

Micro RS4 RTR w/1969 Ford Mustang RTR-X Body

Ready-To-Run 1/18 Scale Electric 4WD On-Road Car

Length: 8.6 in (220 mm)
Width: 4.1 in (105 mm)
Height: 3.2 in (80 mm)
Wheelbase: 5.5 in (140 mm)

Drive an iconic on-road competitor.

Small in size, this RS4 is BIG on fun! Just like it's 1/10 scale big brother, it comes with two sets of wheels and tires — one for drifting and one for racing. The licensed 1969 Ford Mustang body is painted and trimmed to replicate Vaughn Gittin Jr.'s "Need For Speed" street machine, and a 2.4GHz radio is included for right-out-of-the-box action. Performance is premium as well, with an HPI 180-size motor, ESC, full-time 4WD belt drive and waterproof steering servo.

FEATURES:

- Officially licensed replica of Vaughn Gittin Jr.'s 1969 Ford Mustang RTR-X
- Two sets of wheels/tires included for Drift and Grip action
- 4WD for maximum control and speed
- Belt drivetrain for efficient power transfer to front wheels
- Double-wishbone independent front suspension
- Coil-over inboard cantilever front shocks
- Front universal dogbones
- Rear straight axle for maximum drivetrain efficiency
- Fully equipped with ball bearings for maximum efficiency
- EN-2 electronic speed control for total control
- 2.4GHz radio system for long range reception, no frequency crystals needed
- 180-size motor for fast speeds and quick acceleration
- 6.0v 1200mAh battery for long driving times and plenty of power
- AC wall charger included for extra convenience
- 4 AA batteries included for transmitter
