

# Grip the track and go

## DEX210<sup>v3</sup>

1/10 Scale 2WD Electric Buggy Kit

**Specifications:**

**Length:** 14.5 in (368 mm)

**Width:** 9.6 in (245 mm)

**Wheelbase:** 10.8-11.1 in (274-282 mm)

The upgrades to the DEX210v3 are subtle, but out on the track they change the game in a big way. The supreme adjustability of the Multi-Axle Driveshaft and multiple motor positions pays off when you blow through track conditions that have other drivers crashing. The patent-pending Multi-Axle Driveshaft allows for different length driveshafts—helping you get a grip on the track, and the winner’s trophy!

**Features**

- Evolved from the 2014 Euro champion DEX210
- Improved looks, durability, and tuning options
- Patented rear and mid, 4- and 3-gear layout options
- Medium 62.5mm and long 65mm driveshafts
- Upgraded body design
- New 12mm hex wheels
- Multi-axle wheel axles and driveshafts

**Requires:** 2-channel radio, motor, ESC, steering servo, pinion gear, tires, shock oil, 2S LiPo battery and compatible charger
