# BRING THE PARTY

# VUSION HOUSERACER

INDOOR FPV RACE PACK

Let your friends bring the snacks, drinks and playlists. When you bring the Vusion House Racer, you bring the party. Zip and flip through the crowd. Create a pylon course with plastic cups. Feel the adrenaline pumping as you cross the finish line. Until you bring the Vusion House Racer, a party isn't a party.

**Includes:**

- Ready-to-Fly version comes with a Tactic FPV-RM2 5.8GHz Monitor, FPV-G1 Goggles and a RISE J2000 6-channel 2.4GHz radio system with Flip button and monitor holder
- Both versions include a 600TVL camera and 25mW 40-channel 5.8GHz video transmitter
- Long-lasting 1S 3.7V 650mAh LiPo battery delivers 6-8 minutes of flight time
- FPV-Ready version is compatible with virtually all FPV goggles and monitors on the market — just add the 5-channel SLT radio and goggles or monitor of your choice

RISE0207 Vusion House Racer Indoor FPV Race Pack-RTF  
 RISE0208 Vusion House Racer Indoor FPV Race Pack-FPV Ready  
 Rotor Diameter: 125 mm (4.9 in)  
 FPV-Ready version requires: 5+ channel SLT radio, goggles or monitor  
 RTF requires: nothing!

**From the Experts:**

No corner of your house is off-limits with the Vusion House Racer! Zip and flip through every room, and create instant obstacle courses. Use the FPV camera to shoot edge-of-your-seat footage, and immerse yourself in the action with the LCD monitor and goggles. And don't worry — the Vusion is tough enough to take a hit, and come back for more.

**Long story short...**

*Put yourself at the controls of the Vusion House Racer, and turn your house upside down!*

# RISE™

# Indoor FPV EVOLVED

Pitch the pizza boxes. Ditch the pool noodles. Indoor FPV has evolved with the House Racer FPV Race Gate System. It has everything you need to make your own custom courses, all in one box. Start with something simple, or bring your "A" game and build a more challenging layout. The choice is yours. With the House Racer FPV Race Gate System, there are no limits.

## HOUSE RACER FPV RACE GATE SYSTEM

**Includes:**

- (2) Ring gates – test your dexterity, and your nerves
  - (3) Arrows – to point the way around your course
  - (1) Checkered Flag gate – the official starting/finish line
  - (1) Pylon gate – make the sharpest turns to save valuable time
  - (2) 3M Command™ strips
  - (1) Instructional brochure
- 3M and Command are registered trademarks of 3M

- Water resistant 40T brushed electric motor
- Waterproof Tactic RE20 ESC/Receiver combo

**AX90052 AXID9052 - Yeti Jr.™ SCORE® Trophy Truck®**

**Length:** 13" (330mm)  
**Width:** 6.9" (175mm)  
**Height:** 5.0" (128mm)  
**Wheelbase:** 8.1" (206mm)  
**Ground Clearance:** 1.1" (27mm)  
**Weight:** 1.75lbs (0.80kg)

For additional items see a complete list at [www.GPDealer.com](http://www.GPDealer.com)

**From the Experts:**

With the introduction of the Yeti line back in 2014, the bar was set. Axial introduced a vehicle that featured independent front suspension (IFS) with a floating solid rear axle, something commonly reserved only for the full size off-road realm. This time around, the decision was to make things a wee bit smaller, while still providing a high level of performance. Enter, The Yeti™ Jr. SCORE® Trophy Truck® - RTR. We've taken all that you've come to love and appreciate in the Yeti chassis, but shrunk it down to 1/18th scale. It's powered by a 380 sized brushed motor which provides the perfect amount of torque and speed for this tiny Trophy Truck monster. Also featuring a bespoke all-in-one programmable Tactic ESC and receiver, paired with a 3-wire micro high torque steering servo. At the end of the day, the goal was to build a simple, fun, and easy to drive Yeti that anyone can handle. The hardest part about the Yeti Jr. SCORE Trophy Truck is making sure you have enough battery packs charged in order to keep the adventure alive!

# SAVAGE XL FLUX

Ready-To-Run 1/8 Scale 4WD Electric Monster Truck

## BRING ON THE BEAST!

- With its heavy-duty drivetrain and all-metal diffs the Savage XL Flux has more muscle than any other 1/8 scale electric monster truck
- The Flux 2200kV motor and 6S ESC crank out all the power you need for pulling off giant stunts and reaching speeds of over 60 mph
- A longer wheelbase and wider stance provides extra stability
- Rip through rain, snow, mud and more — all electronics are completely waterproof
- The aluminum Twin Vertical Plate (TVP) chassis fights chassis flex and distortion
- Side-mounted battery holders hold a wide range of LiPos, and allow for electronics to be centrally located to lower CG and improve handling
- Big Bore shocks smooth out even the roughest terrain, and they're adjustable

112609 HPID2609 Savage XL Flux 1/8 Scale 4WD  
Electric Monster Truck RTR  
Length: 23 in (585 mm)  
Width: 16.8 in (427 mm)  
Height: 10 in (254 mm)  
Weight: 14.77 lb (6.7 kg)  
Requires: (2) 3S LiPo batteries, compatible charger

### From the Experts:

When you pair the legendary Flux brushless power system with a virtually bulletproof drivetrain, you've got a monster truck that's unstoppable! Everywhere you look the Savage XL Flux is beefed up to handle its awesome torque as well as any terrain or conditions you can imagine. And because it's Ready-To-Run, you can be out terrorizing the competition right away.

### Long story short...

*It's bigger, it's faster, it's stronger...the Savage XL Flux is a basher's dream machine!*

# LOW PROFILE = HIGH PERFORMANCE

Speed B2102 1/8 Scale Competition Buggy Engine

- Unveiled at the 2016 IFMAR 1/8 Off-Road World Championships
- The shorter cylinder head looks cool, and lowers the engine's CG by an impressive 17 millimeters
- You'll see a big boost in your buggy's handling, which can be a real difference-maker on race day
- Ceramic bearings let you run cooler with no special handling or cleaning — they're also lighter, create less friction and last longer than steel bearings
- Enjoy up to ten minutes of run time per tank with the Speed B2102's more fuel-efficient 22C carburetor
- O.S. Speed innovations include a tungsten weighted crank shaft with diamond-like coating and silicon potting
- Also available with a T2090SC muffler

Side by side, you can easily see that the Speed B2102 is leaner and meaner.

OSMG2064 Speed B2102 1/8 Scale Competition Buggy Engine  
 OSMG2065 Speed B2102 1/8 Scale Competition Buggy Engine w/T2090SC Muffler  
**Displacement:** 0.211 cu (3.46 cc)  
**Bore:** 0.646 in (16.40 mm)  
**Stroke:** 0.646 in (16.40 mm)  
**Practical RPM:** 4,000-42,000  
**Power Output:** 2.65 PS/2.61 hp @ 34,000 rpm  
**Weight:** 12.25 oz (347 g)

### From the Experts:

Drop the Speed B2102 into your ride, and you'll hug the track and conquer the corners like never before, and without sacrificing cooling performance. It has all of the benefits of advanced Speed technology, with a bold new design that's like no other power plants out there.

### Long story short...

You'll go low with the Speed B2102, while the other are going home.

# A WINNING PEDIGREE

# E817

COMPETITION 1/8 SCALE 4WD ELECTRIC BUGGY

204035 HBSC4035 E817 1/8 Scale 4WD Electric Competition Buggy Kit  
**Length:** 19.1 in (486 mm)  
**Width:** 12.2 in (310 mm)  
**Wheelbase:** 12.8 in (325 mm)  
**Gear Ratio:** 4.3:1  
**Requires:** 2-channel radio system with 1 high-torque steering servo, brushless motor, brushless ESC, battery, charger, tires, wheels, "AA" batteries

- Fully adjustable battery mounting system that accepts 4S brick packs, 2x2" long or "shorty" packs
- Packs mount directly to the chassis for the lowest CG possible, and can be positioned to fine-tune balance for better handling
- Milled aluminum chassis
- Four-wheel shaft drive with D815-style drivetrain and 43/10 gearbox ratio optimized for electric power
- Threaded Big Bore coil-over aluminum oil shocks with front/rear aluminum shock towers
- Fully adjustable steel turnbuckles and aluminum front/rear hubs
- Dual clamp aluminum motor mounts
- Sealed radio box
- Topped off with a Pro-Line Predator body with rear wing – also accepts nitro bodies and popular wheels and tires

### From the Experts:

It's already won the prestigious 2016 Euros — now let the E817 put YOU on the podium. Benefitting from the DNA of the World Champion D815 V2, this 1/8 electric terror is fast, strong and flat-out loaded!

### Long story short...

You'll really appreciate the E817's well thought-out design come race day!

**NEWPRODUCT**

# ENGAGE IN WIRELESS WARFARE WITH THESE SCALE REPLICA TANKS

Tiger 1 Early Production 1/24 Scale Battle Tank-Green Camo

**VSKC2062 Tiger 1 Early Production 1/24 Battle Tank-Green Camo**  
 Length: 9 in (229 mm)  
 Width: 5.25 in (133 mm)  
 Height: 5.5 in (140 mm)  
 Weight: 2.6 lb (1.18 kg)  
 Maximum Infrared Shooting Distance: 26 feet (8 meters)  
 Maximum Turret Rotation: 330°  
 Includes: 2.4GHz radio system  
 Requires: 14 "AA" batteries, six for the transmitter and eight for the tank

**VSKC2032**  
1/24 Scale Leopard 2  
A6 Winter Tank

**VSKC2071**  
1/24 Scale Tiger 1  
Late Desert Tank

- Incredible detail, including molded scale accessories and working hatches
- A painted driver figure and machine guns can be installed for even more realism
- Three proportional forward speeds, two turning and pivot speeds and one speed for reverse
- All-wheel suspension and flexible rubber tracks tackle rugged terrain and inclines of up to 35°
- Infrared battle system allows for tank-to-tank combat
- The interference-free 2.4GHz radio lets you do battle with up to 15 other VSTanks at the same time!

**From the Experts:**

VSTank's latest scale replica battle tank captures the look of the imposing German Tiger 1, right down to the green and tan camo colors. It also maneuvers like the real thing, with precision radio control of direction, speed and functions — including infrared cannon fire for mock battles!

**Long story short...**

*You'll be proud to display — and command — this 1/24 scale Tiger 1 tank!*

**NEWPRODUCT**

## THE "GO-TO" TOOL YOU'LL USE EVERY DAY

32-Tip Multi-Driver

- Drive 32 different fasteners with one pocket-sized tool, including all of the ones found in popular drones, park flyers and RC vehicles
- Also ideal for household jobs such as watch, jewelry and eyeglass repair
- The anodized aluminum handle conveniently holds 15 short-shank, double-tip bits — simply rotate the end cap to remove the bit you need
- Bit shanks lock onto the adjustable-length shaft for easy attachment and removal
- Handle is shaped to keep from rolling around on your work surface

DTXR1167 32-Tip Multi-Driver

**Long story short...**

*The 32-Tip Multi-Driver is compact, versatile — and perfect for many hobby and non-hobby uses.*

## DESIGNED FOR DRONE RACING

R2001SB 2.4GHz S-FHSS S.Bus Receiver

**FUTL7619**  
R2001SB  
2.4GHz S-FHSS  
S.Bus Receiver

- Futaba's smallest, lightest full-range receiver ever!
- Compatible with these Futaba systems:
 

<b>18MZ-WC</b>	<b>10J</b>
<b>18MZ</b>	<b>8J</b>
<b>18SZ</b>	<b>6J</b>
<b>14SG</b>	<b>6K</b>
- Weighs only 4 grams

**Long story short...**

*The R2001SB is an S.Bus powerhouse that's guaranteed to take your FPV flights to the max!*

NEW PRODUCT

# TAKE YOUR ADVENTURE TO NEW HEIGHTS GIVE YOUR SPRING A LIFT!

**Skill Level 1**

These relatively simple kits require some painting, gluing, and sanding. Most feature laser cut wood fins, plastic nose cones, and high quality decals. Assembly may take an afternoon, but step-by-step instructions make building very easy.

**Space Twister™**  
**A Twist on flying fun!**  
Length: 24.7 in. (62.7 cm)  
Diameter: .98 in. (25 mm)  
Weight: 1.5 oz. (42.5 g)  
Max. Altitude: 900 ft. (274 m)  
Features: Laser cut Wood Fins, Waterslide Decal, 12 in. (30.5 cm) Parachute Recovery  
Recommended Engines: A8-3 (first launch) B6-4, C6-5  
Requires: Finishing supplies, launch system, engines, starters, and recovery wadding (sold separately)  
ESTT7258

**Skill Level 3**

Part of the second tier of more advanced kits, these kits feature laser cut wood fins, plastic nose cones, unfinished body tubes, and complex designs. Requires moderate skills in model construction and finishing, assembly may take a few days.

**Protostar™**  
**Be the Star!**  
Length: 24 in. (61 cm)  
Diameter: 1.64 in. (42 mm)  
Weight: 5 oz. (141.7 g)  
Max. Altitude: 1350 feet (411 m)  
Features: Laser cut Wood And Plastic Fins, Waterslide Decal, Plastic Nose Cone, 18" (46 cm) Parachute Recovery  
Recommended Engines: C11-3 (First Launch), D12-5, E12-6  
Requires: Finishing supplies, launch system, engines, starters, and recovery wadding (sold separately)  
ESTT7260

**From the Experts:**  
With 900 and over 1300 ft altitudes possible, these rockets deliver seriously high flying fun!

**Long story short...**

**Estes Rocket kits are second to none for ease and fun!**

**1/25 '66 CHEVY® SUBURBAN**  
Capacity and tenacity

The rich history of the Chevy Suburban stretches back almost as far as the history of Chevy itself. It is, in fact, the longest continuously used nameplate that is still in production. It's a station wagon based on a pickup truck chassis and it has grown and evolved as the Chevy truck line has advanced. This 1966 version is from the fifth generation Suburban started in 1960. **Kit features** detailed 283ci V-8 engine, two rows of seats, whitewall tires, and spare tire.

85-4409 RMXS4409 Total Parts: 124 Skill Level: 4 Length: 7.75 in (197 mm)

**1:48 F-102A DELTA DAGGER**  
Speed and ferocity

The threat of atomic-weapon toting bombers was very, immediately real throughout much of the Cold War. To counter that threat, the United States fielded the F-102. This supersonic interceptor was designed with delta wings (a first in jet aviation) and it formed a cornerstone piece of the Century Series of American fighters made in the 50s. **Kit features** seated pilot figure, external wing tanks, and internal weapons including: 3 AIM-4A/E Falcons and 3 AIM-4C/D Falcons.

85-5869 RMXS5869 Total Parts: 97 Skill Level: 4 Length: 17.1 in (435 mm)

**1/35 PERSONNEL CARRIER**  
Conflict conveyance

Halftracks provided protection, mobility, and support in virtually every conflict theater during both World War II and the Korean War. The M-16 version had a top speed of around 40mph and it was very versatile. With varying equipment, it could carry troops, weapons, supplies, and more. For this kit, the M-16 is fitted with a 50 caliber machine gun and is equipped with seating for six soldiers. **Kit features** extra storage boxes, fuel cans, seated driver, eight crew figures, flexible tracks, and opening doors.

85-0035 MONS0035 Total Parts: 92 Skill Level: 4 Length: 7.3 in (194 mm)

**1/32 MESSERSCHMITT ME 262B-1 NIGHT FIGHTER**  
Even faster in the dark

The Me 262 was one of the first jet fighters in the world and was incredibly lethal in the air, but Allied pilots learned to bounce Me 262s near their air fields at takeoff or landing. Equipping the Me 262 as a night fighter allowed it to take off and land in darkness... and to hunt the British bombers that streamed over Germany virtually every night late in the war. **Kit features** choice of lowered flaps, replica Jumo 004 engines, moving ailerons and rudder, antennae, guns, detailed cockpit, auxiliary fuel tanks, and two sets of decals.

04995 RVL54995 Total Parts: 222 Skill Level: 5 Length: 13.2 in (336 mm) Wingspan: 15.4 in (391 mm)

### 1/24 MCLAREN 570S "Day to day drivability"

Many sports cars ignore unimportant things like ride comfort, cargo space, personal space, and fuel economy when creating their cars, but McLaren decided that with their 570S you'd get the full package—a car you can drive and enjoy it, too. So, for roughly \$180,000, you get two seats, 562 horsepower, and a top speed you can take to the track. **Kit features** multi-part body, open or close mounted doors, left or right hand drive, decals with multiple registration plate options.

07051      RVL57051      Total Parts: 106      Skill Level: 3      Length: 7.5 in (190 mm)

### 1/24 MITSUBISHI GALANT VR-4 RALLY A long, hard ride

Both the Monte Carlo Rally and Rally Sweden are some of the most challenging races in the world, though they face incredibly different sorts of challenges. In Monte Carlo, the main problem is the tortuous, twisting tracks and the extreme variability of road conditions. For Rally Sweden, the ubiquitous snow cover makes racing extremely difficult. For one car to pull off top ten finishes in both races, it would have to be an exceptional ride. This limited edition **kit features** decals for Swedish Rally winner Kenneth Eriksson and Monte Carlo racer Timo Salonen.

20288 (Limited Edition)      HSGS0288      Total Parts: 114      Skill Level: 3      Length: 7.5 in (190 mm)

### 1/24 LANCIA DELTA HF INTEGRALE 16V 1991 1000 LAKES RALLY Flying Finns

With gravel roads, high hills, and jumps throughout the course, the 1000 Lakes Rally (or Rally Finland) is a punishing, extremely high speed race. Very few non-Finnish participants ever see the podium because of the daunting challenge presented by the event. In 1991 Juha Kankkunen won the race in his Lancia Delta HF. He would win the event twice more before 2016. This limited edition **kit features** a Lancia Delta HF Integrale with decals for 1991 1000 Lakes Rally winner Juha Kankkunen.

20289 (Limited Edition)      HSGS0289      Total Parts: 136      Skill Level: 3      Length: 6.5 in (165 mm)

### 1/72 NAKAJIMA A6M2-N TYPE 2 SEAPLANE (2KITS) Hunting PT boats

With its large floats, the "Rufe" seaplane was able to operate from limited forward bases for the Japanese during WWII. These same floats, however, degraded the flight performance of the base aircraft (the vaunted Mitsubishi Zero). This resulted in a very deadly situation. If the A6M2-N found the PT boats, it could be quite bad for them. However, if escort fighters found the "Rufe" the seaplanes didn't stand a chance. This limited edition **kit combo features** two aircraft with three sets of decals.

02220 (Limited Edition)      HSGS2220 (2 Kits)      Total Parts: 45 x 2      Skill Level: 3  
Length: 5.5 in (140 mm)      Wingspan: 6.5 in (166 mm)

### 1/72 MIKOYAN 25 FOXBAT "WORLD FOXBAT" Iron aircraft

Virtually all stainless steel construction made the Foxbat stand out before it ever took wing. In the air, it really "took off". With an operational top speed of Mach 2.83, it was one of the fastest of all active-duty military aircraft. It was designed to fly high and fast in order to confront the threat from Cold-War era US recon planes and bombers. Along the way, this aircraft set world records that still stand. This limited edition **kit features** decals for Algerian, Ukrainian, and Soviet Air Force planes.

02221 (Limited Edition)      HSGS2221      Total Parts: 98      Skill Level: 3  
Length: 12.1 in (307 mm)      Wingspan: 7.7 in (195 mm)

### 1/72 P-38H/J LIGHTNING "EUROPEAN THEATRE" (TWO KITS)

Saw through some swastikas

With its combination of four .50 cal machine guns and one 20mm cannon, all clustered in the nose of the aircraft, the P-38 Lightning had a firing rate of roughly 4,000 rounds a minute. In every theater of the war that was plenty of firepower to bring the biggest birds down, and with the accuracy to get a good shot in at the nimblest, as well. In Europe, specifically, the type was also pressed into action as a fighter bomber. This limited edition **kit combo features** two P-38s with 8th Air Force decals.

02225 (Limited Edition)      HSGS2225      Total Parts: 63 x 2      Skill Level: 3  
Length: 6.3 in (160 mm)      Wingspan: 8.7 in (220 mm)

### 1/72 F-15J EAGLE "306SQ 35TH ANNIVERSARY" From Komatsu to you

Since 1958, the airbase at Komatsu has been operated by the Japan Air Self Defense Forces and as a civilian passenger and cargo hub. It's also a site for frequent Blue Impulse demonstrations and, since 2007, has been the station of a large number of F-15 fighters. A total of 213 F-15Js have been built for the JASDF, making it the primary air superiority aircraft for Japan. This limited edition **kit features** special decals for 303 and 306 squadrons at Komatsu Air Base.

02226 (Limited Edition)      HSGS2226      Total Parts: 138      Skill Level: 3  
Length: 10.5 in (267 mm)      Wingspan: 7 in (179 mm)

### 1/350 IJN DESTROYER TYPE KOH NOWAKI "SUPER DETAIL"

One of three for the Philippine Sea

With this set you can build any one of three IJN Destroyers including two that participated in the Battle of the Philippine Sea and one from the Battle of Midway. These vessels all carried six five-inch guns plus a battery of anti-aircraft guns and Long Lance torpedoes. Despite the power of the ships and the courage of their crews, all three were sunk by enemy action before the end of the war. This limited edition **kit features** detail-up photo-etched parts plus three sets of decals for Nowaki, Hamakaze, and Tanikaze.

40094 (Limited Edition)      HSGS4094      Total Parts: 210      Skill Level: 3  
Length: 13.7 in (347.5 mm)

AREA-88

NOW PRINTING

### 1/48 [AREA-88] A-4M SKYHAWK "GREG GATES" Accelerate your anime

Kaoru Shintani's action-packed manga, Area-88, debuted in 1979. It was an instant hit, exciting readers with the exploits of Shin Kazama, a mercenary fighter pilot stationed at a top-secret air base called Area-88. In both the anime and OVA, a bearded Danish mercenary named Greg Gates serves with Shin. He flies either an A-4 or an A-10. The series, which was praised for its white-knuckle dogfighting action, inspired multiple animated films and a television series. This limited edition **kit features** two marking options inspired by Japan's popular "Area-88" manga: Greg Gates and Campbell.

64747 (Limited Edition) HSGS4747 Total Parts: 138 Skill Level: 3  
Length: 10.1 in (256 mm) Wingspan: 7 in (177 mm)

### 1/48 F-4J PHANTOM II "VF-84 JOLLY ROGERS SUPER DETAIL" Heavy hitters on the wing

Though they only flew the F-4 Phantom II for 12 years, it's safe to say that the Jolly Rogers put it to good use. For seven months in 1965 VF-84 pilots flew over 1,500 combat sorties and smashed targets all over Vietnam. Later, the type was on guard in the Mediterranean as tensions rose and boiled over in the Middle East. This limited edition super detail **kit features** metal parts, photo-etched parts, vinyl cord and decals for VF-84 aboard USS Roosevelt Code: AE200 in 1972.

51044 (Limited Edition) HSGS5144 Skill Level: 3 Length: 14.6 in (370 mm)  
Wingspan: 9.6 in (244 mm)

### 1/72 EUROFIGHTER TYPHOON SINGLE SEATER "ACE COMBAT UPEO" Face the Estovakian Storm

Ace Combat 6: The Fires of Liberation pits pilots, once again, against an aggressive and superior force of invaders. Against such odds, the only defense is a fast plane and a faster trigger finger! Fortunately, Hasegawa can help you out with the plane. The Eurofighter Typhoon is one of the top aircraft currently available in the world inventory and you can get this one in a specialized "UPEO" livery that's straight from the DLC on Ace Combat 6. This limited edition **kit features** two special "UPEO" decals.

### 1/48 MESSERSCHMITT BF109 G-6/G-14 "HARTMANN" Build Bubi's bird

Erich "Bubi" Hartmann was the highest scoring fighter pilot in history with 352 confirmed air to air kills. His aircraft, the Bf109 G series introduced in 1942, included a more powerful DB 605 engine and a specialized black tulip pattern behind the engine. With it, Erich was able to execute extremely high speed hit and run attacks at close range before speeding away. This limited edition **kit features** a resin figure of Hartmann and two sets of decals.

### 1/72 SUKHOI SU-34/SU-32 FULLBACK Go further, hit harder

The Sukhoi Su-34 multirole combat aircraft (NATO codename "Fullback") is a Russian twin-engine, twin-seat fighter bomber able to perform strike, interdiction, ground and naval attack duties. It has a large, fully armored cockpit where the crew sit side by side. Two powerful Ljul'ka turbofans enable it to reach a maximum speed of Mach 1.8 and it has a maximum ferry range (without refueling) of nearly 2,500 miles. Weather and light levels don't affect its ability to direct its 30mm gun and up to 26,000 lbs of ordnance to target. **Kit features** decals for four versions.

1379S ITAS1379 Skill Level: 3 Length: 12.75 in (324mm)

### 1/24 20' CONTAINER TRAILER Moving the global economy

Designed to optimize the logistics of road transport, our trailer for 20' containers or swap bodies is inspired by the FCT model (fixed container transportation) produced by TecnoKar. Its carefully built structure offers the right balance between stability, sturdiness and durability. The fixed container transportation chassis is a steel H-beam chassis with a 2" fifth wheel coupling kingpin, Jost double-speed retractile oscillating rails, and twist arms with zinc-coated twists. **Kit features** highly detailed parts and full decals.

### AMT® 1/25 1953 FORD CONVERTIBLE Convert and cruise

Fresh off the battlefields of WWII, returning GIs wanted something that was fast and thrilling... something that would blow their hair back. The 1953 Ford Convertible fit the bill. It was perfectly priced for soldiers that were settling down to the business of building prosperity. Relive the nostalgic golden era of American automobiles with this classic 1953 Ford Convertible. **Kit features** top up or down option, Firestone whitewall tires, optional Continental kit and fender skirts.

AMTS1026/12 AMTS1026 Skill Level: 2

### AMT 1/20 1994 CHEVY CAMARO CONVERTIBLE Nineties nostalgia on four wheels

If you didn't love the nineties before, take just one look at the '94 Chevy Camaro and you will. These cars are winning combinations of sleek, fast, and attractive in a way that's hard to match by modern standards. Fourth generation Camaros continued the trend towards the knife-blade nose from the third generation—replacing the big, squared grill with a sleek hood slant. Plus, with either a V6 or V8 under that hood, the Camaro could really move. **Kit features** opening hood, detailed engine, complete suspension, detailed chassis, and molded in color parts.

AMT1030M/12 AMTS1030 Skill Level: 2

## AMT 1/25 2017 CHEVY CAMARO 1LE (SNAP) Made for the fearless

With the 2016 update to the Camaro lineup, Chevy brought back the mid-century muscle look and powered it with V6 or V8 engines in the 1LE variant. Gobs of pedal to the metal power rocket these beasts to the sixty mile an hour mark in nothing flat and keep on going. Plus, they don't look bad doing it, either. **Kit features** easy, glue-less assembly, modern tooling, special packaging, molded in color parts, and full instructions.

AMT1032M/12 AMTS1032 Skill Level: 1

## AMT 1/25 2017 CHEVY® CAMARO™ 50TH ANNIVERSARY Half a century of awesome

For fifty years, the Chevy Camaro has been turning heads. If that's not an anniversary to celebrate, I don't know what is. To recognize the milestone, Chevy designed the 50th anniversary edition Camaro. It's the kind of car you have to see to believe. It's built with clear influences from past editions of the Camaro but it's also uniquely its own machine. **Kit features** molded in color parts, super-detailed engine, detailed chassis and interior, poseable front wheels, and special, 50th anniversary wheel, chin spoiler, and grille parts.

AMTS1035M/12 AMTS1035 Skill Level: 2

## AMT 1/25 MACK R685ST SEMI TRACTOR Full pull

Work sites the world over recognize the power of the Mack truck. One of the most recognized of all Mack trucks is the R685ST. You might not know it by name, but you certainly have witnessed the results it offers! Frog logging, to construction, to trash hauling, and more, the R685ST is the modern workhorse that gets the most done. **Kit features** super-detailed engine, detailed chassis and interior, expanded decal art, and Retro Deluxe™ vintage packaging.

AMTS1039/06 AMTS1039 Total Parts: 200+ Skill Level: 3

## AMT 1/25 1951 CHEVY CONVERTIBLE Temptingly topless

Cruise on down to the drive-in for a flick. Hit up the diner for some burgers. Head on over to the soda fountain. With this nostalgic ride, the fifties come alive! It's perfect for making a spiffy stock replica or a custom ride with baby moon wheels, "stovebolt" 6-cylinder, and more. **Kit features** all new decals, vintage style packaging, detailed engine, full chassis and interior, and option of stock or custom versions.

AMTS1041/12 AMTS1041 Skill Level: 2

## AMT 1/32 1965 FORD MUSTANG FASTBACK All the horsepower in one place

More of a revolution than a car, the Mustang started the "pony car" craze and it's easy to see why. Americans simply could not pass up its combination of speed, power, sleek looks, and incredible affordability. In its introductory year, the Mustang set sales records and cruised into garages nationwide. For over fifty years, now, it has been a dream car for gearheads and classic car enthusiasts alike. **Kit features** simplified assembly, colorful decals, vintage-style packaging, and full instructions.

AMTS1042/12 AMTS1042 Skill Level: 2

## AMT 1/25 1960 FORD STARLINER Star studded performance

With its high trim level and powerful V-8 engine, it was easy to see why folks compared the Starliner to production jet fighters. It was a true jet age ride...sleek, fully equipped, and ready to take on the track or the grocery run at a moment's notice. Nearly seventy thousand were built in 1960, but the mark dropped to less than thirty thousand by 1961 and was replaced entirely by 1962. This built-in rarity and the stresses imposed by racing make the Starliner a rare catch. **Kit features** stock or custom versions, two complete engines with options, pad printed whitewall tires, and Retro Deluxe™ packaging.

AMTS1055/12 AMTS1055 Skill Level: 2

## BANDAI GUNDAM 1/144 U-WING FIGHTER AND TIE STRIKER ROGUE ONE Resist

How do you stop the most devastating weapon the galaxy has ever seen? Rogue One shows us the answer is in friendship, resolve, and having the right ship in the right place at the right time. In honor of Rogue One: A Star Wars Story, build the U-Wing troop transport and Tie Striker fighter from the film. Both crafts are capable of space and atmospheric flight and both play key roles in the Battle of Scarif. **Kit features** U-Wing, Tie Striker, and combat assault tank plus display stands, U-Wing laser effect parts, pilots, drivers, and full instructions.

212184 BANS2184 Total Parts: 5 Runners Length: (U-Wing): 6.5 in (165mm)  
Length (Tie Striker): 4.7 in (119mm) Length (Tank): 2 in (51mm)

## BANDAI GUNDAM 1/144 NEW GUNDAM FRAME IBO 2ND SEASON Back from the dead!

A ferocious, repaired form of Gundam Barbatos Lupus that has been created as a result of the intense damage from fighting the Mobile Armor Hashmal. Its massive arms have been recreated with razor tipped claws on the hands. Hashmal's tail weapon can extend from the back with the use of a wire. Also includes forearm compartments that open and close to reveal sub-arms for grasping additional weapons from the various IBO MS Option Sets. The largest mace for Barbatos has been included and includes retracting gimmick to store on rear skirt armor. **Kit features** full armament and instructions.

## MOEBIUS MODELS® 1/8 1966 RIDDLER

Riddle me this

What's malevolent, intelligent, and has terrible taste in unitards? If you answered "The Riddler" you should definitely pick up this amazing 1/8 scale Riddler figure. It's based on the famous Frank Gorshin portrayal of Riddler from the campy 1960's "Batman" TV series. Detailed sculpting by Jeff Yagher brings the questionably colorful Riddler to life! **Kit features** posed 9.5" Riddler model with batcave rock display base and nameplate.

## MPC 1/25 COCA COLA VENDING MACHINE SHOW ROD SE

Hot rod, cool drinks

If speed is your thing, but you want to keep your cool... look no further than the Coca Cola Vending Machine Show Rod. This machine is the wackiest thing on four wheels. Tricked out with a custom engine and all the right gear... and then loaded down with an epic Coke distribution system extraordinaire. It's unorthodox. It's insane. It's exactly what you need on your shelf.
