## protoX<sup>vid</sup> Ready-To-Fly Nano-Sized Drone w/Camera

- **Diagonal:** 60 mm (2.36 in)
- **Weight:** 17 g (0.6 oz)
- **Requires:** (2) "AAA" batteries

### Estes Proto-X Vid Nano Drone w/Video Camera

It's small enough to fly anywhere indoors, while also shooting amazing videos! The Proto-X Vid measures less than 2-1/2" across, and comes equipped with a 480p video camera for recording all flights. It's easy to fly, with an Auto-Upright feature that self-corrects the drone for confident piloting and LED lights allow for easy tracking, day or night. The Proto-X Vid comes fully assembled and ready for indoor flying fun! It includes a 4-channel controller, USB charge cord, 4 spare blades, memory card and a card reader. Just install two "AAA" batteries and start flying, capturing the moment on video!

Perfect for indoor flying fun!

### Available in 2 colors

Comes with everything you see here.
