

# Brushless 700-800 Heli Motor 5830-490 FAI F3C

## Plenty of power for FAI F3C competitors

O.S. continues their line of best-selling heli motors with this latest model designed for 700-800 size helis. Ideal for FAI F3C competition, it features a newly developed stator which minimizes heat generation for an optimum balance of power output and consumption. Pair it with 12S LiPo power for the ultimate performance boost!

### Features

- Precision-engineered for high-performance 700-800 size helis.
- Heat-reducing stator improves power output and consumption.
- Designed for use with a (required) 12S LiPo.

**Outside Diameter:** 2.28 in (58 mm)  
**Rated Voltage:** 44.4  
**Rated Current (Amps):** 100  
**Maximum Current (Amps):** 150 (5 seconds)  
**kV Rating:** 490
