS7597

## Bandai® Gundam Character Stand Plate Atra Mixta "Gundam Iron Blooded Orphans"

*Soup's Hot!*

Atra Mixta is Tekkadan's cook and unofficial mascot in "Gundam Iron Blooded Orphans". As an orphan herself, she fits right in with the "human debris" that make up Tekkadan's ranks.

207598 BANS7598

## Bandai® Gundam HGTB GM(Anime Color) "Gundam Thunderbolt"

*Lending a hand in the fight*

Redesigned GM as used by the Mua Brotherhood from "Gundam Thunderbolt." Features unique joint covers to protect from space particle matter. Plus, this is a platform for overwhelming firepower and defensive capabilities alike, thanks to its 2 shields on movable arms, double barrel beam rifle, and beam spray gun. **Kit features** runners, stickers, and full instructions.

207599 BANS7599

## Bandai® Gundam SD EX-Standard Destiny Gundam

*Chibi Gundams are your destiny*

Part of the SD Gundam EX-Standard product line, the Destiny Gundam has been recreated with an emphasis on articulation and enhanced proportion at an attractive price. Weapons include High energy beam rifle, long-range cannon, and anti-ship sword that can be mounted on back. **Kit features** runners, stickers, and full instructions.

207854 BANS7854

## Bandai® Gundam SD Gundam EX-Standard Gundam Barbatos

*Build a baby Barbatos*

Part of the SD Gundam EX-Standard product line, the Gundam Barbatos has been recreated with an emphasis on articulation and enhanced proportion at an attractive price. Weapons include mace, long-range cannon, and sword that can be mounted on back.

207855 BANS7855

## Bandai® Gundam HG The Origin Zaku I Gundam The Origin

*All-purpose annihilation*

The Zaku I as used by Denim and Slender from the animated adaptation of "Gundam The Origin." Kit comes with parts to build either pilot's personalized machines. Weapons include large anti-ship rifle, bazooka with interchangeable cartridges, zaku machine gun, and heat hawk in sheathed and battle-ready forms. Weapons can be mounted on the body through various hardpoints. **Kit features** runners, stickers, and full instructions.

206316 BANS9316

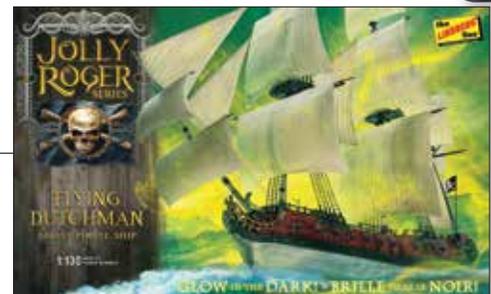

## Lindberg Models 1/130 Jolly Roger Series Flying Dutchman

*Mariners' fright, modelers' delight!*

The night is silent, chill, and deadly still. A black vessel bears down from astern, her ragged sails bellied out with a hellish wind though not a puff of breeze reaches your own. Your leeway is small and shrinking. Already a fetid reek ekes its way into your nostrils and the groan of ancient, tortured spars and damned souls assaults your ears. Do you swim or do you pray? Decide quickly, the Flying Dutchman comes for you. **Kit features** detailed, glow-in-the-dark ship, crewmen, boats, 30 cannon, display stand, and more.

## Minicraft® 1/48 Cessna 172 Floatplane with Custom Registration Number

*A short hop from here to anywhere*

The Cessna 172 is the most successful small plane in the world. In production since 1956, over 40,000 have soared into the sky. One of the most popular variants involves attaching floats to the Cessna to turn any sizeable stretch of water into an airfield. For getting to and from the remote regions of world, there's nothing better than the low-cost, low-maintenance Cessna 172. **Kit features** new tooling, detailed interior, removable engine cowling showing engine, and deluxe decals.

11685 MMIS1685

## Minicraft® 1/48 Cessna 172 with Custom Registration Number

*Your bird to go beyond*

The Cessna 172 is the most successful small plane in the world. In production since 1956, over 40,000 have soared into the sky. Its fixed tricycle landing gear and superb handling qualities make it a popular aircraft with new pilots and pilots who operate far from bustling metropolitan airports. For getting to and from the remote regions of world, there's nothing better than the low-cost, low-maintenance Cessna 172. **Kit features** new tooling, detailed interior, removable engine cowling showing engine, and deluxe decals.

11686 MMIS1686

## Minicraft® 1/72 B-24D USAAF Formation Ship with 2 Markings

*Form up on me*

A "Judas Goat" is a specially trained animal used to lead other animals to slaughter houses. The name was also applied by air crews to Bombers like this model which were stripped of their guns and painted in bright colors. These flamboyant planes were used so that hundreds of bombers could get into formation for attacks on Nazi occupied territories. For far too many air crews, the "Judas Goat" name was all too apt as they flew unescorted missions against heavily defended targets.

11689 MMIS1689

## Minicraft® 1/144 Bf-110 Messerschmitt with 2 Marking Options

*Fire in the night*

Exceptionally heavily armed Bf-110 fighters were some of the most lethal threats Allied bombers encountered in WWII. These twin-engine fighters made the most impact in a night fighter role, shooting down English bombers in the dark over Europe. Their combinations of twin 20mm cannons, a quartet of 7.92mm machine guns, and options for upward firing "Schrage-musik" configuration weapons let them turn bombers into Swiss cheese. Later variants also were equipped with onboard radar—a much more effective tool than ground intercept radar.

14720 MMIS4720

## Minicraft® 1/144 P-47D USAAF with 2 Marking Options

*Lots and lots of guns*

At eight tons fully loaded, the P-47D was one of the most massive single-engine aircraft of World War II. Pilots nicknamed it the "jug" and it was a true juggernaut. These aircraft ran escort missions, close support missions, and pulverized ground targets with bombs and their eight 50 caliber machine guns as a fighter bomber. At high altitudes, the P-47D was supreme—more maneuverable than many German fighters. At lower altitudes, high energy dives and gobs of firepower evened the odds.

14722 MMIS4722

## Moebius Models® 1/8 1966 Riddler

*Riddle me this*

What's malevolent, intelligent, and has terrible taste in unitards? If you answered "The Riddler" you should definitely pick up this amazing 1/8 scale Riddler figure. It's based on the famous Frank Gorshin portrayal of Riddler from the campy 1960's "Batman" TV series. Detailed sculpting by Jeff Yagher brings the questionably colorful Riddler to life! **Kit features** posed 9.5" Riddler model with batcave rock display base and nameplate.
