

# PowerBoost Pipe III 50/55HZ-H

## The perfect pipe for power, precision and aerobatics

Bolt on the PowerBoost Pipe III, and enjoy an instant power surge. Designed specifically for 55HZ heli engines, this third-generation O.S. pipe features a higher-capacity chamber that increases performance by 10% across the entire rpm range. This peak exhaust efficiency is perfectly complemented by a decrease in noise and ease of installation — other key advantages recognized by expert heli pilots.
