## PRESS RELEASE

helimax-rc.com

# FORM 500

Ready-to-Fly 500-CLASS utility drone

Exceptional handling and flight stability are hallmarks of all Helimax drones, and the FORM500 is no exception, but what really makes this Utility Drone stand out is its adaptability. Accessory mounting rails make it easy to attach a wide variety of accessory kits—taking you far beyond the purview of the ubiquitous camera drone. Plus, the FORM500 is designed with extra lift capacity so that savvy hobbyists can equip virtually any helicopter accessory and still fly with full capabilities. The performance is exceptional, the possibilities are endless. So take it out of the box, fly it as the stock drone, then tinker with it and make it your own.

## ENJOY YOUR HOBBY YOUR WAY
