Wheelbase (adjustable): 5.5 in (140 mm)
Requires: Nothing!

Real rally action that fits in the palm of your hand!

Meet the Ken Block 2015 Ford Fiesta ST RX43, the latest addition to the popular Micro RS4 vehicle lineup!

This officially licensed replica drives like a larger R/C car, thanks to a belt-drive 4WD drivetrain and a double wishbone independent front suspension.

Of course, Ken's impressive "Intergalactic" paint scheme is here, accurately represented by the car's colorfully painted and detailed body.

Like all Micro RS4s, this ready-to-run model is fully equipped for maximum convenience. It even includes a 5-cell 1200mAh NiMH battery, wall charger and "AA" batteries, so nothing extra is required!

FEATURES:

- Belt drive 4WD drivetrain
- 180-size motor
- EN-2 ESC
- 2.4GHz radio system
- Coil-over shocks
- Double wishbone independent front suspension
- Real rubber slicks
- Replica fifteen52 Turbomac wheels
- 5-cell 1200mAh NiMH battery, AC charger and 4 "AA" batteries

Available: December
