

F1 Rocket Evo Sport .46/EP ARF

Solid sport performance with speed on tap

Modeled after a full-size “kit” plane inspired by popular homebuilt RV aircraft, the F1 Rocket Evo ARF can go from relaxing “Sunday flier” to swift aerobatic performer. It can be powered by glow engine or brushless motor, both of which are capable and affordable.

Final assembly is minimal, with the all-wood airframe complemented by a fiberglass cowl and wheel pants. A colorful MonoKote® trim scheme is pre-applied, and a pilot figure is already installed. Quick to the flight line and nimble in the air, the F1 Rocket Evo ARF is sure to become a Sunday fun favorite!

Wingspan: 52 in (1320 mm)

Length: 44 in (1120 mm)

Wing Area: 448 in² (28.9 dm²)

Weight: 6-7 lb (2.7-3.1 kg)
