 Length: 11.1 in (282 mm)
 Width: 5.1 in (130 mm)
 Height: 3.6 in (92 mm)
 Weight w/battery: 1.27 lb (580 g)
 Wheelbase: 6.7 in (170 mm)
 All require: Nothing!

Each Dromida car comes with a fully assembled vehicle, 2-channel radio, rechargeable NiMH battery, AC charger with international plug inserts and 4 "AA" batteries.

From the Experts:

Dromida expertise now comes to R/C cars, in both Touring and Rally styles. All feature sure-footed four-wheel drive, along with performance perks such as gear diffs, oil shocks, ball bearings and adjustable suspensions. They come already assembled, so you can get out and go right now, with your choice of brushed or brushless power.

Long story short...

Whether you're a beginner or a seasoned veteran, you'll look like a pro wherever you go with these Dromida rides!

FLYING MADE EASY

VOYAGER™

Ready-to-Fly Electric-Powered Airplane

- › Easy to fly with little or no experience
- › 100% Ready-To-Fly — everything is included
- › Rudder, elevator and throttle control
- › Scale details such as wing rib detail, wheel pants and panel lines
- › The 4-channel radio system features 2.4GHz dependability, digital trims and a built-in LiPo battery charger
- › Learn to fly outdoors in calm conditions, and then take advantage of the Voyager's compact size to fly inside a large gymnasium if you want

DIDA0200 Voyager EP Airplane RTF
 Wingspan: 19.5 in (495 mm)
 Weight: 1.9 oz (54 g)
 Length: 15 in (381 mm)
 Requires: Nothing!

DROMIDA

In addition to a fully assembled Voyager plane, you also get a 4-channel SLT compatible radio with built-in charger, rechargeable LiPo battery and 4 "AA" batteries.

Scale touches add realism to the Voyager's appearance that you won't find with typical trainers.

From the Experts:

When you choose the right plane for your first plane, R/C flying is much more enjoyable — and the Voyager is the right plane. It exhibits slow, docile flight characteristics and comes preassembled with everything included, so it's ideal for beginners.

Long story short...

The Voyager makes getting into R/C incredibly easy and loads of fun!

THE SIMPLE WAY TO SUCCESSFUL SOARING

SKY Cruiser 2TM

Ready-To-Fly Electric Powered Glider

Because the Sky Cruiser 2 comes mostly assembled with everything included, your first flight can be within minutes after taking it out of the box.

Everything shown here is included with the Sky Cruiser 2: a mostly assembled airframe, 2.4GHz 4-channel radio system, 2S 7.4V 300mAh LiPo battery, LiPo balancing charger and "AA" batteries.

DIDA1050 Sky Cruiser 2 EP Glider RTF
 Wingspan: 29.5 in (750 mm)
 Weight: 3.8 oz (108 g)
 Length: 22.04 in (560 mm)
 Requires: nothing!

- Dromida brings its renowned reliability to R/C gliders, making the Sky Cruiser 2 the ideal aircraft for pilots of all skill levels
- Fly with confidence: the Sky Cruiser 2's virtually unbreakable EPO foam construction can survive most crashes
- Compatible with Futaba® S-FHSS transmitters
- The pusher style prop design helps facilitate safe launchings and landings

KNOW FLY
 BEFORE YOU
 Unmanned Flight Safety Guidance
www.knowbeforeyoufly.org

DROMIDA

From the Experts:

The Sky Cruiser 2 is the glider everyone can enjoy! Beginners will enjoy the Ready-To-Fly convenience and forgiving foam construction. Intermediate and expert pilots will appreciate the secure control of the S-FHSS protocol. Everyone will love how easy and fun flying the Sky Cruiser 2 can be!

Long story short...

The Sky Cruiser 2 RTF is the perfect plane for leisurely, carefree flying, any day of the week!

RUGGED AND READY-TO-FLY

*Twin Explorer*TM

Ready-To-Fly Twin Motor EP Glider

A simple hand launch is all you need to get the Twin Explorer airborne.

Powerful twin motors make the Twin Explorer more maneuverable than similarly-sized single-motor gliders.

The Twin Explorer is ready for flying fun right out of the box. Everything you see here is included!

- Tough foam construction provides excellent protection for new pilots and less-than-perfect landings
- After a quick battery charge the Twin Explorer is flight-ready with just a hand launch
- For convenience, the 2.4GHz transmitter features a built-in USB battery charge port

DIDA0010 Twin Explorer Twin
Motor EP Glider RTF
Wingspan: 18.9 in (480 mm)
Weight: 1.4 oz (40 g)
Length: 15.75 in (400 mm)
Requires: nothing!

DROMIDA

From the Experts:

The Twin Explorer is the ideal aircraft for first-timers, with the bonus of dual motor power! It boasts maneuverability that single-motor gliders can't offer — yet withstands crashes that ground other models. Get your hands on a Twin Explorer, and get ready for instant aerial adventure!

Long story short...

With its dual motor power — and the many advantages of Dromida engineering — the Twin Explorer transcends trainers!

Weight: 4.5lbs (2.04kg) estimated with electronics

For additional items see a complete list at www.GPDealer.com

From the Experts:

The SCX10 has been the vehicle of choice for scale trail fun! For the past 8 years the SCX10 has been the staple vehicle platform for scale trail enthusiasts around the world. Axial was one of the first companies to embrace R/C rock crawling and the first to mass produce a scale trail truck. Axial has been watching trends, tirelessly testing, and experimenting to create the next evolution of the SCX10. The SCX10 II is the culmination of many years of development, furthering aesthetic realism while maximizing trail performance. The next generation of SCX10 is here!

Long story short...

The next chapter of the Axial SCX10 begins with true technological engineering and scale realism!

- SMT10™ tube frame chassis
- 2.2 BKT Monster Jam tires
- AR60 OCP-Axle™ - front and rear
- Long travel rear sway bar
- Heavy duty c-hubs
- Heavy duty hydraulic ram style steering link

- Adjustable aluminum 87-125mm shocks
- Trailing arm 4-linked rear suspension
- Grave Digger replica body

Ground Clearance: 2.9" (74mm)
Weight: 7.11lbs (3.22kg) Estimated with electronics

For additional items see a complete list at www.GPDealer.com

From the Experts:

Over the past decade, Axial has been synonymous with crawlers and the scale trail community for creating vehicles that inspire endless adventure and creative freedom. What's usually the first thought that comes to mind when someone mentions Monster Jam? Grave Digger; who's sitting right up on top! The iconic black, purple and green graveyard themed paint job has been haunting and thrilling fans for over 30 years. Axial went all out when designing the chassis and roll cage for the SMT10™ Grave Digger Monster Jam Truck. Very similar to the modern era full size monster trucks, this chassis was developed for maximum strength and an extremely detailed appearance.

Long story short...

The SMT10™ Grave Digger® Monster Jam® Truck is the first true-to-scale 4WD straight axle Monster Jam Truck available on the market today!

A DISTINCTIVE VERSION OF THE IFMAR CHAMPION

Speed B2101 Las Vegas Edition 1/8 Scale Buggy Engine

- This limited edition power plant commemorates the 2016 IFMAR Worlds Championships, held in Las Vegas, Nevada
- Machined cylinder head with five stars and stripes representing each of the IFMAR Worlds wins O.S. has tallied
- Designed specifically for maximum power output, performance and tuneability in 1/8 scale buggy applications
- Features a DLC-coated crankshaft balanced with tungsten weights and the efficient, reliable 21J carburetor

OSMG2054 Speed B2101 Las Vegas Edition

Displacement: 0.211 cu in (3.46 cc)

Bore: 0.646 in (16.40 mm)

Stroke: 0.646 in (16.40 mm)

RPM Range: 4000-42,000

Output: 2.61 hp @ 34,000 rpm

Weight: 12.42 oz (352 g)

Includes: 21J carburetor; 6 mm and 6.5 mm carb reducers; P3 Turbo glow plug; dust cap set (3 mm, 16 mm and 18 mm); exhaust seal ring

Requires: Glow fuel, T-2090SC Tuned Silencer Set

O.S. ENGINE
UNEQUALLED QUALITY PRECISION & PERFORMANCE

From the Experts:

It's the exact same trophy-winning power and performance as the original Speed B2101 — tricked out with eye-catching graphics to recognize the 2016 IFMAR World Championships, as well as O.S.'s 80th anniversary. Supplies of this engine are extremely limited, so get yours now before they're gone!

Long story short...

The Speed B2101 has been trusted by champion drivers all over the world, and is ready to power you to the podium!

FOR EASY CRUISING — OR CUTTING LOOSE

rapide™

Receiver-Ready Brushless Performance Glider

- Tough, fiberglass- and carbon fiber-reinforced AeroCell airframe withstands high-speed stress and extreme aerobatics with ease
- Full flying stabilizer offers less drag and better aerodynamics than horizontal, hinged stabilizers
- Comes with servos and a brushless power system installed, but leaves radio, receiver, battery and charger choices to you

With no bad habits and plenty of sport potential, the Rapide is an excellent next step for pilots who've mastered the basics of glider control.

FLZA3364 Rapide Brushless Performance Glider Rx-R

Wingspan: 60 in (1525 mm)

Wing Area: 364 in² (23.5 dm²)

Weight: 2.75 lb (1250 g)

Wing Loading: 17 oz/ft² (52 g/dm²)

Length: 42.5 in (1080 mm)

Requires: 4+ channel radio, 3S 2200mAh LiPo battery, 3S LiPo balancing charger

From the Experts:

From everyday soaring to extreme aerobatics, the Rapide is the performance glider that does it all and does it well. Carbon and fiberglass reinforcements make the airframe extremely rigid to handle high speeds, and being Receiver-Ready means you get to equip the Rapide with the radio system, battery and charger that you choose.

Long story short...

If you're an intermediate level glider pilot who's ready to push the performance envelope, the Rapide is right for you!

RALLY AROUND THIS MICRO RACER

MICRO RS4

1/18 Scale Ken Block 4WD Gymkhana GRiD Ford Fiesta ST RX43 RTR

- Race almost anywhere indoors and out with this 1/18 scale version of Ken Block's full-sized Ford Fiesta ST RX43!
- Handles just like a larger R/C car, with 4WD and front universal dogbones
- Challenge rough track conditions with coil-over shocks and double-wishbone independent front suspension
- Enjoy blazing speeds and quick acceleration from the powerful 180-size motor
- A 6V 1200mAh battery delivers long run times; an AC wall charger and 4 "AA" batteries are included
- Go right from the box to the track — this machine is Ready-To-Run!

115387 HPID1387 Ken Block 4WD Ford Fiesta ST RX43 Micro RS4 RTR
 Length: 8.9 in (227 mm)
 Width: 4.3 in (110 mm)
 Height: 3.3 in (85 mm)
 Wheelbase: 5.9 in (150 mm)

From the Experts:

Get behind the wheel of this micro-sized replica of Ken Block's Ford Fiesta ST RX43, and experience awesome performance that's as close as it gets to driving a high-profile rally car! It has all the markings of his full-size Gymkhana GRiD competitor, so you'll really stand out at the track!

Long story short...

Get ready to turn heads with the looks, speed and handling of this 1/18 scale R/C machine based on Ken Block's high-profile rally racer.

TAKE YOUR BEST SHOT WITH THIS SUPER TRUCK!

jumpshot *st*

Ready-To-Run 1/10 Scale 2WD EP Stadium Truck

116112 HPID1212 Jumpshot ST 2WD EP Stadium Truck RTR
 Length: 15.75 in (400 mm)
 Width: 12.25 in (311 mm)
 Height: 5.8 in (147 mm)
 Wheelbase: 11.75 in (300 mm)

The Jumpshot ST Stadium Truck is engineered to deliver big-time bashing and racing fun, right out of the box!

- The tough, TVP (Twin Vertical Plate) chassis is proven to stand up to aggressive driving and come back for more
- Punch the throttle, and watch the Firebolt 15T motor and LiPo-ready Flux SC-3SWP2 ESC put you out in front
- Massive oil shocks and a double-wishbone suspension help keep you in control over rugged terrain
- Go wherever adventure awaits: all-terrain tires and waterproof electronics defy the elements
- The battery box is easily accessed from underneath, and holds either a 7-cell NiMH stick or 2S LiPo packs

From the Experts:

The Jumpshot ST adapts the acclaimed Jumpshot platform to thrilling stadium truck action, with a fully adjustable, modular design that offers maintenance ease and crash protection for the electronics. An extra-wide stance improves handling, and the sleek truck body with HPI graphics throws off a truly intimidating vibe!

Long story short...

The Jumpshot ST combines toughness and advanced performance into one exciting stadium truck package!

NEWPRODUCT

ATTACK THE TRACK WITH THIS THOROUGHbred RACER

R8

1/8 Scale 4WD Nitro On-Road Kit

110754 HBSC0754 R8 1/8 Scale

4WD Nitro On-Road Kit

Length: 18.5 in (470 mm)

Width: 10.4 in (265 mm)

Weight: 5.4 lb (2450 g)

Wheelbase: 11.5 in (292 mm)

Requires: .21 size racing engine with rear slide carburetor, tuned exhaust pipe with manifold, air filter, mounted foam tires, body, 2-channel radio system with 2 servos

- It's the fastest and most advanced on-road car HB has ever released, designed to excel in the high-profile arena of 1/8 scale nitro competition
- Hug the corners and stick to the straightaways with the R8's centralized weight and super-low CG
- Every ounce of excess weight has been gleaned from the 5mm thick machined aluminum chassis
- Enjoy maximum suspension adjustability, with quick and easy access to get you out of the pits and back on the track fast
- The suspension system is highly tunable, to adapt to any track conditions

The lightweight 2-speed transmission lets you brake quickly and accelerate with authority.

From the Experts:

No stone was left unturned in the R&D of the R8 kit — HB engineers made sure of that. With its jaw-dropping acceleration, razor-sharp cornering and the ability to hit 80+ mph, this nitro-powered performer demands everything from its driver, and rewards the driver's skills accordingly!

Long story short...

The R8 makes no compromises on quality, making it the ideal vehicle for club racers as well as World Championship contenders!

1/25 CORVETTE® C7.R

Course champion

World class performance meets incredible style in the exquisitely detailed Corvette C7.R. This sophisticated Pratt & Miller designed version of the Corvette is designed for endurance racing. It conquered its class at the 2015 24 Hours of Le Mans and made waves elsewhere in the automotive racing world. **Kit features** full interior roll cage, lift-off style bodywork, engine detail, and soft black tires.

85-4304 RMXS4304 Total Parts: 64 Skill Level: 4 Length: 7.06 in (179 mm)

1/48 STUKA JU 87G-1

Tank cracker

Thick, well-sloped armor made the T-34 incredibly resilient to horizontal attacks, but the Ju 87 G-1 was designed to blast the Soviet tanks from above. With a pair of 37mm guns armed with tungsten carbide rounds, the Ju 87 G-1 could blow holes straight through the thin top armor of the T-34. Fortunately for the Soviets, Stukas were vulnerable when caught without fighter escort. **Kit features** two underwing 37mm BK cannons, pilot and radio operator figures, and four piece canopy.

85-5270 RMXS5270 Total Parts: 54 Skill Level: 4 Length: 9.25 in (235 mm)
Wingspan: 12.25 in (311 mm)

1/72 GERMAN ARMY CRISIS REACTION FORCES SET

In the fray in a day

As the name suggests, the German Army's Crisis Reaction Forces get called in when there's a crisis. It is composed of troops from all the troop categories in the German military and forms the backbone of the German contribution to NATO, EU, and UN operations. Currently, these forces are in operation with SFOR in Bosnia and KFOR in Kosovo. **Kit features** 54 figures outfitted with improved flak jackets and the G-36 assault rifle as well as other weapons.

02522 RVLS2522 Total Figures: 54 Skill Level: 4

1/35 SD.KFZ. 251/1 AUSF.B STUKA ZU FUSS

"Stukas on Foot"

To give their halftracks considerably more punch, German troops occasionally attached crated 300mm rockets to the sides and ripple-fired them at urban targets. The "Stuka zu Fuss" (Stuka on Foot) or "Wurfrahmen 40" was more mobile than using the towed "nebelwerfer" rocket batteries and had the added advantage of allowing crews to stay relatively protected within the halftrack. The major drawback for the system was inaccuracy. However, owing to the 99 lbs of high-explosive filler in each rocket, accuracy was a relative non-issue. **Kit features** single-link tracks, engine, launch frame, 280 and 320mm projectiles, and two sets of decals.

1/144 SU-27 FLANKER

Still superior

Easily one of the most maneuverable fighter aircraft to ever take to the skies, the Sukhoi Su-27 was the Soviet Union's answer to American fourth-generation fighter designs. It is one of the few aircraft in the world capable of performing "Pugachev's Cobra"—a demanding stunt in which the nose of the aircraft rears up and back to vertical before lunging forward like a striking snake. Coupled with speeds above Mach 2 and impressive armament, this maneuverability makes the Su-27 a master of the sky. **Kit features** detailed undercarriage, pylons with guided weapons, and full decals.

Wingspan: 4.06 in (103 mm)

1/100 AH-64A APACHE

Advanced attack heli

Introduced in 1984, the AH-64 Apache is powered by twin GE® T700 turboshaft engines and includes a tandem cockpit, which seats two pilots. Weapons featured on the Apache range from a 1.2 in. (30 mm) M230 Chain Gun to Hydra 70 rocket pods to AGM-114 Hellfire missiles. The Apache was used in the 1989 invasion of Panama, Operation Desert Storm in 1991 and Operation Iraqi Freedom in 2003 as well as providing an airborne punch in many other conflicts. **Kit features** rotating main rotor, laser system, sensors, cannon, and decal set for a US Army version.

1/300 GERMAN FRIGATE CLASS F122

Bremen-class battlers

Frigates, with their light armament and thin or no armor, are some of the smallest and lightest ships in the world inventory. For the German Navy, however, the frigate is the toughest ship class currently available. These vessels are specialized for anti-submarine and anti-aircraft roles necessitated by the Cold War era. After three decades of service, the Bremen Class is being phased out in favor of larger, modernized frigates. Add an F122 to your Cold War convoy today. **Kit features** two-piece hull, guided missiles, gun, helicopter, and decal sets for eight ships.

05143 RVLS5143 Total Parts: 235 Skill Level: 4 Length: 17.05 in (433 mm)

1/16 BMW® ISETTA

Superiorly small

Make it weird enough and somebody will buy it. With seating for two very close passengers, a motorcycle-derived engine, and a flap-open front door, the Isetta was a design quirk for the century. Add in the vehicle's 30 second 0-30 mph transition and its top speed of roughly 47 mph, and getting behind the wheel is far less appealing than setting a model on the shelf. The saving grace for the Isetta, besides its novelty, was its economy. At up to 58mpg, the Isetta was incredibly fuel efficient for the fifties. **Kit features** opening door with steering column, 250cc engine, rotating wheels, and lots of plate decal options.

1/24 DENSO TOYOTA 88C "1989 LE MANS"

Control in your corner

The 24 Hours of Le Mans race, or just "Le Mans", is one of the most punishing events in the world of motorsports. Cars, drivers, and pit teams are strained to the absolute maximum. Prototype cars like the 88C frequently don't finish at all, so when 88s finished both 12th and 24th in the 1988 race, there was great optimism on the Toyota staff. Unfortunately, the 88C sent to the 1989 Le Mans broke down along with two of its successors. **Kit features** decals for the 1989 Le Mans prototype.

20235 (Limited Edition) HSGS2235 Total Parts: 91 Skill Level: 3 Length: 7.8 in (199 mm)

1/24 YHP NISSAN R89C

Prototype performer

In the world of high-performance automotive sports, there's little room for error. Absolute excellence is demanded of every car, every driver, and every pit crew. The Nissan R89C was an exceptional design—made from carbon fiber and with a new twin-turbo V8 engine. Unfortunately, the vehicle was put into competition before it was really ready. Numerous poor finishes were capped by the mechanical failure of all three cars entered into the 1990 24 Hours of Le Mans. Now, we're bringing the R89C back for a second try at glory! **Kit features** full decals.

AMT® 1/25 2016 Chevy® Camaro™ SS™ (Color Version)

Now you have a V8

That big front end isn't just for show; it contains a 6.2 liter LT1 V8 that produces 455 horsepower. That's well more than enough power to blow your hair back. The 2016 model is the start of the sixth generation of Chevy Camaros. It's part of a tradition and a name that stretches back five decades—fifty premium-fueled years of high octane fun. Collectors can't miss this one and new modelers should take notice too. This is a real car. Also available in white (AMTS0978).

AMT979M/12 AMTS0979 Total Parts: 107

AMT® 1/25 Blazing Bison Puller Tractor

High powered haulage

Tractor pulls pit the sheer power of a modified truck or tractor against the ever-increasing dead weight of a specialized sled. Competitors range all the way from simple lawn tractors to full-size tractors to vehicles like the Blazing Bison that are more dragster than tractor. The "Blazing Bison" is powered by three blown engines for maximum power. **Kit features** three blown drag motors, huge rear tractor puller tires and wheels, tools, cooler, toolbox, weights, wagon, vintage style packaging, and full, colorful, Blazing Bison decals.

AMT® 1/25 Cheverra Custom 1980 Camaro Z28 Snap

Leave stock far behind

For some, the standard model is not enough. You need the performance model. For even a more select crowd, the performance mark isn't enough. A custom version of the performance model is demanded. For those special few, the Cheverra Custom version of the 1980 Camaro Z28 is a dream come true. No glue, easy assembly, and it's got a whale of a whale tail and a spoiler too! **Kit features** snap fit construction and molded-in-color parts.

AMT1007/12 AMTS1007 Total Parts: 20 Skill Level: 1

AMT® 1/25 1977 AMC Pacer Wagon

Seventies through and through

Ahead of its time in many respects, the AMC Pacer was ergonomic, compact, comfortable, and affordable. However, it was simply not what the American automobile purchaser was looking for at the time. The bubble-esque, mostly glass body didn't fit in to the big and boxy look of the Pacer's competitors. Today, the Pacer—especially the wagon version—is experiencing a retro renaissance as seventies nostalgia sweeps the car market. Get your model version and marvel at the glitz and glass! **Kit features** two sets of wheel options, CB radio, vintage packaging, and full color decals.

AMT1008/12 AMTS1008 Total Parts: 110 Skill Level: 2

AMT® 1/25 1961 Chevy® Impala™ SS™

Sixties stunner

Tighter, trimmer, boxier, and more aggressive than its predecessors, the 1961 Chevy Impala SS featured all-updated styling and an exceptional performance package. Today, vintage Impalas are huge in the classic car market... and the '61 is second to none! Whether it's restored to stock spec, modded, or lowered... the '61 Impala SS is quite the sight on the road or in your display case. **Kit features** a full 409 cu.in. Turbo Fire V-8 with 4-speed transmission, detailed chassis with suspension and steering, factory wheels with torq thrust mags and optional drag slicks.

AMT1013/12 AMTS1013 Total Parts: 125 Skill Level: 2

Bandai® “Dragon Ball Z” Super Saiyan Son Goku

Exceptional extra terrestrial

Goku, the chief character in the Dragon Ball franchise, was sent to Earth not as a savior, but as a conqueror. Along the way, however, Goku ceased to work against Earth and chose to be its protector. Ever since, the iconic spiky gold-haired Goku has fought the most powerful foes. This model depicts him in his full “Super Saiyan” mode. **Kit features** high articulation and detail, multiple hand parts for martial arts poses, two “Kamehameha” effect poses, powering up face, and more!

BAN210541 BANS0541

Bandai® Gundam HG “The Origin” 1/144 Local Type

Blast through space

The Gundam Local Type serves as the missing link between the Gundam Ground Type and GunDiver mobile suits from the original Gundam universe. It displays many of the body characteristics of its successor units and is both finely articulated and detailed like the entire HG Origin line! **Kit features** machine gun, shield, twin beam sabers, 10 runners, stickers, and more.

BAN210001 BANS2001

Bandai® Gundam “Universal Century” 1/144 MSN-06S Sinanju

Destined for devastation

The crimson Mobile Suit Sinanju, piloted by the leader of the Sleeves, has finally launched in the RG line-up! The model includes movable rear-mounted thrusters, which are based on the thrust control mechanisms of real rocket engines and internal skeleton detailed from drawings by Hajime Katoki. The texture of the brilliant gold engravings has been faithfully recreated as individual parts while its main body is made in a glossy red plastic. **Kit features** a beam rifle, beam saber, beam axe, shield, beam effect parts, interchangeable hands, runners, decal, and instructions.

BAN207590 BANS7590

Bandai® Gundam HG “Orphans” Astaroth Origin

The star warrior rides again

The new Gundam Frame Mobile suit that appears in the official side story, “Mobile Suit Gundam Iron-Blooded Orphans: Moon Steel,” is now available in kit form! Its distinctive weapons can be hung from its waist, and it has transformable shoulder and back parts. The weapons feature distinctive shapes and, in addition to a large scale sword, a shotgun is also included. **Kit features** sword, hammer, shotgun, foil sticker, and full instructions.

BAN207592 BANS7592

The most awesome orphan in the galaxy

Fresh from the figure-rise bust series: Mikazuki August! The chief character of the Gundam Iron Blooded Orphans series, August is an essential part of any collector’s cadre! This bust has been made using layer injection tech for the most astoundingly detailed character possible. Combine it with the 1/100 Barbatos for a truly out of this world display. **Kit features** one display stand, foil sticker, and full instructions.

BAN209445 BANS9445

Dragon® Models 1/350 USS Arleigh Burke DDG-51

“This ship is built to fight. You had better know how.”

Admiral Arleigh Burke, the famed WWII veteran and Chief of Naval Operations, had this bit of advice for the new crew of the Guided Missile Destroyer that was his namesake. DDG-51 is the lead ship of a class of highly-adaptable, versatile vessels designed using stealth technology and tasked with confronting surface, subsurface, and aerial opponents. USS Arleigh Burke has deployed many times, most recently in support of Operations Enduring Freedom and Iraqi Freedom. **Kit features** one-piece hull, accurately detailed gun, photo-etched railings/radar, display stand, and Cartograf decals.

1023 DMLS1023

Dragon® Models 1/48 Focke-Wulf Ta 152 C-0

Late war leader

By 1945, Nazi Germany needed something to turn the tide of the war... badly. In January, 1945, the first Ta 152s entered service. These aircraft were built in multiple variants for high altitude interception, medium altitude interception, and photo recon. With special boosters, these aircraft were capable of outpacing even the P-51, and their combination of 30 and 20mm cannons made them lethal. Fortunately for the Allies, less than 100 made it into combat. **Kit features** rotating prop, detailed newly-tooled fuselage, engine, wings, and radiator cowlings, open/closed canopy, and detailed landing gear.

Dragon® Models 1/35 M4A1 75mm Early Version Standard issue

At its introduction in 1942, the M4 Sherman was one of the more sophisticated tanks in the world. It mounted a heavy 75mm gun, had a robust suspension, and was adequately armored. Most importantly, American industry could churn out tens of thousands of Shermans where its opponents lacked the resources to keep up. The 75mm-armed M4A1 was deployed to North Africa, Europe, and the Pacific and fought through to wars end. **Kit features** updated DS tracks.

6048 DMLS6048

Dragon® Models 1/35 German Naval Troops Dieppe 1942 Defenders of Dieppe

The Dieppe Raid was one of the most ill-fated missions executed by the Allies during WWII. It was essentially a reconnaissance in force—a probing attack meant to test the Atlantic Wall and to draw the Luftwaffe out for a showdown against the RAF. On the ground, troops bogged down against the defenses. In the air, 112 Allied planes were lost for 48 Luftwaffe ones. Naval infantry and the 302nd Static Infantry Division rounded up the Allied survivors. **Kit features** German Naval Infantry figures from the Dieppe Raid.

6087 DMLS6087

Dragon® Models 1/35 SdKfz 253 Recon Half-Track Spotting the fall

Forward artillery observers are, well, forward. Right up on the cutting edge of the action, spotting the fall of artillery rounds and radioing back adjustments. Their exposed position and the importance of their mission make them a target for everyone on the field. Germany designed the SdKfz 253 to give their observers mobility and protection. Just under three hundred of these armored half-tracks were built and issued to the Heer.

6140 DMLS6140

Dragon Models 1/35 Desperate Defense Korsun Pocket 1944

Nowhere to run

It's bitter cold. Melting snow reveals cans everywhere—food, ammo, fuel. All empty. The ground sinks underfoot. Sucking mud swallows shell craters in the five kilometer wide pocket the generals call Korsun. The soldiers have a different name for it. The iron crosses on the trucks are frosted. The trucks are immobile. No gas. No traction. Nowhere to go. They say reinforcements are coming... but they always say that. You can't surrender, you can't sleep, you can't run, and very soon you'll be out of bullets. Welcome to Korsun. Welcome to Hell's Gate. **Kit features** six incredibly detailed multi-part figures with period equipment and weapons.

6273 DMLS6273 Total Figures: 6

Dragon® Models 1/35 M3A1 Half-Track (3 in 1) Smart Kit

Three options—one outstanding model

Build the M3, the M3A1, or the M3A2 from one box. Whether you prefer the early war M3 with its pintle-mounted .50 cal, the M3A1 with its armored pulpit, or the shielded ring mount of the later M3A2, Dragon renders your model in exquisite detail. From virtually the outset of the war, M3s filled out the ranks of armored infantry divisions and provided reliable, relatively safe conveyance to the battlefield. **Kit features** 3 build options, fully detailed suspension, and variant-appropriate armor.

6332 DMLS6332

Dragon® Models 1/35 Ambush! Eastern Front 1944 (4) Surprise the Soviets

By 1944, the war in the Soviet Union had swung in favor of Russia. The vast flows of men and machines pounded away at the Germans, driving them back towards their borders. Panzergrenadiers, like the ones in this kit, frequently found themselves cut off and facing T-34s. In these cases, surprise and a panzerfaust were an infantryman's best friends. This **kit features** four panzergrenadier figures, with anti-tank weapons and period arms and accoutrements, sculpted in intriguing action poses by master sculptor Yoshitaka Hirano.

6333 DMLS6333 Total Figures: 4

Dragon® Models 1/35 M4 81mm Mortar Carrier Smart Kit

Fire support on the fly

M2 half-tracks equipped with ammo racks and other mortar equipment were dubbed M4 Mortar Carriers and used throughout WWII. They carried the lethal 81mm M1 Mortar and gave mortar crews a great increase in mobility and protection. Quick redeployment ability also helped prevent enemy batteries from zeroing in on mortar platoons. The mortar could even be fired from the vehicle in an emergency. This **kit features** new tooling, driver figure, 81mm mortar with metal barrel, detailed interior, full decals, and a host of features unique to the M4.

6361 DMLS6361

Dragon® Models 1/35 Commonwealth Infantry Italy 1943 (6) Far from home

England relied on its colonies in World War I and World War II to supply men for the war efforts. For the invasion of Italy, Britain called on Canadian and Indian troops in large numbers. In Italy, the so-called "soft underbelly" of Europe, Allied forces would suffer some of the most devastating casualties of all the west's campaigns. This six-figure **set features** detailed figures in relaxed "on the march" poses with appropriate Khaki drill uniforms and period weapons.

6380 DMLS6380 Total Figures: 6

Dragon® Models 1/35 Battle of Smolensk/Roslavl 1941 (3) Outgun and overrun

Operation Barbarossa was in its outset, Soviet forces were in disarray, and over 300 miles of Russia was in German hands. Then Fuhrer Directive 33 came down. All German forces were to cease offensive operations in the direction of Moscow and shift their focus south and on mopping up resistance behind the lines. Some generals ignored the order, and elements of three Soviet armies were trapped at Smolensk—a major blow. Nevertheless, the armor had been sent south, and the offences towards Moscow ground to a virtual halt. **Kit features** three detailed figures with bonus equipment.

6791 DMLS6791 Total Figures: 3

Dragon® Models 1/35 1/4-ton 4x4 Ambulance Truck with 6 GI Figure Set

Help is on the way!

Getting wounded men off the line and to an aid station quickly is essential for saving lives. The US Army's 1/4 ton truck, commonly called a "Jeep", provided an efficient, all-terrain method for extracting wounded men and returning them safely. Though not as comfortable or as capable of carrying as many men and supplies as a full-size ambulance, these vehicles were numerous and capable of operating in bad weather and remote locations in WWII and Korea. **Kit features** an ambulance truck with stretcher frame and six GI figures.

6832 DMLS6832 Total Figures: 6

Dragon® Models 1/700 USS Pennsylvania BB-38 Battleship 1944

Lucky lady

USS Pennsylvania was in dry dock at Pearl Harbor and survived the attack, then spent WWII prowling the Pacific, engaging enemy vessels on occasion, and regularly providing her firepower for shore bombardments. In preparation for the retaking of Guam, USS Pennsylvania fired more rounds than any other warship in a single campaign in history. Incredibly, post-war, Pennsylvania survived being a target ship for nuclear weapon tests but was scuttled in 1948. **Kit features** one-piece hull with full deck, fine deck wood pattern, new bridge, accurate guns, detailed PT109 boat, and full decals.

7041 DMLS7041

Dragon® Models 1/72 M1A1 Abrams 3rd Infantry Division Iraq, 2003

Armored fist of America

Possibly the best known action by the 3rd Infantry Division in its first Iraqi combat tour was the "Thunder Run" in 2003. 2nd Brigade of the 3rd Infantry Division was ordered to run the same route through Baghdad to the airport on two occasions, three days apart. The high speed, tough armor, and heavy weaponry of the Abrams tank allowed the brigade to punch holes through the wavering Iraqi defenses. The second of these runs secured the "Green Zone" and sped the end of organized resistance. **Kit features** easy belt-type tracks and full decals.

7215 DMLS7215

Dragon® Models 1/72 M4A2 Tarawa

800 impossible yards of beach

Betio, in the Tarawa Atoll, is a shady bump in the Pacific. At 800 yards wide, it is only .59 square miles in area total. In 76 hours in November, 1943, the US Marine Corps and Navy paid dearly for it. Most of the Shermans that attempted the landing bogged down or were knocked out in short order. "Colorado", one of the tanks in this set, fought on to the end of battle and earned a place in history. **Kit features** detailed parts, DS tracks, slide-molded barrel and turret, finely rendered horn guards on headlight, and lots of decal options.

7305 DMLS7305

Dragon® Models 1/72 Churchill Mk.IV AVRE

Join the Royal Engineers!

See the world, then blow it up! The Churchill AVRE (Armored Vehicle Royal Engineers) was devised as a mobile, armored way to defeat nearly any obstacle. Huge front decks were perfect for storing massive bundles of sticks for trench crossing or bridges for streams and rivers. However, the AVRE wasn't just for hauling things around. It also mounted an 11 inch spigot mortar that fired a 40lb shell loaded with 28lbs of high explosive—plenty to put a large dent in just about anything. **Kit features** one-piece DS tracks, detailed parts, and massive "petard" mortar.

7521 DMLS7521

MPC® 1/25 Don "Snake" Prudhomme 1972 Dragster

Rolling rivalry

Don Prudhomme "Snake" and Tom McEwen "Mongoose" had one of the most famous and friendly rivalries in the world of motorsports. They were both Hot Wheels™ sponsored racers of funny cars, drag racers, top fuel dragsters, and more. The Hot Wheels representations of their cars made them and drag racing famous throughout the US in the seventies. Now you can build Don's famous "Yellow Feather" top fuel dragster and bring the competition home! **Kit features** new wing strut, injector scoop, drag slicks, full-color Lions Drag Strip display, and vintage MPC packaging.

Tamiya® 1/48 JGSDF Type 10 Tank

Powerful protection

The Type 10 Main Battle Tank is one of the newest and most technologically advanced tanks in the world. It's equipped with the C4I network which better allows it to fully interface with the JGSDF information system. It's also equipped with an autoloader which lowers crew requirements and a 120mm smoothbore gun which can fire a wide range of armor-piercing munitions. Its modular armor is also extremely advanced and features nano-crystal steel as well as ceramic composite armor. **Kit features** updated design for the C4 production lot, commander torso figure, and two marking options.

32588 TAMS2588 Length: 7.8 in (199 mm)

Trumpeter® 1/35 Soviet Tank Crew Figure Set (4)

Bolshevik battlers

For decades, the Warsaw Pact and NATO faced off across Eastern Europe. Although the Cold War never erupted into a hot one, there were thousands of tanks on the Soviet side of the border for much of the sixties, seventies, and eighties. Their crews were trained and dedicated, and their vehicles were amongst the best in the world. **Kit features** four Soviet Tank Crew figures with accurate uniforms and four AK-74U rifles.

435 TSMS0435 Total Figures: 4

Trumpeter 1/35 Shipping/Storage Containers

Globalizing goods

Everything needs to get from here to there and, if it's going very far, it quite likely would take part of the trip in either a 20 or 40ft shipping container. These steel-sided boxes travel the world on the backs of massive container ships. They are designed to be stackable, crane-liftable, waterproof, and durable. Many people have also taken surplus storage containers and turned them into structures of various sorts. These sturdy if blocky buildings are durable and passably comfortable. Choose between Trumpeters 20ft (TSMS1029) and 40ft (TSMS1030) containers.
