

Small Ball Link Pliers

Precision engineered for quick and easy removal of plastic ball links

No heli flight box is complete without ball link pliers, because pliers perform a variety of functions. They effortlessly remove ball links, and offer confident gripping power when adjusting pushrods and ball ends.

FEATURES:

- Designed to work with most smaller electric helis
- Made of hardened tool steel with vinyl-covered handles
- Also provides a secure hold when adjusting pushrods and ball ends
- The toothed portion will grip linkage rods during rod end adjustments

Available: Late June
