

Great Planes Dynaflite Series Bird of Time EP ARF

Electric Version of Soaring Icon

Introduced as a kit in 1981, the Bird of Time has proven to be timeless. The easy-to-assemble ARF version joined the original kit so that all sailplane enthusiasts could enjoy its relaxing, inspiring flight with less building time. Now this electric-powered Bird of Time EP ARF adds even more convenience. It can reach soaring altitude in seconds — no hi-start, tow plane or large launch area needed. With the recommended motor, one full battery charge can power many aggressive climbs to altitude!
