

# Cicada Brushless RTF Drone w/FPV Camera

## The complete package in fun and function

For those who have been shopping around to get the best value in a drone, the wait is over. The Cicada is one of the most versatile and adaptable quadcopters ever designed, with many popular features at an affordable price. The Cicada can be piloted several different ways using a device, and its brushless motors deliver the power for smooth flight and stable hovering. It's just the right size to fly virtually anywhere indoors or out, and the 1080p camera takes amazing videos and still photos.

**Diagonal dimension:** 170 mm (6.65 in)

**Weight w/battery:** 235 g (8.3 oz)

**Requires:** Elanview app, mini memory card and mobile device for iOS or Android

### FEATURES:

- A compact drone you can fly with your smartphone or tablet
- Pilot the Cicada using virtual sticks or buttons, an accelerometer, or by simply moving your device
- Fly indoors with ease, or outdoors with GPS guidance
- Take off or return to home with the slide of a button
- Fly at the speed you want — slow, medium or fast — for up to 15 minutes
- Lightweight ABS shell with 3-axis gyro, sensor and onboard barometer
- The HD digital 1080p video/16 MP still/10 MP burst photo camera is Wi-Fi enabled, and features EIS (Electronic Image Stabilizing)
- The camera rests in a foam-padded cradle with anti-vibration rubber grommets
- Onscreen displays alert you to status of battery voltage, GPS and Wi-Fi®

The Cicada comes fully assembled with lightweight ABS shell and 3-axis gyro, charger, batteries, extra propellers and screwdriver.

Includes two 7.4V 1000mAh rechargeable LiPo batteries provide plentiful power, along with the capability of up to 30 minutes of flight time.
