Super gripping power and durability for 1/8 scale buggies

Duratrax continues to offer tires that deliver top-end traction and quality construction at an affordable price. Three new tread designs have joined the 1/8 scale Competition Buggy lineup — Dinero, Score and Barz — giving off-road racers

more options for equipping their vehicles to meet specific track conditions and surfaces. Also now available: popular Bandito tires in sets mounted on white wheels.

FEATURES:

- Bandito tires now come in mounted tire/wheel sets in white
- Dinero tires offer excellent forward traction, predictable side bite and long wear characteristics
- The unique tread pattern on Score tires makes them ideal for hard packed dusty tracks
- Barz tires feature smaller pins for less pin flex — a great choice for hard packed indoor and outdoor clay surfaces
- All tires and wheels come in pairs; choose from two compounds: soft C2 and super-soft C3

Available: Now
