

VISTA™

FPV Conversion Kit

Vista UAV not included.

Add First Person View to your Vista UAV!

Give your Vista UAV a First Person View upgrade with this easy-to-install FPV Conversion Kit!

Inside this package is the compact, versatile Tactic DroneView Wi-Fi HD FPV mini camera. It allows pilots to shoot 720p HD video and still photos in real time. Once you download the free DroneView app, you can stream videos and photos via Wi-Fi directly to your smart device. A 4GB micro memory card is also included for onboard data storage.

An ISO anti-vibration camera mount holds the DroneView in place for added stability. Use the included smartphone holder to keep your focus on flying!

Features:

- Tactic® DroneView™ Wi-Fi® HD FPV mini camera to capture photos and 720p HD video in real time. Compatible with the DroneView app.
- Camera attaches with an included ISO anti-vibration camera mount.
- Comes with a micro memory card for onboard storage; download data directly to your smart device via the DroneView app.
- Smartphone holder keeps your device at the optimum viewing angle, leaving both hands free for precise control.

Camera Dimensions: 1.2 x 2.6 x 0.5 in (30 x 65 x 12 mm)

Camera Operating Time: 45-60 minutes

Requires: Device for Android or Apple; DroneView app (download free from Google Play Store or App Store)

Look for DroneView mobile app coming soon to Google Play and App Store!
