

Great Planes Giant Big Stik XL 55-61/EP ARF

The “Stik” design has been a favorite of sport pilots for years, and Great Planes is taking the classic Stik to new dimensions with the Almost-Ready-to-Fly Giant Big Stik XL. Its 96.5” wingspan commands attention, and it flies well with gasoline or electric power. Final assembly is easy and straightforward, and its flight characteristics make it a joy to fly. Everything that has made this iconic aircraft so popular is still here — with dimensions like you’ve never seen before. Get all the details by visiting greatplanes.com.

GPMA1225 Giant Big Stik XL 55-61/EP ARF \$499.99

Features

- The 8-foot wingspan adds unmatched stability and visibility
- Delivers impressive power-to-weight ratio with gas or electric power
- Transportation to and from the field is made easier with the two-piece wing that connects with a joiner tube
- A large hatch allows for easy LiPo battery changes or access to the fuel tank
