

O.S. Speed T1201 Touring

Turn tables at the track!

Made for competitors who need the most from their engine, the T1201 Speed from O.S. is a winning combination of factory-tuning, quality craftsmanship, and top-notch technology. It's designed to leave the competition spittin' grit and you grinning on the podium. Among its top features are a long stroke, hand-matched piston and cylinder, newly designed, low-CG cylinder head, slide valve carburetor, DLC Crankshaft, and more. It's the engine you need to stay top of the class.

Features:

- Hand-matched cylinder liner and piston for improved fit and seal
- Newly designed, light weight head with machined cooling holes and low CG
- Easy to use slide-valve 12F3 carb
- Rear ceramic ball bearings for reduced resistance
- New crankcase design provides efficient fuel flow from intake to exhaust
- DLC crankshaft with Tungsten weights and potted with silicone

Specifications:

Displacement: 0.128 cu in (2.1 cc)

Bore: 0.54 in (13.67 mm)

Stroke: 0.56 in (14.3 mm)

Practical RPM: 5,000-45,000

Output: 1.72 hp @ 35,000 rpm

Weight: 7.86 oz (223 g)

Includes: 12F3 carburetor, RP6 glow plug, exhaust seal ring, and dust cap set.

Requires: Exhaust system, glow fuel.

Available: March
