

Dromida 1/18 Scale Ready-To-Run Electric-Powered 4WD Rally Cars

DIDC0072

DIDC0076

Conquer rugged terrain!

With Dromida's Rally Car, Baja-style bashing is as close as your back yard. This vehicle is all about on-roading or off-roading with attitude, combining speed and handling with extraordinary toughness. Its Ready-To-Run convenience is a bonus that both R/C beginners and rally car fans will appreciate.

Take on unforgiving environments without fear: four-wheel drive, high-grip tires and waterproof electronics make you the master. A foam front bumper minimizes any impact damage to the rally-style body. And it comes with a 2.4GHz radio, NiMH battery and charger, so there's nothing left to buy.

The Rally Car powered by a Torque 370 brushed motor is priced to fit within the budget of any entry-level basher. For the driver looking for increased performance and greater speeds, there is also a version equipped with a 5300kV brushless motor and the capability to accept a LiPo battery. See more at dromida.com.

Features

- Extended chassis with countersunk screw holes
- Adjustable aluminum motor mount
- Printed and trimmed polycarbonate body
- Factory-installed motor, waterproof receiver/speed control and steering servo
- D100 2-channel 2.4GHz radio
