

PRESS RELEASE

Micro Calypso™ Sailplanes

cruise on air

If you're new to sailplanes, the Micro Calypso is the perfect place to start. Its docile character makes it easy to fly, and its fast assembly time means you can be up in the air in five minutes or less. Foam construction provides a durable foundation to endure everyday impacts. It's available as a RTF, but if you already have your favorite SLT transmitter, you can choose the Tx-R!

Features:

- quick assembly: less than 5 minutes
- RTF and Tx-R versions available
- lightweight, durable foam construction
- folding prop for best performance
- 1S 3.7V 200mAh LiPo battery included

Wingspan: 24.8 in (630 mm)

Wing Area: 66.2 in² (4.27 dm²)

Wing Loading: 4.15 oz/ft² (12.65 g/dm²)

RTF Weight: 1.9 oz (54 g)

Length: 19.1 in (485 mm)

RTF Requires: Nothing

Tx-R Requires: 4-channel SLT™ transmitter, (4) "AA" batteries

Available: May
