

R7018SB 2.4GHz FASSTest Dual Battery Receiver

Exceptional performance – for extra peace of mind

Perfect for Large Scale, Complex Multi-function Aircraft

Because it can be connected to large capacity batteries, the R7018SB can keep aircraft flying safely if one battery's voltage levels drop. The R7018SB is a fully dedicated 18-channel receiver with FASST and FASSTest protocols and SBus, SBus2 and High Voltage features. It includes both standard and SBus output ports, plus an extra voltage port for a model's separate power system, and also allows for a wide array of Futaba telemetry sensors to be utilized.

SPECIFICATIONS:
Dimensions: 2.15 x 1.59 x 0.64 in (54.6 x 40.4 x 16.3 mm)
Weight: 1.48 oz (42 g)

Available: Now
