Changes Everything

- Vivid, rich, precise graphics
- Arrestingly realistic physics
- Over 8 million acres of scenic landscapes
- Realism Redefined

Welcome to RealFlight-X.

A total refresh of concept, RF-X stands on the shoulders of nearly two decades of RC flight simulator experience. Welcome to a breathtaking new world of RC flight.

Experience RF-X at [realflight.com](http://realflight.com)

NOW POWERED BY  
UNIGINE 2

# REALFLIGHT OPTIONS FOR EVERY PILOT

## InterLink-X Controller with RF-X

GPMZ4540

# RF-X

REALFLIGHT experience

- Dramatic, immersive graphics driven by UNIGINE
- More closely resembles actual flying, with improved special effects and seamless transition
- Over 50 new aircraft, each detailed down to the panel lines and rivets
- The same unparalleled RealPhysics™ technology that has made RealFlight R/C's #1 selling flight simulator
- Simple, intuitive interface — zero learning curve, zero hassle
- Compatible with the popular InterLink Elite controller

NOW POWERED BY  
UNIGINE 2

## RF-X Software Only

If you already own a RealFlight controller, you can use it with RF-X with the software-only RF-X upgrade.

GPMZ4548

## InterLink-X Controller Only

Enjoy total simulation control with the InterLink-X controller by Tactic™

- Reset/Rewind button lets reply your successes or reverse your crashes — a RealFlight exclusive!
- Lets you keep from putting wear and tear on your field transmitter
- Operate most simulator functions right from the controller
- 10-channel capability for effortless control of everything from ailerons to arsenals
- Built-in sliders help drone pilots zero their cameras in for the best shots
- Transmitter control of the intuitive user interface makes the mouse obsolete

GPMZ5000

## Wireless Interface

If you own an SLT transmitter, RF-X offers a wireless interface that makes it easy to learn all you need for flying at the field with your own transmitter.

GPMZ5020

## Wired Interface

For pilots with a wired transmitter RF-X offers an interface version with all of the same set-up ease and control functions.

GPMZ5024

## From the Experts:

If you think you know RealFlight, wait'll you experience RF-X! From the exquisite detail on the aircraft to the infinite and subtle differences in the trees and foliage, RF-X far and away surpasses even your highest expectations of what a flight simulator can offer.

## Long story short...

**RF-X takes the sim experience to a new dimension, with graphic realism that has to be seen to be believed!**

Exerience the New RF-X visit [realflight.com](http://realflight.com)!

- SMT10™ tube frame chassis
- 2.2 BKT Monster Jam tires
- AR60 OCP-Axle™ - front and rear
- Long travel rear sway bar
- Heavy duty c-hubs
- Heavy duty hydraulic ram style steering link

- Adjustable aluminum 87-125mm shocks
- Trailing arm 4-linked rear suspension
- Max-D™ replica body

### From the Experts:

Over the past decade, Axial has been synonymous with crawlers and the scale trail community for creating vehicles that inspires endless adventure and creative freedom. Something interesting started to evolve and a trend began to appear, 4WD straight axle Monster Jam® Trucks. What better to build upon that trend than to offer one of the most striking trucks within Monster Jam®, MAX-D™. Since 2003, MAX-D™ has won 11 Monster Jam World Finals® championships and brought crowds to their feet with daredevil maneuvers and non-stop excitement. Amongst a lineup of Monster Jam® Trucks, the low slung futuristic SUV body with yellow, red and silver paint scheme combined with chrome spikes is an instant grabber.

### Long story short...

*Axial went all out when designing the body, chassis and roll cage for the SMT10™ MAX-D™ Monster Jam® Truck.*

# READY TO ROCK YOUR WORLD!

**NERO**  
**BIG ROCK**™ **6S BLX**

Ready-To-Run 1/8 Scale Brushless  
4WD Monster Truck w/Diff Brain

**60+**  
**MPH**

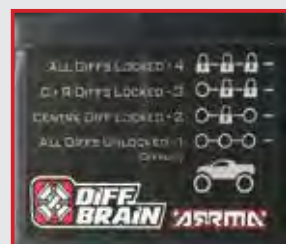

- Stylish scale-looking double cab truck body with gleaming chrome bumpers
- Heavy-duty driveline is fully sealed to keep out debris
- Durable chassis allows for a lower CG, improving handling and control without compromising ground clearance
- Powerful brushless motor with finned aluminum can
- Tactic TTX300 radio system with built-in Diff Lock Control System

- Aggressive-tread tires mounted on black chrome wheels with foam inserts
- Super-strong composites and lightweight anodized aluminum
- Handsome gunmetal-colored parts
- A long list of performance features, including front and rear skid plates, HD shock rod ends, middle hoop set, shock mounts and much more

**NERO: the only vehicle with revolutionary Diff Brain technology**

Advanced "Diff Brain" technology lets you easily lock and unlock all three gear diffs on the fly, right from the transmitter. Whether running on dirt, asphalt, grass or rocks, the Diff Brain allows you to instantly switch among four driving styles — blast, drift, wheelie or climb — to optimize performance and drive like a pro in any conditions.

3 servos and a circuit board lock and unlock all three diffs on the fly!

- Maximum traction
- Very slow-speed driving
- Perfect if you get stuck

- Used at slower speeds
- Best for free-styling
- Responsive to your driving skills

## OPTIONS INCLUDED

The heavy-duty universal joint drivetrain is just one example of the high-performance upgrades that are standard equipment on the NERO 6S BIG ROCK.

## FEATURES:

- 16mm aluminum shocks, mounted inboard, with super-duty springs
- Super-tough composite chassis cage
- BLX200 waterproof ESC with integrated cooling fan
- Durable double suspension arms
- Large diameter, anodized aluminum slider driveshafts
- Heavy-duty UJ driveshaft throughout, protected from the elements by rubber boots
- Anodized aluminum twin vertical plates
- Quick-release side-mounted battery boxes for 2S or 3S LiPo cells

**ARMAR**  
DESIGNED FAST DESIGNED TOUGH

## From the Experts:

It's like no truck you've ever driven before — and once you do, you won't settle for anything else! The NERO 6S BIG ROCK has superior size and strength, provided by heavy-duty drivetrain parts that are standard equipment, along with contemporary styling that really stands out. Plus, Diff Brain technology gives you the ability to switch driving styles — on the fly!

## Long story short...

**Diff Brain technology means the NERO 6S BIG ROCK is like having 4 trucks in 1 — with almost more power than you can control. Almost!**

# LEADING THE PACK WITH STYLE, HANDLING AND PERFORMANCE

DIDC0076

DIDC0070 1/18 Scale 4WD EP Touring Car RTR  
DIDC0072 1/18 Scale 4WD EP Rally Car RTR  
DIDC0074 1/18 Scale 4WD Brushless Touring Car RTR  
DIDC0076 1/18 Scale 4WD Brushless Rally Car RTR  
**Length:** 11.1 in (282 mm)  
**Width:** 5.1 in (130 mm)  
**Height:** 3.6 in (92 mm)  
**Weight w/battery:** 1.27 lb (580 g)  
**Wheelbase:** 6.7 in (170 mm)  
**All require:** Nothing!

Each Dromida car comes with a fully assembled vehicle, 2-channel radio, rechargeable NiMH battery, AC charger with international plug inserts and 4 "AA" batteries.

- *Factory-installed motor, waterproof receiver/speed control and steering servo*
- *D100 2-channel 2.4GHz radio*
- *Proven four-wheel shaft drive for balanced traction and handling*
- *Gear differentials for reliable power*
- *Oil shocks for superior dampening*
- *Mounted high-traction tires with foam inserts*
- *Ball bearing equipped*
- *Adjustable suspension for improved handling*
- *Updated servo saver for precise steering control*
- *Adjustable aluminum motor mount*
- *Printed and trimmed polycarbonate body*
- *DIDC0070 and DIDC0072 come with a Torque 370 brushed motor; DIDC0074 and DIDC0076 feature a 5300kV brushless motor and LiPo battery compatibility*

### From the Experts:

Dromida expertise now comes to R/C cars, in both Touring and Rally styles. All feature sure-footed four-wheel drive, along with performance perks such as gear diffs, oil shocks, ball bearings and adjustable suspensions. They come already assembled, so you can get out and go right now, with your choice of brushed or brushless power.

### Long story short...

*Whether you're a beginner or a seasoned veteran, you'll look like a pro wherever you go with these Dromida rides!*

# SMALL IN SIZE, BIG ON FEATURES

## HoverShot™

Ready-To-Fly 120 mm FPV Drone

Altitude Hold takes the guesswork out of exact positioning and throttle control, so you can focus on getting the "perfect shot." Takeoffs and landings are push-button easy, and you can perform pro-style flips whenever you want with the Auto Flip feature.

In addition to an assembled HoverShot drone, you'll also find an MR101 2.4GHz transmitter with built-in phone holder, a 720p Wi-Fi FPV video/still camera, a 2G micro memory card, a 1S LiPo battery and USB charger, four "AAA" batteries, four extra blades and a screwdriver.

Apple and the Apple logo are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc. Android and Google Play are trademarks of Google Inc. IOS is a trademark or registered trademark of Cisco in the U.S. and other countries and is used under license.

**DIDE0008 HoverShot 120 mm FPV Drone RTF**  
**Diagonal:** 120 mm (4.72 in)  
**RTF Weight:** 72 g (2.5 oz)  
**Requires:** device for Android or Apple and DroneView app (download free from Google Play Store or App Store)

- Comes equipped with a 720p FPV camera, to shoot video and photos via the DroneView app in real time\*
- 3-axis gyro and 3 accelerometers for smooth, stable flight in all conditions
- Enjoy flight times of 7-10 minutes
- Multiple flight modes let you fly at your particular comfort level, whether you're a beginner or a veteran pilot

\*Smartphone or other mobile device required. Not included.

# DROMIDA

### From the Experts:

With everything that the HoverShot can do, you'll wonder how it could possibly be so compact. Its 720p FPV camera shoots sharp videos and photos, and Altitude Hold helps keep the drone steady. Learning to fly the HoverShot is easy, and it comes already assembled with everything you need for immediate flying fun.

### Long story short...

*If you've been thinking about getting an easy-to-fly drone with First Person View camera capability, the HoverShot is an excellent choice!*

# RXS255™

Extreme Speed Brushless FPV Racing Drone Rx-R

## FLY WICKED FAST

**RISE0255 RXS255 Brushless FPV Racing Drone Rx-R**  
**Diagonal:** 257 mm (10.1 in)  
**Weight:** 460 g (16.2 oz)  
**Requires:** 5-channel radio system, 4S 1300-2200mAh LiPo battery w/XT60 connector, LiPo balancing charger, video goggles or monitor (optional)

### Includes:

- Fully assembled RXS255 drone
- 4S ESCs with BLHeli, OneShot and active braking
- 1000TVL CMOS FPV camera with 0-45° mobility
- 200mW video transmitter\* and cloverleaf antenna
- (4) 5x4.5" bullnose props

- Each 4S ESC is pre-loaded with BLHeli firmware and OneShot software for "locked-in" precision and agility
- An adjustable FPV camera, transmitter and cloverleaf antenna are included
- The RXS255's modular design features "wireless" arms, which helps make it extra-tough and extra-light
- The high-frequency ESCs install with "plug and play" simplicity — no soldering required

The RXS255's carbon-fiber airframe is engineered to be fast, agile and durable.

The built-in LED light bar makes the RXS255 easy to see, even during intense Line-of-Sight (LOS) flight.

Note: The RXS255 requires FAA registration. Visit [www.faa.gov](http://www.faa.gov) for details.

**KNOWFLY**  
 BEFORE YOU FLY  
 Unmanned Flight Safety Guidance  
[KNOWBEFOREYOUFLY.ORG](http://KNOWBEFOREYOUFLY.ORG)

### From the Experts:

The RXS255 is all about full-throttle, edge-of-your-seat drone racing, with the bonus of an FPV camera so you can see what the drone sees, in real time! It comes already assembled and receiver-ready — just add a 5-channel radio system, a 4S LiPo battery and optional video goggles or monitor, and thrill to the RXS255's insane performance!

### Long story short...

*If you're ready for exciting racing action with an FPV-equipped drone, the RXS255 is ready for you!*

# RISE™

# LOCKED AND LOADED FOR HIGH PERFORMANCE!

## BULLET 3.0

**Bullet 3.0 Trucks bring fire-breathing nitro realism!**

Powered by pull-start Nitro Star G3.0 engines, these bashers are designed to dominate! A large 75 cc fuel tank delivers long run times. Both require glow fuel, fuel bottle, glow plug igniter.

**110660 HPID0360**  
Ready-To-Run 1/10 Scale  
4WD Nitro Stadium Truck

## BULLET FLUX

**Experience pure brushless power with Bullet Flux Trucks!**

With their MMH-4000 brushless motors and waterproof, LiPo-compatible Flux EMH-3S brushless ESCs, these off-roaders are ready to rule! Both require 6-cell NiMH or 2S LiPo battery with Star™ Plug, compatible charger.

**110662 HPID0362**  
Ready-To-Run 1/10 Scale 4WD  
Brushless Stadium Truck

**110663 HPID0363**  
Ready-To-Run 1/10 Scale 4WD  
Brushless Monster Truck

**110661 HPID0361**  
Ready-To-Run 1/10 Scale  
4WD Nitro Monster Truck

### **All four vehicles boast these innovative features:**

- Tough 6061 aluminum chassis
- Four-wheel shaft drive
- Newly designed painted and detailed body
- 8 oil filled shocks
- All-terrain tires mounted on black chrome wheels
- 2-channel 2.4GHz radio system with fail-sail and waterproof servos
- Rugged, extra-long suspension arms
- Rubber-sealed ball bearings

**Specifications (all):**  
Length: 16.4 in (417 mm)  
Width: 13.2 in (336 mm)  
Height (adjustable): 6.3 in (160 mm)  
Wheelbase: 10.7 in (272 mm)  
Track: 10.3 in (263 mm)

### **From the Experts:**

HPI has updated the iconic line of Bullet trucks, to be even better than ever! New, detailed body designs deliver awesome looks to match their exceptional power, durability and performance. Choose nitro or brushless power, with an aggressive stadium truck or intimidating monster truck body.

### **Long story short...**

**Sharp-looking, super-fast Bullet trucks really stand out at the track — no matter which one you choose!**

# FLYING MADE EASY

## VOYAGER™

Ready-to-Fly Electric-Powered Airplane

- Easy to fly with little or no experience
- 100% Ready-To-Fly — everything is included
- Rudder, elevator and throttle control
- Scale details such as wing rib detail, wheel pants and panel lines
- The 4-channel radio system features 2.4GHz dependability, digital trims and a built-in LiPo battery charger
- Learn to fly outdoors in calm conditions, and then take advantage of the Voyager's compact size to fly inside a large gymnasium

DIDA0200 Voyager EP Airplane RTF  
 Wingspan: 19.5 in (495 mm)  
 Weight: 1.9 oz (54 g)  
 Length: 15 in (381 mm)  
 Requires: Nothing!

Scale touches add realism to the Voyager's appearance that you won't find with typical trainers.

In addition to a fully assembled Voyager plane, you also get a 4-channel SLT compatible radio with built-in charger, rechargeable LiPo battery and 4 "AA" batteries.

### From the Experts:

When you choose the right plane for your first plane, R/C flying is much more enjoyable — and the Voyager is the right plane. It exhibits slow, docile flight characteristics and comes preassembled with everything included, so it's ideal for beginners.

### Long story short...

*The Voyager makes getting into R/C incredibly easy and loads of fun!*

# DROMIDA

NEWPRODUCT

# GO FROM MILD TO WILD!

## Factor 30cc

Almost Ready-to-Fly 30cc/EP 3D/Sport Plane

MONOKOTE  
COVERING

GPMA1555 Factor 3D 30cc/EP 3D/Sport Plane ARF  
**Wingspan:** 70 in (1778 mm)  
**Wing Area:** 1174 in<sup>2</sup> (75.7 dm<sup>2</sup>)  
**Weight:** 12-14 lb (5.4-6.4 kg)  
**Wing Loading:** 24-27 oz/ft<sup>2</sup> (73-82 g/dm<sup>2</sup>)  
**Length:** 75 in (1905 mm)  
**Requires:** 4-7 channel radio with minimum 5 high-torque servos (2 additional standard servos when using gas power), 30-35cc gas engine and fuel –OR– 63-62-250kV brushless outrunner motor, 80A brushless ESC (minimum), two 5S 18.5V 5000mAh LiPo batteries, charger

- A nearly limitless flight envelope, for everyday sport flying to 3D
- Accepts popular 30-35 cc gasoline engines or 1.60 brushless motor systems; mounts for both options are included
- Prebuilt using high-strength wood, fiberglass, carbon-fiber and aluminum
- The two-piece wing slides onto a lightweight carbon-fiber tube for easy installation, removal and storage
- A large, removable hatch affords easy access to the radio gear, batteries and engine or motor

### From the Experts:

The original 38" wingspan Factor 3D was a popular park flyer known for its performance and affordability. Today's Factor offers the same flight potential, along with the added stability and visibility of a 70" wingspan. Plus, it flies equally well with your choice of a 30 cc gasoline engine or brushless electric power plant.

### Long story short...

*Whether you're an intermediate-level flyer looking to move up or an experienced aerobatic pilot, the Factor 3D is a versatile ARF plane with the ability to satisfy.*

NEWPRODUCT

# 2016 INNOVATIONS FOR BLX MACHINES

## RAIDER XL BLX

Ready-To-Run 1/8 Scale 2WD EP Desert Buggy w/o Battery

ARAD87\*\* 2016 1/8 RAIDER XL BLX  
 2WD Buggy w/o Battery RTR  
**Length:** 18.3 in (465 mm)  
**Width:** 11.8 in (300 mm)  
**Weight (w/o battery):** 3.9 lb (1.79 kg)

## FURY BLX

Ready-To-Run 1/10 Scale 2WD EP Short Course Truck w/o Battery

ARAD57\*\* 2016 1/10 FURY BLX SCTruck  
 w/o Battery RTR  
**Length:** 21.3 in (540 mm)  
**Width:** 11.6 in (294 mm)  
**Weight (w/o battery):** 4.6 lb (2.08 kg)

## GRANITE BLX

Ready-To-Run 1/10 Scale 2WD EP Monster Truck w/o Battery

ARAD56\*\* 2016 1/10 GRANITE BLX  
 Monster Truck w/o Battery RTR  
**Length:** 19.1 in (484 mm)  
**Width:** 13.5 in (342 mm)  
**Weight (w/o battery):** 4.8 lb (2.16 kg)

- Equip these awesome off-roaders with your favorite 3S LiPo battery and unleash their full performance potential!
- All come with a more powerful 4-pole BLX3656 brushless motor and sensorless BLX85 ESC
- The composite gears are more than capable of handling 3S power
- A Tactic TTX300 radio system provides secure, precise control; a waterproof servo is included
- All come preassembled, and require a 2-3S 4000-5000mAh LiPo battery with Star® Plug, LiPo-compatible charger and 4 "AA" batteries

### From the Experts:

They offer the same quality engineering and preassembled convenience as before — but these Ready-To-Run vehicles now feature new brushless motors, ESCs and Tactic TTX300 radios. Plus, they all have eye-catching new trim schemes as well!

### Long story short...

*Now you can personalize the LiPo power of the FURY BLX, GRANITE BLX and RAIDER XL BLX to maximize their performance!*

# DISPLAY — AND COMMAND — THESE SCALE BATTLE TANKS

1/24 Scale Leopard 2 A6 Winter & Tiger 1 Late Desert Battle Tanks

VSKC2032  
1/24 Scale Leopard 2  
A6 Winter Tank

VSKC2071  
1/24 Scale Tiger 1  
Late Desert Tank

- Both feature incredible detail, including molded scale accessories and working hatches
- Proportional forward, reverse and turning speeds
- All-wheel suspensions and flexible tracks tackle inclines of up to 35°
- Infrared battle systems allow for tank-to-tank combat and hit scoring
- The interference-free radio lets you do battle with up to 15 other VS Tanks at the same time!

## From the Experts:

VS Tank continues to produce scale replica tanks worthy of display — while also capable of infrared armored combat! Advanced radio systems offer precise control of their direction, speed and functions, including infrared cannon fire for scoring points in mock battles!

## Long story short...

Engage in wireless warfare with these realistic looking — and operating — VS Tanks!

# TWO NEW 1/8 SCALE POWERHOUSES FROM O.S.

Speed 21XZ-B Spec III 1/8 Scale  
Buggy Engine

- It's the evolution of the Spec II, a proven performer at races worldwide
- Enhanced low-to middle-range torque provides a great advantage on tracks that require lots of power
- The cylinder liner features 3 scavenger ports and 3 exhaust ports, and works with the crankcase to deliver more torque with less fuel consumption
- The drop-in type outer head is lighter, with a lower CG
- Comes with an easy-tuning 21J carburetor with 6.5 mm restrictor

OSMG2060 Speed 21XZ-B Spec III 1/8 Scale Engine

Specifications (both):  
Displacement: 0.213 cu in (3.49 cc)  
Bore: 0.641 in (16.27 mm)  
Stroke: 0.661 in (16.80 mm)  
Practical RPM: 4,000-42,000  
Power Output: 2.61 hp/2.65 ps @ 34,000 rpm  
Weight: 12.45 oz (353 g)

Speed 21XZ-GT 1/8 Scale GT  
Touring Car Engine

- Designed specifically to dominate the competition in the increasingly popular 1/8 GT Touring class
- Five scavenger ports and 3 exhaust ports improve power in the mid- to high range
- The crankshaft has been engineered for GT touring, and is silicon-potted and DLC coated with tungsten weights pressed in
- The outer head features a lower CG, along with shiny fins
- The included dual adjustable carb is ROAR-legal, and comes with a 7 mm restrictor

OSMG2062 Speed 21XZ-GT 1/8 Scale GT Touring Car Engine

## From the Experts:

The Speed lineup of 21-size engines has enjoyed numerous racing successes, and that same O.S. expertise is evident in these latest powerhouses. Many of the same cutting-edge innovations that have made Speed 21 engines so dominant are still here, and these engines include performance-enhancing modifications for their particular applications.

## Long story short...

Count on O.S. to power your 1/8 scale machine to the winner's circle!

# ON-ROAD POWER THAT'S AS GOOD AS GOLD

Speed R2102 Gold Edition 1/8 Scale On-Road Engine

OSMG2039  
w/o muffler

OSMG2038  
w/ muffler

- This Speed 2102 powerhouse sports a gleaming gold cylinder head and carb insert, to commemorate O.S.'s 80th anniversary
- Center of gravity is 3 mm lower, for better handling
- A second inner button head allows for finer tuning to meet track conditions
- New ceramic rear bearing reduces friction loss
- Features Speed innovations such as DLC coating and tungsten weighted crank shaft
- Available with or without the T2080SC muffler

OSMG2038 Speed R2102 Gold Edition 1/8 Scale On-Road Engine w/T-2080SC Muffler

OSMG2039 Speed R2102 Gold Edition 1/8 Scale On-Road Engine

**Displacement:** .213 cu in (3.49 cc)

**Bore:** .633 in (16.08 mm)

**Stroke:** .677 in (17.2 mm)

**Practical RPM:** 4,000-45,000

**Power Output:** 2.8 ps/2.76 hp @ 33,000 rpm

**Weight:** 11.99 oz (340 g)

**Includes:** 21M2(B) carburetor, R2102 inner head, T-RP7 plug, exhaust seal ring, tapered collet

**OSMG2039 requires:** T-2080SC Tuned Muffler

## From the Experts:

It runs as good as it looks — and it looks like a million bucks! This 80th anniversary edition of the Speed R2102 will turn heads with its gold accents, and its performance is just as impressive. This engine is available only in limited supplies, so be sure to get yours today!

## Long story short...

Give your on-road machine the "WOW!" factor with the Speed R2102 Gold Edition 1/8 Scale Engine!

**O.S. ENGINE**  
UNEQUALLED QUALITY PRECISION & PERFORMANCE

# A DISTINCTIVE VERSION OF THE IFMAR CHAMPION

Speed B2101 Las Vegas Edition 1/8 Scale Buggy Engine

- This limited edition power plant commemorates the 2016 IFMAR Worlds Championships, held in Las Vegas, Nevada
- Machined cylinder head with five stars and stripes representing each of the IFMAR Worlds wins O.S. has tallied
- Designed specifically for maximum power output, performance and tuneability in 1/8 scale buggy applications
- Features a DLC-coated crankshaft balanced with tungsten weights and the efficient, reliable 21J carburetor

OSMG2054 Speed B2101 Las Vegas Edition

**Displacement:** 0.211 cu in (3.46 cc)

**Bore:** 0.646 in (16.40 mm)

**Stroke:** 0.646 in (16.40 mm)

**RPM Range:** 4000-42,000

**Output:** 2.61 hp @ 34,000 rpm

**Weight:** 12.42 oz (352 g)

**Includes:** 21J carburetor; 6 mm and 6.5 mm carb reducers; P3 Turbo glow plug; dust cap set (3 mm, 16 mm and 18 mm); exhaust seal ring

**Requires:** Glow fuel, T-2090SC Tuned Silencer Set

## From the Experts:

It's the exact same trophy-winning power and performance as the original Speed B2101 — tricked out with eye-catching graphics to recognize the 2016 IFMAR World Championships, as well as O.S.'s 80th anniversary. Supplies of this engine are extremely limited, so get yours now before they're gone!

## Long story short...

The Speed B2101 has been trusted by champion drivers all over the world, and is ready to power you to the podium!

**O.S. ENGINE**  
UNEQUALLED QUALITY PRECISION & PERFORMANCE

# GET THE JUMP ON THE COMPETITION!

## jumpshot *st*

Ready-To-Run 1/10 Scale 2WD EP Stadium Truck

**116112 HPID1212 Jumpshot ST 2WD EP Stadium Truck RTR**  
 Length: 15.75 in (400 mm)  
 Width: 12.25 in (311 mm)  
 Height: 5.8 in (147 mm)  
 Wheelbase: 11.75 in (300 mm)

## jumpshot *sc*

Ready-To-Run 1/10 Scale 2WD EP Short Course Truck

**116103 HPID1214 Jumpshot SC 2WD EP Short Course Truck RTR**  
 Length: 21.5 in (546 mm)  
 Width: 11.25 in (286 mm)  
 Height: 5.5 in (140 mm)  
 Wheelbase: 13.25 in (337 mm)

*Jumpshot trucks are all about extreme off-roading and catching big air!*

- Choose your weapon — both the ST Stadium Truck and SC Short Course Truck deliver big-time bashing and racing excitement
- The tough, TVP (Twin Vertical Plate) chassis is proven to stand up to aggressive driving and come back for more
- Punch the throttle, and watch the Firebolt 15T motor and LiPo-ready SC-3SWP2 ESC put you out in front
- Massive oil shocks and a double-wishbone suspension help keep you in control over rugged terrain
- Go wherever adventure awaits: all-terrain tires and waterproof electronics defy the elements
- The battery box is easily accessed from underneath, and holds either a 7-cell NiMH stick or 2S LiPo packs

### From the Experts:

It takes a tough truck to join the Jumpshot lineup, and the ST and SC are up to the task. Enclosed, compact 2WD drivetrains make for maximum durability and efficiency, and their modular chassis are easy to maintain. When you add their impressive performance, it's easy to see what makes Jumpshot off-landers so much fun to drive!

### Long story short...

*Both the ST Stadium Truck and SC Short Course Truck are engineered to deliver big-time bashing and racing fun, right out of the box!*

# BIG ADVENTURE IN SMALL SCALE!

**PRO-LINE**  
**AMBUSH** 4x4

1:25 4WD ELECTRIC MINI SCALE CRAWLER RTR

4004-00 PROC0004 Ambush 1/25  
Electric 4x4 Mini Scale Crawler RTR  
Length: 7.8 in (198 mm)  
Width: 3.8 in (95 mm)  
Weight: 10.9 oz (308 g)  
Wheelbase: 4.5 in (115 mm)

Solid metal axles and a ladder frame chassis take on whatever obstacles you can put in front of this truck.

An open roll cage Ambush trail rig body tops off the package of high-quality hardware, for intense looks to match the aggressive performance.

## Long story short...

Enjoy unstoppable crawling action virtually anywhere with the Ambush 4x4!

**PRO-LINE**

# ATTACK THE TRACK WITH THIS THOROUGHbred RACER

**R8**

1/8 Scale 4WD Nitro On-Road Kit

The lightweight 2-speed transmission lets you brake quickly and accelerate with authority.

- It's the fastest and most advanced on-road car HB has ever released, designed to excel in the high-profile arena of 1/8 scale nitro competition
- Hug the corners and stick to the straightaways with the R8's centralized weight and super-low CG
- Every ounce of excess weight has been gleaned from the 5mm thick machined aluminum chassis
- Enjoy maximum suspension adjustability, with quick and easy access to get you out of the pits and back on the track fast
- The suspension system is highly tunable, to adapt to any track conditions

110754 HBSC0754 R8 1/8 Scale  
4WD Nitro On-Road Kit  
Length: 18.5 in (470 mm)  
Width: 10.4 in (265 mm)  
Weight: 5.4 lb (2450 g)  
Wheelbase: 11.5 in (292 mm)  
Requires: .21 size racing engine with rear slide carburetor, tuned exhaust pipe with manifold, air filter, mounted foam tires, body, 2-channel radio system with 2 servos

## From the Experts:

No stone was left unturned in the R&D of the R8 kit — HB engineers made sure of that. With its jaw-dropping acceleration, razor-sharp cornering and the ability to hit 80+ mph, this nitro-powered performer demands everything from its driver, and rewards the driver's skills accordingly!

## Long story short...

The R8 makes no compromises on quality, making it the ideal vehicle for club racers as well as World Championship contenders!

# FOR EASY CRUISING — OR CUTTING LOOSE

# rapide™

Receiver-Ready Brushless Performance Glider

- Tough, fiberglass- and carbon fiber-reinforced AeroCell airframe withstands high-speed stress and extreme aerobatics with ease
- Full flying stabilizer offers less drag and better aerodynamics than horizontal, hinged stabilizers
- Comes with servos and a brushless power system installed, but leaves radio, receiver, battery and charger choices to you

**FLZA3364 Rapide Brushless Performance Glider Rx-R**  
**Wingspan:** 60 in (1525 mm)  
**Wing Area:** 364 in<sup>2</sup> (23.5 dm<sup>2</sup>)  
**Weight:** 2.75 lb (1250 g)  
**Wing Loading:** 17 oz/ft<sup>2</sup> (52 g/dm<sup>2</sup>)  
**Length:** 42.5 in (1080 mm)  
**Requires:** 4+ channel radio, 3S 2200mAh LiPo battery, 3S LiPo balancing charger

## From the Experts:

From everyday soaring to extreme aerobatics, the Rapide is the performance glider that does it all and does it well. Carbon and fiberglass reinforcements make the airframe extremely rigid to handle high speeds, and being Receiver-Ready means you get to equip the Rapide with the radio system, battery and charger that you choose.

## Long story short...

*If you're an intermediate level glider pilot who's ready to push the performance envelope, the Rapide is right for you!*

**Flyzone**  
 how high will you soar™

With no bad habits and plenty of sport potential, the Rapide is an excellent next step for pilots who've mastered the basics of glider control.

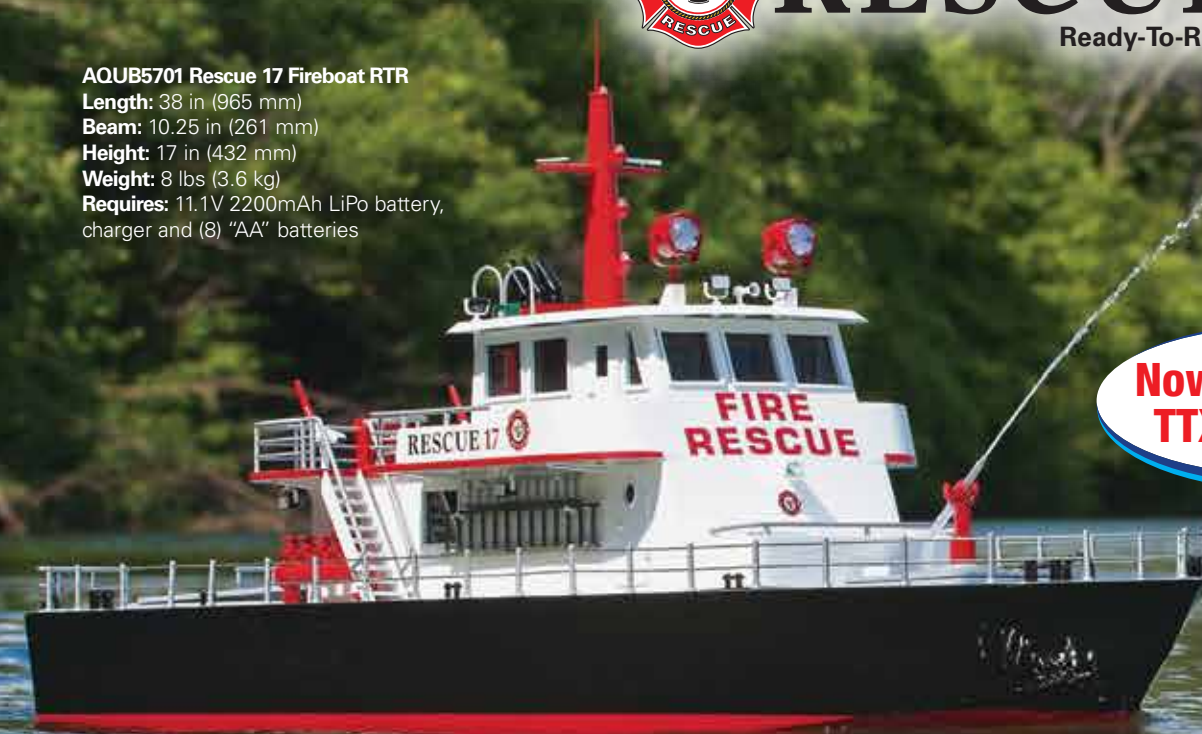

# A REALISTIC-LOOKING FIRE FIGHTER!

# RESCUE 17

Ready-To-Run Fireboat

**AQUB5701 Rescue 17 Fireboat RTR**  
**Length:** 38 in (965 mm)  
**Beam:** 10.25 in (261 mm)  
**Height:** 17 in (432 mm)  
**Weight:** 8 lbs (3.6 kg)  
**Requires:** 11.1V 2200mAh LiPo battery, charger and (8) "AA" batteries

**Now with Tactic  
TTX491 radio!**

- Finished, assembled fiberglass hull, deck and superstructure
- Shoot jets of water up to 10 feet from the rotating forward water cannon
- Easy access to battery box for quick battery changes and maintenance
- The 10-piece LED lighting system includes cabin lights, searchlights, an illuminated communications mast and red/green nav lights
- Powered by a 600-size motor with water-cooled, waterproof 11.1V ESC equipped with a LiPo-compatible Star Plug
- Loaded with incredible scale detail, including wire rope deck railing, ladders and stairways, life preservers, fire extinguishers, radar and radio mast, standpipe, windows and cabin detail

**TACTIC™**  
 PURE RELIABLE 2.4  
**TTX491**  
 4-CHANNEL SURFACE SLT RADIO

The TTX491 delivers reliable, interference-free control — with the bonus of a 6-channel TR625 receiver. That's two more channels that you can utilize for adding more functions — which add to the scale realism.

## From the Experts:

It's a unique R/C boat that will command attention at the lake or pond! The Rescue 17 comes fully assembled with quality fiberglass construction, working LED lights and water cannon and even more precise control, thanks to the Tactic TTX491 radio. And with all of its extensive detailing, this stylish model is as worthy of display as it is active duty.

## Long story short...

*Tactic radio technology is an ideal upgrade to the one-of-a-kind Rescue 17 Fireboat!*

## SUPER SMALL, FOR SUPERIOR FPV!

FPV-C1 600TVL FPV Video Camera

- Compact, 22 x 22 mm dimensions and light weight make the FPV-C1 an ideal camera for First Person Video (FPV) racing
- Compatible with Tactic 5.8GHz FPV equipment, allowing for easy set-up
- Mounts easily with double-sided tape, hook-and-loop material or pre-fabricated brackets
- 600TVL video resolution
- 5-15V input voltage range
- Includes adapter cable and lens cap

TACZ5030  
FPV-C1 600TVL FPV Video Camera  
Requires: Video transmitter, receiver, monitor or goggles, mounting tape

### Long story short...

With the compact FPV-C1 Camera you can shoot edge-of-your-seat FPV video virtually anywhere!

**TACTIC®**

## SHOOT PHOTOS AND 1080P VIDEOS IN REAL TIME!

# DRONEVIEW™

1080P HD Wi-Fi® Camera

- Small, lightweight camera is ideal for use with R/C models.
- The DroneView app has an intuitive menu bar; you simply touch an icon to take photos, shoot videos, adjust camera settings and access your gallery
- Use the menu on the DroneView app to adjust the brightness and contrast, rotate the camera view and add a date code
- Download the free DroneView app to make it First Person View-capable, and experience videos and photos in real time

TACZ1020  
DroneView 1080P HD Wi-Fi® Camera  
Requires: DroneView app, Apple or Android™ mobile device

### Long story short...

See the action live from a First Person View with the DroneView 1080P HD Wi-Fi Camera!

**TACTIC®**

**FOLLOW RULES FOR SAFE OPERATION OF FPV AIRCRAFT**  
Always follow the AMA Safety Code when operating model aircraft. Visit the Academy of Model Aeronautics: [www.modelaircraft.org](http://www.modelaircraft.org) and search for "FPV 550" and read "Document 550 - Utilizing First Person View Systems" to learn about the safe operation of FPV "First Person View" systems in model aircraft.

### Long story short...

These Venom LiPo packs deliver tremendous torque for some of RC's most popular trucks!

**VENOM®**

NEWPRODUCT

# GO ROGUE WITH REVELL®

## STAR WARS® ROGUE ONE™

*Rogue One: A Star Wars™ Story* is coming soon to the big screen, and Revell is celebrating the year's most exciting blockbuster with a new lineup of Build & Play plastic models!

Each model kit is easy to build, offering features like action sounds and movable parts that are guaranteed to satisfy Star Wars™ fans of all ages and skill levels.

Look for the latest Revell SnapTite Build & Play plastic models in stores this fall. See *Rogue One* at a theater near you on December 16, 2016.

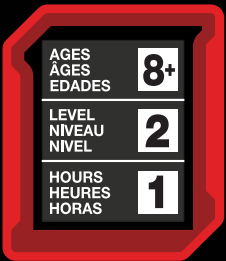

### Features include:

- Action sounds and lights
- Movable parts, such as opening cockpits, wings and landing gear
- Durable plastic design delivers the ultimate in detail
- Easy snap assembly: each kit can be display-ready quickly
- Fully predecorated: no paint or glue required

#### Imperial AT-ACT Cargo Walker™

- Battle action sounds
- Full-motion positionable head
- Positionable feet
- Multi-joint positionable legs for display
- Lighted command cockpit for display
- 2 LR44 batteries included
- Total Parts: 45

85-1636 RMXS1636

#### Rebel U-wing Fighter™

- Battle action sounds
- Lighted cockpit with pilots
- Rotating positionable wings for display
- Removable landing gear for display
- 3 LR44 batteries included
- Total Parts: 35

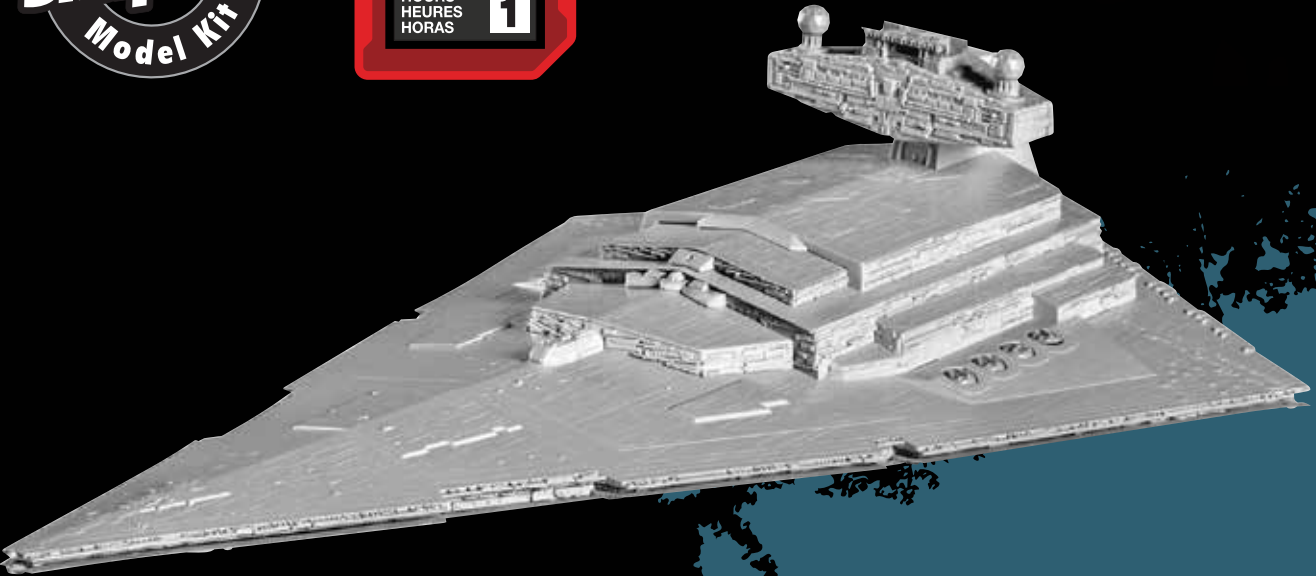

85-1637 RMXS1637

#### Imperial Star Destroyer™

- Battle action sounds
- Detailed, lighted engines
- Impressive size – 15.8" long
- 8 positionable gun turrets for display
- Integrated folding display stand
- 3 LR44 batteries included
- Total Parts: 46

85-1638 RMXS1638

### From the Experts:

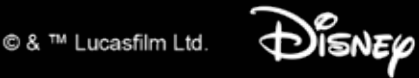

The Force is stronger than ever with the release of these SnapTite Build & Play kits inspired by *Rogue One: A Star Wars™ Story*!

### Long story short...

Assemble three iconic vehicles from the year's most-anticipated movie, thanks to the latest lineup of Revell model kits!

© 2016 Revell, Inc. All rights reserved.

### 1/25 FORD BRONCO

#### Muscle for miles

For thirty years, the Ford Bronco was the top 2-door SUV available in America. It offered good offroad mobility and high engine power as well as more seating than traditional light trucks. Many models featured popular removable tops and hosts of equipment options. Overall, the mark was far from a record breaker in terms of sales, but it was popular with its market and advanced the technology of the SUV. **Kit features** detailed 289 cu.in. engine, spare tire on swing arm, and removable hardtop.

85-4320 RMXS4320 Total Parts: 137 Skill Level: 5 Length: 6.4 in (162mm)

### STAR WARS REPUBLIC STAR DESTROYER™

#### Clone Wars capital ship

With each month that goes by during the Clone Wars, the Republic rapidly finds itself confronted with the problem of developing ever more powerful weapons in order to counter the apparently inexhaustible resources of the Separatists. Hopes rest on the Venator-Class ship. They are derived from the ships of the Acclamator-Class that were used at the beginning of the Clone Wars. In particular, they have an absolutely devastating arsenal of weapons and an improved take-off system for the Starfighters. **Kit features** fully detailed engines and conning tower assembly.

85-6458 RMXS6458 Total Parts: 74 Skill Level: 4 Length: 19.8 in (503mm)

### 1/25 CHEVY® BERETTA PRO-STREET

#### Serious wheels

The Pro Street Beretta has almost nothing in common with the cars you find on the street. The original is a sweet ride, but the Pro Street version is all muscle. It's equipped with a 700 horsepower supercharged V-8 engine that delivers more muscle per mile than anything the original can dish out. Plus, with its tube frame and rear-wheel drive, there is simply no comparison. Drop in a nitrous oxide system in, and it's nearly impossible to beat on the quarter mile. **Kit features** full Pro Street tube frame, detailed V-8 with nitro-injection, twin rear wheelie bars, and decals.

85-7168 RMXS7168 Total Parts: 117 Skill Level: 5 Length: 7.6 in (194mm)

### GERMANY 1/72 SOVIET SPETSNAZ (1980)

#### Aggressors in Afghanistan

Spetsnaz—Soviet Special Forces—were largely invisible until after the advent of “Glasnost”. Its component units—especially Alpha and Zenith—were the striking arm of the KGB. In late 1979, they executed a strategic attack on the Presidential Palace in Afghanistan and executed the Afghan President. In 1980, they conducted strategic sweeps of insurgent villages and were instrumental in interrogating captured opponents. **Kit features** soldiers carrying AK-74 and AKS-74 weaponry, snipers, anti-tank teams, and the 9P54M anti-aircraft missile—fifty figures in total.

02533 RVLS2533 Total Parts: 50 Skill Level: 4

### 1/35 TIGER II AUSF.B (HENSCHEL TURRET)

King of tanks

Accuracy, armor, speed—the Tiger II had everything. Its 88mm gun turned Allied armored plate inside out. Its monocular telescopic gun sight made it incredibly accurate. Seven inches of armor made it nearly invulnerable to frontal attacks. Fortunately for the Allies, comparatively few Tiger IIs were built and those that were faced the overwhelming air superiority of the Allies combined with Germany's lack of fuel. **Kit features** extensively modeled chassis with torsion bar suspension, easy to mount tracks, rotating turret, elevating gun, hatches that can be mounted open or closed, and two sets of decals.

03249 RVLS3249 Total Parts: 250 Skill Level: 4 Length: 11.5 in (293 mm)

### 1/48 EUROFIGHTER BRONZE TIGER

Decked out for destruction

The Eurofighter Typhoon is the collaboratively produced aviation platform of choice for much of the European Union and Britain. It's made to fill multiple rolls—be it interceptor, air superiority fighter, ground attack, or recon—it excels at them all. Eurofighter and other squadrons which feature tigers as part of their squadron heraldry sometimes give their aircraft amazing paint jobs, like this one, when they go to participate in Tiger Meets. **Kit features** detailed ejection seat, cockpit, air intakes, air-brake flap, and undercarriage; plus moving canards, aerial refueling probe, load pylons, weaponry, and a super decal set.

03949 RVLS3949 Total Parts: 228 Skill Level: 5 Length: 13 in (330mm)  
Wingspan: 9.1 in (231mm)

### 1/72 DC-4 BALAIR

Serving Swiss skies

DC-4 aircraft were actually a rarity, with less than one hundred built. Far more common was the military version C-54. These served in WWII and, after the end of hostilities, many were sent back into civilian service. Balair—a pilot training group and commercial airline purchased two DC-4s in 1959 and used them for charter flights. Although Balair (now Belair) long ago switched to jets, two are still used by an airline based out of Johannesburg and many more are in use in Canada by Buffalo Airways. **Kit features** radio compartment with consoles, choice of cargo or passenger door, interior seats, rotating props, detailed engines, and two sets of decals.

04947 RVLS4947 Total Parts: 356 Skill Level: 5 Length: 15.8 in (401mm)  
Wingspan: 19.6 in (497mm)

### 1/350 BATTLESHIP BISMARCK PLATINUM EDITION

Legend of the seas

It took just eight minutes of firing for the German Battleship Bismarck to send the HMS Hood—pride of the British Navy—to the bottom. That, however, was Bismarck's first and last success. After that engagement, Bismarck and her crew faced the full, withering fury of the Royal Navy. Cruisers, battlecruisers, destroyers, and more attacked Bismarck, but it was a largely obsolete torpedo-carrying biplane that sealed Bismarck's fate. A hit from a torpedo jammed the rudder plane and Bismarck drifted in massive circles—easy pickings. **Kit features** photo-etched parts, self-adhesive wooden decking, detailed guns, lifeboats, seaplanes, cranes, display stand, and two sets of decals.

05144 RVLS5144 Total Parts: 2085 Skill Level: 5 Length: 28.3 in (718mm)

### 1/150 GORCH FOCK

Training tall ship

Sail-powered tall ships are some of the most majestic vessels in the world, and they still have a role to fill. The Gorch Fock is a German training ship which has turned cadets into commanders since 1958. In that time, nearly 15,000 cadets have been trained and the vessel has taken cruises all around the world. Own your piece of sailing history today! **Kit features** two piece hull, pre-assembled sails, lifeboats, masts with structured yard arms, yarn for ropes, display stand, flag chart, and decals.

05417 RVLS5417 Total Parts: 524 Skill Level: 5 Length: 23 in (584mm)

### 1/450 ADMIRAL NELSON FLAGSHIP

Most beloved son of Britain

Admiral Nelson was and is a truly legendary figure. His 34 year naval career featured some of the most astounding naval victories of the golden age of sail and his tactics are still studied over two hundred years after he fell at Trafalgar. Though he sailed in many vessels and commanded dozens, his most famous vessel will always be HMS Victory—the 104 gun first-rate ship of the line commanded by Nelson at Trafalgar. **Kit features** single-piece masts, sails, detailed hull, structured deck, cannons, life boats, and full decals.

05819 RVLS5819 Total Parts: 50 Skill Level: 3 Length: 7.9 in (200mm)

### 1/24 OMRON PORSCHE 962C

Fun at Fuji Speedway

Porsche has created countless competitors over the years. However, the 962C remains one of the brand's best designs over thirty years after its original release. The 962C competed in 1989's All Japan Sports Prototype Car Endurance Championship, where it took on Fuji Speedway's ten taut turns and impressive 0.9 mile (1.5 km) long straights. This limited edition **kit features** one marking option: 1. All Japan Sports Prototype Car Endurance Championship, 1989, Omron Racing Team, car no. 55.

20280 (Limited Edition) HSGS0280 Total Parts: 59 Skill Level: 3 Length: 7.9 in (200 mm)

### 1/24 JAGUAR XJR-8 SPRINT TYPE

Best in the world

For 1987, the Jaguar XJR-8 was awarded the title Autosport Racing Car of the Year... and it's easy to see why. It swept up victories in eight out of ten races in the 1987 World Sportscar Championship and carried the first place win home. With its 720 horsepower V12 carrying at up to a maximum of 220 mph, there simply wasn't another car on the course that could keep up. This limited edition **kit features** decals for car number four and car number five of the 1987 World Sports Prototype Championship.

20281 (Limited Edition) HSGS0281 Total Parts: 61 Skill Level: 3 Length: 7.9 in (200 mm)

### 1/24 LANCIA STRATOS HF "CHARDONNET 1975"

Victory in your grasp

The three time world rallying champion Lancia Stratos HF was a supremely sleek vehicle custom designed for rally racing and powered by a V6 engine. In 1975, the Lancia Stratos went up against the twisting, tortuous circuit of the "Tour de Corse" on the narrow, winding roads of Corsica. It won the 1975 race as well as the 1974, 1976, 1979, and even the 1981. In the world of rally racing, it's a legend. This limited edition **kit features** decals for 1975 Tour De Corse Winner B. Darniche of Team Chardonnet.

20282 (Limited Edition) HSGS0282 Total Parts: 147 Skill Level: 3 Length: 6.3 in (161 mm)

### 1/144 YS-11E "ELECTRONIC WARFARE SQ"

Control your sky

In the sphere of modern conflict, electronic warfare has become nearly as important as actual physical combat. He who controls the flow of information in the combat zone largely controls the eventual course of the conflict. The YS-11E was a domestically-produced Japanese twin prop aircraft with General Electric engines for added power and range. The Japanese Air Self Defense Forces operate six electronic warfare/intelligence YS-11s plus an array of YS-11s for other tasks. This limited edition **kit features** new resin radome and antenna plus decals for two JASDF Electronic Warfare aircraft.

10819 (Limited Edition) HSGS0819 Total Parts: 60 Skill Level: 3 Length: 7.2 in (183 mm)

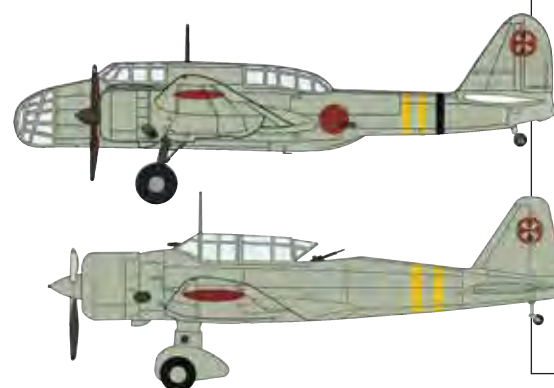

### 1/72 KAWASAKI T-4 "11TH SQ BLUE IMPULSE 20TH ANNIVERSARY" (2 KITS)

Two decades of amazing aerobatics

Introduced in 1988, the Kawasaki T-4 is a subsonic trainer that replaced Japan's aging fleet of Lockheed T-33s and Fuji T-1s. The JASDF's Blue Impulse aerobatic demonstration team transitioned to the T-4 in 1995. To celebrate twenty years of T-4 flight, the Blue Impulse team decorated their aircraft with a special trim scheme. This limited edition combo **kit features** two Blue Impulse T-4s with an intricate special anniversary decal set for each.

02210 (Limited Edition) HSGS2210 (2 Kit Combo) Total Parts: 66 + 67 Skill Level: 3 Length: 7.1 in (181 mm)

### 1/72 Ki-51 TYPE 99 ASSAULT PLANE AND BOMBER (2 KITS)

Destructive duo

In the China-Burma-India Theater, the Ki-51 "Sonia" found its niche as a strafing craft that could use rough landing strips and fly dangerous low-level missions. The armored Ki-51B variant of the "Sonia" added protection for the pilot and oil tanks to improve survivability. The Ki-48 was also in its element in Burma. There, its speed and agility let it outrun or outmaneuver early American and British fighters and its 800 kg bomb load sowed chaos amongst the defenders. This limited edition combo **kit features** two aircraft with Hokota Flying School decals for each.

02211 (Limited Edition) HSGS2211 (2 Kit Combo) Total Parts: 50 + 85 Skill Level: 3 Length: (Sonia) 5 in (128 mm); (Lily) 7.1 in (181 mm)

### 1/72 MV-22B OSPREY "VMM-265 DRAGONS"

On tilted wings

Tilt rotor aircraft are a completely new concept for the US Marine Corps and one which has quickly caught on. These aircraft are capable of maintaining the speed of conventional turboprop aircraft and then tilting their rotors to descend or ascend like helicopters. This keeps them out of the hot zone longer. Additionally, they are able to move a maximum of 32 troops at a time or up to 20,000 lbs of internal cargo—far more than the Blackhawk. This limited edition **kit features** decals for VMM-265 "Dragons" and VMM-262 "Flying Tigers".

02212 (Limited Edition) HSGS2212 Total Parts: 140 Skill Level: 3 Length: 9.7 in (245.5 mm)

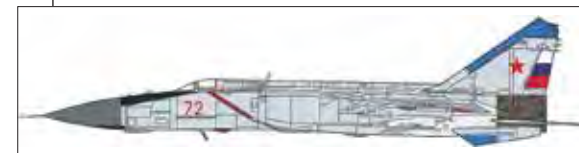

### 1/72 MIKOYAN-25PD FOXBAT "RUSSIAN AIR FORCE"

Iron aircraft

Virtually all stainless steel construction made the Foxbat stand out before it ever took wing. In the air, it really "took off". With an operational top speed of Mach 2.83, it was one of the fastest of all active-duty military aircraft. It was designed to fly high and fast in order to confront the threat from Cold-War era US recon planes and bombers. Along the way, this aircraft set world records that still stand. This limited edition **kit features** decals for Soviet Air Force and Russian Air Force planes.

02213 (Limited Edition) HSGS2213 Total Parts: 98 Skill Level: 3 Length: 12.1 in (307 mm)

### 1/48 "SHIDENKAI NO MAKI" MACCHI C.202 FOLGORE

Make the most of your Macchi

Just prior to World War II, Italian fighters had two very serious problems. They almost all used outdated radial engines and their light armament put them at a serious disadvantage in fights where every second and every bullet counted. A licensed copy of the German Daimler-Benz DB601 inverted V-12 aero engine boosted the Folgore's flight performance, making it one of the top performing Italian fighters of the war. This limited edition **kit features** markings for "Shidenkai No Maki" pilot Kazumi Yoshikawa.

64738 (Limited Edition) HSGS4738 Total Parts: 70 Skill Level: 3 Length: 7.3 in (185 mm)

### 1/72 F-14A/B TOMCAT "JOLLY ROGERS" (2 KITS)

Retired but still remarkable

A full decade after the F-14 Tomcat was retired from service with the US Navy, it continues to catch the imagination of a generation. Its swing-wing style, incredible agility, and combat ability made it the most dominant aircraft in the sky for nearly thirty years. It was flown by both VF-84 and VFA-103—Jolly Rogers squadrons. This limited edition **kit features** decals for VF-84 Jolly Rogers aboard USS Nimitz in 1978, and VFA-103 Jolly Rogers aboard USS John F. Kennedy in 2004.

52146 (Limited Edition) HSGS5146 (2 Kit Combo) Total Parts: 195 + 211 Skill Level: 3 Length: 10.5 in (266 mm)

### 1/72 F-4J PHANTOM II & F/A-18F "JOLLY ROGERS" (2 KITS)

#### Under the black flag

Three Navy Fighter Squadrons have had the honor of carrying the Jolly Rogers distinctive skull and crossbones livery. VF-84 had the longest run, from 1955-1995, while VFA-103 carries it today. Whether they are flying the F-4 Phantoms of the Vietnam era or the modern F/A-18F, the pilots of the Jolly Rogers deliver ordnance on target and on demand. **Kit features** new front landing gear cover, decals for VF-84 aboard USS Roosevelt and VFA-103 aboard USS Dwight D. Eisenhower.

52147 (Limited Edition) HSGS5147 (2 Kit Combo) Total Parts: 108 + 121 Skill Level: 3  
Length: 10 in (255 mm)

### 1/48 BRITISH PHANTOM FG MK. 1 "TREBLE ONE"

#### Ghosts on the go

The 111th Royal Air Force Squadron is as storied as any squadron in the RAF. In 1974, the squadron received the first of its F-4 Phantoms. These high-performance aircraft helped fill the gaps that the shorter ranged, less powerful English Electric Lightning left in the RAF's defences during the Cold War. In 1975, RAF 111 and its F-4s redeployed to Leuchars—the northernmost air base in the British Isles. From there, they were responsible for interdicting Soviet recon missions. This limited edition **kit features** two sets of RAF 111th Squadron decals.

07441 (Limited Edition) HSGS7441 Total Parts: 123 Skill Level: 3 Length: 14.4 in (365.5 mm)

### 1/48 NAKAJIMA KI-43-I HAYABUSA (OSCAR)

#### Leaders in lethality

In the tight-turning dogfights of WWII, Allied pilots frequently mistook the Ki-43 for the Zero. This mistake could have lethal consequences. Though lightly armed and unarmored, these aircraft tallied numerous victories. Their maneuverability made them dangerous opponents but necessitated a total absence of armor. This, coupled with their lack of self-sealing fuel tanks, made them relatively easy to destroy—if you could keep them in your sights. **Kit features** decals for three aircraft of the 1st Flight Regiment.

07444 (Limited Edition) HSGS7444 Total Parts: 72 Skill Level: 3 Length: 7.2 in (184 mm)

### 1/72 F/A-18 "SWISS AIR FORCE"

#### Honoring 100 years of Swiss service

The Swiss Air Force celebrated its 100th anniversary in 2014. In honor of this special occasion, several Armed Forces aircraft were decorated with anniversary-inspired livery. Swiss F/A-18s got in on the action, appearing at Europe's largest international air show, Air14, held at Payerne. One of the most exciting demonstrations featured an F/A-18 flying with the popular PC-7 aerobatics team on the show's final day. **Kit features** one decal marking option: 1. Swiss Air Force, special livery Air14 Payerne 2014 Swiss.

1385 ITAS1385 Total Parts: 88 Skill Level: 3 Length: 9.3 in (237 mm)  
Wingspan: 6.6 in (167 mm)

### 1/32 MIRAGE III E/R

#### Seeing is believing

The Dassault Mirage III was highly adaptable, incredibly versatile and impressively maneuverable. It's no wonder that the Mirage III was favored by Air Forces all over the world! Many multi-role "E" models were equipped with a Doppler radar radome that aided with navigation, as well as dual mode air/ground radar. "R" models, on the other hand, lacked these radar systems, substituting them with camera equipment for reconnaissance missions. **Kit features** new molding, 32 photo-etched parts, six decal marking options and a super decal sheet.

2510 ITAS2510 Total Parts: 270 Skill Level: 5 Length: 18.1 in (461 mm)  
Wingspan: 10.1 in (257 mm)

### 1/24 LAMBORGHINI COUNTACH 5000 QUATTROVALVOLE

#### Four times the firepower, four times the fun

Lamborghini unveiled the 5000 Quattrovalvole over a decade after the first Countach models rolled off the assembly line. Released in 1985, the "5000 QV" featured a V-12 engine that was equipped with four valves per cylinder—which translates to quattrovalvole in Italian. The engine was also equipped with a Bosch K-Jetronic fuel injection system which replaced the six Weber carburetors used in previous models. Only 610 Countach 5000 Quattrovalvole models were produced, making them an instant hit with collectors worldwide. **Kit features** assorted details, including six rubber tires.

3683 ITAS3683 Total Parts: 145 Skill Level: 3 Length: 6.7 in (171 mm)

### 1/24 LAMBORGHINI MIURA

#### First of the fastest

Engineered in secret by Lamborghini designers, the Miura sports coupe revolutionized the auto industry with its high-performance, high-speed sophistication. The car's "Miura" moniker was derived from a type of fighting bull. The bull became so identified with Lamborghini that it became a permanent fixture of the brand's logo. A total of 764 Miura models were produced from 1966-1973. In honor of its importance to the brand, the Miura was briefly resurrected as a concept car in 2006. **Kit features** six rubber tires and an acetate sheet for creating side windows.

3686 ITAS3686 Total Parts: 67 Skill Level: 2 Length: 7.1 in (180 mm)

### 1/24 DAF 95 CANVAS TRUCK

#### Dutch canvas

DAF has come a long way from its origins as a workshop on brewery grounds in 1928. Today, its trucks are some of the most respected in the world—and the DAF 95 is the rule, not the exception! The 95 took the "Truck of the Year" award after its introduction in 1987 and it was easy to see why. Driver comfort was assured with a totally new, more ergonomic, soundproofed cabin and the power of the 11.6 liter ATI engine was undeniable. **Kit features** a canvas-side truck with full decals.

3914 ITAS3914 Total Parts: 323 Skill Level: 3 Length: 14.9 in (378 mm)

www.gpdealer.com

**1/56 CHURCHILL MK. III/IV/AVRE/NA75**  
**As durable as England herself**

Indomitable. Unstoppable. Stubborn. The six cylinder roars in the engine compartment, propelling forty tons of war machine across the shifting sands of El Alamein. Rictus grins stretch the faces of all five crew as the armor resounds to the impact of German anti-tank shells. They've lost count of the hits, and they're still driving forward. The mantra of Churchill, of Britain, of the Churchill tank builds unspoken in the compartment: indomitable, unstoppable, stubborn. It's time to win. **Kit features** commander figure, five sets of decals, and parts to assemble seven different versions of the Churchill.

5760      ITAS5760      Total Parts: 73      Skill Level: 2      Length: 5.2 in (133 mm)

**1/35 WWI AUSTRO-HUNGARIAN INFANTRY**  
**Besieged on all sides**

Austria-Hungary fought Serbia in the south, Russia in the northeast, Romania in the east, Italy in the west, and simultaneously faced the prospect of French and British assistance for her enemies. From choked Alpine passes, to wide Russian steppe, to Serbian hills, Hungarian infantry struggled in some of the most intense—and largely forgotten—battles of WWI. These dynamically posed models are ideal for war gaming or for vivid dioramas. **Kit features** 1/35 scale figures in WWI-era uniforms with appropriate equipment.

6528      ITAS6528      Total Parts: 152

**1/35 WWI ITALIAN INFANTRY**  
**Assaulting the Alps**

On the Western Front, soldiers complain about the mud. Here, thousands of feet above the treeline, the complaints are about ice, glaciers, boulders, and endless, futile assaults that follow battle plans which failed the first eleven times. The war against the Austro-Hungarian Empire has cost Italy dearly and resulted in infinitesimal gains. Nevertheless, the Italian soldier struggles on—straight into the machine guns for Luigi Cadorna. This **set features** dramatically posed 1/35 scale Italian troopers with WWI issue uniforms and equipment.

6532      ITAS6532      Total Parts: 148

**AMT® 1/350 Star Trek TOS USS Enterprise Smooth Saucer**  
**Boldly going to the edges of the galaxy**

Star Trek took Sci-Fi to a whole new world—beaming it weekly into the home of millions of Americans and creating a legion of fans. USS Enterprise has become an iconic symbol recognized worldwide, but especially in the US. The Federation and the Kats at AMT invite you to build this smooth representation of USS Enterprise from the original series. The original TV model had penciled-on panel lines. Previous editions of the Enterprise engraved the panel lines but this smooth version allows you to build a totally authentic Enterprise! **Kit features** grid line template and “rust ring” decal.

MKA0015/06      AMTS0015

**AMT® 1/25 Trojan Horse 1975 Mustang Funny Car**  
**Charge the gates!**

Larry Fullerton set a world record when he drove his “Trojan Horse” Mustang Funny Car to victory in the 1972 NHRA World Championship. Now you can own a scale model of his famed tilting-body racer and impress every gear head on the block! **Kit features** new front clip with recessed headlight lens areas, expanded decal sheet, realistic tires and pad-printed drag slicks, Retro Deluxe™ vintage packaging, and bonus mini display box.

AMT1009/12      AMTS1009      Skill Level: 2

**Bandai Gundam “Gundam Seed Destiny” 1/144 Force Impulse**  
**Massive morphing mech**

This modern version of the Force Impulse Gundam from Gundam Seed Destiny has more to offer than ever before. Modern engineering techniques deliver streamlined proportions, improved color separation and a full array of expressive and dynamic action pose options. Plus, this incredible model is capable of separating into three, modular components just like in the show: chest flier, silhouette flier, and leg flier. **Kit features** beam rifle, shield, beam sabers, separate core splendor, 11 runners, sticker, and instruction manual.

BAN206326      BANS6326

**Minicraft® 1/72 PBM-5 USN WWII w/2 Marking Options**  
**Over open ocean**

The PBM was designed in the late 1930's, and first deployed in the early 1940's as a sea-based US Navy patrol bomber and transport. It was a large aircraft carrying a crew of 7 to 10 and had a flight range of over 2000 miles. This new kit represents the PBM-5, the most-produced aircraft in the Mariner family. This **kit features** new tooling for “beaching gear”, depth charges, detailed bomb bays, recessed panel lines, detailed twin engines with moveable cowl flaps, and decals for “Nightmare”.

11684      MMIS1684      Skill Level: 3

**Minicraft® 1/48 YQU-22A Beech Bonanza AF Service 1970**  
**Training a generation of pilots**

Following WWII, the US military needed a cheap, high performance trainer with high speed, maneuverability, and gentle flight characteristics. They turned to Beechcraft to modify their Bonanza into a tandem-seat trainer. The tandem-seat “Mentor” was a very successful design used by the USAF, USN and many allied units. Over 2,000 were built and served, in many places, well into the nineties. Civilians and foreign militaries still use the type. **Kit features** all-new tooling, detailed cockpit, sliding canopy, moveable landing gear, and multiple marking options from Cartograf.

11688      MMIS1688      Total Parts: 61      Skill Level: 2      Length: 6.75 in (171mm)  
Wingspan: 8.5 in (216mm)

**Minicraft® 1/48 MH-60 Pave-Hawk**  
**In and out before they know**

Special Forces uses the MH-60G Pave-Hawk for insertion and extraction in areas where long range and absolute secrecy are required. It's equipped with a refueling probe and the ground-breaking “PAVE” avionics system as well as upgraded communications equipment, .50 cal. machine guns, and countermeasure systems. **Kit features** recessed panel lines, detailed engines, detailed interior, and two sets of decals for USAF MH-60Gs.

11691      MMIS1691      Total Parts: 126      Skill Level: 2      Length: 12.5 in (318mm)

Minicraft® 1/144 EC-135C USAF w/2 Marking Options

Watching the world burn

In the event of a full scale nuclear exchange—with all ground control centers knocked out of operation—the EC-135C aircraft of “Operation Looking Glass” were tasked with transmitting launch codes to waiting ICBMs for a retaliatory “Second Strike”. From 1961 to 1998 at least one EC-135C was aloft 24 hours a day, 7 days a week, 365 days a year. Waiting. Three more EC-135Cs were kept on standby in Maryland to transport the President out of DC. The war is over but the history remains. Get your piece of it with this intricately modeled EC-135C.

14709	MMIS4709	Total Parts: 69	Skill Level: 2	Length: 10 in (254mm)	Wingspan: 12 in (305mm)
-------	----------	-----------------	----------------	-----------------------	-------------------------

Minicraft® 1/144 LC-130 Hercules w/Skis

Insanity on ice

Take a 75,000 pound base aircraft and modify it with skis, then load it with nearly 50,000 pounds of supplies or just under a hundred passengers. Take off with the lot and fly south to the harshest, coldest, most inhospitable region of the planet. Land. Unload. Take off from a landing strip made of packed snow using single-use jet boosters. Do it all again the next week. It sounds crazy, but for the LC-130s that run supplies to McMurdo Station in Antarctica, it's all part of the job. **Kit features** new skis, optional 8-blade props, and 2 marking options.

Minicraft® 1/144 8th Air Force B-17G Flying Fortress

On the wing with the Eighth

Blood is freezing on the armor glass. It casts red glares back into the flak-riddled fuselage with every throbbing pulse from the .50 caliber M2 Browning. Smoke bleeds in from two blown engines as the B-17G drifts out of formation. The 109s are everywhere, like vultures. 20 mils spit lines of fire through aluminum. Nothing on the coms, no orders, no sound but the staccato shout as you hold the spade triggers down and fill the air with lead. No orders, just enemies... and the ground rising up. Hold on or bail out? **Kit features** a B-17G model with 8th Air Force decals.

14726	MMIS4726	Total Parts: 46	Skill Level: 2	Length: 6 in (152mm)	Wingspan: 8.75 in (222mm)
-------	----------	-----------------	----------------	----------------------	---------------------------

Minicraft® 1/144 B-29A Enola Gay

44.4 seconds to nothing

Silverplate modified B-29s were the only aircraft capable of carrying the massive bulk of atomic weapons in 1945. A silverplate B-29 rolled out onto the airstrip with fresh paint under the cockpit windows and the newly-dubbed “Enola Gay” took off into the dark and history. Onboard was the most lethal weapon ever created—the atomic bomb. Hours later, the bomb was dropped over Hiroshima at 8:15 in the morning and detonated 44.4 seconds later. Virtually obliterating everything within a mile of ground zero. **Kit features** a detailed “Silverplate” variant B-29 with “Enola Gay” decals.

-------	----------	-----------------	----------------	-------------------------	-------------------------

Minicraft® 1/144 Ju-88 A/C Luftwaffe

Blasting at its best

The Ju 88 was, without a doubt, one of the most integral twin-engine aircraft of the Third Reich. It was made in dozens of variants with the A and C variants serving as bombers and night fighters. The A variant could carry around 3,000 lbs (1400kg) of bombs while the C variant instead carried the heavy interception radar as well as additional armament. All told, over 15,000 Ju 88s were produced throughout the war. **Kit features** pre-decorated clear parts, early solid nose, and two marking options.

14729	MMIS4729	Total Parts: 40	Skill Level: 2	Length: 4 in (102mm)	Wingspan: 5.5 in (140mm)
-------	----------	-----------------	----------------	----------------------	--------------------------

Minicraft® 1/144 P-38J Lightning

America's chief hunters

With a nose-mounted armament of four .50 cal machine guns and a 20mm cannon, the P-38J worked like a buzz saw on any target put in front of it. All America's top-scoring pilots flew the P-38—many in the Pacific against the vaunted Mitsubishi Zero. There, its long range mattered even more than its heavy armament. Over 10,000 were produced for the war effort and some are still airworthy today! **Kit features** two marking options, pre-decorated clear parts, and more.

14730	MMIS4730	Total Parts: 30	Skill Level: 2	Length: 3.25 in (83mm)	Wingspan: 4.5 in (114mm)
-------	----------	-----------------	----------------	------------------------	--------------------------

Minicraft® 1/144 TBM™ Avenger

Ship smashers

WWII saw the development of many new weapons. One of the weapons with the most mixed reputation was the TBF Avenger. It was sturdy, reliable, and powerfully armed with torpedoes for engaging surface warships, but it was also relatively slow and vulnerable. It was the Avenger that drew away the combat air patrols of the Japanese Navy at Midway and gave the American dive bombers a clear shot at the carriers. **Kit features** clear parts and detailed decals for two versions.

14731	MMIS4731	Total Parts: 24	Skill Level: 2	Length: 3.25 in (83mm)	Wingspan: 4.5 in (114mm)
-------	----------	-----------------	----------------	------------------------	--------------------------

Minicraft® 1/144 AC-47D Spooky

Dragon ships fly again!

With three side-mounted miniguns, the AC-47D could pour 300 7.62mm rounds a second onto ground targets below. In Vietnam, this firepower was used to break up assaults on isolated outposts and to defend villages. One encounter involved an AC-47D suppressing VC on a hilltop for four hours using 20,500 rounds of ammunition. Although their individual contributions were exemplary, there were relatively few AC-47s available. Nevertheless, they earned a favorable reputation with soldiers who nicknamed them “Puff the magic dragon” or “Dragon ships”. **Kit features** guns, engines, recessed panel lines, and 2 marking options.

14732	MMIS4732	Total Parts: 49	Skill Level: 2	Length: 5.5 in (140mm)	Wingspan: 8 in (203mm)
-------	----------	-----------------	----------------	------------------------	------------------------

Minicraft® 1/144 F-111 Aardvark

Swing-wing strategic bomber

Designed for long range, high speed, and heavy weapons load—the F-111 was a revolutionary aircraft design. The Air Force version was designed as a low-level penetrator, capable of zipping in under Soviet radar, dropping its nuclear payload and zipping back out again. At least that was how it was supposed to work in theory. In practice, the F-111 only ever dropped conventional bombs and only on non-Russian targets. Aardvarks served from Vietnam to the Gulf War, earning themselves a place in aviation history. **Kit features** detailed parts and multiple decals.

14733	MMIS4733	Total Parts: 33	Skill Level: 2	Length: 6.25 in (159mm)	Wingspan: 5.25 in (133mm)
-------	----------	-----------------	----------------	-------------------------	---------------------------

Minicraft® 1/144 B-52D Stratofortress™

Maximum bang for your buck

The B-52 is capable of carrying roughly 60,000lbs of nuclear or conventional ordnance. For comparison, that's eight times as much as the B-17 of a decade earlier. Added to that massive capacity was the extensive range of the type which allowed it to fly all the way from Guam, carpet bomb Vietnam and still make it home. Incredibly, the B-52 is planned to continue in service until 2040—by which point it will be a ninety year-old design. **Kit features** new fuselage tooling, as well as tail and engines, bombs on external pylons, and two sets of decals.

14734	MMIS4734	Total Parts: 142	Skill Level: 2	Length: 13 in (330mm)	Wingspan: 15.5 in (394mm)
-------	----------	------------------	----------------	-----------------------	---------------------------

## Minicraft® 1/144 B-24D Liberator USAAF

*Crushing it*

Long range and a massive bomb load made the B-24 Liberator one of the standout bombardment weapons of WWII. It was used heavily in most theaters of the war—memorably bombing the Ploesti oil fields and lending its heavy punch to targets in the Pacific. Perhaps most crucial, however, was its role in closing the Mid-Atlantic gap—eliminating the last safe space Nazi U-boat wolfpacks had to hide. **Kit features** full detail and decals.

14735      MMIS4735      Total Parts: 101      Skill Level: 2      Length: 11.75 in (298mm)  
Wingspan: 18.25 in (464mm)

## Minicraft® 1/144 PBV 5/5A Catalina

*Stalking the Pacific*

Immense open stretches of water dominated the Pacific theater. For most aircraft, these stretches were death traps. However, they were essential for the Catalina flying boat. Many PBV Catalinas, like the one in this kit, were painted inky black and flown at little more than wave-top height. The “Black Cats” were incredibly hard to detect. They would sneak into busy Japanese ports and mine the harbors—strangling Japan’s supplies. **Kit features** Cartograf decals for two aircraft and recessed panel lines.

14736      MMIS4736      Total Parts: 68      Skill Level: 2      Length: 8.3 in (210mm)  
Wingspan: 5 in (127mm)

## Minicraft® 1/144 C-130J with 2 Marking Options (USAF)

*Hauling more, further*

A total refresh of the 60-year-old C-130, the C-130J has new engines, a new flight deck, and updated systems to give it performance superior to its planned successor aircraft. Since its introduction in 1999, over 300 C-130Js have been ordered for a total of fifteen countries. **Kit features** opening rear cargo door, positionable landing gear, unique engines and propellers, high-quality decals for two USAF versions, and pre-decorated or undecorated canopy options.

14737      MMIS4737      Total Parts: 78      Skill Level: 2      Length: 8.5 in (216mm)  
Wingspan: 12.8 in (324mm)

## Moebius® 1/8 Halloween Michael Myers with LED Pumpkin

*Bring the madness home!*

The implacable, unknowable, unstoppable Michael Myers is ready to make a scene in your living room! Halloween is the Empire State Building of the horror genre. With a box office take of 70 million, a host of spinoffs, and a legion of fans forged since its release in 1978, it’s the definitive horror film of the last four decades. The incredible detail, realistic posing, and ambience will bring in fans everywhere—assuming they’re not scared! **Kit features** styrene model kit complete with front porch set and LED pumpkin kit.

970      MOES0970      Skill Level: 2

## Moebius® 1/8 Armored Batman “BvS” Resin

*Poised to pounce!*

This model is based on digital effects files from Batman vs. Superman Dawn of Justice and mounted on a detailed battle-scene base for a diorama-like effect! All three kits in the line can be grouped together or posed separately. Here, Batman prepares to deliver a crushing, kryptonite-backed blow and is heavily armored to boot! **Kit features** superior detail, precision-tooled resin, detailed base, and simple assembly.

1013      MOES1013      Skill Level: 2

## Moebius® 1/8 Superman “BvS” Resin

*Model the “Man of Steel”*

This model is based on digital effects files from Batman vs Superman Dawn of Justice and mounted on a detailed battle-scene base for a diorama-like effect! All three kits in the line can be grouped together or posed separately. Superman doesn’t need armor or weapons. He’s here, ready to fight with bare fists and total assurance of invulnerability! **Kit features** superior detail, precision-tooled resin, detailed base, and simple assembly.

1014      MOES1014      Skill Level: 2

## Moebius® 1/8 Wonder Woman “BvS” Resin

*Greece’s most famous goddess*

This model is based on digital effects files from Batman vs. Superman Dawn of Justice and mounted on a detailed battle-scene base for a diorama-like effect! All three kits in the line can be grouped together or posed separately. Wonder Woman is the lasso-wielding femme fatale of the superhero world and the unnamed but essential completion of the Batman vs Superman big three. **Kit features** superior detail, precision-tooled resin, detailed base, and simple assembly.

## TAKE A WHACK AT THE SKY!

Put the Executioner on the platform!

Skill Level **3**

More advanced kits with laser-cut wood fins and parts, unfinished body tubes, detailed designs and plastic or balsa nose cones. Requires moderate skills in rocket construction and finishing – assembly may take a few days.

### Executioner™

*A cut above the rest*

**Length:** 38.5 in (97.8 cm)

**Diameter:** 2.6 in (66 mm)

**Weight:** 7.2 oz (204 g)

**Max. Altitude:** 650 ft (198 m)

**Requires:** launch system, engines, starters and recovery wadding

**Recommended Engines:** D12-3, D12-5, E12-4 and E12-6

1951 ESTT1951

### Long story short...

*With power from D and E engines, even the immense Executioner can reach awe-inspiring heights—perfect for rocketeers looking for something a little more intense!*
