

## PRESS RELEASE

# DLE-85 Gasoline Engine

## Single cylinder power that's silky smooth

Vibration can be a real concern for a large-scale, single cylinder engine, but the DLE-85 keeps it in check with an included vibration-dampening engine mount. An extension on the exhaust lessens the chances of having to modify the cowl, and will flex or pop off during a hard landing, helping to protect the engine. Giant-scale pilots will appreciate the DLE-85's impressive power and performance — and it's a great value as well!

### FEATURES:

- Includes an engine mount specially designed to dampen vibration
- An exhaust extension on the included muffler aids in installation and helps protect the engine and muffler in the event of a hard landing
- The ignition module will accept input voltages from 4.8V to 8.4V, and is pre-wired for the optional DLE tachometer (DLEG5525)
- Suggested prop sizes: 25 x 10, 26 x 9, 27 x 8

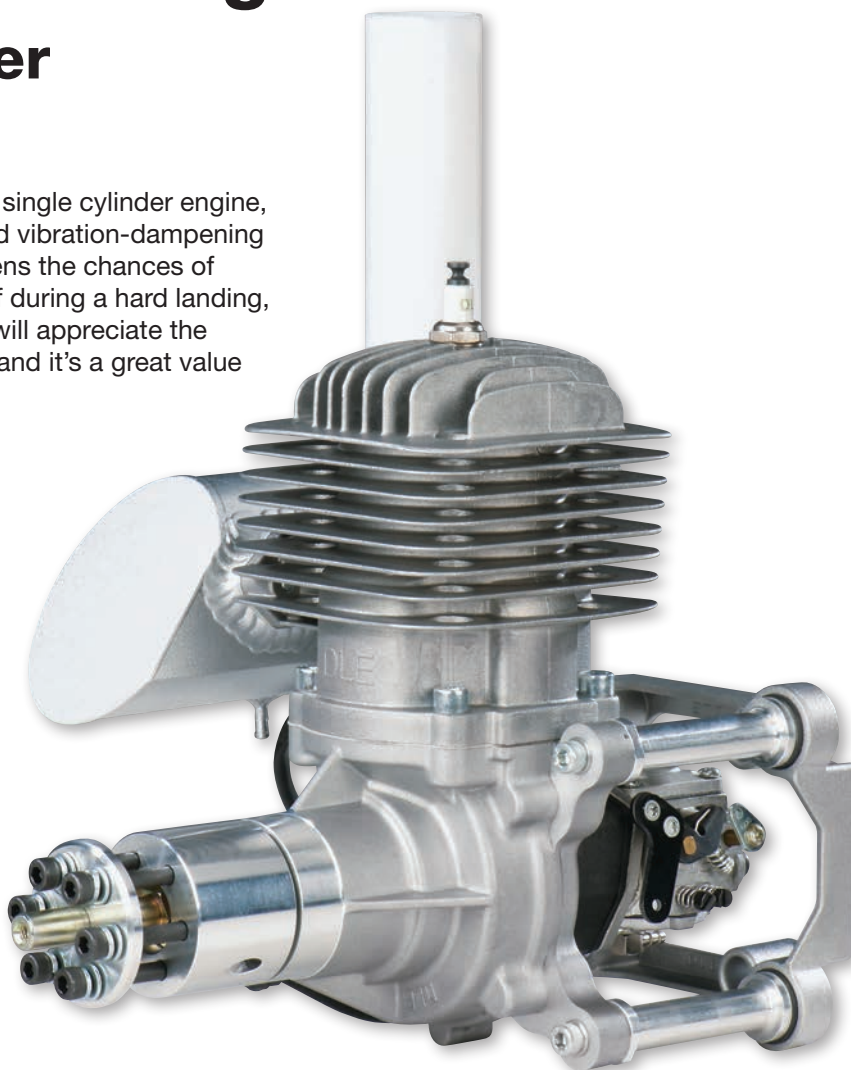

**Displacement:** 84.88 cc (5.18 cu in)

**Bore:** 2.047 in (52 mm)

**Stroke:** 1.574 in (40 mm)

**Total Weight:** 5.09 lb (2.31 kg)

**Output:** 8.5 hp @ 7500 rpm

With the DLE-85 you get an ignition module, engine standoffs, vibration-dampening engine mount, spark plug and muffler with exhaust extension.

The DLE-85's engine mount combats performance-robbing vibration, and unlike comparable engines, is standard equipment.

## Available: Late May

**Stock Number**  
DLEG0085

**Description**  
DLE-85 Gasoline Engine.....

**Advertised Price**  
\$549.99
