

BLX Series Vehicle Updates for 2016

BLX

TYPHON 6S

KRATON 6S

SENTON 6S

Bold new looks and performance enhancements for the BLX lineup!

Ever since they were introduced, BLX vehicles have led the way in style, performance, durability and innovation. Now these 4WD machines have taken all of those attributes to new levels, with comprehensive upgrades that put them even further ahead of the competition!

Features

- Waterproof BLX185 150A brushless ESC with 4-6S LiPo capability and simple push-button programming
- A BLX2050kV brushless motor for higher speeds and cooler running
- Reliable, confident control, courtesy of a Tactic TTX300 radio system
- A fully adjustable battery tray that accommodates two 2S or two 3S LiPos
- New servo saver springs, star washers, body clip retainers and rear wing mount
- The KRATON also features new front and rear hubs and high-traction dBoots™ Minokowa tires
- Exciting new body shell trim schemes for aggressive, head-turning looks
- A 35C 5000mAh LiPo battery with XT90 connector is the minimum recommended pack
