

PRESS RELEASE

SAVAGE XS FLUX

Ready-To-Run 4WD Brushless Mini Monster Truck

The world's fastest mini monster truck. Period.

The Savage XS with Ford SVT Raptor body packs everything awesome about Savage Flux engineering into a fun-sized performance package. It has the speed, durability and innovative TVP technology that made the Savage Flux an R/C legend...and at 2/3 the size, the compact Savage XS goes where the standard size Savage can't. A brushless power system gives this mini monster plenty of zip, while the detailed Ford SVT Raptor pickup truck body with "digital mud" graphics provides the perfect complement!

Length: 14.1 in (360 mm)

Width: 11 in (280 mm)
