Five New Ready-To-Run 1/18 Scale Brushless 4WD Vehicles

Brushless power ramps up the speed – and the fun!

Dromida is proud to unveil a new line of 1/18 scale vehicles with hobby-quality features – including exciting brushless power systems – at an affordable price.

Modelers of all skill levels will enjoy racing and bashing with these compact buggies and trucks – especially when they are all powered by brushless motors and ESCs, and capable of reaching speeds of 30+ mph (48+ km/h). Drop in a 2S LiPo battery (sold separately), and experience even greater performance! Each vehicle comes fully assembled and complete, with nothing left to buy; even “AA” batteries are included for the transmitter.

Driving these Dromida models is easy, even for beginners. The 2.4GHz radio system offers secure, interference-free control, and four-wheel drive aids in handling and traction. Waterproof electronics keep you going through hostile conditions.

With five different models to choose from, there’s sure to be a brushless Dromida vehicle to suit any driver’s tastes. R/Cers can learn more about this impressive lineup of value-packed vehicles at dromida.com.

FEATURES:

- Easy to drive for beginners
- Loads of fun for advanced drivers too
- Fully adjustable independent suspension
- Separate modular ESC, receiver and servo
- Big Bore oil shocks
- Shock towers with multiple mounting points
- High-traction tires with foam inserts
- Gear differentials
- 6V, 1300mAh NiMH rechargeable battery for extra-long run times
- AC wall charger & charge monitor
- Factory painted body with factory-applied decals
- Tough enough to bash outdoors, small enough to enjoy in a basement or on a garage floor
- Five different models to choose from
