Porsche 911 GT3R Body**

One mean street machine.

Length: 17 in (431 mm)
Width: 7.4 in (190 mm)
Wheelbase: 10 in (255 mm)

With its 'urban camo' shark mouth trim scheme, this RS4 Sport 3 on-roader strikes fear into fellow competitors — and then backs it up with awesome Flux brushless power that can produce speeds of over 70 mph! The 4WD shaft drivetrain is fully contained to protect against extreme conditions, and threaded shocks and a double wishbone suspension make for smooth handling. Turn heads while taking the checkered flag with HPI's RS4 Sport 3 Flux racer, topped off with an aggressive-looking Porsche 911 body with Falken Tire markings!
