

Onyx 2S LiPo Batteries

Designed for exceptional sport performance.

Owners wanting manageable power for their 1/8 scale ARRMA 4WD BLX vehicles need to take a look at the Onyx 2S LiPos available now from Duratrax. These batteries deliver the power needed for intense competition whether you're at a track or in the back yard. Both feature efficient, low-resistance XT90 connectors to get the most out of every amp. They are available as a light, 5000mAh 35C hard case or a 6000mAh 50C soft case. View these and more at duratrax.com.

Specifications
